THE YOUNGSTOWN UNIVERSITY

Rebounding action at the Youngstown University-Gannon basketball game. Story on Page Five.

## New Dean Named at YU

Dr. William H. Coffield, dean of the College of Education at Kansas State University, has been named academic dean of Youngstown University. He succeeds Dr. Joseph E. Smith who is retiring at the end of the academic year.

On appointing Dr. Coffield to his new position, Dr. Pugsley commented, "I am truly delighted that Dr. Coffield is joining us at Youngstown University."

Dr. Coffield stated that one of his reasons for accepting the position at YU was his high regard for President Pugsley. He worked with the president on numerous assignments when Dr. Pugsley was administrative vice president at Kansas State U.

On visiting the YU campus last December, Dr. Coffield remarked that he was greatly impressed by the general level of activity and dedication of the faculty and staff. His first impression was one of the opportunity to build and a challenge that presents tremendous potential.

A native of Alabama, Dr. Coffield received his B.S. degree from Troy State College. He earned the M.A. degree from George Peabody College and his doctorate from the University of Iowa.

Dr. Coffield's major field of research is administrative behavior and learning. He has written numerous articles in such publications as The Elementary School Journal and the Journal of Educational Psychology.

Following his doctoral work at the University of Iowa, Dr. Coffield served as associate professor of education at Auburn University from 1954-58. During this time he also served as a research associate for the Special United States Office of Education. Following his professorship at Auburn, Dr. Coffield worked on a special project at State Teachers College of Columbia University from 1958-59.

From 1959-61, Dr. Coffield served as associate professor at Ohio State University. He was also associate director of the University Council for Educational Administration at this time.

From 1961-63, the new dean was professor and head of the department of education at Northern Illinois University before being appointed professor and dean of the College of Education at Kansas State in 1963.

Dr. Coffield is a member of Phi Delta Kappa fraternity, the National Education Association and the Association for Higher Education. Other memberships are held in the American Association of School Administrators, the American Educational Research Association and the Executive Committee of the Mid-Continental Regional Educational Laboratory. The new dean is also secretary of the Association of Colleges and Schools of Education in State Universities and Land-Grant Colleges.

DR. WILLIAM H. COFFIELD

## Police Science 2 Yr. Program To Begin Here

A new police science program, designed to fill a gap in trained law enforcement personnel and to provide in-service training for area law departments, will be included in the fall curriculum.

The two-year program will offer 50 quarter-hours in general college courses and 40 quarter hours in specialized police training.

General education requirements include study in economics, communications, sociology, history and political science. Students completing the program will receive the title of Associate of Arts with a major in police science.

The current police science program, started in 1964, is a regular four-year course leading to an A.B. degree with a major in police science.

## Evans, Magner Named To Business Positions

E. Mark Evans has been appointed assistant dean of the school of business administration and Richard M. Magner has been appointed acting chairman of the accounting department.

A native of Brookfield, Evans joined the YU faculty in 1952 as a part-time accounting instructor in the school of business administration and was transferred to a full-time position in 1956. In 1961 he was appointed an assistant professor.

Prior to joining the YU faculty he served two years with the Army Air Force and for three years was a junior accountant with the Youngstown accounting firm of Burgessson and Thomas, CPA.

Evans is a graduate of Sharon High School, Sharon, Pa., earned his B.S. degree from Youngstown University and the M.B.A. from Western Reserve University.

## Dean's Council, OSPE and IEEE Elect Officers

The Engineer's Dean's Council and two engineering societies elected officers for their organizations during the semester break.

The Dean's Council new officers, who presided over the first meeting of the semester last Wednesday, are Robert Eagleton, President; Thomas Couch, Vice-President; John Landers, Jr., Recording Secretary; Gary Uitto, Treasurer; and Frank O'Malia, Corresponding Secretary.

The YU chapter of the Ohio Society of Professional Engineers installed its new officers at its annual banquet January 28. They are: R. James Edling, President; John Cover, Vice-President; Alverta Fraser, Recording Secretary; Richard Bricenza, Treasurer; and Larry Corcello, Corresponding Secretary.

The new officers of the Institute of Electrical and Electronics Engineers are: Thomas Couch, President; Andrew Glista, Vice-President; John Landers, Jr., Treasurer; Larry Corcello, Recording Secretary; and John Jardine, Corresponding Secretary.

