ENGINEERS DISPLAY FUTURE WORK AT OPEN HOUSE SHOW EXHIBIT BEING HELD TODAY...SATURDAY

Dean's Council Formulates Plans

Members of the Dean's Council of the Rayen School of Engineering are shown above forming plans for the Open House to be held today and tomorrow. They are first row (l to r) John Ewashko, treasurer; Dean Franklin; Wallace Grist, chairman; Hugh Stacy Jr., secretary. Second row (l to r) Harry Fletcher, Robert Martincic, John Gyurek, Michael Solomon, and William Vogan.

Members of W. R. A. Attend Meet For Women At Oberlin

Four members of the Youngstown University Women's Recreational Association are attending the state convention of the American Federation of Ohio College Women at Oberlin College, today and tomorrow.

Dolores Labriola, President of the Youngstown W.R.A.; Edith Gales, sports board chairman; Judy Johns, social chairman; and Emily Hure, treasurer, are among delegates representing 32 Ohio colleges who are attending the two-day meet.

Seminars will be held both days, climaxed by a banquet at which an outstanding personality from the physical education field will be the main speaker.

The purpose of the convention is to give girls from different colleges a chance to get together and discuss what they are doing in their schools to encourage sports participation, and how they raise money for their organization.

In other activities, W.R.A. is playing host to Geneva College today for

a Basketball Sports Day. They will return the visit on March 10.

Sports Play Day will be held in Cincinnati, March 24, and the girls are trying to get a group together to attend. At least 20 girls are needed, and those interested may sign up at the Women's P.E. Building.

The basketball tournament is progressing and should end in about three weeks. At that time, there will be a playoff tournament between the sororities and the independents.

On March 1, the Sweetheart Tournament, a co-recreational volleyball tournament, will begin. Each team will have four men and four women. Anyone interested may obtain further details in the Physical Education Office.

Pledge Class Holds Leap Year Hop Saturday

For the first time in the history of Youngstown University, a dance will be held by a pledge class. This dance, The Leap Year Hop, will be sponsored by the Sigma Phi Epsilon pledge class.

Chairman Tim Bowser has named his committee men as follows: Pete Citano, John Poulson, and Dave Zeigler on refreshments; Bob Magni and Bill Workman on tickets; Al Fortine and Dick Remick on posters; and Ron Rogers in charge of music.

The dance will be held in Strouss auditorium on Saturday, February 25, from 8-12. Refreshments will be served. Tickets are being sold by all actives and pledges of Sigma Phi Epsilon.

All staff members please leave your name, address, and telephone number in the JAMBAR mailbox in the front office. Please do so by Wednesday March 1.

The William Rayen School of Engineering of Youngstown University will hold Open House Friday and Saturday, February 24 and 25 from 2 to 10 p.m. when many interesting and educational displays covering the various phases of engineering will be open to the public with no admission charge. Parents, employers, high school students, and the general public are invited.

Exposition To Be Held At Stambaugh

"It's Your Future - Explore It" will be the theme of the eighth annual Industrial Exposition of the Mahoning and Shenango Valleys for its three-week exhibition in Stambaugh Auditorium, Youngstown, February 27 through March 16.

The Exposition, presented by the Industrial Information Institute in cooperation with the school systems in the four-county area, is credited by the school authorities as being of outstanding assistance in encouraging young people to plan their after-school careers.

"High quality workmanship depends, to a very high degree, upon (1) the ability to do the job, (2) the interest of the employee," Ralston B. Collins, show director, pointed out.

Give Aid to Schools

"Working with the school authorities the Exposition gives assistance to individual educational programs designed to help the schools prepare their students for vocations suited to them."

A survey, through questionnaires returned last year by visiting students from 21 school systems in the area and analyzed by the schools which the students attended, showed:

1. Students are making sound vocational choices.
2. That classroom training is influencing career plans.
3. That more than 82% were planning careers in industry and business. (a survey eight years ago indicated that only 15% were looking to industry and business for their careers.)

The show will be exclusively for schools every normal school day during the three weeks. From Sunday, March 11 through March 16, the show will be open, without charge, for admission or for seats for the auditorium entertainment program, to the general public.

In observance of Engineering Week, February 19-25, the Open House is being sponsored by the Dean's Council of the Engineering School composed of engineering students representing the various campus engineering groups and the Student Council.

Members of the student chapter of the Ohio Society of Professional Engineers will serve as guides for tours. Displays will be in the William Rayen School of Engineering Building.

Many Things on Display

All laboratories will be in operation including three electrical laboratories, three mechanical laboratories, physics laboratories and there will be civil engineering demonstrations, a demonstration of soil mechanics, metallurgical and chemical displays and many other phases of engineering will be covered.

A short wave radio station will be in operation and on display for interested guests.

Members of the Dean's Council who are heading up plans for the Open House include the following: Wallace Grist, chairman of the Dean's Council, vice president of the student chapter of the American Society of Mechanical Engineers.

Vincent Yambrovich, president of the student chapter of the Ohio Society of Professional Engineers; Robert Martincic, president of the student chapter of the American Society of Mechanical Engineers; Richard Rein, president of the student chapter of the American Society of Metallurgists and of Mu Pi Epsilon, honorary engineering fraternity.

Michael Solomon, president of the Student Society of Civil Engineers; Harry Fletcher, past president of the student chapter of the American Institute of Electrical Engineering; William Vogan, president of the student chapter of the American Institute of Electrical Engineering.

John F. Schafer, president of the Radio Club; Hugh Stacy, Jr. and Thomas Mosure officers in the ROTC from the Engineering School; John Ewashko, treasurer, Dean's Council; and former and present members of the student council, John J. Troy, Jr.; James J. Fedorchak; John Walter Gyurek; Fenton Koch; Gilbert Marsh; Robert Mazur; and Neil Beard.

QUESTION: DO YOU THINK PRESIDENT EISENHOWER WILL RUN FOR RE-ELECTION?

Catherine Casewell
Rank - Freshman

With the verdict that the President is physically fit to run again, the hopes of his official family are again soaring. President Eisenhower has guided this nation through a relatively peaceful and prosperous four years. I think that Eisenhower has already given enough of his life to our country by serving as a general and then as the President. I believe he will not choose to campaign for a second term.

Ed Isaly
Rank - Freshman

President Eisenhower is faced with a serious problem. Another term, or the return to civilian life. However with the optimistic reports given by his doctors, I think Ike will run again, as a country, America needs him.

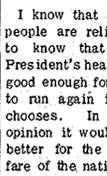

Donald Fiello
Rank - Junior

I believe the president will run for re-election if there will be a suitable plan accepted from Russia, concerning France and England. The President has made his promise of cease fire with Korea, and has successfully accomplished his promise.

Although the physician said that Eisenhower is fit to run, I do not feel he is completely capable of carrying out his duties as President because of his age, condition and strain. The possibility of the president living the entire term is slight. I would rather have a candidate that is much younger, running for election than an older one, who has less chances of completing the term.

