From the Desk of the President

It is with great pride and not inconsiderable pleasure that we grace the cover of this issue of the Bulletin with the photograph of the President-Elect of the Woman's Auxiliary to the American Medical Association, Mrs. William Hiram Evans.

Those of us who know Dena have said for a long time that the honor she has now received would be hers, and we share in her reflected glory. No member of our Society or its Auxiliary has ever held a position of such note in the national organization. We are proud that Dena is one of ours and happy that the recognition she deserves has been duly accorded.

Congratulations, Dena, and you have the very best and sincerest good wishes of our entire Society for a successful term of office.

—Asher Randell, M.D. President

In Memoriam

DR. PAUL R. McCONNELL

Staunch of purpose, staunch of character, unerring in his course to attain that which he believed was right—these strengths are given to few of us. Such a man was Dr. Paul Rusk McConnell, who passed away on June 6, 1963. Dr. McConnell was born in southern Ohio and spent most of his life in this state. He attended Western Reserve University and the University of Colorado, from which he received his medical degree in 1927.

After graduation he served as intern and resident at the Youngstown Hospital Association, and obtained specialty training in Urology at New York Post-Graduate Memorial Hospital and the Bayonne, N.J. Hospital. He then came to Youngstown where he practiced his specialty until entering service with the U.S. Army Medical Corps in World War II. His tours of duty took him to Egypt, India, back to the United States for assignments at the Mayo General Hospital and Gardiner General Hospital at Chicago. Following these he concluded his service with duty tours in a number of southern areas. He then returned to Youngstown and conducted a most active practice until his death.

He belonged to many organizations, including the International and American Colleges of Surgeons, as well as our Mahoning County, Ohio, and American Medical Associations. He was a member of the U.S. Power Squadron, the Put-in-Bay Yacht Club, the Elks, and several Masonic Lodges, including William Farr Lodge, F.&.A.M. No. 672, Girard, Ohio; Ashlar Chapter, R.A.M. No. 213; Buechner Council No. 107; St. John's Commandery No. 20, Knights Templar; and the Ancient Accepted Scottish Rite, Youngstown.

He leaves his wife, Matilda; two sons, Dr. Robert McConnell of Youngstown, and Paul, Jr. of Rockford, Illinois; and a daughter, Miss Mary Ann McConnell of Youngstown, as well as four grandchildren.

We will miss this genial, generous gentleman, who has left behind him such a high level of achievement.

—Harold J. Reese, M.D.

Helps the epileptic to realize his potential DILANTIN (DIPHENYLHYDANTOIN SODIUM)

Effective in control of grand mal and psychomotor seizures, this agent "... has brought new hope to an entire generation of seizure patients..."*

Indications: Grand mal epilepsy and certain other convulsive states. Precautions: Toxic effects are infrequent: allergic phenomena such as polyarthropathy, fever, skin eruptions, and acute generalized morbilliform eruptions with or without fever. Rarely, dermatitis goes on to exfoliation with hepatitis, and further dosage is contraindicated. Eruptions then usually subside. Though mild and rarely an indication for stopping dosage, gingival hypertrophy, hirsutism, and excessive motor activity are occasionally encountered, especially in children, adolescents. and young adults. During initial treatment, minor side effects may include gastric distress, nausea, weight loss, transient nervousness, sleeplessness, and a feeling of unsteadiness. All usually subside with continued use. Megaloblastic anemia has been reported. Nystagmus may develop. Nystagmus in combination with diplopia and ataxia indicates dosage should be reduced. Periodic examination of the blood is advisable.

DILANTIN Sodium (diphenylhydantoin sodium) is available in several forms including Kapseals,® 0.03 Gm. and 0.1 Gm., bottles of 100 and 1,000.

PARKE, DAVIS & COMPANY, Detroit 32, Michiga

NATIONAL AUXILIARY HONORS MRS. EVANS

The Mahoning County Medical Society is proud and honored that a member of the Woman's Auxiliary to this Society should be nominated to reach the highest position attainable in Auxiliary work. We join with the entire American medical profession in acknowledging Mrs. W. H. Evans, next president of the Woman's Auxiliary to the American Medical Association. She was elected president-elect at Atlantic City last month. She is the first Ohio woman to hold this honor.

