Semcentennial

Friday, November 7, 1958

Youngstown University, Youngstown, Ohio

VOLUME 34, NO. 7

## U. S. Steel President to Deliver Academic Convocation Address

### Faculty Plans Convocation For Nov. 19

What is probably the most important single event in the Youngstown University 50th Anniversary celebration is the coming Faculty Convocation on Nov. 19.

It will be the first opportunity for the complete University faculty to participate in an exercise.

Students are quite welcome to witness this event. However, since seats in Stambaugh Auditorium are limited, 500 tickets will be distributed through the office of President Howard W. Jones.

Any student wishing to attend need only to turn in a request with his name and address to the president and a ticket will be sent to him.

Those requesting tickets are urged to do so as soon as possible. Distribution will be on a first come first serve basis.

Those not sure of attending the convocation should not apply, since they will be keeping others who would like to attend away.

### Newman Club Plans Communion Breakfast

The Newman Club will hold a Communion Breakfast at Mooney High Chapel on Sun., Nov. 9. Mass will take place at 11 a.m., with breakfast following.

Dean Gillespie will be the speaker at breakfast. In the evening, Father Malone, Vocational director of St. Edwards will speak.

### ROTC Battle Group Presents Parade, Retreat Ceremony

The Youngstown University ROTC Battle Group presented their annual parade and retreat ceremony between halves at the football game between Youngstown University and Gustavus Adolphus University, Thurs., Nov. 6, at the Rayen Stadium.

The following distinguished guests comprised the official reviewing party:

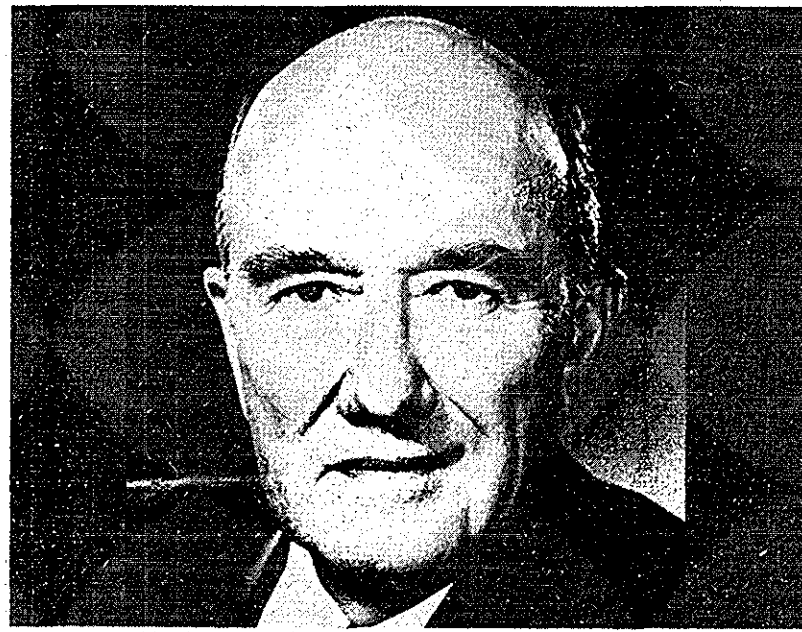

Mr. Walter Bender, Chairman of the Board of Trustees, The Youngstown University;

Doctor Howard W. Jones, President, Youngstown University;

Doctor Joseph E. Smith, Dean, Youngstown University;

Doctor John Gillespie, Dean of Men, Youngstown University;

Lt. Colonel O.R. Hummel, Professor of Military Science and Tactics, Youngstown University.

Clifford F. Hood

### Event to Commemorate Fifty Years of Progress

Admission to Be by Ticket Only

Clifford F. Hood, President of the United States Steel Corp., will deliver the address at the Golden Anniversary academic convocation of Youngstown University to be held in Stambaugh Auditorium, Youngstown, Ohio, Wed., Nov. 19 at 8:30 p.m.

Commemorating the fifty years of progress of the university, the event will attract friends of the university who have contributed to its financial and moral support over the years, educational and civic leaders of the community, trustees of the university, alumni and faculty, as well as many important steel executives of the entire area and other interested persons. Admission will be by ticket only and tickets may be secured without charge by mailing a request to the office of the president, Youngstown University, Youngstown 2, Ohio.

Born on a farm near Monmouth, Ill., the only child of Edward and Ida Hood, Hood spent his early years on the farm, attending high school in Galesburg and continuing to help his father on the farm during vacations. Upon graduation from high school, he enrolled at the University of Illinois where he was interested in all things electrical and was chosen to serve as manager of the university's annual electrical show.

