Outstanding Athletes Chosen In Student Newspaper Poll

Dave Kimmel

Herb Lake

Kimmel, Vechiarella, Lake Atterholt, Stoops Named Santor, Dokmanovich, Rosko, Carter Lauded

By Ron Vanatsky

The Jambar, student newspaper of Youngstown University, announced today the results of its first annual All-Sports Poll. The poll, conducted by former Jambar Sports Editor Ron Vanatsky, covers the seven major sports at the school and was taken among area sportscasters, writers, and coaches.

It was inaugurated after the Penguin's athletic squads put together the finest composite record in the University's history during the 1957-1958 campaign.

Gillespie, Buchanan Named Directors Of 'Quarter Hour'

Announcement was made this week that John (Buck) Gillespie and Phil Buchanan have been chosen to co-direct Youngstown University's radio show, "The Quarter Hour". The two were selected by school-wide auditions held by Mr. Tony Ross, Production chief of WEBW.

The program will feature news, interviews and variety from the campus of Y.U. and will be aired over station WEBW on Saturday mornings between 11 and 11:30 a.m.

Gillespie, a senior majoring in English, will serve from now until June. He is secretary of Kappa Sigma Kappa Fraternity and employed by WPMJ-TV as a member of their production staff.

Buchanan, a business administration senior, will serve from now until January. He is a member of Tau Kappa Epsilon Fraternity and is with the sales department of The J.C. Penny Company.

The program will commence Saturday morning, Oct. 25.

Math Association Holds Meeting

The Youngstown University Mathematics Association met on Oct. 15, in the audio-visual room of the library. The program consisted of a talk by Janice Darin on "Education Television" and a movie "Rectilinear Co-ordinates."

The officers elected for the year are: President, Dick Smith; Vice Pres., Mary Kirkland; Secretary, Joan Melek; Treasurer, Caroline Furden.

Students interested in science and mathematics are invited to the next meeting on Wed. Oct. 29 at 3:30 p.m. in the Home Economics Room of Clingan-Waddell Hall. Mary Kirkland will present the topic "Calculators."

The advisor for the club is Mr. Thaddeus Dillon.

The poll, taken in an attempt to officially recognize the Penguin's outstanding athletes, uncovered one double winner. Eleven categories in the seven principal sports produced nine different selections. These nine athletes will receive "Outstanding Athlete" certificates at an awards program.

Proceeding chronologically through the school year, Dave Kimmel received top honors as the finest offensive player in football. Jim Vechiarella, tabbed as possibly the best defensive player in Youngstown's history, grabbed off the top spot in the defensive selections.

Both Are Assistants

Kimmel, who set several rushing records at the University, is now assistant football mentor at North Jackson High. Vechiarella has a similar post at Poland High School.

In the basketball portion of the poll, Herb Lake, who has been named to several Little All-America polls in the past, garnered offensive honors. In a very close battle for the top defensive spot, Bob Atterholt emerged victor over Lake by one point.

Atterholt has used up his four years of eligibility but left the squad ranking in the top half-dozen of the school's all-time offensive.

(Continued on Page 3)

Dr. Glenny Addresses Ornithologist's Union

Dr. Fred A. Glenny of the science faculty of Youngstown University attended the 75th anniversary meeting of the American Ornithologists' Union in New York City last week.

Dr. Glenny addressed the group Thurs. Oct. 15 on his findings secured while studying in London the past summer on a research grant given by the National Science Foundation. His talk pertained to the functions of the clavicle with relation to flight in birds.

Mrs. Glenny accompanied Dr. Glenny to the meeting.

Professor John Naberezny Opens One Man Art Show

Professor John Naberezny, Head of the Art Department of Youngstown University, opened a "one-man show" this week at the Allegheny College Art Gallery, Meadville, Pennsylvania, which will continue through Oct. 31.

The show is a cross section of Naberezny's work done throughout the past five years and includes 26 works in oils, sculpture, drawings, and prints. Some of his works exhibited in the show are borrowed from private collections, two of which are owned by Butler Institute of American Art.

A well known artist, Naberezny had a one-man show two years ago at the Butler Institute and he has exhibited in various national and other shows and has won numerous awards. Among others, Naberezny won the first award in 1958 at the Area Artists Show at the Butler Institute for his oil painting "Crucifix," which was later purchased by the Institute.

Recipient of Other Awards

In the Canton Arts Institute show of 1955, Naberezny won the purchase award for his oil painting, "Still Life." He received honorable mention in the 1952 National Painting Show at the Miami Art Gallery, Miami, Florida.

Naberezny received the degree of Bachelor of Science in Education in preparation for teaching art, from Youngstown in 1949 and his Master of Arts degree from State University of Iowa, Iowa City, Iowa, 1952. He joined the faculty of Youngstown University in the fall of 1952 and became head of the department in September 1954.

