Your Student Solons

Organization and Purpose Of Our Student Council

By Lennie Organic

The Student Council of our university is the student governing body. It is made up of 22 members who are representatives of one of the 5 schools on campus and who are elected by the members of their school.

The number of representatives to be elected from each school is determined by the number of full-time students enrolled in that school the previous semester, in proportion to the total enrollment. Half of this number is elected in May, half in January.

Student Council members for this fall semester are, Business Administration: Gail Gerak (replacing Ron Brothers), James Corbett, Fred Middleton, Mary Pellizzeri, James Riley; Education: Carole Albright; Engineering: Sam LaLama, Gary Swanson (replacing John Mandish), Frank Namesnik, Delmar Stanley, Tom Ziemanski; Liberal Arts: Annette Cioffi (replacing Don Bartelmay), Frank Court, Doreen McCleery, Mary Ellen Murphy, Bernie Polisso, Earl Pratt, Betty Susor, Jack Uslick, John Westbrook; Music: Frank Voytak (replacing Victor A. Bell); and Secretarial: Donna Vicchione.

Since Council is the governing body it exercises the following powers: 1. Power to charter all student organizations and to recommend to the Faculty-Student-Discipline Committee suspension or revocation of charters in penalty for infraction of Council regulations. 2. Power to conduct all class elections and any other election of importance to the entire student body. 3. Power to hear all appeals submitted to it by any individual or group. 4. Power to establish necessary discipline,

regulations and to report infractions thereof to the Faculty-Student Discipline Committee for action.

5. Power to appoint all student members to joint faculty-student committees and to make recommendations to those committees.

6. Power to recommend to the Faculty-Student Relations Committee disposition of the Student Activity Fund and to administer the student activity budget, supervising all programs financed by it. 7. These powers are extended over all organizations including those in the Secretarial School and all night school groups.

Fred Middleton is the president of this governing body and his officers are Frank Court - vice president, Betty Susor - secretary, and Delmar Stanley - treasurer. They cannot handle all of the business which falls into Council's hands, therefore Council is divided into numerous committees.

The committees, their chairmen and duties are as follows: Finance: Ch. Delmar Stanley - with the Student-Faculty Relations Committee to construct and control the budget for the funds allotted; Discipline: Ch. Jack Uslick - receives all problems of student discipline, regulates publicity of any event or activity, conducts all class elections (queens, student council, etc.), and selection

Area Family Plays To Open Season With 'Help Wanted'

By Eileen Lyden

The first of at least 60 performances of four different Family Plays, "Help Wanted," will be presented at John Knox Presbyterian Church on Market Street, next Tuesday.

THE PLAY which was written by Marjorie Watson and Irving Brown, of the Ohio Mental Hygiene Association in Columbus, is about working mothers and their families' reaction.

The cast for this first play consists of Rita Nolte, Dominic Chick, Dorothy Falgutta, Jack Sowersby, and Boardman High School students, Kim and Gary Myerovich, who are children of Alvin Myerovich. Bob Jones is director of Family Plays.

Others participating in Family Plays are John Ulicney, Gloria Bernard, Gail Schacter, Joe Phillips, Arlene Smith, Shirley Myers, Stu Aubrey, Carolyn Smith, and John Vesey.

International Students Hold Halloween Party

A Halloween Party for International students will be held at the Y.W.C.A., next Thursday, at 8 p.m.

This is the first of a series of social affairs to be held the third Thursday of each month. All students from foreign countries are cordially invited to attend.

Campaigning to Victory?

SENATOR KENNEDY - Senator John F. Kennedy, Democrat presidential candidate appears pleased as he rides through downtown Youngstown last Sunday following his speech which was delivered from the Tod Hotel. Hundreds of university students participated in the political rally.

Jambar Photo by Bill Serjek

Engineers to Vote On '61 Sweetheart

Voting for the Engineers' Sweetheart of "1961" will take place in the Rayen School of Engineering next Wednesday and Thursday, from 9 a.m. to 3 p.m. and from 5:30 to 7:30 p.m.

CAMPAIGNING will be run according to the standard procedures set up by Student Council. Any engineering student carrying more than one credit hour is eligible to vote. The winner of the election will be released by the Jambar on Oct. 28.

The Queen will be crowned during intermission of the Engineers' Sweetheart Dance Saturday, Oct. 29. The dance, which is open to the public, will be held at Idora Park Ballroom from 9 p.m. to 1 a.m. with Lenny Esposito's Orchestra providing the music.

Classical Club Visits Chaney

Members of the Youngstown University Classical Society spoke yesterday to the Chaney High School Latin Club.

The Society, which was granted its charter by Student Council on Sept. 30, will hold its next meeting on Sunday, Oct. 16, at 7 p.m. at Pollock House. Professor David Ives will speak on the Greek drama.

Classical Society officers for this year are president, Ralph Perrice; vice president, Rosalind Faraglia; secretary, Loetta Haller; treasurer, Barbara Schmolder; historian, Marilyn McGavin; The advisors are Mrs. Elizabeth Morgan and Professor Ives.

Plan to Graduate?

Neon Co-Editors Announce Senior's Picture Schedule

If you are planning to graduate in June or August of 1961 and would like to have your senior picture appear in the NEON, please notify one of the co-editors of the NEON, Annette Cioffi or Elinor Walsh, or place information in the NEON mailbox in the registrar's office.

Plan to have your picture taken in the Purnell Room, third floor of the Library, on one of the days listed below. No appointment is necessary for your picture to be taken but it is suggested that you come in during the earlier part of the week.

Monday, Oct. 17 from 9:30 a.m. to 4:30 p.m.

Tuesday, Oct. 18 from 9:30 a.m. to 4:30 p.m.

Wednesday, Oct. 19 from 9:30 a.m. to 4:30 p.m. and from 7 to 9 p.m.

Thursday, Oct. 20 from 9:30 a.m. to 4:30 p.m. and from 7 to 9 p.m.

A \$3 deposit is required at your sitting. Plan to bring with you at this sitting the following information: your name as it will appear on

University to Host Statewide Folklore Society Tomorrow

The Fall Program of the Ohio Folklore Society will be presented tomorrow morning and afternoon in the Audio-Visual Room.

The program was brought to the campus through the efforts of Dr. K. Harder of the English Department. Rita Nolte will serve as student chairman for the day long event.

George Kummer, president of the Society, will preside at the program which will consist of various folk-lore dances and exhibits.

Alpha Pi Epsilon service sorority will serve refreshments and guides will be furnished by Alpha Phi Omega service fraternity.

YU Players Present Rice's 'Street Scene'

"Street Scene" will be the first production for the Youngstown University Players this season. The three act play, by Henry Rice, was one of the outstanding successes of the New York stage, and won the Pulitzer Prize for 1929. It will open on December 1 and will run for three days.

Don Tamburro, Wilson High School dramatic teacher, and a Youngstown University graduate, will direct this play. When he was at Conneaut High, he directed "Balcony Scene" written by Youngstown University English professor Don Elser. Last May, he directed George Gershwin's "Girl Crazy" for Anshe Emeth Temple.

The date for casting should be announced within the next two weeks. Mr. Tamburro will conduct the casting, which calls for 16 males and 11 females.

South High Field House

Bring Your Own Equipment

Deadline News 'Graphs

APPLICATIONS for full time Christmas vacation work at the Youngstown Post Office will be taken at the University Placement Office Oct. 17 through Oct. 21 from 9 a.m. to 4 p.m.

THE ORGANIZATIONAL Presidents meeting will be held on Oct. 22 at 10 a.m. in the Audio-Visual room of the Library. All active organizations are required to be represented.

THE YOUNGSTOWN JAMBAR received a report today that Dean Gillespie will travel to Pittsburgh on Oct. 26 to greet 15 students from India. The students are participating in the In-Step program of which our university is a member. The Indian students will arrive in Youngstown on Oct. 30.

CIRCLE K MEMBERS will be the guests of the Downtown Kiwanis Club next Monday. The student members will be honored at a banquet to be held in the Mural Room. President Howard W. Jones, Dean Smith and Dean Gillespie will represent the university at this banquet.

