Re: November 13 Meeting Concerning Lab Science Requirement

cc: Barbara Brothers, College of Arts and Sciences
        Betty Jo Licata, Williamson College of Business
        E. Terry Deiderick, Department of Marketing
        Ram Kasuganti, Department of Management
        Jim Tackett, Department of Accounting

I thank you for taking time from your schedule to meet with representatives of the Williamson
College of Business to discuss the lab science issue in the proposed new WCBA core program
requirements.

With unanimous support of the faculty and administration of the WCBA, the requirement that
business students take a lab science as a part of the undergraduate education has been deleted
from the proposed program. Instead, a request was made that an editorial change be made to the
proposed program -- that the wording concerning lab sciences be changed from being "required"
to being "recommended." In other words, the request was made that the status of the lab science
in the proposed WCBA core program be returned to that which exisited under the previous core
program.

REQUIREMENTS FOR A BS/BA DEGREE FROM WCBA

GENERAL DEGREE REQUIREMENTS

			QH
ENGL	550	Basic Composition I	4
ENGL	551	Basic Composition II (ENGL 550)	4