Biles Commands Pershing Rifles

Cadet Captain Raymond G. Biles is the new Commanding Officer of Company P-1, National Society of Pershing Rifles. Cadet Captain Biles is a Youngstown University senior and is majoring in physics.

The new Commanding Officer says "The aim of the University Pershing Rifles unit will be to continue to foster a spirit of friendship and cooperation among men in the military department, and to maintain a highly efficient drill company."

Newman Club Plans Halloween Party

Newman Club will present their annual Halloween party Sunday, Oct. 26 from 7-11 p.m. at Cardinal Mooney High School. Everyone is welcome to join in the gala event.

Bernie Ragazzo and his band will provide music for dancing.

A correction to an article that previously appeared in the Jambar. Newman Club meetings take place the first and third Sunday of each month at Cardinal Mooney. It appeared as the second and fourth Sundays of each month.

Engineering Student Scores Second in Ohio Examinations

Donald Baird, a graduate in civil engineering from William Rayen School of Engineering of Youngstown University, scored second in the State of Ohio and first in the Mahoning Valley in the engineer-in-training examinations at Columbus, according to word received by the university.

Baird, a son of Mr. and Mrs. Frank E. Baird, Salem, took the 16 hour examination in July and results were announced this week. He received a grade of 97 percent. The top grade was 98 percent. Baird scored first in the State of Ohio with a grade of 99 percent in the surveyor-in-training examinations in Columbus in Feb. 1958.

Currently, Baird is attending graduate school at Carnegie Institute of Technology, on a teaching assistantship in the department of civil engineering. He will receive his certificate as an engineer-in-training in November and will be presented with a complimentary membership in the Mahoning Valley Society of Professional Engineers. He received the degree of Bachelor of Engineering at the University last June.

Mr. Touchdown Trot to Follow Football Game

Mr. Touchdown Trot is the theme for the dance following the football game with Eastern Kentucky on Oct. 25. It is being sponsored by Alpha Pi Epsilon and Zeta Phi. Admission at the door is 50¢.

Popular Election of Council President

The Jambar would like to present some views as to why it is supporting the issue of having the Student Council President elected by popular vote.

The purpose of the election of Student Council President by popular vote is to stimulate an interest in this office, to improve communication between the student body and student council, and to make available to the student body, candidates for student council that are more representative of the student body.

The reasons for advocating a change in the procedure of electing the President are formulated out of necessity. A hypothesis follows: The over-representation of a group, primarily organized for social activity and who have certain well-defined aims which they hope to realize by being organized, would tend to make that group on council representative of their social aggregation rather than the student body as a whole.

That this may or may not occur is a question which can be answered only by the future. But nevertheless, the potential would be there. Since the election of Council President is a matter left to that body, it is obvious that under the above mentioned circumstances his election would be a matter that would be determined by the group that controls student council.

If the President is a member of this aforementioned group, his exercise of power on Student Council will largely, if not entirely, depend on that group, which elected him.

Therefore, in an effort to circumvent this situation, the suggestion is made that the President be elected by the student body as a whole and not a segment of it. With this, the President would hold his office by virtue of the popular will and should be responsible to it for effective leadership and guidance in those matters that it, the student body desires.

As the President of Student Council is their presiding officer, council should be given some part in his selection for that office. The recommendation is made that council itself select several nominees from among its members. An alternate plan would be that any member of council may be a candidate of his own choosing, provided that he himself secures a required number of petitioners. This number should be such a quantity that it will limit the number of candidates so that at least one candidate will receive a majority of the votes cast.

Former Council President Expresses Views on Election

One of the biggest complaints against the Y.U. Student body year after year has been "no school spirit." This is especially true when it comes to student council elections. The percentage that vote is usually very small and because the prestige in being a member of

this body is very slight, this keeps some very able people from wanting to become members.

Another aspect of this is that there also seems to be a feeling of general disinterest on the part of the student body in regard to student government affairs and problems. Almost anyone can tell you who the homecoming queen is but how many know who the Council President is.

A solution to this, which could also possibly eject some genuine school spirit, would be to have popular election of the Student Council president. The election could be complete with speeches, rallies, posters and all the trimmings which go with elections of this sort.

This way the individual student could decide for himself who would be best for the job. They would be picking their own president instead

of having someone else pick him. Let's put Youngstown in the same class as other democratic universities and put in the responsibility for election of your student council president in the hands of the student where it belongs.

Sincerely,
Don Seely,
Former Pres.
Student Council

Original Material Needed by Horizon

Students have until Nov. 1 to submit original poems, short stories, essays, and art work to the *Horizon*, the University literary magazine. Material may be placed in the contribution box in Main Hall. Complete instructions are listed on the container.

