WELL TOLERATED BROAD SPECTRUM ANTIBACTERIAL THERAPY PLUS ANTIFUNGAL PROPHYLAXIS

BROAD SPECTRUM ANTIBIOTIC THERAPY, EFFECTIVE IN MANY COMMON INFECTIONS

Because it contains Steclin (Squibb Tetracycline), MYSTECLIN is an effective therapeutic agent for most bacterial infections. When caused by tetracycline-susceptibile organisms, the following infections are a few of those which can be expected to respond to MYSTECLIN therapy:

bronchitis colitis furunculosis

2

gonorrhea lymphadenitis meningitis osteomyelitis otitis media pneumonia pyelonephritis sinusitis tonsillitis

MYSTECLIN is also indicated in certain viral infections and in amebic dysentery.

BROAD SPECTRUM ANTIBIOTIC THERAPY, WITH A MINIMUM OF SIDE EFFECTS

In clinical use, Steclin has produced an extremely low incidence of the gastrointestinal distress sometimes observed with other broad spectrum antibiôtics. Mycostatin (Squibb Nystatin), as contained in MYSTECLIN, is also a particularly well tolerated antibiotic and has produced no allergic reactions, even after prolonged administration.

> BROAD SPECTRUM ANTIBIOTIC THERAPY, WITHOUT THE DANGER OF MONILIAL OVERGROWTH

Because it contains Mycostatin, the first safe antifungal antibiotic, MYSTECLIN effectively prevents the overgrowth of Candida albicans (monilia) frequently associated with the administration of ordinary broad spectrum antibiotics. This overgrowth may sometimes cause gastrointestinal distress, anal pruritus, vaginitis, and thrush; on occasion, it may have serious and even fatal consequences.

SQUIBB

Each MYSTECLIN capsule contains 250 mg. Steclin Hydrochloride and 250,000 units Mycostatin. *Minimum adult dose:* 1 capsule q.i.d. *Supply:* Bottles of 12 and 100.

DOCTOR-LAWYER TELLS M.D.s HOW TO CURB INCREASE IN MALPRACTICE SUITS Medical Economics, Inc.

Oradell, N.J. — Just how fast are malpractice suits increasing? So fast, the late Dr. Louis J. Regan warned fellow physicians in the December issue of MEDICAL ECONOMICS, that "unless the current trend is reversed, it's only a question of time before you—no matter how conscientious you are will find yourself in court fighting a malpractice suit."

And unless doctors wake up to this fact, emphasized Dr. Regan, who was also a lawyer, "it's only a question of time before all insurance carriers withdraw from the field of professional liability coverage . . . Within the past decade, the incidence of malpractice claims has doubled. In a few places, the increase is as great as 350 per cent."

What's more, Regan pointed out, the increase in the number of claims has been accompanied by an increase in "the average cost per claim. (It) was only \$457 in 1937. It zoomed to \$1,968 in 1954."

Why haven't doctors combated the malpractice problem more effectively? "Mainly", said Regan, "because those engaged in such efforts have lacked ihe necessary (legal) knowledge." Too often, he said, "despite . . . damning evidence, an accused doctor gets a nothing-wrong-here report" from the medical society defense committee. "Is this surprising?" his article asked. "After all, the doctor is a neighbor of one committee member, a fellow alumnus of another, and an associate hospital staff officer with another."

But, Regan argued, "the medical profession *must* assume greater responsibility." How to do it? Instead of investigating malpractice suits on their own, medical societies should form joint committees of physicians and lawyers to probe all claims.

Our President Speaks

8

Christmas 1955 with its joy and merriment is now over. Let us strive to keep that feeling of "Peace on earth, Good-will to men" prevailing during 1956, and not limit it to the Yuletide season. Our nation has been built on these ideals, and it is our task to keep them perpetually alive.

Recently, the Ford Foundation granted ninety million dollars to medical schools throughout the country. This places a greater demand for our financial support of the American Medical Education Fund or our own school funds. Unless we aid in meeting their expenses in these days of inflation and diminishing returns from investments, we are promoting the possibilities of federal subsidization which would eventually bring federal control and one more step toward socialized medicine. Remember, each donation helps.

