YOUNGSTOWN UNIVERSITY

Friday, November 11, 1960

Voters Approve Urban Renewal

Bond Provides Potential For Campus Improvement

The growth of Youngstown University received a shot in the arm last Tuesday when the Urban Renewal Bond Issue received the necessary 55 per cent of all electors voting on the issue.

This issue means, among other things that our university can increase its present campus to engulf 100 acres of land.

Industry Helps Education, Says Business Head

"Industry cooperation with education in the Mahoning and Shenango Valleys is directed toward the development of a better understanding of the community and the opportunities it offers to the young people being educated in area schools," R.B. Collins, of the Industrial Information Institute, told members of Kappa Delta Pi at a meeting of the education honor society at Pollock House.

Collins is liaison officer between education and industry, for the Industrial Information Institute and he explained how industry and business are helping education to use the community as a classroom tool.

Collins discussed the cooperative program which has been developed since 1947 by Institute members and the schools under the leadership of the superintendents of schools representing all area districts. He pointed out that the problem 13 years ago was how to interest young people with skills needed in industry and business to prepare for careers in the area's large source of employment.

He said that surveys made in 1947 indicated that about 85 percent of our young people expected to pursue professional vocations which actually employ only four percent of the working community.

The University can obtain this land in the following manner: First and most important of all the University officials must prepare and submit a long range plan as to what they expect to do in the way of expansion in the future. The school must also decide if they plan to remain a local school or branch out to large scale admission of students from all over the country.

They must also submit a complete academic program including their future academic plans as to graduate schools and other academic procedures. This information then will be turned over to the Federal Government for study. Then with the aid of the government the city will buy up all the land west to Fifth Avenue, and north to the new express way.

The city will then proceed to make the necessary improvements such as, tearing down the structures that are not needed, making improvements on streets, utilities and so forth. When this work is completed, the land will then be offered to the university for resale.

If our university officials embark upon a full scale expansion program, this land will be turned into a campus which would add greatly to the Youngstown area. This campus has the potential to contain facilities to alleviate our present parking problem. It could also contain dormitories, more classroom buildings, fraternity and sorority houses, and would give us a large enough area to house a suitable student union.

Renowned Princess To Talk in Strouss Today on 'Curtain'

Princess Catherine Carajda will speak at noon today in Strouss Auditorium. She was brought to the campus by Newman and RIL and will discuss conditions behind the Iron Curtain and the theories advanced by Communism.

Having remained in Rumania during both World Wars, Princess Carajda has been the administrator of a hospital and of a home for orphans. Her estate was taken over in 1949 and she was expelled from her home and was not permitted to take anything with her. Princess Carajda escaped from Romania in 1952.

Since her escape she has spoken in France, Algiers, Morocco and over BBC in England. She is now living in this country. The Princess has talked to social, educational, economic and business groups in 48 states.

Princess Carajda worked with her children's Foundation through the Nazi Occupation. She continued her work through the Russian invasion and the succeeding Communist government until 1949 when the Foundation was taken over by state controlled organizations.

The Princess is sponsored by the Economic and Business Foundation of New Wilmington, Pa.

Dean Weighs Frat Football Restriction

Dean Gillespie announced today that university officials are considering banning inter-fraternity football competition for the 1961 season.

According to the Dean more stringent rules will be placed upon next year's games, should they be authorized, in an attempt to eliminate the high accident rate incurred by the players this year. Poor officiating also was cited as a cause of this year's numerous football mishaps.

Dean Gillespie reported that the proposed censure depended on the championship game (see story on sports page) between Kappa Sigma Kappa and Zeta Phi.

The Kappa Sig, Zeta Phi battle, last Sunday, was marked with injuries and unnecessary roughness. Relatively few penalties were called by the game's officials.

Burt Davis, of Kappa Sigma Kappa, suffered a broken cheek bone and was taken to South Side Hospital for treatment.

Deadline News 'Graphs

MIKE SHELLEY will be the guest of Bill Hudak and Fred Kirby on the University radio show which is aired over WBBW on Saturday mornings from 11:05 to 11:30. Shelley writes a humor column for the Youngstown Jambar.

A "CHANCE DANCE" will be held in Strouss Memorial Auditorium next Thursday after the Youngstown-Akron University football game. Admission will range from 1¢ to 55¢. The dance is being sponsored by Beta Sigma Omicron.

THE AMERICAN COLLEGE BOARD test will be given tonight from 7 to 10 and tomorrow morning from 9 to 12. Those taking the test are requested to be at the University Library by 6:30 tonight and by 8:30 tomorrow.

Happy, Energetic Pledges

THE BIGGEST LITTLE Pledge class on campus appears to be this group of Alpha Theta Chi neophytes. The boys are orphans and are sponsored by Alpha Theta Chi local fraternity at Bryant College in Providence, R.I.

Weather Predictions Too

Famed Meteorology Authority To Lecture Science Students

Mr. Charles L. Hosler, professor of meteorology at the Pennsylvania State University, will speak to physics and chemistry students at 1 p.m. and 7 p.m. Nov. 14, on meteorology and weather conditions.

Hosler attended Penn State, Bucknell University, and M.I.T. He received his Ph.D. in meteorology from Penn State in 1951. From 1943 to 1946, Mr. Hosler served as aerologist and observer in typhoon reconnaissance in the Pacific Asiatic Theatre.

Since 1948, he has been on the faculty of Penn State, now as professor of meteorology, teaching both undergraduate and graduate courses in meteorology. He has also led research projects for the USAF, National Science Foundation, and U.S. Department of Agriculture in the physics of clouds and in climatology.

