

Edgar, Earl E.
Vice-President, Academic

RECEIVED
JUL 11 1975
DR. EARL E. EDGAR
VICE PRESIDENT ACADEMIC

MINUTES
ACADEMIC SENATE
Friday, June 6, 1975

PRESENT: E. Abram, T. Alderman, R. Arnold, J. Bakos, P. Baldino, F. Barger, E. Barret, F. Blue, N. Bradish, M. Braun, B. Brothers, B. Brown, R. Burkholder, M. J. Charignon, T. Chrobak, E. Cobett, I. Cohen, H. Cox, P. Dalbec, E. T. Deiderick, L. DiRusso, T. DiSalvo, T. Dobbelstein, C. Dykema, Vice President Edgar, E. Eminhizer, R. Ervin, L. Esterly, D. Feigenbaum, F. Feitler, I. Feldmiller, R. Gould, M. Gubser, P. Hahn, S. Hanzely, E. Harris, D. Hille, H. Jeffrey, R. Jones, E. Juhasz, G. Kafantaris, J. Kirschner, M. Klasovsky, Vice President Krill, E. Largent, C. McBriarty, H. Mettee, T. Miner, W. Miner, A. Moore, L. Motosko, J. Naberezny, C. Owens, G. Owens, N. Paraska, E. Pejack, L. Rand, K. Salaka, D. Sample, G. Schoenhard, J. Scriven, M. K. Senary, H. Sheng, T. K. Slawewski, C. Smith, S. Sniderman, E. Sterenberg, C. Sweeney, C. Vanaman, J. White, W. Yeaton, B. Yozwiak, L. Zaccaro, D. Byo.

A quorum having assembled, the meeting was called to order at 4:05 p.m. on Friday, June 6, 1975, in Schwebel Auditorium by the re-elected Chairman of the Senate, Clyde Vanaman. Dr. Vanaman called for additions, corrections, or other changes in the minutes of the meeting held on Friday, May 16, 1975. The minutes were declared approved as distributed.

COMMITTEE REPORTS

Curriculum Committee: Chairman, Virginia Phillips, summarized the activities of the Committee for the year as follows: Courses, circulated 228; Courses Appended to Minutes, 175 (10 to be appended to June 6 minutes); Objections received, 55 (Some were duplicate objections); Courses Considered and Resolved in Committee, 7; Courses brought to Senate, 34; Courses Withdrawn, 5; Courses Awaiting Distribution, none; Courses Outstanding and Unresolved, 4.

Mrs. Phillips reported that the Committee had approved the following courses for adoption after resolution of objections: Sociology & Anthropology 729, Health & Physical Education 690, Health & Physical Education 565. The course description of Mathematics Computer Science 620 had been changed in Committee. The Committee had a split vote on approving Economics 809 with a majority voting for approval. Dr. Jones moved that all five courses be approved by Senate. The motion was seconded by Dr. Miner. Mr. Arnold read a letter of objection which he had written to the Curriculum Committee and moved that Economics 809 be resubmitted to the Committee for

further study; the motion was seconded by Mr. Deiderick. After spirited discussion a hand-count ballot was taken on the motion to resubmit. The vote was 36 for returning Economics 809 to committee and 29 against. The motion to approve the other four courses was passed unanimously.

Elections and Balloting Committee: Chairman, Howard Cox, reported that Dr. Clyde Vanaman had been re-elected as Chairperson of Senate.

In elections conducted for position on the Elections and Balloting Committee, the three persons receiving the most votes were: Dr. Frederick Blue, Dr., Daniel O'Neill, and Dr. Phillip Hahn. As Dr. O'Neill is already serving on one Senate chartered committee, there is a question as to whether or not he is eligible to serve also on the Elections and Balloting Committee. Dr. Cox indicated that he planned to refer the question to the Executive Committee for resolution (In the event that the Executive Committee determined that Dr. O'Neill could not serve, the person who had received the fourth greatest number of ballots would be asked to serve.).

