The College Players hope to continue with a weekly program of plays written by college students and presented by college actors. The next presentation is, "Alias Santa Claus", which will be presented from WKBN next week. Time will be posted and announced in the newspapers.

Did Steve Dzuroff wilt? All evening he had flourished a pass to a local well-known vaudeville show. Then Dr. Smith remarked in Social Path that mainly bums, hoboes, and tramps patronize that sort of place.

Junior Class Sponsors Sale Of Y. C. Scarfs

Girls at last we can demonstrate our college spirit and flaunt the red and gold before the eyes of dear old Youngstown. What would be nicer than a new red tri-cornered scarf with the gold Y. C. on it. The Junior Class is sponsoring the sale of these scarfs now. For the sum of one dollar you will have one for the next game. This is your chance girls to wear the red and gold. See Mildred Bothwell or Guyia Maze and turn in your order. The sooner you order the sooner you will have one to wear.

SIGMA DELTA BETA

The pledges of the Sigma Delta Beta fraternity held a smoker last Friday night in honor of the active members at Trumbull Manor Tea Room in Girard. A chow mein supper was served at midnight.

About thirty actives, inactive, pledges attended the function. Professor Denton Doll and Dr. Scudder were faculty advisors present.

The fraternity is planning a mixed party to be held Saturday, January 5.

SCIENCE STUDENTS GO TO PITTSBURGH

Both the Phi Epsilon and the Beta Phi Epsilon science fraternities are off on a good start this year, with their main project being a joint trip of both groups to Pittsburgh, Nov. 30th. The highlights of the trip included a visit to the Bureau of Mines, to the Mellon Institute, and finally, after considerable trouble finding the place, they visited the Museum where they had their dinner.

The Beta Chapter visited the main plant of the Isaly Dairy Nov. 27th, and was shown the processes of making ice cream, butter, cheese, besides several other interesting things.

The Phi Epsilon pledges are: V. Orsary, C. Stein, H. Hutzen, E. Boyouski, and G. Wildman.

We have been wondering why there are so many girls in the college chorus; also why do the sopranos have such difficulty in following their music.

We wonder why J. C. and J. S. go to the basketball games. Observations reveal that they don't see much of the game.

W. A. A. HOLD CHRISTMAS PARTY

When Don McCullough buys his next license tag, he claims it will be a trailer license, due to the fact that his car has been towed so much in the past year.

Christmas Greetings

"Twas the night before Christmas and all through the house—". From times of sadness and strife to the season of good will and cheer, we turn our endeavors to make someone happy. Let us forget all our petty differences and enmities and make this a Christmas long to be remembered. Let us adopt the attitude of The One who is the Teacher of all good.

It is true, that we have less money than we ever had before, but if the friends we have are really friends they will be satisfied not with the gifts but simply with a sincere wish for happiness. Remember everything is not always counted in dollars and cents.

New Years is almost here and include in your resolutions an inner resolve to be more considerate of your fellow men. A good deed is never forgotten by those who really deserve help.

As Tiny Tim said, "May God Bless Us Everyone" for the years to come. A Merry Christmas and A Very Happy New Year.

THE EDITOR.

(Copied from an article written by Theodore Andrica)

Hanging of mistletoe and holly is just as distinctly English as the burning of the Yule log. Before the Puritan fathers legislated against the boisterousness of Christmas, the bringing and burning of the Yule log as among the chief attractions at Christmas. It was done with considerable pomp and hilarity. The symbolical meaning of the burning of the log is that all wrongs are burned out with it. The pagan Druids are believed to have originated the hanging of the holly and mistletoe. The custom is a survival of pagan times when the mistletoe was credited with the curative powers.

The religious observances of Christmas consists in going to Church on Christmas morning, and this is done by everybody, from the knight to the most humble farmer. The English excel in caroling. Friends appear at the homes of their acquaintances and sing. One of the best known carols is "While Shepherds Watched Their Flocks by Night."