He has had 26 scientific papers published in this country and abroad. Hosler, as hydrographer for the Pennsylvania Department of Forests and Waters, supervises the collection and dissemination of river and rainfall for the West branch of the Susquehanna and the Juniata Rivers for the Federal State Flood Forecasting Service.

Hosler has delivered over 150 talks on the weather to banquets and conventions in both the United States and Canada, and conducts a daily TV program on current weather conditions in Altoona, Pa.

Music Sorority Sends 6 Coeds To State Meet

Six members of the Alpha Nu Chapter of Sigma Alpha Iota will attend the annual State Day Convention of the Alpha Province chapters of the National Professional Music Fraternity for Women, which is to be held at Albion College, Albion, Michigan on Nov. 12th.

Attending the convention will be Lynn Botsco, vice president; Carolee Mislevy, sgt.-at-arms; Nancy DeForest, recording secretary; Cassandra Nelson, treasurer; Nancy Petermac, fraternity education chairman; and Lois Tamplin, chaplain.

The group will be accompanied by two members of the Warren Alumnae Chapter of the Fraternity, Mrs. Paul Rossi, vice president, and Lynne Reardon.

Phillip Morris Selects, Minzer

Phillip Morris Inc., as a part of its Workshop Scholarship Program, has appointed Walter Minzer as campus business representative for the university, Ray Jones, Vice President for Sales has announced. The appointment is for the full academic year.

The cigarette firm, which was the first in the industry to support college level education by this method, also makes grants for higher education to children of its employees and contributes to educational and research institutions in many areas of the country.

Minzer will serve as liaison between his campus and the Phillip Morris offices in New York city. He will develop and work on advertising and promotion projects for the firm's cigarettes.

Soothing Sounds

Dana String Quartet Show To Feature Chamber Music

Next Wednesday at 8:00 p.m. in the Strouss Memorial Auditorium, Dana's student string quartet will present a program of chamber music.

This quartet includes: Michael Carden and Donald Kody, violinists, James Dunlap, violist, and Robert Taylor violoncellist. They will be assisted by Nancy DeForest, clarinetist and Ravenna Swetts, pianist.

Carden, Kody, and Dunlap are students of Mr. Alvin Myerovich, head of the Dana String Department and Concertmaster of the Youngstown Philharmonic Orchestra, and Taylor is a pupil of Mr. Theodore Baar, cellist with the Cleveland Symphony Orchestra. These four students are all members of the Youngstown Philharmonic Orchestra, Taylor being the Principal of the Cello section.

Nancy DeForest is a student of Dean Charles Aurand and Ravenna Swetts studies piano with Mr. Norman Chapman, head of the Piano Department.

The program, which consists

entirely of music from the eighteenth century, is as follows: Concerto in A Minor for two violins by Vivaldi; String Quartet in C Major, K. 465 and Quintet in A Major for Clarinet and Strings, K. 581, by Mozart; and String Quartet, Op. 76, No. 2, by Haydn.

These compositions are considered among the finest works of their respective types. Vivaldi was a well-known composer of the Baroque period and Haydn and Mozart are two of the three "giants" of the late eighteenth-century Viennese Classical School. The Mozart Quartet is called the "Dissonance" because a peculiar combination of tones are used in the introduction of the first movement.

For that quick sale you want use Youngstown Jambar classified ads. Phone RI 4-8451, EXT. 9.

It's Up to You

Last Tuesday, the electorate cast their ballots for one of two people, namely, Richard M. Nixon or John F. Kennedy. The voter casts his ballot for a particular candidate because he thinks that man will save the United States. This assumption is a fallacy in the realm of economics and national purpose.

The two things Americans fear most are nuclear war and economic depression. And political parties are smart enough to flood the electorate with propaganda that their party is the one to bring about "the changes that must be made." The truth is that these changes must first take place within ourselves, and no political party can do that for us.

What are these changes that we must bring about?

Regarding the danger of war, history and common sense tell us that no nation is likely to attack another nation of equal strength whose people are united in the defense of their way of life. Our country is not united. Patriotism and spiritual resolution are just as important as military preparedness. As a people, our faith in the American dream is at an all time low and affords the mob from Moscow the greatest temptation to attack. No political party can restore our faith in America.

What about the question of prosperity? Never have we had it so good and been less sure of ourselves.

Farmers know they are getting something for nothing under the present subsidy system. "Honest" people are cheating on unemployment and relief payments; expense accounts and income taxes. Labor union members know that they are getting unearned wages that raise the cost of living and in turn, threaten their own job security. Business managers know that they are wrong in permitting union wage demands to grow, which, in addition to raising the cost for the customer, weaken the competitive position of the American economy both at home and abroad.

It is easy to blame past administrations for the part they have played in the current something-for-nothing society, but we are really to blame because the majority of us wanted those things done. The change, then, will come not from within any political party but from within ourselves.

Our government will always do what we, the people, want done.

Letters to the Editor

Lost and Found

Editor:

I am in a Special Methods class for Foreign Languages, and my notebook was stolen in the parking lot on Spring St. This notebook contained all the notes for the 50 page book which I have to write by the end of this semester, it contained the six observations which I had done at six high schools. It contains all the works that I had to do for this class.

I am sure that the person who took the notebook had to move my car in the parking lot; maybe he picked it up accidentally. I know I have to move cars, but I wouldn't think of stealing a notebook.

Would the person or persons who took the notebook please return the contents (they may keep the empty part of the notebook) and place them in the Spanish Club box at the North Entrance of the Main Bldg. on Wick Ave. I would appreciate it, since this notebook means so much to me.

Gary Seavnicky
BS in Ed. '61

Great Britain's major occupations are manufacturing and trade. Metals and metal-using industries contribute more than 50% of the exports.