Employed in Warren

Upon graduation with a degree in (Continued on Page 4)

### Fireball Examined By Dr. Scudder

Dr. Eugene Scudder, head of the Chemistry Department, examined an object which dropped from the sky last week. The fiery mass plunged in front of a motorist who notified the Mahoning County Sheriff's office.

He stated, "The sample was small and made it impossible to judge it in its proper setting. It showed no radio activity, which would eliminate any atomic energy source. Its composition is not in keeping with that of a normal meteorite. Also, its composition is not what one would expect to find in materials coming from any of the steel mill furnaces. The composition might be that which a fragment from some space rocket might have. If the object came from above and was warm as was reported, our opinion is that a space rocket is its most likely source."

### General Open House Planned By Anniversary Committee

In the hope that the people and Industries of Youngstown will know us better, the 50th anniversary committee will hold a general open house Nov. 17, 18 and 19.

Prof. Frank D'Isa, chairman of the open house, has set up a series of displays for the visitors, showing off the best in each educational department. Special industrial displays will be brought in for the event.

Classes will be open to visitors giving them a chance to see for themselves how classes are run. This is aimed particularly at parents of students and at potential students.

Open house will begin Wed., Nov. 17 at 1 p.m. and will close the following Friday at 4 p.m.

That evening, the faculty convocation will take place at 8 p.m. in Stambaugh Auditorium.

### Pledging Activities Begun by Sororities

"Is there anything I can get you in line?" "May I be excused, please?" These are familiar words to any of us who have gone through pledging before. Next week all of our memories of pledging will be brought back to us as we watch seventeen happy girls go through their pledge period. Informal rushing for the sororities was over and formal pledging began Wed., Oct. 29.

The new pledges are: JoAnne Malone, Bernice Noga, Mary Jane Tirlea, and Roseann Wally of Alpha Omicron Pi; Eleanor De Marco, Barbara Reali, Patricia Wagner, Sandra Zarlengo and Jeanette Zemko of Beta Sigma Omicron; Janet Marie Auchter, Rita Julius and Susanne Morasky of Phi Mu; and Barbara Dorling, Kathleen Hite, Winnie McCambridge, Rita Romer and Davine Ueslo of Sigma Sigma Sigma. Pledging period will last until Dec. 19.

### Nu Sig Stomp to Feature Crowning of Frosh Queen

The annual Nu Sig Stomp will be held Fri., Nov. 7. Dancing will be held from 9 to 11 in Strouss Auditorium.

The freshman sweetheart will be crowned during intermission by last year's Nu Sig Freshman sweetheart, Gerry Stanton.

### Open Letter to Presidents Of Campus Organizations

You will all agree, we are sure, that our student convocation was a very impressive and successful affair. Our faculty members contributed a great deal to the success of the convocation. Now, we in turn must contribute our services to the faculty convocation. They request the presence of the presidents of all student organizations as ushers at the faculty convocation which will be held at Stambaugh Auditorium on Wed., Nov. 19 at 8:30 p.m.

It is an honor for you as a student and a duty for you as an officer to represent your organization at this affair.

Please reply to this request in the Dean of Men's office, if you are the president of a men's organization, and the Dean of Women's office, if you are the president of a women's organization, where you will be given further instructions. It is necessary that we receive this reply before Fri., Nov. 14 at 1:00 p.m.

We must also have three hundred students to act as hosts and hostesses during open house, Nov. 17, 18 and 19. These students will be expected to greet all visitors at the entrances to the various campus buildings. Will you please impress upon the members

of your organization the importance of this task. They may also register in the Dean of Men's office or the Dean of Women's office, respectively, before Friday, Nov. 14, at 1:00.

Gerard Repasky, Chairman  
Edward Wall - Diana Stizza  
Co-Chairmen

### Help Wanted!

The University is in need of some 300 students to act as hosts and hostesses at the open house Nov. 17, 18, 19. The job will be to greet visitors at the entrances to the various buildings on campus and to supply them with any information that they are seeking. Please register in either the Dean of Women's or Dean of Men's offices before Nov. 14, at 1:00 p.m.

## State Department To Assist Students In Latin America

International Educational Exchange Service of the State Department announces an increase of 75 new scholarships for study in Latin America.

The added scholarships cover round-trip transportation, tuition, and maintenance for one academic year. For eligibility, applicants should be United States citizens not more than 35 years old, have a Bachelor's degree or its equivalent before departure, knowledge of Spanish sufficient to live and study in the country concerned, and good health.

Applicants will be asked for a summary of their reasons for desiring to study in the country of their choice and for a preliminary plan of their proposed study.

Information and application forms may be obtained from the Institute of International Education, 1 East 67th Street, New York City, or any of the Institute's regional offices. Requests for application forms must be postmarked before Dec. 31, 1958. Applications will be accepted for the new grants until Jan. 15, 1959.