The engineering societies will be conducting their spring membership drives shortly. Students interested in joining a technical engineering society are asked to contact the Dean's office for further information.

A registered public accountant, Evans holds memberships in the American Association of University Professors, American Accounting Association, National Association of Accountants, and the Sharon American Legion. He is also an advisor to Alpha Tau Gamma, honorary accounting fraternity, and Phi Kappa Tau, social fraternity.

Magner, an assistant professor and member of the University staff since 1964, earned his B.S. degree at the University of Indiana of Pennsylvania, and the master of science in education from Westminster College. He has done further graduate work at the Wharton School of Finance, University of Pennsylvania.

For two years prior to joining the Youngstown faculty, he was with the Sharon, Pa., accounting firm of Magner and Black as resident manager of their Greenville office. For three years he was a part-time accounting instructor at Geneva College.

From 1953-62 he was employed in the accounting office of the U. S. Steel Corporation at their Ellwood City and Pittsburgh offices. During this period he served on their steering committee designated to write a standard cost textbook

and prepared specific sections for the book.

Last year he was named the "Outstanding Accounting Instructor for 1966," by graduating seniors in the department and was the recipient of the Alpha Tau Gamma Accounting Award.

He is a member of the American Accounting Association, American Association of University Professors and Alpha Tau Gamma, of which he is also the advisor.

## SC Elects New Officers

Student Council elected new officers for the second semester of the current academic year at the last meeting, last semester.

Those named as council officers were James McBride, president; Joe Audia, vice-president; Elaine Dixon, secretary; and Al Varraux, treasurer.

McBride (RAL), junior in public administration, also serves as president of the Circle K fraternity. He is a member of Newman Club and is a member of Mayor Anthony B. Flask's safety council. McBride was instrumental in revamping the structure of the YU student council and has been active in other student affairs.

Audia (LA) is a senior majoring in political science. He is a member of Alpha Phi Delta fraternity, the social science club and the Newman club.

Miss Dixon (Ed), a member of Zeta Tau Alpha sorority, is a senior education major. She has served six semesters on student council and writes the Greek News column for the student newspaper.

Varraux (RAL) is a senior pre-medical student and is a member of Circle K fraternity and the mathematics club.

President McBride in speculating on the activities on his council for this semester feels that the newly passed governmental legislation is perhaps the most important tool to be used this semester.

He noted, however, that until these new procedures are known and practiced by every council member, problems can be expected. But once the constitutional procedures become a habit, the student government will not only be more effective, but also more representative of the student body's opinions and feelings.

McBride cited several new goals that he has created for this semester's council. He said "Council should be able to communicate to

every student on campus the reason for the existence of student council, what this council has done in the past and what is to be done in the future."

McBride also said that he would have council concern itself only with legislation aimed at the revision of student government on campus by making it more representative and aimed at the welfare of the student body.

Concerning the students of YU, McBride feels that they "don't realize what council can do for them and see council as ineffective. The fact that no one committee on council has been specifically assigned to enforce legislation. The proposed executive branch and cabinet of the so-called "New System" will be charged with specific duty of enforcement.

Commenting on the charge that council does nothing substantial McBride replied that until the administration gives council the right to control the students, council must operate under serious limitations.

If the student faculty committee on student government can prove that active students are responsible enough to accept additional responsibilities at college, only then will the responsibility of council be increased.

McBride feels that "there is a difference between control and help, and through regulation of the students council can help them."

Alberta Samuels was chosen Queen of this year's IFC Ball. Story on Page Two.

# Geography Dept. Offers Summer Tour

Youngstown University students have an opportunity to tour Europe economically and earn six credit hours in a 54-day summer tour of eight countries offered through the geography department.

The tour is available to students and non-students and is headed locally by Geography Dept. chairman Michael Klasovsky.

The flight to Europe leaves July 6 and returns Aug. 28 and the tour includes eight countries: England, Belgium, Holland, France, Germany, Switzerland, Italy, and Austria. Major cities to be visited include Paris, London, Rome, Milan, Amsterdam, Geneva, Munich and Venice.

Prof. Klasovsky said the trip is divided into small groups and thus

allows participants maximum freedom of activity.

"Each member is pretty much on his own to see as much as he wants and to do it in his own way. The tour's primary purpose is to meet the people of Europe," he said.

Each student will be urged "to explore the cities, villages and way-

sides" and will be briefed on the highlights of the country, he said. "Participants will be provided with notes to explain the geography of each region to be visited."