Condemn and Commend

Editor:

Well, Riley Brothers Towing Service and friend were at it again last week.

Isn't there anything that could be enacted, built or arranged to alleviate this age-old parking problem? Year after year it's the same old story, no place to park.

It seems to me that the university administrators could do something to help this problem, or aren't they interested? I've visited several other urban institutions and obvious steps were taken to insure students' a parking place. I want action.

While I'm writing I would like to commend the owner of the College Inn for affording university students the opportunity of a real college hangout. It compares with those found on "campus schools" and I for one will be a solid supporter.

Jerry Scott
AB '61

Editor's note: We would like to know the answers to your questions concerning the parking problem also.

"HOW ABOUT ME, SEÑOR??"

Did You Know It's the Truth That

By Mike Shelley

One luncheonette in town has a sign in the window, which says: "Pies like your mother made - 35¢. Pies like your mother tried to make but couldn't - 50¢....What ever happened to the track team?"

When a girl looks good in a bathing suit, the boys look good too....The free soil party was created in 1848 to oppose the extension of slavery.... There's only one thing wrong with trying to live on love. There's too much mush in the diet.

Do you wash your eyes out every morning? You do? How do you ever get them back in again....An education is a wonderful thing, no college should be without one....The 20th Century Restaurant has the best chicken and sweet rolls in town. There is a tobacco store at 1083 Avenue of the Americas in New York. Early to bed and early to rise -- Your gal goes out with other guys....One man got a ticket for going 80 miles an hr., but he had a good excuse. It was a stolen car.

Research and development are getting to be a big business in this country. There is one firm that spent three years trying to create a new product for a big tycoon. They've got three specifications to meet. It's got to sell for \$19.95 - cost 35¢ to make -- and be habit forming.

I can do without: Jet planes that fly 700 miles per hr. and then make you wait 20 minutes for your luggage....the things Elvis says or does off the screen...."Independent" research organizations....radio wake up shows....Ed Sullivan.... non-fiction over 300 pages....hot rods....people who bring erasers to golf courses....shoe laces that break when you are in a hurry....busy signals....pennies....students who say that the instructors pick on them....tuition.

Abnormal is a person not conforming to standard matters of thought and conduct. To be independent is to be abnormal; and to be abnormal is to be detested.

Now they even have mail order psychiatrists. You just tear off the top of your head and mail it in.

One boy just went out and bought his girl an engagement ring that cost 100,000. (No, not dollars just little green stamps.)....After dinner at a Chinese restaurant I received a plate of fortune cookies and here are the messages I found in them: Help! I am a prisoner in a Chinese Bakery. Merry Christmas! and Made in Japan.

La Belle Dame Sans Merci means the beautiful lady without any mercy....Aar is a river in N.W. Switzerland and is 175 miles long.... Some people drink on an empty stomach.... Wouldn't a table be more convenient?

He always called a spade a spade until he hit his foot with one the other day....One bar in Tenn. offers free drinks to anyone over 85 if they are accompanied by their parents.... Have you heard about a certain professor who fell asleep and dreamed he was teaching a class? The guy woke up and sure enough he was.

The average woman has a vocabulary of 550 words. It's a small stock, but think of the turnover....I like New York because there's such a variety -- tall ones, short ones, fat ones, thin ones. You've never seen so many buildings.

He's sort of a politician's politician. If he is elected he is going to legalize graft....Remember, Speigelfinger's Mouthwash is the only mouthwash that can't be spelled backwards....It can't even be spelled forwards....6700 students will read this paper today.

History-Making Hint

Neglect Overshadows US, South America Relations

By Frank Court

The election is over. We have made our choice and he is no longer simply the candidate flying the banners of a political party. He is the President of the U.S.

WITH HIM LIES the hope for the future. This is a critical period and the eyes of the world are fixed on us. The stakes are high and costly, but the odds are in our favor. We have a fresh start. The world is waiting for our successes or blunders.

Our new President will be able to give this country a fresh coat of paint and present us to the world as a revitalized nation, ready to right all the wrongs. We hope he starts with our neighbors to the South.

It is uncomfortable to realize we live in the same hemisphere with people who hate us. In the next four years, it will be the job of this nation, to reckon ourselves in the eyes of the peoples of Latin and South America. We have failed them. It is a failure that cannot be blamed on one administration, but developed long before the years of the Russian threat or the atomic bomb.

WE HAVE EXPLOITED them and they were given little in return. Theirs is the story of social, industrial and governmental revolution. They have been stripped of their usual security and are faced with life in a world that is changing. No longer, is their neighbors to the North, the United States, the strongest power in the world. They feel the strength of Russia and Red China slowly encircling them, and offering balm to soothe the festering sores of poverty and illiteracy the U.S. has conveniently overlooked.

Twelve years ago the Organization of American States was chartered to further the cause of peace and justice in the Americas. In that period of time the strains upon the organization have increased rapidly. It continues to remain a symbol of what should be, but tragically isn't.

WE HAVE WATCHED dictators like Peron, Odrias, Trujillo, and Castro grab the reins of their respective countries. And only in the case of Mr. "triple-threat" Castro have we offered any indignation.

For twelve years, we have been embracing and publicly praising these dictators as men sent from the land of sugar and spice bent on giving all to make their country nice. And it has been a fairy-tale.

We have been ignoring our Southern neighbors and only recently decided to give them a second look. This being a result of Mr. Nixon's South American tour and the threat of Communist intervention in this hemisphere.

The Monroe Doctrine along with million dollar American interests in the Latin and South American countries, especially Cuba, have suddenly grabbed the spotlight. And the American people are appalled at the treatment we have received in relation to both. Suddenly, we realize the threat of Communism in our own backyard. We have nobody to blame for it but ourselves.

