Physicians Insurance Company of Ohio
 American Physicians Life Insurance Company
 SMB Financial Planning, Inc.

Q:

What do these three companies have in common?

A:

Dependability. Accountability. And a proven commitment to members of the Ohio State Medical Association.

As your personal and professional situations change, so can your requirements for specialized protection.

PICO and its subsidiaries have been formed to serve your insurance and financial planning needs.

We understand your concerns...and we can solve even the most complex challenges in professional planning.

Physicians Insurance Company of Ohio

Professional liability coverage offering primary and excess protection at the limits you require. When combined with a PICO homeowners and auto policy and PICO office protection plan, you will have a convenient, comprehensive insurance package.

AMERICAN PHYSICIANS LIFE

Individual protection for your life, health and business insurance needs. APL also offers group insurance protection, investment plans, and pension and profit sharing plans designed for physicians and other select markets.

**SMB
 Financial Planning, Inc.**

Expert financial planning services for successful professionals. SMB's highly individualized approach assures that the direction and control of your financial goals remain firmly in your hands.

Call or write us for further information...or contact your agent.

AIDS AND MEDICAL ETHICS

Physicians today face ethical decisions both in the office and in the hospital. The Hippocratic oath that we each swore to uphold, has been modified, even contradicted by legal action and governmental intervention. Consider advertising and abortion.

Aids is one of these ethical dilemmas. It is not merely a health problem, but is also a social problem. AIDS is an epidemic from which no one is truly safe; it is no longer an exclusive problem of homosexuals or drug addicts. It is also a threat to health care workers as the plague, leprosy, and polio once were.

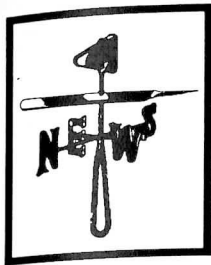

An ethical guide for physicians in dealing with this prickly problem has three areas for consideration;

a. Education and support: Extensive efforts to educate both in our offices and as a public outreach must become a goal of our society. Who is more qualified to speak on matters of health than we? We must also fill our historic role of supporting both the patient and his family. We have the obligation to supply comfort where we cannot cure. Perhaps we can learn from our forbears who practiced as little as fifty years ago, before the 'miracle drugs'. It is desired that the The Mahoning County Medical Society establish an AIDS Information Center. This group would establish educational programs for schools, groups, and workplaces using the abilities of our membership and qualified guest speakers. Such a program can provide information regarding the spread of the virus, and allay unreasonable fears of its transmission.

b. Propose and Support Legislation: Research to find treatment or prevention for AIDS must be fostered, public and private sector must unite to educate, care and treatment centers established, and the legal rights of the sick person must be delineated vis-a-vis the needs of society as a whole.

C. Care and Treatments: There are several reports of health care workers who have contracted the disease in the course of their work, when they have been

Editorial:**WHO ARE WE? WHO ARE THEY?**

Recent articles in the American Medical News, JAMA and Youngstown Vindicator reported that the number of qualified applicants to U.S. Medical Schools is dwindling: a 9% decline from the year before.

Various explanations for the drop include the high cost of medical school, the predicted surplus of physicians, the opportunity in other professions for a life-style equal to, or better than, physicians', with less of the stress and interference currently experienced in the medical field. One significant finding was that many potential applicants are being discouraged by relatives and friends who are themselves physicians. If our own enthusiasm for the profession is declining, perhaps it is because we have lost sight of who WE are. In losing sight of this, we are allowing others (THEM) to control medical care.

We are the professionals trained to assess our patient's signs and symptoms, and with good judgement tempered by knowledge, experience, and a concern for the welfare of the patient, to recommend appropriate evaluation, treatment and follow-up. They are the 3rd party payors who would try to erode our identity by lumping us together with other less-trained health-care workers by calling all of us "providers".

WE are the patient's advocate, assuring the quality of his health care. THEY are the government, the insurance companies, the medical entrepreneurs, the hospital marketeers, who would have us compromise our ethics of patient care in the sole interest of cost-containment. The same group would tempt our integrity by making us the "gatekeeper" who hesitates because seeking the proper treatment or referral might mean a personal financial risk, a consultant either on the "other hospital staff", or one not on "the list".

We are the ones who can still feel the thrill of seeing a child recovered from meningitis, of completing successfully a complicated surgery, of receiving the thanks of a patient we have helped. We are the ones that must stand together to support each other and the AMA in pursuing policies that will restore physician control of patient care. They are the ones who will take over health care if we forget who we are.