Dave Briggs
Rank - Freshman

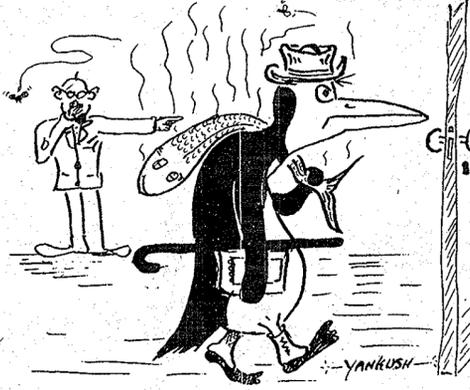

I know that many people are relieved to know that the President's health is good enough for him to run again if he chooses. In my opinion it would be better for the welfare of the nation if he was re-elected.

In the first place "Ike" knows more about the European situation and Russia's Premier Bulganin insinuations that a third world war is inevitable. Secondly, having been a soldier he feels that his first duty is to his country and to finish something he has already started.

C. Grant Taylor
Rank - Freshman

Pres. Eisenhower has delayed his decision to run for re-election until he got the doctor's report on his condition. Now that the president has the doctor's report, his decision is in a balance. In my opinion the president is going to let his duty to his country outweigh his personal welfare.

Phooey, can't even bring a lunch!!

ENGINEER'S ANGLES

At this time I should like to report that all of the adventurers who ventured to a certain company in Columbus have finally returned. It was a harrowing trip, fraught with adventure and excitement, but every one is glad it's over and are now looking forward to a return visit in 1964.

Neil Beard, Vic Richley, and Mike Blasko spent the afternoon in the art museum sitting in soft chairs and looking at the ceiling. John Sedlak, Lee Harris, Bob Stevenson, et. al., sat in Abraham Lincoln's chair in the State House to top off their big day.

Other good times were accounted for by buying valentines, smoking, and drinking coffee.

Flight Was Canceled

The flight home at 8 p.m. was canceled because of bad weather conditions and a bus was chartered by Jack Martinec, who forced everyone to go home with him. All sat around and argued until the bus came at 10 p.m.

Outside of traveling all over southern Ohio, getting stuck in the mud behind a semi, and some lusty singing by Richley, Blasko, Locke, and Sedlak, they made it home. Neil Beard kept coming up with his "Ho" in the wrong places, but none seemed to mind.

Arriving home at 4 a.m., all of the good engineers slept until Saturday afternoon (except Al Cirelli, who slept all day Thursday during the trip). After this the world looked much brighter.

Open House Prepared

All of the organizations are prepared (?) for Open House today and tomorrow from 2-10 p.m. All of you smart young leaders of the 21 century better get your slide rule off the desk and help in the handling of the exhibits. While your at it, take time out to look at the displays, you'll probably learn something.

I knew that the tests around here were getting bad but I was really shocked the other day. Fenton Koch walked into the "Turbines and Jets" class one fine day last week, took one look at the test and got very sick. The doctor ordered him home for the day. Looks like it's getting rough around here!

Joe Hvizdak is getting ready for the baseball season already. He was seen at the American last week limbering up his arm.

Set Up Column

Timmy Abraham and all the chemicals are running around setting up their fractional distillation column in the lab. Just remember what that "still" is for, boys; let's not lose that professional attitude.

Next time we'll have a list of all of the new officers in the various organizations. If you boys will get on the ball, and get some pictures taken, I'll be glad to print them for the benefit of all of your fans.

Have them in to me before Thursday, February, 30. See you at the Open House!

Knauff Accepted At Ohio State Medical School

Pictured above is Ronald E. Knauff, of Girard, Ohio, who has been accepted at the Ohio State Medical School to begin study in 1956.

Mr. Knauff received his B.A. in English Literature, from Ohio University in 1950 and then attended graduate school there.

After leaving Ohio U. he came to Youngstown University for further graduate work. Mr. Knauff is a member of Omicron Lambda, honorary biological fraternity here at Youngstown University.

Foreign Students Appoint Chairmen

President Wajih Saadeh of the Foreign Student's Organization announces that John Stoides and Mrs. Diane Pappadopoulos have been appointed program and social chairman, respectively, for the present semester.

Saadeh says, "The primary purpose of our organization is to enable students from abroad attending this university to meet one another so that each may become more familiar with the others' backgrounds.

He emphasized that the group welcomes native as well as foreign students.

The group last met in Pollock House, Wednesday, February 15, at 4:00 p.m. Mrs. Pauline Boty, the guest speaker, discussed, "Minority Groups."

A midwestern newspaper recently received a warm letter from a gratified subscriber. He wrote, "about five months ago my wife ran away and left me. Immediately I inserted an ad in your Personals Column asking her to return. As yet, I have not heard from her. Bless your newspaper."

FACTS AND FIGURES

Do you think we have a good school? Many of us criticize our school for one thing or another. Much of this can possibly be attributed to the age old reason that something close to us is not appreciated as much as something that is at a greater distance.

There are a great many students who are deciding to transfer to Youngstown instead of completing their education at other schools. This could be a definite indication of the prominence that Youngstown is gaining throughout this area as well as throughout the entire state.

Some of the figures obtained from Mr. Gillespie show that this is beginning to show in the number of transfer students that have come to Youngstown in the recent past. In September 1955, 136-day students and 186 night students transferred to the University as compared to 94 day students and 172 night students in 1954.

Just this last February the number of transfers totaled 101 day students and 125 night students as compared to 73 day students and 105 night students in 1954. The figures speak for themselves.

We can also aid in increasing the enrollment at Youngstown University by pointing out the advantages of the school instead of degrading it. Be proud of your school and do nothing that will degrade it or incriminate it in any way. Always talk well of this institution of learning and you will be happier in your work.

J.E.T.

THINKING OF RUSHING?

At some time during a student's freshman days, he or she will probably be confronted with the question, "Should I join a Greek Organization?" Most likely, by the time this article is read, these freshmen will have been introduced to many members of these various organizations and will have been handed a rushing form to fill out.

Rushing is a big event in the lives of fraternities and sororities. It is their only way to meet and talk to prospective members. These organizations are not interested in the quantity of rushees, only in quality. In determining the quality of each individual, rush parties are set up.

Another purpose of rushing is for each member of the fraternity or sorority to "sell" his or her respective organization. Most freshmen do not know the first thing about the Greeks, therefore it is the obligation of each Greek to be an excellent salesman at their rush parties.

Now, from the rushee's point of view. Every rushee must beware of committing himself or herself to membership in an organization, the habits and inclinations of whose members do not match his or her own. Freshmen should not join an organization for its name alone. Individuals make up fraternities and sororities. Every freshman should get to know, reasonably well, each member of the organization.

Fraternities and sororities are the life blood of every college campus. In turn, rushing is also the life blood of the Greeks. Successful rushing campaigns are made by wide awake chapters which realize the vital aspects and high priority that rushing assumes in its overall makeup.

J.R.P.

STUNT NIGHT

A recent issue of the Kent Stater that we received here at the JAMBAR office showed the results of a stunt night. Everyone involved appeared to be enjoying himself. Several pictures were presented in the paper and the whole affair was elaborately produced.

These affairs are an annual event at Kent as well as at other schools throughout the entire country. Wouldn't it be a fine thing to have one of these stunts nights here at the University?

The system that Kent has is very good. They give awards to the best stunt by a fraternity, a sorority, independent men's group, and an independent women's group. The "Pork Barrel", as they call it, lasts two nights. This would possibly not be the case here at Youngstown, since we could in all probability complete everything in one night.

