VOLUME 35, NO. 7

Eagles Honor President Jones As "Humanitarian of the Year"

University Trustees Elect S & T Head As Board Member

At the last meeting of the University Board, A.L. Glossbrenner, president of the Youngstown Sheet and Tube Co., was elected to the board of trustees. The officers of the board were all re-elected including Walter Bender, chairman of the board, The General Fireproofing Co., chairman; J. Lester Mauthe, chairman of the board, The Youngstown Sheet and Tube Co., vice chairman; Dr. John N. McCann, physician, vice chairman; Charles G. Watson, president, The Youngstown Welding and Engineering Co., vice chairman; Carl W. Ullman, president, The Dollar Savings and Trust Co., treasurer; and Hugh W. Manchester of the law firm Manchester, Bennett, Powers and Ullman, recording secretary.

William F. Maag, Jr., editor of the Vindicator and chairman of the library campaign sponsored by the Friends of the Youngstown University Library, reported that the campaign was making very good progress, especially with the help of the Youngstown University student campaign which has contributed \$4,000. Maag said that there are a number of gifts still to come from industry and from individuals who are regular contributors to the library.

Dr. Jones, president of the university, reported on the progress of the new \$1,400,000 science building and said that from all present indications it should be completed by the end of May and ready for occupancy by September.

Dr. Jones reported that during the past year more than \$300,000 has been contributed to the university by individuals, industry, business and other interested groups.

HONORED: "Behind every institution in the length and shadow of one man." With these words the Eagles, Youngstown Aerie 213, honored President Howard W. Jones as the "Humanitarian of the year". Local president Bill Brindel makes the presentation.

Cite Dr. Jones' Loyalty In Giving Highest Award

In an act of appreciation for his unheralded efforts as president of Youngstown University, The Youngstown Eagles, Aerie 213 honored Dr. Howard W. Jones as "Humanitarian of the Year", at the 57th Anniversary banquet held on March 21.

Dr. Jones was awarded a bronze wall plaque and a citation which reads in part: "President Jones has served his community and Youngstown University through hard work, education, self-sacrifice, all with no thought of public acclaim."

Highest Possible Award

The Humanitarian Award is the highest honor the Eagles can bestow upon an outstanding member of the community. Dr. Jones is the fourth community leader to receive the award.

When introducing Dr. Jones, toastmaster Harold Shell recalled a quotation by Emerson which he applied to Dr. Jones. The quotation reads: "Behind every institution is the length and shadow of a man."

In addition to Dr. and Mrs. Jones several local and state dignitaries including Mayor Frank X. Kryzan, an alumnus of Youngstown University, and Senator John Carney. There were 300 Eagles in attendance.

Vets Eligible For Savings On Insurance

Veterans of the post-Korean and Korean War periods, whose insurance policy numbers are preceded by the letters "RS", may be able to realize a savings of up to two-thirds in their GI insurance costs.

These policy holders may exchange their present five-year term policies for new term policies that carry the same face value at a greatly reduced premium cost. These savings are made possible by a continuing improvement in mortality rates resulting from the lengthening life span.

Holdings of the present term policies also have several plans of permanent insurance to which they can convert immediately. However, the premiums for permanent plans, while they never increase, are in a higher bracket than term insurance.

"Y.U. SHOW" BALLOT

SELECTION.....

ARTIST.....

Place this ballot in the box located in the library entrance, and tune in the "Y.U. Show" every Sat. morning at 11 o'clock on WBBW radio.

Dr. Evans Attends Biology Conference

Dr. Evans of the Biology Department attended the Ohio College Biology Teachers Conference recently.

Such issues as educational T.V. programs were discussed, group discussions took place which resulted in the selecting of certain objectives by the teachers from the ideas presented by other professors in the discussion groups.

Student Council...

Question of Honor System To Appear on Issues Ballot

This is the first in a series of articles in reference to the questions which will be placed on the ballot at the issues election to be held in the near future. The purpose of these articles is to acquaint the students with the background of the topics involved in order that they may vote intelligently. The results of the balloting will be an indication to Student Council of the student opinion, but in no way constitute a final decision on the matters.

The moral standards of American students are at their weakest with regard to cheating. The practice is so wide-spread as to challenge the world wide claim of students that they value honesty as a virtue. Frequent cheating is admitted by 40% or more at a large number of colleges, often with no apology or sense of wrong-doing. Although no survey to determine the percentage of cheating at Youngstown University has ever been taken, you know that it is done and that it is wrong.

Under the Honor System you are on your HONOR not to cheat; and if you see another student doing so you are on your HONOR to report him to the appropriate authority. The Honor System is not just another approach to the problem of conduct, but it is a part of the University's educational philosophy. Its peculiar merit is not as a system of control but as a means of teaching the lessons of honesty and self discipline.