One hundred and six of our members volunteered their generous services by returning the questionnaire for committee appointments for 1956. It was most gratifying to have such a splendid response, and I would like to thank each of these members who are so willing to assist me in building a better Society.

I also want to thank you for the honor of electing me as president. I shall frequently ask counsel of our past presidents and will attempt to serve you to the best of my ability.

May all of you have a happy and successful New Year.

CLEVELAND ACADEMY SALUTES DR. SKIPP

The following is a reprint that appeared in the April issue of 1955, from the Cleveland Academy of Medicine's "The Bulletin".

"It's apparent that "no man hath greater love" for his profession than Dr. William M. Skipp, of Youngstown, who has been serving as a member of the AMA House of Delegates from Ohio since 1941.

Dr. Skipp, who has held practically every elective office in Ohio medicine, including that of state president, attended the AMA Clinical Meeting in Miami. Like other delegates, he worked hard on AMA policy matters. Then he returned home and began the laborious job of writing a detailed report, not only House business, but of what transpired at the Seventh Medical Public Relations Conference which was held the same week. When he finished the manuscript, he had it printed in pamphlet form, presumably at his own expense, and mailed it, again at his own expense to more than 1,200 members of the Sixth Ohio Councilor District. The attractively printed pamphlet, entitled "Keeping Up With the AMA," contained 32 pages."

We all certainly owe Dr. Skipp a hearty congratulations and sincere thanks.

COUNCILOR'S PAGE

The State Council met at the Association's headquarters in Columbus, Ohio on December 10th and 11th, with all members being present. I urge you to read the report in the January issue of your Ohio State Medical Journal, because, afterall, it was your business that was transacted. I wish each of you would attend a Council meeting and see the serious effort put forth in trying to get solutions to your problems.

Your Mahoning County Medical Society had a meeting on December 20th, for the purpose of electing officers for 1956. By the attendance, it was obvious that many of you do not realize the importance of attending these meetings. Instead of criticising Council and the interested members who attempt to solve the problems that confront our Society, resolve to do your share. Attend these meetings, and you will be strengthening your Society and your profession.

Each of us has received from the AMA a "Clinical analysis of H. R. 7225", together with a letter from Dr. Elmer Hess, asking for your comments and support. This message is probably one of the most important professional communications you have received this year. The bill would amend the Social Security Act and would be a significant step toward converting the Old Age and Survivor's Benefit System into a medical care program. It is the most subtile and hence the most dangerous approach to this end yet devised.

If you have not already replied to the letter of Dr. Hess, do so immediately. H. R. 7225 is no mere threat on the horizon; it is under way now. It was rushed through the House and will be considered by the Senate when it reconvens in January.

Happy New Year !!!

C. A. Gustafson, M.D.

THIS DOCTOR BELIEVES IN ORIGINALITY

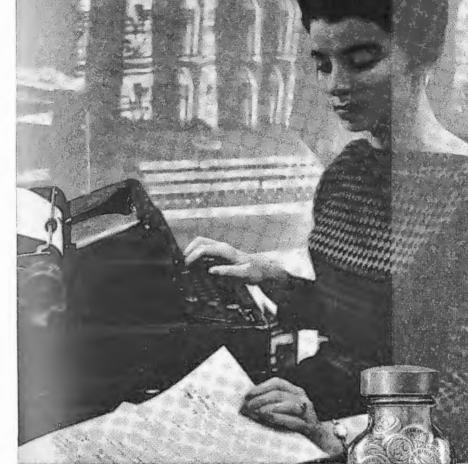

With more and more interest being stimulated within the medical profession relative to H.R. 7225 which would grant a cash disability benefit system on to Social Security a 71 year old Woodstock, Conn. physician came up with a clever idea for fighting this proposed legislation in his own way. He sent his personal prescription blanks to the two U. S. Senators of his state with the following Rx and his signature:

"Rx One vote against H.R. 7225.

Sig: Take as often as necessary to prevent economic indigestion and other dire effects should the Bill be passed. Prescription may be refilled and given to friends."

In Los Angles, Regan pointed out, such a committee has already been established. It, in turn, "has set up a panel of expert witnesses. By accepting listing on this panel, a physician agrees to accept employment by plaintiff's attorneys in malpractice cases. When so employed, he examines the plaintiff, investigates the claim, and gives an impartial opinion on its merits. If necessary, he also offers testimony when the case comes to trial."