The Campus Voice

By

Wilma Terle

With all our new freshmen "invading" our campus this fall, we thought to give them a chance to voice some of their views. Here's what four of the prospective seniors have to say in answer to this question: what academic and social differences impressed you most in the change from high school to college?

Steve Clapp - Graduate of Girard High whose major is English at Youngstown University stresses "School's a lot harder, so much more studying." Interested in basketball and attending the practices, he finds "Drills are more complex and the guys are extremely friendly. You'd think that upper-class men wouldn't care about newcomers who haven't played yet but they're really interested in helping you!"

Susie O'Neil - "While majoring in Medical Technology, I think that the grading standards are higher. Everyone, upper-classmen and freshmen, alike, are so friendly! All the school activities from our freshman day picnic, the Pan-Hellenic tea, to the dances, are better organized and seem to run smoother."

Dave Weber - Halling all the way from Orchard Park High in New York says "Ever since I got here all the guys have been real sincere in their willingness to help you get to your scheduled classes on time and find the different buildings. Campus activities really impress a freshman."

Gloria Bernard - Having graduated from Boardman, Miss Bernard feels "The biggest change is the responsibility placed on the student. He decides for himself his field of study and the amount of time that he is going to spend on home work. I also feel that there is no sharp class distinction as the upper classmen make you feel right at home - that you belong!"

Upper-classmen, think back and remember your introduction to Youngstown University when you were freshmen adjusting to college life.

Driver Complains About Parking

Dear Editor,

I am one of the many students who drive to school everyday. By the time I get to school in the morning, it is almost impossible to find a parking place. I have found myself coming to school much earlier than I have to for a parking space.

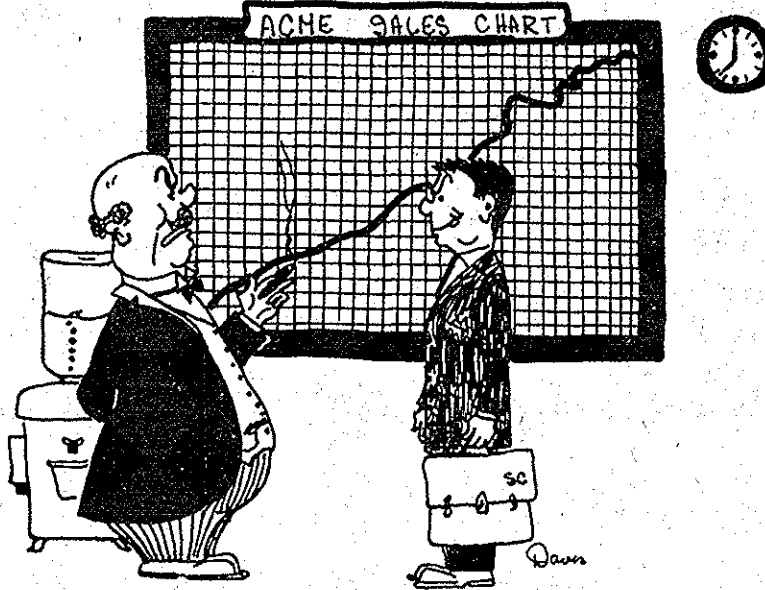

Faculty members have two free parking lots at their disposal while the students have only two free lots. This is highly ridiculous because there are far more students than there are teachers.

I have also heard that there are quite a few students who live within easy walking distance of school that are driving. On the other hand, students who live a considerable distance away have to park anywhere from one block to half a mile away.

My main complaint is with the students who use the parking lot behind the First Christian Church. If students would take the time to park their cars right, a student would be able to park more cars than it is now possible to park.

I don't think that the students who have to leave their keys in their cars have any worry. Most of the students are careful when they have to move cars around.

Respectfully,
G.M.

Conley, your progress is excellent, but a bit suspicious.

Pan Hellenic Vice President Addresses Freshmen Women

Dear Miss Freshman:

You are a college woman. By now, you have been orientated into college ways, have mastered those rough schedules and are finally into the swing of things. It's really great, isn't it?

As you know, YU caters to all your interests. For the sport enthusiast, there is swimming, tennis or badminton; for the cultural minded, the English Society, Art, Speech, and Language Clubs offer advanced work. Newman Club and RIL satisfy religious needs. These are only a slight few of the many and diversified activities open to any student.

But, of all these organizations, the one nearest to my heart is the sorority to which I belong. There is something here, more than the casual relationship that is found in other clubs. There is a weaving of experiences

that create bonds among the members -- bonds that provide a sense of sacrifice and responsibility toward one another. In a short time, Miss Freshman, you will be asking yourself the big question, "Do I want to be a sorority girl?"

