

ENGINEER'S BALL SET FOR SAT.

Miss Lois Fiedor of 103 Highland Avenue in Niles will reign as Sweetheart tomorrow night at the first annual Engineer's Ball. Miss Fiedor, a junior majoring in mechanical engineering, was elected last week by her classmates at the William Rayen School of Engineering.

The dance, which is to be an annual affair, will be held at the Idora Park Ballroom and is under the chairmanship of Sam LaLama, who will be assisted by Jim Mershimer. Lenny Esposito and his orchestra will provide the music for the dance from 9 - 1. Admission is \$2.00 per couple.

Included in Miss Fiedor's court will be: Miss Beverly Szelest of 417 Williams Street, Niles; Miss Peggy Opsitnik of 205 Lowellville Road, Struthers and Miss Delores Tocco of 510 Francisca Avenue, Youngstown.

English Society Sponsors Reading

"Under Milkwood" by Dylan Thomas will be presented by Keith Scott and the players on October 29 in Strouss Memorial Auditorium at 8:30 P.M. The reading is being sponsored by the English Society. The faculty and student body are invited to attend.

Woodrow Wilson Foundation Announces Competition For Fellowship Grants

PRINCETON, NEW JERSEY, October 23 - - The Woodrow Wilson National Fellowship Foundation today announced the opening of competition for its fellowships for the academic year 1960-61. The chief purpose of the fellowship program is to offset the critical shortage of qualified college teachers by encouraging college seniors of outstanding ability to consider college teaching careers.

To this end the Wilson Foundation annually awards 1000 fellowships for first-year graduate study at any university of the recipients choice in the United States or Canada. Woodrow Wilson Fellowships carry a stipend of \$1500, plus full tuition and fees, and, in the case of married Fellows, a dependency allowance for wives and children. The program is open to college graduates in the natural and social sciences and in the humanities. Both men and women are eligible, and there is no limit on the age of the candidate or the number of years he may have been out of college. Those who receive awards are not asked to commit themselves to college teaching, but merely to "seriously consider" it as a possible career.

The Woodrow Wilson Foundation does not accept applications directly from students. Candidates for the award must be nominated by a faculty member. Nominated students are invited to declare themselves as active candidates for the award by completing the necessary application forms. Winners of the award are selected through screenings of the applications and personal interviews by regional selection committees, made up of faculty members from the regions' universities and colleges.

Last year, in an experimental program, 41 college juniors were selected for Woodrow Wilson National Fellowships. Provided that their work continues to be of the same calibre during their senior year, they will also become Woodrow Wilson Fellows for the academic year 1960-1961. A list of these 41 winners, along with their fields of study and their undergraduate schools, is appended.

The closing date for nominations for the academic year 1960-1961 is

ENGINEER'S SWEETHEART: Lois Fiedor will reign as sweetheart of the first annual Engineer's Ball. She was elected by the students in the school of engineering in an election held last week.

RIL Halloween Party Scheduled For Tonight

The R.I.L. Halloween Party will be held in the Fellowship Hall of the First Christian Church, Friday evening, October 23, from 8:30 to 11:30.

Co-chairmen of the entertainment committee are Karen Rogers and Russell VanCassel. Joyce Coble and Betty Fabry head the refreshment committee.

Costumes are optional and everyone is invited.

Graduating Seniors

In January, February, March and April company representatives will be on campus to interview seniors majoring in Chemistry, Math, Physics, Engineering, and Business Administration. Anyone interested in interviews should contact the PLACEMENT OFFICE IMMEDIATELY.

"Enemy Of The People" Will Be Presented Nov. 19, 20, 21

The Departments of Speech and Drama will present Henrik Ibsen's "An Enemy of the People", adapted for the American stage by Arthur Miller, on the evenings of November 19, 20 and 21. The production will be Produced and Directed by student Andrew Hamady.