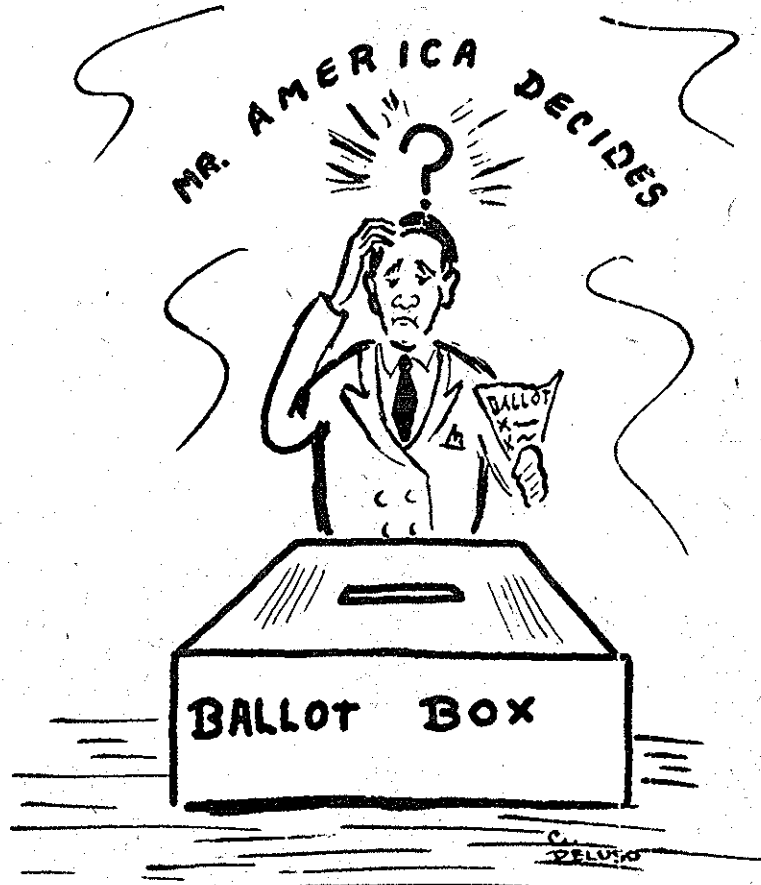

IFC OFFICIALS informed a Jambar reporter today that fraternity rushers can pick up bids next Wednesday in the Dean of Men's office. The bids must be returned no later than 11 a.m. on Oct. 25.

SIGMA TAU GAMMA will sponsor their annual Sig Tau Stomp tomorrow from 9 to 1 in Strouss Auditorium. Admission will be .50¢ per person or .99¢ per couple.

Did You Know
It's the Truth
That

By Mike Shelley

Eleemosynary is a word. . . . The New York Times published 424 pages on Sunday, May 11, 1959. This issue of the Jambar has 6. . . . It takes 4 hours to hard boil an ostrich egg. To prevent lipstick from coming off, eat onions. . . . A penny invested at 6% compound interest in the year A.D. 1 would be worth \$250,000,000,000,000,000,000,000,000,000,000,000,000,000,000,000.

We have read so much about the bad effects of drink, that we have decided to give up reading. . . . When a Muskegon, Mich., citizen received his auto license, he found a note from an inmate of the prison where they had been made: "Drive careful, you bum, or you'll be in here making these things like me." . . . An earth worm's ability to learn is markedly greater from 8:00 p.m. to midnight than from 8:00 a.m. to noon. (New York Times Magazine).

There are 713 pages in my History book. . . . Today's best labor saving device is tomorrow. . . . The human body can, for brief times, endure pressures 30 times the force of gravity. . . . One way to avoid getting parking tickets is to remove your windshield wipers. . . . If you are going to Singapore you may import 50 cigarettes duty free.

A survey has revealed that there are more TV sets in America than bathtubs. . . . With all Henry Ford's money he never owned a Cadillac. The average noise of a whisper is measured at 25 decibels, and under certain conditions, a person snoring can produce 68 decibels of sound, which is equal to the bellow of an angry bull. . . . Have you noticed that most woman haters are women?

There have been turtles for the past 175,000,000 years. . . . The commercials on T.V. are enough to make people go back to reading books. . . . The dropping of the word ETC, from the English language would make a lot of people do more thinking than they do now. . . . Taxes might reach the moon before a rocket does.

The average life span of a buzzard in captivity is 32 years. . . . There is enough carbon in the human body to make 9,000 black lead pencils. . . . People are still willing to do an honest day's work. The only trouble is, they want a week's pay for it.

When you see those ads that show a guy sitting in a Cadillac surrounded by three beautiful girls, and you read the caption you discover that all three girls are in love with this fella. Why? He owns a Cadillac? No. He's got \$100,000 in the bank? No. He's handsome? No. They all love him because he shines his shoes with Bointon's Boot Polish.

Anatomy is something everybody has but which looks better on a girl. . . . California grew about 2,499,000 tons of grapes. Quick! Drink up, they're gaining on us.

Endless Search

The YU Quarter Hour is a program without a home. We believe radio station WBBW was justified in refusing to broadcast our university's program. WBBW is a commercial profit-making concern and as such should not be obliged to give air time to the university.

Radio stations are business enterprises interested only in radio shows which will attract listeners and hence, advertisers. The format of the Quarter Hour was not conducive to attracting or holding listeners; therefore, its usefulness from the station's viewpoint was nil. In other words, the YU Quarter Hour had no place on WBBW nor does it have a place on another commercial radio station.

However, the blame for this must not rest with the student co-directors, but with the university officials for an obvious lack of assistance. What is the solution? How have university officials failed to assist the YU Quarter Hour co-directors?

That WBBW would discontinue broadcasting the university's radio program was an inevitable conclusion. How long did university officials expect to receive the valuable air time of this station? It is ridiculous for anyone to have expected WBBW to continue this gift in light of the current competition between radio stations across the nation.

The YU Quarter Hour co-directors may find a station to broadcast their program, we hope they do, but it will be on a temporary basis as it proved to be with WBBW. The search for a radio station will be a continual one until university officials realize the only way to solve the problem is to build a university owned radio station. Until then, we must expect to be refused.

Registrar Speaks

Buchanan Backs Nixon;
Foreign Policy Vital Issue

By Sue Cleevely

In an interview with Mr. Philip Buchanan, Registrar

I believe Nixon is the better man for the presidency for several reasons. Since foreign policy is a crucial issue at the present time, the man must be elected who has experience, intelligence, and foreign contact.

NIXON has exhibited these qualifications in the manner in which he handled the situations in Russian and Latin America. No doubt he has been in many cabinet meetings when foreign relations have been discussed and has had closer contact with the Secretary of State, while Kennedy's experience has been more in the legislative than executive branch of the government.

With the world situation the way it is now, we need a man who has proven he has the courage and qualifications to solve, or at least alleviate, these tensions. With the Nixon - Lodge ticket, the foreign policy will be in good hands which cannot be improved upon by anyone in the nation.

As Vice-president Nixon has stated, Ambassador Lodge will be given great authority in foreign situations, the reason being the good job he has done as our representative in the United Nations and the fact that he is a man who knows the problems at hand.

THERE IS a wide difference between the two candidates on how to

achieve stability in our economy. I believe Nixon favors more the individual being given the opportunity to provide for himself and not be dependent upon the federal government. In other words, he is advocating free-enterprise vs. government interference and control. Kennedy advocates more federal spending and control.

In summary, I would say the government owes no man a living, but only owes him an opportunity to make a living. In order to do this we must have free economy where each and every individual will have an equal chance to maintain a higher standard of living. Nixon is the man to do this.

The President and the Vice President of the United States are the only elective Federal offices not elected by a direct vote of the people. They are elected by the members of the electoral college, an institution that has survived since the founding of the nation.

Wives and Hair Lines

Knowledge of Key Issues
Is Voter's Responsibility

By Frank Court

By the time the polls open in November, the voters of this nation will be wallowing in a bog of pessimism, optimism, skepticism, urbanism, ruralism and political indecision. Their vote will depend on the amount of campaign propaganda, both true and false, that has effected their thinking.

Nixon will undoubtedly lose votes because he has a receding hair-line. Kennedy will lose votes because his wife is stylish and will taint the wrath of green-eyed American women. The bigoted anti-catholic vote will mean a goodly profit for the vice-president. The herd-minded labor vote will boost hopes for the senator.