During your first semester here it is your duty, first of all to study. Two main requirements for your eligibility to join a sorority are: a one point average and twelve credit hours completed the preceding semester. Your second job is to look around. See what sorority girls are doing for the betterment of the university, see what their grade standards are and discover for yourself the benefits that can be derived from membership.

It is your privilege too, to talk to sorority girls about Greek life. I'm sure that they will tell you, as I have about the wonderful memories of sorority life with satisfaction and pleasure, proud that they are sorority women, now and in the years to come.

After you have done all this, there will be no doubt in your mind. You'll see that no other organization on the campus prepares an individual for leadership, co-operation, and getting along with others as a sorority. You'll say to yourself and to others around you. "Let's be a leader, let's go GREEK!"

Sincerely,
Nancy Veauther
Vice President
Pan Hellenic Council

Scholarships Available For Study Abroad

The Institute of International Education announces the closing date of competitions for more than 165 scholarships for graduate study abroad for Nov. 1.

General eligibility requirements for the awards are United States citizenship, a Bachelor's degree or its equivalent before departure, language ability sufficient to carry on the proposed study, and good health. Preference is given to applicants under 35 years of age.

Persons interested in these awards may write to the Institute of International Education, 1 East 67 Street, New York 21, New York.

State Official Reviews Parking Situation

by Bud Byers

When William O'Neil, Governor of Ohio, was confronted with the parking situation at the University, he automatically referred this reporter to the "Ohio Highway Safety Department". C.D. Yount of the Highway Dept. along with Chief Paul Cress sat in on a meeting at Youngstown University on Oct. 20.

At the meeting many suggestions and solutions were brought to view, all of which will be brought to light in the near future.

Before anything is done, however, there will have to be a consideration of the government around the University and it will have to be respected and enforced.

Remember the solutions will be for the students. So it is up to you.

Composers Eligible To Enter Contest

West Virginia University will hold its 1959 Student Compositions Festival of Solos and Ensembles on March 9 and 10. Students planning to enter should send their compositions to Dr. Archie O. Haugland at the School of Music, West Virginia University before Dec. 1.

Student composers registered for study in any college or university in West Virginia, Pennsylvania, Ohio, Kentucky, Maryland, and Virginia are eligible to compete. Compositions may be solos for voice, or any instrument, with or without accompaniment, or an ensemble for any combination of two to ten players.

Krafcik, Carter Lead Penguins As Football Co-Captains

By Pete Sloan

John Krafcik and Ray Carter are the co-captains for Youngstown University's football team. Both are four year lettermen and have played first string almost continually with Krafcik playing tackle and Carter alternating between fullback and halfback.

Krafcik played his high school ball at Warren, Ohio, making all-county scholastic end on defense. His best game was against Massillon High. The best player he played against was a former Youngstown football great, Tony Cougras.

He came to Youngstown in 1953 and it was during this season that his most exciting game occurred. The Penguins were underdogs by 33 points when playing John Carroll. Joe Guido ran for two touchdowns with Krafcik pulling out of the line from his tackle spot and springing him loose with a few important blocks. The score ended 21-7 in favor of the Penguins. His next two years were spent in the Army.

Is Happily Married

Krafcik is twenty-four years old and married. He is the father of a six-month old daughter, Kathy. He bought his own house in Glendora, Warren, Ohio and worked for Aetna Standard Engineering. He says he would like to have a try at Professional football.

Carter Played Against Greats

Ray Carter is an all-city product from North High. He has played three years for the Penguins as a fullback and this year has made a successful switch to half-back, where he can show his speed. He ran the 100 yd. dash in 9.8 seconds. Carter has played against Jim Junker, now with the Detroit Lions; Ernie Costello, now with the Cleveland Browns; and former North Texas player Jim Renthro, who is now in Canada.

Carter, like Krafcik, would like to play pro-football, either in the States or in Canada. Carter has a cousin playing on the Penguin team, Ronnie White.

Coach Beede Remarks

Coach Dike Beede said that Krafcik looks real good this year by working some weight off during the summer and reporting in good shape at the beginning of the season. Beede said of Carter, "He has been a big help to us throughout the years."

YU Sports

Editors Jim Quilty

Grid Leaders

Ray Carter

John Krafcik

Outstanding Athletes Chosen in Student Poll

(Continued from Page 1)

leaders. Lake, now a senior, has compiled a phenomenal all-around record, and should finish with close to 2000 points.

Roos Leads Riflers

Bill Roos, the amazing rifler from Sharon, Pennsylvania copped the award as the outstanding member of M/Sgt. Nick Felt's Lake Erie inter-collegiate Rifle Conference runner-up squad. The lanky sharpshooter, in his freshman year, broke all existing school records, was the leading firer in the Conference, and gained second-team All-American honors.

Roos, however, has left Youngstown and is now attending Wayneburg University. Felt has been transferred to duty in Germany.