The six semester hours may be applied toward an undergraduate or graduate degree. The cost of the trip is a little over a thousand dollars and can be paid in installments. This price includes air travel to London and return, all travel expenses within Europe, and all meals and lodging expenses.

All members will be given photographic and geographic instructions and will be briefed on what to look for at each particular place. Following these daily briefings, the traveler will be on his own to spend each day as he wishes.

Interested persons should contact the Geography Department (Elm Street School, Room 11).

## Scholarship Is Hinted Senior Gift

A revolving scholarship fund is one of the three suggested gifts to be presented to the University by the Class of 1967, the senior executive committee announced this week.

The other two suggestions made by the committee last Friday are a public address system and a large statue of a penguin to be placed in the center of the campus.

Seniors will vote on which gift to give to the University at 1 p.m. Wednesday in Strouss Auditorium.

President Howard Johnston explained that the statue would bear a plaque containing an explanation of how the penguin became the University's mascot.

Gil Doubet, vice-president, said the loan fund would be available to "deserving undergraduates" and the loans would be paid back within a designated time following the student's graduation. A nominal interest rate would be charged to cover expenses of administering the fund, he said.

Barbara Sedzmac, class treasurer and chairman of the gift fund, will explain the suggestions at the meeting and seniors will then vote on the gifts.

The executive committee also voted to sponsor the Annual Senior Dance on May 27. Additional details were not released.

Miss Sedzmac reported the senior class budget totals more than \$5,000.

## Miss Samuels Is IFC Queen; TEKES Win

Alberta Samuels, Alpha Omicron Pi, was crowned IFC Sweetheart and Tau Kappa Epsilon won the booth competition at the annual IFC Ball held Saturday night at Stambaugh Auditorium.

Miss Samuels was crowned by Barbara Chura, AOPi, last year's sweetheart. Members of the court included Diane Mastropietro, ZTA; Marsha Hooden, SSS, and Carole Rittenhauer, PM.

In keeping with the Chamber of Horror theme, the TKE booth was a representation of Frankenstein's Castle. The second place Alpha Phi Delata booth was a walk through the chamber of horrors. The Sigma Alpha Epsilon booth depicted a Dracula attack scene and won third place.

Chairmen for the affair were Ken Bauer and Dale Paden.

## One Acts Offered Feb. 24, 25

Three student-directed one-act plays will be presented by the Drama Department at 8:30 p.m. on Feb. 24 and 25 in Strouss Auditorium.

"The Valiant", a play by Holworthy Hall and Robert Middlemas, will be directed by Mike Brace. Bob Alvarez will direct "The Elephant Calf," an unusual play, written by Bertholt Brecht. "The Old Lady Shows Her Medals," by J. M. Barrie, will be directed by Gwen Weggele.

Student admission is free with I.D. card, and general admission is \$1.25.

"If you are looking for an environment where you can make things happen, you are the kind of person we want at Koppers. You approach your job with enthusiasm and imagination and take responsibility seriously. You are profit-conscious, results-oriented, and demanding of yourself. You will continue self-development and professional growth, so necessary in our constantly changing technology. If you expect guidance, vision, leadership and a chance to grow, we are the company you are looking for."

Fletcher L. Byrom,  
President  
Koppers Company, Inc.

We need chemists and engineers—electrical, metallurgical, mechanical, chemical and civil; and liberal arts graduates for marketing, procurement, traffic, and other positions.

If you are interested in learning more about Koppers—and our leading role in chemicals, plastics, new wood treatments, protective coatings, sound control and improved processes for the steel industry—contact Phil Kable, Koppers Company, Inc., Room 203, Koppers Building, Pittsburgh, Pa. 15219. We're an equal opportunity employer.

**Exclusive Representative Official Youngstown University  
Traditional Ring as Adopted by Student Council**

On one side of the ring is a replica of Youngstown University. Above this design in the upper left and right hand corner is shown the graduation year date. At the base of the design is shown the Chevron for Discipline.

The top of the ring consists of a Cardinal Red Stone, depicting the Flame of Inspiration. The many facets of the stone represents the many Fields of Study. Surrounding the Red Stone in raised lettering is identified Youngstown University. The foundation stones of Education is depicted in the symbolism separating the two names. Surrounding the base of this name band is shown the Strength of Unity by the many entwined courses of study.

