

November 15, 1988.

Minutes of APC Meeting held on November 8,
1988 in School of Engg. Dean's Conference Room.
=====

Present: Professors Ahmed, Betz, Bright, Kennedy, Krishnan,
Maraffa, McNierney and Dean Sutton.

Excused: Dean Yozwiak

The meeting was called to order at 4.10 p.m.

The minutes of the meeting of October 25, 1988 was approved as presented.

Krishnan provided a framework for eliciting the objectives/goals from the academic units. Discussion centered around the basis/assumptions to be used by the academic units in developing their long range objectives/goals. As a result of the discussions, the following were some of the assumptions suggested by the members:

1. The Youngstown area will recover at a slow, steady rate.
2. The Youngstown area will continue to evolve into a service economy.
3. The population of the area will remain stable.
4. Educational level of incoming students will reflect less preparation for college work.
5. Resources available for higher education will not increase. Growth in one unit of the University will likely come at the expense of other units.
6. Technology will potentially increase productivity.
7. The University will face increased competition for the best students.
8. The area will need to adapt to the realities of global interdependence.
9. Non-traditional students and re-education will become increasingly important to the mission of the University.

These and other ideas will be discussed in the next meeting before sending out the requests to the academic units.

Meeting adjourned at 5.05 p.m.