Newest Member

A co-ed who is really a sharp shooter is Mary Lou Moss, the only woman member of the Youngstown University Rifle Team.

"Pete," as she is known to her friends on campus, is a sports enthusiast who started shooting about three or four months ago. It was then that she became interested in joining the Rifle Team.

Mary Lou Moss

A Business major, Miss Moss is a transfer student from Kent University, where she was a member of the Newman Club and the Women's Recreational Association. She was graduated from Youngstown's Chaney High School.

When questioned, the male members of the Rifle Team agreed unanimously that Pete was a comely addition to the team.

Scholarships Offered For Swiss Study

Opportunities for American graduate students to study in Switzerland during 1956-57 have been made available by Swiss universities and societies and by the American-Swiss Foundation for Scientific Exchange. Closing date for application is March 1, 1956.

The Universities of Basel, Bern, Geneva (including the Graduate Institute of International Studies), Lausanne, Neuchatel, and Zurich; the Federal Institute of Technology, Zurich; and the School of Economics and Public Administration, St. Gallen; offer tuition grants.

These will be supplemented by stipends given by the Swiss educational institutions and societies under the Swiss American Student Exchange. The grants were established in 1927 in appreciation of those given by American colleges and universities for Swiss students.

Must Be Citizens

Application is open to men and women, preferably under 35 years of age. Candidates must be U.S. citizens. Other eligibility requirements are bachelor's degree at time of departure; good academic record and capacity for independent study; good knowledge of French or German; good moral character, personality, and adaptability; and good health.

Fields of study open to American students in Switzerland include architecture, chemistry, engineering, geology, physics, international law, economics, banking and insurance, as well as language and literature.

Information on the Swiss awards may be obtained from the Institute of International Education.

If red is the sign of danger, is that why no lipsticks are made in green?

Spanish Club Given Talk By Prof. Faddis

Los Buenos Vecines - Spanish Club of the Youngstown University will hold the 3rd meeting of the semester on Friday, February 24 at 8:30 p.m. in Pollock House.

President Ronald Zetterquist extends a cordial invitation to meet with the club to all University students who are interested in the activities of the club.

Continuing the program with special emphasis on Spain, the guest speaker for the evening will be Professor George Faddis of the Art department at Theil College. Prof. Faddis will give a thumb-nail sketch of the Art of Spain from its earliest manifestation to the present time.

Has Won Prizes

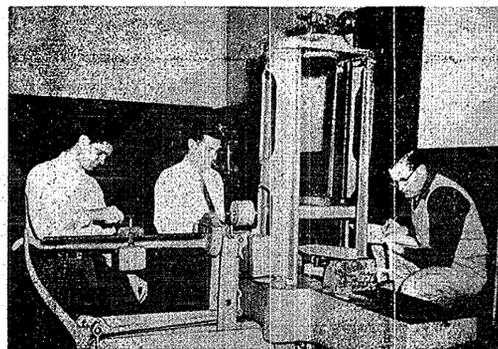

Faddis is a well known artist in the area, having won several prizes and honorable mentions in a number of Art shows in the Northeast Ohio Area. In 1951 he won the 1st prize in oils in the area show at the Butler Institute of American Art. In a recent

showing he received the Butler Purchase prize.

Professor Faddis is a specialist in enamels on metal and has won numerous prizes on his enameled pieces. He is represented in the permanent collection of the Butler Institute and in various private collections.

The Safety Director was escorting his little five-year-old son through the Zoo. Finally, he and little Johnny stood before the cage of the spotted leopard staring intently. Sizing up the situation very carefully, Johnny turned to his father and asked: "Say pop, is that the dotted lion that everybody wants you to sign on?"

Engineers Test Beam

The people pictured above are (l to r): Joseph Hvizdak, Thomas Mosure, and Michael Solomon. They are conducting a flexure test on a wooden beam on a Universal Testing Machine of 60,000 pound capacity.

Our senator will never become president of the U.S. - he doesn't care for golf or fishing.

If they keep speeding up jet planes, pretty soon they'll be traveling as fast as gossip.

Don't write home for money—write Lucky Droodles!

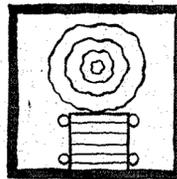

The easiest ^{\$25} you'll ever make!

A raft of students have already earned \$25 in Lucky Strike's Drooodle drive. By June, hundreds more will. Better get with it. It's like taking candy from a baby.

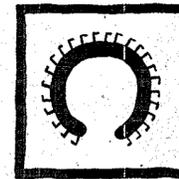

Do as many Droodles as you want. Send them, complete with titles, to Lucky Drooodle, Box 67A, Mt. Vernon, N. Y. Include your name, address, college, and class—and the name and address of the dealer in your college town from whom you most often buy cigarettes.

If we select your Drooodle, we'll pay \$25 for the right to use it, with your name, in our advertising. And we pay for a lot of Droodles that never appear in print! Talk about easy money! This is it!

THE GREEKS SPEAK Browsing Around

With George and Ernie

By Joan Pavlov

Rushing season has started for the sororities and the fraternities' should start in the near future. Al Matzye, Nu Sigma Rho, seems to have taken this business serious because last week he (I mean, his wife) added two future Nu Sigs to his roster. This now makes a total of four.

Anyone wishing to take a chance on an Easter suit, see any Nu Sig. The traditional Easter suit raffle seems to be going great for the men. Leading in sales so far is Dan Donofrio followed closely by Jack Menosky and Hermie (ball carrier) Sostaric.

The Nu Sigs held their Installation Banquet at the Little Casino. Guest speaker was a former Nu Sig. Pete Michaels, who spoke on the assets of fraternity life. A social was held in the Bombay Room after dinner. Gil Prokop finally broke the ice and cleaned house. Nick Tpeau, proprietor, entertained the group with his hand magic.

Held Rush Party

The Phi Mus held their first rush party, Feb. 16 at Stambaugh Club house. The theme was Alice in Wonderland. The entertainment was an Alice in Wonderland skit built around Phi Mu. The characters were: Alice, Shirley Haney; Hatter, Gerry Lewis; Hare, Joan Sommer, and Dormouse, Mary Jane Lewis.

Mrs. Edna Jenkins, the district president, poured. Mrs. Jenkins and some of their sisters from Akron drove down for the night.

The Kappa Sigs recently held a stag with the Phi Gams, which was a success and also on Feb. 9, a party was held with Delta Chi sorority. The party was a success with the efforts of Bruce Bond, Tom Rhattan, Johnny Pavlov and Marty Moran. Highlighting the party was the missing hat caper. Jim Nagy, who was playing the role of Joe Friday, found Nick D'Amico's hat and he had it back again.

Rush Parties Planned

They are also planning rush parties with Jim Corbett as chairman. Coming is their March date party. Plans are being made for this and Dick Griffiths says, it will be one of the best.

Joe New is writing a book after working so hard on the project of the Raffle. The name of it is "Million and One Ways To Make Money." He has already found a million but can't find that one way. Also chosen active of the month, for selling the most books of raffle tickets is my brother, Johnny Pavlov.