The three act show details the disillusionment of an idealistic doctor who discovers that truth does not prevail in the face of selfish "practical" interests. Twenty four students are involved in this production which shows the doctor beginning to doubt the fundamentals of democracy, claiming that the majority are always wrong and that he who stands alone with truth on his side is right.

The cast includes James Grohl - Pat Morgan - Joe Ashton - Joseph Phillips - Jeanette Zemko - John Ulicney - Carl R. Linoner - Gary

(Continued on Page 4)

Nineteenth Annual Homecoming Promises To Be Colorful Event

Youngstown University's nineteenth annual homecoming festivities will preside over a period of two days, Friday, Nov. 6 and Saturday, Nov. 7. Student Council will sponsor this event while Don Riley and John Hite are the co-chairmen.

To give the homecoming week-end the right spirit and atmosphere, there will be a bonfire pep rally 8:00 Friday night at Ford Hall Parking Lot. The cheerleaders will lead the fans in a few cheers to boost the team's morale for the following day's big game with New Haven State. All are urged to attend. Directly after the pep rally, a dance will be held in Strouss Auditorium, admission by activity book. During intermission, IFC and Pan Hellenic will present a skit for everyone's enjoyment.

Pershing Rifles In Seventh Year

The National Society of Pershing Rifles, frequently called the P R's, is a military organization functioning within the R.O.T.C. unit of Youngstown University. Its primary function is that of a competitive drill company. However, there are many other social functions in which it participates.

The society here at Y.U. is designated Company P of the First Regiment. Company P-1 has been affiliated with the University since 1952 and in this short period has earned many awards which are on display in the lobby of the Main Building.

This year, as is the usual procedure, Company P-1 has been reorganized under the leadership of P/R Captain Michael J. Berdin. The Executive Officer is P/R 1st Lt. John Kocis; the Pledge Officer is P/R 1st Lt. David H. Colson and the Company 1st Sgt. is P/R M/Sgt. Richard Widera.

Company P 1 has already plunged into what looks like a very busy year. Right now the members of the Company are drilling approximately eighty freshmen who have shown an interest in joining P/R's.

Another activity undertaken by eleven members of Company P 1 is the Saber Detail they performed at the Rayen Homecoming Football Game last Saturday, Oct. 10. This is a special form of drill performed with sabers and ultimately ends with arched sabers for the homecoming queen to pass under.

As can be seen, Company P 1 is off to a busy start and with their Commanding Officer P/R Capt. Berdin they are looking forward to a better and more fruitful year than ever before.

Saturday, THE DAY, has even more in store. By 10:00 a.m., all floats are to be lined up on the east side of Bryson Street and to be ready for the judging at 11:00 a.m. Since this year's homecoming theme is Mythology, the floats are to have a theme representing some phase of mythology. They will be judged on theme, originality, workmanship and parade showmanship. This year's themes are: Sigma Sigma Sigma, Neptune; Alpha Omicron Pi, Sleepy Hollow; Phi Mu, Pied Piper; Beta Sigma Omicron, Trojan Horse; Alpha Iota, King Midas; Delta Chi Epsilon, Jonah and the Whale; Sigma Phi Epsilon, Thor; Tau Omega, Magic Lamp; Beta Tau, Hercules; Theta Chi, Paul Bunyan; Phi Gamma, Casey Jones; Kappa Sigma Kappa, Cecrops; Sigma Tau Gamma, Boy on A Dolphin; Phi Sigma Kappa, Atlas; Tau Kappa Epsilon, Centaur; Zeta Phi, The Monster Chorybelis; and Alpha Phi Delta, Mars. Trophies for the floats will be awarded for three sections: A. Fraternities, B. Sororities, and C. Other Student Organizations.

Parade Starts at 1:00

The parade of floats will begin at 1:00 and it's route will be: Bryson to Lincoln, Lincoln to Wick, Wick to Federal, turn right off Federal onto Fifth, and then goes to Rayen Stadium.

Before the kickoff for Saturday night's game, President Jones will give a welcome address. Kickoff time is 8:00.