Mrs. Evans (her friends call her Dena), has been an active leader in medical auxiliary affairs. She was president of the Woman's Auxiliary to the Mahoning County Medical Society in 1951 and of the Woman's Auxiliary to the Ohio State Medical Association in 1957. She is a past regional vice president, director and constitutional secretary of the Woman's Auxiliary to the American Medical Association.

While Dr. Evans was in the Pacific during World War II she served as a volunteer emergency case worker for service men and their families in the Home Service Department of the San Francisco Chapter of the American Red Cross. She also served as a volunteer for the War Information Center of the San Francisco War Council, and the American Woman's Volunteer Service. She was vice-chairman of the Admission Department in charge of volunteer personnel for a branch of the American Theater Wing. During the last year of the war she served as a volunteer in the Norfolk, Virginia Chapter of the American Red Cross.

For several years following her return to Youngstown she took case histories in the out-patient department of the Woodside Receiving Hospital, a project of the Mahoning County Auxiliary. She became Recruitment Chairman for donors in the Red Cross blood program while it was active in Youngstown and is serving as Chairman of Recruitment and Training of volunteers for the Mahoning County Chapter.

Because of her experience and training, Mrs. Evans was selected to design the first pin for past presidents of the Ohio Medical Auxiliary and later another pin to be used by past presidents of the county auxiliaries.

During the meeting a check for \$278,410.35 was presented to the American Medical Association Education and Research Foundation by the Woman's Auxiliary to the American Medical Association. The total was \$34,513.13 more than the 1962 contribution, a 14.4% increase.

The award for the largest contribution by a state auxiliary went to the Ohio Auxiliary, with a total of \$33,702.52 and an award was given to Medina County auxiliary, with a membership of 26 members, for a contribution of over \$3,000.00.

The Ethel Gastineau trophy was awarded jointly to the Woman's Auxiliary to the Ohio State Medical Association and the Woman's Auxiliary to the Tennessee Medical Association, in recognition of their outstanding service to the American Medical Association Education and Research Foundation.

Following her election to the office of President-elect, Mrs. Evans was the subject of a glowing editorial in The Vindicator and received a WKBN Merit Award.

NEW APPOINTMENTS

Dr. Morris S. Rosenblum has been appointed representative from the Mahoning County Medical Society to the Health and Welfare Council of the Community Corporation.

Dr. Kurt Wegner has been appointed to the Board of the Mahoning County Chapter of the National Foundation.

MEDICAL ASSISTANTS SOCIETY OF MAHONING COUNTY

May was a very busy month for our Society. The Annual Style Show and Card Party was held on May 2nd. Thanks to all concerned it was a tremendous success with over 850 people present. If this is any forecast of next year we will have to look for larger accommodations. The proceeds will go toward the Educational Fund for the Medical Assistants.

On May 24, 25 and 26th the Ohio State Medical Assistants Society held their 6th Annual Convention in Columbus. Those attending from Youngstown were: Mrs. Bea Collins, Miss Dorothy Klein, Mrs. Louise Ferguson, Mrs. Dorothy Pyatch, Mrs. Selma Popa, Miss Mildred Butcher, Mrs. Candy Shufflebarger and Mrs. Louise Lacivita. Miss Dorothy Klein was elected to the Board of Directors representing the Sixth District. A workshop was held on Friday at Ohio State University and the Ohio Vocational Rehabilitation Center. Saturday while the House of Delegates met several interesting pragrams were in session. On June 4th Mrs. Paul McConnell showed slides of her trip around the world. In July the girls are looking forward to the Annual Picnic at Dr. Marinelli's farm. On Sunday, October 27th we will conduct our Second Annual Workshop. This year we are planning a full day program. Doctors, please encourage your girls to plan ahead for this educational program. Further information will be coming your way at a later date.

PHYSICIANS ENIOY LILLY TOUR

Pictured in front of the Lilly Research Laboratories are (front row): Dr. Richard Roland, Dr. U. A. Melaragno, Dr. Walter J. Tims, Dr. C. F. Wagner, Dr. H. S. Banninga, Dr. Nicholas Salistean, Dr. John F. Stotler, Dr. Joseph V. Newsome, Dr. L. H. Getty, Mr. Robert McGivern; (back row) Dr. Frederick L. Schellhase, Dr. Joseph B. Kupec, Dr. Harold Chevlen.

A number of area physicians and their wives were guests of the Eli Lilly Company in Indianapolis last month.

The group took a tour of the manufacturing plant as well as the research facilities. The program was lighlighted by three scientific lectures given by members of the company's clinical staff. A visit to the Indianapolis Race Track ended the three day visit.

