From the Desk of the President

I am writing this following the clinical meeting of the American Medical Association in Miami Beach, Florida. For the first time in my medical career I attended the open sessions of the House of Delegates. It was a valuable and enlightening experience. Moreover, I learned that most of the general sessions of the House of Delegates are open to all members of the AMA. In fact, they are welcomed. Seating space, however, is the principal problem and obviously limits the number that may attend.

I was pleased and proud of this dedicated body of men who work long hours on innumerable committees, all of which relates objectively in one way or another to better care for the patient.

While King-Anderson type legislation is reported out of one, and only one committee, the report on this bill, with its new lease on life following the Democrat landslide, hung like a shroud over the entire meeting. Further, President Johnson's apparent plan to push for early passage of a medicare bill under Social Security in the 89th Congress was all the more frustrating.

I wondered—How could Congress pass a law that must ultimately pose bankruptcy for the present Social Security system in the United States, remembering that this same Social Security system has present obligations of more than \$625 billion dollars, and a trust fund of less than \$22 billion dollars?

What would happen in a recession, or depression, if a steadily expanding medicare bill were added to this present awkward imbalance?

How can Congress pass a law that will impose a compulsory tax on the young worker, with a moderate income, to pay for hospital care for millions regardless of the financial needs of the beneficiaries of such services?

Why does Congress fail to push and help implement the Kerr-Mills law in all states? Kerr-Mills helps those that need assistance using the present available social, state, and local facilities.

How can Congress pass a law that excludes the long, valid, and reliable experience of Blue Cross and the private insurance industry in providing the hospital services for the elderly?

How can Congress pass a law that will in effect accept the principle of socialized medicine and commit the United States to an irreversible program destined for expansion?

How and why?—Politics! Political expediency! Votes! The professional politician will tell you this is a political bill not a medical bill.

Yet—Politics is the "art of the possible". Perhaps there is still a chance that the people of our country and the Congress, if properly informed, will reject this socialized scheme and demand a law that the doctors can support—a free enterprise law—one that works best in our democracy.

Anyway, at this eleventh hour, the AMA will now go all out, using every means at their disposal to educate the public and the Congress of the United States that "Medicare" is socialized medicine—bad medicine—bad for the patient and bad for the country. To accomplish this, objective, massive action in an imaginative and dramatic way will be required.

Meanwhile, the overwhelming majority of the doctors of our land will fervently pray that the United States Senate and House of Representatives will transcend political expediency and use deliberate and intelligent statesmanship to resolve this major legislation.

To all freedom loving Americans the prophetic words of the poet John Donne were never so loud or so clear: "And therefore never send to know for whom the bell tolls; it tolls for thee." —John J. McDonough, M.D.

— EDITORIAL —

1965 will be an active, dynamic year for this Medical Society. The members elected and appointed to positions of leadership are interested and vital physicians who will recognize and face our problems. They will seek solutions in the light of their understanding of modern Medicine, set against the background of today's society. Most of all, they will be prepared to act when their convictions prompt them to do so.

A new program of public relations will be initiated this year. This will be one of the most ambitious projects the Society has undertaken. Details are not yet available, but the project should do much to improve the physician's image in this valley, which is the theme for this year's administration.

The fight against King-Anderson type of legislation will of course continue. Statistical analyses and numerical calisthenics, though valid and true, have apparently had little influence on our opponents. We are not qualified economists, and everyone is aware of this. Most people feel that numbers can be juggled to prove anything the juggler desires. It is better to show the world those facts that we are traditionally most qualified to prove. We must emphasize, both in word and action, the positive values of Medicine, as practiced today: exemplary patient care, warm and empathetic physician-patient relationships, availability in emergencies, and patience and understanding. It is these positive values that are in danger under a system of federalized Medicine.

What role will the Bulletin play amidst all this activity? We will attempt, above all, to be practical. We will print news and commentary appropriate to the moment. We will try to keep you informed, and we will be available for your comments and suggestions. We will publish material of value to the man in practice. We will encourage full participation by the members in the affairs of the Society. And we will feel free to editorialize.