The opposite shank illustrates the Torch symbolizing the Light of Learning. The rays extending from the Torch reflects this spread of learning throughout the Universe as depicted in the symbol of the Globe. Below this design and encompassing the World is the Might of the Quill in Writing and Literature. In the upper left and right hand corner is the University Founding Date. At the base of the design is again depicted the Chevron symbolizing Discipline.

The Latin Animus Liberatus in combination with the balance of the design is officially interpreted as Freedom of the Mind and Spirit through the Light of Learning.

# SPORTS SCENE

By CHARLIE GILL

On Saturday, January 21, YU put a halt to the 10-game winning streak of Hillsdale College. This marked the 10th win in 14 starts. The Dales appeared to be big. Their smallest man was only 6' 1" and the others were around the 6' 6" mark.

The game got off to a slow start with the lead being exchanged many times throughout the first period. When the second period rolled around, YU was never touched throughout the remainder of the game.

Fans who saw Charlie Rowan performing and being worked around by the big Moorhead must have thought that he had found a new secret - - because no matter how hard he was being pushed by this tall opponent he remained cool, calm and collected. Then for a while he would get his hands on the ball and immediately be fouled. Then it was up to the foul line for a 1 and 1 to raise the score.

Young Will Teague started the second period of play and remained in the game until he fouled out late in the 4th period. Then Coach Rosselli gave the honors to big Charlie Swaiko. This man has sat out so much of the season that when he went into the game he looked as if he didn't even know who YU was playing. I'll bet Swaik won't be sleeping on the bench next week.