MR. C.K. YEARLY, professor of history at Florida University, stated in a recent article, "that never has it (the O.A.S.) been either a brain-child or a ward of the U.S. State Department." Mr. Yearly points out the failure on the part of our government to take a real interest in south and Latin American affairs. It is the same concern that is causing us to feel the humiliation and insecurity present in our diplomatic relations with these people.

And so, Mr. President, for the sake of the future of democracy and the assurance of peace in this boiling world, turn a wary eye to the South and reinstate us in the eyes of our neighbors.

In My Opinion

Faculty Fellows Offer Ideas For Proposed Student Union

Editor's note: The following survey was conducted to obtain an indication of the thoughts of faculty members concerning the proposed Student Union building. The student's attention is drawn to the fact that not one of the faculty members interviewed made mention of including classrooms in the proposed student building.

By Sue Cleevly

One of the main topics discussed around campus lately seems to be the proposed Student Union. With all the controversy and different ideas about what should be included in our Union, I thought perhaps it might be interesting to ask a few of the faculty members to voice their opinions.

Professor William S. Flad, Head of the Advertising Department, had this to offer: "I believe the Student Union should have a lounge for the students to relax in, perhaps with a fireplace. A large ballroom should be included, for dances, assemblies, and large get-togethers."

"This ballroom could also have a small stage with theatre facilities. There should be a game room for card playing, ping pong, and billiards. Of course, there will have to be cafeteria facilities for the students and faculty, and a faculty dining room and lounge. Meeting rooms are needed, and there should be a music room with hi-fi and tapes, offices for the various school publications, cloak rooms, and space for the university bookstore."

Mrs. Margarita Mills Spanish instructor said: "There should be provisions for a faculty dining room and club, a large ballroom, a small auditorium with stage facilities and which could also be used for small banquets, and a language laboratory."

Offices for each club are necessary and a used bookstore where students could sell or exchange used books is very badly needed. Perhaps this could be run by the senior class and the charge could work on a percentage basis."

"A cafeteria and grill are definitely needed, and there could also be a small room with a jukebox where the students could dance or sit around and talk, providing the jukebox has a blank record in it and a nickel's worth of silence could be bought."

Dr. Kenneth Dodd: "The Student Union should have a game room for pool, chess, checkers, etc., and a separate room for card playing. There should be a student lounge with the latest newspapers and periodicals; a cafeteria; and a faculty club with a lounge corresponding to the facilities in other faculty clubs at other universities."

"Also, there should be rooms for university visitors; conference rooms; and a used bookstore."

Scholarships Given To Future Doctors

The Auxiliary to the American Osteopathic Association has announced that it will award twelve \$1500 scholarships to students entering osteopathic colleges as freshmen in the fall of 1961.

The scholarships will be awarded on the basis of scholastic standing, financial need, professional motivation and aptitude, and moral character. Winners must be citizens of either the United States or Canada and must have been admitted to one of the six AOA approved osteopathic colleges.

The \$1500 will be paid directly to the selected college in two installments of \$750 each for the freshman and sophomore years. Renewal of the scholarship for the second year is dependent only on the maintenance of satisfactory work and continued financial need.

Further information and application forms can be obtained by writing: Scholarship Chairman, American Osteopathic Association, 212 East Ohio Street, Chicago 11, Illinois or by contacting Dr. Willard Webster of the Athletic Department.

Deadline for submitting scholarship applications is May 15, 1961.

Business Czar Seeks Assistant

The Business department of the Youngstown Jambar will accept applications for the position of Assistant Business Manager beginning today.

Applicants must: 1) Reside in the city of Youngstown or vicinity, 2) Be preferably a business major, 3) Be a sophomore or freshman, 4) Have a car or access to one, 5) Hold no outside job, 6) Have interest in advertising, 7) Be free on Thursday, Friday, and Monday afternoon, and Tuesday evening.

In addition, applicants should be reliable, trustworthy and enthusiastic. Application blanks are available from the Business Manager or at the Jambar office and are due by November 16th.

Dress Well to Play Well

University Marching Band Sports Bright Uniforms

By Eileen Lyden

University marching band made its debut this season in brand new uniforms, which cost approximately eight thousand dollars. The basic uniform is composed of navy blue tuxedo trousers with a regular blue suit coat.

For marching, the band wears a red and white overlay or dickey with the letters YU on the front, and a large Y on the back. During concert season, the band will not wear the dickey. Boys will wear white shirts and bow ties with the regular uniform, while the girls will wear the jackets with matching skirts and white ascots.

There are approximately 90 members in the marching band. Captain of the majorettes is Marleta Barnes, student directors, Louis Colella and Francis St. Clair, drum major, Joe Purser and trainer for the majorettes, Jim Wisler, percussion teacher at Dana.

This year, the band switched from a show with a theme to a display of precision and good concert type music. Some of the music, not including standard marches, is arranged by the students and faculty.

The concert band numbers about 70, predominately music majors. Mr. Elmer White, band director, stated, "I anticipate for next year a much greater number of non-music majors."

This year, the concert band plans

to present two big formal concerts in Strouss Memorial Auditorium on Jan. 10, and Mar. 22. As last year, the band plans to present two outdoor concerts on the campus green, on Sundays, and also a jazz and pops concert in Strouss Auditorium on a weekday. There are also plans for a tour of the city high schools.

SUCH A TREMENDOUS SUCCESS

TODAY'S SPECIAL INTRODUCING THE

FLYING SAUCER

A combination of tangy hot sausage and a juicy hamburger, all on a home-baked roll. TODAY ONLY30

We know that things were crowded our first week, but we are taking steps to speed up our service. Remember, if your continuing patronage warrants it, we'll do anything to please, even so far as knocking down the walls to give you more room. We have one request: don't bring your lunch and take up our tables; we don't have the space for that. We are open for your suggestions. — THE MANAGEMENT.

