

## YOCOHOOEY IS NOV. 24

### Glimpses of Annual Variety Show

There is not much free time for the busy cast of the 1952 Yocohooley show which will run Nov. 24-29 in the Strauss Auditorium. Evelyn Booth (upper left) takes time out for coffee while cast members (lower left) study script. Eileen Bott (right) poses prettily in a scene from her role as Sabina in "The Skin of Our Teeth".

### Show's '52 Edition Has Wilder's Play

Thornton Wilder's Pulitzer Prize play, "The Skin of Our Teeth", will comprise the main part of the college production, "Yocohooley '52", which has been scheduled for November 24 through November 29, in the Strauss Memorial Auditorium.

The three-act play is a comedy about George Antrabus his wife and two children, and their general utility maid, Lily Sabina, all from Canfield, or Campbell, or Excelsior, N.J. George Antrabus is John Doe, or George Spelvin, or you - The average American at grips with a destiny, sometimes sour, sometimes sweet. The Antrabuses have survived fire, flood, pestilence, the seven-year locusts, the ice age, the black pox, and the double feature, a dozen wars and as many depressions.

The lead roles have all been double cast so that players may alternate the parts. They are "Sabina", portrayed by Eileen Bott and Betty Hinson; "Mr. Antrabus", by Andy Vargo and Ed Cunningham; and "Mrs. Antrabus", by Jean Vargo and Anita Proverbs. In the original Broadway cast, these roles were portrayed by Tallulah Bankhead, Frederick March, and Florence Eldredge, respectively.

#### Features Variety

Between acts, and also in Act Two, the show will be sparked with several variety acts, ranging from opera and comedy, to specialties and Latin American moods. The latter is a large production with songs and modern dances in the Latin style.

Celebrities are in the show too. Bill Kassam, who will be featured in a skating act, toured Europe in 1950 with the "Skating Vanities". Pat Oggy, who will portray "Gladys" in "The Skin of Our Teeth", appeared in a movie with Giselle McKenzie in Montreal, Canada.

### 30 Yocoites Included In 'Who's Who'

Scholarship, cooperation, and leadership were qualities that won 30 Youngstown College students recognition in the 1952-53 edition of Who's Who in American Colleges and Universities. The students were nominated by the College for their effort and achievement in academic and extracurricular activities.

Students who received the honor were: Charles R. Bearice, Senior; Catherine M. Bestic, junior; John Bobko, senior; Sandra M. Berger, senior; Emery V. Braidich, senior; Richard W. Brush, junior; Elaine M. Casey, junior; Leo C. Coughlin, senior; Nancy C. Crofford, junior; Joseph C. Dailey, senior; James P. Ellsworth, senior; Erwin M. Evans, Senior.

### Kappa Sigs Celebrate Sadie Hawkins Day

by Jeanne Shutrump

Hang on to your hats brothers 'an start runnin' cause that fateful day is here agin!! Every year on November 14th the red-blooded American boys of Kappa Sigma Kappa fraternity invite all their unfortunate young red-blooded American friends to join them in commemoratin' Sadie Hawkins Day with a dance to be at the Elms.

### Christmas Toy Drive Starting

Doesn't Santa love us? This is the question of hundreds of forgotten children as the world passes them by on Christmas Day. With your help Alpha Pi Epsilon Service Sorority will show some of these unfortunate youngsters that they are not forgotten. Monday, November 17 the sorority will open their school-wide Santa Claus Express drive.

You will find the girls in the booth in the rear of the cafeteria from 8 a.m. to 9 a.m. and 12 to 1 p.m. Monday through Friday. Night school students may bring their toys between 5:30 p.m. and 6:30 p.m. Tuesday and Thursday.

#### Repair Old Toys

All toys will be accepted by the group. The sorority will paint and repair used and worn toys. The drive will end December 12, and the toys will then be distributed to less fortunate children.

#### BLOOD DRIVE

"Give--that they may live" is a slogan for Youngstown College students to remember when they are asked to contribute to the Red Cross blood crusade for the wounded in Korea.

The bloodmobile will arrive on the College campus Jan. 21, 1953 to accept student donations. Applications must be registered with the College by Dec. 15.

Things started poppin' round here at high noon Wednesday the 12th when the honorable Mayer Henderson 'O Dogpatch proclaimed Sadie Hawkins Day.

All young red, white or blue blooded American gals and fellas was invited to meet in front 'o school fer the proceedins whar a Vindicator man took ther pitchers!

#### Benny Jones To Play

Whew! If you were able to read down this far and are still with us, here's the general information (writ by typewriter, in English?)

The dance is tonight, Friday, from 9 to 1. Benny Jones and crew will be dressed in Dogpatch style to lend "atmosphere" to the affair. Come in costume as the Kappa Sigs will award 6 prizes to three fellows and

(Continued on Page 4)

### Student Council Requests Organizational Reports

The Student Council of Youngstown College has set up requirements regarding the past and future activities of the organizations on campus.

Each organization must hand in to Council all plans of activities from last year and the tentative future activities by Nov. 15.

In addition, each organization must possess an up-to-date constitution. Failure to present to Council the before-mentioned constitution will automatically result in the loss of the organization's charter. If this should happen, the organization would again have to appeal to Council for a new charter.

### ROTC To March Saturday Night

The annual ROTC Corp Night, which was inaugurated last year, will again be held this year. On Saturday, Nov. 15, the entire Battalion will form at halftime of the Toledo-Youngstown football game. After forming in Battery formation the Corp will sing "America" and the Alma Mater. Persons to be decorated will receive their honors and then the entire Battalion will pass in review.

This ceremony will be conducted by the Cadet Commander, Sam Perrod, his staff and officers.

The Anti-aircraft Artillery Association Medal will be presented to Cadet Captain Joseph Hrecz by President Jones for outstanding achievement in military science.

A representative of The Sons of the American Revolution will present

(Continued on Page 8)

### Art Dept. Presents Egyptian Exhibition

November 10 marked the beginning event of a photographic exhibition "Egypt", presented by the Art Department of Youngstown College and to run through Nov. 28.

"Egypt contains 50 of the most recent photographs taken of the remaining art monuments from an Egyptian culture that flourished for 3,000 years before Christ. This art essay, which was displayed in Life Magazine in 1948, is greatly enlarged in scope and includes material never before published.

#### Material Varies

The subject matter in this show is gathered from the Old and New Kingdoms and ranges from the majesty of the Step Pyramid of King Djoser to the Great Temple of Halor, which was built during the reign of the Roman Emperor Augustus.

Life photographer, Eliot Elisofon, filmed these historic monuments while on an assignment in the Nile Valley.

### McHugh President Of Senior Class

Selected by their classmates to take charge of senior activities for the coming year are (l. to r.) Erwin Evans, treasurer; Peggy Crishal, secretary; Fran McHugh, president; not pictured is James Petrella, vice president.

Fran McHugh, a merchandise major, has been elected president of the senior class. Other officers include James Petrella, vice president; Peggy Crishal, secretary and Erwin Evans, treasurer.

McHugh is very active on campus, he is secretary of Sigma Delta Beta Fraternity, a member of Newman Club and has played on the Penguin baseball team. He was voted most popular male on campus last year.

Better known as "Red", Petrella is an engineering major and a member of OSPE. He was a delegate to the engineers State Convention and chairman of the publications committee.

The lone female, Peggy is a physical education major. She is currently doing her student teaching. She is treasurer of Phi Lambda Delta sorority, a member of Newman Club and very active in sports.

Evans is well suited for his job as he is an accounting major. He is a member of Alpha Tau Gamma national accounting fraternity and the National Association of Cost Accountants.

## What's Wrong With The Jambar?

Someone asked us that question, just like they expected an answer, on the day the last issue came out. Of course, for anyone who knows anything about what it takes to get this "rag" into those boxes in the hall, it will be understandable that such a question, at such a time and place, is almost impossible to answer, at least calmly.