Baseball produced the only double winner in the poll. Sensational Ronnie Stoops, who saw action in the Rookie League this past summer, was voted the top offensive and defensive player on Dom Rosselli's NAIA state championship squad. Stoops, who possesses enormous power, is a fine all-around hitter and a whiz at the shortstop post. He is with the Washington Senators farm system.

Grigger is Top Hurler

Mike Santor, the former East High and Pony League star, was selected as the foremost tosser with the Penguin mound corps. Santor, a 5-11, 175 lb. junior, saw much action at the quarterback slot with "Dike"

Beede's Penguins last fall.

Pittsburgher George Dokmanovich was picked as the outstanding netter on Bob Thompson's fine tennis squad. He also saw service under Beede, working as the Penguin's quarterback before entering the service several years ago. The netmen, incidentally, posted the best tennis record ever at the school, a 10-3 mark.

Rosko is Top Golfer

Bill Carson's golf squad, which has been one of the University's most successful athletic squads over the years, was paced by Woodrow Wilson graduate Pete Rosko. Rosko, now attending medical school at Ohio State University, was picked as the top linkster on the squad which garnered the NAIA state championship.

Rosko recently whipped Dick Schwartz, the 1958 Ohio Amateur champ, in a duel of finalists for the club crown at Henry Stambaugh Municipal Golf Course.

Ray Carter, the former North High speedster who has been a stalwart on Beede's grid aggregations for the past four seasons, was accorded top honors in the outstanding trackster competition.

Carter, who has set several scholastic and collegiate track records in the past, was virtually a one-man show on Coach Lou DiOrto's 1958 squad.

QUE'S QUIPS

By Jim Quilty

Two of the best homecoming teams in the country clash at Rayen High Stadium this Saturday night. Luckily for the other, the game is neither ones homecoming.

Youngstown, which two weeks prior notched its 17th of 19 homecoming starts, entertains Eastern Kentucky winner of their twelfth straight last Saturday.

The Penguins defensive unit will be out to prove that their fine showing against Western Kentucky was no fluke. Until the Hill-topper's game, the opposition averaged nearly 25 points per game while the locals tallied but 32 points in three games.

Howley, Morelli Spark Defense

Ed Howley, a former Girard ace and Army vet, and Ralph Morelli, a freshman from New Castle, moved into the starting guard posts. This addition greatly strengthened the middle of the line. In the brawny pair of Pete Arlow and Jim Sevenich, the Penguins have a formidable foursome for any enemy charges.

Eastern Michigan's 13-6 victim on Saturday was the leader of the Ohio Valley Conference, East Tennessee, but Tennessee was marching for a touchdown as the game ended.

Eastern's offense totaled 245 yards against their strong opponent and must be regarded as a difficult hurdle for the Penguins.

Note to Independents

IFC sets up a fine all around athletic program, but this is limited only to the Greeks on Campus. How about the men who don't belong to the fraternities?

Of course bowling is open to any group on campus - ROTC, Varsity Y, etc - but there are hundreds of other men on campus who belong to no organization yet who have the desire to participate in athletics.

But this isn't up to the faculty. It's up to the men fitting this category. The quicker "you" act, the fuller may be your college life.

Delayed Results

The establishing of handicaps plus a few undecided entries in the intramural bowling league have caused a delay in the publishing of results. Ed Wall, chairman of the league, will have things straightened out by the end of the week and the standing will be published.

Sunday is a day off from the gridiron for the varsity Penguins but four squad members turn their talents to coaching in the interfraternity touch league.

Tom Richards, Kappa Sigma Kappa, John Abdo, Phi Gamma, Mike Giambatista, Zeta Phi Eta, and Ed Bodner, Nu Sigma Rho all made sparring debuts as would be coaches Sunday.

A musician and a bunch of his buddies were whooping it up late one night when the landlord came in, "Do you know there's a little old lady sick upstairs?"

"No, man," answered the musicians, "Hum us a bit of it."

Panting and perspiring, two Irishmen on a tandem bicycle at last got to the top of the steep hill.

"That was a stiff climb, Pat," said the first. "Sure, and it was that," said Mike. "And if I hadn't kept the brake on, we would have gone backward."

Youngstown Faces E. Kentucky Squad

"Eastern Kentucky has a better team than last year and a tougher defense," says Dom Rosselli, scout and coach for the Penguin football team.

Their 1-3 record doesn't show too much, but looking over their opponents tells the story. They lost to Toledo, Louisville, and Middle Tennessee, all good small college teams. They beat Murray State very handsly.

The Kentuckians, on offense, use mostly power plays with big backs that average 190 pounds. They use the Straight-T and the Winged-T.

Are Defensive Minded

They are a defensive minded club. The teams they played have scored little because of their 190 pound plus line. This line outweighs the Penguins ten pounds per man.