THE X MARKERS will constitute a bevy of mixed beliefs, hopes and ideals. They'll cast their ballots with untroubled ease and feel they have fulfilled their civic duty. Their choice will depend on the amount of propaganda they have been exposed to, and their power to separate truth from falacy. If they're intelligent, they've ignored the prejudice and tactless ranting of ignorant pseudo-politicians. They've disregarded the comments of the neighbor with the inside story on Nixon's hair-line and turned to the platforms the candidates advocate to make a just choice.

Below are the party platforms in the fields of education, medical care and government finance.

EDUCATION: The Democrats have pledged federal assistance in building classrooms and paying teachers. They claim the local communities and states have borne as much of the cost of education as they are able.

The Republicans have promised federal aid for school construction but not teacher's salaries. They declare the responsibility rests on the states and local communities.

MEDICAL CARE: The Republicans have promised medical care for elderly persons needing it on a sound fiscal basis and through a contributory system. For the aged unable to pay, the federal government would help finance state programs.

The Democrats have pledged medical care benefits for the aged financed under the Social Security system. They have rejected any means test.

GOVERNMENT FINANCE: The Democrats plan to meet the welfare needs of the peoples of this nation and the world with a balanced budget, showing no increase in taxes.

The Republicans have promised an effort to make the federal government live within its means by reducing expenditures and the national debt.

Letters to the Editor

Good Planning

Editor:

Following the Homecoming football game this year, a buffet dinner and dance were held for alumni of Youngstown University. Attendance at this affair and the acceptance of the program by the alumni proved it to be a success.

The executive committee of the alumni association had many meetings and worked quite diligently to stimulate interest among the former graduates, who in the past have been practically dormant concerning all alumni activities.

Much of the praise and credit however, must be given to the Home-

coming co-chairmen, Ted VonSchullick and Joe Zitnik, who met several times with the alumni, and who accomplished the bulk of what had to be done.

In addition to this, the parade, half-time festivities and dance were among the most impressive and efficient ever conducted at the University.

To Ted VonSchullick, Joe Zitnik and their committee, a sincere word of praise for a job well done and a great big "thank you" from the alumni.

Officers of the
Y.U. Alumni Association

Poor Planning

Editor:

A lack of foresight was evidenced in the scheduling of the Homecoming festivities on the Jewish Yom Kippur. Since this is an important religious feast, the many Jewish students on campus were unable to attend.

Perhaps more care could be used in the future scheduling of important campus activities in regard to religious holidays so that no group would be excluded.

Sue Cleevely (Gentile)
A.B. '62

A Professor Speaks

Kennedy-Johnson Ticket Supported by Dr. Skardon

By Sue Cleavelly
In an interview with Dr. A.W. Skardon

Dr. Skardon believes that foreign affairs are the over-riding issue in this election, and that the Kennedy-Johnson team is the best team to carry out a dynamic foreign policy. We need to build a new policy to replace the present, which will not only contain Russian Communism or equal it, but which will win over the world and surpass Russia.

WE MUST regain superiority from Russia in every form of weapon and not just a mere lead. Rather we must regain such a lead that Russia will be reduced to a second-rate power. We also have to have a program of economic development of the nations of the world to demonstrate that democracy is superior to communism.

The reason Kennedy is the man to do this is because he has a team behind him that is well equipped to solve these two problems. Concerning armaments, he has Senator Symington of Missouri and Senator Russell of Georgia, who have advocated a policy of building up our armed forces. Concerning economics, he has Chester Bowles and Adlai Stevenson who are authorities on world economic problems.

TO BRING the cold war to an end and to establish a secure peace, we must aim in both fields of armaments and economics, not only to be equal to Russia, but to get far out in front of her. I do not believe Nixon and Lodge are qualified to carry out these policies. Nixon seems to be too greatly bound by the idea that our foreign policy should be a matter of verbal fencing with Krushchev, or whoever is the current Russian dictator. This is also the policy of Eisenhower, Dulles, and Herter.

This policy seems to me to be exceedingly dangerous, for not only does it offer no prospect for bringing the cold war to a victorious end, but may actually trigger a hot war if some trigger-happy Russian official gets too excited.

FOR THESE reasons I believe it is essential for the successful conduct of American foreign policy that Senator Kennedy be elected. It would be most unfortunate if Vice-president Nixon were elected, since this would mean a continuation of our present ineffectual and frustrating foreign policy.

Butler Art Institute Sponsors Art Contest

The Butler Institute of American Art will accept works of art from artists within a 25 mile radius of Youngstown. The deadline for receipt of entries is 5 p.m. on Friday, Oct. 28th.

The art will be displayed from Sunday, Nov. 6 to Sunday, Dec. 18, 1960. Judge of the exhibit, Peter Paul Dubaniewicz, artist and teacher of Cleveland, Ohio will select works to be exhibited and choose prize winners. The presentation of prizes will be made on Sunday, Nov. 6, at 4 p.m.

Every exhibit must be an original work of the individual exhibitor. There is no limit to the number of entries an individual may submit but acceptances will be restricted according to space.

Further information may be obtained by addressing the Secretary of Butler Institute of American Art, 542 Wick Ave., Youngstown 2, Ohio, or telephone RI 3-1711.

Last Day Tomorrow

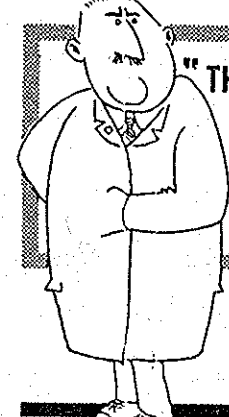

Any student interested in applying for the Fulbright Scholarship must have their application in the Dean of Women's office, Main 210 by tomorrow. Juniors interested in applying for scholarship for the academic year 1961-62 inquire in room 210.

SPECIAL FACULTY AND STUDENT RATES
WITH PRESENTATION OF PROPER IDENTIFICATION

Even though modern electronic computers work at almost unbelievable speeds, the scientist is way ahead of them.

Put quite simply, scientists have been thinking up complex problems faster than even the fastest computers could handle them. To close this gap, IBM created STRETCH, the world's fastest, most powerful computer.

The first STRETCH system will go to the AEC at Los Alamos to aid in nuclear reactor design. This goliath can do a million additions or subtractions a second. It can "read" the equivalent of four million characters per minute from magnetic tape. It can print the equivalent of three good-sized novels every hour. It can perform all these operations simultaneously, and if necessary