One thing is certain. No answer would be what the questioner expects. Contrary to popular opinion, we KNOW what is wrong with this paper - we know it much better than just about any student who asks us about it. Much more than most. And we see more mistakes than any casual reader can, and if "What's wrong with the Jambar" really hurts anyone, its us.

So, since you are interested, we'll tell you exactly what's wrong with this paper. You, You, the reader. Why? Because you are students just like the students who edit and write for the paper. And any student who thinks this paper could be better is welcome and entitled to come up here and help us make it better.

But maybe that is an unfair challenge. More than likely such sneering complaints do not come from students who think they could do better. They come from the ones who just don't think, or ones who don't know.

Discounting those characters who just like to tear things down, one of the most frequent complaints is that "it's just not a good newspaper". By this they really mean that it does not compare with professional papers. Of course, it isn't. Do you know what makes any city newspaper what it is? Experience and money.

The experience we are just acquiring, and the money - we mean to be able to pay your employees - we will never have. And that is what allows a paper to have a staff it can depend on. They pay for coming through with the goods.

Could the New York Times exist if the editors never knew if the copy would get in on time, or at all, for that matter? Of course not, you say. Well, this paper does it every issue, and has done it for years. The only reason any kind of paper ever does get out is that the few students who do work refuse to quit. Maybe they should.

Actually, though, in comparison to other college papers, this IS a good paper. Fourth in its class last year, among other awards. But it can be better, and we will make a real effort to make it that. But we need help. How about it?

## While We're At It

While we are tearing ourselves apart, we might as well add another item which is our fault, and that is Student Council coverage. As usual, the excuse is no time. We are told that there was little done in this respect last year, and until recently we have also neglected it.

However, after attending several sessions, we feel that council publicity is certainly a must. An example of what we mean is the Student Union story which appears on page three, this issue. The debate on the question has gone on for three meetings, and disclosed a number of things that seem to us to be well worth commenting on.

First of all, council has evidently set aside a considerable sum of money (\$1700) for something it knows little or nothing about. Second they have made no attempt to pass on to the students what little they do understand. Result - most students, as far as we can determine, know no more about the union than they do about council.

And what is even worse, during the Union debate several council members expressed the opinion that this student ignorance of what happens to their own money is not council's worry, but merely the fault of the students themselves.

To say the least, this is a pretty poor attitude for elected representatives to take. And speaking of elected representatives, it would also seem that any student who wants to sit in council could take the time to learn at least the bare essentials of conducting a parliamentary meeting, so that meetings would not be unbearably long and hopelessly confused.

## Photopinions

by Rose & Charlotte

Question: Is Student participation in YoCohoocy what it should be?

Nancie O'Connor -- Jr.

I think that the participation in YoCohoocy is very poor. It's a shame that more people don't have the spirit to back school activities. Someone is always pointing their fingers and saying, "Oh, he or she is in everything. What people don't realize is that he or she is the only one willing to participate and cooperate."

George Basile -- Soph.

I don't think student participation for YoCohoocy is what it should be because for all the students at Yoco there should be enough talent around to build a terrific show without calling in outsiders. I think YoCohoocy should be more of a variety show thus permitting more students than those limited few with acting ability to take part.

Though this is my first fling in a YoCohoocy production, I feel there is a deficiency not on the part of those actually participating but also on the part of the general student body. The show has all indications of being a success, but we should back it with a spirit of success. This production should be the greatest show the college has seen.

James Odomisi -- Jr.

I do not think that student participation in YoCohoocy is what it should be. I definitely do not believe that outside the school talent should be used. It is a college play and it should be limited to college students only.

I don't believe the student body is fully behind YoCohoocy. This being my first year here at college, I don't know how the students cooperated before but they must have worked hard for the other productions were successful. It's actually disheartening to work hard backstage for our play this year and find out how disinterested the student body is. Where's YoCo's spirit?

Bob Burch -- Jr.

During the three years I have worked on YoCohoocy I have seen a slowly diminishing spirit of cooperation. The only excuse for this is that the first years there was the influence of vets. They knew what responsibility was. They say the greatest amount of school spirit is among the football players because they know what teamwork is. YoCohoocy is the place to learn teamwork if you can't play football.

## Letters To The Editor

### THEY DECIDE

Would you please define the meaning of a "frat" pin? Does it mean going steady or engagement?????

JUST ME

Ed. Note: Just Me - If the guy gives it to the gal it supposedly means "engaged to be engaged" however we consider it to mean whatever the couple wants it to. Their decision is final.

### PUZZLED

Just a note to congratulate you and the staff on the swell papers you've been editing. How about putting in a crossword puzzle sometime.....ok?

READER

Ed. Note: If any student wants to compose one (and give us the answers) we're willing to print it.

### OUT OF ORDER

The pencil-sharpener in the reserve room (which is one of the few sharpeners in the whole college) has been out of order for the past two years. Don't you think that it's about time that it was fixed?

S. EXPELAIIDOSES

(Ed. Note: You have a point there - or do you?)

### JUST DREAMIN'

Yoco's spirit for actual participation in YoCohoocy shows is only an empty dream. Whenever someone is approached and asked to take part we are greeted with snide remarks and jeers to the tune of "I ain't got the time" and "How much is in it for me". Seemingly, students that have grown up in an industrial city have lost sight of the fact that there are other more important things than money in this world.

YoCohoocy funds have helped build the new library and are now going to support several scholarship funds. This in addition to the publicity which the school derives from the shows and the self-satisfaction one gets from doing a job, and doing it well when it is for a good cause.

The first YoCohoocys were ably supported by a great many Vets who were used to the work and co-operation needed for a good production. Now we are dependent on a very few upper-classmen with experience backstage, and the influx of freshmen with a new outlook and an eagerness which is carried over from their high school spirit.

Thank God, they have not developed the "star-complexes" or defeatist attitudes which are so prevalent on this campus.

EDWIN CUNNINGHAM

### HOW TRUE

The student who wrote in the last issue that the class officer elections in this school were a mess was putting it mildly. Anyone who has the nerve to complain about students not bothering to vote should bother to find out who doesn't bother to conduct a decent election. Whose fault is it, anyway, council's? Why aren't we kept up to date on these things? That is the kind of stuff this paper should print. How about a little information on this?

E.H.

### GOOD FRONT

The front page of the last issue was the best you have done so far. In fact, the whole issue was good - only not enough campus news. There are a lot of things going on that aren't getting in the JAMBAR. How come?

JACK

### BETTER LATE THAN ...

Well, well, well, as I live and breathe, it really looks as if the editors of this paper found out that the Engineering School existed! We finally got an article in. Congratulations, but don't rest on your laurels. Let's have the paper represent the whole school.

ENGINEER

(Editor's note - So far, we haven't had time to rest on anything. However, we do attempt to make the paper representative.)

### WHO'S WHO?

Why don't you have somebody introduce yourselves to your columnists? All they seem to be able to write about is the editors and what will happen to them if the column isn't in on time. Altogether they are pretty sad. Is talent that low?

M.A.D.

(Editor's note - applications are still being taken for staff positions, since it is evident that some of the very best have neglected to apply.)

### WHERE'S SNARKY?

Walt Drogo must have run out of accomplishments or else Snarky Parker has lost all faith in the big boy. Fat chance of either one. Personally I think S.P. can really write. Sometimes he loses control and spills out adjectives as if they were water but even if he is all wet I still go along with his views.

SOCKSY

We welcome all letters to the editor and will print all we have room for. They may be left in Box 69, Main Office.

**Named as Dance Chairmen**

Busy making plans for the Snowflake Frolic to be held Dec. 12 are (l. to r.) Pozzy Martin, Sally Connelly and Sis Pickard who were voted chairmen of the affair by Student Council.

