How to Develop, Produce, and Use SAFMEDS

STEPHEN A. GRAF (Youngstown State University)

Description:

SAFMEDS, an acronym for "Say All Fast Minute Every Day Shuffled", represent a procedure to promote fluency in verbal behavior developed by Ogden Lindsley some 15 years ago. Learners see information on the front of a card and attempt to say a brief appropriate response which can be found on the back. The use of the technique by Precision Teachers has provided an easy way to monitor learning large numbers of facts and concepts. Enhanced retention of material, endurance of behavior, ease of application to new material, and objective performance standards have been reported by users and practitioners.

Objectives:

Participants should be able to:

1. Develop sets of SAFMEDS for content areas in which they teach or train which conform to the rules provided and explained in the workshop.
2. Produce SAFMEDS masters from the Macintosh-based template for Microsoft Word provided to them as part of their materials.
3. Reproduce sets of SAFMEDS for students or trainees.
4. Implement use of SAFMEDS in various settings, structuring practice timings to interface smoothly within classroom or training sessions

Target Audience:

Participants in this workshop should either have competent subject matter repertoires and be interested in promoting fluent verbal behavior in specialty areas for students, clients or employees they teach or train

want to improve their own repertoires in a content area

Academic Level: Introductory

Workshop Fee: \$70

Panel on World Terrorist Behavior

Information and Prompts on Panel Format

Prior to Convention

Accompanying this sheet you should receive the eight pages of charted data:

- World Terrorist Incidents per year 1980-1995 (page 1)
- Regional Terrorist Incidents per year 1980-1995 (pages 2-7)
- World Population 1950-1995 (page 8)

Convention specifics

Panel Discussion: World Terrorist Behavior
Date: Sunday, 25 May 1997
Time: 11 AM -12:50 PM
Place: Chicago Ballroom IX, Sheraton Chicago Hotel, Chicago, IL
Equipment: Overhead projector and screen
Materials: Overhead transparencies of each of the eight pages of charts will be available

Panel event sequence

Introduction of Panel and preview of format by chair (2-5 minutes)

Opening statements by each panel member. This should tell the audience in one minute or less your main point or assertion and framework for your point of view. Should be short and simple (5 minutes)

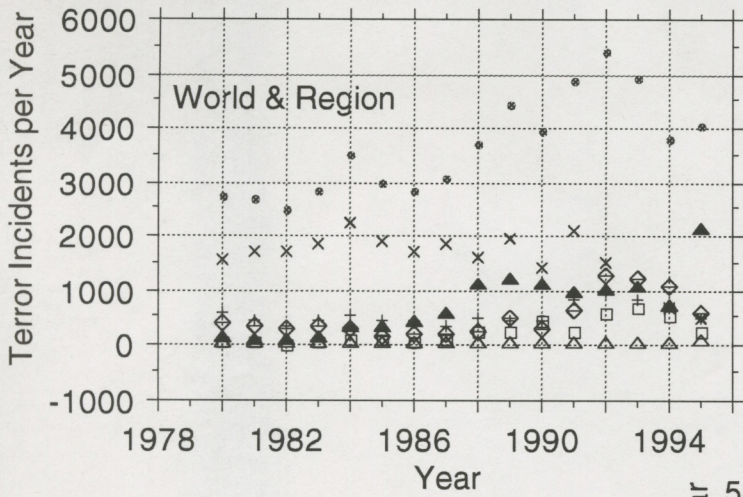

Ten minute briefing by each panel member. In this segment you present your case for analyzing world and regional terrorist behavior including proposed directions for solving the problem or problems (50-75 minutes)

Comments and questions from audience for the panel members (10 minutes)

Comments between panel members (15 minutes)

4. Abstract

Pinkerton Risk Assessment Services of Arlington, Virginia has compiled a 26-year world database of nearly 67,000 terrorist incidents. The world totals were broken down into seven geographical areas and seven different types of terrorist behavior. The Panel Chair requested and received this data, prepared various charts of it, and distributed these charts to each panel member to serve as a common backdrop for description, projections and views on the challenge of terrorism behavior.

An International Organization

The Association for Behavior Analysis

December 23, 1997

STEPHEN GRAF
7779 LEE RUN ROAD
YOUNGSTOWN OH 44514-2510

Dear STEPHEN GRAF:

Congratulations! The Program Committee has accepted your panel discussion proposal for presentation at the 1997 Annual Convention of the Association for Behavior Analysis. Attached is the scheduling information relevant to this event (submission number 301).

As corresponding author, you are responsible for the notification of all participants. This letter is the only notification that will be sent from ABA regarding this presentation. The chair of each panel discussion is expected to arrive 10 minutes prior to the start of the event, introduce the speakers, and monitor time so that the room is vacated for the next scheduled event.

We are anticipating a large convention attendance. Be sure to make your hotel reservation as soon as possible by contacting the Chicago Sheraton at 1-800-233-4100. You should identify the name of our group as *Association for Behavior Analysis* in order to get special room discounts. A reservation form is included.

ABA will provide basic audio/visual equipment including an overhead projector and a screen. If you need a slide projector for your presentation, ABA will provide this for you. Please let us know by filling out the attached form. Mail, e-mail, or fax this information to the ABA office. If your event requires additional equipment, you should make your own arrangements by contacting Matt LeVegue at the Chicago Sheraton at (312)329-6943.

If there is a book that you have authored or co-authored, or that relates to your presentation, that you would like convention attendees to be able to buy, please contact Pete Blowers at the ABA office. Phone: (616)387-8341. Fax: (616)387-8354. E-mail: PSY_ABA@wmich.edu Please provide a publisher contact that can provide pricing and availability information.

Thank you for contributing to the ABA Annual Convention.

Sincerely,

Maria E. Malott, Ph.D.