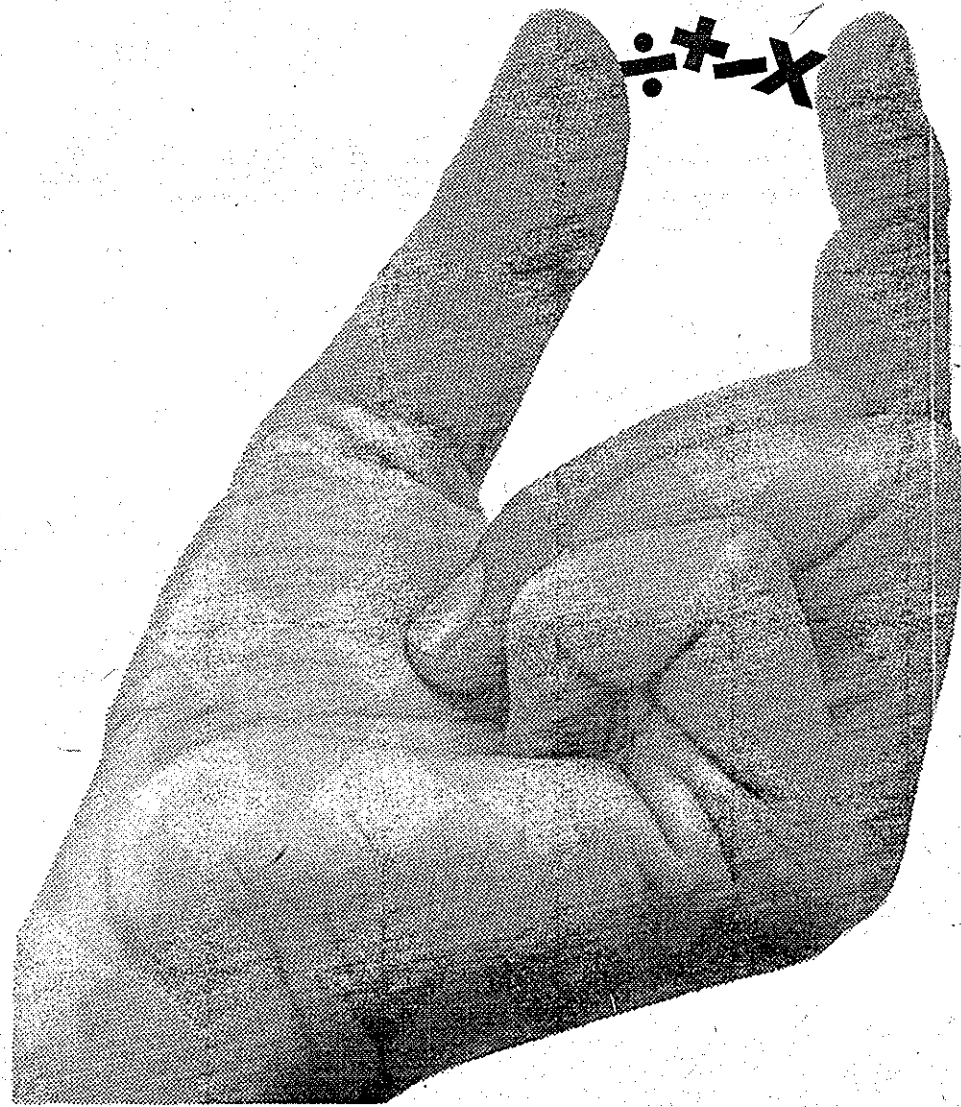

pause midway in the problem and tackle a more important one.

Creating such tools and putting them to work for science—or for business, industry, or government—is exciting, important work. It calls for talents and skills of every kind, from liberal arts to Boolean algebra to astrophysics.

So whatever your particular talents and skills, there may be just the kind of job at IBM you've always wanted. The IBM representative will be visiting your campus this year. Why not ask him about it? Your placement office can make an appointment. For further information about opportunities at IBM, write, outlining your background and interests, to:

IBM Manager of Technical Employment
IBM Corporation, Dept. 887
590 Madison Avenue
New York 22, New York.

HERE! THE GREATEST SIXTY-ONEDERFUL CHEVROLET

Here's the car that reads you loud and clear—the new-size, you-size '61 Chevrolet. We started out by trimming the outside size a bit (to give you extra inches of clearance for parking and maneuvering) but inside we left you a full measure of Chevy comfort. Door openings are as much as 6 inches wider to give feet, knees, and elbows the undisputed right of way. And the new easy-chair seats are as much as 14% higher—just right for seeing, just right for sitting.

Once you've settled inside you'll have high and wide praises for Chevrolet's spacious new dimensions (in the Sport Coupes, for example, head room has been upped as much as 2 inches, and there's more leg room, too—front and rear). Chevy's new trunk is something else that will please you hugely—what with its deep-well shape and bumper-level loading it holds things you've never been able to get in a trunk before.

Yet, generously endowed as this car is with spaciousness and clean-etched elegance, it holds steadfastly to all the thrifty, dependable virtues Chevrolet buyers have come to take for granted. Your dealer's the man to see for all the details.

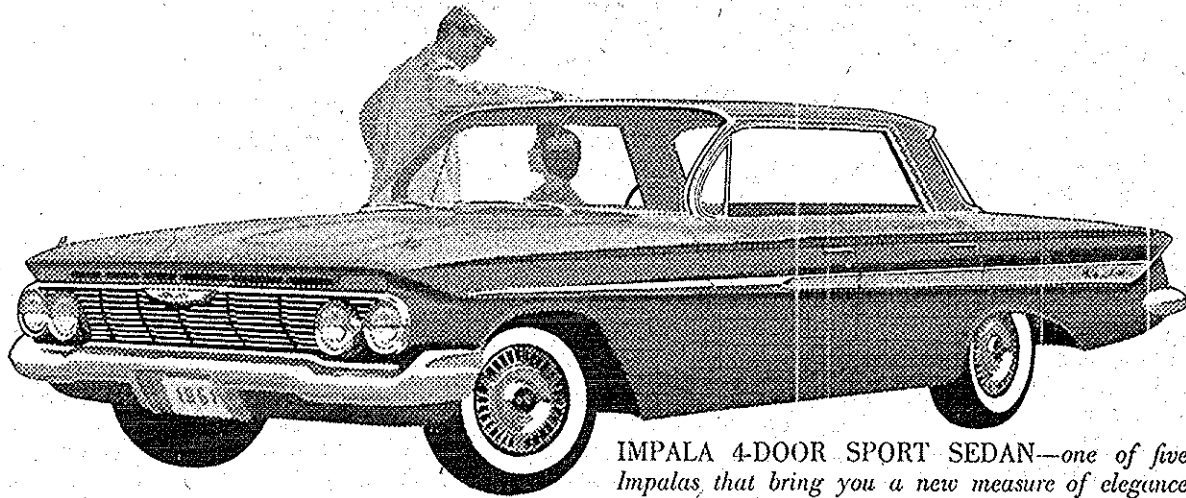

There's never been a trunk like it before! The floor's recessed more than half a foot and the loading height is as much as 10½ inches lower.

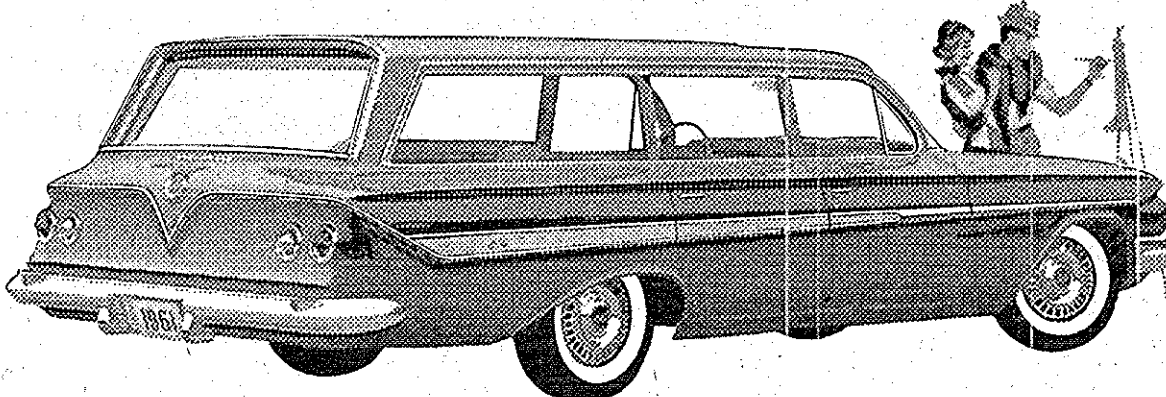

INTRODUCING THE '61 CHEVY BISCAYNE 6

the lowest priced full-sized Chevy with big-car comfort at small-car prices!

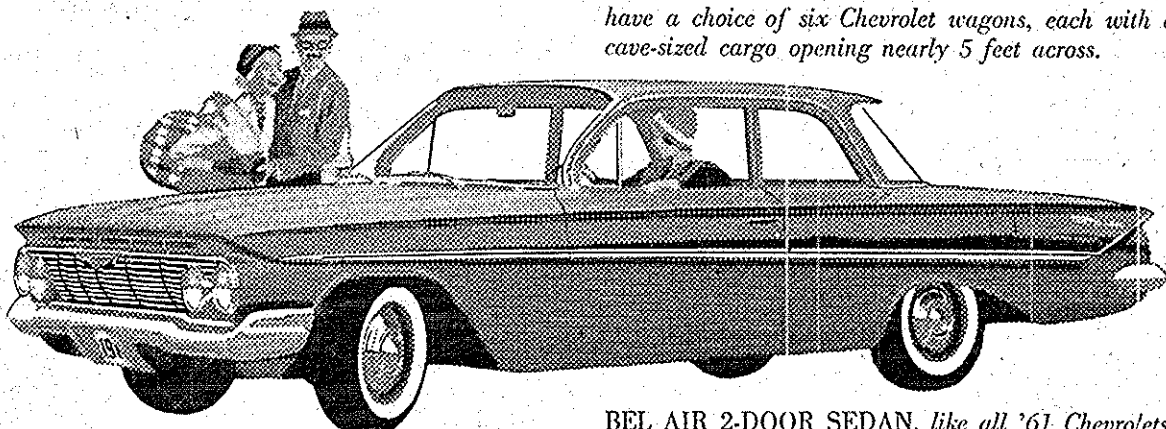

Chevy's new '61 Biscaynes—6 or V8—give you a full measure of Chevrolet quality, roominess and proved performance—yet they're priced down with many cars that give you a lot less! Now you can have economy and comfort, too!