## Rushes Beware; Choose Carefully

Informal Rush season has begun on campus, and for many Rushes, this means a hectic period of parties, sales talks, pressures, and all the other means of salesmanship used by fraternities as a means of gaining pledges.

A Rushee is often overwhelmed by these prestige displays, and in most cases by the time bidding arrives, he is so confused as to which fraternity to join that his whole mental frame of mind is affected. The decision bears so heavily on his mind that his studies suffer, his nerves are jangled, and his self-confidence is momentarily shattered.

The decision to join a fraternity is one of paramount importance to a college student. His choice will determine his way of life for the duration of his stay in school. The wrong choice can be disastrous, in that a man in opposite environment of his own beliefs will not be happy. If he is not happy, how can he be loyal or brotherly?

We urge all rushees to be objective in choosing fraternity affiliation. Don't be misled by high-pressure sales talks or far-fetched promises. Look for sincerity and genuine, mutual likes and dislikes.

Remember, joining a fraternity is like buying a product. Shop around and be selective before you seal this life long contract.

## Independents Would Have Voice

The Jambar has now become the paper of the Student Body rather than the "Greek News."

However, it cannot be denied that the Greeks, 300 plus, do run and control every major position in the University. Complaints from any one of the Administration or student body concerning this never have been heard. It must be noted that a greek in a position of responsibility has at his disposal a fraternity or sorority of thirty members to rely on.

On the other hand, the independent is only one and must rely on his own popularity for support. This may not be democratic but it is, and most likely will work.

One must admit that the independent is a helpless creature that can be pushed, shoved, kicked and stepped on at the will of the Greeks. The independents as a whole deserve it because of their absolute uninterested attitude in school affairs.

But should this be so? It is possible that the high majority of men and women who have the push to get something done and done well are Greeks. Therefore, the independent may belong in the rear where he is now.

The election of Student Council president by popular election could be a step in school participation by the independent. It should be tried and have each candidate not only for president but for council itself present a platform of views that would be published in the Jambar prior to election. The campaign would have to be orderly and run according to a set of rules set up by the Discipline Committee.

With the help of the Greeks and independents, the election could be very successful.

## Halloween Party Held By Newman Club

Highlighting the annual Newman Club Halloween Party last Sunday evening at Mooney High were the many colorful and original costumes worn by the members and guests. Prizes for the best costumes were given to "Frankenstein", "The Dragon", and "The Mad Hatter." Intermission entertainment was provided by Forrest Cavalier, Red Tyrell, Judy Puce, Gerry Stanton, and Mary Jo Perry who provided original skits.

## Letters Welcome

Members of the editorial staff of *The Jambar* welcome letters from students and faculty. The editor reserves the right to cut items, however, if they are too lengthy or unnecessary.

Letters must be signed, but upon request, names will be withheld from publication.

There may be some substitute for good-nature, but so far it has not been discovered.

## Colleges Get Federal Aid For Students

The federal government will make nearly \$300,000 directly available for college student loans in Ohio next year.

The total amount to be allocated for graduate students has not been determined. But successful graduate applicants may receive a minimum of \$2000 for the first year, and a maximum of \$2400 for the third year.

**ELIGIBILITY** For any student or prospective student in a public or private college or university is governed by need and standing in class, decided by the school. Loans are limited to a maximum of \$1000 a year per student.

Students may apply only at the college or university they are attending or planning to attend.

The money is to be paid back in installments starting the year after graduation. Repayment may be spread over a 10-year period. Interest is 3 per cent.

**THE MONEY WILL** be available sometime in the next 60 to 90 days.

Prospective teachers or those with special talents in science, mathematics, engineering or foreign languages will have priority.

## Do You Make the Most Of Life's Potentials?

By Dave Poole

In his graphic story, "The Conquest of Mount Everest," Sir John Hunt stresses the fact that the ultimate triumph came through the efforts not only of the two who at last stood for fifteen minutes on the summit, but of the whole group who had worked as a team.

Sir John points out that some who undertook arduous labor were not permitted to go on the last part of the journey, but they bore the heavy burdens to the last camp so that those who were to make the final camp assault would not be wearied by carrying the whole load.

The two men who made the first attempt did succeed in reaching a higher altitude than any who had previously returned to tell of the experience. But when they considered attempting to push higher, they realized that their limited supply of oxygen and the coming darkness endangered their safe return to the base camp. So they gave up their try for the summit leaving their extra oxygen at the point they had attained.