"Establish Trust"

"But I just couldn't tattle on my best friend ... I can't break faith with the gang" may be heard. These statements contradict our basic

Students Elect Sandy Bailey Junior Prom Queen; Dance Tonight At Idora Park

Amid the beautiful setting of "April in Bloom" the 1959 Junior Prom Queen of Youngstown University will be crowned at the Junior Prom tonight at the Idora Park Ballroom.

Beautiful Sandy Bailey will be crowned on the special coronation

1959 JUNIOR PROM QUEEN

platform which is a feature of this year's Junior Prom. She was elected by a campus election held March 30, 31.

Members of her court will be Kate Whitford and Betty Lou Storey.

Dance 9 to 1

Co-chairmen Frank Guarnieri and Gene Lupi have announced that the Warren All-Star Dance Band will play for the affair from 9 to 1. Disc Jockey Johnny Andrews will serve as guest M.C.

Admission is by activity book.

The co-chairmen also added that since this will be the first school function since the Lenten season began, expectations are high for a huge turnout of students.

Beil Chosen to Represent YU at New York Conclave

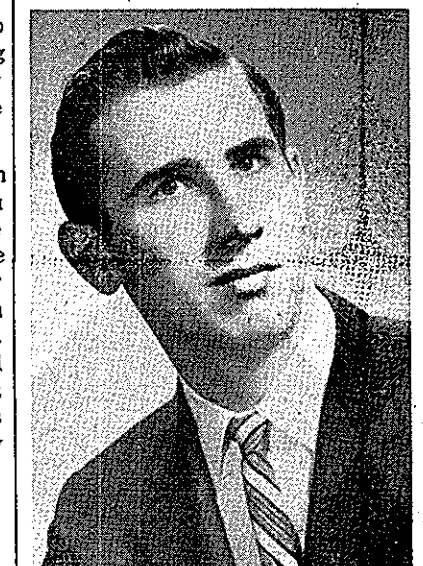

E. Carl Beil, a senior in the school of Business Administration, has been selected as the outstanding advertising student at Youngstown University. He will represent the University and Alpha Mu Honorary Fraternity at the

ninth annual Inside Advertising Week meeting being held at the Biltmore Hotel in New York from April 5 to 10.

Beil is the son of Mr. and Mrs. Earl C. Beil of 1171 Park Hill Dr., Youngstown. He is a graduate of Ursuline High School.

Active on campus, Beil is treasurer of Alpha Mu advertising, Public Relations, and Merchandise fraternity, a member of Newman Club, Theta Chi Fraternity, and a former basketball manager.

Beil intends to fly to New York on Sunday, April 5, and remain until the April 10 closing session. Upon his return he will address the senior advertising class and Alpha Mu Fraternity. A 1,000 word paper will also be submitted to A.A.M.&W, a national association of advertising people. The school sending the winning representative will be awarded a \$100 prize.

E. Carl Beil ...

Add Course on Charity

Many students around our campus act with the idea that pride is not a matter of principle or distinction. Where they ever got this notion is unsolved. Surely, the administration has never taught this as part of the curriculum.

Take a look at the desks in every classroom. They look like the bull's eye of a dart board rather than the seats where the brilliance and intelligence of the students sit.

Perhaps a course should be added to the catalog entitled "Christian Charity, 106". This course would be taught under the idea that it is a principle of charity that desks not be marked and defaced because this is unfair to other students.

The situation has become serious in some cases. New desks and tables have been almost completely rendered useless because of the carvings on them. Replacing these fixtures requires money that could be used for other things.

Legislation could be passed to attempt to curb this action, but it probably would be ineffective. The solution lies with each and every student to conduct himself as an adult.

Concerning Nostradamus

A feature article recently printed in THE JAMBAR told of the predictions of the prophet Nostradamus and it goes without saying that these predictions were shocking.

THE JAMBAR office has had many responses to this article; not only from Youngstown students, but from people outside the school. The interest shown is encouraging because it shows that people at least read the front page of THE JAMBAR and are concerned about the predicted clash between our country and the Soviet Empire.

Printing an article such as this can prove to be dangerous, because although the prophecies of Nostradamus may have come true in the past, you the reader, must delve below the surface of his writings and not take them at their face value. The writings of Nostradamus have been translated by many scholars and they all reach divergent conclusions.

It is good to see the interest provoked by this article, but it is hoped that as college students you will not panic before some thoughtful consideration of the many implications involved with these writings.