Charter and Bylaws Committee: Chairman, Stephen Hanzely, moved that Senate approve the following addition to Bylaw 6, Section 2 (h) (1): "To receive, consider, and evaluate faculty research proposals encumbering university research funds and to recommend to the Dean of Graduate Studies and Research the degree of support of each such proposal." The motion was seconded by Mr. Feigenbaum. Dr. Hanzely read the "Rationale" which was contained in the May 28, 1975, letter to faculty to initiate the discussion, which was lengthy and technical.

Dr. Jones moved to resubmit the proposed addition to Bylaw 6 to Committee. The motion was seconded by Dr. Cohen. There was additional discussion of the motion to resubmit. A hand-count ballot showed 34 opposed to resubmitting the Bylaw to the Committee and 28 for resubmission.

Dr. Vanaman called for a hand ballot on the original motion to approve the Bylaw. When five persons voted Yea, he ruled that the Bylaw was not approved.

Mrs. Dykema voted to extend the time of the Senate meeting sufficiently to allow the body to complete action on the full report of the Charter and Bylaws Committee; the motion was seconded and passed unanimously.

Dr. Hanzely moved Senate adoption of a proposed new Bylaw 8:

Removal from Office:

Whenever an elected Senate member, Senate officer, or member of an elected chartered committee is absent from more than half of the meetings of the appropriate body during any one-year interval beginning with the inception, or anniversary, of the member's term of office, such fact may be reported to the Executive Committee. The Executive Committee may choose to poll the members of the Senate to determine whether the elected position shall be declared vacant.

Whenever a **member** of an appointed chartered committee is absent from more than half of the meetings of the committee during any one-year interval beginning with the inception, or anniversary, of the time of appointment, the committee chairman shall ask the member to resign or seek valid reasons for the member's absences. In the event that the member refuses to resign, the committee shall recommend to the Executive Committee for final disposition whether the appointed position shall be declared vacant. "

The motion was seconded by Mrs. **Dykema**. There was a short discussion. On a voice vote, the Chairman ruled that the motion was defeated.

Having completed the business for which time was extended, the meeting adjourned at 5: 40 p.m.

Respectfully submitted,

Caryl P. Freeman
Secretary

Attached to these minutes are the annual Committee reports which had been received on or before June 6, 1975. Additional reports will be appended to the minutes of the first meeting in the Fall Quarter.

CURRICULUM CHANGES TO BE APPENDED TO SENATE MINUTES
(These courses have been circulated according to the procedures outlined in the Constitution and By-laws--no objections were received)

<u>Department and Catalog Number</u>	<u>Course Title</u>	<u>Description</u>
Criminal Justice 749 4 q.h. Prereq. CJ601 A	Driving and Intoxication	Driving behavior of drinking drivers; effect of alcohol on human body; underlying principles of breath alcohol testing method; the Ohio omnibus Highway Safety Program; use of gas chromatograph, alcomat'or and breathalyzer in the estimation of percentage of alcohol in human blood. Operation and maintenance of the breathalyzer.
Criminal Justice 770 4 q.h. prereq. CJ601, 646,644,647 A	Ohio Criminal Code	Examination of the Ohio Criminal Code regarding construction of criminal statutes, procedural rules, proof required for criminal charges, defenses, fundamental basis of criminal liability, the eleven degrees of offenses, uniform penalties, and criteria for imposing sentences
Civil Engineering 853 5 q.h. prereq. CE 749 C	Design I	An introduction to the design of reinforced concrete and structural steel. Included are the design of beams, columns, footings, and connections. Current specifications and building codes are covered. Prereq. CE 749.
H&PE 892 3 q.h. prereq. H&PE 890 or permission of instructor C	Teaching of Sex Education; Methods and Materials	To prepare teachers of sex education in the elementary and secondary schools. Emphasis upon human sexuality, reproduction, and responsible family living.
BE&SS 830 2 q.h. prereq. BE&SS 620 and 630 C	Techniques of Teaching Shorthand	Examines research in methods and techniques of teaching shorthand and its related areas. Includes techniques necessary for dictation and criteria for transcription evaluation.
Chem Engr. 687 3 q.h. prereq. Math 674 and Physics 610 C	Elementary Nuclear Reactor Engineering	Basic engineering science to serve as background material for nuclear reactor design. Nuclear fission as an energy source. Reactor use and classification. Comprehensive discussion of reactor design problems

Mechanical Engr 800 Special Topics

relations from the founding of the
New World to the present with
greatest **emphasts** placed upon the
20th century.