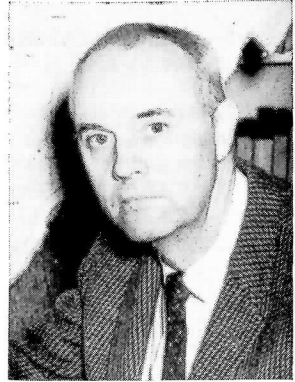

—Kurt J. Wegner, M.D.
Editor

JIM COMSTOCK IS INAUGURAL NIGHT SPEAKER

There are two rather noteworthy things in connection with the 1965 annual banquet of the Masoning County Medical Society to be held on Wednesday, Jan. 20, at the Youngstown Club. One of them is the change of format that makes it a stag affair. The other is Jim Comstock, the speaker.

Jim Comstock, editor of *The West Virginia Hillbilly*, an all-state newspaper, and *The News Leader*, a county paper for his native Nicholas County, wouldn't live anywhere in the world but West Virginia.

He tells why. "When I came to West Virginia I was a more or less hopeless invalid. I could only make my wants known by a strange kind of noise. I could not walk, or in truth, sit alone. I was not conscious of my surroundings, and took very little interest in the world about me. But the healthy climate of this state slowly wrought a change in me. It wasn't long until I had my voice and could make my wants known. It is all a joke of a kind, but a good one. I was born in West Virginia."

Jim Comstock was born in Richwood, the town that he has always lived in, in 1911. He went away three times: Once to college (Marshall,) to defense work in the war (General Machinery at South Charleston,) and to fight in the war (Navy.) He married a home product and produced three more home products, and two of those products have now produced him three grand-children. His mission is to tell you about the product that gave him more trouble than all his products, his newspapers.

Mr. Comstock's main hobby is book collecting, a thing that has now become a part of his newspaper business because he follows all the book markets out of West Virginia—Cleveland, Baltimore, New York—and brings back the books that deal with the mountains and sells them to mountain people.

About his hectic newspaper life, he says: "Shakespeare summed it up. He said: 'Some editors are born wacky, some acquire wackiness and others have wackiness thrust upon them.' Mine has been thrust."

Jim's acceptance of the invitation sent by Dr. Berg, program chairman, was typical. The entire letter read: "I'll be with you on January 20, God willin' and the creek stays dry."

In a later letter of confirmation, he stated, "I would love to come as you don't have to draw any pictures for doctors, and you have the time of your life along with the audience."

The banquet will be in honor of outgoing officers, and new officers will be installed. Ceremonies will include the presentation of an appreciation plaque to Dr. Jack Schreiber, retiring president, and the presentation of a bound volume of the 1964 Bulletin to the Editor, Dr. R. G. Warnock.

Reservations for the inaugural night banquet should be sent to the Medical Society office. The Youngstown Club capacity is limited to 96, and reservations cannot be taken after that total is reached. Cost for the evening will be \$6.00 per person. Social hour at 6:30 p.m. Dinner at 7:00.

VOLUNTARY HEALTH ORGANIZATIONS

I. Introduction

In most communities, there are a number of voluntary health agencies, usually local chapters of national organizations, which perform various services—educational, research, and, in some instances, medical care—in various health spheres. These agencies reflect the interest and concern of the American public with the improvement of health and eradication of disease. They are effective channels through which individuals can actively demonstrate an interest in community affairs. In general, these organizations often fill gaps in the health field which might otherwise go unfulfilled, and they often unite the medical profession with other volunteer citizens in attacking health problems. However, the relationships of these agencies to the practicing physicians and the medical society are not always clear. Nor are we always informed of the precise functions of each of the agencies. In the hope of clearing up these and other questions, this article and several others in subsequent Bulletins have been written.

Today's article discusses the general attitude of Medicine toward these agencies, and explores the various physician-agency relationships. Subsequent articles will deal in detail with the actual, concrete services available to practicing physicians and their patients in our community. The material for today's discussion comes in large part from the *American Medical Association Directory of National Voluntary Health Organizations*, 1964 Edition. The remaining information was culled from answers received to a letter sent to most of the local voluntary health agencies. This letter, dated October 7, 1964, requested information regarding actual services available, methods of obtaining these services, professional staff, and finances.