Two days later Hillary and Tensing, making the second and ultimately successful attempt, reached that point. They were able to reach the top and then return to base camp only because the oxygen of the earlier climbers was available. Their own oxygen got them to the top, but the extra supply got them back to camp. Had the first pair really failed? They succeeded in getting higher than those before them and the final victory was won because of what they contributed.

Was It Worth While?

In a beautiful and stirring passage,

Sir John then asks and answers a significant question:

"Was it worth while? For us who took part in the venture, it was so beyond doubt. We have shared a high endeavor; we have witnessed scenes of beauty and grandeur; we have built up a lasting comradeship among ourselves, and we have seen the fruits of that comradeship open into achievement. We shall not forget those moments of great living upon that mountain."

The story of the ascent of Everest is one of teamwork. There is a deeper and more lasting message behind our venture, than the more ephemeral sensation of a physical feat. I believe this to be the valve of comradeship, and the many virtues which combine to create it. Comradeship regardless of race or creed, is forged among high mountains, through the difficulties and dangers to which they expose those who aspire to climb them, the need to combine their efforts to attain their goal and the thrills of a great adventure shared together.

Adventure Is Needed

And what of others? Was it worth while for them too? I believe it may have been, if it is accepted that there is a need for adventure in the world we live in, and provided too that it is realized that adventure can be found in many spheres, not merely upon a mountain, and not necessarily physical. Ultimately, the justification for climbing Everest, if any justification is needed, will lie in the seeking of their "Everests" by others stimulated by this event as we were inspired by others before us.....

There is no height, no depth that the spirit of man, guided by a higher Spirit, cannot attain.

Does this not suggest that the secret of making the most of my life is so - to live and serve that I will share in the achievements and victories of others and so to link my life to others and to bid that He and I are joined in work and worship. This means that their joys and need are my own, and their best good is the deepest concern of my heart.

"They tell me your son in college is quite an author. Does he write for money?"

"Yes, in every letter."

## Highly Touted Baldwin-Wallace Upset by Penguin Gridders

Youngstown University's football team combined two lightning touchdowns in the opening minutes and added the clincher midway through the final quarter to upset highly touted Baldwin-Wallace 20-12 at Rayen Stadium last Thursday night. Ralph Morelli, Youngstown's guard on the opening kickoff to Baldwin Wallace, stormed down the field, upended the ball carrier, who fumbled, and recovered the loose pigskin on the visitors 30.

Ray Carter skirted left end twice, moving the ball to the 14. Then full-back Tom Richards snuck through an opening in the line and churned 14 yards for the score after one minute of play.

After the kickoff, Baldwin-Wallace failed to move the ball from their own 22. They punted but the ball went straight up with Youngstown taking over.

### Green Scores

A penalty moved the ball back to the Baldwin-Wallace 26. Richards picked up the 16 yards to the 20, then Harold Green rifled an aerial to Tom Smolanovich breaking away on the ten and going to the BW one. Green snuck over for the locals second score in the first five minutes. Again the P.A.T. was no good giving Youngstown a 12-0 lead. A few plays later, the BW defense broke through nailing Paul Ceremuga on a fourth down punt attempt. Beginning to jell for the first time, quarterback Chuck Brady and his mates moved for a touchdown in five plays, cutting the Penguins lead to 12-6.

Just before the end of the first half Ed Howley and John Abdoo nailed Brady 15 yards behind the line of scrimmage to stop the tying touchdown drive.

### Yellowjackets Recover

A Tom Richard's fumble was pounced on by the Yellowjackets shortly after the start of the second half. Brady passed to Joe Barret to the Youngstown University 29. Three rushes moved the ball to the three. Then Brady tied the score with a quarterback sneak.

One Penguin advance was stopped on the two and a Baldwin Wallace drive ended on the four in the late third and early fourth quarters.

## IFC Features Battle of Undefeated

The day was cold and rainy at Borts Field on Sunday afternoon, but a large crowd gathered to watch four undefeated fraternity football teams battle each other. There were no surprises.

Kappa Sigma Kappa built a 15-0 lead at half-time and went on to beat the Theta Chi's, 22-6. Bob Cain's passing was the difference. The full-back threw three scoring touchdowns. Corbett and McCarthy, were on the receiving ends. A safety was scored when Murdick caught Collins in the end zone. Theta Chi's only score came late in the game on a pass from Collins to O'Neil. Domini, an end for Theta Chi, was hurt in the game.

Zeta Phi continued to roll on in Class B action as they beat the Phi Gam's, 39-0. Parm threw five touchdown passes past the Phi Gam defenders. Magni caught four of them and Vaclav, a center, caught one. Shook intercepted a pass and scored the other touchdown.