The consensus of opinion is that Eli Lilly and their representatives were most gracious hosts and spared no effort to make this trip a memorable occasion.

-R. Roland, M.D.

JUNE MEETING

The regular meeting of the Mahoning County Medical Society was held on Tuesday, June 18, 1963 at the Mural Room, Youngstown, Ohio.

The meeting was called to order at 7:45 p.m., Dr. Asher Randell, president, presiding.

The minutes of the previous meeting were read and approved.

The applications of Dr. Robert John Hritzo and Dr. Richard J. Jarvis for associate membership were read.

The following names, proposed for honorary membership were read by the secretary:

Dr. L. A. Blum

Dr. J. U. Buchanan

Dr. P. H. Kennedy

Dr. H. S. Zeve

Because less than the 61 members required for a quorum were present, no further business could be transacted.

STARTING TOMORROW MORNING this capsule can help one of your overweight patients do without her favorite (fattening) foods at meals—and during all the hours in between.

Dexamyl® Spansule® Trademark brand of sustained release capsules

Each No. 2 capsule contains 15 mg. of Dexedrine® (brand of dextro amphetamine sulfate) and 1½ gr. of amobarbital, derivative of barbituric acid [Warning, may be habit forming]. Each No. 1 capsule contains 10 mg. of Dexedrine (brand of dextro amphetamine sulfate) and 1 gr. of amobarbital [Warning, may be habit forming].

The active ingredients of the 'Spansule' capsule are so prepared that a therapeutic dose is released promptly and the remaining medication, released gradually and without interruption, sustains the effect for 10

INDICATIONS: (1) For control of appetite in overweight; (2) for mood elevation in depressive states.

USUAL DOSAGE: One 'Dexamyl' Spansule capsule taken in the morning.

SIDE EFFECTS: Insomnia, excitability and increased motor activity are infrequent and ordinarily mild.

CAUTIONS: Use with caution in patients hypersensitive to sympathomimetics or barbiturates and in coronary or cardiovascular disease or severe hypertension. Excessive use of the amphetamines by unstable individuals may result in a psychological dependence; in these rare instances withdrawal of medication is recommended. It is generally recognized that in pregnant patients all medications should be used cautiously, especially in the first trimester.

SUPPLIED: Bottles of 50 capsules.

Smith Kline & French Laboratories

Prescribing information Jan. 1963

Bulletin Board

June is a month of graduation, reunions, farewells and just plain sifting and shifting of personnel. On May 29th the annual Recognition Dinner given by the Youngstown Hospital Association for our departing residents and internes was held at The Mural Room. Thirty-two from our house staff were honored and presented keys. Dr. Richard Jarvis, our chief resident in surgery, plans to remain in town. Also Dr. Conner White plans to do general practice at least temporarily until the military calls for his services. On July 1st forty-two new internes and residents will be starting their training at The Youngtown Hospitals.

On June 13, 1963 the annual ex-interne reunion was held at the South unit in the morning and at the General Fireproofing Picnic Grounds in the afternoon and evening. At the morning scientific meeting, talks were given by Drs. Frank Inui, A. Earl Brant, William Bunn and Lois Zimmerman. The sports program in the afternoon resulted in many a sore muscle and aching bones the next day. Bob Fisher and Bill Loeser supplied the organ music for dinner. The buffet style dinner was eagerly consumed at six followed by a brief informal business meeting. Dr. Robert Warnock was re-elected president and Bill Bunn secretary-treasurer of our ex-interne group. A. E. Brant won the door prize.

Many of our staff had children graduating from college. Barclay Brandmiller attended graduation ceremonies for his daughter at Wittenberg College. Dr. Gabriel DeCicco saw his son graduate at Denison and also attended the 30th re-union of his class. Dr. Raymond Lupse was awarded a certificate of merit during alumni day activities at Ohio University.

By the time this article appears many of us will be on vacation. The great outdoors, especially the lakes and rivers will attract most of us. Dr. and Mrs. F. A. Friedrich are spending time in Northern Michigan. Dr. and Mrs. R. R. Fisher will be visiting the Thousand Islands in the St. Lawrence River. Dr. and Mrs. J. A. Altdoerffer spent an interesting week attending a clinic in conservation and wildlife in Ohio sponsored by the Ohio Forestry Association. The past winter was a hard one and we wish all our members a well deserved, safe and healthy summer.