During half-time, the 1959 Homecoming Queen will be crowned. She will be elected by the student body and she will be one of these six girls; Betty Fabry, Jo Anne Messina, Susanne Morosky, Bernie Polisso, Lois Sliker, or Davene Ucello.

Immediately following the game there will be a dance at Idora Park Ballroom, admission by activity book. Intermission will feature the recognition of the Queen and her attendants by the President of the Alumni. Trophies for the best floats will also be awarded.

Cinema 16 Will Show "Dark River"

A First view for the U.S. of the work of Hugo del Carril, Argentinian musical idol, actor and (since 1949) film director influenced by the Italian neo-realist school. "Dark River" has been compared to "Bitter Rice" in subject and treatment. An expose of conditions on yerba mate plantations in Argentina, it was opposed by the police censors of that country. They could not prevent its showing throughout Argentina, and Del Carril was named best director of the year by the press and critics.

AWARDS: First Prize, Rome Festival; Diploma of Honor, Venice Film Festival; First Prize for Photography, Cannes Film Festival.

Y. U. Program Features Shmoo

This week the Y.U. Radio Show will feature an interview with a "live shmoo" from the campus. Instead of the usual "interesting personality" interview, Barb and Fred will be talking to an uninteresting personality. For the latest in campus news and top recordings, tune in the Y.U. Radio Show on WBBW every Saturday morning at 11:05 A.M.

A FORCE FOR FREEDOM

Much ado has been made lately over the recent strides of Soviet Russia in the race to overtake the U.S. as number one nation of the world. For the past few years the Commie scientists have displayed the knack of more thrust and possibly better "orbiting" than free-world technicians.

One important fact remains, however. No matter how great are the Russian achievements in the not-so-all important missile race, the U.S.S.R. can never rate as number-one nation if there is no individual freedom of its citizens.

It is this respect for human dignity, the recognition of basic God-given rights, that keeps the U.S. in the enviable position of being the best country in the world, second to none in individual freedoms.

This year, 1959, we observe the 50th anniversary of a group that has helped America attain the prosperity and well-being we now enjoy. That group is Sigma Delta Chi, the professional journalism fraternity.

Almost without a doubt, the greatest factor in the story of the greatness of the U.S., has been the freedom of the press. Ever since 1735, when a courageous immigrant printer named John Peter Zenger defied the loyalist rule of the British Empire, the American press has fought tooth and nail for the greater liberty of mankind.

Even after the first article of the Ten Amendments to the U.S. Constitution proclaimed that "Congress shall make no law . . . abridging freedom of speech or of the press . . ." certain corrupt or unthinking politicians attempted to limit the power of a free American press.

Fortunately for all of us, the ink that ran in the veins of our early journalists proved stronger than the mere blood of the opposition. They would not be denied the right to proclaim the truth, and fight for justice, respect, and freedom for all.

In 1909 ten young men at DePauw University founded SDX for the purpose of associating members of the Fourth Estate into a more intimate unit, for the purpose of "fostering a higher ethical code, thus increasing its value as an uplifting social agency."

The JAMBAR salutes Sigma Delta Chi and its 23,000 members. As long as this group lives up to its watchword, "Talent, Energy, and Truth," as long as it operates unhampered in its ideals, as long as the American press has the desire and ability to fight for the "little man," the United States will always remain the undisputed champion of the world.

HOMEcoming ELECTIONS

Homecoming elections are fast approaching and with the advent of such activity as this election will bring, will also come the usual organized confusion. This year's candidates are as per usual representing a sorority or similar interest group. The Greeks will line up in their usual block fashion supporting the candidate of their choice. The Independent vote in the election will decide who will reign as our Homecoming Queen without a doubt. Many of these independent voters will be influenced by their Greek friends. This leaves a small segment of the student body which will actually choose the girl for whom it will vote without any undue duress. When voting in this election, we should all keep in mind the fact that we are choosing the girl who will represent the University as our Homecoming Queen, and not the sweetheart of a fraternity or sorority chapter.

