**REMINDER:
Last Senate meeting of the academic year will be held on Wednesday, April 29, 2020**

Recognition of YSU National Champions

I move to recognize YSU's most recent national champions and to have the following statement placed prominently within the minutes of today's Senate meeting:

Without question, the greatest accomplishment of an academic institution is the unqualified success of its students. To this end, the Academic Senate of Youngstown State University is pleased to present and honor the University's newest national champions. It is with enormous pride that the Senate recognizes the supreme efforts and ultimate success of Team YSU, comprised of Samantha Fritz, Jacob Tomory, Moataz Abdelrasoul, Eva Lamberson, and Michael Factor, who recently defeated all opponents in the Association for Practical and Professional Ethics Intercollegiate Ethics Bowl. This team, superbly mentored by faculty members Dr. Alan Tomhave and Dr. Mark Vopat, represented YSU so very well in defeating highly-reputed institutions such as Stanford, Yale, the U.S. Military Academy at West Point, the U.S. Naval Academy, Whitworth University, Tufts, University of California Santa Barbara, University of California San Diego, and the University of Central Florida.

Therefore, let the minutes of today's Senate meeting reflect that the Body recognizes the tremendous accomplishment of the students and faculty mentors of the YSU Ethics Bowl Team and that these individuals rightly reflect YSU's outstanding educational experience.

Academic Senate Honors Committee 2019-2020
Meeting Minutes
Thursday, October 17, 2019 11:00 am – Fok Hall

Attendance: Taci Turel, Diana Fagen, Casey Henderson, Tom Wakefield, Ron Shaklee, Amy Cossentino, Amy Weaver.

Approval of September 2019 meeting minutes

Provided the results of Department Chair survey. There seems to be confusion about a general capstone.

Discussion about Honors capstone in other universities

Taci provided information about Honors capstone at Auburn

Amy C. provided information about comprehensive capstone information contained on the University of Maine website.

Diana Fagan provided capstone information about University of Texas – Austin and Texas A&M.

Discussion about subissues related to honors:

How can we work with students who have AP credit?

Could the AP Math AB 5 score count for Math 1571H? Tom will talk with faculty.

Can we have an honors after the fact. Got AP credit and then comes to YSU, assignment of another paper, would the department be willing to add the designation after the fact? Completed the same assignment. What faculty would review? How would this align with existing responsibilities?

Scheduled next meeting for Friday, **November 15, 2019 at 9:00am**

Report:

The ASAP task force met on Feb. 20 and discussed the issues brought to the floor during discussion. In addition, Earnhardt contacted Greg Morgione from the Office of General Counsel and he reviewed the language for the concern brought forth at the meeting. No major changes were made to the language (the opinion was that the language was legally sound). In order to address the concerns brought to the floor, the word “published” and the phrase “as listed in the Undergraduate Catalog” were added to strengthen the point that the minors are determined by the departments. In a few places “s.h.” was added to the numerals to clarify that they were in the unit of scheduling hours. The committee recommended changing “Students should declare a minor in their junior year” to ““Students should declare a minor prior to junior year.”

In regards to a plan to transition from uncapped minors to minors capped at 19 s.h., the committee decided a teach out (the system used when a program is deactivated) would be the best method. The goal would be to have all minors in compliance by AY 23-24. More details would need to be established, but because there are only a small set of minors that exceed 18 s.h., we would like the APC to work with those programs individually so the programs can continue to deliver and individual problems can be addressed.

When discussing double dipping, the task force felt that removing the language regarding double dipping as it relates to interdisciplinary minors could create problems. The Standards chair said there was additional double dipping language (in regards to the GenEd) that passed Senate several years ago (we have been unable to locate this language in the Senate minute archives). Also, with the lower number of 12 s.h. as state in the proposal, minors may become smaller. As we tried to work our way through hypotheticals related to this issue, we decided it was a discussion best suited for the Academic Standards Committee and the Standards Committee Chair said they could review this policy during the next Senate term. With that in mind, it is our recommendation that we retain the double dipping language until the issue can be addressed properly.