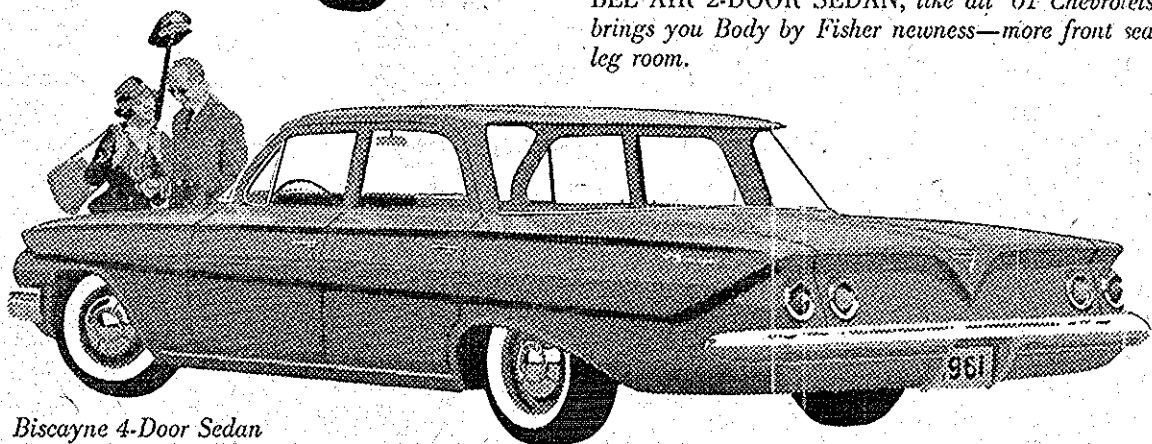

IMPALA 4-DOOR SPORT SEDAN—one of five Impalas that bring you a new measure of elegance from the most elegant Chevis of all.

NOMAD 9-PASSENGER STATION WAGON. You have a choice of six Chevrolet wagons, each with a cave-sized cargo opening nearly 5 feet across.

BEL AIR 2-DOOR SEDAN, like all '61 Chevrolets, brings you Body by Fisher newness—more front seat leg room.

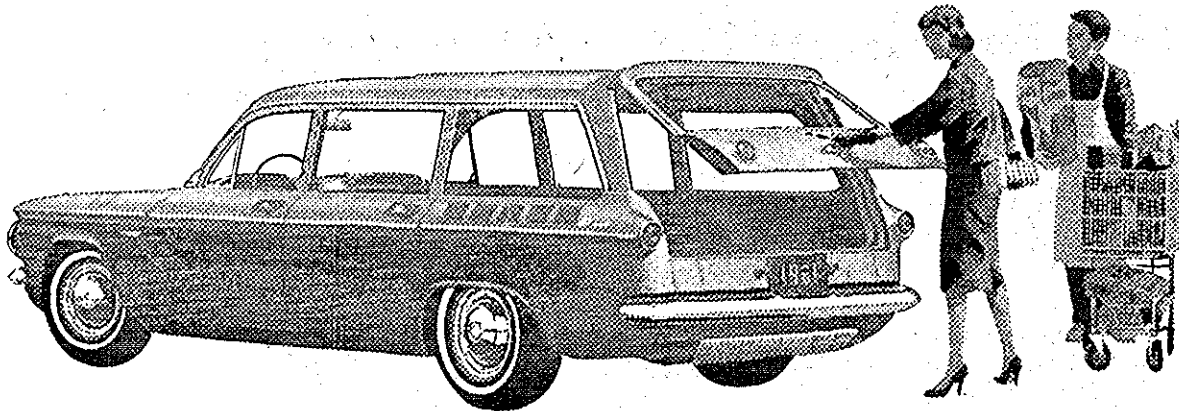

Biscayne 4-Door Sedan

See the new Chevrolet cars, Chevy Corvairs and the new Corvette at your local authorized Chevrolet dealer's

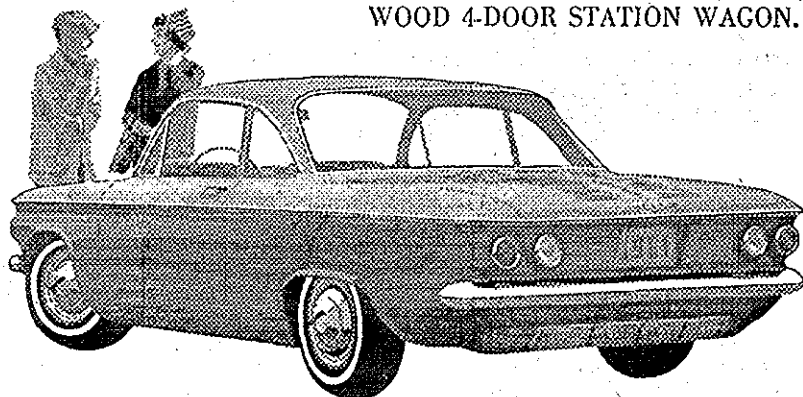

SHOW ON WORTH!

NEW '61 CHEVY CORVAIR

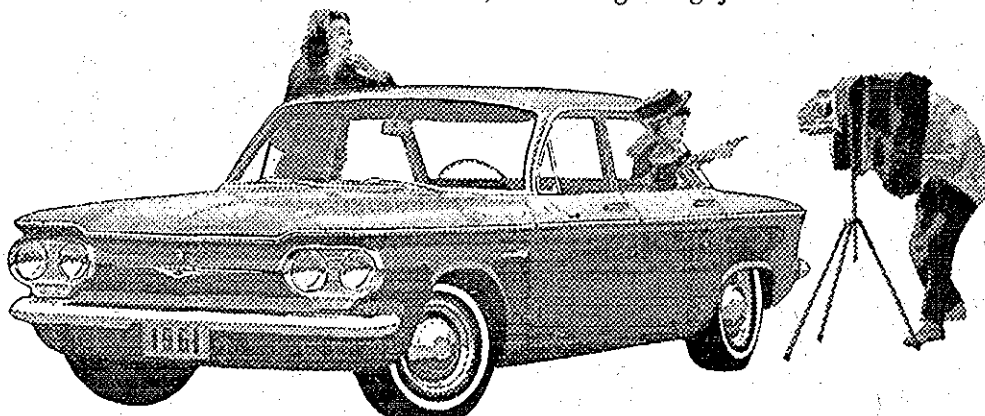

More space . . .
more spunk
and wagons, too!

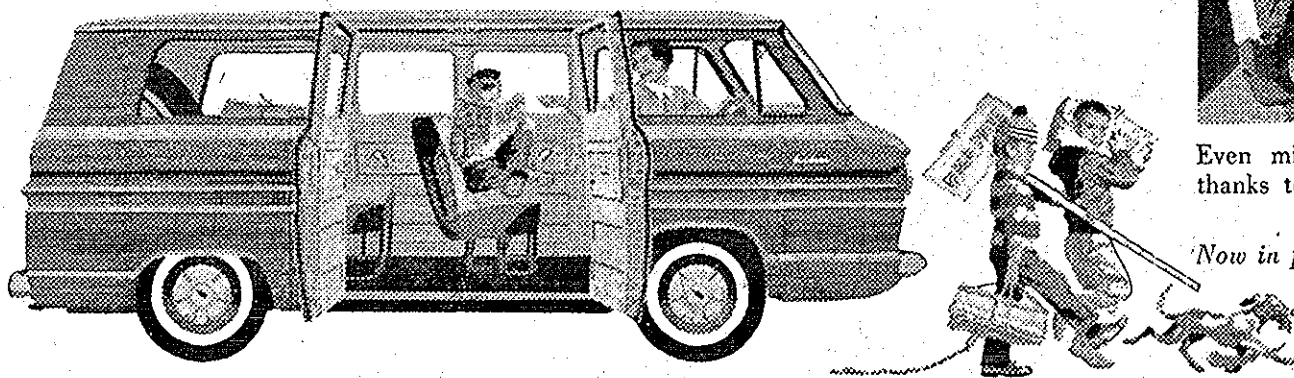

The newest car in America: the CORVAIR 700 LAKEWOOD 4-DOOR STATION WAGON.