### Nu Sigs Victorious

In other action, the Nu Sig's beat the T.K.E.'s, 13-8. For the Nu Sigs, Pete Torek intercepted a pass and romped 35 yards to score. A pass from Kuzma to Africa was the other touchdown. Alpha Phi Delta lost in a forfeit game to Kappa Alpha Psi.

This Sunday in Division A, the Sig Ep's play the Nu Sig's and the Theta Chi's play the T.K.E.'s. In Division B the undefeated Zeta Phi's play the Kappa Alpha's and the Phi Sigs play Alpha Phi Delta.

## YU Sports

Editors ..... Jim Quilty

## Rifle Team Wins Second Match

The Youngstown University Rifle Team, led by Team Captain David H. Patterson, won its second match of the year last Friday night when it defeated Gannon College by some 42 points. This marks the third match that the Youngstown sharpshooters have participated in in the Lake Erie Intercollegiate Rifle Conference. Their only loss so far has been to Case Institute, who defeated them by a scant 6 points.

The local Penguins journey up to Cleveland this weekend to engage John Carroll University in another conference match. In predicting a clean-cut victory for his squad, Coach M/Sgt. Woodrow W. Mangum stated that the team is fast getting their eye on the old bullseye and will be tough to beat from here on out.

## J.V. Football Team Defeated by Kent

The Penguin J.V. football team lost a thriller to Kent State on Mon., Oct. 27. Kent scored the winning touchdown in the final five minutes on a 16 yard pass play to win the hard fought game 20-15.

Behind 14-0 at the half, Youngstown started to click in the third quarter behind Mike Santor. He passed a 15 yarder to Tim Mullens. Jim Wildmar snagged Santor's pass for the extra points.

### Penguins Take Lead

In the last quarter, the Little Penguins went ahead, 15-14. After Kent gambled on a last down play and lost, Youngstown had the ball on the 17 yard line. Santor ran the ball over on two bootleg plays for the touchdown. Jim Higham booted the tie breaker through the uprights. First downs were twelve to eleven in favor of Kent.

The main ball carrier for the J.V.'s were Mike Santor who made 47 yards in eleven carries. Jim Higham had 7 for 24.

The next home game for the Little Penguins is against Baldwin Wallace at Volney Rogers on Nov. 10 at 3 p.m.

## Senior Gridders Prepare For Last Penguin Game

By Pete Sloan

The Toledo game will be the last one for several Youngstown University football players. All of these men have played four years for the Red and White.

Mike Giambattista has been a regular right end of the Varsity for

Mike Giambattista (l) and Herm Yassal (r), senior gridders, are preparing for their final grid tilt as Penguins. They will engage against the University of Toledo on Nov. 15.

the past two years. His biggest thrill as a Penguin was making a touchdown against Baldwin-Wallace last year. The toughest opponent was North Texas State.

Giambattista, a graduate of Pete Lanzl's football team at East High, earned six letters in football, basketball, and baseball. He played with Jim Kernan, a star at Army. The toughest passer he opposed was George Izo, now at Notre Dame. He mentioned that Chuck Brady of Baldwin-Wallace is like Izo in his passing ability.

### Coaches During Summer

During the summer, Mike works with the City Park and Recreation Commission, coaching summer baseball for boys sixteen and under. In the winter, he is with the boy's basketball league. He is proud of the fact that his team won the City Championship last year.

Around the Youngstown University campus, Mike is busy at his studies and is a member of Zeta Phi fraternity. He is a physical education major and would like to be an assistant football coach in an area high school.

### Played at Sharon

Herm Yassal is a two year letterman at the right half-back slot for the Penguins. Injuries have hurt him, especially in the North Texas game, which he claims was his toughest game.

Yassal was one of the few four letter winners in football to come out of Sharon High. His coach was Cy James, a former Penguin.

During the summer, he coached a softball team called the "Variety Club" which won the Greenville Community League. He mentioned that he coached when he couldn't find work at the Post Office.

### Majors in Pre-Med

Herm is in Pre-medical school at the university. He would like to continue his studies at Jefferson in Philadelphia, Pennsylvania. Since he worked with a doctor in Korea, he would like to be a general practitioner. He was a member of the tennis team last year. He also served as president of the Varsity-Y Club.

# QUE'S QUIPS

By Jim Quilty

One would have thought he was at a bull fight with the matadore dropping his red cape at every charge of the bull during the first half of the Youngstown University-Baldwin Wallace football fray.

The four officials apparently had a case of dropsies as at least a dozen penalties were walked off in the opening 30 minutes. This isn't taking anything away from the job they performed, but the result was one of the longest games in the annals at Youngstown - from 8 to 10:40.

In the interval, the Penguins showed the continued improvement demonstrated in each game since the 38-0 loss to Ohio University in the opening game of the campaign.