The Kappa Sigs also have a group of the Four Ames Brothers. They are Chuck Lehnerd, Gene Kouch, Bill McCabe and Winnie Creps. Did you see Jim Corbett's car? What kind of deal did Mary Ellen Conlin give you on that car?

Winning Games

The Gamma Sigs have been winning their basketball games. Leading the girls, as top scorer is "Leapin Lortta Liptak, with Helen Savic giving her competition. Still taking growing pills, hoping to make the team is Kay Harmon and Maggie Docherty.

The sorority held its first rush party, Feb. 22 at Pioneer Pavilion. The theme was a Mickey Mouse party. I hope no one caught their finger in the invitations, a mousetrap. Madelyn Sweeney was chairman of the party. Plans are being made for the next rush party in the near future.

Another Gamma Sig wedding is coming up. Ella Clark has set the day in June. The lucky guy is Jack Moore, a member of the Sigma Phi Epsilon fraternity.

Planning A Party

The sorority is planning an informal party with their alumni sisters on Sunday, Feb. 26 at Pioneer Pavilion. Chairman of the affair is Patty Flynn.

Recently the Phi Gam's had their

Cadets Recieve Rewards

Shown above is Lt. Colonel Hummel presenting awards to the cadets with the highest average in their individual classes. They are shown (l to r) Lt. Col. Hummel; Richard Rein, senior; Robert Mazur, junior; James Boyazis, sophomore and Raymond Biles, freshman.

Installation Banquet at the Astoria in Warren. Nine new members were added along with the formal installation of their new advisor, Mr. Gillespie. In the way of more casual affairs they had a stag for a past brother, Lt. Ed Simons of the U.S. Army and one with the Kappa Sigs. They are also planning a party with the Delta Chi's.

Congratulations are in order to Ed Zamerelli, who was chosen I.F.C. Sing Chairman. Knowing Ed, the sing should turn out very well.

Will Celebrate

Plans have been made for celebrating the Phi Gam, 30th anniversary on campus. This should be the party of all parties.

The Sig Sigs recently had a party, before Lent, at Jack Storey's. It was a quiet party with everyone watching television. Head of the Greek Sing for the fraternity is Jack Chugden and Bob Fitch.

The fraternity has been concentrating upon their first rush party of the season, which is Feb. 24, because Karl Mogg, Jack Storey, Bill Metzler and Jack Chugden have given a few things up for Lent. The boys are bypassing all temptations and really showing how much will-power they have.

Rushing Began

Rushing began for the Beta Sigs on Wednesday, Feb. 15 at Pioneer Pavilion. The theme of the party was Western and everyone came dressed in cowboy style. Entertainment for the evening included a skit, songs by Ginny Shelar, pantomime and the highlight of the evening was the Western chorus line in which a certain Beta Sig lost her skirt. A wonderful time was enjoyed by all. Co-chairman for the affair were Agnes Cassidy and Peg Kramer.

Susan Ritzie was recently elected publicity chairman for the sorority. The basketball team of the sorority was defeated by the Gamma Sigs, 21-10.

New Officers Elected

Congratulations to the new officers of Sigma Phi Epsilon. They are Bill Sponsler, president; Carl Morell, vice president; Jay Troy, comptroller; George Miller, Secretary; Fred Davis, Historian; Jack Hamley, Senior Marshall; Gene Trell, Junior Marshall; Joe

Santangelo, Guard. Best wishes for a prosperous year. The fraternity would like to thank their outgoing president, Don Phillips and the rest of the officers for the great job they have done in the past year.

Don't forget the Sig Eps Pledges Leap Year Hop which will be Feb. 25 in Strouss Auditorium. Dave Ziegler and Tim Bowser are co-chairmen. Pledges of the fraternity have been studying their manuals and eagerly waiting for that night, which is coming up in the near future.

Some of the Sig Eps who have given their pins away are Don Thorns, Bob Reesh, and John Tudhope. Woman, beware. Sam Drake is on the loose again. He has been coming home on weekends from Detroit, where he is stationed.

Lost to Kappa Sigs

Tim Abraham and Fred Anderson are working hard planning the rush season. Plans have been completed for their first party, Feb. 28. The basketball team won their game with Kovell A.C. but lost to the Kappa Sigs. Fred Davis made 26 points in the losing cause.

Congratulations from the Phi Lamps to their sister and brother, Joan Verba and Ed Zamarrell for being given the chairmanship for the Greek Sing coming in April or May.

Marilyn, Gugie and Jeannie are back in high school this semester, but this time on the other side of the desk. Kay Reilly is really getting up in the world. She was last seen standing on a ladder in the main library. You know that's the best thing for "high" dropobia.

Their first rush party of the season was a highly success - a picnic complete with rain and ants. Ask Fran Doyle how it rained. Don't ask Jan Welsh if she cares for another hot dog. She's liable to reply, "No franks."

Alpha Iota new sisters held a Mickey Mouse Party for their older sisters Feb. 7 at the home of Peggy Smith. They dressed as Mickey Mouse fans. The girls presented a play in which they pantomimed several records, including the Mickey Mouse Club Sing, and "The Merry Mouseketeers." Despite all the mistakes in the program, the play was a small success and everyone enjoyed themselves.

"What will you remember when you leave our university?" A good question, isn't it. We know what we'll remember, and you're right if you think we mean girls. Second to girls we place the cracked beer mugs we swiped from bars during our various escapades. Thirdly (pardon us punctured English) we will remember all those low grades. We have really been thinking about all these things lately and we now report to you our study on the most interesting thing we really have on this campus - PEOPLE. Simple, yes? (Take that back!)

It takes all kinds and have we got 'em. Take Jim Mangie and do we mean "take". (He sure takes us for all we're worth.) This boy is a genius. He used to be a dignified kind of guy but now he has gone berserk and got a real short haircut and big black glasses. Now he looks collegiate. In his ROTC uniform he looks like a man from outerspace but we can't all have everything. But Mangie does; he's taking book on which ROTC batteries will win the best battery competition each week and does he rake in the good green stuff.

To tell you true blue, this campus is loaded with shifty eyed persons standing around flipping key chains this way and that and all the time planning ways to separate us and our dollars.

Carl Morrell is another great guy loaded (well, not all the time) with a love for humanity and money. He has a real scheme that can't be beat. His place of business is behind the main desk in the library. He checks briefcases of students as they leave. Only his methods are not always on the up and up. He leans over the counter, whispers nonchalantly in the ear of the unsuspecting freshman and makes a real cool deal. For one old fashioned sawbuck Carl promises to slip a bottle of homemade hooch into the brief case. The poor thirsty frosh bite the dust and slip him the buck and he flings in a bottle all right, but little does poor frosh suspect he is merely getting a bottle of jazzed up mimeograph fluid.

Other bunco artists who have infiltrated our campus life by crafty means are such blokes as Tom Lavin. Lavin is a med student and is a really clever cookie. In his early inexperienced days in the lab, Dr. Marcy told old Tom (Lavin, not the cat) during his lunch break, that what Lavin needed to enhance his studies was a cadaver. (For the nonplussed, a cadaver is one who is no longer with us but put up a neck of a fight being done away with.) Lavin promptly saluted and made for the door (after all it was lunch time and Tom felt like a seasick passenger on the Queen Mary.)

