

SPRING COMMENCEMENT  
*OF THE FORTY-NINTH YEAR*  
YOUNGSTOWN STATE UNIVERSITY

STAMBAUGH AUDITORIUM  
SATURDAY MORNING, JUNE NINETEENTH  
NINETEEN HUNDRED AND SEVENTY-ONE  
TEN O'CLOCK

## ALMA MATER

All hail to thee O Youngstown  
Our Alma Mater fair,  
In sunlight and starshine  
We see thee in all thy glory.  
The Red and the White, thy glorious colors,  
Ever we praise and hold them  
High to the breeze as the symbol of our  
Most loyal allegiance.  
This anthem, O Youngstown,  
Our pledge of trust shall be  
That thy sons and daughters  
Shall keep faith with thee forever.

## Candidate for the Honorary Degree Doctor of Engineering

**J. PHILLIP RICHLEY**

J. Phillip Richley has achieved distinction as an engineer in the public service.

A native of Youngstown, Richley earned the Bachelor of Engineering degree from Youngstown State University in 1954. Outstanding achievement and rapid advancement while in service to the City of Youngstown—as Assistant City Engineer, Sanitary Engineer, Commissioner of Engineering, and, ultimately, Director of Public Works—led to his election in 1968 as Mahoning County Engineer. While County Engineer, he was instrumental in the reorganization of the local system of public transportation, serving as president of the Mahoning-Trumbull County

Transportation Study and as president of the Mahoning Valley Regional Mass Transit Authority. In January 1971, he was appointed State Director of Highways, and has already been credited with making important contributions to Ohio.

A registered Surveyor and Professional Engineer, Richley has served on the Mahoning-Trumbull Council of Governments and was chairman of that group's Comprehensive Study. He serves on the advisory boards of St. Elizabeth Hospital, the Choffin Vocational School, the Easter Seal Society, and the YSU Engineering Technology Department.

## CANDIDATES FOR DEGREES

Because this list of candidates had to be prepared ahead of time, it is tentative; the diploma is the proof of graduation.

Candidates whose names are followed by an asterisk (\*) have been commissioned as second lieutenants in the United States Army.

## ACADEMIC REGALIA AND CEREMONY

The gowns, hoods, and caps worn in academic ceremonies today are relics of clothing worn in medieval times by students and professors. In the early universities—Bologna, Paris, Oxford—the undergraduate students had no prescribed academic dress but wore their usual clerical or ecclesiastical habits. The professors wore more colorful academic regalia than their modern day descendants. Probably the gowns and hoods were worn for warmth in the unheated halls where the lectures were delivered. From the sixteenth century on, there is a change to somber black and it is only in the hoods worn in academic processions today that the warmth and color of medieval academic pageantry is retained.

The hoods representing degrees granted by various colleges and universities have linings (burned to exhibit their hues to the fullest advantage) in the colors of the granting institutions. For instance, the lining of the hood placed this evening over the head of the recipient of the honorary degree is cardinal and white, the colors of Youngstown State University. In addition, the facing of the hood represents by its color the discipline in which the degree has been granted: white for arts, letters, or humanities; golden yellow for science; purple for law; green for medicine; lemon yellow for library science; orange for engineering; drab for commerce or business; light blue for education; pink for music; brown for fine arts; apricot for nursing; dark blue for philosophy; scarlet for theology; citron for social work; sage green for physical education. It is possible, also, to determine from the length of the hoods the type of degree held by the wearer—quite long for the doctor's degree, medium for the master's, short for the bachelor's.

Since 1895, in the United States, the colors and types of caps and gowns have been largely standardized; in 1932 the code was revised to some extent, and in 1960 it was revised once more. A few American universities have adopted gowns other than black in color, and in European universities there is more diversity in cut and in the cap than prevails in the United States. Trustees and administrators of American colleges and universities, too, may wear regalia

which is different from that commonly worn. The trustees of Youngstown State University wear a specially designed cardinal gown.

The bachelor's gown is worn closed; the master's gown is worn open or closed, depending partly on its tailoring; and the wearer of the doctor's gown has the privilege of wearing it open or closed. The sleeves of the three types of gowns are of different lengths and cuts, and in addition the sleeves of the doctor's gown have three horizontal velvet stripes. The doctor's gown also has vertical facing of velvet in front. The stripes and facing may be either black or in the color representing the field in which the wearer has received the doctorate.

There are different opinions about the origin of the caps worn in academic ceremonies. One view is that the "mortar board" is in actuality adapted from the wooden square used by masons. Another is that it stems from the ecclesiastical or clerical head covering of the medieval period. The tassels worn on the caps may or may not be of the same types. In some institutions all masters' and bachelors' tassels are black; in others the tassels, which are the same as the colors of the facings of the hoods, reflect the degree received. The tassels worn by doctors may be black or gold thread.

There is something of the same adherence to tradition in commencement processions that exists in academic garb, although each institution has the right to adapt the ceremony to its own requirements. The chief marshals lead the line of march, followed by the president, the speaker, trustees, and other members of the party to be seated on the platform. Then follow the faculty and the candidates for degrees. The procession at the end of the ceremony follows the same order.

Recipients of University Honors will receive special insignia, consisting of golden honor cords placed around the shoulders.

the 1990s, the number of people with a mental health problem has increased in the Netherlands. The prevalence of mental health problems in the Netherlands is estimated to be 15% (Van Tilburg *et al.* 2000). The prevalence of mental health problems is expected to increase in the future because of the ageing of the population (Van Tilburg *et al.* 2000).

People with a mental health problem often experience difficulties in their daily lives. These difficulties can be caused by the mental health problem itself, but also by the social environment.