John L. LaManna Jr., M.D.

From the Desk Of The President: (Continued from Page 38)

contaminated by blood or body fluids of an HIV positive patient. As a reaction, some physicians now openly refuse to see AIDS patients. An article by a neurologist published in the Los Angeles Times, and later reprinted in the Youngstown Vindicator details the ominous consequences to physician and patient alike should doctors be compelled to render care against their will. The AMA Council of Ethical and Judicial Affairs has stated, "Physicians are free to choose whom they will serve." The same body has also stated that it is unethical to refuse to treat AIDS patients. On first reading this would appear to be a contradiction, but I ask you to look deeper pondering three criteria:

1. We are obligated to render emergency aid when it is essential to save a patient's life
2. We should refer to better qualified physicians and to better suited facilities when our own abilities and establishments are not fully adequate to fill the need.
3. If specialized physicians and institutions are not available, then we have the dual responsibility of providing protection to those health care workers who might be exposed. Part of this protection would certainly include education of all of those who might be exposed. For a moment we should put ourselves in that patient's position; what would we ask of our physician?

If the predicted rate of HIV infection proves correct we are to face these moral, ethical dilemmas as a daily occurrence. Today not too soon to establish our ethical position.

H.S. Wang, M.D.
President

ROSTER UP-DATE

The name of Larry K. Nash, M.D. was inadvertently left off the roster of the Mahoning County Medical Society in the January issue of The Bulletin. Dr. Nash is an Associate Member and has recently joined his practice with the practice of Dr. Milton Yarmy.

Please take note of the omission from the roster and make any correction necessary to rectify it.

NEW MEMBERS ARE INVITED

The Council of the Mahoning County Medical Society has decided that every new member should be invited to attend at least one Council meeting to get a handle on who runs the Society and how it is done. Of course, the new member will be billed for his meal, just as the members of Council are billed for theirs. That, in itself, could be learning experience. Any other members of the Society who would like to attend a Council session are welcome. Persons wanting to attend should call the Society office, 747-4956, five days ahead of time. The Council meeting is the second Tuesday of each month. The location for the meeting rotates and will be specified when the call is made to the office. A social period at 6 p.m. precedes the Council meeting and is a way to meet the members of Council before the meeting begins.

TWO PRESIDENTS were at the head table for the January 23rd Presidents Ball held at the Youngstown Country Club. Dr. H.S. Wang (right) newly elected president of MCMS was installed during the evening program. His wife (left), Mrs. Florence Wang, is the president of the Auxiliary.

SOCIETY MEETING IS GALA EVENT

It WAS a gala event! The ladies were resplendent with newly-coiffured hair and dazzling gowns, the physicians looking majestic and sleek in their tuxedos, all for the renewal of the President's Ball that was once so much a fixture of the Mahoning County Medical Society's year.

The occasion was the annual installation of officers and dinner dance that was held at the Youngstown Country Club. The impetus for the event came from the president of the ladies auxiliary, Mrs. Florence Wang, who is also the wife of 1988 president, H. S. Wang.

A committee consisting of Mrs. Camilla Geordan, chairperson; Mrs. Barbara Marcella & Mrs. Edie Wieneke, did an outstanding job of putting the whole package together, from the arrangements for the food to the marvelously danceable music of the big band of Carmen Mico.

After an outstanding dinner, prepared by the club's chef, a short meeting was held and then the dancing began in earnest, although it did start during dinner.

Before dinner, Dr. G. Robert Barton, the outgoing president, asked all to observe a moment of silent prayer for the Society members who had died in 1988.

After dinner, six past presidents were recognized for their past contributions to the Society. Special acknowledgement was then given by Dr. Barton to the outgoing members of the Council: Dr. C. E. Pichette, Dr. J. W. Tandatnick, Dr. David Pichette, Dr. Daniel Handel, Dr. Juan Ruiz and Dr. George Dietz. It was noted that Dr. Pichette has 29 years of service to the Society and Dr. Tandatnick has 20 years of service to the Society.

The following members of Council were called forward and Dr. Barton administered the

BY PRESENTING THE GAVEL to Dr. Wang (left), the post of president was transferred by Dr. G. Robert Barton to his successor with good wishes and good luck for 1988

AN APPRECIATION PLAQUE was presented to Dr. Barton, outgoing president, by Dr. Wang, new president, in recognition of Dr. Barton's service as president. He will now fill a one-year term as immediate past president.