Answer to Post Magazine

Initial reaction to the Saturday Evening Post article written by Jerome Ellison entitled "Are We Making A Playground Out of College?" was probably very comforting to its author. Undoubtedly he had a double purpose when he wrote this article .. to cause a violent reaction and to make money.

First, it should be mentioned that although his article might apply to a campus school, it has no bearing whatsoever on a school such as Youngstown University. We are not a campus school. Therefore, the students that attend our university must live either with their parents or in boarding houses. This closeness to family supervision prohibits to some degree the ability for our students to get out of hand.

Secondly, it is questionable that our students do not realize the hazards of neglecting their studies. Unofficially, around 80% of our students have outside jobs which they must keep in order to pay their way through school. A student in this situation is not apt to forget the injustice he does to himself by not getting the most for his money.

Thirdly, the students who are fortunate enough to have their education paid for desperately attempt to give our campus a "big-school" atmosphere. We doubt that this is a serious problem. Elections, parties, traditions, socializing, and fraternizing all have their place in the university and have had since the inception of the university system. They are needed for school spirit and to bring forth students to conduct the "traditions of the alma mater."

The majority of our students are serious minded individuals striving to educate themselves. They are also human beings, and as such are susceptible to the urge for fun and joy of life. We cannot crucify these people for their taste for living.

JAZZ . . .

. . . My Beat

Lynn C. Newland

Music is not the only form of communication jazz has with the public. Jazz has now incorporated with the written word in the form of poetry.

Jazz and Poetry

Jazz and poetry is the newest form of creative expression in the music world. It involves the reading of poetic verse along with a background of jazz music. One of the notables in this field is Kenneth Patchen. Mr. Patchen is a native of Warren, Ohio and has many friends there. He now lives in California.

Rock and Roll Not Jazz

Last week I mentioned that rock and roll is not a form of jazz and for various reasons. First of all, the lyrics sung with rock and roll is a combination of country and ballad styles. Secondly, rock and roll music is always idealistic, whereas jazz is more abstract. Last of all, rock and roll is always played in a set musical pattern; jazz often varies from the melody of the tune. I am not advocating the abandonment of rock and roll, I am merely pointing out the differences to be found between these two forms of music.

Jazz in this Area

Although New York, Chicago and San Francisco are considered the jazz spots of the country, we have several fine jazz clubs in the Youngstown-Cleveland area. Cleveland offers the Modern Jazz Room, which is strictly for listening and the Theatrical Grill which is primarily a supper club, but also features well known jazz artists.

The Twilight Lounge in Youngstown offers a jazz combo in the Shearing style. The Fez Club in Warren features the vocal stylings of Miss Diane Georges, a Y.U. freshman, every Friday night.

Will Conduct Social Activity Survey Soon

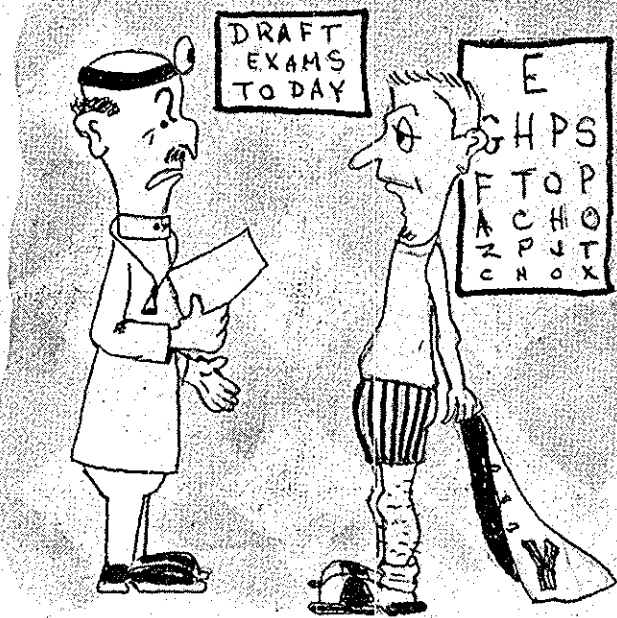

Measuring the social participation of Youngstown University students is the aim of the Sociology 406 class in Social Research. To accomplish this, a survey will shortly be conducted through questionnaires sent to a number of students selected at random by IBM machines. It is hoped that the results can be tabulated before the end of the semester.

Because such a research project is a course requirement, it will carry the authorization of the Sociology department and Youngstown University.

Since the number of questionnaires is relatively small and the students answering will remain anonymous, it is important that each student receiving a questionnaire answers and returns it promptly. Only in that way may the project result in interesting and useful information not only to the class but possibly to the entire University.

If the methods used are scientifically sound, the results will be an indication of the whys and why nots of student participation in University activities. Those receiving questionnaires are encouraged to use the comment space freely to express their opinions about social participation here on campus.