**Coeds Will Plan Winter Frolic**

Sally Connelly, Pozzie Martin and Sis Pickard have been named by Student Council as chairmen for the Snowflake Frolic which will be held Dec. 12 at the Elms Ballroom.

Council has also contracted Vaughn Monroe and his Orchestra to pay for this event.

Sally and Pozzie are both seniors in the education department, they are also active members of Phi Mu sorority and Newman club.

Sis, a sophomore majoring in secretarial studies is a member of Phi Lambda Delta sorority and RIL.

They have selected Pat Gilboy to

**Pershing Rifles Stress Drilling**

The National Society of Pershing Rifles which was organized here May 2, 1952 is a military fraternity for outstanding ROTC cadets.

This organization's primary objective is to learn and be able to teach the rudiments of military drill. They are also interested in performing in all city parades and forming an honor guard in various celebrations and ceremonies. They have shown their ability in such ways as the honor guard for Homecoming, the honor guard for the recent flag presentation at the college, and their definitely outstanding showing in the city of Youngstown's annual Armistice Day Parade.

This new group has planned social events in the future. These

head the advertising committee; Nancy Tapley, decorations; Josie Frazzini, programs, and Mickey Yohman, intermission.

**Student Council Asks Opinion On Proposed Student Union**

(Jambar Staff Special)

Student Council voted unanimously Friday to "find out if the student body wants a Student Union" and is willing to continue setting aside part of each semester's activity budget for it.

However, Council may have to explain what it is talking about, since an on-the-spot poll taken by Jambar reporters this week indicates that very few students know anything about the Student Union. Of the first 25 polled only two were aware that Council was setting aside money from student activity fees for the project.

The discussion of the project began three weeks ago when an attempt was made to create a permanent Student Union Committee. The measure was tabled after a long debate, however, and the following week an attempt to take it off the table failed, again after a lengthy debate.

**Call For Study**

A committee was then appointed to report on the project Friday. Frank O'Connor, chairman, stated that the committee believed that unless some action was taken to make definite plans for the Union,

Frank O'Connor (standing, right) gives his report on the proposed Student Union to Student Council at Friday's meeting. Council voted to ask for opinions of the project. President Jack Shea is at left.

then the committee recommended that allocations of funds be stopped, and the money put to other use. So far, about \$1700 has been allocated and approved by the Faculty Student finance committee.

However, Mrs. Dykema, council's faculty advisor, told O'Connor that council no longer has control of the money, and only the Faculty-Student finance committee could re-allocate it.

Council then voted to take the measure off the table, and quickly passed the measure creating a permanent committee. Following the action, the resolution asking for the opinion of the student body was passed, but did not specify how students could answer, except to "get in touch with council members".

**Cuban Gives Talk To Spanish Club**

Dr. Alfonso Garcia-Ygesia, director of the Youngstown Puerto Rican center, spoke to Spanish Club members at their meeting in Follock House Thursday.

The doctor, a native of Havana, Cuba, gave an interpretation of Cuba and how it differs from other Latin American nations. Cuba, he said, is one of the youngest American nations, having gained its independence only 50 years ago.

**Taught In Erie**

Dr. Garcia-Ygesia came to the U.S. in 1946 and has been teaching at Gannon College in Erie, Pa., for the past five years. He has been granted a leave of absence from the faculty to direct the Puerto Rican Center operated by the Catholic Diocese of Youngstown.

**Teachers' Exams Ready for 1953**

The National Teacher Examinations, prepared and administered annually by Educational Testing Service, will be given at 200 testing centers throughout the United States on Saturday, February 14, 1953.

At the one-day testing session a candidate may take the Common Examinations, which include Tests in Professional Information, General Culture, English Expression, and Non-verbal Reasoning; and one or two of eight Optional Examinations designed to demonstrate mastery of subject matter to be taught.

**College Will Advise**

The college which a candidate is attending, or the school system in which he is seeking employment, will advise him whether he should take the National Teacher Examinations and which of the Optional Examinations to select.

Application forms and a Bulletin of Information describing registration procedure and containing sample test questions may be obtained from college officials, school superintendents, or directly from the National Teacher Examinations, Educational Testing Service, P.O. Box 592, Princeton, New Jersey. Completed applications, accompanied by proper examination fees, will be accepted by the ETS office during November, December, and in January so long as they are received before January 16, 1953.

**Coed Activities Being Offered**

Women's Intramural Planning Board of YoCo is formulating various co-recreational activities open for participation to all students.

Tennis and archery have been offered in the past. Beginning Nov. 15, however, badminton, fencing, stunts and tumbling will constitute the program of sports. Participants may engage in any one or all of these activities from 4:00 to 5:30 any afternoon of the week.

The constitution of the Women's Recreation Association has been completed and is soon to be submitted to Student Council for approval.

**Open To All**

Membership under this constitution will be open to all women students on campus. This group will be affiliated with local and state federations in name as well as activity.

Officers of the WIPB this year are: Chairman - Frances Sampson, Vice Chairman - Janet Ohl, Sports Chairman - Nancy Kelley, Secretary - Fran Restelli.

**YoCo Grad Now In Korea; Sees Front Line Action**

A great many people who have been on campus for the last two years or more will remember Bill Houser, now a lieutenant in the Marine Corps. The JAMBAR editors recently received a letter from Bill who is now in Korea and they are passing it along to their readers.

Korea  
Friday

Dear Marilyn and Nancy,  
Today I received a very nice envelope containing a JAMBAR which sure made good reading.

I see where you two are co-editors this year so allow me to express my congratulations and best wishes for a banner year.

It took the JAMBAR about 3 weeks to catch up with me because I've had several new addresses since being stationed at Quantico, Va. so would you kindly address future editions to the return address on the envelope. Thanks.

Since being in Korea I've had many experiences which I never thought I would be having when I

was back at YoCo.

For the last 4 months I've been the Artillery Forward Observer with H Company 3rd Battalion, 5th Marines and it has proved most interesting.

We had ringside seats for the battles of Hells Twin and Bunker Hill which to you probably signify the name of a hill but to the 1st Marine Division they represent some pretty important terrain.

Panmunjon is in our sector and from certain positions you can look right down on the tents where the peace conferences are held. Although only a certain few can actually go up to where the tents are situated which is deep in enemy held territory, I have had the opportunity to get as close as permissible and  
(Continued on Page 6)

**Guatemala is Called "Land of Flowers"**

by Ann Hudak

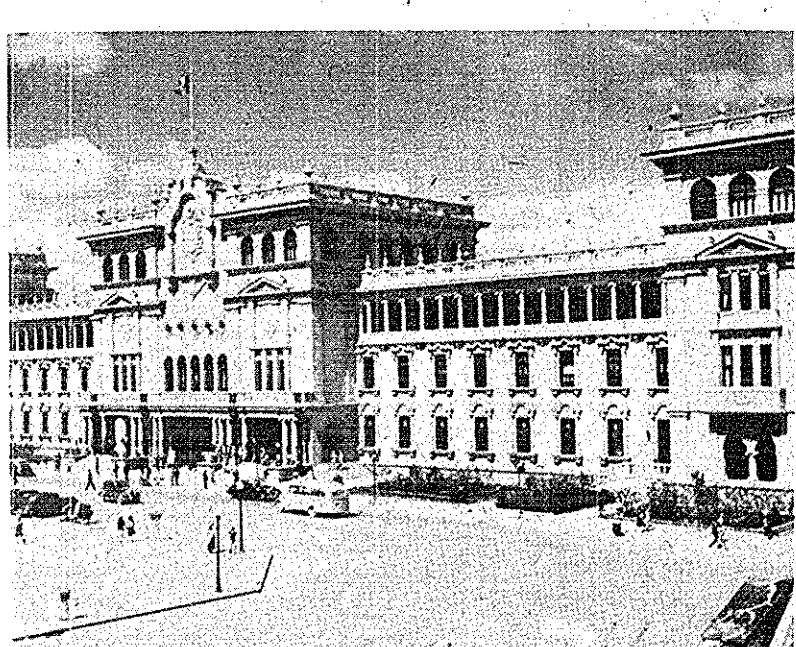

(Editors' note - this is the second in a series of articles written by one of five students who took the "college credit" summer vacation tour of Guatemala last July.)