Lavin in those days was still a thinker and he was looking for some genuine material. He looked around at Bill Sponsler (who's in the business and Jack Shafer, John Bradshaw, Harry Joyce, Bill Voyzey and Gene Trell but they didn't count because they were not playing fair by breathing.

So Lavin came to that perfect specimen of those who appear corpse-like, named Bob Mazur. Mazur is a tough bird whose only real frustration is that he can't fly. Mazur also talks incessantly and on top of that is an engineer. We hear that today and tomorrow the engineers are having a display and we wonder if Mazur is on display. Anyhow Lavin snuck up behind Mazur and clobbered the dickens out of Mazur's cranium with a sharpened T-square. Ha, ha - one dead Mazur!

At this moment a pang of regret struck Lavin - he had made a mistake - for Robert Hixenbaugh just walked by. Oh well, the dirty work was done.

Lavin now had Mazur but what to do with him? During his lifetime Mazur had pretty well preserved himself in alcohol, for better storage, and Lavin lost interest and will soon no longer be with us ("Goodbye Youngstown; Hello Sing Sing.)

The real racket on this campus consists of deals on books. There are some students around this little dairy farm of ours that have NO scruples. Can you imagine, for the example, the cheap trick that Rosemarie Fintor pulled on transfer student Ann Praznik by selling a book on a 215% commission. Are there no real goodie-goodie persons left around here? And, we warn you carefully, watch that Judy Barrett. There is a girl who thinks all the time. She sold a freshman girl, Judy Millard, a used apron under the pretense that our beloved home of intellectuals was the home of a haven for processing home brew being run by that noted scholar, "Chuck" ("we pour mud in your eye") Yeaton.

But the most organized group of specialists in filching money through entirely unethical means are those music students up at Dana. They sell instruments by the score to everybody who comes along under the guise, "You too can be like us." On top of that they even give lessons on trap-door drums and there's a real market for leader's batons that have been broken in a fit of musical delight and later patched up by Scotch tape for beginners.

There are always people like Ed Maykowsky and Ed Goldstein who corner the recital audience in the hallways on Wednesday nights and sell popcorn so that the whole audience will crunch away like mad and thereby Ed and Ed will corner the market on listenable recitals by entitling their own "The Snapless, Crackles, Popless Duo."

Well, well, well, the testing office deserves exploration on our research trip. There ought to be an investigation of the place. Betsy McClurkin and Barb Brezovcek really have the racket. They are now running off real gems for the home economics courses by copying "King Forouk's Cookbook For Spicy Dishes." This they sell for \$3.36 per autographed copy to freshmen girls like Mary Jane Hodor, Pat Gubany, Mary Veauthier, Janet Simpson, and Peggy Murphy.

Ever want to learn Spanish? Then see Kay Reilly, who's a major in languages. She spends all her time at the penny arcade making records for a quarter a throw on "How to Dance the Cha, Cha, Cha." This is interesting listening, we can clue you in and better yet she sings. And can this girl sing. Dana could use a girl like this.

Win Ten Dollars Name Lit. Mag.

Much work for the University's Literary Magazine has been completed. Material is coming in. The printer's ready to start setting type, but as yet, IT HAS NO NAME.

A brand new, crisp, lovely TEN DOLLAR BILL will go to the student who furnishes the most suitable name for the new publication. That person could be you!!

Rules Listed

Contest rules and submitting procedure are simple:

- 1) All entries must be submitted by students of this University.
- 2) A student may submit more than one entry.
- 3) All entries must be in the boxes by 10 p.m. Friday, March 2, 1956.

Simply write your name, address, phone number, the name of your choice, and the reason you feel the name is appropriate on a sheet of paper, then drop it into one of the contribution boxes.

Boxes are located on the front desk of the University Library; and in the main hall of the Main Building, across from the registrar's office.

Announcing Procedure

Entries will be judged by the editorial staff. The winner's name and his entry will be announced in "The JAMBAR", March 9. The winner will receive his prize the same day.

Material for publication is now being accepted. All such material must be placed in the boxes. Rules listed on the boxes should be complied with.

Dennis Byron has been named business manager for the magazine.

Women's Interviews

All new freshman women and women transfer students are asked to come by the Dean of Women's Office, Room 210, Main, to sign up for an appointment with the Dean of Women. Also, any second semester freshman who did not come by last semester are urged to have their interview as soon as possible.

Korean Student Studies Here

A new addition to the student body of Youngstown University is Kim Young Sung, a 24-year-old student from Seoul, Korea.

Kim's coming to Youngstown University was a chance of fate. He had met an American soldier, Richard Webb, who was serving in Korea, and who became Kim's friend and private tutor. Webb's mother is a graduate of Youngstown University, and in this way Kim became interested in receiving his education here.

Kim applied for admission to Youngstown University in early 1955, and Mr. P. T. Buchanan, the registrar, sent him the necessary information and forms to complete his admission.

The Ruritan National Club, an organization whose purpose is to bring foreign students to the United States to attend college and learn the American way of life, is one of Kim's sponsors while he is here. His other sponsor is Dr. C. Worley, head of the University Biology Department. Kim's present residence is at the home of Dr. and Mrs. Worley.

The young Korean is well adjusted to American college life, and is already active in the Religion in Life Club and Foreign Students Club. A student in the School of Business

Administration, Kim hopes to obtain a position in the government of South Korea, when he returns home.

His impressions of the United States are very favorable ones. He especially likes the friendliness of the American people, and praises the Youngstown University faculty for being of such great help to him.

First Religious Emphasis Week Draws to Close

Youngstown University is observing its first annual Religious Emphasis Week from February 19 through February 26 with an inspirational program of activities scheduled throughout this week for students, faculty, and staff members.

The opening convocation of Religion in Life was held Sunday, February 19, at 8 p.m. at the First Christian Church when Dr. Alfred B. Starratt of Emmanuel Episcopal Church of Baltimore, Md., and former chaplain of Kenyon College was the principal speaker.

Students and faculty members of the University attended this meeting. The Newman Club held its regular bi-monthly meeting at the Catholic Action Center at 8 p.m. on the same day.

Offered Talk

The Rev. James Channell, vice chancellor of the Diocese of Youngstown and residence priest of Sacred Heart Church of Youngstown, offered the talk and benediction at a noon meeting held at St. Joseph's Church, Monday.

On the same day Dr. Starratt spoke at a noon luncheon at the First Christian Church to the Bible Study groups of Religion in Life and at an 8:30 p.m. meeting at the home of the chaplain, the Rev. Albert L. Linder and Mrs. Linder, 634 Bryson St.

Dr. Starratt led an informal discussion on coed problems. Women students of the University were guests of the Rev. Mr. Linder and Mrs. Linder.

Miss Betsy Barker, a Danforth graduate, formerly on campus at Bowling Green State University, was counselor for girls during Religious Emphasis Week.

Newman Club Met

The Rev. Mr. Channell talked again to Newman Club members and other students at St. Joseph's Church Tuesday noon, February 21. At 6:30 p.m. on the same day, Trinity Methodist

Church was host to all full-time faculty and administrative members and their wives and husbands at a dinner with Dr. Starratt the speaker. At 9 p.m. Dr. Starratt held an informal discussion at a meeting of men students of the University at the home of the chaplain, The Rev. Mr. Linder.