CORVAIR 700 CLUB COUPE. Like all coupes and sedans, it has a longer range fuel tank.

CORVAIR 700 4-DOOR SEDAN. Provisions for heating ducts are built right into its Body by Fisher.

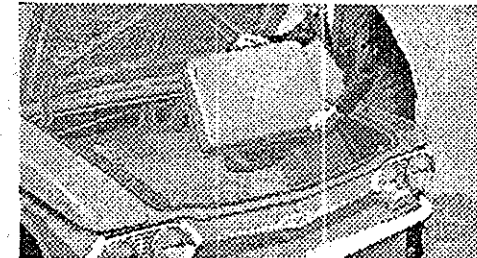

Now in production—the GREENBRIER SPORTS WAGON with up to twice as much room as ordinary wagons (third seat optional at extra cost).

Here's the new Chevy Corvair for '61 with a complete line of complete thrift cars.

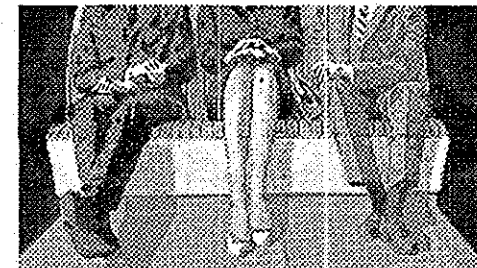

To start with, every Corvair has a budget-pleasing price tag. And Corvair goes on from there to save you even more. With extra miles per gallon . . . quicker-than-ever cold-start warmup so you start saving sooner . . . a new extra-cost optional heater that warms everyone evenly. Riding along with this extra economy: more room inside for you, more room up front for your luggage (sedans and coupes have almost 12% more usable trunk space).

And our new wagons? You'll love them—think they're the greatest thing for families since houses. The Lakewood Station Wagon does a man-sized job with cargo, up to 68 cubic feet of it. The Greenbrier Sports Wagon you're going to have to see—it gives you up to 175.5 cubic feet of space for you and your things.

Corvair's whole thrifty lineup gets its pep from a spunkier 145-cu.-in. air-cooled rear engine. Same rear-engine traction, same smooth 4-wheel independent-suspension ride. See the polished and refined 1961 Corvair first chance you get at your Chevrolet dealer's.

Spare tire is in the rear in coupes and sedans—leaving more luggage space up front.

Even middle-seat passengers sit pretty, thanks to Corvair's practically flat floor.

See the new Chevrolet cars, Chevy Corvairs and the new Corvette at your local authorized Chevrolet dealer's

Campus Social Scene

This Week with Greeks and Clubs; University Drama Guild Opens Year

Wasn't it a coincidence that the winners of the trophies in our Turtle Trot, Alpha Omicron Pi and Sigma Phi Epsilon, also won first prize in the float competition? Therefore, if any group wants a winning float next year, pick out a winner for the Turtle Trot. Phi Mu

The sisters of Phi Mu celebrated the end of homecoming weekend with a date party at the home of one of the members.

Tau Kappa Nu

Tau Kappa Nu held its first rush party of the seas on at Crandall Park Pavilion, October 4, 1960. Fifty girls attended the party. Various games were played by the girls, and refreshments were later served.

Plans are now being made for the next rush party which is to be held at the Golden Drumstick restaurant.

Alpha Omicron Pi

All the sisters of Alpha Omicron Pi agree that the chipped fingernails, bandaged fingers, and bags under their eyes, were well worth the time spent on their winning Homecoming float. Along with the celebrating of their new trophy, the girls also enjoy the idea of the profits made by the selling of their float to the Ohio Bell Telephone Company, who will enter it in another parade on Halloween.

A benefit bridge was given by the alumni of Alpha Omicron Pi for the new apartment.

Sigma Sigma Sigma

The sisters of Sigma Sigma Sigma would like to announce the engagement of Rosemary Hackett to Dick Sulek of Sigma Phi Epsilon.

Zeta Phi

Zeta Phi Fraternity held their first rush party at the home of Dick Midlick last Tuesday and had a wonderful turnout. For entertainment movies of Zeta Phi's football team in action last season were shown.

Defending champion, Zeta Phi, is looking forward to another fraternity football championship. They defeated Phi Sigma Kappa 28 to 6 last Sunday in their opener.

Alpha Phi Omega

Formal Pinning of all men who wish to interpledgeship in Alpha Phi Omega will take place 3:00, October 16, at Pollock House.

RIL Meeting

The next RIL meeting will be held at First Christian Church in Fellowship Hall, Sunday, Oct. 16, Doors will open at 7 p.m. and the meeting will begin at 8.

Dr. Howard J. Wiant, minister of the Boardman Methodist Church, who recently made a tour of Russia, will speak on his tour, and will comment in the Russian attitude toward religion. He will discuss the problems which Christians in Russia are confronting.

Freshmen

All freshmen and transfer student women are asked to come to Main 210 to fill out Personnel record folders and make an appointment for an interview with Dean McCarty, dean of women.

YUSEA Meets Thursday

The Student Education Association will hold its monthly meeting Thursday, from 7 to 9 p.m. in the Blue Room of Pollock House.

Mrs. Margarita Mills, Associate Professor of Spanish at Youngstown University, will speak on "Education in Spanish-speaking countries". Following the meeting will be a social hour.

Civil Engineer Officers

The American Society of Civil Engineers announced their officers for this year as follows: Darwin Teihet, president; Jim Mersheimer, vice president; John Ohlin, secretary; Gary Fritch, treasurer.

Recognition was given to Dr. Thomas O.Y. Fok, the advisor for YU's chapter of ASCE.

As We See It

Campus Has Sundial

By Pat McCarren and Blase Deleo

The latest campus addition is the sundial on the lawn in front of the Library. It is very nice, as sundials go, but the results of a recent survey seem to indicate that nobody knows how to read it. After much intensive research on the subject, we have found that one of the major requirements in sundial reading is the presence of sunlight.

In an emergency, you may substitute moonlight. However, when using moonlight to read a sundial, especially in the presence of female (or male, whichever is opposite you) company, you must be careful to not get carried away by the effect of the moonlight. This statement is based on personal experience.

Getting back to the subject at hand -- we still do not know how to read a sundial, so we wish to suggest to the Administration that a Sundial course be added to the curriculum. It might be listed in the catalog as follows:

201 - 202 Basic Concepts of Sundials I-II: The history, theory and uses of sundials; the materials used in their construction; their location and maintenance. Prereq.: Communications 106, Social Science 201, H. & P.E. 126M. Sundials 201L - 202L must be taken concurrently. Fee: \$4.87 per semester. 3 plus 4 h.c.

IF THERE is a great demand, more advanced courses could be added. Big question of last week: Who was the featured personality in last week's column? We'll never tell!

Did you ever try to get something to eat in the Snack Bar or the Cafeteria between 11:45 a.m. and 1:00 p.m.? Several people have resorted to a diet of cigarettes and pop.

Speaking of the Snack Bar, we figure that it is only a matter of time before someone installs a direct wire from the track into the newly opened back room. There are possibilities for some enterprising student who has the right connections.

Have you noticed??? how many people are plastering their autos with political signs? They really aren't that much interested in the election. It's just that the adhesive on those signs helps hold their cancer-ridden cars together.

ONE BIT of advice for the coming week . . . if you come up to your car and find a parking ticket on it, don't throw the ticket on the ground. We know someone who did just that very thing, and the man in blue happened

Newman Meeting

Speaker for the Sunday, Oct. 16, meeting of the Newman Club will be Jeff Collins, who will talk on "The Intelligent Practical Catholic Student." He will discuss the student's obligation to know and practice his religion on a young college adult basis.