Christmas trees at the family observance are not as popular in England as in Germany. The Christmas tree was introduced into England after the marriage of Queen Victoria to a German prince.

ALPHA GAMMA NU

Alpha Gamma Nu extends greetings to President Jones, the faculty and fellow students for a Merry Christmas and Happy New Year.

The Alpha Gamma Nu held their last meeting for 1934 on Wednesday the nineteenth.

Mike Jaffe Leads Scorers With 35 Points

Mike Jaffe, lanky center, leads Youngstown College scorers with thirty-five points, William Lackey, diminutive forward, is second with twenty-six, Bob Lewis and Jimmy Rich, who only played three games, are tied with twenty-four points apiece. The complete standing is as follows:

MacDonald	7	Jaffe	35
McFarland	3	Lackey	26
Centrello	3	Lewis	24
Williams	2	Rich	24
The team scored 124 points to their opponents 131. Scores of games:

When the motion picture, "Flirtation Walk" was recently shown at a local theatre, Fred Detwiler, '33, formerly a West Point student, found himself included in many of the scenes during the filming of the picture. It was a great experience, according to Fred, and he enjoyed his debut as an actor.

Student Council

Some of the discussions which have been carried on in the Student Council meetings are interesting.

Although no definite action has been taken upon the matter, the question of the elimination of a fee for the auditorium for school dances was discussed. However, it was suggested that, as the janitor's fee is paid from the hall fee, the school organizations giving the function pay the janitor's fee only.

Mary Katherine Welsh and Raymond Holly were appointed co-chairman for the Christmas Dance.

It will be impossible to secure the Old House for more than three months. It is being planned that the News Boys' Club be used as the activity hall. The club will be remodeled to suit the needs of the students. The money which was allotted to the Old House will be spent on the new activity hall. More definite plans will be announced at a later date.

WITH THE PENGUINS

After the Geneva game and after playing on a floor twice as large as ours, MacDonald said he wouldn't mind playing on such a floor if he could take his time walking from one end to the other. It was tough picking them up fast and putting them down fast wasn't it Mac?

The W. and J. boys wanted to know if we sent in our mascot when G. Williams entered the game.

Jaffe said if the Geneva floor was a little longer we could pull a "sleeper" play.

Ever notice Cap McFarland skipping in a game. Watch him the next time.

Rich had a tough time sitting on the bench at Geneva, nearly wore out a pair of trunks.

McFarland and Lewis are the tough boys of the squad. Mac has committed eleven fouls and was ousted twice, Lewis committed twelve personal and one technical and was ousted from three games.

At Thiel College Jack McPhee said that the Pennsylvania boys learn to run like deers by chasing deers not dears.

NIGHTMARE

If you think you have troubles, imagine walking the floor at night with quintuplets.—Dayton (O.) News.

It was a wet night, and the last bus was full inside, when the conductor asked "Will any gentleman go up on top to oblige a lady?" There was no response; so the inquiry was repeated, but still there was no response. At last one male passenger remarked, "Are you sure that she is a lady, and not a poor woman?"

"Oh, yes," said the conductor, without hesitation, "she is a lady all right."

"A well-dressed lady?" persisted the passenger.

"Yes, a thoroughly well-dressed fashionable lady," the conductor assured him.

"Then," said the passenger, settling himself more comfortable in his seat, "she can afford to take a cab home."

Vogue

Merry Christmas! Who would like some suggestions as to Christmas presents—either for friends or the family. Vogue gives some excellent ones in the December issue and here are some that can be obtained in Youngstown.

An interesting new evening case is the large, platinum plated one that seems to be the rage all over New York and Paris. It holds a good supply of powder, rouge, lipstick, and comb, with a purse and a magnanimous mirror.

For inveterate knitters (and we have many among us), an under-arm, Roman-striped faille silk bag that accommodates extra long needles. Receptive to loads of other gadgets, too.