—John G. Guju, M.D.

Bill Evans is basking in the reflected glory of his charming wife, Dena. Mrs. Evans was recently chosen as president-elect of the Woman's Auxiliary to the AMA. It seems to run in the family. Bill is a past president of the medical Staff of St. Elizabeth Hospital, as well as the Medical Society.

Speaking of past presidents . . . a nice touch was added to the recent going away party for the departing interns and residents. Five past presidents

were honored and presented with momentos of their service. This distinguished group included: Bill Neidus, Bill Evans, Robert Poling, and "Doctor Mac" McNamara. Ed Pichette gave the occasion an unusual twist by asking the wives of the departing house officers to step up and receive the certificates for their husbands.

Vacations are in style for the staff. Sid Davidow went to Cape Cod for some fishing and Bill Cleary just returned from a trip to Canada. Bill was talking about his trip the other morning and one of the interested listeners was Mike Vuksta. Bill went on at great length talking about that great Canadian fishing and the large variety of waterfowl he had seen. He talked about wild ducks, and geese and all the rest, saying what good hunting they were in season. Bill added that he had seen a lot of Lake Loons. In telling about them he pointed out that nobody hunted Loons. "Too small?" inquired Vuksta. "No, actually they are larger than a duck and just a little smaller than a goose," Cleary said. "Hard to hunt?" Vuksta pressed on. "No" came the reply. At this point the Violent Vuksta was about ready to pop and he blurted out, "Well, why don't they hunt them?" Cleary looked at him for just a second then said simply, "Because they taste terrible." End of conversation.

Bert Firestone has just about used up all the good listeners in telling about his recent trip to the Orient. He told of the wonderful clothing buys in Hong Kong and the tremendous savings on hand made shoes. Now when all of his friends hoped that he had reached the end of things to talk about ... Bert comes along and scores a hole in one at Squaw Creek. We can brace

ourselves to hear a detailed account of this latest feat.

One of the best things to report in this issue is that Dick Clifford is on the mend. It's good to see him up and around again and we wish him a speedy and complete recovery.

-Kurt Wegner, M.D.

Dr. Sidney Franklin was elected a Director of the American College of Legal Medicine at the annual meeting in Atlantic City, New Jersey.

Dr. Salistean and Dr. Berke have put in some reserve time at Camp A. P. Hill in Virginia. Dr. Berke has been promoted to the rank of Lt. Col. in the Army Reserve Medical Corps.

DR. C. L. WORLEY

Physicians of the Medical Society, and especially those who attended the Seminars during the past three years, were saddened by the passing of Dr.

C. L. Worley.

Dr. Worley was chairman of the Biology Department of Youngstown University, and was the University representative most responsible for setting up the original seminar in the spring of 1961. Under his guidance and supervision, three successful seminars were enjoyed by members of the medical profession and their wives.

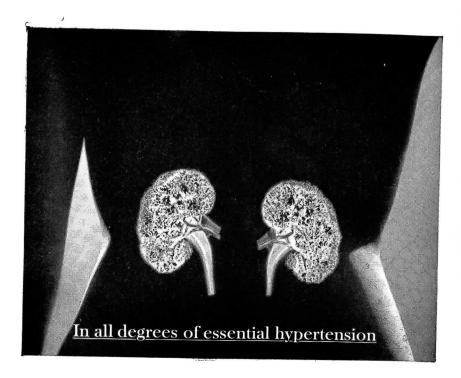

Dr. Worley was author of a text-book, "The Basic Principles of General Biology", was a member of the American Association for the Advancement of Science, the Ohio and the Tennessee Academies of Science and achieved

many honors in his field.

His death on June 19 was sudden and unexpected. Dr. Worley was 51.

5,052,253 PRESCRIPTIONS! That's the number filled last year by Peoples Drug Stores, an increase of 627,779 over 1961. Impressive figure, impressive public confidence ... because behind all prescribed medicine at Peoples is confidence — in the physician who prescribes it, the manufacturer who makes it, the pharmacist who fills the prescription. We are proud to share this confidence with physician and drug manufacturer. At Peoples, nothing is so important as prescriptions!

Help protect the kidneys and other threatened organs

Because Rautrax-N lowers blood pressure so effectively, it helps provide important protection for the kidneys and also for the heart and brain of your hypertensive patients.