Preservation of Status Quo

In recent years there has been a popular line of thinking that has pervaded the college campuses of the nation that is not conducive to a progressive society. It is indeed noticeable on our own campus. We have become victims of "suburbia" and "spectatoritis." Too often we fail to speak when the opportunity is ripe.

One of the great journalists of our time, Ray Sprigle, of the Pittsburgh Post Gazette stated: "We must become reactionaries and a positive force for something lest we become a negative nothing."

Our day is one of change! Do we all so firmly believe, "Let someone else do it, I dare not speak unless I stir up a reaction,"? Has our complacency gone that far?

It is high time that the students of Youngstown University become a positive force for something inside and outside of our little world of education.

Science Fellowships Open To Graduates

WASHINGTON, D.C. - - The National Academy of Sciences-National Research Council has again been called upon to advise the National Science Foundation in the selection of candidates for the Foundation's program of graduate and postdoctoral fellowships. The Foundation plans to award approximately 1,100 graduate and 125 postdoctoral fellowships in these two programs during the 1960-61 academic year.

Committees of outstanding scientists appointed by the Academy-Research Council will evaluate applications of all candidates; final selection will be made by the Foundation and awards announced on March 15, 1960.

Open only to citizens of the United States and awarded solely on the basis of ability, the fellowships may be applied to advanced study in the mathematical, physical, medical, biological, and engineering sciences, including anthropology, psychology (excluding clinical psychology), and the following social sciences: geography, mathematical economics, econometrics, demography, information and communication theory, experimental and quantitative sociology and the history and philosophy of science. They are open to college seniors, graduate and postdoctoral students, and other individuals with equivalent training and experience.

Test to be Given

All applicants for graduate (pre-doctoral) awards will be required to take an examination designed to test scientific aptitude and achievement. This examination, administered by the Educational Testing Service, will be given on January 16, 1960, at designated centers throughout the United States and certain foreign countries.

The annual stipends for graduate Fellows are as follows: \$1800 for the first year; \$2000 for the intermediate year; and \$2200 for the terminal year. The annual stipend for postdoctoral Fellows is \$4500. Limited allowances will also be provided to apply toward tuition, laboratory fees, and travel.

Further information and application materials may be obtained from the Fellowship Office, National Academy of Sciences-National Research Council, 2101 Constitution Avenue, N.W., Washington 25, D.C. The deadline for the receipt of applications for regular postdoctoral fellowships is December 22, 1959, and for graduate fellowships, January 1, 1960.

Concert Article Draws Letter

Dear Editor,

There seems to be some misunderstanding as to the nature of the recent Phi Alpha Sinfonia jazz concert. The presentation was fraternity sponsored and contrary to statements in the October 16th JAMBAR was not entirely composed of fraternity members. Although a fair share of Sinfonians participated, a program of this type would not be possible without the assistance of the many fine musicians who gave freely of their time to rehearse and perform the program. These non-members of Phi Mu Alpha should be given the credit they deserve for a job well done.

A grateful Sinfonian.

NEWLAND

ON SUMMIT

NOW LET US GO DOWN TO THE SUMMIT

Let's have a summit meeting. These are the words being echoed by the world leaders: President Eisenhower, Prime Minister Macmillan and Russian Premier Khrushchev. A summit meeting is obviously a less dangerous and more intelligent way to settle world problems than a shooting war, but what will it accomplish?

Why Not DeGaulle

President Charles de Gaulle has been more hesitant than others in clamoring for a summit meeting for two reasons. He and his regime are questioning the amount of progress made at Camp David between Eisenhower and Khrushchev also, de Gaulle would prefer to have the meeting held after the French have successfully exploded their first nuclear weapon. Evidently de Gaulle feels that possessing nuclear weapons would enhance his position at such a meeting.