Since the community looks to physicians for endorsements of a health agency, the physician should speak well of an agency whenever possible. The agencies are generally organized by interested and dedicated volunteers, and deserve our understanding, assistance and support. The official attitude of the AMA agrees with this opinion:

"The voluntary health movement . . . develops a mutual respect and understanding between the medical profession and other dedicated persons by blending the talents of both to achieve an effective program. The AMA has always recognized the valuable contributions of the voluntary health agencies in the health field."

The AMA suggests the establishment of certain relationships and the recognition of mutual obligations between medical societies and voluntary health agencies. Medical society activities to promote understanding of these agencies are considered highly desirable.

What is the role of the individual physician in relation to the voluntary health agencies? He may play four different roles, or sometimes a combination of them:

- (1) He may be delegated as an official representative of his medical association, in which case he acts for the medical society expressing the consensus of his colleagues.
- (2) He may be called on by an agency to serve it as an individual physician in ways suggested by his specific professional interests.
- (3) He may seek membership on his own accord and become active in an agency's program because of his own interests.
- (4) He may use a health agency as a medium for public service as a private citizen interested in his community and regardless of his profession.

"The obligations of these roles are quite different. Both the physician and the voluntary health agency he is serving must recognize the particular role being played." (to be continued)

epilepsy may limit
opportunity...

Dilantin[®] (diphenylhydantoin)

PARKE-DAVIS

extends horizons

This agent "...has brought new hope to an entire generation of seizure patients...With judicious use, it may be said that it alone is responsible for the prevention of more seizures than any other drug."*

DILANTIN (diphenylhydantoin) can help your epileptic patient to earn a livelihood...to prove his worth...and to share in the daily give-and-take as a full-fledged member of the workaday world.

Indications: Grand mal epilepsy and certain other convulsive states.

Precautions: Toxic effects are infrequent; allergic phenomena such as polyarthralgia, fever, skin eruptions, and acute generalized morbilliform eruptions with or without fever. Rarely, dermatitis goes on to exfoliation with hepatitis, and further dosage is contraindicated. Eruptions then usually subside. Though mild and rarely an indication for stopping dosage, gingival hypertrophy, hirsutism, and excessive motor activity are occasionally encountered, especially in children, adolescents, and young adults. During initial treatment, minor side effects may include gastric distress, nausea, weight loss, transient nervousness, sleeplessness, and a feeling of unsteadiness. All usually subside with continued use. Megaloblastic anemia, aplastic anemia, leukopenia, granulocytopenia and pancytopenia have been reported. Nystagmus may develop. Nystagmus in combination with diplopia and ataxia indicates dosage should be reduced. Periodic examination of the blood is advisable.

DILANTIN (diphenylhydantoin sodium) is supplied in several forms including Kapseals[®] containing 0.1 Gm. and 0.03 Gm.

From the Bulletin

THIRTY YEARS AGO—JANUARY 1935

The speaker at the banquet was announced in the Bulletin to be an outstanding humorist but he spoke on "The Continuous Intravenous In The Treatment Of Peptic Ulcer" which wasn't very funny.

This writer was President that year. L. G. Coe was President-Elect. P. J. Fuzy was Vice-President and Wm. Skipp was Secretary. Earl Brant headed the Program Committee, H. E. Hathhorn had charge of Public Health and R. B. Poling Public Relations.

Youngstown Hospital Staff had a roaring party at Renners Brewery in the Club Room and raised \$400.00 for the library. The old brewery was torn down last November.

TWENTY YEARS AGO—JANUARY 1945

There were 234 active members of whom 68 were still in military service. W. H. Bunn was President, E. J. Reilly was President-Elect. George McKelvey was Secretary and Vern Goodwin, Treasurer. Edgar Baker was Editor of the Bulletin.

It was a hard winter. There was no banquet. There was much sickness and the work load was terrific.