Rautrax-N is effective in mild,1 moderate,1,2 or severe hypertension.2,3

Dosage: Initially, 1 to 4 tablets daily preferably at mealtime. Maintenance, 1 or 2 tablets daily. Side effects and precautions: Rauwolfia preparations may cause reversible extrapyramidal symptoms and emotional depression. Caution indicated in use with depression, suicidal tendencies, peptic ulcer. Minor side effects: diarrhea, weight gain, nausea, drowsiness. Bendroflumethiazide may cause reversible hyperuricemia and/or gout, unmask latent diabetes, increase glycosuria in diabetics. Caution indicated in use for patients on digitalis, with severely damaged kidneys, renal insufficiency, increasing azotemia, cirrhosis. Contraindicated in complete renal shutdown. Minor side effects: leg or abdominal cramps, pruritis, paresthesias, mild rashes. Supply: Rautrax-N-capsuleshaped tablets-50 mg. Raudixin® [Rauwolfia serpentina whole root], 4 mg. Naturetin® [bendroflumethiazide], 400 mg. potassium chloride. Rautrax-N Modified-capsuleshaped tablets - 50 mg. Raudixin [Rauwolfia serpentina whole root], 2 mg. Naturetin [bendroflumethiazide], and 400 mg. potassium chloride. For full information, see your Squibb Product Reference or Product Brief.

RAUTRAX²-N RAUWOLFIA SERPENTINA WHOLE ROOT (50 MG.) BENDROFLUMETHIAZIDE (4 MG.) WITH POTASSIUM CHLORIDE (400 MG.), SQUIBB

THIRTY YEARS AGO-JULY, 1933

The course in Neurology given by Dr. Karnosh from Cleveland was being given in the auditorium of Youngstown College.

The annual golf outing was announced to be held at the Squaw Creek

Country Club, greens fees and chicken dinner for one dollar.

There were no antibiotics, antihistamines nor anti-cholinergics. The advertisements promoted Agarlatum for constipation, antiphlogistine for congestion, Gambir Corrective Mixture for diarrhea and Kaomul for calcium deficiencies.

H. E. Chalker became a member. Dr. Hathhorn reported a successful campaign for diphtheria immunization of school children. Those days children were given the Schick test first and positive reactors were given toxin-antitoxin.

TWENTY YEARS AGO—JULY, 1943

The President's Page was written by Dr. W. H. Evans and sent in from somewhere in the Pacific. He found out about his promotion to Commander through letters from home before the official word came through channels.

Major John E. L. Keyes wrote from Bushnell General Hospital and warned us to be careful in the use of penicillin. Capt. Harry Chalker was about to push off from Seattle. Capt. Sidney Davidow was given a course in tropical medicine and then sent to a climate where he couldn't use it.

Joseph F. Nagle died June 13th, a casualty in service on the home front. He was loved by all who knew him and was often warned that he was working beyond his endurance.

TEN YEARS AGO—JULY, 1953

President Goodwin was urging more action in promoting legislation to acquire a full time Health Commissioner.

Extension of the Doctor Draft Law was passed by unanimous vote in the House of Representatives. The ratio of doctors was cut to 3.5 per 1,000 men. In civil life there was one doctor for every 730 persons (3.5 per 10,950).

Since the Korean War in 1950, 12,527 physicians had been inducted into the armed services. Of these, 24 were drafted as enlisted men but 18 were commissioned later. Six were denied commissions because of questionable loyalty.

The annual golf outing was announced at the Youngstown Country Club: Greens fees and prize pool \$6.00, dinner \$5.00.

St. Elizabeth's Hospital brought Dr. Hugh Hussey, then Professor of Medicine at Georgetown University here for their internes reunion.

Youngstown Hospital's former internes enjoyed α tour of the new South Side Unit and α ball game at Coalburg Lake.

Robert A. Brown became a member of the Society.

Dr. Milton Hayes died at the age of 85. He was a 50 year member, a former county coroner and prominent Mason.

There were 2 cases of typhoid fever, 17 of gonorrhea, 24 of syphilis, 11 tuberculosis and 36 of measles, in Youngstown that month.

—J. L. F.

LABORATORY SERVICES AND THE RHEUMATIC FEVER PROGRAM LABORATORY SERVICES

The Youngstown Department of Health laboratory performs tests on raw and finished milks, including lactometer readings for specific gravity and temperature, butter-fats, total sediments, phosphatase and laboratory pasteurization, analysis of water and food, agglutination tests only on the Salmonella-Shigella group in feces, cultures of stool and urine, smears for gonorrhea and dark field examinations.