THE SUCCESS of the President's Ball on January 23 was the result of the fine effort of the Medical Society Auxiliary's committee headed by Mrs. Camilla Geordon (center) who was ably assisted by Mrs. Barbara Marcella (left) and Mrs. Edie Wieneke (right).

oath of office: Drs. Wang, Wieneke, Gregori, Anderson, Amedia, Ervin, Baumblatt, El Hayek, Guju, Guthikonda, Kasamias, LaManna Jr., and Angtuaco.

Following the installation ceremony, Dr. Barton presented an engraved gavel to Dr. Wang and officially turned over the reins of the Society to the practicing ophthalmologist.

In turn, Dr. Wang presented the traditional beautiful Past President's Plaque and a pin to Dr. Barton. Dr. Wang then presented a bound volume of *The Bulletin* to Mrs. Barton as a memento of all the evenings Dr. Barton spent on behalf of the Society.

Dr. Wang then introduced Mrs. Wang and she lauded the efforts of her committee and praised them for an outstanding turnout and well-arranged event. Cooperation between the Auxiliary and the Society was stressed by Mrs. Wang as she projected the future for the two organizations.

Dr. Barton was then called on for his remarks which included some laudatory statements about Robert Blake, the retiring executive director. Dr. Barton then presented Mr. Blake with a gift from him and a gift of appreciation from the Society. An appreciation plaque was then presented to Mr. Blake by Dr. Wang.

The meeting was adjourned and the dancing began for all.

MAHONING COUNTY MEDICAL SOCIETY
Proceedings of Council
Jan. 12, 1988

The regular meeting of the Council of the Mahoning County Medical Society was held Tuesday, January 12, 1988 at Antone's Restaurant.

The meeting was called to order at 7:15 p.m. during the course of dinner to expedite completion of the agenda. A motion was made, seconded and passed to dispense with the reading of the December minutes.

The treasurer's report listed 299 members as having paid dues for 1988. Of that number, it was noted 163 have paid dues to AMA, for 55% total, which is some better than the national average. A total of dues income and extra income was reported for the fourth quarter and the end of the year. A review of attendance at 1987 meetings compared with 1986 meetings showed a member attendance gain of 68 percent and a member/spouse/guest attendance gain of 91.5 percent. The report broke down the attendance gains on a monthly percentage. A motion was made, seconded and passed to pay the bills.

The following applications for membership were presented:

ASSOCIATE: Arlington G. Kuklinca, M.D.; Jasper L. McPhail, M.D.; Michael J. Miladore, M.D.

The applications were approved and the applicants will become members of the Mahoning County Medical Society in the voted category 15 days after the names are printed in the minutes of the January meeting of Council that are mailed to all members, unless an objection is received in writing by the executive director before that effective date.

COMMUNICATIONS:

A letter from Mrs. Michelle Catoline Cohen regarding Dr. Catoline's records. It was noted that the Physician's Guide to Ohio Law makes no statement regarding a charge for transferring and/or copying records to effect a transfer, only that the patient is entitled to have records transferred from one physician to another.

A thank you from Mrs. Emily Goldstein for the Society's contribution to the Foundation in memory of Dr. Goldstein.

A note from Dr. Pappas stating that he would not pay for a Dec. 15 Society meeting dinner reservation because of severe adverse weather conditions. The exec was instructed to send a letter to Dr. Pappas with Council's response. A motion was made, seconded and passed that reservations made for Society functions that are not cancelled within 24 hours of the event will be charged to the member making the reservation.

Health-O-Rama application and registration information. A motion was made, seconded and passed to participate in the event but to refer the participation to committee and plan on taking part in the next one if the committee recommends participation.

In a discussion of membership, it was noted that an AMA printout of physicians in the county shows that most of the physicians who are not members of the Society are hospital-based physicians. Council agreed that hospital-based physicians do not have the same problems and needs as private practice physicians but the Society should address their problems as well as the problems of all other physicians. It was noted that organized medicine

(Continued on Page 58)

Who cares more about your malpractice insurance?

We think a professional liability insurance company worth its salt should include experts in three disciplines: medicine, law and insurance. When push comes to shove in a malpractice claim, you're going to need the competent advice of all three.

PIE Mutual is a doctor-owned and operated professional liability underwriter which includes:

- Over 7,500 member doctors, many of whom take an active role in Company operations such as applicant review and claims review.
- Experienced liability insurance agents in your area who have a reputation for quality service.
- Our prestigious retained law firm specializing in all areas of medical professional liability.
- A financially sound reinsurance program with Lloyd's of London, the world's largest reinsurer.