STOP IN TODAY

Campus Social Scene

This Week with Greeks and Clubs; Sororities Use Informal Open Bidding

Informal open-bidding follows the informal and formal rushing periods this year. Open-bidding means each sorority may have the privilege of explaining its organization to a rushee.

The purpose of open-bidding is to enable those chapters which are below Limitation to pledge additional girls up to the point at which chapter Limitation is reached.

Any girls interested may register in the Pan-Hellenic office, room Main 210. They must have completed twelve hours with no incompletes, not including summer school, the previous semester; must be carrying at least twelve hours this semester, and must have a 1.0 point average and a 1.0 point accumulative average on the 3.0 point system. Further information can be obtained from Dean McCarty.

Pan Hellenic

Pan Hellenic will sponsor a "Closet Case Dance" tonight from 9 to 1 in Strouss Auditorium; stag or Drag. The chaperones are Mrs. Niemi, Mr. and Mrs. Powers, Mr. and Mrs. Allen, and Mr. and Mrs. Richardson.

Alpha Kappa Alpha

The Delta Delta Chapter of the Alpha Kappa Alpha sorority met jointly with the graduate chapter on October 16 to discuss plans for their coming Regional Convention (Great Lakes Region) on April 16, 17, and 18, 1961. The Regional Director, LaRue Fredricks presided. Refreshments were served by the graduate chapter.

We welcome six pledges. They are Judy Bledso, Lorraine Stewart, Anita Robinson, Gwendolyn Hicks, Millicent Stewart and June Black.

Beta Sigma Omicron

We enjoyed a Halloween party with the members of Pershing Rifles on Friday, October 28, 1960.

We recently serenaded Marion Minghetti and Tom Steele (TKE), and also Barbara Reall and Ron Lengel (SPG) at their beautiful weddings. Both brides were presented with the traditional silver tray and pink garter.

Officers of the pledge class are Stevie Lucich, president; Elaine Schwark, vice-president; Betty Ann Trope, secretary; and Carol Walton, treasurer.

The sisters wish to announce the engagement of Eleanor Noyotny to Ed Hritz (STG).

Sigma Sigma Sigma

Last Sunday at Pollock House we held a shower for the former Carolyn Laur who married Bob Stevens of Sigma Phi Epsilon last June.

You know those fishy stories that pledges come up with? Well, our actives heard the best excuse yet from Carol Rankin when asked where her pledge pin was. Her reply? "My dog ate it." The sisters are trying to decide whether or not to make the dog wear the traditional white blouse and black skirt.

Phi Mu

Martha Marsh, National Finance Director for our Sorority will be visiting our Chapter next week. Sunday October 30, we installed our pledges. Afterwards everyone went to the Victoria Restaurant to eat.

Sigma Alpha Epsilon

This week, the brothers had a very enjoyable Halloween Party, square dance, and formal installation of pledges.

The house is always filled these days. The cause? We purchased a new 23 inch television set.

The brothers can't wait to redeem themselves for the showing made in football. So watch out for them during the basketball season.

Alpha Phi Omega

We will join together with the Circle K Club in an Election Day service project. We will form a car pool and contribute transportation to anyone needing a ride to the polls. The headquarters for this project will be Pollock House, and will be in cooperation with the local Democratic and Republican parties.

Tau Kappa Epsilon

The fifteen final rushees were installed as pledges on Wednesday, October 26.

One of our brothers, Ed Aiegler married Nancy Dignan on October 15. Recent pinnings are John Mellon to Joy Miller of (BSO), Pat Agresta to Kathy Cavallero, John Passarelli to Pat Lyons, Dave Kessler to Jean Davies, and Joe Macejko to Ruby DePaul.

About our football record - - well, there is always next year.

Theta Chi

We will hold our annual Harvest Moon Dance, November 19 at the NU ELMs BALLROOM not the ELM GARDENS.

Pledges Pete Dalton and Clyde Jordan were elected president and secretary of the Theta Chi pledge class.

The brothers are looking forward to a strong basketball team this year. Several of the brothers motored to Notre Dame to see Pitt play the mighty Irish.

Sigma Phi Epsilon

We enjoyed a fine steak dinner, at the Key Club on Nov. 10. The dinner, under the chairmanship of Dick Wrusman, celebrated the 59th anniversary of the founding of Sigma Phi Epsilon, and featured an address from Donald Kindler, District Governor of the ninth district. Dr. Earl Benkner, senior advisor to the fraternity, was also an honored guest. Sigma Phi Epsilon and Alpha Omicron Pi had a fine "Election Party" at our house last Wednesday evening. Everyone had a candidate; however, Alfred E. Newman was not represented.

Corps Nite Presented

Last night at Rayen Stadium, during half-time of the Gustavus-Adolphus game, the Youngstown University Corps of Cadets presented their annual Corps Nite.

Among the Reviewing Party were President Howard W. Jones and Dean Joseph E. Smith, honorary guests; Captain V.C. Ojrich, Acting Professor of Military Science; and Cadet Colonel Les A. Cobourn, Commander of the Battle Group, who was reviewing his own troops.

Cadet Lieutenant Colonel Douglas A. Yargas, Deputy Commander of the Battle Group, announced the ceremony, and Cadet Lieutenant Colonel David A. Colson, Executive Officer, served as commander of the troops for the review.

Math Club Meets Today

A Faculty panel consisting of Mr. Yozwiak, Mr. Dillon, and Mr. Whippley will discuss graduate school at the Math Club Meeting today.

All students are invited to attend the noon meeting in Room 14 of Clingan Wadell Hall.