Wednesday, February 22, simultaneous chapel services were held at 11 a.m. for all students, staff and faculty members of the University at St. Joseph's Catholic Church and St. John's Episcopal Church.

Services Held

The Rev. Mr. Channell spoke at St. Joseph's and Dr. Starratt spoke at St. John's.

The annual Religion in Life Fellowship dinner for members and their friends will be held on Friday at 6:30 p.m. in First Baptist Temple. The speaker will be Dr. E. W. Bloomquist, minister of the Temple.

Catholic students and faculty members will observe Cardinal Newman Day and Day of Recollection, Sunday, February 26 at the Immaculate Conception Church. The day's program will open with a 10:30 Mass and Day of Recollection services conducted by the Rev. James Malone, superintendent of schools of the Diocese of Youngstown.

The Rev. Mr. Malone will hold conferences at 1 and 2 p.m. and there will be Holy Hour Services from 3:30 to 4:30 with the Rev. Mr. Malone as guest speaker. A spaghetti dinner will follow in the parish hall.

Some folks couldn't have a brain hemorrhage for the same reason that a snake couldn't have water on the knee.

Newman Club Observes Cardinal Newman Day

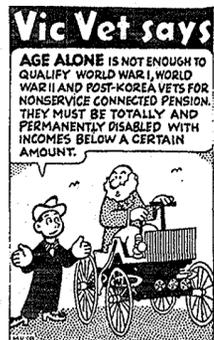

Catholic students participation in Religious Emphasis Week will be climaxed by Cardinal Newman Day on February 26. The students, in naming this day, are commemorating the 154th anniversary of the birth of the patron of this organization, Cardinal Newman.

The schedule for the day will be as follows:

- 10:30 A.M. - Mass and Communion
- 11:30 A.M. - Combination Breakfast and Luncheon
- 1:00 P.M. - Conference
- 2:00 P.M. - Conference
- 3:00 P.M. - Holy Hour
- 4:30 P.M. - Spaghetti Supper

The main speaker for the occasion will be Father James Malone. All Newman Club members are urged to take an active part in this celebration.

BOY PROPOSING TO GIRL -
I wish you were wealthy, so I could give you all the things you'd like to have.

For full information contact your nearest VETERANS ADMINISTRATION office

The lady of the house summoned a TV service man to fix the set. Spreading out his tools, the repairman inquired, "What seems to be the trouble?"

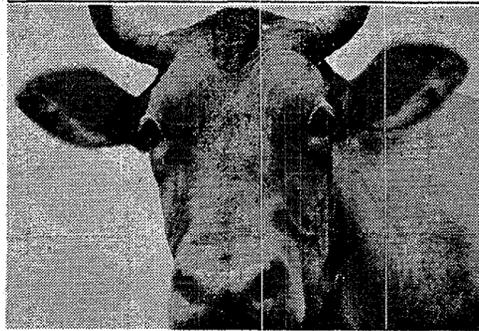

Replied the little woman, "Well for one thing, all the programs are lousy!"

Education may help you get ahead, but marrying the boss' daughter is faster.

J. Paul Sheedy* Was An Udder Failure Till Wildroot Cream-Oil Gave Him Confidence

The boys were having a bull session in Sheedy's room. "It's no yoke," beamed Sheedy. "Heifer-y girl I ask for a date turns me down flat." Then Sheedy's roommate spoke up: "There's good moos tonight J. Paul. Try some of my Wildroot Cream-Oil on those cowlicks." Sheedy did and now he's the cream of the campus. Wildroot keeps his hair handsome and healthy looking the way Nature intended... neat but not greasy. Contains the heart of Lanolin, the very best part of Nature's finest hair and scalp conditioner. Get Wildroot Cream-Oil, America's largest selling hair tonic. In bottles or unbreakable tubes. Gives you confidence... you look your best. There's no udder hair tonic like it.

* of 131 So. Harris Hill Rd., Williamsville, N. Y.

Wildroot Cream-Oil gives you confidence

BROWSING AROUND

Continued from Page 4

Celebrities (or "the friends of the little people on campus") really have the racket. Take those former Queens of this and that, like Tessie Todarello, Ruthie Navin, Shirley Pitts, Jan Welch and Kay Harmon. The girls formed a union and went out to Rayen Stadium New Year's Eve and picked up all the shakeros and rattles left over from Homecoming and are now selling these useful gadgets to students using the slogan, "Get one early for next year." An autographed picture signed, "Did I get your vote, you bum," comes with the deal as a bonus.

As new columnists, we want to get on your good side so we'll let you in on a real secret. Our new "Chief" Big John low-on-the totem-pole-Tudhope is planning to lasso the loot by charging money for this paper. A racket, isn't it? The reason we're squealing is that in the process of thinking this dirty deal up to foist on the poor student body, he refused to cut us in. Be good and stay away from wooden cigars and Indian nickles.

P.S. - Any resemblance to persons living or dead is NOT COincidental.

Dutch Study Offered To U. S. Students

Three fellowships for graduate study in the Netherlands during 1956-57 are available to Americans.

The awards, offered by the Netherlands Government, are named the "Hendrik Willem van Loon," "Edward W. Bok," and "Hendrik Anton Goeman-Torshiana" fellowships. Each award carries a cash stipend of 2,250 guilders, enough to cover room and board expenses for the academic year. Tuition fees are waived.

Grantees should have funds to pay their own travel and incidental expenses. They may, if eligible, apply for Fulbright travel grants to cover the cost of international travel. Closing date for application is March 1, 1956.

The fellowships are open to men and women, preferably under 28 years of age. Eligibility requirements are: United States citizenship; a bachelor's degree by the time of departure; good academic standing and capacity for independent study; good moral character, personality and adaptability; and good health. Some knowledge of the Dutch language is desirable but is not a prerequisite for these awards.

Many Fields Open

Fields of study open to American students in the Netherlands include Dutch language and linguistics, Dutch history, Sinology, history of art, archaeology, technical and natural sciences, economics, business administration, and agriculture. Other fields, such as international law, may be open to students who have an adequate knowledge of the Dutch language.

Institutions at which successful candidates may study include the Universities of Amsterdam, Leyden, Groningen, Utrecht; Free (Calvinist) University, Amsterdam; Roman Catholic University of Nijmegen; Institute of Agriculture, Wageningen; Institute of Technology, Delft; Institute of Commerce and Economics, Rotterdam; Roman Catholic Institute of Commerce and Economics, Tilburg.

Applications may be obtained from the United States Student Department of the Institute of International Education.

What is the best way to pick a name for a child?

Go through the encyclopedia, write to newspapers, ask your friends for their suggestions - by that time your wife will already have a name picked.

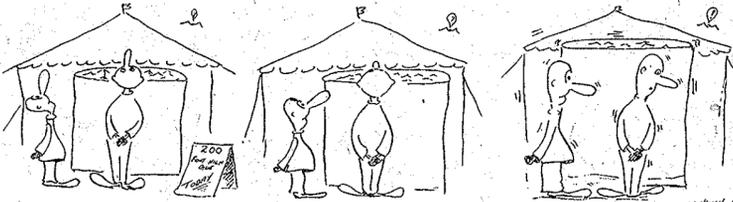

New Chemistry Instructor Joins Faculty

Donald H. Ashmus has joined the full-time faculty at Youngstown University as an instructor in chemistry and chemical engineering. Before coming to the University, Ashmus was employed at the Redstone Arsenal, Huntsville, Ala.