Genetic and ecological forces of
evolutionary process.

Student Affairs **Committee**

Annual Report

June 6, 1975

The first meeting of the Student Affairs Committee was held on March 6, 1975. At that meeting Dr. Jack D. Bakos, Jr., was elected Chairman and Dr. David J. Robinson was appointed Secretary.

Membership is as follows:

Name	Department
(Faculty)	
Dr. Jack D. Bakos, Jr.	Civil Engineering
Dr. John J. Buoni	Mathematics
James H. Daly	Management
Edna K. McDonald	Soc. & Anthropology
Dr. David J. Robinson	Speech & Drama
Dr. George H. Schoenhard	Sec. Education
Robert J. Stanko	Criminal Justice
Dr. Gloria D. Tribble	Elem. Education

(Administration)

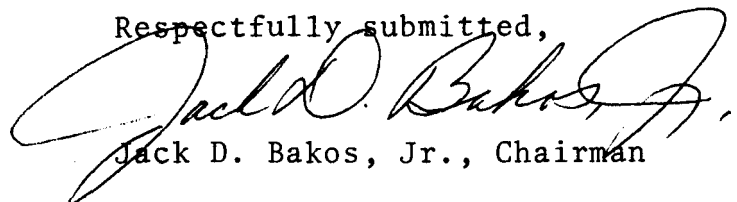

Dr. Charles McBriarty	Student Affairs
Col. John Wales III	Financial Aids

(Students)

Darlene Luntz	Education.
Bill Yeaton	Engineering
Sue Ellen Harris	Fine Arts
Ed Sturgeon	Education

At the February 7, 1975 Senate meeting the Executive Committee was directed to request that the Student Affairs Committee study and consider the establishment of a Student Academic Grievance Committee. The Committee received this charge on March 6, 1975, and has met weekly since that time considering only the student grievance issue. It is anticipated that the Senate will receive the **committee's** formal recommendation on this matter at its initial meeting in the upcoming (1975) fall quarter.

Respectfully submitted,

Jack D. Bakos, Jr., Chairman

YOUNGSTOWN STATE UNIVERSITY

INTER-OFFICE CORRESPONDENCE

Dr. Clyde Vanaman
TO Chairman of the Academic Senate

DATE June 5, 1975

Dr. Howard B. Cox *Howard B Cox*
FROM Chairman, Elections and Balloting Committee

SUBJECT ANNUAL REPORT OF ELECTIONS AND BALLOTING COMMITTEE

1. **This committee** was constituted during the Fall Quarter, **1974-75**. The members are elected by their respective colleges or schools. They were Dr. Howard B. **Cox**, Business, Dr. Jack Devletian, **Engineering**, **Miss** Dorothy Kennedy, T & CC, Dr. George Schoenhard, Education and Dr. Robert Secrist, **Arts & Sciences**. Dr. Rebecca **Herrold**, Fine Arts, **was** elected in the Spring Quarter.

2. The Committee has successfully conducted elections for **Chairman** of the Senate and for three new members of the Charter and By-Laws **Committee** in the Fall Quarter and again in the Spring Quarter. In addition, each member of the committee has supervised the at-large and departmental elections of senators within **his/her college/school** during the past quarter. Despite a last minute change in **election** dates, all but one of the faculty seats were determined prior to the May 16, 1975 **meeting**, the first for the **1975-76** Senate.