Brooks Speaks for SEA

The guest speaker for the Student Education Association meeting will be Mr. Howard Brooks, head of the Audio Visual Department of the Youngstown Board of Education.

His topic will be "Audio Visual Aids in Education." All education students are invited to attend the meeting, which will be held next Thursday at 7:30 p.m. in the Blue Room at Pollock House.

Any member interested may attend the Northeastern Ohio Regional meeting Saturday Nov. 19 at Hiram College. A Northeastern Regional director will be elected at this meeting. For further information contact Alice Zebrowski, president of Y.U.S.E.A.

Spanish Club Will Host Shirley Kreps

Shirley Kreps

Miss Shirley Kreps, a member of the Maple Heights High School faculty, will speak to the Los Buenos Vecinos Spanish Club, in Pollock House tonight at 8:30. Her talk "Sunny Valencia" will include Valencia, Cordoba, Toledo, Sevilla, and Madrid and will be accompanied by slides.

Miss Kreps received her B.A. degree from Youngstown University in 1956. While attending the university, she was treasurer of Student Education Association, treasurer of Alpha Phi Epsilon Service Sorority, and secretary of Los Buenos Vecinos. Presently, she is a member of MACTA, a local teachers organization in Maple Heights, AATSP, a National Association of Spanish teachers, and NEOTA.

She has traveled and studied in Mexico and Spain. While in Mexico she attended the National University of Mexico, and in Spain she did graduate studies at the University of Valencia.

A MODEST PROPOSAL

A movement is afoot—a shocking, startling movement—to solve the problem of overcrowded colleges by the simple expedient of refusing admission to women at coeducational schools!

It is argued by proponents of this plan that in today's world a college education is absolutely essential for a man, while for a woman it is merely a pleasant interlude between adolescence and housewifery. There is simply not room enough for both men and women in our overburdened colleges; therefore, in all fairness, women who have far less need of a degree than men, must yield their places.

Well sir, when I heard this drastic proposal, I was so shocked that I sat right down and lit a Marlboro. I always sit right down and light a Marlboro when I am shocked. I also always sit right down and light a Marlboro when I am not shocked. There is no time, no condition, no mood, no estate when it isn't a source of soul-deep gratification to settle back and have a full-flavored smoke—Marlboro, the filtered cigarette with the unfiltered taste—Marlboro, the jewel of cigarettes—Marlboro, the pinnacle of the tobaccoist's art—Marlboro, my comfort, haven, and snug harbor.

Well sir, I sat smoking my Marlboro and thinking over the shocking proposal to keep women out of coed schools, and hoping fervently that another solution can be found. If the calamitous day ever comes when women are banned from coed colleges, I will gnash my teeth and rend my garments and take to my bed without supper. Like any other Marlboro man, I love women. I love the sight and sound of them, the cut of their jibs, their beauty and grace, their cunning little spitefuls, their sleek dimples, their middy blouses, their aura and effluvia. Moreover, I freely admit that when it comes to brainpower, they can give the average man cards and spades and big casino too. It would be a shame, a disgrace and a catastrophe to keep these beautiful, intelligent creatures out of college.

However, it is always wise in time of fair weather to prepare for foul. What if the advocates of keeping women out of college begin to gather strength? We who abhor this fiendish plan must be ready with a substitute . . . and it just so happens I have one—and a mighty ingenious little plan it is, if I say so myself.

Granted that classroom seats are in short supply, and granted that men need degrees more than women, it is still not necessary to bar women from college. Let them go to college but—here is the beauty part of my plan—don't let them go to class!

I love the sight and sound of these . . .

This solution, it seems to me, answers every requirement. It releases hundreds of thousands of classroom seats to needy males. At the same time, it does not deprive women of the rich and varied benefits of campus life. They can join sororities, shoot pool at the Union, build bonfires for Homecoming games, pour at the Dean's tea, plait daisies in their hair, organize drag races, sculpt in ice, hook rugs, walk their cheetahs, play Monopoly, find love—in short, they can do anything except go to class.

Tell the truth, girls: Is that bad?

© 1960 Max Shulman

Classroom space is short, but smoking pleasure is in abundant supply. Try Marlboros—or Marlboro's unfiltered sister cigarette—mild, flavorful Philip Morris, now available in regular size or the sensational new king-size Commander. Have a Commander—welcome aboard!

Kappa Sigma Kappa Grabs Grid Laurels

Bandit's Domination Ends As Cain's Passes Feature

By Rick Collins

Kappa Sigma Kappa scored a decisive 20 to 8 victory over Zeta Phi to grab the 1960 IFC football championship. The defeat ended Zeta Phi's supremacy in IFC ball and ended their win streak at 22.

The Kappa Sig's scored with four minutes gone in the first quarter on a Cain-to-Ruban aerial. The TD was set up by Bob Finnerty's pass interception and two other Cain passes, one to Gergely and one to Sonny Joseph.

THE Kappa Sigs appeared headed for another touchdown until the Zeta Phi defense tightened up and forced Kappa Sigma Kappa to punt. The pass from center was bad, however, and the only alternative the punter had was to pounce on it in his end zone for a Zeta Phi safety.

After Zeta Phi received the kick-off Markasky fumbled due to the terrific onslaught by the Zeta Phi line, which they maintained throughout the afternoon. This time it was Dan Murphy who recovered the fumble. Jim Braney caught a pass for

one first down, Cain ran for another. Braney then caught another pass from Cain for the 6-pointer, with 40 seconds left in the first half. The half closed with the Kappa Sigs leading, 13-2.

The second half started with Zeta Phi kicking off. Bob Cain ran for a first down to his own forty on the first play from scrimmage. After an incomplete pass, Cain threw to Sonny Joseph for a touchdown. Cain and Joseph used that same combination for the extra point.