Immunizing materials furnished physicians as necessary upon request, includes Diphtheria Toxoid-Pertussis Vaccine-Tetanus Toxoid (Triple) Vaccine, Poliomyelitis Vaccine, Typhoid-Paratyphoid Vaccine, Smallpox Vaccine, and

also Gamma Globulin (Human), if the required report is made.

The laboratory in the Ohio Department of Health, Northeast District Office, Cuyahoga Falls also performs diphtheria cultures, blood cultures, sputum cultures for tuberculosis, rabies tests, Kline, Kahn, VDRL and Mazzini tests, and Kolmer-Wasserman-Complement-fixation tests on sera and spinal fluid.

In addition, the laboratory of the Ohio Department of Health in Columbus also tests blood for its chemical constituents, physiological and general, including lead poisoning.

THE RHEUMATIC FEVER PROGRAM

Rheumatic Fever and its complications continue to be a major medical and public health problem in the State of Ohio. Most of the deaths due to Rheumatic Fever have been in the 20-44 year age group; those from Rheumatic Heart Disease were in the 45-64 year age group.

In 1957 a prevention program for the control of secondary attacks of Rheumatic Fever was initiated by the Ohio Department of Health with cooperation of the Ohio State Medical, Pharmaceutical, and Heart Associations. The program has been expanded and improved.

The program is coordinated by the Ohio Department of Health, Division of Chronic Disease, Heart Disease Control Unit. It receives the drug applications and reorder forms from and distributes the prophylactic drugs to the local health departments, and maintains the central registry file.

Anyone who had or has Rheumatic Fever, regardless of age or financial status is eligible for enrollment. Patients who had glomerulonephritis are

also eligible, provided that they had Rheumatic Fever.

The enrollment application and/or reorder form for this program is obtained upon request from our office in the City Building, completed by the physician and returned. The Youngstown City Health Department approves and then forwards the application form to the State Heatlh Department, Heart Disease Control Unit. Drugs must be reordered every four months by the physician. The drugs are either picked up at our office by the patients or are sent by our office to the patient or physician. In the near future, information regarding the cardiopathies will be a part of the enrollment application.

The drugs distributed by this program are Oral Penicillin-G 400,000 Unit scored tablets, Intramuscular Bicillin 1,200,000 Units with disposable syringes, and Sulfadiazine 500 mg tablets. The recommended doses of the drugs are those of the American Heart Association; however, the final decision on the drug to be used and the dose of that drug rests with the individual physician caring for the patient, and the requested amount of drug is supplied provided the request is within reason. A prophylactic program should either have follow-up as an integral part or at least have plans for such activity.

The required forms to be completed are as follows:

DR. TOM SWIFT

Not to be outdone by Time and Life magazines, the Bulletin presents this compendium of medical Tom Swifties, and invites the reader to try his hand at the latest national fad.

"I'm here to see the doctor," said Tom, patiently.

"I'm glad my electrocardiogram turned out alright," said Tom, whole-heartedly.

"I think I broke my ankle," said Tom, lamely.

"I fell and hurt my arm," said Tom, brokenly.

"Scalpel!" said Dr. Tom, sharply.

"I'm here to see Dr. Morrison," said Tom, frankly.

"I'm here to see Dr. Wegner," said Tom, curtly.

"We're going to have to put that elbow in a cast," said Dr. Sofranec and Dr. Charlebois, jointly.

"This is a case for the coroner," said Tom, gravely.

"My feet hurt," said Tom, flatly.

"My feet feel fine," said Tom, archly.

"Cancel my hospitalization," said Tom, bluely and crossly.

"I cut my wrist severely," said Tom, offhandedly.

"I was stabbed and lost my right ventricle," said Tom, half-heartedly.

"We closed the office on the 4th of July," said the doctor, independently.

 $^{\prime\prime} I$ broke my finger playing baseball," said the executive secretary, gamely.

APOTHECARY CORNER

With deep appreciation for the allotted space, we of the Pharmacy profession, will attempt to provide some information that will not only be of interest, but prove to be of value in one way or another, to you, our allies, in the Medical profession.

One of the biggest discussions at the recent Ohio State Pharmacy Convention was a debate whether to restrict Paregoric sales to strictly prescription or to continue to permit the over-the-counter sale of one ounce of paregoric (as an exempt narcotic) to a person within any forty-eight consecutive hour period. There is constant abuse prevalent due to addicts, and one gross violation in the State was uncovered by inspectors in which one drug outlet had dispensed in excess of 450 gallons of paregoric within a year's time.