From the President's Page: "Downright fatigue makes it impossible to read at night. Post-Graduate courses are not available. We must therefore try to bring the best speakers in the country for our monthly meetings."

Major Herman Ipp was heard from, address not stated. Capt. M. M. Kendall was in England for his second Christmas. Apprentice Seaman James Smeltzer and Paul Fuzy, Jr. (medical student) were home for the Holidays. Lt. James Miller was home for the first glimpse of his new son.

TEN YEARS AGO—JANUARY 1955

Ivan Smith was President. G. E. DeCicco was President-Elect, Andy De-Tesco Secretary and A. K. Phillips, Treasurer. Robert Tornello was Editor of the Bulletin. There was a new addition, an Executive Secretary, Mary Herald.

Mary had been running the Medical-Dental Bureau and doing so much extra work for the Medical Society that she became indispensable and so was our first Executive Secretary.

The Society voted the following schedule of fees: Office calls \$4.00. House calls up to 5:00 p.m. \$5.00, after 5:00 p.m. until 10:00 p.m. \$6.00, after 10:00 p.m. \$7.00.

Dr. M. C. Hanysh became a member of the Society. Frank Inui was a new member.

Serpasil and Thorazine were new "wonder drugs" exciting much interest.

Herman Ipp was President of the Academy of General Practice, Asher Randall was President-Elect and Fred Resch the Secretary-Treasurer.

Pitcher Satchell (Old Satch) Paige's rules on keeping young: "Avoid fried meats which angry up the blood . . . If your stomach disputes you, lie down and pacify it with cool thoughts . . . Keep the juices flowing by jankling around gently as you move . . . Go light on the vices, such as carrying on in Society. The social ramble ain't restful . . . Avoid running at all times . . . Don't look back, somethin' might be gaining on you." —J. L. F.

NEW ACTIVE MEMBER

DR. LEONARD N. GREEN, a neurologist, was born at New York City on March 29, 1935. He attended Jamaica High School and Yeshiva University in New York, receiving his B. A. degree in 1955. He was graduated from Albert Einstein College of Medicine in 1959, and took his residency in Neurology at Bronx Municipal Hospital Center from 1960 to 1963.

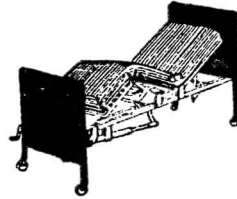

Dr. Green came to Youngstown in June of 1963, in association with Drs. Oscar A. Turner and Leon L. Bernstein. In 1964, he moved to his present office at 510 Gypsy Lane.

Dr. Green has passed his National Board of Medical Examiners and is a member of the American Academy of Neurology. He has published a paper entitled, "A Case of Hypertrophic Interstitial Neuritis Associated with Cerebellar Degeneration and Dementia."

His wife is the former Adele Cohen, and they have one child, Lawrence J. They live at 3037 Northgate. Dr. Green is a sports enthusiast.

ANNUAL CLINICAL CONFERENCE
CHICAGO MEDICAL SOCIETY

March 1, 2, 3 and 4, 1965

THIS CONFERENCE IS DESIGNED TO BE OF INTEREST TO ALL PHYSICIANS. It is not sectionalized by medical specialties, but by types of disease entities. These will be presented in a manner designed to interest the generalist and specialist alike. All physicians, regardless of their principal areas of practice, should find much in this program which will be informative and useful.

Bulletin Board

The Staff of St. Elizabeth Hospital thanks the officers and other members of the Mahoning County Medical Society for delaying the starting time of the recent December meeting in order to permit the St. Elizabeth physicians to attend the annual hospital Christmas Dinner. It was most gratifying to see the tremendous number who, upon leaving the dinner, made their appearance at the Medical Society meeting. It is to be hoped that this is a harbinger of continued good attendance at future meetings of the Society.