Preparation

Knowing that a summit meeting will soon take place, diplomats of all leading nations are preparing papers defining their own countries positions and analyzing the possible positions of other countries.

Purpose

The problems most likely to be discussed are the sore spots of international tension; Berlin, Germany and disarmament. The problem being to find an acceptable and reasonable solution for all countries concerned.

The fact that a world conference will take place gives the world a period in which to relax and forget the possibility of war.

Optimistic View

The optimists among the world's diplomats feel the best result would be an agreement to continue summit meetings on a regular basis. It would be an agreement to maintain the world 'status quo' for an indefinite period of time. This would eliminate the now common 'deadlines' and 'ultimatums' in world affairs.

Pessimistic View

It is felt by some that harsh words over the conference table will ignite the cold war spark and necessitate a shooting war. This pessimism is not shared by many because of the preliminary work done by Eisenhower-Macmillan and Khrushchev. Also, there is no formal agenda for the next summit meeting, indicating that the conference will extend over all issues.

Arrangements

The actual mechanics of arranging a summit meeting such as time and place are routine and can easily be handled through diplomatic channels. There is one possible obstacle to the forthcoming meeting and that is the hint made by Premier Chou En-lai that Communist China would like to participate in this world conference. If Khrushchev were to insist on this the whole idea of the meeting would seriously be threatened.

It is a good thing a summit meeting is to be held, it will arouse hope, and pressure will be placed upon representatives to arrive at some tangible conclusions. Let us hope mass pressure will not force our western delegates to concede to unreasonable proposals.

LET'S END THE COLD WAR!

YOUNGSTOWN TO MEET AKRON UNIVERSITY TOMORROW

Injuries May Hurt Penguins In Rubber Bowl Clash

By Paul Jagnow
(Jambar sports editor)

Youngstown's versatile gridsters will meet the Akron University "Zips" at the spacious Akron Rubber Bowl, tomorrow at 2:00 p.m. The Penguins will be striving to capture their fifth victory of the season, and at the same time attempting to avenge the 44-12 shellacking handed them by Ohio University, last week.

The Akronites have taken three of the five games they played this year, winning games with Mount Union, Muskingum, and Heidelberg, while dropping contests to Ohio Wesleyan, and Wooster.

"Dike" Beede's gridgers have tangled with the Zips twice during past seasons, in 1940 and 1941, shutting out their opponents both times, 13 to 0, and 19 to 0.

Injuries May Hurt Penguins

Akron will have two thorns with which to stab the Penguins in the side, Tom Murphy and Joe Mackey, who shared the ball handling duties in their game with Wooster, last week.

With Harold Green, Butch Morelli, Chuck Tedesco, and Joe Smargiasso all sporting aches and pains, it is still unknown just who will be where for the locals, tomorrow.

Under the leadership of Coach Joe McMullen, Akron pulled through a good season last year, winning six games, while having only two in the loss ledger. The Zips battled to a 0-0 deadlock against Baldwin-Wallace in the final game of the year.

From all outward appearances, the Penguins should have a more than even chance in tomorrow's game, barring any more last minute casualties to the local unit.

Busses to Travel to Rubber Bowl
A chartered bus, crammed with Penguin fans will be voyaging to Akron with the Penguins, the first such activity of its kind to be instituted at Y.U. Jerry Harklerode and Pete Shoemaker, of Youngstown University's Student Association were responsible for originating and carrying through the plan.

Zeta Phi, Sig Taus, KSK lead IFC League

By Bill Kish
(Jambar sports writer)

The combination of Cain and Corbett combined with a smashing defense to rout Tau Kappa Epsilon 42-0. Both teams were hampered by a strong wind at Borts Field last Sunday.

Beta Tau Loses

Kappa Alpha Psi proved too much for the Beta Tau six as they rambled to a 52-0 shutout.

Phi Sigs Take First

Phi Sigma Kappa were the 12-0 victors over Tau Omega. The quarterbacking of Bill Serjack led the determined Phi Sigs to their first victory of the season.