**An insurance company
run by insurance men?
Or an insurance company
run by doctors?**

In spite of our growth, PIE Mutual has retained its firm commitment to keeping malpractice insurance affordable. In its home state of Ohio, PIE Mutual has

consistently offered the most competitive rates of any carrier.

For more information on how you can become a member insured, please call on our experts.

ROBERT B. BLAKE, Executive Director

THIS IS GOODBYE!

This is goodbye after seven plus years as executive director of this Society. What is the line of the poem? "Parting is such sweet sorrow...." That may have been true for lovers but it's not always true for executive directors. There is some sorrow in parting but only because of the joys that were part of the job. The exhilaration of having been able to be of service to "my" doctors was a source of real joy. I always endeavored to do only what was good for "my" physicians and assiduously avoided anything with even the hint of detriment to the members of the Society.

I was pro-medicine and pro-physician long before I ever became associated with this Society. If I had not been, I could never have taken the position nor could I have attempted to serve the Society. Regrettably, many persons involved and employed by organized medicine are not zealously pro-physician. I get some joy from knowing I have been able to divert possible malpractice litigation to our grievance procedure which ameliorated the complaints to the satisfaction of the complainants.

The older we get, the less likely our dreams will reach fruition and the more remote the possibility seems of having a dream come true. I am, without equivocation, a golf nut. I have dreamed, ever since I fell in love with the game, of someday being able to take seven days and play all the golf I wanted to play in an outstanding area of the golfing world. First choice, as with every true aficionado, is Scotland and that is really an economic pipe-dream! But, if I can handle the finances, without buying a one-way ticket to the poorhouse at the same time, I intend to fly to Monterey, California in April and play "all the golf I want" in the Monterey-Carmel-Pebble Beach area-Places like Spanish Bay(the new course) Spyglass Hill and Pebble Beach Golf Course as well as others. Finances can be a very important deterrent because it costs \$125 (that's right) to play 18 holes of golf at Pebble Beach Golf Club, including a riding cart. I have an opportunity to play Cypress Point Golf Course in the Pebble Beach area in April. It is the second highest rated golf course in the U.S. and Pebble Beach is not far behind.

Now... that would be making a dream come true!

Goodbye!

You Can't Stop Them From Hearing It

Your patients hear a lot of advertising from the healthcare giants. The big organizations are very successful at increasing new patient input. Even your most loyal patients can be convinced to try their system.

As a small group or independent physician, you can't compete with big advertising budgets. You can, however, communicate more effectively with your patients and successfully attract new patients -- with the assistance of experienced communication professionals.

Get the help you need from *The Publicity Company* -- Farris Advertising, Marketing & Public Relations. No other local agency has helped so many local physicians -- primary care, specialists, groups and individuals -- market their professional services.

To find out more, call George Farris today at 782-8061.

PAGES OPEN TO PHYSICIANS

The pages of the Bulletin are open to the physicians of the Society for their comments, reports on meetings they have attended, new procedures or techniques introduced into their practice, or for any other matter a member might want to air in the Bulletin.

To submit items for the Bulletin, they should be typewritten, double-spaced and preferably no more than two and half (2-1/2) pages long. They must be signed and must be attributable unless there is a very definite reason for anonymity. All items are subject to editorial scrutiny and approval of the Bulletin editor.

Member F.D.I.C.

We've limited our practice to you.

PIE Mutual Insurance Company is a specialist in underwriting professional liability insurance. We should be. We're a doctor-owned and operated Company serving over 7,500 physicians and dentists.

We listen to you. Direct member involvement is a cornerstone of PIE Mutual's success. Elected by member insureds, Managing Boards are established in each region of operation to help set Company policy.

We design insurance plans to meet your needs. Our Quality Rated Insurance Program is a modified claims-made plan that actually works to the doctor's advantage. It offers discounts to loss-free members and provides added protection not available in other policies.

Our doctor-owned insurance company doesn't deal with anyone else.

We vigorously defend your position. With a seasoned legal team representing all areas of malpractice claims and our own aggressive claims-handling procedure, we demand fairness from the judicial system.

Call for an appointment with one of our specialists.

From the Bulletin

FIFTY YEARS AGO FEBRUARY 1938

During the great Depression of the 1930's the hospital dispensaries had been closed due to lack of funds. The indigent had been cared for by the Emergency Relief which paid doctors \$1.00 for an office call and \$2.00 for a house call. Now they were planning to reopen and there was much discussion about their function in the medical scene. It was agreed that they were needed for teaching purposes and the Society approved the acceptance of patients on a subsistence level whose medical care was not provided by any other agency.