Guatemala often referred to as the land of eternal spring is also the land of fruits and flowers. We had tasted many different and strange fruits, such as, guanabas, nisperos, nances, mangoes, etc. To describe their flavor or consistency is impossible. Even the bananas, whole shiploads of which are exported weekly, taste differently; and the pineapples are luciously sweet even through the core.

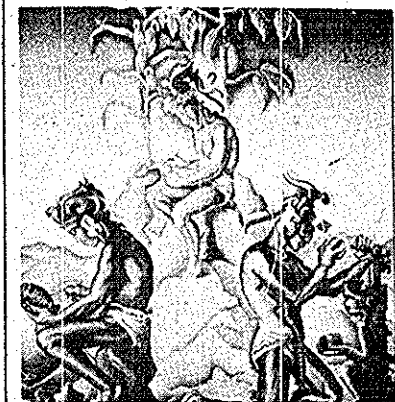

And now for a look at the City of Guatemala: Here most of the sight-seeing was done on our own power. At the mercado or public market, which covers a whole block behind the Cathedral and overflows into the streets, we see a mass of tropical and semi-tropical fruits, flowers, handwoven textiles and so on.

**Free Rides**

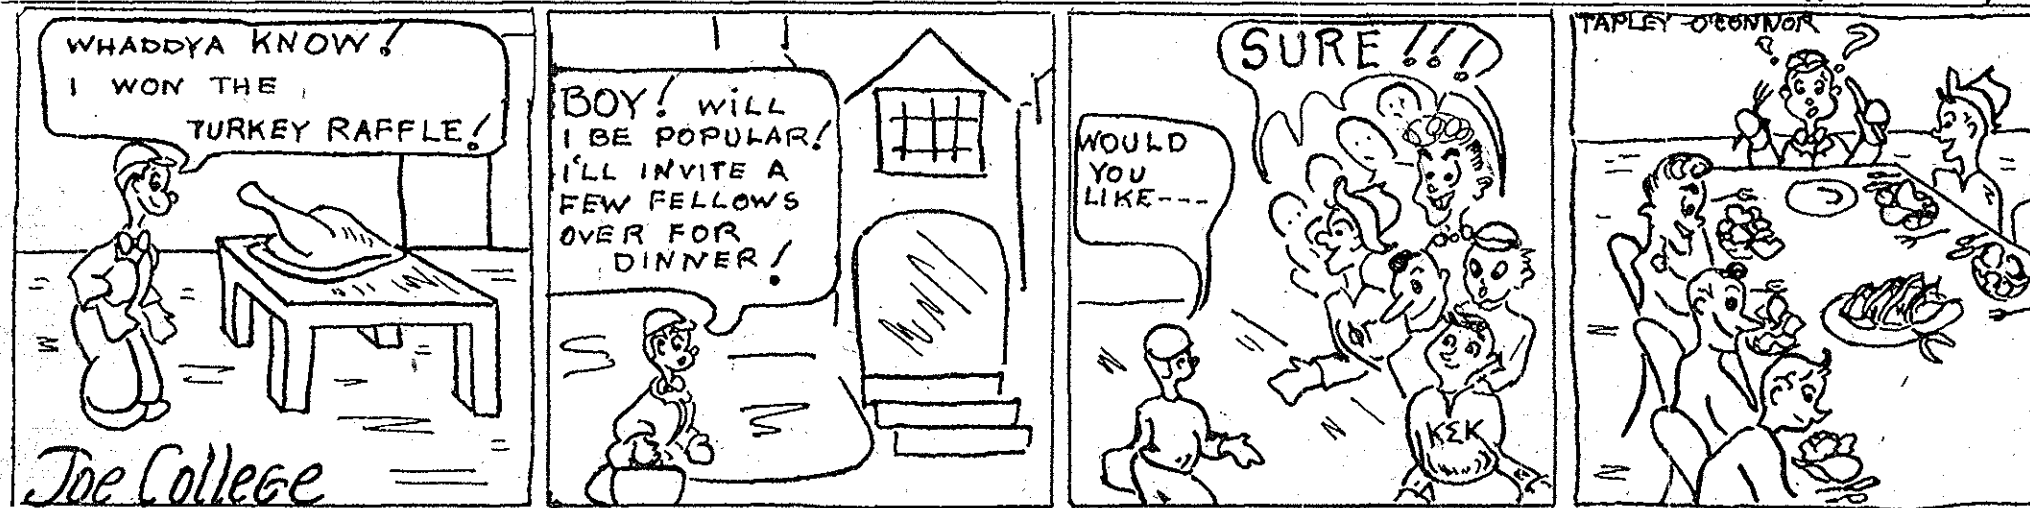

We see women walk by with huge baskets of provisions on their heads and perhaps a child tied to her back; but what remarkable gait and posture. You must visit the shop of one of the Spanish merchants, Don Rifa.  
(Continued on Page 6)

The National Palace in Guatemala City, called "one of the most beautiful buildings in Latin America". The block-square structure, made entirely of grey-green stone, was constructed in 1936 by order of Dictator Jorge Ubico.

One of the six murals in the National Palace showing Myan Indians at work.

## With the Greeks . . .

by Joe Danbery

First of all congratulations to the Sigs Sigs for a very successful Harvest Moon Dance which was held in Stambaugh Auditorium on October 31. The dance was FREE "cynics" -- FREE!!! The \$100.00 Scholarship, due to certain unavoidable complications, was put in moth balls by President Jones. Everyone was there including the Green Hornet; however, Kato shafted everyone and went to a movie. But life goes on. ZOOM!!!!

The Kappa Sigs miss brothers Gene Larsjc, Joe McHale, Wayne Ault, Joe New (what's new Joe?) and Tony Clemente who are serving in Uncle Sam's armed forces. Also the Kappa Sigs promise a bell-ringer in their 16th annual Sadie Hawkins Day Dance which will be held November 14.

The Sig Deltas are proud of brother Fran McHugh who was recently elected president of the senior class. The Sig Deltas also had a ball playing musical chairs with the Beta Sigs, Phi Mus and Gamma Sigs at a recent joint rush party held in the Barn. Air wicks were provided by Hal Borovitzs.

### Dinner Dance

After enjoying this mad evening with the Sig Deltas, the Phi Mus continued their roles as Waltzing Matildas Saturday night at a joint dinner with their brothers the Phi Sigs and rushees at the VFW in Girard. A good time was had by all. They wish to thank Peggy Balla who was greatly responsible for the success of the rush parties.

Getting in the Christmas Spirit, Nancy Crofford has written a letter to Santa Claus asking for a pair of stilts to enable herto see what kind and how much peroxide the tall blonde uses.

Congratulations to Gamma Sig Claranne Lyden who was chosen Queen of the Sig Sig Harvest Moon Dance Oct. 31.

### Beware of B'ars

A Gamma Sig-Phi Gamma party was held at the DAV recently. High-lighting (?) the evening was a game of "I See A B'ar". Well!! Several members of both tribes came out with missing appendages they tell me.

The Nu Sigs had a joint rush party with the Beta Sigs. Cider (hard) and doughnuts (same line), being conducive to the season, (and the Youngstown Area being favored with a bumper crop of apples) replaced the usual raw fish and rice as the evening's refreshment. George Alexander, incidentally, poured with a steady hand.