Congratulations are in order to the following men for passing their specialty Boards: Elias T. Saadi, American Board of Internal Medicine; William J. Cleary, American Board of Internal Medicine; Michael A. Kachmer, American Board of Psychiatry and Neurology; and Michael Vuksta, American Board of Surgery. Drs. Saadi and Vuksta are the first physicians on our Staff who have obtained their complete post-graduate medical careers at St. Elizabeth and have then gone on to Board recognition.

The following physicians have been elevated to Fellowship in the American College of Surgeons: Edmund A. Massullo and John P. Kalfas.

All of us are proud of these men and their professional achievements.

Our sympathy is extended to Dr. Stephen Ondash on the passing of his father. Steve and his dad had been very close, and the loss will be felt for a long time.

We also extend our sympathy to the family of Dr. Robert B. Poling. Dr. "Bob" was with us a long time and was one of the stout pillars of the St. Elizabeth's Staff. He was a former president of the Hospital Medical Staff and also for a time served as Director of Pathology at St. Elizabeth's.

Results of the recent Staff elections at the hospital are as follows:

President—C. E. Pichette.

Vice-President—A. K. Phillips.

Sec.-Treasurer—Robert B. McConnell.

Director of Medicine—L. P. Caccamo.

Director of Surgery—Stephen Ondash.

Director of E. E. N. T.—L. O. Gregg

Director of O. B.-Gyn.—F. J. Gambrel.

Director of General Practice—Louis Gasser.

Representatives to the Executive Committee—V. L. Goodwin and H. J. Reese.

Representative to the Associated Hospital Service—J. F. Stotler.

Flash!!! The Attending Staff has been challenged to a basketball game by the interns and residents. The date has been set for early February. It is suggested that the Staff start using their respective kink-removers. In order not to load the emergency rooms on that night, it is requested that all members of the disaster teams attend the basketball game, so that the boys do not have to be removed from the scene of carnage.

The undersigned wishes to take this opportunity to extend Happy New Year greetings to all from St. Elizabeth's Hospital Staff. He further states that the New Year will continue to be a happy one if the Staff men will cooperate by providing items of information and interest to this column.

—Harold J. Reese, M.D.

In Memoriam

DR. R. V. CLIFFORD

I first met Dr. Richard Clifford when he interned at St. Elizabeth Hospital in 1931. Through the years he made many contributions to the welfare of patients, interns, residents and all connected with medical care.

He did an excellent job as chairman of a committee studying many hospital and doctors' coverage plans for the Mahoning County Medical Society. This work finally resulted in the adoption of the OMI plan. It was a crowning victory for Dr. Clifford as he died the night of its adoption after he addressed the society.

Dick had a great sense of humor and was a fine story teller. He contributed a great deal to our surgical training program at St. Elizabeth's. He represented St. Elizabeth's as representative to Blue Cross for many years.

We shall miss Richard. —M. W. Neidus, M.D.

* * * * *

Dr. Richard V. Clifford died at his home on Nov. 19, 1964. He was born Oct. 15, 1906 in Greenville, Pa. He received his B. S. degree from Duquesne University in 1927, and his M.D. degree from Georgetown University in 1931. For many years his office was located at 19 Lincoln Ave., until he recently moved to the Park Ave. Professional Bldg. During World War II, he was a Commander in the U.S. Navy, and was active in the Naval Reserve until just before his death.

DR. ROBERT B. POLING

Upon the death of Doctor Robert Burton Poling, December fifteenth last, the community and the medical profession suffered the loss of one who may truly be described as a scholar and a gentleman. Although incapacitated by illness the last several years of his life, he still maintained the friendly mien and alert intelligence that characterized him. His passing from the scene will be long remembered with regret by his legion of patients and friends, but his presence will be recollected with memories of kindness and understanding.

Dr. Poling was born June 4, 1890 in Logan, Ohio, where he received his preliminary education. He was graduated from Ohio University in 1917 with an A. B. degree and in 1923 from the University of Kentucky with an M.D. degree. He interned and practiced in Louisville until 1925 and then came to Youngstown where, in addition to practicing medicine, he was the pathologist to Saint Elizabeth Hospital from 1926 to 1936. Prior to entering medical school he taught in the biology department at Ohio University, and, following his completion of study for the M.D. degree, he taught at the University of Louisville.