Theta Chi Wins

Theta Chi beat the Sig Eps in a thriller as the passing of Bill Collins to John Hite tallied for a 6-0 score.

Bandits Steal Fourth

The Zeta Phi six rambled to a 18-0 win over Alpha Phi Delta in a hard-fought battle.

The big six donned black jerseys with the lettering "Bodine's Bandits" across the back. Featuring in the offense were Mike Giambattista, Mel Klinger, Corky Parm and Mike Renaldo.

Sigma Tau Gamma Edges Phi Gams
In a tight battle, Sigma Tau Gamma edged the Phi Gams 7-0. The lone score was on a pass from John Krotky, to Delmar Stanley; the extra point was on a pass to Jack Strak.

Jambar Salutes Pete Arlow

Pete Arlow, has helped the Penguins greatly in their last five games. He has seen action at defensive end and offensive guard.

Started at Memorial

Pete started his gridiron career at Campbell Memorial under Coach Knapp. Seeing two years of action in the high school ranks, he graduated in 1956. While playing at Memorial Pete was mentioned on the All Steel Valley team.

Kappa Sig

A member of Kappa Sigma Kappa he is majoring in Merchandising and Economics, also Pete is a member of the Youngstown University Varsity Y.

When asked what he thought the teams chances were, the 5 foot 11 inch 202 pound gridder replied, "Since we got off to such a good start, I believe that we will pull through the first season since I have been on the squad."

Writes Column

Pete also writes the Jambar Column in The Locker Room which gives the students an inside peek on what goes on behind the scenes.

THE LOCKER ROOM

By Pete Arlow
(Jambar football writer)

Several injuries to key performers will prove harmful to the Penguins for the remainder of the season. Butch Morelli has suffered a severe ankle injury and may not see action in upcoming games. Harold Green continues to nurse badly bruised wrist bones and still is not up to par. Freshman Chuck Tedesco dislocated his elbow against Ohio University and is definitely out for the season. Almost every Penguin starter is nursing some sort of bump or bruise. Freshman tackle Joe Smargiasso may be out for the season with a bad knee.

Team spirit is still high in spite of Friday's lopsided loss to Ohio University. The consensus is that C.U.'s speed and deception was more potent than the ruggedness of their play. Previous games during the year proved to be a great deal harder, but such speed has not been seen in any game this year. Y.U.'s team balance in the backfield and line, and team depth was strong.

A Look At The Lighter Side

On the lighter side, Jim Sevenich, known to teammates as "The Hawk", has really been spouting around the locker room lately. The reason for all his excitement was the birth of his second son, Charles Scott. All the team wishes to extend its congratulations to you, Jim.

The thing that must be remembered on any football squad is teamwork. No victory can ever be attributed to one, it is always the team. The tendency towards heaping praise on an individual, especially a back, can go only as far as his ability and the blocking of his teammates will take him. One player's consistency can be measured by his teammate doing his own job well.

Ohio U. Bobcats Drub Penguins 44-12

By Dick Crosbie
(Jambar sports writer)

Youngstown University's Penguins fell to a hard fought defeat at the hands of a mighty Ohio U. squad, 44 to 12, last Friday night at Raven Stadium, before a crowd of 8000 fans.

Although heavily undermined by the Bobcats' offensive powerhouse, the locals managed to pull through two T.D.'s, one in the second period of play and the other in the fourth.

The major part of the Penguin offense was centered around quarterback, Harold Green's passing ability. Green attempted 32 passes and succeeded in finding a target for 16 of them for a 50 per cent passing record for the game. The Penguins gained 184 yards passing, while gaining only eight on ground attacks.