Thanks to the new Dangerous Drug Law, funds have been made available which provide additional inspectors, and far better surveilance and control is now available. These inspectors are not only responsible for drug stores, but nursing homes, industrial first aid rooms, doctors' offices, and any outlets handling narcotic, barbiturate, and dangerous drugs.

Fictitious names have often been signed in the exempt narcotic register (along with similar addresses) on the purchase of Paregoric, but this too will be corrected shortly, as a new law is about to take effect that will provide penalty for such action. We in Pharmacy well appreciate the true value and purpose of paregoric as a medicine; but, we also are constantly under pressure from the addict, and have to use our best discretion and judgement as to whether the customer is an addict.

On more than one occasion, addicts have altered written prescriptions to increase quantities and it takes alertness on the part of the pharmacist to determine the falsified portion. Many devious methods for obtaining drugs falsely are developed; just the other day a local pharmacist had a telephone call from a person saying he was a local doctor, and that he was sending a patient named Mr. Kramer in for thirty 15 mgm. Desoxyn gradumets, give him one three times a day. The pharmacist was somewhat suspicious and called the physician back, only to find that he had never made such a call, and said that his patients were all women.

The making or uttering of any false or forged prescription, or illegally obtaining a narcotic drug by fraud, deceit, misrepresentation, or subterfuge, or concealment of material fact, now has a first offense penalty of not more than ten thousand dollars fine, and imprisonment not less than two nor more than five years. Even with such a threat or penalty as the danger involved, the risk seems to be a temptation to many, even in the teen-age category. All this serves to emphasize more than ever, the need for a strong bond of understanding between Medicine and Pharmacy.

-Bob White, Public Relations Chairman Northeastern Ohio Pharmaceutical Association

AMERICANISM

If you want your mother to take care of you, that's maternalism. If you want your brother to take care of you, that's fraternalism. If you want your government to take care of you, that's socialism. If you want your comrade to take care of you, that's communism. But, if you want to take care of yourself, that's AMERICANISM.

NEW APPLICANTS

The following applications have been read before the Council of the Mahoning County Medical Society:

ASSOCIATE MEMBER

Robert J. Hritzo, 630 Gypsy Lane, Youngstown, Ohio Richard J. Jarvis, 64 Ridge Ave., Youngstown, Ohio

The above applicants will become members of the Medical Society within fifteen days after publication in the Bulletin unless objection is filed in writing with the secretary during that time.

SMOKING EFFECTS SHOWN

A hard-hitting program on the effects of smoking was presented to 35 junior and senior high school classes and assemblies during the past year by the Mahoning County Unit of the American Cancer Society in cooperation with the Youngstown Hearing and Speech Center and the Mahoning Valley New Voice Club.

The program entitled "Is Smoking Worth It", consists of a film followed by a demonstration of esophageal speech by laryngectomees and cured lung cancer volunteers, and a question and answer period. Over 25,000 local students saw the presentation.

undisturbed by allergic symptoms

Co-Pyronil gives relief in minutes for hours; provides smooth, continuous symptomatic control of allergies—virtually without side-effects. In a dosage form for every allergic patient.
• Pulvules® • Suspension.
• Pediatric Pulvules

Co-Pyronil® Pyrrobutamine Compound

358012 Additional information available upon request. Eli Lilly and Company, Indianapolis 6, Indiana. Lilly

In summary: Pulvules Co-Pyronil combine 25 mg. Histadyl® (methapyrilene hydrochloride, Lilly) and 15 mg. Pyronil® (pyrrobutamine, Lilly) with 12.5 mg. Clopane® Hydrochloride (cyclopentamine hydrochloride, Lilly). Co-Pyronil is indicated for the relief of ocular and nasal symptoms of hay fever and for vasomotor rhinitis, urticaria, angioneurotic edema, and other allergic symptoms. Drowsiness is sometimes reported at the beginning of treatment but is usually transient. In rare instances, signs and symptoms of sympathetic overstimulation may be noted with the use of vasoconstrictors. Since Co-Pyronil contains a sympathomimetic drug, it should be used with caution in the presence of hypertension, cardiovascular-renal disease, and hyperthyroidism.

Also available as Suspension and Pediatric Pulvules in half-strength dosage.