Newman will meet in Cardinal Mooney High School cafeteria. Doors will open at 7 p.m. and the business meeting will begin at 8.

"HOME SWEET HOMECOMING"

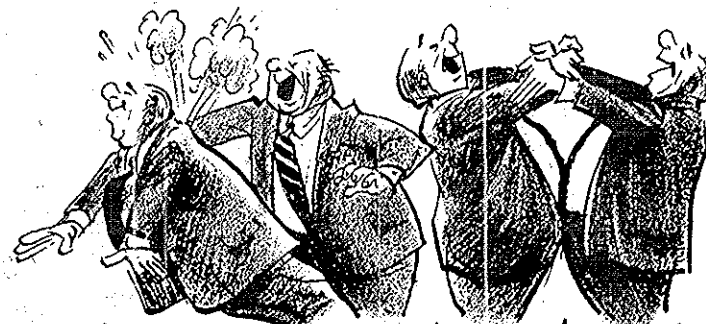

A great number of people have been asking me lately, "What is Homecoming?" but I have been so busy trying to find out why my new sports car leaks that I haven't had time to answer. I am now pleased to report that I finally discovered why my sports car leaks—I have been driving it upside down—and so I am ready today to turn my attention to Homecoming.

Let's begin with definitions. Homecoming is a weekend when old grads return to their alma maters to watch a football game, visit old classrooms and dormitories and inspect each other's bald spots.

The weekend is marked by the singing of old songs, the slapping of old backs and the frequent exchange of such greetings as "Harry, you old polecat!" or "Harry, you old porcupine!" or "Harry, you old rooster!" or "Harry, you old wombat!" As you can see, all old grads are named Harry.

It is not just old grads who behave with such liveliness during Homecoming; the faculty also comports itself with unaccustomed animation. Teachers laugh and smile and pound backs and keep shouting "Harry, you old Airedale!" This unbecoming behavior is carried on in the hope that old grads, in a transport of *bonhomie* will endow a new geology building.

The old grads, however, are seldom seduced. By game time on Saturday their backs are so sore, their eyeballs so eroded, their extremities so frayed, that it is impossible to get a kind word out of them, much less a new geology building.

Even the football game does not improve their tempers. "Hmmp!" they snort as the home team completes a 101-yard march to a touchdown. "Do you call that football? Why, back in my day, they'd have been over on the first down! By George, football was football in those days—not this namby-pamby girls' game that passes for football today! Take a look at that bench—50 substitutes sitting there. Why, in my day, there were 11 men on a team and that was it. When you broke a leg, they slapped a piece of tape on it and you went right back in. Why, I remember the big game against State. Harry Sigafos, our star quarterback, was killed in the third quarter. I mean, he was pronounced dead. But did that stop old Harry? Not on your tintype! Back in he went and kicked the winning drop kick in the last four seconds of play, dead as he was. Back in my day, they played football, by George!"

Everything, say the old grads, was better back in their day—everything except one. Even the most unreconstructed of the old grads has to admit that back in his day they never had a smoke like Marlboro—never a cigarette with such a lot to like—never a filter so easy drawing, a flavor so mild yet hearty, so abundant, so bountiful—never a choice of flip-top box or soft pack.

So old grads, young grads, and undergrads, why don't you settle back and have a full-flavored smoke? Try Marlboro, the filtered cigarette with the unfiltered taste, and Homecoming will be a happy occasion and the sun will shine and the air will be filled with the murmur of wings and no man's hand will be raised against you.

© 1960 Max Shulman

At Homecoming time—or any time—try Marlboro's unfiltered companion cigarette—mild, flavorful Philip Morris... Regular size or king size Commander—a brand new and happy experience in smoking! Have a Commander—welcome aboard!

Youngstowners Beat B-W in 7-6 Thriller

Penguin Ground Attack Nets Third Straight Win

By A. Robert Steiskal

Last week's game against Baldwin-Wallace at Rayen stadium, was a real thriller. The game was a see-saw battle from the beginning to the end.

In the first quarter, the Penguins kicked off to the Yellow-Jackets. They looked as though they would go all the way on the first series of plays, but were stopped on the Penguin 30 yard line when they couldn't make the first down.

The Penguins took the ball over and marched all the way to the Yellow-Jacket 20 where they lost the ball on downs.

After several punt exchanges, the Penguins got within the range of a field goal. Hartzell came into the game and tried the field goal. It was short, however, and the Yellow-Jackets took over on the twenty.

Baldwin-Wallace tried several plays and then fumbled. The Penguins took over again and on the third play from center Horvath unshipped a mighty pass to Quatro who ran to the 6 before he was pulled from behind. On the next play, however, there was a fifteen yard clipping penalty and the Penguins were on the 24.

The Youngstowners pushed the ball to the twenty and Hartzell came to make another attempt. It was a wide and Baldwin Wallace took over again. Several minutes after the first half came to an end with the score tied 0-0.

The third quarter was literally packed with action, least of all the six play goal-line stand by the Penguins. Leading up to this however was a long series of punts, fumbles, penalties and general mistakes on both sides. The big mistake for the Penguins was a punt which started on the Youngstown 20 and went to the 32. This started the up-swing which led to the score.

It took the Yellow-Jackets 5 plays to get to the one and six more to get over for the score. On the fourth down on the two yard line, Adams of BW ran a reverse for the six points. The point after failed and BW led 6-0.

Morelli grabbed the kick-off and

raced 60 yards down the sidelines to the Yellow-Jacket 28. From there Morelli, Horvath and Quatro took it to the one in a short drive that was split by the end of the quarter. Morelli went over from the one, Hartzell converted and the Penguins led 7-6.

The rest of the game was a strategic maneuver usually entitled keep the other team from scoring. And that is exactly what Youngstown did.

A few words are due here to the coach for a good strategy which he had no choice but to utilize. The fact that Youngstown's Harold Green could not pass due to an injury to his hand necessitated the type of strategy used.

Johnson Travels From New Jersey For Grid Career

By Rick Collins

Dave Johnson travels about 450 miles to attend Youngstown University. Why? Dave said that back home in Englewood, New Jersey they think of Ohio as Mid-West and that the people say, is where they have the best brand of football.

DAVE said his greatest feeling in football was during the Ohio University game last season. Youngstown was receiving a pasting at the hands of the Bobcats yet in every play there was tension. The whole team had an unquenchable spirit. The contact could be heard all over the field. This spirit, according to Dave was the most stimulating experience he has ever had.

THERE are very few people, says Dave, who follow the team through out the country and whose moral support aids the team very much. But it seems to Dave that the team has to carry the majority of the fans. That is, the fans only have good spirit when the team provides them with an outstanding score. The night of the Baldwin-Wallace game there were very derisive remarks thrown to the players from the stands.

MANY fellows asked Dave why he runs the ball so little. Dave replies, "There are guys on the line who never run the ball and really take a beating so I'm satisfied with my job, that is, blocking and faking." "If I didn't run the ball the whole game and we won I'd feel just fine." This is the type of ball player which the Penguins have. I am proud to have them represent our school.

Football Standings

DIVISION A

	W	L	T	Pct.
Kappa Sigma Kappa	2	0	0	1.000
Sigma Tau Gamma	1	0	0	1.000
Theta Chi	1	1	0	.500
Sigma Phi Epsilon	0	1	0	.000
Sigma Alpha Epsilon	0	2	0	.000

DIVISION B

	W	L	T	Pct.
Zeta Phi	2	0	0	1.000
Phi Sigma Kappa	1	1	0	.500
Tau Kappa Epsilon	1	1	0	.500
Alpha Phi Delta	0	1	0	.000
Tau Omega	0	1	0	.000

Kappa Sigs Win, 78-0

Kappa Sigma Kappa swamped Sigma Alpha Epsilon and reportedly broke the IFC scoring record, 78-0. All the backs figured in the scoring, as did some of the line men in a tremendous team effort. Even when the Kappa Sigs had matters in hand they just wouldn't let up.