### Morelli, Spencer Amaze Fans

The eye catching speed of freshman guard Ralph Morelli, 5'11" and 205 pounds, and the flashy running of Mervin Spencer - another freshman, amazed Penguin followers. Morelli red-dogged Chuck Brady throughout the evening forcing hurried passes while Spencer picked up huge chunks of yardage taking full advantage of his blockers.

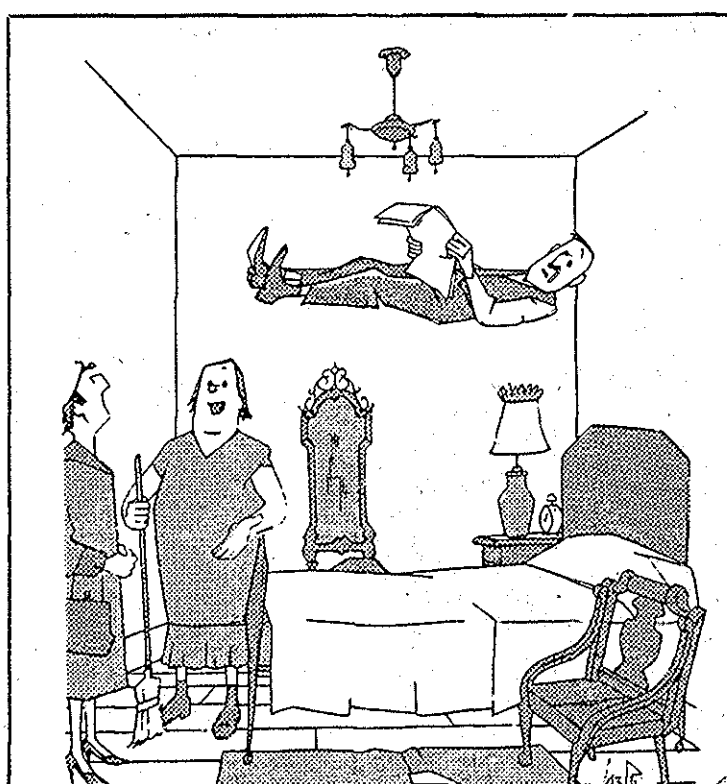

On a punt return in the last period, Spencer caught the ball, hesitated a bit, faked, scooted through two befuddled defenders, and returned the ball 20 yards to the Baldwin-Wallace 22. One fan quipped, "He must have faked with his eyes."

The middle of the Youngstown University line gave a few yards now and then but only Brady's passes kept Baldwin Wallace from being swept off the field. Either Baldwin Wallace is greatly over-rated, or the Penguins are vastly underrated.

### Penguins Rated as Underdogs

Incidentally, Youngstown has been the underdog in each game this year.

Minor injuries to Mike Giambattista, John Krafcik and, Morelli failed to dampen the Penguin's spirits. Jim Severich, Tom Deley, and Larry Jordan made good showing as substitutes.

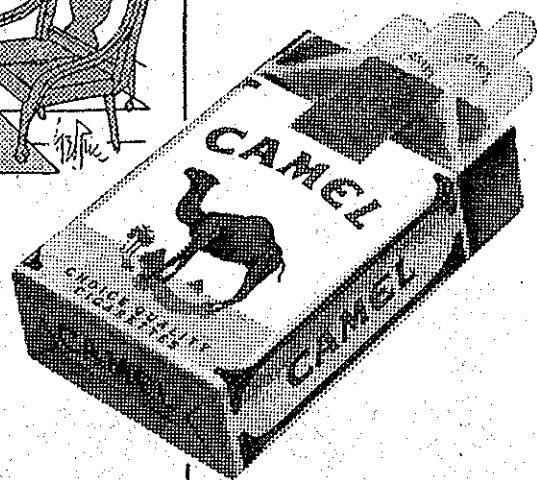

"Only time he comes down is when he wants a Camel!"

For real, down-to-earth smoking enjoyment, there's nothing else like Camel. No other cigarette brings you the rich flavor and easy-going mildness of Camel's costly blend. More people smoke Camels than any other cigarette of any kind. Today as always, the best tobacco makes the best smoke.

Rise above fads and fancy stuff...

Have a real cigarette - have a CAMEL

J. J. Reynolds Tob. Co., Winston-Salem, N. C.

## ROTC Honor Guard Awarded Charter by Student Council

The Honor Guard of the Youngstown University ROTC Corps has received a charter from Student Council. There are 21 men in the organization formed Jan. 1, 1958.

It is the desire of the organization to become a chapter of Scabbard and Blade, a national military organization of high standards aimed primarily at developing social leadership and understanding in military affairs.