In ear clips there are rhinestone-studded ones that lie flat against the cheeks in dazzling loops. Very nice and chic for festive evenings.

Perhaps a sumptuous set of lingerie (slips, gowns and panties) would be just the thing. You can get lovely ones all hand-made of tea-rose silk satin and lavishly trimmed with Alencon lace.

Or a pair of peasant pajamas of pure silk in rose or soft blue. The blouse has a naive smock-like yoke and a minute, high-fitting collar that ties with a bow.

A lovely gift is a luxurious traveling-case of pigskin to hold cosmetics in their original containers. The lining is washable; the tray, removable. It's a Christmas gift that is perfect to give or to receive.

An evening bag of mica-cloth that glistens like Christmas snow would be lovely. Of the envelope type, it holds a comb, an enameled compact and lipstick to match, and a purse. It comes in pastel shades.

Now for suggestions for gifts to men.

If he collects clippings and snapshots, a leather-backed scrap book will classify them in the grand manner. It is 16 inches high, and tear sheets keep it uniform despite additions.

An exquisite desk set of soft black calfskin, richly trimmed in gold is good. It consists of a blotter, an inkwell, and a letter-opener. The workmanship will meet with masculine approval.

Everything a man needs for good grooming is packed neatly into the larger dressing-cases of pigskin. A slide fastener bounds it on three sides for easy opening. The fittings are black or brown.

A master stroke for a golfer would be a handsome walnut box that may be used for cigars or cigarettes when the half-dozen superior golf balls it contains have gone into the rough.

There there's a new cigarette case with a top that rolls back just like an old fashioned desk. It should please a mechanically minded male no end. The case is usually of nickel silver.

An ingenious breast pocket case that boasts seven pockets and room for innumerable papers and checks, yet is wafer-thin and flexible, is a real find. They very often are made of pigskin.

Last but not least there are the forever good "acceptables": shirts, ties, handkerchiefs, gloves, and sweaters.

Has this helped any? We hope so. Happy New Year!

Athletic Board

The Athletic Board dances held at the Y. M. C. A., December 1 and 8, attracted a number of college and alumni people. The first dance was after the Ohio Basketball game; Ruth Authenreith's orchestra furnished the music for dancing in the Garden Inn. The W. & J. reception, held in the main auditorium was attended by a huge crowd of victorious Yo-Cos. Ford Alison and his band played the syncopating music. The board decorated the auditorium with red and gold, and pardon the mistake, black and white for W. & J. instead of red and black. Both teams came to the dance, but, much to the co-eds sorrow, the opponents had to pack up and leave after one dance. A few of the girls are still dreaming of that one dance. The Athletic Board wishes to thank the organizations for their cooperation in helping to make this dance a success.

A little boy was running to school. The tardy bell was ringing. He began to pray, and every once in a while he said "Oh God, Don't let me be late". When he reached the school he stumbled. He then said: "Gosh darn it God, you don't have to push me!!"

The National Association for the Advancement of Science has its annual convention in Pittsburgh, December 24-29. Doctor Waldron, who has won much recognition as a member of this organization, has extended an invitation to Youngstown College students. The lectures will be of benefit to those interested in any phase of science, especially pre-medical students. Dr. Waldron is going to be in Pittsburgh during the entire period of the convention and will be glad to meet with any Youngstown people planning to attend. Prominent men such as Jennings, Thorndike, and others are on the program. Since Dr. Waldron brings us this unusual opportunity, let's take advantage of this chance to meet the great in the world of science. So far eight students in the Zoology class have signified their intention of hearing at least one lecture.

A co-ed from Youngstown College walked into a well known fish house in town recently, that advertised in large letters: "We Have Anything That Swims" When the waitress came for her order, her only request was a small helping of Johnny Weismuller.

In sociology class Prof. Bowden asked for the ideal of a certain Adam Smith. Bill Kirkner replied that he was a Scotch economist. The class wanted to know if it was necessary to add economist.