Youngstown lost last year to the Hurons by a score of 13-0. The officials called back a TD by the Penguins in which the movies showed it should have been good. The series with the Hurons stands at one victory for the Penguins against two losses. Game time is 8 p.m., Saturday at Rayen Stadium.

WRA Plans Outing For Women Students

WRA has announced Oct. 25 as the date for their outing. It is open to all women students of the university. Everyone planning to go should sign up in the Women's Physical Education Building by Oct. 22. There will be a slight charge for food but transportation will be provided.

There will be a sign-up sheet on the WRA bulletin board for those interested in the co-recreational volleyball intramurals.

IFC Football Season Begins

The opening games for IFC football were played Sunday afternoon at Borts field. Kappa Sigma Kappa ran and passed over, through, and around the Sig Eps to the tune of 49-0. The Phi Gam's did likewise with Phi Sigma Kappa by a 47-0 score. A highlight of this game was Ike McHugh's 70 yard kickoff return for a touchdown.

In the closest game of the day, Theta Chi squeaked one out over Nu Sigma Rho, 14-13. For Theta Chi, Collins passed to Domini for the TD's and Devlin and Hegedus converted on passes for the margin of victory.

A game that was forfeited by Alpha Phi Delta, but played with the benefit of an extra player, was turned into a rout by Zeta Phi Eta, the Defending

IFC champion. The final score was 31-6. The Zeta's have Parm and Allegretto back to give them a boost. An unusual thing happened when Vaclav, a center, caught two touchdown passes. Tony Martino passed for the only TD for the Alpha Phi's.

Next weeks schedule is as follows: In division A - The TKE's play the Kappa Sig's and the Sig Ep's play Theta Chi. Division B has Phi Gamma taking on Kappa Alpha Psi and the Zeta Phi's playing Phi Sigma Kappa. Game time is one and two o'clock respectively.

Council Moves to Prohibit Secret Election Results

Should election results be kept secret?

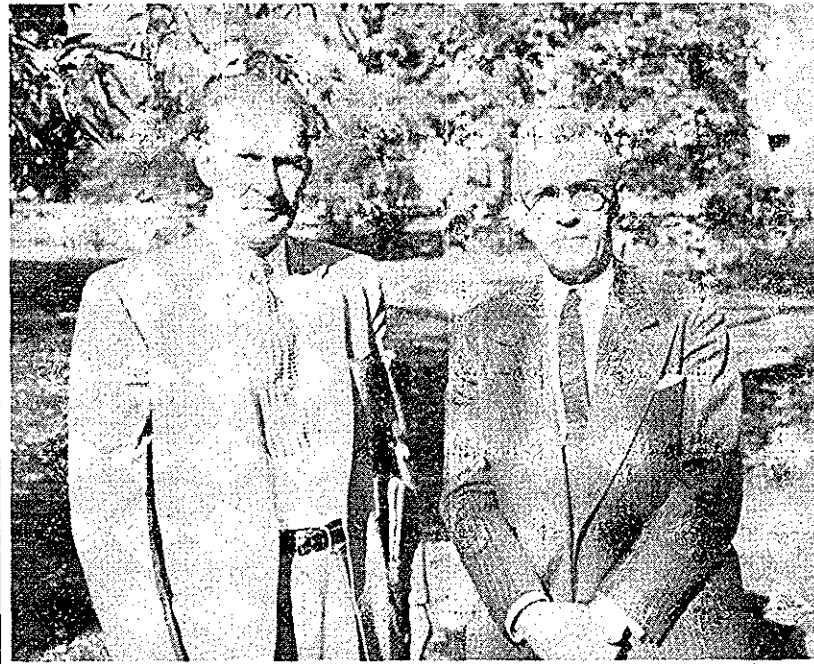

In the Oct. 17 meeting of Student Council, legislation was passed prohibiting the keeping of election results secret for the following reasons:

1. A decided hardship is maintained by the candidates.
2. Since four to six people must know the results, there is difficulty in keeping the outcome secret.
3. Tension and animosity result between opposing campaign factions.
4. In the case of queen elections, the queen must make certain preparations preceding her crowning which usually can not be done in one day.

Snack Bar Situation

It has been brought to the attention of Council that the Snack Bar is becoming over crowded. In an attempt to alleviate some of the congestion, the Discipline committee asks the Student body to please use the coat and book racks. Any student caught leaving his books or coat on a table or chair will be subject to disciplinary action.

The Glenn Miller orchestra has been contracted by the social com-

Chief of Youngstown Police, Paul Cress (l) and Mr. C.D. Yount (r) of the State Highway Department conferred with Bud Byers, Jambar reporter, about the parking situation at the University. Several solutions have been proposed and will be published later.

mittee of Council to play at the Snowflake Frolic. The dance will be at the Idora Park Ballroom.