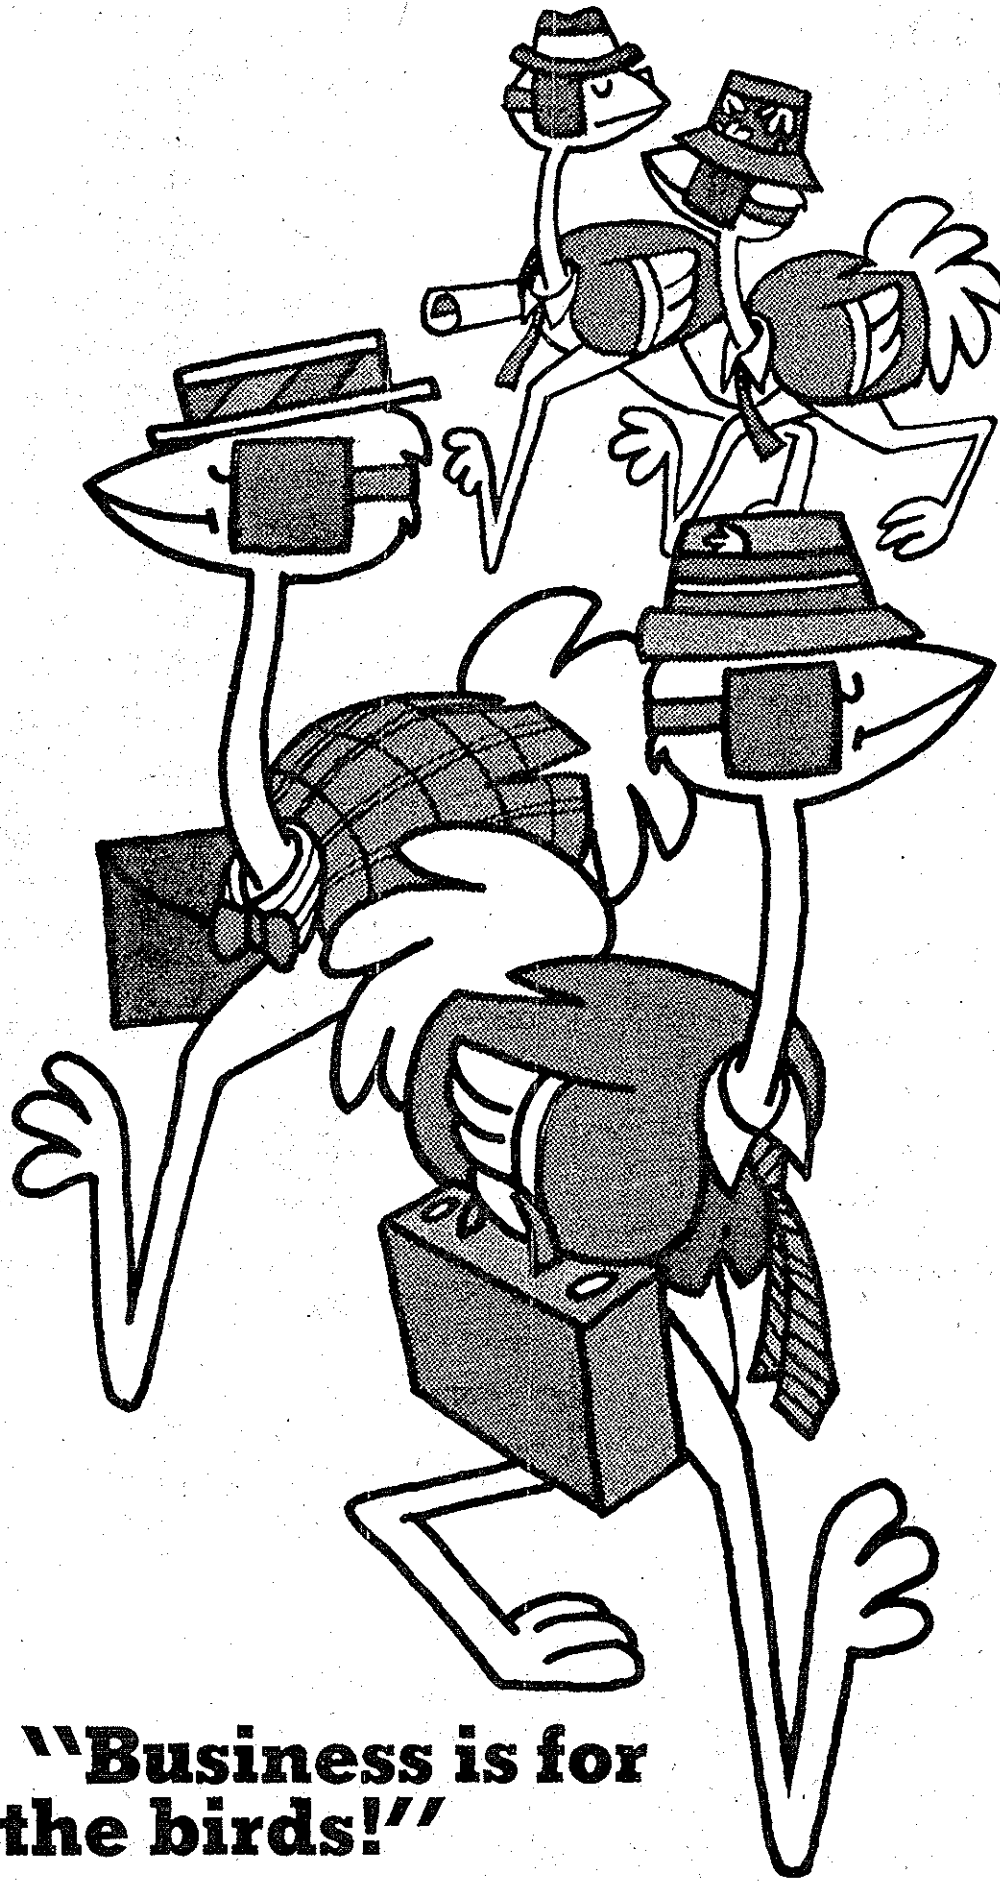

If anybody calls the Gannon scrimmage a basketball game they had better watch a practice. YU showed that its defense was one of the best.

For those some 3,600 fans who paid to see the Revenge Game of 1967 many went away disappointed. The fans expected to see a game in which the scoring would be around 90 points, but this game never reached 40 for YU. Gannon froze the ball for at least 12 minutes of the game and 3 minutes of the overtime.

Gannon wouldn't shoot unless they were fairly positive of making the basket because they knew that Frank, Charley, Joe and Will would bring any rebounds to the ground. When YU went to Gannon they were beaten by the referees. Last Saturday was no different. It appeared that there was only one referee in the game. All the other referee did was carry the ball back and forth for fouls; he only blew his whistle about 4 times throughout the entire game. The calls he did make were calls that a blind man could have made. He might have been trying to read the rules while the game was going on. When a team hits the ball out of bounds, they don't get possession of it again until the opponent gets the ball—yet this is what happened three times. Gannon hit the ball out of bounds and they were awarded possession. In a game as close as this was, calls like that make or break a team.