Hopes are that the results will be an organized step toward hearing the student voice in this matter and that the "voices" will speak for the larger student body and may lead to a more accurate basis for opinions and action by student leadership in this area of our university life.

You've got a physical disability . . . "no guts" !!

Letters to the Editor...

Student Points to Magazine Article About College Life

Dear Editor:

If you want to read an interesting article on just what others outside of our Universities and colleges think of our curriculum, then read the recent Saturday Evening Post article by Jerome Ellison, titled, "Are We Making A Playground Out of College?"

The story has concluded that campuses are marriage mills and fun factories, more devoted to beauty queens than a higher education, and it's an expensive proposition for parents.

This controversial article should produce quite an uproar from students across the United States and from parents who have let the situation get out of hand.

The author of this article is far from a novice of the campus problems. He was formerly editor of the Michigan Gargoyle and the Zeta Psi fraternity magazine and has three daughters who have attended college.

The Second Curriculum, he describes as "that odd mixture of

stature hunger, voodoo, tradition, just stereotyped dissipated love, solid achievement and plain good fun, sometimes called "College Life." The student is generally short on sleep, behind in his or her studies, and fails to realize they are supported by hard earned money.

Today's colleges have an overrun of aubs, and campus elected queens. A high percentage of coeds have intentions of trapping a husband early. A shocking number of college graduates can't even write grammatically or spell correctly: Well, what is to be done about it? Perhaps you have an opinion, ...

He goes on to apologize to those serious students who have been able to learn in spite of college distractions.

E. Carl Bell
Senior, Bus. Ad.

Editor's Note: See editorial on this page for views on this article and how Youngstown University fits into the "campus school" picture.

Student Asks Classmates To Take Religion Seriously

Are college students religious? A recent survey made by the editors of SIGN magazine shows that eighty five percent of the students in AMERICA partake in some form of religious worship.

Basically religion is the spiritual relationship between man and his God. The forms of God men worship may vary, however, the important thing being their acknowledgment to a supreme creator.

Most college students participate in some form of religion. This religion serves as a guide for the student. It gives him a foundation for good citizenship as well as a method of setting high social and moral standards. More often than not, the college student realizes this and practices his religion faithfully.

Then one day the student walks into the classroom of a scientific minded professor who bluntly tells them "There is no God" and proceeds to explain this statement with a mass of idiotic and scientific theory and reasoning. Most students are immediately impressed by this superficial reasoning and fail to see the numerous loop-holes in it.

Thus, after a month or so of lecture by the professor on this particular subject the student seriously finds himself doubting the existence of God. This doubt is due to the lack of the student's ability to reason. However, their reasoning can be stimulated by

asking themselves the simple question, "If the world and everything in it, including man, is matter, how then did matter come into existence?" A detailed analysis of this question will lead the student to the smallest part of matter that can take part in a chemical reaction, the atom. One may then reason that the atom must have come into existence one of three ways. First, the atom was created from nothing. Second, the atom created itself. Third, some supreme power created the atom.

To reason the first, that the atom was created from nothing is foolish because we all know that it is a physical impossibility to create something from nothing. This is supported by the fact that it is a physical impossibility to obtain absolutely nothing in the first place.

If one wished to reason ridiculously they might follow the second proposal that the atom created itself. However, in order for the atom to have created itself it must have first set itself into motion. This impossible

Sees Power and Speed Of Yankees as Enough To Cop American Crown

By Rich Passan

Spring 1959 has just arrived and with it thoughts and words of baseball are being tossed around by avid baseball fans. During Spring training every team is predicting a pennant, but there can only be one team in each league winding up on top.

This is the way yours truly sees the outcome of the first division in the American League. Teams appear in forecasted order.

New York Yankees

It looks like another pennant winning year for Casey Stengel's Bronx Bombers. The Yankees are strong offensively and defensively. Bill Skowron, Gil McDougald, Tony Kubek, Andy Carey, Norm Siebern, Mickey Mantle, Hank Bauer, Yogi Berra, and Elston Howard are key men in the Yankees batting attack.

In the way of pitchers the Yanks possess one of the finest in Bob Turley, Whitey Ford, Tom Sturdivant, Johnny Kucks, Duke Maas, Bobby Shantz, and Don Larsen form a more than adequate staff.

Strength-Excellent hitting, strong bench, and good fielding.

Weakness - If there is any weakness it would be pitching. Whitey Ford slumped to 14-7 in 1958 but can be counted on to come back in '59. Johnny Kucks and Tom Sturdivant should have better years, but Ryen Duren might run into the 'Sophomores jinx.'