### Pete Penguin Hop

The Nu Sigs wish to extend a most cordial invitation to all students to attend the Annual Pete Penguin Hop which will be held Nov. 29 at the Nu Elms Ballroom.

Alpha Phi under the able leadership of Donald "Red" Nolfi opened its first rush season with a stag party. Everyone had a very enjoyable evening....without movies!!

They also had a very successful joint rush party with Alpha Iota and Tau Kappa Nu sororities. The best of everything from all the Greeks to Alpha Phi in its first year and coming years on the YoCo campus.

## Sadie Hawkins

(Continued from Page 1)

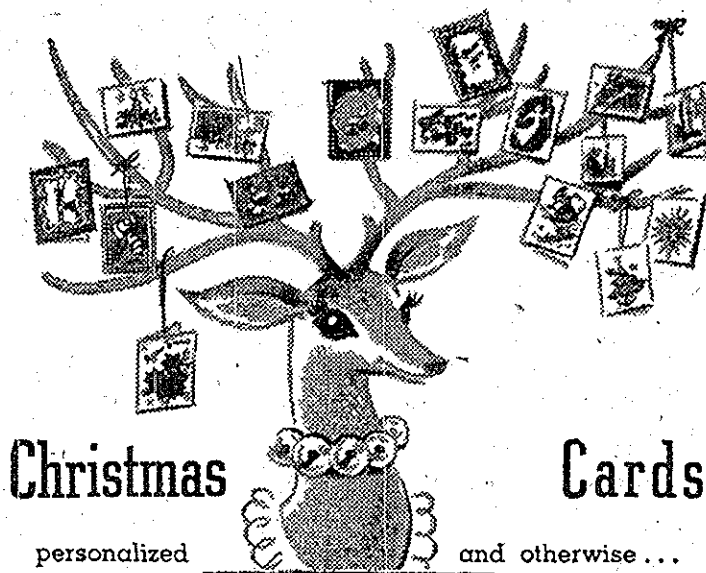

three girls dressed in the most authentic Dogpatch character imitation.

A group of Kappa Sigs from the chapters at Toledo University and Pittsburgh University will be guests at the dance.

Co-chairman Bill Brigham and Bob Nischwitz will be selling tickets in the main hall at a reasonable \$1.00 per ticket.

Plans are under way for the Phi Lam-Phi Gam Sweater Dance to be held at Post 15, December 5. The Phi Gams enjoyed a Joint party with the Gamma Sigs October 30 at the DAV where a good time was had by all. Their rush season is moving along very well.

Thanks go to their sisters the Phi Lams for helping at their joint rush party October 28.

## Off the Record . . .

by JIM

Any music critic who is worth his salt (a seasoned critic, that is) will be shouting the praises about this time of Edward Kennedy Ellington, the "Duke" of Jazzdom and most probably America's greatest composer.

The reason is that Duke will be celebrating the Silver Jubilee of his debut as a top-flight bandleader soon. It was Dec. 4, 1927 when a young and unknown Ellington brought his band into a very well known and famous Harlem hotspot, the Cotton Club.

There was considerable doubt on the part of the management. They were wondering whether Duke's boys could make the grade, but before they had time to develop any ulcers, the Ellingtonians settled the question by beginning to pour forth that stream of music that has flooded the Jazz world ever since.

### One of Greats

In our opinion, Duke is one of the two greatest figures in Jazz, the other being no less a personage than Ole' Satchmo' Louie Armstrong himself. No one can say which is the greatest, since they excel in different things. Louie is undoubtedly the greatest instrumentalist and singer, but Duke is by far the greatest arranger, composer and conductor. If the talents of both were combined, then there would be just one greatest Jazzman. Not before.

Duke's longlasting success is largely because he has never sold out to commercializing interests. He stuck with his own musical ideas no matter what, and no matter what happens now, his place in the musical world is secure - he's the greatest. So, we join the rest (including a whole special issue of Downbeat, and even Time Magazine) in tossing the congratulations.

### Split Hurt

On the local music scene there is nothing much new but still some chances to hear a night of good music. In case you haven't noticed, the old Joe Cooper band has split into two parts - Joe himself is now at the Club Lido with drums, piano and tenor - and they really turn out the music - all kinds.

The rest of the old group, including Yoco's own Mel Wanzo, is still at the Tropics, and "rock the joint" more than ever now. The only trouble is that they don't do much else anymore - no more of those real fine ballads that the Cooper quartet used to turn out. All in all, the split hurt both groups, and from the fan's viewpoint, was a loss.

### Movies Good

For all you long-hair music lovers besides the fine performances being put on by the Youngstown Symphony and the regular concert shows by big-time stars, you had better keep an eye on the Foster theater. For some time now, it has been the policy to show foreign art movies, including a group of really outstanding opera productions.

Of the ones we have seen, both the singing and acting have been excellent. The very best of the Italian stars, including Tito Gobbi, Afro Poli, and Italo Tajo are used, the music is inspiring, photography and settings up to foreign movie high standards for realism, and, when the female stars don't look the parts, they use some doll like "Miss Italy" to act the part and dub in the star's voice. This last fact should pack the house - with music lovers?

Titles already shown (they may be back soon) include "La Traviata," "Rigoletto," "Faust," and "The Barber of Seville". The last was really a panic.

### Brown Scores Again

In the record world, Les Brown has turned out another terrific album entitled "Musical Weather

## 'Who's Who'

(Continued from Page 1)

senior; Josephine A. Frazzini, senior.

Virginia M. Gething, junior; Josephine R. Grohovsky, senior; Charlotte M. Italiano, junior; Nancy E. Kelley, junior; Nick J. Leonelli, senior; Donald M. McBride, senior; Marilyn L. McCallen, senior; William T. Martin, senior; William E. Newell, senior; Samuel W. Penrod, senior; Harry Ritchey, senior; Marlene J. Schnauer, junior; John E. Shea, senior; James J. Tisone, senior; Andrew N. Vargo, senior; Richard D. Westerman, senior; Herbert C. Williams, junior.

The first edition of Who's Who In American Colleges and Universities was printed for the school year 1934-35. Since then an average of 600 colleges have participated in the organization. Nominees are chosen from junior and senior class. Besides awarding honor certificates the organization provides a free placement service for students if they need assistance in making employment contacts or in obtaining recommendations.

### Way

Cole isn't the only artist-gone-money-maker. Play Frankie Lane's "Shine" or "Georgia" and then, if you have the guts, put on one of these Laine-Stafford fiascos.

## With the ENGINEERS . . .

by Jim Ellsworth

The monthly meeting of the OSPE was held November 5 at Pollock House with a quorum of members present.

The OSPE has purchased parking lot permits for the engineering parking lot. They are now being distributed in the hall and every engineering student using the parking lot should get a permit and put it on his windshield or -- well don't say you weren't warned.

Tony Kargiotis was elected secretary for the current semester. The membership campaign ends today and as of one week ago there was 110 members. Wallace Horlock of the membership committee has alone accounted for 40 new members - keep up the good work Wallace. Jim Ryan was the guest speaker and outlined his duties as city engineer and answered questions pertaining to the traffic problems around town.

### Long Way Home

The John Carroll football game was attended by a group of engineering students. If anyone is looking for a quick way to Cleveland see Francis (Flyin') Clark, who made the trip in 60 minutes. His return trip took about five hours. What could have happened on the way home? If you really want to know ask Walt Salmen.

Have you noticed any burnt coils in the electrical lab? Could it be that the short-circuit crew are at it again. Three electrical majors are the most noticeable senior boys around this school. At the present

time they are using the same crying towel as Johnny Ray.

The Mahoning Valley Society of Professional Engineers are sponsoring a dinner dance at Squaw Creek Country Club on December 6. All members of OSPE are cordially invited. Make reservations with any of the OSPE officers.

## Pershing Rifles

(Continued from Page 3)

include an initiation dance and a cadet smoker.