Certificate programs are not well defined at Youngstown State, there are plans to work on this, but they are in early phases. As it stands now, certificate programs don’t impact the language in the proposal.

RECOMMENDATION FOUR:

- Propose the following changes to the definitions of a major and a minor.
 - o Change minor to a minimum of 12 hours and a maximum of 19 hours; make a universal requirement that at least 6 s.h. is UD hour.
 - o Define the terms of an unofficial minor (draft language is based on current practice.)
 - o Add language about declaring a minor.

- Change the definition of a major to reflect the passing of the UD hour change (from 48 to 39)
 - Clarify the definition of a combined major.
- Draft language for proposed changes (proposed changes are highlighted and underlined):
- a. Define a minor as follows: A minor is an intellectual venture that broadens and deepens the student's intellectual growth. An intellectual framework and coherence are evident in the scope and sequence of the minor course of study. A minor is intended to contrast with or deepen the major or General Education and is to be taken in a discipline other than that of the major. In approved interdisciplinary minors, courses from the student's major discipline can be counted in the minor provided that the same courses are not counted toward the major. Each student must complete a minor, unless the student has a combined major or is enrolled in a professional or technical curriculum that does not require a delineated minor. Check with an academic advisor for specific information. A minor consists of at least 12 hours (but no more than 19 hours) of an approved published set of courses as listed in the Undergraduate Catalog. All grades in the minor must be "C" or better. Courses taken under the Credit/No Credit option may not be counted toward the minor. Upper-division courses must comprise at least 6 s.h. in the minor. An individualized minor may be developed and approved through the Individualized Curriculum Process (ICP). Transfer students may also use the ICP process for approval of a minor course of study. An official minor is designated on the student's transcript at the time the degree is awarded. In some instances, (when extenuating circumstance are present) students who have taken courses that meet the guidelines of a minor (a minimum of 12 s.h. in a discipline with at least 6 s.h. at 3700-level or above), but do not have the designated courses of the official minor, may declare an unofficial minor to meet graduation requirements. Only courses that are part of the major curriculum (from the discipline being used for the unofficial minor) can count toward an unofficial minor. This must be agreed to by the Chair of the major department. Each department develops the specific pattern or sequence of courses for any minor(s) it offers. However, the department in which the student receives the major is responsible for certifying that a student has completed a minor. Certification will be guided by the description of minors published in the *Undergraduate Catalog*. Courses taken for the minor may not be counted toward the student's major, and courses taken for a major may not be counted toward a student's minor. Students should declare a minor prior to junior year. For a list of minors and their requirements see Minors List.
 - b. Define a major as follows: A *minimum* of 120 semester hours must be successfully completed to earn a bachelor's degree. In addition to requirements stated under Candidacy for a Degree, the following requirements must also be fulfilled for a baccalaureate degree:
 - i. **Course Levels:** At least 60 semester hours must be completed in courses numbered 2600 or higher; at least 39 of these 60 hours must be in courses numbered 3700 or higher.
 - ii. **Majors:** Each student must complete a major. A department major consists of at least 30 semester hours of an approved set of courses from a single degree program. A combined major, in which courses are given by more than one program, consists of at least 42 semester hours. At least two disciplines must be represented in a combined major with the core discipline having the majority and at least 12 s.h. coming from outside of the core (these 12 s.h. may be spread over multiple disciplines, but at least 6 s.h. must be 3700 level or above). All grades in the major must be "C" or better. Each department determines the course requirements for its own major or majors. Responsibility for certifying that a student has completed a major rests with the chairperson of the major department. The student may be required to do more than the minimum stated in the preceding paragraph. As soon as a student has decided on a major, he or she should consult with the department chair of the major department. A major must be declared by the time a student has achieved junior standing. Early consultation with the department chair is strongly recommended, since in some departments the student must begin coursework related to the major during the freshman year or risk a delay in graduation.

Do you anticipate making a formal motion relative to the report? **Yes**

If substantive changes in your committee recommendation are made from the floor, would the committee prefer that the matter be sent back to committee for further consideration? **Yes, or other relevant Senate Committee**