"This cooperation between doctors and lawyers is clearly in the public's interest," concluded Dr. Regan. "thus it helps take the onus off the medical profession" and does a real job of separating legitimate and illegitimate malpractice claims.

Chamber Directors Back Hoover Medical Recommendations

The Hoover Commission recommendations on federal medical services now have the full support of the United States Chamber of Commerce. The medical recommendations are among a group of nine Hoover recommendations given the indorsement of the Chamber's Board of directors.

In backing the medical and other recommendations, the Chamber will: (a) offer its assistance to Congressional committees studying the Hoover bills, (b) work for establishment of Congressional steering committees to direct, and expedite legislation, and (c) refer Congressional committees to the "highly qualified trade and professional associations and citizens groups" which are in a position to study technical questions.

More important of the Hoover medical recommendations would: 1. Establish a Federal Health Council. 2. Provide contributory health insurance for military dependents and for personnel and dependents of the Coast Guard, Public Health Service and Coast and Geodetic Survey. 3. Regionalize military medical services, with one service made responsible for each region. 4. Tighten up ability-to-pay requirements in VA and codify VA laws and regulations. 5. Change the Armed Forces Medical Library into a National Medical Library. 6. Virtually wipe out the present Public Health Service hospital and medical care program.

SOUTH SIDE HOSPITAL AUDITORIUM

Within the next two months the Auditorium at South Side Unit of the Youngstown Hospitals will be completed, where the old surgery was located. It will have a seating capacity of 215 and includes a projection room, a retractable screen and a stage with ample blackboard space for lectures. There is also a small conference room, and the auditorium will be air-conditioned.

There will be an outside entrance, so that the hospital proper does not have to accommodate any extra load.

The auditorium is primarily for Staff hospital meetings, sectional meetings, conferences and other necessary teaching functions that it may so well serve. It may also be used by other groups whose functions are related to the hospital itself.

FROM THE BULLETIN

Twenty Years Ago — January, 1936

The year 1936 marked the emergence from the Depression. We did not know it that January, when President L. G. Coe wrote "Our recent years of depression have so effected all of us, have given rise to such changes and alterations in our economic, social and political viewpoints and philosophies that the expressed wish for a Happy New Year carries with it . . . a more poignant meaning than heretofore."

Dr. H. E. Patrick was the new Editor of the Bulletin. Paul Fuzy was President-Elect, R. B. Poling was Secretary. All the Delegates have left us now and their names conjure up many happy memories: McCurdy, Norris, Walker and Stewart. E. C. Baker headed the Program committee, Elmer Nagel the Public Health Committee and F. W. McNamara the Entertainment committee.

As usual, the Secretary complained about the poor attendance at the annual business meeting when such minor business as electing the Society officers was transacted by 64 of the members.

Dr. John L. Davis, a Methodist minister from New York addressed the annual banquet. He was a brilliant and witty speaker. I remember his simile about the train robbers. He said, "If five men who are well organized and equipped can hold up a trainload of three hundred people, an organization of one hundred eighty doctors could, well the implication is obvious!" He was joking but the doctors carried home with them his final plea for naturalness and truth in their daily lives and their relationship with their patients.

Mrs. Rebecca (Oscar) Gayton wrote an entertaining article on "The Perfect Cure" for athlete's foot. She enlightened the doctors with a dozen "sure cures".

E. R. Thomas wrote about "Acute Mesenteric Adenitis In Children" and gave the differential diagnosis between it and other acute abdominal lesions. He warned about overlooking the most common enemy of the child's abdomen, acute suppurative appendicitis.

Ten Years Ago - January, 1946

Edward J. Reilly was President and George McKelvey was President-Elect. V. L. Goodwin was Secretary and P. J. McOwen the Treasurer. C. A. Gustafson was Editor and had Mary Herald, now Executive Secretary to help him. Delegates were E. J. Wenaas, John McCann, Bill Skipp, E. C. Baker, J. J. McDonough, and W. J. Tims.

