ad hoc

Names of Committee Members

In attendance: Joy Byers, Dawna Cerney, Frank Daloise, Johnathan Farris (chair), John Hyden, Carmen Panaitof, Bill Spencer, Dylan Straley

Elected Members

Appointed Members

Please write a brief summary of the report the Committee is submitting to the Senate:

The purpose of this meeting was to confer with planner Hunter Morrison on examining the future of the gateways/transition zones between campus and city. Unfortunately the guest was unable to make it, although conferred briefly with the committee via phone. Of particular interest for feedback was what development would look like on the corner of Fifth and Lincoln Avenues. Also under discussion during the meeting: the committee's desire to be included in Kilcawley deliberations, if the committee wanted to establish design criteria (based on environment/social concerns), potential for use of federal infrastructure funds to heal the wound of 422, and university purchase of and impending demolition at 234 Fifth Ave. **If substantive changes in your committee recommendation are made from the floor, would the committee prefer that the matter be sent back to committee for further consideration?**

Introduction and Rationale

Type introduction and rationale here.

Revised Policy/Policies (when applicable)

Type revised policy here

Recommendation

Type recommendation here.

The committee will continue to meet this semester. First intent is to meet with Hunter Morrison in person this time. Also on the agenda for this semester is planning when we might participate in the Kilcawley discussion and potentially a preliminary meeting regarding greening maintenance and possible habitat construction/passive recreation areas with regards to landscaping university property.