As of now, the Organization has scheduled regular sabre drill in an attempt to become efficient in the manual of the sabre. The organization has drawn up standard Operating Procedures for the Annual Military Ball. These S.O.P.'s are aimed to help young cadets understand the social courtesy due to their superiors at social events such as a military ball.

### Group Offers Services

The Honor Guard desires to aid cadets in answering any questions about the corps or about any social activities concerning military functions. An organization such as Scabbard & Blade gives a young cadet just entering the corps something for which to work because if he is one of the top men in his class he may have the opportunity to join.

Membership is open only to ROTC cadets in the advanced course, who are of high intelligence in both military and University courses. These cadets must display qualities of leadership.

The present organization does not have any connection with other schools. However, if a chapter of Scabbard & Blade is brought on campus, the organization will become affiliated with other chapters

all over the country. Newly elected officers are: Company Commander, Captain Sam J. Lalama, Jr.; Executive Officer, First Lieutenant Robert G. Martin; Finance Officer, Second Lieutenant William C. Raub; Adjutant, Second Lieutenant Raymond P. Voutko; Pledge Officer, Second Lieutenant Gerald A. Kroll; and First Sergeant, Master Sergeant John J. Kocis.

## Convocation

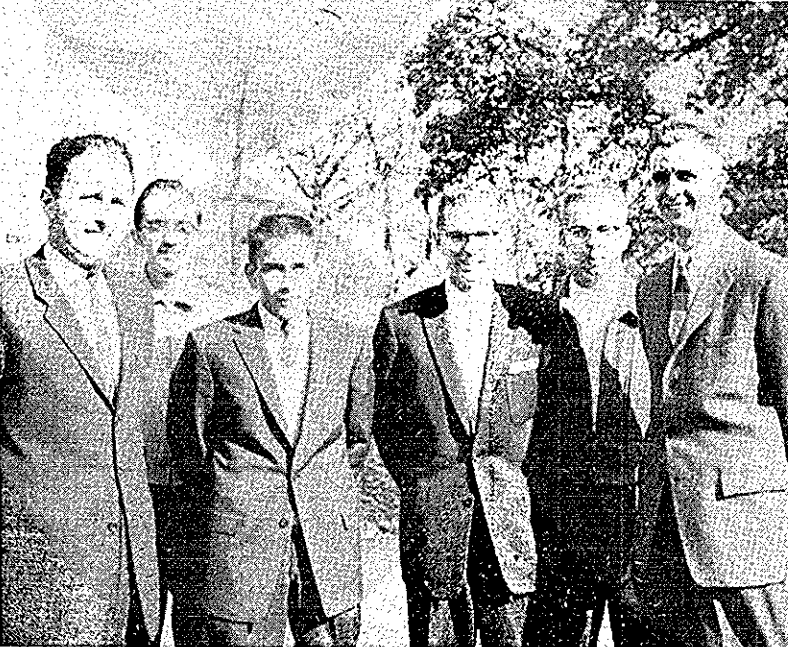

(Continued from Page 1)

electrical engineering, Hood became associated with the Packard Electric Co. at Warren, Ohio as sales engineer and assistant cable sales manager. His interest in cable led him in 1917 to American Steel and Wire Co., and his first job with this U.S. Steel subsidiary was an operating clerk in the company's electrical cable plant at Worcester, Mass. After six weeks with the company, he entered the Army and served overseas with a coast artillery unit.

He returned to civilian life in 1919 and came back to American Steel and Wire as a foreman in the electrical cable department at Worcester. After six years he was named assistant superintendent of South Works, Worcester, and three years later, in 1928, he was promoted to superintendent of South Works. In 1932 he was named assistant manager of the entire Worcester district operations of American Steel and Wire Co.

On Jan. 1, 1933, Hood was made

## Honor Guard Officers

Officers of the newly chartered ROTC Honor Guard are (l-r): William C. Raub, 2d Lt., Finance Officer; Raymond P. Voutko, 2d Lt., Adjutant; Samuel J. LaLama Jr., Capt., Commanding Officer; Gerald A. Kroll, 2d Lt., Pledge Officer; John J. Kocis, 1st Sgt., Master Sergeant; Robert G. Martin, 1st Lt., Executive Officer.

manager of operations for the Worcester district, in 1935 he was transferred to the company's headquarters in Cleveland, Ohio, as vice president in charge of operations, two years later he was elected vice president and on Jan. 1, 1938, he was elected president of the company. Jan. 1, 1950, he became president of Carnegie-Illinois and was also a director and a member of the executive committee of the United States Steel Corp. of Delaware. When these companies, with two other U.S. Steel subsidiaries, were brought into a single company, the U.S. Steel Co., as of Jan. 1, 1951, Hood became executive vice president in charge of operations and a director.