V. L. Goodwin headed the Program Committee, J. K. Herald was social chairman, Sam Zoss had Post-Graduate Day, John McDonough was in charge of Public Health. DeCicco was Economics chairman, Tims had Public Relations and Getty the Indigent Relief.

John Heberding was again chairman of the Cancer Committee. He announced that the campaign to raise funds last April had brought in \$14,000.00 and that there was \$6,000.00 available to start cancer detection clinics in Youngstown.

There were 232 active members, 5 interne members, 12 non-resident, 6 honorary and 1 associate. Forty-four members were not yet discharged from military service. Eighty-two of the active members were working on committees.

The service records of Major P. R. McConnell, Capt. M. H. Steinberg, Capt. L. H. Moyer, Major S. D. Goldberg, Major Asher Randall, Comdr. Stanley Myers and Capt. O. M. Lawton were published. Major Fred Coombs addressed the regular monthly meeting on the "Therapeutic and Toxic Effects of The Salicylates." Captain Barclay Brandmiller arrived home after Christmas but in time for New Years Day.

Dolophine Hydrochloride

(METHADON HYDROCHLORIDE, LILLY)

An excellent analgesic, more potent than morphine

'Dolophine Hydrochloride' offers prompt, profound analgesia in all types of pain, including obstetrical labor. Minimal sedative effect and relative absence of euphoria further enhance its usefulness in all conditions in which a dependable analgesic is indicated.

'Dolophine Hydrochloride' is notably effective for the relief of severe pain due to malignant tumors and metastases, renal colic (in which spasm of the urinary bladder is also alleviated), and postoperative pain.

As an antitussive, 'Dolophine Hydrochloride' is usually superior to codeine, because it suppresses cough for longer periods of time.

Available in 2.5, 5, 7.5, and 10-mg. tablets; single and multiple-dose ampoules; and syrup which contains 10 mg. of 'Dolophine Hydrochloride' per 30 cc. Narcotic order required.

A.M.A. 8th MEDICAL PUBLIC RELATIONS CONFERENCE November 28, 1955 HOTEL STATLER, BOSTON, MASS. By Wm. M. Skipp, M.D. Ohio Delegate

OPENING SESSION:

THE KEYNOTE ADDRESS: "What's ahead for American Medicine" was given by Dwight H. Murray, M.D., Napa, Calif., Pres-elect of AMA. He stated some of the things we try to predict may be wrong. There are scores of pressure groups trying to get favors. Money will be pledged to get votes on the many measures which will be put before Congress and which will affect medicine.

AMA watches all these carefully and recommends we be in favor of the bill for a new Library of Congress. AMA is studying insurance for low income groups. Social Security should also be studied and a report made to the American people of what has been done with the money collected.

We want continued better public relations and should study our relations with our neighbor. We are not the only ones interested in free enterprise . . . millions are interested in this problem. We should get into active associations of other "doings" in our communities. We say we are too busy and give no time to community organizations. We should try to give guidance to local political groups, join these groups . . . chat with our neighbors.

Many County and State societies have set up PR programs with doctors doing a good job. But we should not sit back and say "We have done a good job, let's quit now." 1956 is coming . . . what are we going to do about the new problems?

Congressmen say we (the medical profession) have been smeared. So things we stand for can be defeated by those opposed to us. No problem is so large it cannot be solved if we all work together.

SYMPOSIUM: A LOOK AT '56

IN LEGISLATION

Report by David B. Allman, M.D., Atlantic City, N.J., Chairman Committee on Legislation AMA.

A lot of bills that were introduced, not too serious, were opposed by us and so we have become unpopular. It is difficult to tell what will happen in Congress. Over 400 medical bills are still pending in Congress.

For instance H.R. 7225 Changes in Social Security Act.

This favors cash payment for permanent disability, cash payment for children over 18 yrs. if ill or disabled. Keep this bill in Committee of Senate. It sailed through Congress with 31 votes against. It has a very popular appeal. We must present this to the members of the Senate Committee, see the Senators, tell them why we oppose this plan, that it should be given more study to see where it will lead, how much it will cost the people (it will cost a lot of tax money). We are not opposed to Social Security. The Democrats are in favor of this bill if the Administration okays it. We are in trouble, Senator Byrd will have trouble in the Committee if it comes out. Physicians will be in compulsory Social Security. We will need a lot of help from outside our profession and must show other organizations how to help. have you considered

THE JENKINS-KEOGH BILL for deferment of tax money for a private pension plan has received favorable consideration in Committee but they think there is no favorable indication for passage if separated from the Social Security Bill.