The members of this National Military Fraternity can be spotted easily. Their brilliant blue and white cord decorations on their uniforms show their membership in the organization.

Outstanding members of this organization include cadets Samuel Penrod, Thomas Waters, Jack Persch, Richard Brush, Alfred Colson, and Louis Ekum. The organization at present has twenty members. Fourteen are advanced students and six are basic students.

The big bad wolf he huffed and puffed  
To blow the pigs' house down.  
'Twas not a Lucky Strike he puffed,  
Or he'd have lost that frown.

Charles LaDue  
University of Michigan

## LUCKIES TASTE BETTER!

They're made better to taste cleaner, fresher, smoother!

Take a Lucky from a newly opened pack and carefully remove the paper by tearing down the seam from end to end. Be sure to start on the seam. In tearing don't crush or dig into the tobacco. Then, gently lift out the cylinder. See how free Luckies are from air spaces -- "hot spots" that smoke hot, harsh and dry -- from loose ends that spoil the taste. Note that Luckies' long strands of fine, mild tobacco are packed firmly to draw smoothly and evenly -- to give you a cleaner, fresher, smoother smoke. Yes, Luckies are made better -- to taste better! So, Be Happy -- Go Lucky! Get a carton today.

When rushing season comes around  
For our sorority,

Knows L.S./M.F.T.

Leah Belle Korn  
Pembroke College

## SPECIAL NOTE!

College students prefer Luckies in nation-wide survey!

Nation-wide survey based on actual student interviews in 80 leading colleges reveals more smokers prefer Luckies than any other cigarette -- and by a wide margin. No. 1 reason given -- Luckies' better taste. Survey also shows Lucky Strike gained far more smokers in these colleges than the nation's two other principal brands combined.

## Looking Around...

by Josie Frazzini

Ah, somewhere in this favored land the sun is shining bright; The band is playing somewhere, and somewhere hearts are light; And somewhere men are laughing, and somewhere Republicans shout; But there is no joy in Josie's heart cause her guy Stevenson lost out.

I guess Truman's favorite song will be "Please Don't Talk About Me When I'm Gone". After January Nixon will probably be singing "Old Soldiers Never Die". Nuff said about politics so on to what's new.

DON MILLER certainly looks happy these days. Nice to see you smiling again. More people have been asking me about the brunette with the big brown eyes that's always in the cafeteria. Just as a piece of information her name is TESSIE LEPORAS and she's as nice as she is pretty.

Wonder what'll happen when "Oklahoma" hits Sharon around Christmas time? The musical had quite a long run in New York and JACK PERSCH wonders how long it will run in Sharon. (Confused? So am I).

Here's a saying I missed the last time. BOB YUHAS always says, "There's not many like her, but I like her."

I don't think very many people appreciate my jokes about the Be-bop musicians. LEW MIRAGE didn't even understand them. I have a few more now that are much simpler if you'd like to hear them Lew. No. That's what I thought.

I don't know where SIS PICKARD, POZZIE MARTIN and SALLY CONNELLY pick up the gadgets they do. The last one I saw was an "efelant". Didn't I? If you don't know what an "efelant" is see Poz, Sal or Sis and I'm sure they'll be glad to explain.

The Alpha Pi Epsilon Service Sorority is collecting toys, old and new. These toys will be donated to an orphanage at Christmas-time. Remember that the best way to have a Merry Christmas is to help someone else have a Merry Christmas.

GLEN KEENE certainly is broadminded. Congratulations to all the students who made "Who's Who". ED NOGOWSKI, NED MERVOS and JOHN DEMAS really got a big kick out of their Marriage Psychology class. Come to think of it so do I.

DIXIE MITCHELTREE is back in school and all the old gang is very happy. Lots of people are going to be feeling mighty low since their tall friend TOM REEDY left for the Army. I know that Uncle Sam needs men but I sure hope he leaves a few here to keep up our morale.

All the time I've been writing this column I've been trying to stifle the urge to tell one of my be-bop jokes. I lost so here goes -- Two be-bop musicians went to a movie. As they passed the popcorn machine one be-bop musician turned to the other and said, "Man will you dig that crazy snowstorm". No comments please.

After that I think I'd better close. Don't forget the Sadie Hawkins Day Dance sponsored by the Kappa Sigs. I'll see you in the next issue. (I hope).

## Guatemalan Tour

(Continued from Page 3)

He could give a few pointers to a class in salesmanship, - "Service with a smile - losing money but learning the English".

Another point of interest was the famous "relief map". We were informed that it was a "must". Somehow we couldn't get too excited over a map. But the relief map is quite startling: made out of concrete, covering over a quarter of an acre in size, depicting every mountain, hill, valley; in other words, the country in its entirety, and scaled perfectly.

The Archeological Museum, - here we met the director, Antonio Tejada. He has done a great deal in the investigation and restoration of Mayan ruins in the Peten region; and informed us that just a week prior to our visit he had discovered a new temple and pyramid. He showed us much of the Mayan art some of which they were able to date to the year three hundred. It was startling to note how very many items were marked "desconocidos" (unknown).

### See Originals

We also visited the National Archives where we met Don Joaquin

## Korean Letter

(Continued from Page 3)

get a look at what it looks like. Right now not much is going on at Panmunjon and it looks like not much will be going on in the foreseeable future. There is a road leading from our lines to the conference site which is considered neutral territory where neither side can fire into so the Chinese set up their artillery and mortars about 50 yards outside the neutral zone and fire away at us and we cannot fire back for fear of flying shrapnel landing in the neutral zone so about all we can do is duck and hope they don't hit you or that your flak jacket will protect you.

The weather over here is starting to get pretty cold at night but we have winter sleeping bags that keep you nice and warm but you sure hate to crawl out of it in the morning.

This is the time of year when quite a few social events usually take place at Yoco and I guess this year is no different.

The football team seems to be having a good year.

Well, I'll have to close now. Please say hello to the gang at school for me.

Bill Houser

## Tapping Along Together

Jackie and Ricky Rock practice their dance routine which will be one of the several variety numbers to be featured between the acts of YoCohoocy.

Pardo, the director, who showed us the original manuscripts of what is considered today our best source of history of Mexico and Central America, namely, "The True History of the Conquest of the New Spain" by Bernard Diaz del Castillo, and other priceless originals.

We had occasion at the University of San Carlos to sit in on a lecture of that colorful literary figure, Flavio Herrera. We had a pleasant surprise when the next day at our pension there were delivered to us copies of his latest novel "Caos" personally autographed.

There are too many other spots of interest to speak of, but it might be mentioned that the present City is patterned after the old Capital known as Antigua; even the cemetery is patterned after the City; that is, it has streets and avenues.

The shortest distance between two dates is a good line.

## YoCohoocy

(Continued from Page 1)

Alpha Psi Omega, the national honorary dramatic fraternity, has all the members of the local chapter in the show. Two of them, Ed Simons and Ed Cunningham, have appeared with the Youngstown Players.