Named President

On Nov. 26, 1952, Hood became a

member of the board of directors and on Jan. 1, 1953, president of the corporation. He was named chief administrative officer on May 3, 1955 and on May 8, 1956 when the board of directors created an executive committee, he was elected chairman. On May, 1955, he was elected to the board of directors of American Iron and Steel Institute.

Keenly interested in young people, Hood says that anyone who is happy in his work and does the best he can is bound to get ahead. His advice to young people is, "Set your goal, chart your course and then give it the best you've got."

A resident of Pittsburgh, Pa., Hood was honored in Jan., 1958 as Pittsburgh's "Man of the Year" by Pittsburgh Junior Chamber of Commerce

for his "dynamic capacity for leadership and understanding of responsibility." Active in civic affairs, he holds many important community positions. He is director and vice president of the Allegheny Conference on Community Development; chairman of the Airport Advisory Committee; trustee of Magee Hospital; trustee of Automotive Safety Foundation; director of the United Fund of Allegheny County; director of Regional Industrial Development Corp.; and director of ACTION - Housing, Inc. (Allegheny Council to Improve Our Neighborhood-Housing).

### Holds Several Degrees

Hood received an LL.D. degree from Thiel College, Greenville, Pa.; an LL.D. from Monmouth College, Monmouth, Ill.; an Eng. D. from Case Institute of Technology, Cleveland, Ohio; and an Eng. D. from Northeastern University, Boston, Mass.

Hood is a Mason and a member of Chi Phi Social Fraternity. He is a member of the Duquesne Club, Pittsburgh; Fox Chapel Golf Club; Rolling Rock Club, Ligonier, Pa.; Detroit Club; Metropolitan Club, N.Y.; Chicago Club, Chicago, Ill.; Pine Valley Golf Club, New Jersey; and Pacific-Union Club, San Francisco.

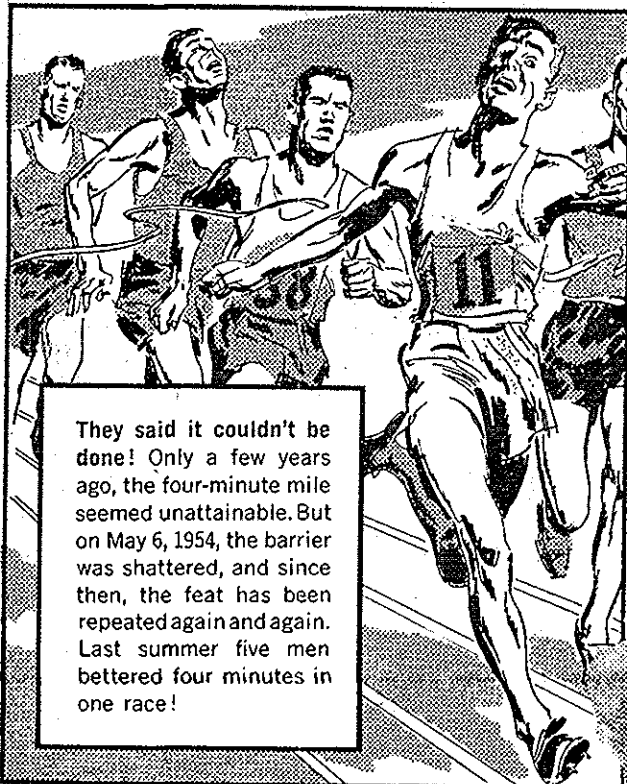

Two Boppers were watching an Indian fakir putting his cobra through an unusual routine. Fascinated, one bopper commented, "Man, catch that crazy arrangement."

The other replied, "Forget the arrangement. Dig that frantic music stand."

## RIL Plans Open House

The Religion In Life Fellowship will have an Open House, Fri. Nov. 7, at 634 Bryson Street, the Chaplin's Residence. The open house will begin at 8 p.m. Dancing and refreshments will be offered.

THEY SAID IT COULDN'T BE DONE-BUT TODAY'S L&M GIVES YOU-

They said it couldn't be done! Only a few years ago, the four-minute mile seemed unattainable. But on May 6, 1954, the barrier was shattered, and since then, the feat has been repeated again and again. Last summer five men bettered four minutes in one race!

Puff by puff

Less tars & More taste

DON'T SETTLE FOR ONE WITHOUT THE OTHER!

Change to L&M and get 'em both. Such an improved filter and more taste! Better taste than in any other cigarette. Yes, today's L&M combines these two essentials of modern smoking enjoyment - less tars and more taste - in one great cigarette.

LIGHT INTO THAT LIVE MODERN FLAVOR!