VETERAN BILL WILL BE A FIGHT. OSTEOPATHIC BILL is for commissions for osteopaths in Armed Forces but do not think it will pass Senate as services are opposed.

REINSURANCE IS a dead issue at present, will not pass House or Senate. Loan of money to rebuild HEALTH CENTERS should be defeated, this is private banking business, not that of Federal Government.

BARBITURATES have been discussed in press, etc. and it does not seem it will pass.

BRICKER AMENDMENT will limit treaty agreements, even in state and national agreements. We should be for this as citizens. Think it would pass if voted on now.

Lot of give-away bills will get votes. All organizations must work together to keep our American way of life.

IN MEDICAL SERVICE

Report Joseph D. McCarthy, M.D., Omaha, Neb. Chairman, Council on Medical Service, AMA.

All should know what is going on in Medical Service both in County and State Societies. They have seventeen projects for 1956:

Physicians relations one to another and to other organizations.

Relations of physicians to hospitals (this is still a hard nut to crack and causing trouble in some areas).

Medical teachers practicing in same areas as they teach are causing α lot of trouble.

HILL-BURTON MONEY: Will build health centers, they say one for every 10,000 people.

UNION-MANAGEMENT HEALTH CENTERS. Some have been set up and there has been a gradual increase in these centers by unions, from 17 to 40 in the last year.

CEREBRAL PALSY AND POLIO: Organizations for treatment of these cases have been set up and are spiralling. Must be watched. Medical Service is giving this study.

Up to now placement service has been made for GPs, now specialists are asking for places to locate so Council will have to give this study and help.

Committee is working on standards for prepared medical and hospital insurance.

Study to be continued for medical protective insurance.

Council needs help of local and state societies in regard to type of practice being set up in local areas.

QUESTIONS AND DISCUSSION: "The Doctors' Future in America" V. C. ROYSTER, N.Y.C., N.Y., Sr. Associate Editor, Wall St. Journal:

Look at Social Security, and at the patient which is the medical profession:

A. Type of social medicine

B. Panelized medicine

C. State payment

Common to all is that the doctor is dependent to the state for payment. The patient is dependent on the state for treatment. This is like cancer which will spread.

Socialism in all forms: farm relief, housing, socialized medicine will come. We of the professions are the victims of this setup: patients will see they are getting free care; doctors see that it will stabilize fees. The patient in this case, the medical profession, is vulnerable to this disease.

The medical profession is in high repute now medically; socially it is in bad repute. Where the old doctor may have lacked medical knowledge he gave spiritual help to the family. The new doctor now has a lot of effect on the patient by giving shots, we now have assembly line medicine, so that is why socialized medicine will take hold.

The doctor is now a business man: starts to think of cost of education, equipment, etc., why should he get up at night to see a sick child? Thinks why should he be treated differently from a house builder.

Some hospitals do not let doctors on staff, men of high repute cannot practice in small hospitals near where they work. When Blue Cross started some physicians were opposed.

People do not understand . . . the old idea still holds that doctors are a privileged class, but still holds with the doctors as a business . . . they cling to, but do not live up to the claim of being a privileged class.

Doctors need to oppose socialism wherever it raises its head. Medical profession needs to build up internal assistance. Medical profession can change internal affairs, which will make good P.R.

As to the men picked as Doctor of the Year . . . all are old, where are the young men? The older ones are the ones with good P.R., they do not consider the dollar first. What is done to prevent socialism rests with the medical profession.

Why we resist socialized medicine is that under it we could not practice medicine as we see it should be practiced. The government has reduced some governmental controls such as wage control, but are trying to get those back. There never should be a federal conference on education, it has always been a local matter. But we failed at the local level, that is the reason for the conference. You are going to keep it out of the front by keeping it a local problem. We are not going to win unless we can take the heat off back home.