A Kappa Sigma Kappa fumble set up Zeta Phi's only touchdown. The touchdown was accomplished on a pass from Larry Markasky to Jack Phillips.

Rick's Picks

By Rick Collins

OFFENSIVE TEAM

QB. - Bill Collins, Theta Chi
HB. - Sonny Joseph, Kappa Sigma Kappa
HB. - Bob Cain, Kappa Sigma Kappa
C. - Dick Blaine, Zeta Phi
End - Frank Hubert, Zeta Phi
End - Jim Braney, Kappa Sigma Kappa

DEFENSIVE TEAM

Guard - Bill Senn, Kappa Sig
Linebacker - Lou Devlin, Theta Chi
End - Wilbur Cole, Sigma Tau Gamma
End - Dan Murphy, Kappa Sigma Kappa
HB. - Steve Clapp, Theta Chi
HB. - Chuck Africa, Sigma Tau Gamma
Safety - Bob Finnerty, Kappa Sig
Offensive-Defensive Gridder - Delmar Stanley, Sigma Tau Gamma

*Note: Seven defensive players were chosen due to the two types of defenses employed; three linemen or two linemen and one linebacker.

Happy Days Ahead

Freshmen Gridders Forecast University's Football Future

By A. Robert Steiskal

The freshman team this year consists of 26 men, not counting the freshmen who play varsity ball. The freshmen, under the leadership of Charley Bush, attended football camp with the rest of the team and use the same plays as the varsity.

The freshman club is called the "little Penguins". They have played three games so far this season, and accumulated a 2-1 record against Slippery Rock and Kent. They have played Slippery Rock twice, and have won both times.

The first time they played them, they played at Slippery Rock, and the second time they played them at Volney Rogers. They won both games by scores of 14-6. Several weeks ago, they travelled

to Kent State University. There they lost a close decision to the Kent "Flashes" 7-6.

The freshmen practices with the varsity on a field near Liberty school on North Belmont. The "little" Penguins are the players of tomorrow and it looks as though Youngstown will have a large, fast team in the coming years.

There are 22 freshmen playing varsity ball this year. Among the frosh gridders are Dick Hartzell, extra point specialist, John Moore, quarter back, Dave Crosetto tackle and Fran Lyons end.