In English class conducted by Professor Bunn, a sentence was brought up that was incorrect. In unison the class cried, "that's wrong!!" "That's right," said Doctor Bunn and they went on to the next sentence.

Dorothy Scanlon seems to have lost her liking for blondes. We hear that she is "that way" about a tall, dark, member of the basketball squad.

What couple will have a startling announcement to make after school ends this spring?

Now there is only one couple around school that does not speak. My-my, they looked so nice together.

ALUMNI NEWS

Seasons Greetings

The Youngstown Alumni Association wishes all its members happiness during this Yuletide season, together with success and a New Deal for the coming days of 1935.

It is well, at the beginning of each year, that the world creates for itself, a time of stock-taking when it may check spiritual as well as material values.

The mistakes of 1934 are all in the background; the foreground, with its possibilities, lies directly ahead.

Members of the Alumni are considering several projects for helping the college. They will work on the theory of one achievement at a time.

Just now the development of a strong Athletic Department is occupying major place. This is but the first of many improvements needed, and it will be the high aim of the Association to put energy and loyalty into the sponsoring of every worthy cause.

Burke Lyden, President.

Santa Claus, Please

Here are a few suggestions for you to remember—

Florence Keyser—Send the next Alpha Pi Sigma convention to Youngstown.

Olive Brown—A trip to Paris to keep her French up to date.

Sadie Lindsay—A degree from University of Pittsburgh.

Hazel Whitmore—More hours in a day; twenty-four not enough to do all required.

Burke Lyden—An ever-growing Alumni group.

Wilfred Meyers—A chair of History in a college.

Michael Malmer—Leisure for science.

John Griffith—Another trip to Wales.

Paul Walker—More time for work.

Robert Higgins—Car built for two.

THE SPIRIT OF YOUNGSTOWN COLLEGE

The other evening at Youngstown College, we sat in the office of Freda Flint, Liberal Arts alumna, and we were impressed with the number of callers constantly going and coming.

All walks of life were represented. Each person brought a problem for solution and each went away satisfied.

"What is the secret?" we mused,—"what the focal point of these contacts?"

We believe it is the spirit of SUPREME COOPERATION, evidenced in the handling of the many student-situations, constantly arising around the campus.

Cooperation, too, is the reason why "old grads" revisit this, their Alma Mater, again and again.

You can fool the whole world down the pathway of years, And get pats on the back as you pass, But your final reward will be heart-aches and tears If you've cheated the man in the glass.

—Dale Wimbrow.

ALUMNI ATHLETICS

The Athletic Committee of the Alumni Association has met periodically with gratifying results. The plans that were discussed at the last general assembly of the Alumni Association are slowly taking shape and President Burke Lyden expects to have an important and interesting program to present in the near future for pigskin enthusiasts. As the work of this committee is very vital and urgent to the future of the Alma Mater we wish to urge the consistent and prompt attendance of the members of this particular committee.

Penguins Win One Out of Four

Opening the season with Ohio College of Chirocopy the team set the pace only to lose in the closing minute of the game by the slim margin of one basket. In the second game of the season meeting a highly rated team from Washington, Penn., the team opened up and led all the way to win 32-23. It was the first meeting between Youngstown College and Washington and Jefferson.

December 11 the team traveled to Greenville, Penn., to play Thiel College. Running up against a five man defense, the Penguins wasted about one quarter in getting used to that style of play. Although leading 15-9 at the half we again lost by two points. In what proved to be a hard fought battle, J. Rich, Lackey and McFarland sustained injuries. Rich received an injury to his knee putting him out for at least ten days. Lackey, a bad "charley horse" and McFarland a sprained wrist.

Playing Geneva two days later the squad, although crippled, put up a good fight against the Conventners losing 45-33. Lackey and McFarland were able to play although taking a risk for further and more serious injury. Rich, who scored 19 points against Geneva, last year was unable to play.