The average doctor says he has no time for local affairs outside the practice of medicine but should give more time to local organizations. The old desire is to grab for power to take it away from the people. Leadership exerted at the local level must be continued.

PROCEEDINGS OF COUNCIL

The regular monthly meeting of the Council of the Mahoning County Medical Society was held at the offices of Dr. Neidus, 318 Fifth Avenue, Youngstown, Ohio, on Monday, December 12, 1955.

The following doctors were present: I. C. Smith, President, presiding, G. E. DeCicco, A. A. Detesco, M. W. Neidus, S. W. Ondash, C. A. Gustafson, F. G. Schlecht, A. Randell, V. L. Goodwin, A. K. Phillips, and Robt. Tornello, comprising the Council, also Mr. F. M. Crosby from the Associated Hospital Service.

Mr. Crosby explained the availability of Blue Cross and Blue Shield to Society members upon sponsorship. The new 120 day plan is available providing we can enroll 75 percent of our members.

Council instructed the Executive Secretary to canvass the members in an effort to ascertain if 75 percent were interested in the new plan and report back to Council.

Council discussed a meeting to be held in Columbus, January 15 at which time Medical Health Surveys would be discussed, in particular the GE plan which operated in Youngstown.

Council recommended sending a representative to the meeting.

The following applications were presented by the Censors:

NEWS NOTES

Dr. and Mrs. L. H. Moyer returned recently from a six weeks tour of Europe and the Near East. They traveled mainly by air and spent time in Paris, Copenhagen, Istanbul, Cairo, Rome, etc. They returned by way of the Italian Liner, Andrea Doria, from Naples.

Dr. George Cook is back at work after convalesing from surgery. Dr. J. Clair Vance is also on the mend after undergoing surgery at North Side Hospital.

Our congratulations to "Candy Butchers" Dr's. John McCann, Ivan Smith and James Brown for helping to make Esther Hamilton's 25th Christmas Show such a success.

People have been moving south; Dr. and Mrs. Arthur Shorten and family are getting settled on Raccoon Road. Dr. and Mrs. Joseph Kupec and family on Lockwood Boulevard, and Dr. and Mrs. E. R. McNeal on Fairground Blvd. in Canfield.

On December 22, Sidney Franklin, M. D., LL. B. lectured on "LEGAL IMPLICATIONS OF HEAD INJURIES" at the Cleveland State Hospital.

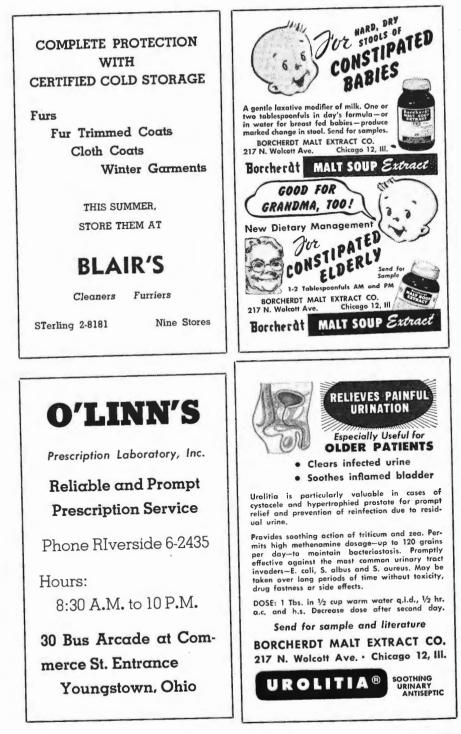

3-INJECTION METHOD TO BE CONTINUED FOR SALK VACCINE

A technical committee on the Salk poliomyelitis vaccine has agreed unanimously, and Department of HEW officials have concurred, that the present system of three injections should be continued. The group rejected a proposal for a single injection to get the limited supply to more children. PHS Surgeon General Scheele summed up for the committee in these words: "Although it is evident that the injection of 1 cc produces a marked degree of immunity, it was found that there is not enough scientific evidence on the duration of immunity after a single dose to lead to any recommendation for a change in the present dosage."

Accordingly, this remains the procedure: two injections, with the second following four to six weeks after the initial dose or as soon thereafter as possible; then a booster shot seven months or later after the second injection. Each shot 1 cc.