Boston Red Sox

The Red Sox have been starving for a pennant since 1946. The acquisition of Vic Wertz from Cleveland during the off-season strengthened the batting order for the Bosox. With Wertz, Ted Williams, Frank Malzone, Jackie Jensen, and Dick Gemert, the Bostonians have perhaps the most devastating batting order in the American League.

The pitching situation leaves some thing to be desired; however, if Tom Brewer, Frank Sullivan, and Dave Sisler have good years, the Red Sox could go all the way this season.

Strength - Good power, good fielding, and an adequate bench.

Weakness - Lack of good pitching, weak-hitting catchers, and a vacant center field slot now that Jim Piersall is with Cleveland.

Detroit Tigers

The Bengals from the motor city have always been tough on the Yankees and if they can be just as tough on the other teams, they stand a very good chance of taking all the marbles. Rocky Bridges and Eddie Yost will definitely strengthen the infield.

The pitching outlook for 1959 seemed brighter when Ray Narleski and Don Mossi joined the Tigers as a result of a trade with Cleveland.

Strength - Good power with Harvey Kuenn, Al Kaline and Charlie Maxwell, good fielding, and excellent relief pitching.

Weakness - Mediocre pitching staff but newcomers might solve that problem.

Cleveland Indians

The tribe this year has a new look. The acquisition of Jim Piersall and Billy Martin gives the Indians the much needed leadership that a team should have. With Rocky Colavito, Vic Power, Minnie Minoso, Woody Held, Russ Nixon, Piersall, and Martin, the Indians have a team that is both powerful and fast.

The main question concerning the Indians this year is the status of the pitching staff. With an "injureless" year from Herb Score and good years from Cal McLish, Gary Bell, "Mudcat Grant", and Don Ferrarese, the Indians could climb into second or third place. Dick Brodowski and Bob Tiefenauer are expected to be the relief men replacing Ray Narleski and Don Mossi.

Strength - Good hitting, fair fielding, good power, excellent team speed and strong bench.

Good Weather Opens Practice For University's Spring Sports

The weather may cause you to wonder why, but Youngstown University's football aspirants are actually running through drills in preparation for the forthcoming 1959 football season in September.

Taking advantage of the NCAA ruling on Spring football practice, the Penguins, under Coach "Dike" Beede, will be spending the next two weeks beginning Monday, priming for the opening game at Gustavus Adolphus.

Practice is being conducted on the Belmont Ave. acreage recently acquired by the administration. The 1959 schedule is attractive, but as usual it boasts a formidable array of worthy opponents.

1959 Penguin Football Schedule

- Sat., Sept. 12 -- At Gustavus Adolphus
- Sat., Sept. 19 -- Tennessee State A & I
- Fri., Sept. 25 -- At Eastern Michigan
- Sat., Oct. 3 -- At Northern Michigan
- Thur., Oct. 8 -- Baldwin-Wallace
- Fri., Oct. 16 -- Ohio University
- Sat., Oct. 24 -- At Akron University
- Sat., Nov. 7 -- New Haven State
- Thur., Nov. 12 -- Toledo University

Baseball Practice Opens

Baseball practice has opened and is going well. The team is showing good power, excellent team speed and strong bench.

Weakness - In order for the Indians to become a contender, the pitching has to improve.

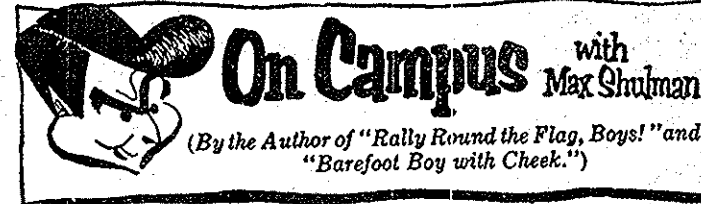

The preceding is how I see the finish of the American League pennant race. The high and mighty Yankees will literally walk off with the pennant in their clutches. Next week the National League survey.

Softball Meeting Set

An intra-mural softball meeting has been set for noon, Wednesday, April 8, 1959 in the Athletic Office. All teams wishing to enter the intra-mural baseball league should have a representative at the meeting.

Dom Rosselli hopes to draw-up a schedule immediately and start League play the week of April 9 through 13.

Also, anyone interested in competing in intra-mural golf or tennis should contact Rosselli within the next week. Any student is eligible.

HOW TO BE A THUMPING BIG SUCCESS ON CAMPUS

While up in the attic last week hiding from the tax man, I came across a letter, yellow with age, that dear old Dad had sent me when I was a freshman. I reproduce it below in the hope that it may light your way as it did mine.