Rich Sets Sights On Coaching Job

By Rick Collins

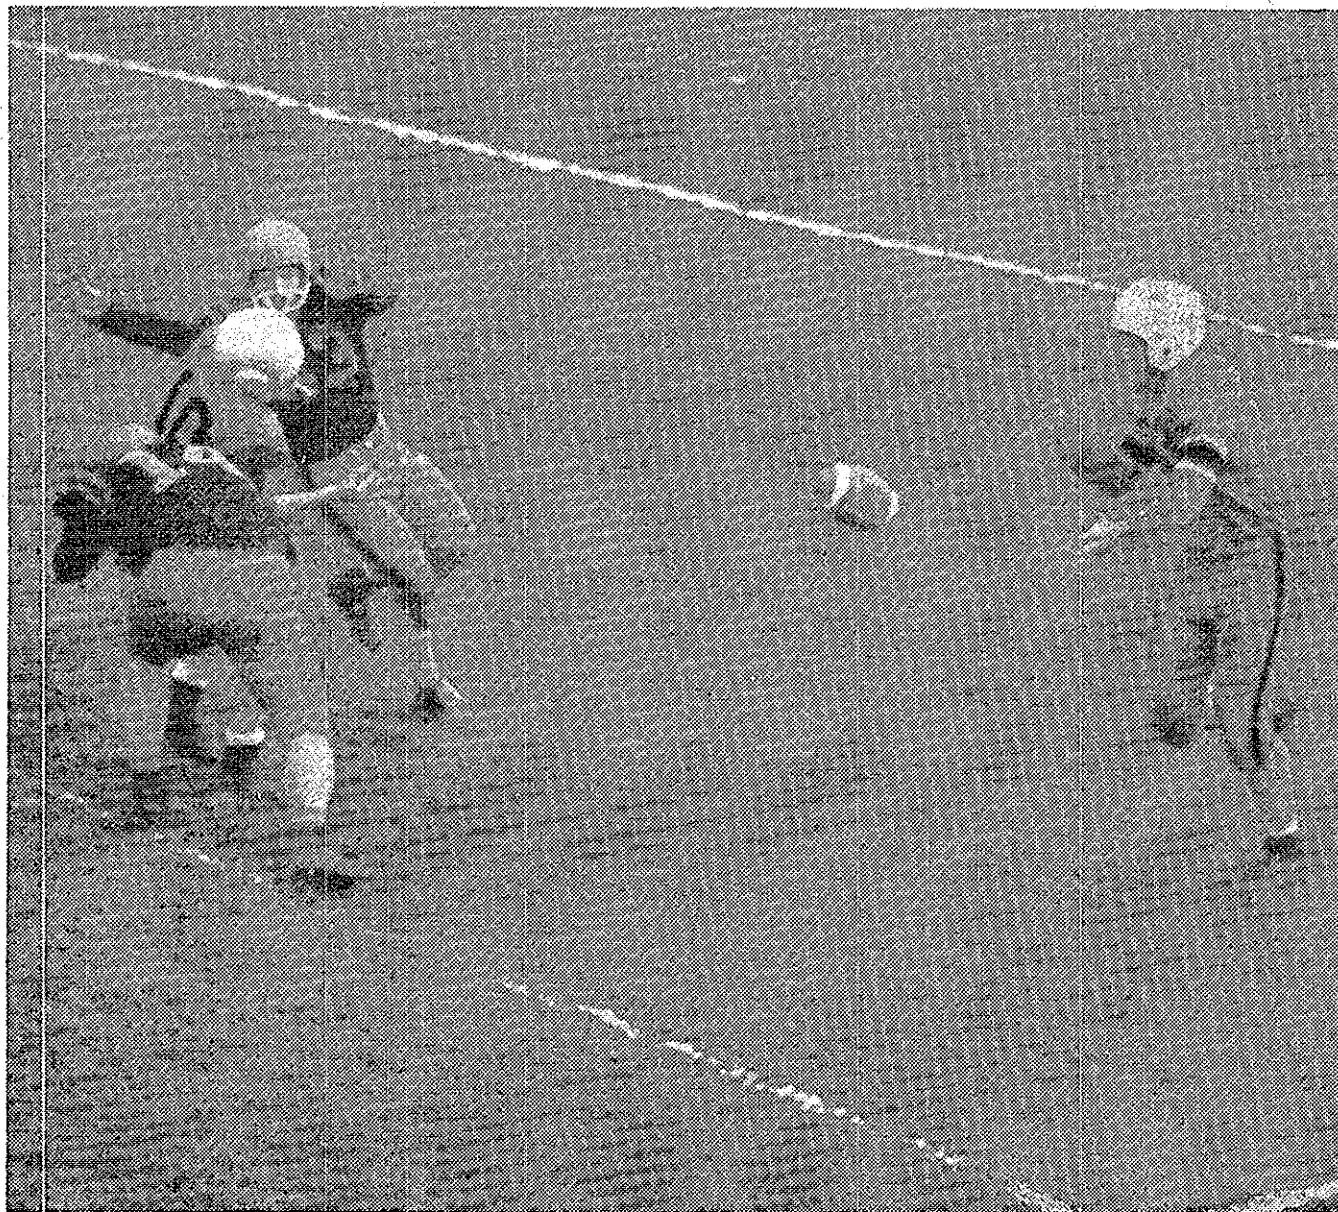

Jim Rich, an end on YU's grid squad with ability to play fine ball both offensively and defensively, hopes to become a high school coach following graduation.

He looks with hopeful eyes toward Butler High. He talks of Butler in glowing terms. "It was an enrollment of 1800 students, and a beautiful campus with nine modern buildings to accommodate them.

Jim is married and has a boy, James Jr. Jim married the former Joyce Jurysta.

Jim has been in the service, having played service ball with the Ninth Infantry Division in Germany after playing only one year of high school football. With this lack of experience he won a defensive end position from a graduate of South Dakota.

Jim was also named defensive captain of a squad which included players who are now playing Pro football plus others who became All-Americans in college.

How to advance through lateral movement

THE LATERAL PASS is a perfect example of how to get ahead by first going sideways. And lateral movement is a philosophy we use at Koppers.

Here's how it works. Let's say you're a new employee at Koppers. We give you a specific assignment. You find it exciting, challenging. You do a good job. But do we leave you there? Not at all. Once you understand that particular operation, we try you on a different assignment. Here, again, you'll find the work new and stimulating.

You'll never be buried at Koppers. You'll never stand still intellectually. Moving from one operation to another, you'll move ahead. Your assignment won't be to learn just a job, but many jobs. Your compensation? Advancement, responsibility, success.

Your youth won't be held against you. Neither will short tenure. If you have the ability and the desire to get ahead, you'll move fast! Our system of continuous appraisal and evaluation is your guarantee of that.

Koppers is so widely diversified that you can almost name your job. Want to work with chemicals, jet-engine sound control, plastics, sintering plants, wood preservatives, road surfacing materials, electrostatic precipitators? Interested in research? Production? Sales? These are only a few of the fascinating opportunities at Koppers.

Why not find out how you can fit into the Koppers picture? Write to the Personnel Manager, Koppers Company, Inc., Room 230, Koppers Bldg., Pittsburgh 19, Pennsylvania. Or, see your College Placement Director and arrange an appointment with a Koppers representative for the next recruiting visit.

Vision Hocus-Pocus

By Blaise Deleo and Molly Stuart

No, group your eyes are not playing tricks on you. The picture opposite mine is that of the female sex. The name of this pretty young Miss is Molly Stuart. She will be here from here on in. What happened to Pat? You will never know group, you will never know.

Overheard complaint at the Snack Bar. "Now what's buggin' you Sam?" Sam: "Well You'll never dig it, but last night I had a dream that they took my favorite chair from the Snack Bar, so they could install another one of them "coin chompers". Friend: "What's so bad about that,

that chair is wasted anyway. It only has three legs." Sam: "Yeh, that just it - this chair has great sentimental value. Why if it weren't for old "Zela" here, I wouldn't have any use for my book's." (Looking at the chair we noticed a stack of books holding up one corner of the chair up). The moral of this tale is that there is one coin machine for every two tables in the S.B. If you don't believe us count them - if you can.

If you happen to see a poor fellow wandering around with a pained look on his face and constantly repeating, "Has anyone found my wheels", please don't laugh. This poor joker parked his car in the lot behind the Library one night last week and retired to North Hall for some intellectual talk and a coke. Upon his return he noticed that his car was sitting rather low. It should have been, it was resting on the brake drums. Some honest soul had felt free to remove all four tires (at no cost). You ask about the whereabouts of the Campus Cops, probably checking stickers in the main lot.

One method of impressing one's date at a dance nexttime you are out, is to sit out five dances and build towers with ash trays and coke bottles. At least that is what this one fellow at the Engineers' Ball thought. We may never see this individual at another dance, but it looked like fun.

A line taken from Laplace, "What we know here is very little, but what we are ignorant of is immense".