Penguins Score in Second Quarter

Y.U.'s first touchdown took place when Ohio quarterback, Dave Wagner, fumbled Tom Smolanovich's punt and the Penguins recovered on their own 48 yard marker. A series of Harold Green aerials to Smolanovich carried the locals to Ohio's five yard line. Quarterback Green was set down behind the line of scrimmage on the next play and was forced to take an eight yard loss. With 47 seconds remaining, however, Green found halfback Paul Cerelega open in the endzone and let fly with another of his deadly aerials, giving the Penguins their first six points of the game. Another pass attempt for the conversion was foiled by the 'Cats.

Green Plunges for Second T.D.

Another series of passes paved the way for the second Penguin tally. Green passed to end Fred Quatro on the Ohio 47 for a first down and then followed suit with a pass to Cerelega, who carried to the Ohio U. 7 for another first down. Larry Markasky then stormed to within a foot of Penguin paydirt. Green then plunged into the scoring area for Y.U.'s final marker. Green's pass attempt for the extra two points was blocked.

Intramural Bowling Open To All Groups

All independents, fraternity's or other groups interested in bowling in the Intramural League should be at the Champion Bowling Lanes, Sunday at 4:00 p.m.

Skin Diving Used By Many Police And Fire Departments

By Dick Crosbie
(Jambar sports writer)

(ed note) This is the second in a series of articles on Skin Diving.

Skin and Scuba diving has a wide variety of uses, from underwater demolition work done by the Navy, to the retrieving of wallets from the bottom of local lakes.

There are individuals from every walk of life who enjoy many of their leisure hours with their diving equipment on diving in lakes or quarries. Even the Navy's underwater demolition teams, who are diving all day and sometimes all night, go pleasure diving when they have free time.

There are many things of interest to see when diving.

Some people will dive just to watch the things that go on in the Neptune world; the strange fish swimming along, the coral, and even sunken ships.

Shutterbugs could be called sight-seers. This type of person enjoys taking pictures of his ventures. Others like to dive for the enjoyment of spear fishing. Then there's the treasure hunter who goes for the sole purpose of locating some valuable objects.

There are many public service organizations, such as the fire department, who use SCUBA for emergencies such as searching for a drowning victim. Some divers are also members of Civil Defense.

Law enforcement agencies, like the State Highway Patrol, Sheriff's Office, and the City Police Department utilize the services of Scuba in many phases of police work.

It is of utmost importance that the individual who is thinking of diving take steps to get the right type of training. Although diving is not extremely dangerous, participants must learn a few fundamental do's and don'ts about it. There are clubs organized whose sole purpose is to promote diving and to teach new members its fine points.

Iowa vs. Purdue will be the collegiate football TV game-of-the-week Saturday, Oct. 26, the National Broadcasting Co. announced today. The Big Ten game at Ross-Ade Stadium, Lafayette, Ind., will be televised nationally at 8:15 p.m., EDT.

Of Two Minds

On the one hand, you have Thirsty G. Smith. Good taste to him means zest and zip in a beverage, sparkle and lift and all like that...
On the other hand, T. Gourmet Smythe perceives good taste as the right, fit and proper refreshment for a Discriminating Coterie. So? ... Have it both ways! Coca-Cola... so good in taste, in such good taste.
Et vous?

NOSMO KING Emanates

by Frank Court
(Jambar feature writer)

Oh, how fickle is that deceiving ecstasy called love. Even from the beginnings of time, man has been misled by the powerful thrust of Cupid's arrow. A thrust which has oftentimes turned the tide of history or decided the fate of continents.

Thus, many years ago, while a student at Nutstaa' U., Nosmo King was stung by an arrow from Dan Cupid's bow.

(WOMAN BEATNIK)

Her name was Hyacinth Barnfodder, woman beatnik and typical college social climber type. She was lovely.

Nosmo's heart would pound frantically every time she ran past his frat house, reciting poetry as she gracefully played leap-frog over the fire hydrants.

How beautiful she looked scampering along the curb; her tennis shoes making timid slosh, slosh noises and throwing a fine spray of mud that gently covered her turtle neck sweater. How splendid she appeared as she dodged in and out of the trash cans; her soft goatee gently blowing in the warm afternoon breeze. Nosmo pined desperately for her.