One thing can be said about Gannon—they can make the point when the pressure is on. Once again, although the score doesn't show it, YU played a fabulous game. There were times when Gannon tried to put on those precision drills that the Globe Trotters put on and YU played perfect defense even to the point where they were able to steal the ball from the cool, "black and yellow knights".

In summing up, YU is still tops. They have nothing to be ashamed of. They played a great game but the breaks weren't on their side that night.

**"Business is for the birds!"**  
**Who says so?**

Lots of people do. Some right on your campus. And for rationale, they point an accusing finger at business and say it lacks "social commitment."

Social commitment? We wish they could visit our Kearny, N. J. plant, where we make cable and apparatus for your Bell telephone company. But we have time for other thoughts, other talents.

Like the situation in nearby Newark. With civic and business leaders, we began buzzing with ideas. "Let's teach higher skills to some of the un-employed and under-employed. Say, machine shop practice. They could qualify for jobs that are going begging - and help themselves as well."

We lent our tool-and-die shop, evenings. We found volunteer instructors. A community group screened applicants. Another supplied hand tools. The Boys

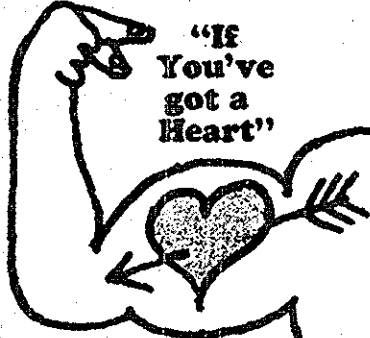

Club donated classroom facilities. Another company sent more instructors.

Some 70 trainees enrolled. Their incentive? Self-improvement. Results to date? New people at better jobs. Happier.

And this is only one of dozens of social-minded projects at Western Electric plants across the country, where our first job is making communications equipment for the Bell System.

So, you don't give up ideals when you graduate. If anything, at a company like, say, Western Electric, you add to them. And it's not just a theory. It's practice. Satisfying. Come on and find out. And watch a feathered cliché fly out the window, well."

## YU Hit By Gannon Jinx

By RAY FARRELL

This Saturday night, the Youngstown University Penguins will travel to Wilberforce, Ohio to take on the highly rated and always dangerous Marauders of Central State University.

Last week the Rossellmen dropped a thriller to Gannon and came back to crush Alderson-Broaddus.

Three thousand six hundred and ten fans were on hand Saturday evening at South High Field House to witness the rematch between the Black Knights of Gannon College and the Penguins of Youngstown University. The fans eagerly awaited the tip-off of what was to be an exciting contest from start to finish. However, at the end of the fray disappointment reigned and unhappiness is still visible from what will long be remembered by area sportsfans as "the great stall."

The Knights constantly employed extreme slow down tactics to freeze the ball from the high scoring Penguins. These tactics were successful, however, and gave the Erie, Pa. College its fourth victory over YU, by a score of 41-39.

The first half saw Gannon take a 26-24 lead to the locker room. Ahead 10-9 with about 14 minutes left in the half, Gannon Coach Denny Bayer called time-out and had his club start the stall, which eventually turned into victory. At this point, the crowd became greatly displeased and began throwing articles on the playing floor despite a plea by Penguin mentor Dom Rosselli.

The lead changed hands a few times in the remaining 12 minutes but the Penguins could not get a lead strong enough to force Gannon to play their type of basketball. YU held the lead for the last time with less than six minutes remaining in the half as Joe LaVolpa hit an outsider.

The second half was much the same as the first with Gannon play-

ing the stall once again. With just over 5 minutes in the game the score was Gannon 39, YU 36 and the only other scoring that came within regulation time was a goal and foul by local ace Joe Nigro which tied the score and forced the overtime.

Sometime during these last few minutes of play, Frank Fitz was clear under the basket for what was an assured 2 pointer when he slipped and was called for a traveling violation. Fitz later revealed that he slipped on a coin which must have been thrown by some angry spectator.

The overtime session started with the score deadlocked at 39-39. The Penguins had a few opportunities to score but the highlight of this period was a 3 minute 31 second freeze which had as its object a one shot play. Larry Daly, a freshman on Gannon's varsity sank the winning bucket with two seconds remaining in this controversial game.

Gannon Coach Bayer said after the game, "We have used these tactics before against YU . . . They have a great team and our policy was to make them come out and get us."

Rosselli stated that he had to change our defenses to cope with Gannon but saw no use to go out and foul them to get the ball.