The Youngstown University ROTC Honor Guard has applied for and received a Charter as an official campus organization.

"I'm not afraid of anything," bragged Maurice. "Once I even cut off a lion's tail with my penknife."

"Why didn't you cut off his head?"

"Well, someone had already done that."

Historical Heritage Of Communities To Be Broadcast

The historical heritage of our community will live again during the next thirty weeks on the well-known radio program, "Tales of the Mahoning and Shenango Valleys," on seven area radio stations. These 15 minute award-winning dramatizations have been presented by the Industrial Information Institute.

Radio Stations in Alliance, Farrell, Sharon, Warren, and Youngstown will broadcast the series as a public service. The series is a part of a program of community education developed by the schools, Advisory Committee and the Industrial Information Institute Incorporated.

The series is used extensively in area classrooms, besides the weekly broadcasts. The programs assist teachers in making history lessons "live" and provide a variety of activity in connection with other studies. A catalog published last year lists 180 programs available for classroom use.

Reduced Rates Offered By Monday Musical Club

On Oct. 16, The Monday Musical Club began its 62nd season with the presentation of Fred Waring and his Pennsylvanians. The calendar this year has many musical notables on it. Among them are: Melacino and his RCA Recording Orchestra, The Danish National Orchestra, Jose Greco and His Company of Spanish Dancers, Mantovani and His New Music, and The Philadelphia Orchestra conducted by Eugene Ormandy.

Season tickets are available to the student body at reduced rates.

Dr. and Mrs. Jones Entertain Faculty

President and Mrs. Howard W. Jones held a tea at their home on Wick Avenue to introduce new faculty members, Friday at 3 p.m.

Pouring at the tea table were Mrs. Olive Pope McCarty, Dean of Women of Youngstown University; Mrs. Robert Miller; Mrs. Raymond Dehn-bostel, Asst. Dean of the Dana School of Music; Mrs. Leonard Richardson; Mrs. D.R. Hummell; Mrs. Frank Ellis; Mrs. Joseph E. Smith, Recorder of Youngstown University; and Mrs. Albert L. Linder.

Gary Glaze, tenor, a student at the Dana School of Music, presented a program.

Russian Students Are Grateful to Dr. Low

"Dr. Alfred D. Low has earned the gratitude of students of Russian Communism and the twentieth century nationalism," stated Professor Hans Kohen of City College of New York while reviewing Dr. Low's book, "Lenin on the Question of Nationality," in the "American Historical Review."

Dr. Low's book was published last year by Macmillan and Company New York, New York.

Professor Kohen noted that Dr. Low was "a prolific author." He

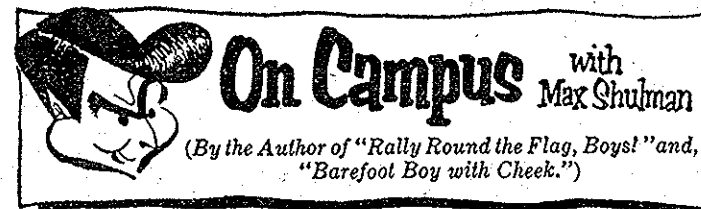

is also the author of "Nationalism in the Soviet Union."

Plans Are Displayed By YU Art Club

The University Art Club is going on a tour, today, of a modern furniture center in Bath, Ohio. They will leave at 1 p.m. from West Hall.

A regular meeting will be held at 12 p.m. in West Hall on Oct. 29. Following the meeting a Halloween Party will be held.

Any students wishing to display a one-man show please see Jacques Jones for the date.

THE DRESS PARADE

In all my years of observing coed fashions—and I have been arrested many times—I have never seen such verve, such dash, such *Je ne sais quoi* as can be found in this year's styles!

I am particularly enchanted by the new "baby waist" dresses which so many of you girls are favoring this season. How demure you all look in your "baby waists"! How sweet! How innocent! How colorful when your housemother lifts you up and burps you after dinner!

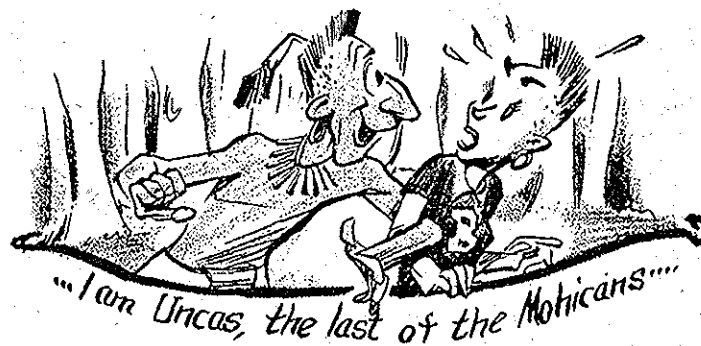

Another trend that leaves me limp with rapture is the oversized handbag. Goodbye to dinky little purses that hold nothing at all! Hurrah for today's sensibly sized bag with plenty of room for your makeup, your pens and pencils, your shelter half, your Slinky toy, your MG, and your Marlboros.