A graduate of South High School, Ashmus attended Youngstown University, received his Bachelor of Science degree in Chemical Engineering from Purdue University in January 1953 and his masters degree from Purdue in January 1954. Ashmus is married and lives at 4536 Simon Road.

Nothing causes more alibis than a black eye.

Scholarships Offered To High School Seniors

Youngstown University is offering 100 scholarships to high school seniors who take the competitive examinations being held in the University library next Tuesday, February 28.

Over 300 students are expected to take the exam, which will be given three times; 9:00 a.m., 1:00 p.m., and 7:00 p.m. Department heads and professors will be on hand to advise the students and answer any questions they may have about the University and college life in general.

Following the test, the students will be taken on a tour of the campus, and will be entertained at a tea in the President's home.

New Phys. Ed. Club Formed At University

The Physical Education Club, a new organization being formed for students majoring and minoring in physical education, today ended the first week of its membership drive.

All P.E. majors and minors are invited to join the new association, according to Dr. Earl S. Durand and Miss Patricia Lowry, faculty advisors. It will be professional and social, with emphasis on the professional aspect.

Joe Nudo is president of the club, Dolores Crisucci, vice president; Loretta Liptak, secretary; and Tony D'Asentis, treasurer. Meetings will be held once a month, on the first Tuesday of each month.

During the current membership drive, which will end with a co-recreational swimming party on March 6, a representative will visit each major and minor class to give students a brief explanation of the group.

BEHIND LOCKER ROOM DOORS

By Don Infante

It has been rumored that Youngstown University this year is going to have a track and baseball team. Since we of the JAMBAR realize that you, as a student, are naturally interested, we have this week uncovered the facts on this question.

To do this we visited athletic director Willard Webster. "Will" has been with the University since 1938, and has been athletic director since 1946. In our opinion, Mr. Webster is to be commended for doing an excellent job.

Mr. Webster was very co-operative and gave us first hand information on all that we asked of him. From him it was learned, much to the disappointment of everyone, that there will be no baseball or track this season. You are probably wondering why this let-down.

Financial Status

First, let's look at the financial side of it. Although it is believed the University administration will cooperate on whatever asked, the financial problem is still a doubtful question. Since we have no baseball or track equipment required for these sports.

It was estimated that at the minimum, it would cost \$1,234 to start a track team. This includes only such bare necessities as hurdles, shoes, and etc.

Baseball also would run into a considerable expense. It is known that twenty uniforms, consisting of pants and shirts only, would run \$959.40, plus also bats, balls, and catchers equipment.

Other Difficulties

Looking at track troubles we immediately see the problem of a track that is suitable for college meets.

Remembering back a few years ago, in the era of Ralph Goldston, Philadelphia Eagles star, when Youngstown University did make an attempt at a track team, the biggest problem was getting Rayen track for practice.

Therefore the Penguins are going to have to have a track before they can really have a track team.

However this is not far in the coming, and it has been reported that the land that the University owns out by Churchill is ideal for a track and that we should have our track by next season.

Baseball In Same Fix

Baseball is in much the same fix as track, although here the biggest problem seems to be financial, since there are many fine baseball diamonds in the area.

It was thought we were to have a baseball team this season, but due to the difficulty of scheduling games at this late date, coupled with the fact that the baseball season would be half finished before a Penguin team was fully organized. Therefore it has been deemed advisable to wait until next year.

However, all Penguin students have something to look forward to next season and to quote Mr. Webster: "I will pursue both and by this time next year, have both."

Once Over Lightly

By Vince Golle

The curtain falls on the basketball season tomorrow night. Fans will have their last opportunity to see the Penguins, sparked by Tony Knott, in action. Baldwin-Wallace will be the foe, with Coach Dom Rosselli's cagers closing on the road. Baldwin-Wallace beat Y-U in their last meeting, and the boys will be out to reverse the decision.

Bear Akron U.

Probably the most exciting and hardest fought for victory for the Penguins was their '64 nod over previously undefeated Akron. The Akronites came thundering into town boasting 16 straight victories, and it took just two seconds to stop it.

With two minutes remaining in the game, Coach Dom Rosselli sent Charley Bushman in to replace Paul Danilov. The ball exchanged hands and with two seconds left, Bushman let loose a 15 foot set shot that was the margin of victory.

It was Tony Knott Night and Tony managed 30 points to pace the Red and White.

In a real thriller Adrian beat Youngstown 87-86, with Tony Knott meshing 31 points and passing the 2,000 point circle. Youngstown had beaten Adrian in the first meeting.

Youngstown Romps

The Penguins had an easy game with Wilberforce, winning 101-65. Knott got 32 points, Atterholt 27, and Herb Lake 20. After the first half, the Penguins almost shot at will!

Alliance proved no match for the Penguins losing 90-70. Tony Knott paced the win, managing 20 points while Herb Lake got 18. Lake is currently adding to his new record for points scored by a first year man.

Gain 12th Victory

After trailing 47-40 at halftime the Penguins came fighting back in the second half to drub Slippery Rock State Teachers College 98-80. Tony Knott and Bob Atterholt featured for the Red and White.

The Rockets hit on about 55 percent of their shots in the first half which gave them their early lead, but after Knott and Lake began to hit in the early seconds of the second half, Y.U. went ahead 51-47. The Penguins went on to win after Tony Knott fired in 26 points and Atterholt netted 22.

The win over Slippery Rock marks 12 victories for Y.U. St. Vincent of Latrobe, Pa. and the Baldwin Wallace Yellow Jackets play host to the Penguins in their last two games of the 1955-56 Basketball season.

Bowling Team Travels To Toledo

Youngstown University will be represented at the University of Toledo Intramural Bowling Tournament to be held March 24-25.

The top six bowlers of our intramural bowling league will form a team to enter in the tournament. They will participate in the singles, doubles, and five-man singles.

Teams representing Y.U. have previously won first place team honors at Erie in 1950 and first place team honors at Pittsburgh in 1951.

MAN SHOUTING AT HIS MOTHER-IN-LAW - "Someday you're gonna go to far - and I hope you stay there!"

Television is just a radio with a shoe shine.

Hernando's Hide-away

By John Hernandez

Tomorrow night Tony Knott plays his last game for Youngstown University. When the final buzzer sounds it will end the career of a great guy and a great sportsman.

All of us, students and teachers, have tried to convey to Tony our appreciation for all he has done for the school, the team, and most important what he has done to make Youngstown University a powerhouse in the eyes of sports fans. Student Council awarded Tony a gigantic trophy for his cage efforts.

Suit is Retired

At an interview with Coach Dom Rosselli, this writer suggested that Tony's number should be retired in his honor. Mr. Rosselli quickly consented to this and said, "Next year when basketball season begins, No. 16 will not be handed out."