Youngstown out-rebounded Gannon 29-26 and sank 13 of 39 field goal attempts. The Knights made good on 18 of 40 and 5 out of 8 fouls. YU faces Cleveland State in its last home appearance on February 15. South Field House is the scene once again and tip-off time is 8 p.m.

## YHA School Head Named YU Prof.

Miss Gilda M. DeCapita, director of the Youngstown Hospital Association's School of Nursing, has been named assistant professor of the University's School of Nursing, scheduled to open in October.

The School of Nursing will offer a two-year classroom and applied study program. University officials have not named a chairman of the department and Miss DeCapita is the first staff member thus far appointed.

A native of Youngstown, Miss DeCapita is a graduate of the Youngstown Hospital School of Nursing. She received her B.S. degree from Youngstown University and her M.S. in Nursing Education degree from Western Reserve University.

During World War II, Miss DeCapita served as a head nurse in the United States Army Nurse Corps after which she studied for her B.S. degree at YU. Following graduation she served as a general staff nurse for the Youngstown Hospital Association and was appointed as an instructor for the YHA school of nursing in 1950.

Miss DeCapita was director of the Salem City Hospital from 1952-57 after which she rejoined the YHA nursing school as associate director of nursing. She was appointed to her present position in 1958.

Miss DeCapita is a member of the American Nurses' Association and the National League for Nursing. She also serves as the Youngs-

town adviser to the Future Nurses' Association.

Miss DeCapita is currently working with Mrs. Pauline Botty, assistant professor of sociology, and Mrs. Edna McDonald, assistant professor of sociology, in developing the new nurses' training program at the University.

## SS Application Due Tonight

Midnight today is the application deadline for students to take the Selective Service College Qualification test scheduled for March 11 and 31 and April 8.

Applications are available at all local draft boards.

Forms should be mailed in the envelopes provided and addressed to Selective Service Examining Section, Educational Testing Service, P.O. Box 988, Princeton, N. J.

Ken Kendall, former varsity debater, congratulates Mike Polansky, winner of "Best Negative Speaker"

## YU Debaters Win

Varsity Debate Team won Invitational Debate Tournament at Rochester, N. Y. last Saturday (Feb. 2).

Although YU missed placing in the top three, two members placed first in individual categories.

Mike Polansky, senior pre-osteopathy student from Sharon, Pa., scored highest in total speaker points and highest as "best negative debater" totalling 128 points out of a possible 150.

Jim Lalumia, senior English major from Youngstown, received first place in the oratorical division; he spoke on the need for "independent thought concerning contemporary issues". Both speakers received silver trophies which are on display on the first floor of the Ward Beecher Science Building.

The four-man team is coached by Mrs. Maryanne Hartman. They achieved a 6 win 4 loss record. Other members of the team are Bill McDonough of Youngstown and Larry Winslow of Sharon, Pa. Twenty-four colleges and universi-

ties from several states debated the topic: "Resolved that the United States Should Substantially Reduce Its Foreign Policy Commitments."

## Zeta Phi's Become Phi Tau's

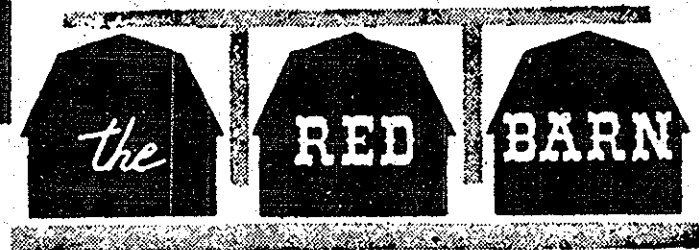

Zeta Phi, last of Youngstown's local fraternities, became the 88th chapter of Phi Kappa Tau national social fraternity at installation ceremonies at the fraternity house on Indiana Avenue recently.

Epsilon chapter from Mount Union College installed the locals as Gamma Pi chapter.

Zeta Phi was founded in November, 1956 and remained a local fraternity for nine years. The members of the fraternity voted to become a colony of the national in the fall of 1965.

### If you're under 25 with sideburns to burn, you need this dial.

*If you're under 25, chances are you've got sideburns to burn. Longer than your dad's, shorter than some, but highly likely to grow out of control between trips to the barber.*

If you use the new REMINGTON® 200 *Selectro*® shaver, they won't. And your cheeks won't be left with bloodstained slits, either.