(TRAGIC MEETING)

After weeks of heartache, Nosmo decided to meet her. For hours he walked the street carrying his "Don't Be A Litterbug" sign, anxiously waiting for her to come running in his direction.

Then he saw her. She had just completed hurdling an 8 ft. stop sign when Nosmo cried out, "Hyacinth, my own true love; it is I, Nosmo. Open your garlic-scented arms and let me fly into them."

Hyacinth came to a halt in front of him. "Like vanish slobnik, you bug me," she said.

Nosmo replied, "O Hyacinth, when I look at you, I feel wonderful, I feel excited, I feel romance, I feel love."

"Don't panic daddeo, put your finger in your ear --- you'll feel sawdust," was Hyacinth's reply as she went gleefully on her way leaving Nosmo behind, a dejected lover.

But Nosmo did not let his affair with Hyacinth ruin his morale. Instead, he turned all his pent up energy and emotions toward his studies. That year, Nosmo weaved the nicest baskets in the class.

New Law On Parking Lights

Columbus, O., October 23, 1959 -- All Ohio motor vehicles may be equipped with either amber or white front parking lights under a new law, effective Monday, (October 19), Director J. Grant Keys, of the Ohio department of highway safety, emphasized today. The lights, Keys explained, are used as an alert to traffic by motorists who must stop along a roadway or its adjacent shoulder.

This section of motor vehicle laws was revised by the recent Ohio general assembly to allow manufacturers to use either type of light rather than continue the white lights limitation. By this change, Ohio now conforms with the standards recognized by national associations including the automobile manufacturers association and the society of automotive engineers.

Keys pointed out that many manufacturers use amber parking lights believing that they are more distinguishable as a warning than are white lights.

Drama Guild

(Continued from Page 1)

Norris - John Bishara and Andrew Hamady as Peter Stockmann.

Townpeople are played by Barb Cronie, Nanci Sobel, Bob Boye, Barry Giber, Dick Potter, Arlene Smith, Dominic Chick, Ron Perrin, Bill Snow, Pat Riley, Dorothy Palguta, Susan Gow and Susan and Sandra Naples.

The show begins at eight-fifteen and the cost of tickets is \$1.00. It will be presented in C.J. Strouss Auditorium. Technical Director is Jim Sekinger and Business Manager is Vilma Terle. Assistant Director is Gary Norris and Stage Manager is Dick Potter.

JAMBAR KARTUNES

By Fred Kirby and Imre Csejtey

It's easy: Just submit a stick figure representing an idea pertaining to a song title. The best ideas submitted will be reproduced by the Jambar artists.

The contest is open to all students. Submit your ideas to any member of the Jambar staff or mail them to the Jambar Office c/o Youngstown University.

MAHONING COUNTY

A sixty-five percent affirmative vote is necessary for passage.

Shall bonds be issued by the County of Mahoning for the purpose of THE CONSTRUCTION OF A DAM IN CO-OPERATION WITH THE UNITED STATES GOVERNMENT ON THE WEST BRANCH OF THE MAHONING RIVER FOR FLOOD CONTROL AND THE STORAGE OF WATER TO SUPPLEMENT THE FLOW OF WATER IN SAID RIVER, AND OF THE LEVY OF A TAX TO PROVIDE FOR THE PAYMENT OF THE PRINCIPAL SUM AND INTEREST THEREON, in the sum of Two Million Five Hundred Thousand (\$2,500,000.00) Dollars and a levy of taxes be made outside of the tax mill limitation estimated by the County Auditor to average .2109 mills for each one dollar of valuation, which amounts to two and one-tenth (2 1/10) cents for each one hundred dollars of valuation, for a maximum period of twenty (20) years to pay the principal and interest of such bonds?

This is not a Partisan Political Issue

L. F. Donnell, Chairman Mrs. James C. Foutts, Secretary
Citizens Committee for the West Branch Reservoir Bond Issue