3. One change of note which was instituted by the **committee** during the **past** year has been the concept of holding the Academic Senate elections in **two** stages. Basically, a nomination ballot is held in which the top candidates for an opening are determined. This is followed by an election ballot to determine the final winner. **Or** rationale for this method is that the winning candidates should be acceptable to a larger constituency than they were under the previous method. Successful candidates under our **system** have had positive majorities, in many cases, or, at least, **significant** vote totals in all elections. **We believe** this is a more **desirable** system than the **previous** one in **which** a small percentage of the total number of voters could elect a candidate on a single ballot.

A careful reading of the Charter and By-Laws indicated we could initiate this method without further approval. Consultation with the Chairmen of the Academic Senate, and the Senate Executive Committee, and the Charter and By-Laws **Committee** indicated that they could see no legal objection to the proposed methodology. Consequently this change was initiated **for** the 1975-76 elections held during this past quarter. To the best of ~~my~~ knowledge, there have been **no** major complaints **with** the new method.

We sincerely hope that we have made a contribution towards democratic participation in University **affairs** by our efforts during the past year.

SENATE COMPUTER COMMITTEE

ANNUAL REPORT

June 6, 1975

On April 15, 1975, the Computer Committee held its first meeting. An organizational meeting prior had elected M. K. Householder as Chairman. W. Driscoll was appointed as Secretary.

Faculty members of the committee are:

N. Sturm, Biology
E. Santos, Mathematics
M. Householder, Civil Engineering
W. Driscoll, Industrial Engineering
B. Engelhardt, Nursing
T. Chrobak, Engineering Technology
P. **Pascale**, Foundations of Education
D. Roussos, Business

Student members are:

, Dennis Bean, Engineering
Bruce Eyrich, Engineering

Administrator members are:

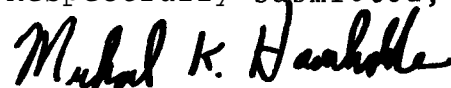

R. Jonas
W. Prince

The following business was conducted.

- a) The Computer Center's Budget was reviewed.
- b) Non-standard operating hours for the Computer Center were recommended to the Director of the Computer Center.
- c) The Subcommittee on Terminal Evaluation, chaired by T. Chrobak, presented their findings for Terminal purchases.

The committee held its last meeting on June 6, 1975.

Respectfully submitted,

Michael K. Householder, Chairman

MKH/we

Annual Report

The Library Committee met on **March 6**, April 23 and May 21 of the 1974-75 Academic year.

The first meeting served as an organizational meeting at which time C.F. Chuey was elected chairperson for both the 1974-75 and 1975-76 academic years. The committee has a full constitution of faculty and administrative members, 8 and 2 respectively, but has vacancies for both the student member' positions.

The remaining meetings permitted the .members to approve the current library policies on gifts and to familiarize themselves with library operations. This is especially important since the committee is charged with determining the allocations for the various departments in the library acquisitions budget come this fall.

Carl F. Chuey, Chairperson
Library Committee

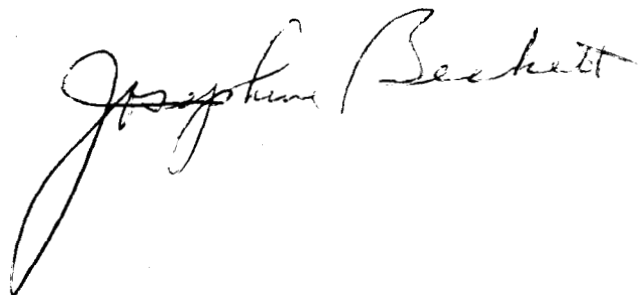

Annual Report

Committee on Continuing Education

(Mrs,) Josephine Beckett, Chairperson

The Committee on Continuing Education has been meeting monthly since March 4, 1975, and will continue during the summer.

Chief concern to date: clarifying issues around College Level Exam Program (CLEP) and other proficiency models.

Josephine Beckett

YOUNGSTOWN STATE UNIVERSITY

YOUNGSTOWN, OHIO 44555

May 28, 1975

The College of Arts and Sciences

Dear Colleague:

At the June 6, 1975 meeting of the Academic Senate, the Charter and Bylaws Committee will propose two Bylaw amendments for Senate consideration. Since Bylaw changes become effective immediately upon Senate approval, you are urged to attend this meeting if you wish to speak to the proposed amendments.