Here's why. The REMINGTON 200 *Selectro* shaver has a dial with a special position just to trim sideburns. Click to number 5, and out comes the biggest pop-up trimmer ever. It's designed to trim sideburns straight, even and neat—without the risk of bloodletting, cheek slits or pain. It keeps them looking just as you want them to. Any style, any length, tapered, angled or curved.

The trimmer works well on the back of the neck, too. All you need is a second mirror and in a flash last week's scraggly growth is gone.

There's a special position just for your neck, too. Number 1.

It's designed to protect the tender skin of your neck—the skin most shaving devices cut, scratch, redden and irritate.

The rest of your face needs this dial, too—to protect it.

The REMINGTON 200 shaver will keep your skin from being chewed up and turned crusty by shaving.

Just turn the dial to positions 2, 3 and 4, the cutters raise up and adjust to your beard. You'll get a close, clean shave, tough beard or not-so-tough, whether you're just touching up your lip or shaving your whole face for the first time in three days. Because the REMINGTON 200 shaver has a bigger shaving surface, you don't rub and scrub your skin raw red to get a close shave.

Click to 6, and the side panels flip open for the easiest cleaning in electric shaver history.

The price. The good news is that it costs less than most ordinary shavers that figure if a man under 25 has sideburns, he's on his own.

# Here's your application for the 13th Annual National College Queen Contest

I would like to submit the following name for The National College Queen competition. Kindly mail full details and an official entry blank.

MY NAME \_\_\_\_\_ AGE \_\_\_\_\_  
(or, my candidate's name)

I ATTEND \_\_\_\_\_  
(or, my candidate attends) (name of college or university)

I AM  FRESHMAN  SOPHOMORE  JUNIOR  SENIOR

MY MAILING ADDRESS \_\_\_\_\_  
(or, my candidate's address) (no. and street)

\_\_\_\_\_  
(city) (state) (zip code)

I obtained this application when it was published in: \_\_\_\_\_  
(write in name of college newspaper in which this application appeared)

If you are nominating someone other than yourself, please sign your name in the space opposite. The entry blank will be mailed to her. \_\_\_\_\_

MAIL THIS APPLICATION TODAY TO: NATIONAL COLLEGE QUEEN CONTEST COMMITTEE  
 P.O. Box 935, New York City, N.Y. 10023

Deadline: This newspaper application must be received in New York City within 10 days from the date of this issue.

## You can win more than \$5,000 in prizes and earn recognition for your school.

It's nomination time again! Colleges in all 50 states are nominating their candidates in the 13th Annual National College Queen Contest. And the time is right now—the nominations close soon.

### Send in your name—nominate a friend

Lots of girls send their own names, so don't be shy! Freshmen, Sophomores, Juniors, Seniors—all are eligible. And anyone can make a nomination... campus groups, fraternities, sororities, friends. Just fill out the application blank.

### Not a "Beauty" contest

Those who entered last year will tell you that this is neither a "glamour" nor a "genius" contest. Can-

didates are judged on their all-around abilities... they're questioned on current events, fashion, home economics, career goals and the like.

### 50 state winners

Every state elects its own College Queen in April. As a state winner, you'll come to New York City (all expenses paid) for a 10 day visit and the National Finals. You'll appear on a National Television Special, and attend a reception at the United Nations, theatre trips, backstage visits with Broadway stars, and the formal Coronation Ball.

### More than \$5,000 in prizes

The new National College Queen will tour Europe

from London to Paris to Rome. She'll win a wardrobe of the newest styles, worth \$500—and her own car, a brand new sports convertible. She'll discover America—travelling from New York City to Disneyland, including featured appearances at the Rose Bowl Game and the traditional Tournament of Roses Parade.

### Enter Today

It's easy to enter, fun to nominate. Take a minute right now to fill out the application yourself. And how about your club, fraternity or sorority nominating someone? Remember, this is not a typical "Beauty Contest." It's for the real girl, the all-around girl—it's for you!

## The National College Queen Contest is sponsored by Best Foods:

Makers of: Bisco Milk Amplifier, Best Foods/Hellmann's Real Mayonnaise, Best Foods/Hellmann's Dressings, Koro Corn Syrup, Knorr Soups, Mazola Corn Oil, Mazola Margarine, Nucua Mergarine, Slippy Peanut Butter, Niagara Spray Starch, NuSof Fabric Softener, Rit Tints and Dyes, Shinola Shoe Polishes and Waxes. Best Foods is a division of the Corn Products Company.