Someday when we have our new gym and possibly a trophy room, No. 16 will shine among all the gold and brass monuments. There will be a story behind it. We who remember Tony will point our fingers with pride at No. 16 and tell bewildered freshmen the story of Jumping Tony Knott.

Year of Broken Records

This seems to be the year for breaking records. Herb Lake, a freshman from Midland, Pa. has broken the record for points scored by a first year man.

Lake broke the old record of 308, held by Mike Magula, playing in the Westminster game. Every point scored since then has set a new record.

Lake is fast developing into a scoring wizard and with Tony Knott graduating, he may be the answer to Coach Dom Rosselli's worries. Besides being a great scorer, Lake is a terrific rebounder.

Newmans Pace League

By Al Mike

Champion alleys, the scene of action every Sunday for Dom Rosselli's Intra-Mural Bowling League, has been going at full pace for the last three months. TGIF are first half champs, and Newman Club No. 1 leads the second half with three more weeks to go.

Action on February 5 was low except for the big match between Newman Club No. 1 Alpha Phi Delta. Newman's routed the Alpha Phi team, 4-0. Ed "Booty" Wall and Al Mike had 565 and 513 respectively, as the team hit a 2,418 set. Alpha Phi's high men were Moronti 506 and Traveline 505. Both teams were previously tied for first place.

ROTC No. 2 upset Kappa Sigma Kappa 4-0 despite a nice 522 set by Joe Shiffer. Colton's 538 paced ROTC No. 1 to a 3-1 win over Phi Gam No. 1. Hernando's downed Newman Club No. 2, 4-0, and TGIF triumphed 4-0 over Phi Gam No. 2.

Bowling was at a heavy pace February 12 as the league race got very close when TGIF scored the upset of the evening, topping Newman Club No. 1, 3-1. Dick Yankel had 208-558 for TGIF. Pallante helped with 501. Newman's two most consistent men were tops again as Ed Wall had 230-570 high for the evening, and Al Mike supplied a 515 set.

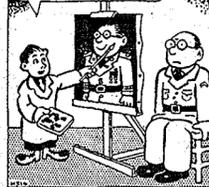

Kappa Sigma Kappa routed Phi Gam No. 1, 4-0 without anything too sensational. Alpha Phi Delta lost the first game by three pins then went on to easily defeat Newman Club No. 2, 3-1. ROTC No. 2 downed Phi Gam No. 2, 4-0, and ROTC No. 1 defeated Hernando's 3-1 as Colton, Stelmack, and Safraneck featured with 556, 534, 515 in that order. The team scattered the maples for 2,432 pins.

Newman Club No. 1 hangs onto the lead with 18 points followed by Kappa Sig 17, Alpha Phi 16, ROTC No. 2, 14, TGIF and ROTC No. 1, 13, Hernando's 12, Phi Gam No. 1 and No. 2, 6, and Newman Club No. 2, 2 points.

A synonym is a word you resort to when you aren't sure how to spell the first word.

A.S.M.E. Elects New Officers

The American Society of Mechanical Engineers recently held elections for office and those elected are as follows: Robert N. Martincic, President; Wallace S. Grist, Vice-President; H. Jay Walter, Treasurer; Jack O. Korpela, Recording Secretary; and William Klucher, Corresponding Secretary.

The purpose of the A.S.M.E. is to grant an annual award to the outstanding graduate in mechanical engineering. In addition, awards made possible by Mr. Henrik Ovesen, a life member of the society, are given to the two students with the next highest standings.

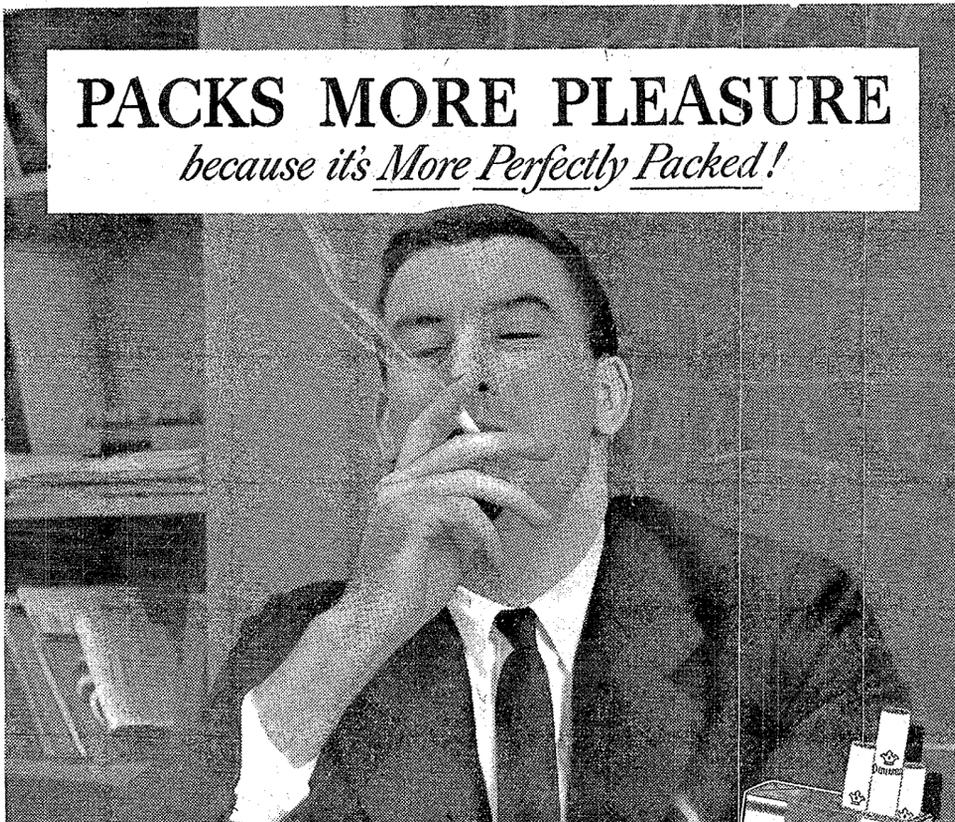

Positions Available In Federal Agencies

There is an urgent need for Chemists, Mathematicians, Metallurgists, Physicists, and Electronic Scientists in the Washington, D.C., area, the United States Civil Service Commission has announced. Vacancies are in various Federal agencies and pay salaries ranging from \$4,345 to 11,610 a year.

To qualify for positions paying \$4,345 a year, applicants must have had appropriate education or a combination of education and experience. For the position of Electronic Scientist, appropriate technical or scientific experience alone may be qualifying. For higher-grade positions, professional experience is also required. Graduate study may be substituted for all or part of this experience, depending on the grade of position. No written test is required.

Further information and application forms may be obtained at many post offices throughout the country, or by writing to the U.S. Civil Service Commission, Washington 25, D.C. Applicants should ask for Announcement No. 46 (B). Applications will be accepted by the Board of U.S. Civil Service Examiners, National Bureau of Standards, Washington 25, D.C., until further notice.

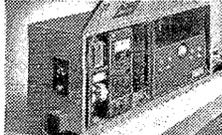

A 12-year-old boy wrote to the Library of Congress asking for two books, one on sane living, and the other about space travel. His letter explained: "I'd like to have both, but if you can't send me both of them, send me the one on space travel, because I'm more interested in that."