Dr. Poling was a member of many professional, fraternal and social organizations and served with distinction both Saint Elizabeth Hospital as its chief of staff from 1947 to 1951 and the Mahoning County Medical Society as its president in 1950.

His survivors include his lovely wife, the former Ruth Leamor Hall, a daughter and two granddaughters in California.

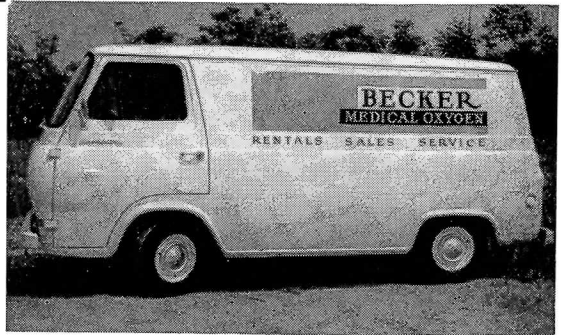

This community for having had his presence is a better place in which to live and his friends for having known him are enriched from his perceptive.

"In my end is my beginning."

—Asher Randell

PROCEEDINGS OF COUNCIL

December 8, 1964

The regular meeting of the council of the Mahoning County Medical Society was held on Tuesday, Dec. 8, 1964, at the Voyager Motor Inn.

The following physicians were present: Jack Schreiber, president, presiding, B. C. Berg, G. W. Cook, G. E. DeCicco, R. R. Fisher, F. A. Friedrich, Frank Gelbman, A. W. Geordan, Bertram Katz, John J. McDonough, C. E. Pichette, C. W. Stertzbach, R. G. Warnock and Kurt Wegner. Absent were: H. N. Bennett, W. H. Bunn, S. D. Goldberg, Asher Randell, H. J. Reese, R. J. Scheetz, F. L. Schellhase, and R. A. Wiltzie.

The meeting was called to order at 8:00 p.m. The minutes of the previous meeting were read and approved.

Bills were read. The motion was made, seconded and duly passed that each bill be paid. A list of the bills is attached to the minutes.

The following application was presented by the censors and read by the executive secretary:

ACTIVE MEMBERSHIP

Dr. Leonard H. Green, 510 Gypsy Lane.

The application was approved. The above applicant will become an active member of the Medical Society within fifteen days after publication in the Bulletin, unless objection is filed in writing with the secretary during that time.

Dr. Schreiber announced that Dr. J. V. Newsome had been proposed by the Nominating Committee as an appointment to fill the unexpired term of 1966 Delegate, being vacated by Dr. R. R. Fisher. The motion was made, seconded and duly passed that the appointment be made by council.

Dr. Schreiber presented the 1965 budget for the budget committee. A copy is attached to the minutes. Following discussion, the motion was made, seconded and duly passed that the budget be approved.

Mr. Rempes presented a public relations proposal. Following discussion, the motion was made, seconded and duly passed that Mr. Rempes be authorized to contact Mr. Philip Tear, representing the R. J. McCallister Agency, for the purpose of working out a public relations program for the coming year.

Dr. McDonough suggested that Mr. Tear be invited to the next meeting of council. This was approved.

Dr. Schreiber announced that he had turned in \$1128 to the Alias Santa Claus Fund, and that another \$25 had come in after the date of the Show, making a total of \$1153.

Dr. Schreiber introduced discussion concerning the American Heart Association stroke rehabilitation program, and the desire of the local Association to go into the Youngstown Osteopathic Hospital to instruct patients. Council agreed that this was a service to the patient and that there was no objection to this plan.

Dr. Gelbman introduced discussion on the recent raise of dues. The executive secretary reported no complaints at the medical society office, and dues coming in at an average rate.

Dr. Fisher, speaking for the council members, commended Dr. Schreiber on his fine leadership and the application of his time and energy on behalf of the Mahoning County Medical Society during his term as president.

Dr. Schreiber thanked council members for their attendance, interest, and work during the past year.

Meeting was adjourned.