Proposed Bylaw Change #1: Amend Bylaw 6, section 2 (h) (1), which describes the charge to the Senate Research Committee, by adding to the present charge (lower case) a new paragraph (capitals):

To recommend to the Senate new policies and changes in existing policies as related to sponsored research including both University and outside agency funded programs.

TO RECEIVE, CONSIDER, AND EVALUATE FACULTY RESEARCH PROPOSALS ENCUMBERING UNIVERSITY RESEARCH FUNDS AND TO RECOMMEND TO THE DEAN OF GRADUATE STUDIES AND RESEARCH THE DEGREE OF SUPPORT OF EACH SUCH PROPOSAL.

Rationale: As a result of the evolution of the new Academic Senate, two committees dealing with research matters came into being:

(1) the Senate Research Committee (SRC), an appointed chartered committee, charged with recommending research policy to the Senate and (2) the "new" University Research Council (URC), an administrative committee appointed by, and advisory to, the Dean of Graduate Studies and Research.

The question arose as to which of these two committees should be involved in the evaluation and funding of faculty research proposals. (In the past, these activities were performed by the "old" URC - a B-type committee under the predecessor Senate structure.) In view of the fact that the charge to the SRC and URC is sufficiently vague, the Charter and Bylaws Committee explored two alternatives. The first option, and which the Committee is recommending to the Senate, appears above in the form of a Bylaw amendment. The second option calls for the SRC to continue recommending policy to the Senate and the URC to evaluate research proposals and advise funding within the frame work of the research policy. Dean Rand has indicated to the Charter and Bylaws Committee that, subject to the

acceptance of this second option, he would appoint the SRC membership to the URC.

Proposed Bylaw Change #2: Addition of a new Bylaw 8 -

Removal from Office:

Whenever an elected Senate member, Senate officer, or member of an elected chartered committee is absent from more than half of the meetings of the appropriate body during any one-year interval beginning with the inception, or anniversary, of the member's term of office, such fact may be reported to the Executive Committee. The Executive Committee shall then ask the member to resign or seek valid reasons for the member's absences. In the event that the member refuses to resign, the Executive Committee may choose to poll the members of the Senate to determine whether the elected position shall be declared vacant.

Whenever a member of an appointed chartered committee is absent from more than half of the meetings of the committee during any one-year interval beginning with the inception, or anniversary, of the time of appointment, the committee chairman shall ask the member to resign or seek valid reasons for the member's absences. In the event that the member refuses to resign, the committee shall recommend to the Executive Committee for final disposition whether the appointed position shall be declared vacant.

Stephen Hanzely, Chairman
Charter and Bylaws Committee

YOUNGSTOWN STATE UNIVERSITY

YOUNGSTOWN, OHIO 44555

The School of Business Administration

June 4, 1975.

Dr. Edward Largent and Mrs. Virginia Phillips,
Co-Chairpersons,
University Curriculum Committee,
Youngstown State University.

Dear Dr. Largent and Mrs. Phillips:

I regret that I was unable to attend the University Curriculum Committee meeting on June 2, 1975, to present the thoughts of the Accounting and Finance Department regarding the proposed course, Economics 809, Current Problems In Money, Banking and Financial Markets.

I originally submitted a letter to your committee on May 8, 1975, indicating reservations about the propriety of this course being offered in the Economics Department. I realize that before the establishment of a separate major in finance, there was some merit to having finance related courses in the Economics Department. I am also aware that the line dividing finance and economics is rather elusive and tends to shift with one's point of view; but in this instance, I believe there is an established precedent that should be followed.

You will recall that my suggestion in the letter of May 8th was for your committee to put a temporary hold on the course to allow the two departments involved time to work out generalized ground rules regarding the kinds of courses that should be offered by each department. This concept was rejected by the Economics Department and they acted accordingly.

