

**YOUNGSTOWN STATE UNIVERSITY CURRICULUM PROPOSAL for
CURRICULUM DIVISION of ACADEMIC PROGRAMS & CURRICULUM DIVISION**

UCD # <u>85-7</u>	Date Rec'd <u>10-17-84</u>	IR Code
-------------------	----------------------------	---------

School Applied Science & Technology Department Engineering Technology

Course Title CPT 700, Data System Management Change (Complete A, B, C, D, E)
 Add (Complete B, C, D, E)
 Delete (Complete A, C, E)

Chairperson's Signature W. Band Date 3/20/84 Telephone _____

A To delete or change an existing course, attach a clear photocopy of its description in the current Bulletin and list the page number.

700. Data System Management. Conventional data files and integrated data organization through structured representation of data and programs. Tasks and related table management. Prereq.: CPT 601. 4 q.h.

Page 93.

B To add or change a course, provide its description precisely as it is to appear in the Bulletin. Be succinct.

700. Data System Management. Conventional data files and integrated data organization through structured representation of data and programs. Tasks and related table management. Prereq.: CPT 601 and CPT 612. 4 q.h.

C Yes or No , this course is (to be) cross-listed with _____ (Department & Course Number)

All cross-listed courses must be identified as such in the description of all courses involved — Check B above.

D Justify the course proposal, using additional sheets if necessary. Qualified faculty must be listed for a new course. Assurances must be provided that library resources and/or physical plant facilities are or will be available.

No change in course content. The prerequisite is changed to insure that course objectives can be met through the programming languages of FORTRAN and PL/1.

E Yes or No , this proposal will affect another Department in the University. If yes, explain _____

School Fine & Performing Arts Department ART

Course Title Intaglio Change (Complete A, B, C, D, E)
 Add (Complete B, C, D, E)
 Delete (Complete A, C, E)

Chairperson's Signature  Date 4.4.84 Telephone 3626

A To delete or change an existing course, attach a clear photocopy of its description in the current Bulletin and list the page number.

720. *Intaglio*. Concentrated experiments with metal printmaking techniques. Eight hours of lab. Prereq.: Art 611. 4 q.h.

B To add or change a course, provide its description precisely as it is to appear in the Bulletin. Be succinct.

720. Etching/Engraving. Concentrated experiments with metal printmaking techniques. Eight hours of lab. Prereq.: Art 501 4 q.h.

C Yes or No , this course is (to be) cross-listed with _____
(Department & Course Number)

All cross-listed courses must be identified as such in the description of all courses involved — Check B above.

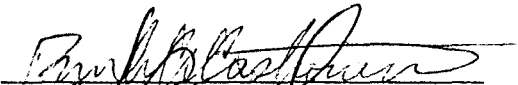

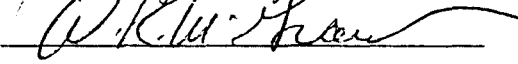

D Justify the course proposal, using additional sheets if necessary. Qualified faculty must be listed for a new course. Assurances must be provided that library resources and/or physical plant facilities are or will be available.

Students do not understand the course title, "Intaglio." The new title, "Etching/Engraving" will more clearly identify what the process is about and what the content of the course is.

The present prerequisite of Art 611 is no longer considered an appropriate requirement.

This course will carry 5.3 workload hours.

E Yes or No , this proposal will affect another Department in the University.
 If yes, explain _____

YOUNGSTOWN STATE UNIVERSITY CURRICULUM PROPOSAL for
CURRICULUM DIVISION of ACADEMIC PROGRAMS & CURRICULUM COMMITTEE

CDC # 85-10 Date Rec'd. 10-17-84 IP Code

Academic Program Secretarial Studies Department Business Education and Technology
C.A.S.T.

Deletion of _____ (Complete A and C)

Addition of BET 642. Issues and Applications in Magnetic Media (Complete B and C)

Change of _____ (Complete A, B and C)

Chairperson's Signature Violet J. Boggers Date 4-24-84

A To delete or change an existing course, attach a clear photocopy or the course description in the current catalog, and list the page number.

B To add or change a course, provide the course description precisely as it is to appear in the catalog. 642. Issues and Applications in Magnetic Media. Issues in information processing and related technologies are discussed and explored. Specialized industry applications on text editing typewriters, shared logic system, and OCR. Logging, formatting decisions, recording and extensive revisions on legal, medical, financial applications using input from rough drafts and dictation media. 2 hours lecture, 2 hours lab. Prereq: BET 641. 3 q.h. This course must be taken within one year of success

C Justify the curriculum proposal, using additional sheets if necessary. Qualified faculty must be listed for a new course. Assurances must be provided that library resources, and/or physical plant facilities are or will be available.

In addition to being able to operate the CRT's, students majoring in each of our areas need to have an ample amount of time using the CRT's in their specialized areas. For example, medical secretarial students would do a great deal of forms, history and physicals, X-ray reports, etc., on the magnetic media equipment. This course would be required for all information/word processing majors and an elective for all other areas.

No additional facilities or faculty is needed. Faculty: Dr. K. Polahar, Mrs. P. Potts

-- Check if course proposal adoption will affect another academic program in the University.