—Howard Rempes,
Executive Secretary

MEDICAL ASSISTANTS SOCIETY OF MAHONING COUNTY

Members of the Medical Assistants' Society of Mahoning County had a delightful time at their Christmas Party on Thursday evening, December 3rd, at the Youngstown Club.

President Dorothy Klein was not able to attend because of the illness of her mother. Presiding for her was President-elect Jo Sammartino.

The dinner tables were beautifully decorated with red rose trees which were made by members of the Decorating Committee. Favors were red and green "pixies" and candy canes.

The girls were entertained by the Arion Chorus under the direction of W. Vernon Hamilton. Accompanist was Lillian Butcher Stambaugh.

The enjoyable evening came to an end with group singing of Christmas carols and a gift exchange.

The next meeting for the Medical Assistants will be on Tuesday, January 5, 1965, at St. Elizabeth School of Nursing "Ivy Hall" at 8:00 p.m. with Dr. Stephen Ondash as our Guest Speaker, his subject being "Carcinoma of the Breast".

It contains a complete roster of members of the Mahoning County Medical Society, a list of the officers, council members, delegates and alternate delegates, and a list of all the committees of the Medical Society.

Amytal takes the edge off daytime anxiety and tension

Amytal is a moderately long-acting barbiturate that takes the edge off daytime anxiety and tension without significant change in mood and attitude. Since Amytal is metabolized in the liver within twenty-eight hours, overlapping of effect is minimized, and renal damage does not constitute an absolute contraindication.

Side-Effects: Idiosyncrasy or allergic reactions to the barbiturates may occur.

Precautions and Contraindications: Amytal should be used with caution in patients with decreased liver function, since a prolongation of effect may occur.

Administration in the presence of uncontrolled pain may produce excitement.

• **WARNING**—May be habit-forming.

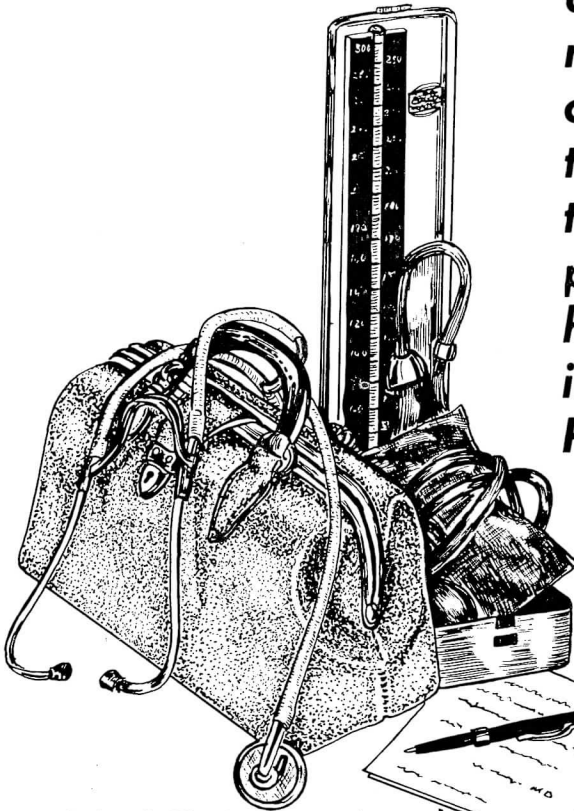

Dosage: Doses should be individualized for each patient. The usual adult sedative dosage ranges from 30 mg. (1/2 grain) to 50 mg. (3/4 grain) two or three times daily.

Additional information available upon request. Eli Lilly and Company, Indianapolis 6, Indiana.

of
the
trust
people
have
in
Peoples

5,647,729 prescriptions! That's the number filled last year by all Peoples Drug Stores. Impressive figure, impressive public confidence . . . because behind all prescribed medicine at Peoples is confidence — in the physician who prescribes it, the manufacturer who makes it, the pharmacist who fills the prescription. We are proud to share this confidence with physician and drug manufacturer. At Peoples, nothing is so important as prescriptions!