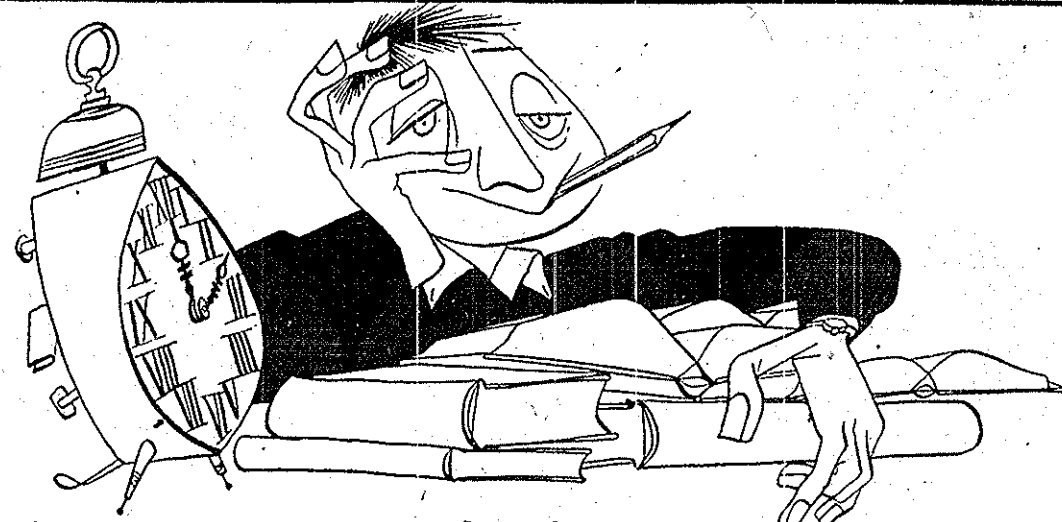

### Local Talent

The entire show is produced and directed by Will Foley, director of dramatics. Music for the show is arranged and directed by Francis Gampietri.

Tickets for the show are being sold by all organizations on campus. All tickets will be for general admission. These are to be turned in for reserved seats at the college box office on or after Nov. 15.

Curtain time is 8:30. Proceeds from the show will go to the college scholarship fund.

# PENGUINS OPPOSE TOLEDO IN GRID FINALE

## Basketballers Are Ready For Season Opener

As the football season draws to a close, our attention is shifting to the YMCA gym where the Penguin hoopsters prepare for another season on the hardwoods.

Coach Dom Rosselli has three lettermen, Bob Yuhas, Tom Hernan, and Jack Blaski, returning for another season, and such standout performers as Ed Poplava, Bud Mayberry, Ken Smith and Herb Bartle may moving up to the varsity squad.

### Freshman Ready

Rosselli says that there are many freshman prospects who could break into the lineup at any time. They include Tony Knott of Farrell, Dick Timmerman of Sharpville, Fred Cleary of Niles, Bob Cercone of Freedom, Pa., and six foot seven, Don Weyer of Poland.

First home game will be against Alliance Dec. 4. Other top games include LaSalle, John Carroll, Baldwin-Wallace and Colby.

## SNARKY SEZ . . .

by Snarky Parker

I don't know if anyone realized it or not, but Snarky Parker didn't have an article in the paper last week. I suppose you dissenters were overjoyed and how I feel about you just can't be printed. But to the few fans I hope I have, "I'm back!"

I notice a few letters-to-the-editor every once in awhile which concern me. To you that write approvingly, "Thank you", but to those others who sign their names, "The boys", and etc., "Drop dead!"

I know the sports columnist shouldn't write about politics, but this time I think I will. Most of the Democrats are die-hards and just have to realize that in any game, the winner is always the fellow who remembers to "Be a good sport." The election shows just that. The Democrats I know are blasting Eisenhower with this and that sort of stuff but me, I don't think we should judge the ability of a ball player until we see him play ball!

And speaking of sports and presidents, how many of you know that Eisenhower was the only president that has ever tackled Jim Thorpe. And Thorpe was tough. Ike played his football at West Point and earned a letter and in those days 11 men played the entire game and letters were scarce after the year was over.

### News and Views

The other night at the John Carroll game, those lugs in the Carroll line really meant it when they were singing that song to the Youngstown backs, "OH NO, YOU'LL NEVER GET AWAY." . . .

My vote for the most cheerful girls in school go to SALLY CONNELLY and "POSY" MARTIN. The two of them are by far tops in the books of about 40 fellows I know. If you don't believe me, just ask any 40 of them.

RALPH GOLDSTON, former Penguin grid great, dropped a letter to the column the other day and passes along a big hello to all his friends up here at YoCo. . . . GOLDY is doing alright for himself these days. . . .

NED MERVOS, the surging Serbian from Pittsburgh, is one of the biggest guys I ever did see. Why he's tremendously huge. The other day in the cafeteria I found out why. That big lug eats like a horse. And horses can eat. I'd rather buy the kid clothes instead of feeding him. WALLY ANGELO, another former grid great, is now with the marines over in Korea.

## Winding Up Grid Careers

Tom Andres

Leo Coughlin

## 2 Seniors Playing Last YoCo Game

by Dick Selby

Two Youngstown College seniors will bring down the curtain on their long and brilliant football careers when they oppose the Toledo University eleven tomorrow night. The two captains have been terrific in every game of their star-studded careers.

Tom Andres, the senior physical education major and running guard on Dike Beede's eleven, along with being an outstanding athlete, is also one of the finest fellows this writer has had the pleasure of meeting.

T.A., as he is called, is a graduate of Niles High School where he played football in 1944, 45 and 46. In 1946 he was voted on nearly every one of the All-State teams. While in high school he also participated in basketball and track.

After graduation he attended the University of Indiana. He transferred to YoCo in 1949 and played Freshman ball that year. He has played three years of varsity ball here, winning a letter each year. First year he was a sixty minute man playing both offense and defense. In his last two years, however, he confined his playing to offense. Being the running guard in the offensive formation he was always needed at top speed. For this reason he was given his well

(Continued on Page 8)

## Broadside . . .

by BARRETT

While the Big Ten and Pacific Coast Conference standings are still somewhat muddled, it is interesting to note that there is no chance for either defending champion to re-enter the throne room.

It is imagined that when Purdue punished Illinois 50-12, and UCLA rose up to smack down their big brother Bears from Berkeley a week later, a sigh of relief must have echoed simultaneously from bigwigs of both circuits.

They probably reasoned thus; now we can present our little get-together on New Year's Day without any grumbings from fans or press. It will be champion against champion. The winner will literally drip with prestige.

### Champions in Rose Bowl

Such a situation is to be commended. The question arises however as to why it should be otherwise. Why should the leagues plus the fans have to hold their breath each year until the preceding year's titleholder is ousted? Why should anyone but the Champion even be considered for the Rose Bowl?

This masterpiece of misbanding arose in 1947 the year the pact was initiated. Athletic directors of the Big Ten schools voted to prohibit any school from participating in the classic more than once in three years. Thus Michigan which won the Western Conference Championship in 1948 and then proceeded to destroy USC 49-0 in the second of the "Slaughter Bowls" was denied the right to do further mayhem in 1949 and '51 despite the fact that they were champions in those years.

### Assured Victory

It developed that the Big Ten could probably have sent its cellar dweller to handle its affairs on New Year's Day and still have been assured of at least a 14 point victory. But the principal of the ruling still tasted foul.

Now after five years the Coast has decided to enact the same legislation. Heaven only knows how they expect their number two team to emerge victorious when their top eleven had difficulty coming within 40 points of the midwestern representative.

### Football A Business

The point is this, football is a high powered business regardless of efforts to conceal the fact. It makes a healthy living during the fall and both conferences reap rich financial rewards out of the Rose Bowl. This reward is reaped at the expense of thousands of loyal fans who pay to see the best teams in action.

As a business and as a builder of character football has a duty to give its customers the elite of two leagues, not the alsorans. You don't pay \$1.00 for a Bing Crosby record only to discover that Joe Doe is doing the warbling.

It is to be hoped that before long the two conferences will enact some more legislation. This time for the benefit of the public. They deserve it.

## Rockets Invade Rayen For Saturday's Game

Tomorrow night at Rayen Stadium the Youngstown College Penguins will attempt to end the 1952 football season in a blaze of glory with a victory over the Toledo Rockets. A victory over Toledo could give the Red and White their most successful season since 1948.

The Penguins with a record of four victories, two defeats, and one tie will rule a slight favorite over Toledo, three victories, and five defeats. The favoritism is based only on record, however. The injury riddled Penguins will have to show more than they have in their past two games if success is to be gained. Without Dick Franko and George Ceremuga, the Penguins offense has been slowed to almost a halt. The defense is still playing that rib-rocking game we know they are capable of.