Sig Taus Triumph

Sigma Tau Gamma defeated Theta Chi, 26-13. Margola, Stanley and the Africa twins featured for the Sig Taus as Clapp, Middleton, and Collins stood out among the Theta Chi's. Many penalties hurt Theta Chi in key moments, but most of the time they just couldn't get moving.

Phi Sigs Victorious

Phi Sigma Kappa shaded Tau Kappa Epsilon in Division B action, 8-6. The deciding score was the safety scored by the Phi Sigs. Phi Sigs touchdown was scored on a Bires-to-Rice pass while the Teles scored theirs on an aerial from Macejko to DiLoreto.

In the other Division B game Tau Omega forfeited to Zeta Phi which reportedly, was Zeta Phi's 20th straight win in IFC football competition.

A Spark Lives

Is There Any School Spirit At Youngstown University?

By A. Robert Steiskal
Jambar Sports Editor

At the game last Thursday night against Baldwin-Wallace, the Penguins of Youngstown University put on a great show for all the fans. In several terrific goal line stands the Penguins had the fans on their feet, cheering as though they were really interested in the game's outcome.

THIS IS the first evidence of interest I have witnessed at any University function. The fans were screaming and shouting in accordance with the team's terrific playing. The people there were genuinely concerned with the efforts of the squad. Usually the fans sit and look as though they are completely bored with the game.

I would like to state, at this time however, that I consider this the beginning - just the beginning, of a spark of school spirit. But, there is a great deal of ground to cover before it can be called a true flame. It took until the end of the third quarter to get a spontaneous cheer from the stands. The apathy for the first two quarters was appalling. The sound, if there was any, was inaudible. The only spirited cheers came from the cheerleaders and the band.

The middle of the third quarter, however, saw a miraculous change in the fans' attitude. After the Baldwin-Wallace team got to the ten

yard line the fans came to life. While the Penguins held the Yellow Jackets from scoring for six straight plays, the stands resounded with encouraging cheers.

The spectators continued this for the rest of the game. For once, I was truly proud of our student body.

Many people at this university consider it "highschool" to cheer for a sport, no matter what it be. I would like to state that there are a lot of things that occur here that are more high-schoolish than cheering.

I have heard many excuses, the most prominent being that this is a commuter campus and nothing more can be expected. Last week seems to prove them wrong. Every game I have seen at other colleges is crowded with interested and excited spectators. There is no excuse for our being any different.

This is the B-52. Advanced as it may be, this airplane has one thing in common with the first war-galleys of ancient Egypt...and with the air and space vehicles of the future. Someone must chart its course. Someone must *navigate* it.

For certain young men this presents a career of real executive opportunity. Here, perhaps you will have the chance to master a profession full of meaning, excitement and rewards...as a Navigator in the U. S. Air Force.

To qualify for Navigator training as an Aviation Cadet you must be an American citizen between 19 and 26 1/2—single, healthy and intelligent. A high school diploma is required, but some college is highly desirable. Successful completion of the training program leads to a commission as a Second Lieutenant...and your Navigator wings.

If you think you have what it takes to measure up to the Aviation Cadet Program for Navigator training, see your local Air Force Recruiter. Or clip and mail this coupon.

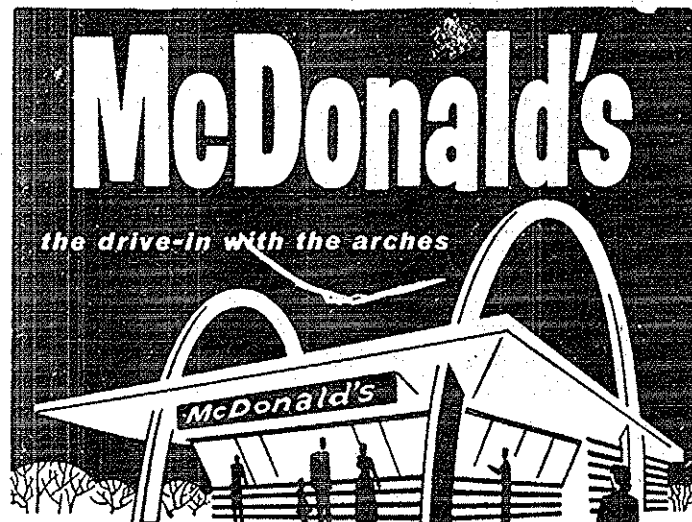

There's a place for tomorrow's leaders on the Aerospace Team.

For Coeds Only

Fashion Writer Interviews Students for Latest Views

By Annette Cioffi

To get some different opinions on the fashion scene I interviewed four students. Their feelings were generally the same on most of the subjects that they were consulted about, and since they were from different age groups, and different majors, I think that on the whole their ideas are a good reflection of those of the rest of the University.

The three questions that the students were asked their opinions on, were: What do you like most about the latest co-ed fashions? What do you see around the campus that you do not like? What is your definition of an ideal campus co-ed?

The first interviewee was Nick Aullisio, a junior majoring in merchandising. When asked the first question, Nick said that the new short hemlines, and kilts were his favorites (wouldn't you know), along with bulky knit sweaters, and sporty shoe boots for winter. He does not like to see bobby socks (which incidently went out with blue jeans five years ago), too much makeup, long uneven hemlines, seams in nylons, and high schoolish tailor mades. Nick Must be well up on his fashions, for all of these things he mentioned have no place on the college campus. In answer to my last question, Nick said that "the tailored look is my favorite, it definitely typifies a college co-ed."

Linda Belinky, a freshman from Boardman majoring in art education, was the second interviewee. Linda's favorites include bulky knit sweaters, short skirts - especially knee skimmers, a little eye makeup, and the long smooth hair of the latest look. Linda's pet peeves were too much makeup, bobby sox (not including the wool sweat sock which still has a place on the college campus), long skirts, and legotards. In answer to the third question Linda replied, "I think that someone who looks right and dresses right for every occasion, with NEATNESS standing out all over, is my idea of what not only a co-ed, but everyone should aim for in their attire."

MY NEXT victim so to speak, for he was somewhat wary of my questions, was Anthony Paduchik, a Junior majoring in accounting. Tony likes short curly hair more than anything (you can tell he is not an avid reader of this column), bright colors on some girls and dull colors on others depending on their coloring and personality, and again went along with the consensus of the others that he liked the short hemlines. Tony does not like too much makeup, especially eye shadow, legotards, and loud of forward girls. His opinion of a smart college girl was "a poised, neat dresser, who wears little makeup. Her personality should be tops, and she should be friendly to everyone."

LAST but certainly not least, I consulted Marjorie Behrens, a junior majoring in business education. Marge is especially fond of the bright colors seen in the latest styles. She stated, however, that they should be worn carefully, so as not to have a gaudy effect. She also likes the new accessories in imitation leopard - hats, jackets, belts, purses, and even umbrellas - she loves them all.

Marge decided that the things that bother her the most, and that are seen very frequently on campus, are colored socks and colored nylons (which incidently are no longer in fashion - however, after five a light black nylon is permissible and for the college crowd should definitely be seamless!).

She believes also that if a person does not look right in short skirts, then she should wear a length that suits her better. Marge's answer to the third question was that "in her estimation there are so many styles that are considered good fashion these days, that everyone can be in style and still have clothes that are becoming to her."

One last word, speaking of looks on campus, I think that the University band and majorettes should be applauded for all the hard work and effort that they put forth in order to purchase their new uniforms. Congratulations kids, you look good enough to march on any field, in any parade, anywhere, and we are all very proud of you.

Council Organization

Continued from page 1

of cheerleaders; Social: Ch. Bernie Polisso - selects all dates of Student Council social functions with Student-Faculty Coordination and Calendar Committee; Activities: Ch. Jim Corbett - handles Intramurals, Projects, and such publications as the Neon, Jambar and their regulations; Student Relations: Ch. Mary Pellizzeri - handles special problems, such as present parking lot problem; Constitution: Ch. Gary Swanson - assumes responsibility of a thorough understanding of the constitution, administers regulations for all University Student organizations, National Student Assn.; Ch. Carole Albright - studies methods and means of building a Student Union Building and an ID card system.

Miss Ivis Boyer and Mrs. Christine Dykema are the advisors to the Student Council.

At present Council is concerned with finding a new location for it's office, one convenient for the student body.