"Dear Son, (Dad always called me Son. This was short for Sonnenberg, which used to be my first name. I traded it last year with a man named Max. He threw in two outfielders and a left-handed pitcher... But I digress.)

"Dear Son, (Dad wrote)

"I suppose you are finding college very big and bewildering, and maybe a little frightening too. Well, it need not be that way if you will follow a few simple rules.

"First of all, if you have any problems, take them to your teachers. They want to help you. That's what they are there for. Perhaps they seem a little aloof, but that is only because they are so busy. You will find your teachers warm as toast and friendly as pups if you will call on them at an hour when they are not overly busy. Four a.m., for instance.

"Second, learn to budget your time. What with classes, activities, studying, and social life all competing for your time, it is easy to fall into sloppy habits. Set up a rigid schedule and stick to it. Remember, there are only 24 hours a day. Three of these hours must be spent in class. For every hour in class you must, of course, spend two hours studying. So there go six more hours. Then, as we all know, for every hour studying, you must spend two hours sleeping. This accounts for twelve more hours. Then there are meals—three hours each for breakfast and lunch, four hours for dinner. Never forget, Sonnenberg, you must chew each mouthful twelve hundred times. You show me a backward student, and I'll show you a man who bolts his food.

"But college is more than just sleeping, eating, and studying. There are also many interesting activities which you must not miss. You'll want to give at least three hours a day to the campus newspaper, and, of course, another three hours each to the dramatic and music clubs. And let's say a total of eight hours daily to the stamp club, the debating club, and the foreign affairs club. Then, of course, nine or ten hours for fencing and bird-walking, and another ten or twelve for ceramics and three-card monte.

"Finally we come to the most important part of each day—what I call 'The Quiet Time.' This is a period in which you renew yourself—just relax and think great thoughts and smoke Marlboro Cigarettes. Why Marlboro? Because they are the natural complement to the active life. They have better 'makin's', the filter filters; the flavor is rich and mellow and a treat to the tired, a boon to the spent, a safe harbor to the storm-tossed. That's why.

"Well, Sonnenberg, I guess that's about all. Your kindly old mother sends her love. She has just finished putting up rather a large batch of pickles—in fact, 350,000 jars. I told her that with you away at school, we would not need so many, but kindly old Mother is such a creature of habit that, though I hit her quite hard several times, I could not dissuade her.

Keep 'em flying,
Dad."

© 1959 Max Shulman

Here's more advice to freshmen—and upperclassmen too. If non-filter cigarettes are your pleasure, double your pleasure with Philip Morris, made by the makers of Marlboro.

QUE'S QUIPS

By Jim Quilty

Pitching is said to be eighty per cent of baseball, according to some experts and subscribed to by many of the most famous names in the history of the diamond sport.

That being the case, an investigation of the Youngstown University baseball team is in order with particular attention placed on the mound corps.

Both of the first line starters from last year's state NAA championship team are eligible for another campaign, but one of the duo, Mike Santor, may pass up the diamond competition in favor of spring football practice, which begins this forthcoming Monday.

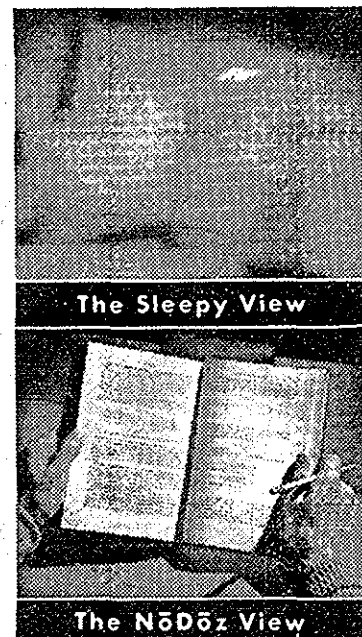

CHARLEY BUSHMAN, the Penguin's other holdover, impressed in quite a few games last year. Should Santor by-pass baseball, the burden of the pitching load will rest with the 6'7" Bushman. A good deal of help, however, should come from Tom Raptis, a spot hurler on last year's squad, Bob Chuey, stellar freshman cager, and two or three freshmen of unproven college experience. Coach Dom Rosselli will need but a few weeks to locate where his hurling strength lies.

With seven of the eight regulars from the 1958 edition returning, the Penguins should have little trouble finding an effective offensive combination. Only shortstop Jim Stoops has graduated, but with hard hitting center fielder Tom Razum (.453 in '58) and second sacker Don Parm (.360) his loss will be lessened somewhat.

JOHN FUSCO and BUSHMAN share the first base duties while soph Jim Brahney appears set for another year at the hot corner.