FORTY YEARS AGO FEBRUARY 1948

The latest thing in medicine was the Papanicolaou detection test for Cancer of the Uterus.

A.R. Cukerbaum wrote about the antihistamine drugs. He mentioned Torantil and Antergan which first appeared in Europe in 1942. Benadryl and Pyribenzamine were produced in our country in 1946.

W.J. Tims as Health Commissioner reported that influenza due to type A virus was on the increase.

New members were: Clyde K. Walter, Kenneth E. Camp, Rollis R. Miller and Anthony J. Bayuk.

Harold Reese topped the doctor's bowling league with a score of 263.

Gabriel DeCicco was appointed Chairman of the Membership Committee of The American Academy of General Practice in Cleveland and was assigned to organize a chapter in Mahoning County.

THIRTY YEARS AGO FEBRUARY 1958

Kurt Wegner had an important article on "The Infant With Congenital Heart Disease".

The annual banquet in January was held at the Youngstown Country Club. It was the first time that wives were invited. There was an informal cocktail hour and the main course was Cornish hen stuffed with wild rice. It was a gala affair.

New members were: Kurt Wegner, Elsa Shapira, Harry Holden and John Turner.

TWENTY YEARS AGO FEBRUARY 1968

President Detesco wrote: "The modern physician should develop three qualities: He should be a cultured man, he should be capable of compassionate and perceptive responses, and above all he should be a scientist."

Craig Wales was installed as the 52nd President of the Downtown Kiwanis Club. Richard Murray won first prize in live drawings at the Arkep Galleries, National Show of Graphics in New York City.

TEN YEARS AGO FEBRUARY 1978

New members that month were: Thomas N. Detesco, Michael I. Jacobson, Steven M. Kalavsky, and H.M. Wang.

A physician Peer Review Association filed Articles of Incorporation with the State of Ohio for Ohio PSRO Area XIII. Trustees were J.L. Lambert. E.A. Shorten, R.J. Cannone (Massillon), J.F. Jackson (E. Liverpool) and J.R. Philips (Warren). It was another addition to the Alphabet Soup of organized Medicine.

Robert R. Fisher, M.D.

Proceedings of Council: (Continued from Page 44)

was instrumental in keeping pathologists, anesthesiologists & radiologists out of the DRG schedule, and that organized medicine can be a help in other areas as well.

COMMITTEE REPORTS

Project O.P.E.N. reported that sign-up for the program has been slow and it is hoped the public announcement of the project can be made in conjunction with the observance of Doctors' Day.

The Search Committee reported there have been a number of applications received for the position of executive director and a further report will be available at the February meeting of Council.

Sixth District Councilor Dr. Anderson announced the Winter Caucus of the Sixth District will be held Feb. 3 at The Timberlanes in Salem, Ohio and the April Caucus will be held at Tippecanoe Country Club. He reported that a resolution to increase Ohio State Medical Association dues will probably be presented at the House of Delegates meeting in May. He noted that the OSMA Council is considering a building expansion program at the Columbus headquarters. Dr. Anderson stated the Indiana State medical association has inaugurated a patient advocacy program and OSMA will introduce a pilot program in several spots in the State to evaluate the program.

The Council agreed to allow the inclusion of a Cancer Society pamphlet with a mailing of The Bulletin in order to get the pamphlet distributed to all the physicians.

Dr. C. E. Pichette, who has held an office in the Society since 1960 and has served as a delegate to the OSMA House of Delegates since 1969, resigned from his post as delegate effective when a replacement has been chosen. The Council will make the appointment to fill the unexpired portion of Dr. Pichette's term, which runs through 1990. The president and the members of Council expressed regret at the resignation and lauded Dr. Pichette for his multitudinous years of exemplary service.

It was announced that Saturday, January 23 is the annual installation of officers and Council members and the President's Dinner Dance, with all Council members expected to attend the black tie event. It will be held at the Youngstown Country Club.

The meeting was adjourned at 9:30 p.m.

In ten years your
malpractice carrier may
be just a memory.

Unless it's Medical Protective.

The most important thing an insurance company sells is its promise to be here when you need help. Unfortunately, that's a promise that's easy to make, but hard to keep.

When you consider liability insurance, remember this. A company that's survived tough times before is more likely to come through a crisis period. And no company has weathered more of the industry's tough times than The Medical Protective Company because we pioneered professional liability coverage nearly a century ago.

For more information contact your Medical Protective Company general agent. He'll be here when you need him.