### Good Passing Game

The Toledo Rockets led by quarterback Joe Giordano and halfback Dave Andrzejewski are a hot and cold team which has shown they have the potentiality to break their opponents spirit at any time. Their passing game has been their best means of attack, but their ground attack has shown power plus. The defense of the Toledo Rockets has been steady and well rounded. With line-backers, Mel Triplet, Girard, Ohio, and Harry Lanzi leading the attack, the defense is more capable of leading the attack.

### Seniors in Lineup

The Penguins will have two seniors in their lineup. Leo Coughlin, defensive right end, and Tom Andres, offensive left guard, will wind up their college careers tomorrow night.

Halftime ceremonies will be handled by the Youngstown College ROTC Unit. They will present their annual Corps Night Celebration highlighted by the presentation of the medals to the outstanding cadets of the 1951-52 school year.

Lets' all get out and support the Penguins in their finale.

## B-G's Give YoCo Worst Trouncing

The Youngstown College Penguins were administered a 50-0 defeat by a strong Bowling Green eleven. This defeat not only marks the second defeat for the red and white but is the worst defeat a Youngstown team has ever received.

The running of fullback Fred Durig and the pass catching of end Bill Lyons were more than the Penguins could handle. Durig gained one hundred and thirty yards rushing and Lyons caught 7 passes for 85 yards.

The Penguins offense, little as it showed, was led by fullback Jim Villa and substitute tailback Herb Williams. On defense the Penguins displayed only brief showings of the early season form. Leo Coughlin and Bob Garcar again were outstanding.

## Carroll Snaps Winning Streak

Youngstown's dreams of an undefeated season were rudely shattered by a determined bunch of Blue Streaks at Cleveland's Shaw Stadium. The Penguins, badly hampered by penalties, fumbles and a crippled team, were never in the game. Stars were a dime a dozen for the Blue Streaks but Ron Kaminski, Tony Kedzior, George McKeever and Paul Brubick deserve special mention. Leo Coughlin and Bob Garcar stood out for the "Steel City Boys."

John Carroll 7 - 6 - 7 - 20 - 40  
YoCo 0 - 0 - 0 - 0 - 0

Blue Streaks Scoring: McMillan 2, McKeever, Martin, Murray, Zebkar.  
Conversions: Ziccardi 4

## Newmanites Again Lead Intramural Bowling League

YoCo kegglers opened the Intramural Bowling season Sunday October 26. With two sessions completed Newman Club has assumed its familiar position on top of the league, followed closely by a surprisingly powerful ROTC squad.

Team high for three games is held by Newman Club with a torrid 2340. This same squad holds the team high for a single game with 860. Bellanca of Nu Sigma Rho holds the individual high for single game and three games with 229 and 549 respectively.

The leagues top five men are Webster, Newman Club 174; Yurcho, Newman Club 166.01; Bellanca, Nu Sigma Rho 161.02; Zagger, Newman Club 160.03; Curtis Newman Club 158.03.

Dom Rosselli urges all team captains to field a complete team if the league is to continue.

### BASKETBALL TRYOUTS

Varsity Hall, last year's Intramural basketball champs will hold tryouts beginning early in December. Among early candidates are Thom Lad' Culkar and Ned Mervos. All those interested contact Lou "Duke" Lehner before November 25.

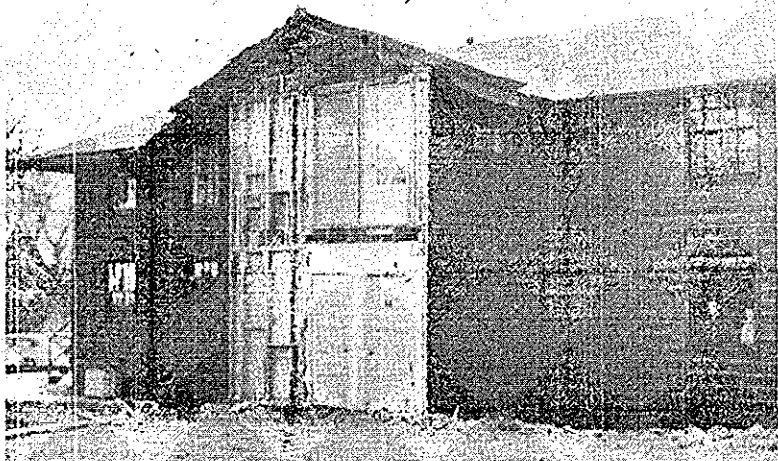

Prepare your teams for Intramural Basketball. Dom Rosselli would like all teams to be organized and ready for action early in December.

## I - M Bowling

earned rests while his team mates were on defense.

During his college career he has had many honors bestowed on him. The one of most significance is when he was voted to the Honorable Mention All-State team in 1950.

**Was Active**

Leo Coughlin is known to all as an athlete gentleman and everybody's friend. The all around personality from Midland, Pennsylvania is just that. At Midland High School he played three years of football, basketball and track.

After graduation in 1946, he joined the Army and played football at Fort Meade, Maryland. After being discharged from the Army in 1949, he entered Youngstown College where he has been a member of the football squad for four seasons. He is a three year letterman in track. Also in track "Hound Dog" holds the school record for the mile run.

On the varsity he is strictly a defensive ballplayer playing two years as a linebacker and one as a defensive end. In 1951 he made the United Press and Associated Press Honorable Mention All-State team as a linebacker.

Leo is also very active in school affairs being a member of Kappa Sigma Kappa fraternity, Newman Club, and is a Cadet Captain in the ROTC.

"Well, Doc, you sure kept your promise when you said you would have me walking in a month."

"Good. I'm glad to hear that."

"Yeah, I had to sell my car when I got your bill."

(Sho. s. Second Floor)

**NOSE, THROAT,**

**and Accessory Organs not Adversely Affected by Smoking Chesterfields**

**FIRST SUCH REPORT EVER PUBLISHED ABOUT ANY CIGARETTE**

A responsible consulting organization has reported the results of a continuing study by a competent medical specialist and his staff on the effects of smoking Chesterfield cigarettes.

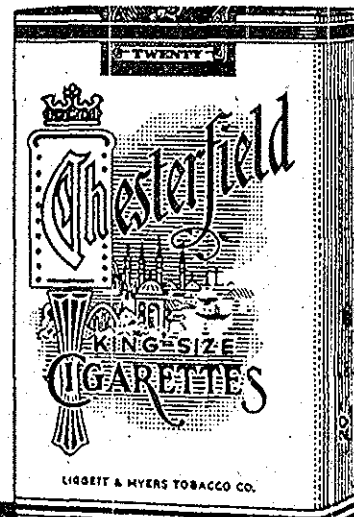

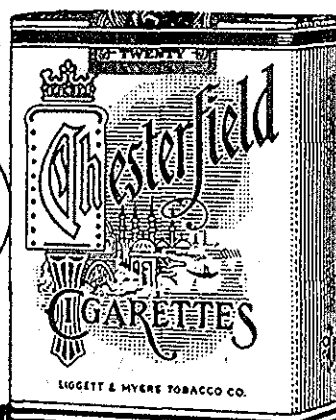

A group of people from various walks of life was organized to smoke only Chesterfields. For six months this group of men and women smoked their normal amount of Chesterfields—10 to 40 a day. 45% of the group have smoked Chesterfields continually from one to thirty years for an average of 10 years each.

At the beginning and at the end of the six-months period each smoker was given a thorough

examination, including X-ray pictures, by the medical specialist and his assistants. The examination covered the sinuses as well as the nose, ears and throat.

The medical specialist, after a thorough examination of every member of the group, stated: "It is my opinion that the ears, nose, throat and accessory organs of all participating subjects examined by me were not adversely affected in the six-months period by smoking the cigarettes provided."