Razum anchors an outfield which includes Mel Klinger in left and either Pete Leonard or Angelo Ambrose in right. Rich Suchora, one of the finest catchers in college baseball, supplies plenty of savvy behind the plate.

PHIL GUILIANO, now in his third year on the varsity, gives excellent reserve infield support and may break into the starting line-up, possibly landing a starting assignment at shortstop.

Millions of times a year drivers and students keep awake with safe NoDoz

Let NoDoz alert you through college, too

NoDoz keeps you alert with caffeine—the same pleasant stimulant you enjoy in coffee. Faster, handier, more reliable: non-habit-forming NoDoz delivers an accurate amount of dependable stimulation to keep your mind and body alert during study and exams until you can rest or sleep.

P. S.: When you need NoDoz, it'll probably be late. Play safe. Keep a supply handy.

The safe stay awake tablet—available everywhere

It's Greek to Me . . .
Fraternity and Sorority
Pledges In Greek Spotlight

Congratulations are extended to Gerry Stanton, Sigma Sigma Sigma, 1959's Miss Mermaid for the Sportsmen's Show which is an annual affair at Idora Park. Gerry was selected from a field of candidates among college co-eds.

On March 13, Phi Mu installed its pledges. Afterwards, Patricia Planinshek, Pat Shook, and Darla Jean Titus, were honored at a dinner held at Shots Restaurant.

Beta Sigma Omicron sorority had its pledge installation on Feb. 11 at the Golden Drumstick. Sporting red blazers are Kay Albright, Linda Karmer, Jo Hanna, Maureen Moore, Doreen Fahrey, Martha Bone, and Joyce Goble.

Big smiles and purple and white berets are the signs of the new Sigma Sigma Sigma pledges: Margery Behrens, Annette Cluff, Grace D. Flore, Marilyn Dillon, Rosemary Hackett, "Sissy" Kopp, Nellie Jo Moses, Susie O'Neill, Phyllis Oleksak, "Butchie" Shon, and Doty Williams.

Members of Sigma Sigma Sigma entertained their new pledges at a dinner held at the Victoria Restaurant. On March 15, installation of the new pledges was held at Pollock House.

A delegation of Sigma Tau Gamma from Youngstown University took a trip to Slippery Rock State Teachers College. They pledged a new colony of twenty-four members under the sponsorship of the Beta Gamma chapter here at Youngstown.

New pledges of Kappa Sigma Kappa fraternity are Nick Aulisio, Joe Bedure, Neil Clark, Ray Dolak, Bill Kay, Dave McNicholas, and Frank Scoccia.

"Towing the line" for Phi Gamma fraternity are new pledges: Gerry Bums, John Binos, Herb Cleary, Dick Giba, Larry Griffith, Paul Fleischer, Frank Lengel, Bill Leech, Tom Driscoll, Buck McGibbony, Tom Sample, John Ventresco, Dick Siba, Chuck Wood, Pete Ransom, and Joe Zimnik.

New pledge brothers of Zeta Phi are Bib Lidle, Dave Pond, Larry

Markasky, Joe Balog, Jerry Stoneburner, Dom Grace, and Dick Blaine who were installed last Wednesday night.

Congratulations to the new pledges of Theta Chi: Bob Arbuckle, Bill McCarthy, Fred Middleton, Harry Mays, Frank Nameshak, Jack Sederland, and Dick Zabek.

New Sigma Phi Epsilon officers in the Alpha Phi Omega, national service fraternity are: President, Jack Setple; corresponding secretary, Gerry Rhoades; and recording secretary, Mickey Kaiser.

Take Religion

Continued from Page 2

principle of an object setting itself into motion is a direct contradiction to a well established physics principle that states, an object will rest in a uniform position until a force compels it to move. This force that started motion itself, this Supreme force that created energy, the atom and life itself we acknowledge as God.

But is the preceding material true or are there numerous loopholes and contradictions in my reasoning. Perhaps. However that is the reason that I'm trying to stimulate the reasoning facilities of each and every reader and to make you as individuals reason this particular subject out for yourselves in a subjective, analytical way.

Hank Williams

Looking Around...

By Pat McCarren and Frank Guarnieri

Well, Hello again. Hope you enjoyed that long (?) vacation last weekend. Did you miss us last Friday? If you did, consider yourself in a minority. By the way, you almost missed us today, because we are going to hand this in 15 minutes before deadline. We enjoy keeping the master of the silo guessing.

Did anyone notice that white, 1949 model car that is quite often in the Main Parking Lot that has two snow tires on the left side ... one on left rear, and one on left front. If these two are the driving wheels, someone has a real oddity.

Sandy Bailey and friend Manfred are starting a new club ... Practical Jokers Anonymous. In case you are interested, Manfred is a plastic worm that Miss Sandy enjoys throwing around the table in the Snack Bar.