Did I say Marlboros? Certainly I said Marlboros. What girl can consider herself in the van, in the swim, and in the know, if she doesn't smoke Marlboros? What man, for that matter. Do you want a filter that is truly new, genuinely advanced, but at the same time, does not rob you of the full flavor of first-rate tobacco? Then get Marlboro. Also get matches because the pleasure you derive from a Marlboro is necessarily limited if unlit.

To return to coed fashions, let us now discuss footwear. The popular flat shoe was introduced several years ago when it became obvious that girls were growing taller than boys. For a while the flat shoes kept the sexes in a state of uneasy balance, but today they will no longer serve. Now, even in flats, girls are towering over their dates, for the feminine growth rate has continued to rise with disturbing speed. In fact, it is now thought possible that we will see fifteen-foot girls in our lifetime.

But science is working on the problem, and I feel sure American know-how will find an answer. Meanwhile, a temporary measure is available—the reverse wedgie.

The reverse wedgie is simply a wedgie turned around. This tilts a girl backward at a 45 degree angle and cuts as much as three feet off her height. It is, of course, impossible to walk in this position unless you have support, so your date will have to keep his arm around your waist at all times. This will tire him out in fairly short order; therefore you must constantly give him encouragement. Keep looking up at him and batting your lashes and repeating in awed tones, "How strong you are, Shorty!"

Next we turn to hair styling. The hair-do this year is definitely the cloche-coif. One sees very few crew cuts or Irene Castle bobs, and the new Mohican cut seems not to have caught on at all. In fact, I saw only one girl with a Mohican—Rhodelle H. Sigafos, a sophomore of Bennington. Her classmates laughed and laughed at her, but it was Rhodelle who had the last laugh, for one night a dark, handsome stranger leaped from behind a birch and linked his arm in Rhodelle's and said, "I am Uncas, the last of the Mohicans—but I need not be the last, dear lady, if you will but be my wife." Today they are happily married and run a candied-apple stand near Macon, Ga., and have three little Mohicans named Patti, Maxine, and Laverne.

© 1958 Max Shulman

Congratulations to Mr. and Mrs. Uncas and to all of you who have discovered the pleasures of Marlboro and Marlboro's sister cigarette, non-filter Philip Morris, both made by the sponsors of this column.

Looking Y Around...

John Poulson

Sam Sanfillipo

"The Balloon Ascension"

Welcome once again to this higher form of literary art available to the SUBJECTS of this INSTITUTION through the auspices of yours truly.

Are we there yet?

Maybe if we type this ourselves, they'll print it in complete sentences this time? Those chopped off words can sure throw you.

No Grandpa.

A thing can be IN for three reasons. a. Because it is so classic and great. Example: Backbuckles. b. Because it is so obscure. Example: This column. c. Because it is so far OUT even the OUT people won't touch it. Example: Sam's drinking clause.

Are we there yet?

A new society is being formed on campus - THE BROTHERS and SISTERS of LIBERTY, an offspring of the more notorious Sons of Liberty, who had their day in Boston a few years ago.

No Grandpa.

But John, I like tea.

Are we there yet?

This warm weather sure doesn't seem to stop the freshmen from wearing their crew-necks and flannel pants. Listen frosh, the upperclassmen will still let you in the snackbar without them. So take a load off your neck. Leave them at home.

Yes, Grandpa.

The light is OUT. The firemen are IN. The fire is OUT and Mickey is still shaking.

Did it go up yet?

The purple-people eater would have a ball on this campus. Have you seen all the girls with purple, blue, red, and various other colored legs. They must have gone hog-wild with the peroxide. (Did you say they were called leotards, Sam?)

No Grandpa.

It's getting harder to stay IN all the time. For instance, having a collection of 2000 '56 and '57 Neons doesn't make you IN.

Did it go up yet?

Did anyone hear about a case of food poisoning up on Bryson Street? At least the insect population is diminishing.

No Grandpa.

Men who cook are OUT (especially on Bryson Street.) Canned food is IN. The most IN food is a Brownie Crumble Ball.

Did it go up yet?

We wonder what the hole by the snackbar is for. We think someone got caught doing something or other at Homecoming and had to dig a six by six for punishment. Those alumni can sure get into trouble. (Sam says that it is for the OUT people to crawl IN.)

Yes Grandpa.

I fooled him this time. I got hold of John's half of the column and mixed mine right in with his. Now no-one knows what to read.

Ok. Let's go home.