I realize a proper research effort should be in depth and include a broad representative population, but the action by your committee on June 2, 1975 has forced me to make a cursory examination of graduate school catalogs in order to establish my point. I tried to choose institutions from different geographic areas. My sample included Harvard University, Stanford University, Baruch College, The University of Miami, The University of Oklahoma, the University of Louisville, and New York University. Operating on the premise already presented to

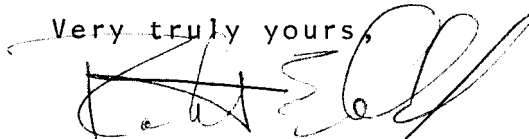

me by the Chairperson of the Economics Department to wit: the Economics Department should teach all courses dealing with matters outside the firm (macro) and the Accounting and Finance Department should deal only with specific subjects that are within the firm (micro), such as capital management, financial analysis, etc., I proceeded to determine if this was a logical and generally accepted approach.

I examined the graduate finance course listings at the subject institutions and in each case, the curriculum included one or more courses in banking theory and practice and financial or money markets. Courses were also offered in international finance, financial policy, security analysis, and other subjects. It immediately became clear to me that to assign courses to a department on a macro/micro basis was not only impractical, but based on my brief sample, certainly not the generally accepted approach.

I would appreciate it if you would read this letter to the University Senate at the time you present Economics 809 for approval. I would also ask you to request the Senate to table this course proposal until an investigation can be performed in depth and used as a basis for assigning any future course proposals in the finance/economics area.

Thank you for your consideration in this matter.

Very truly yours,

A handwritten signature in black ink, appearing to read 'Robert E. Arnold', written over a horizontal line.

Robert E. Arnold, Chairman,
Accounting and Finance Department.

<u>Department and Catalog Number</u>	<u>Course Title</u>	<u>Description</u>
Mathematics Computer Science 620 4 q.h. A Prereq: Computer Science 600	Computers and Programming	A general study of basic computer structures, data representation, addressing techniques, instruction execution and machine language. Symbolic coding and assembly systems, macro definition and generation, and program segmentation and linkage. Absolute and relocatable loaders, I/O structures.
Sociology & Anthropology 729 8 q.h. A Prereq: Admission to NOUCOM-YSU or Sociology 719 and 745 and Political Science 717, or Equivalent	Evaluation of Community Health Services Cross listed in Economics, Geography and Political Science	An analysis of contemporary American health care delivery. Each subsystem is considered with respect to its organization, social function, objectives, financing, legal responsibilities, and interactions with other subsystems; these include medical manpower; hospitals and residential care facilities; federal, state, and local health agencies; epidemiology and pathology as it relates to human variation; physiological adaptations and environmental factors; spatial organization, and distance as factors in planning and meeting needs; consumer behavior and incentives in health care. An interdisciplinary course with field observation taught jointly by and cross listed in the departments of Economics, Geography, Political Science and Sociology/Anthropology; two quarter hours may be counted toward a major, and two toward a minor in any other subjects.
Health & Physical Education 690 3 q.h. C Prereq: 590 and sophomore standing	Personal Health Problems I	Personal health information for the future teacher, Emphasis placed upon mental and physical health-related problems including drug abuse, nutrition, and chronic and communicable disease.

Health & Physical Education 565 1 q.h. A Prereq: None	Self Defense	The defensive techniques of Judo and Ikydo designed to counter attacks with a club, knife, gun or bare fist. Balance, control, safety, and falling will be stressed.
Criminal Justice 605 4 q.h. C Prereq: None	Criminal Justice	An overview of the American Criminal Justice process with emphasis upon its constitutional foundations, its constitutional limits, and the rights of an individual from arrest through sentencing and release. This course may not be used to fulfill the major requirements of the Criminal Justice Department.
Economics 809 4 q.h. A Prereq: Economics 701 or consent of Instructor	Current Problems in Money, Banking and Financial Markets	Emphasis on understanding of the financial market system including money and capital markets in the economy. Current problems are associated with trends in theory and practice. Among topics covered are theories of the interest rate and monetarism.