Janice May gave us a sure fire way to be sure that a dozen of eggs doesn't have chickens in the eggs. It's easy -- buy duck eggs!

This is the season for flipping convertible tops, wearing bermuda shorts, hiding all those winter clothes till November, and getting a good look at the sun again. Don't forget that old saying ... "In the Spring a young man's fancy lightly turns to thoughts of love". Fellow men, hear us! Be careful, because the young ladies thoughts have been turned that way ever since LAST Spring, and many of them have that trip down the aisle all planned. As the sign at the top of the hill said, "Proceed With Care!"

We haven't noticed any big improvement in the condition of the Snack Bar at cleaningtime. Why?

Took a trip through the new Science Building last week. It is shaping up very nicely. Most of the rooms are nearly completed in the basement and first and second floors. Workers were plastering the halls and rooms on the third floor. Even with our lack of knowledge on construction procedures, it looks as if the ceilings will be finished and the light fixtures put up in the near future.

Do you know why they put, "In God We trust" on pennies? People put them in fuse boxes.

The last war saw a lot of displaced persons, but the next will see a lot of dispersed places.

Tomorrow is today's greatest labor saving device.

Thermometers are not the only things that are graduated and have degrees without having any brains.

Instructor to late student: "You should have been here at eleven thirty!" Late student: "Why? What happened?"

Put on your dancing shoes for the prom tonight, Little One. It promises to be a real sharp dance. See you at Idora. Hope you enjoyed this gathering of material, and if not, complaints and other irrelevant comments will be graciously received and considered by our branch editor, Nonex Istent, at his office in the Bering Straits.

Set Deadline For Filing
May Day Queen Petitions

Official May Day Queen petitions are now available in the Dean of Women's Office in Main 210. These petitions must be signed by at least 25 full-time students of the senior class. A student may sign only one petition. Petitions must be returned to Main 210 by 3 p.m. on next Friday, April 10th.

Any senior girl who is a full-time student is eligible to be nominated for May Day Queen as long as she has a 1.00 cumulative point index. The candidates may be nominated by any full-time student of the senior class.

Elections for May Day Queen will be held Monday, April 20th and Tuesday, April 21st. The candidate with the highest number of votes shall be queen. The court of honor will consist of the next two girls who ranked second and third. Any full-time student of the senior class may vote in this election at the entrance of the Strouss Auditorium in the Main Building.

The May Day Dance will be held Friday, May 1, at the Yankee Lake Ballroom.

Honor System

Continued from Page 1

moral code, for if we believe that it is wrong to be dishonest we believe that it is right to correct a dishonest person. In order to trust one another we must develop mutual respect and trustworthiness. In addition, the University itself must be considered. A school in which cheating is tolerated is discredited as are its students. Therefore an Honor System is essential to the good character of the University.

The road to an Honor System is not a smooth one. The climate of opinion on the campus and present weaknesses in self discipline must be carefully evaluated and a satisfactory means of reporting violations found.

Do You Think for Yourself? (ANSWER THESE QUESTIONS AND FIND OUT!*)

1. If you were about to buy an automobile, would you (A) study the road-test reports in the magazines, or (B) select the car that looks best to you? A B

5. In buying a radio, would you be influenced more by (A) low price, or (B) product features despite a slightly higher price? A B

2. When confronted with a menu with lots of foreign terms, do you (A) ask what is in each dish, or (B) accept the waiter's recommendation? A B

6. When deciding on what movie to see, do you usually prefer films that (A) are gay and diverting, or (B) have a social message? A B

3. When invited to play an unfamiliar game, do you (A) refuse to play until you fully understand the rules, or (B) pick up the rules as you go along? A B

7. When you run into a foreign phrase in a textbook, do you first (A) head for a dictionary to find the meaning, or (B) try to dope out the meaning yourself? A B

4. When invited to a party, do you (A) accept, hoping to enjoy yourself no matter who attends, or (B) try to learn who will be there before accepting? A B

8. When reading the paper, do you (A) catch yourself concentrating on scandal stories, or (B) spend your time on news and editorial matter? A B

9. In choosing a filter cigarette, (A) are you easily swayed by bold claims, or (B) do you think for yourself and stick by your decision? A B

If you're the kind of person who *thinks for yourself* . . . you use judgment in your choice of cigarettes, as in everything else. Men and women who think for themselves usually smoke VICEROY. Their reason? Best in the world. They know that only VICEROY has a thinking man's filter and a smoking man's taste.

*If you checked (A) on three out of the first four questions, and (B) on four out of the last five . . . you really think for yourself!
