

WINTER COMMENCEMENT
YOUNGSTOWN STATE UNIVERSITY

BEEGHLY CENTER
SATURDAY MORNING, MARCH TWENTY-NINTH
NINETEEN HUNDRED AND EIGHTY-SIX
TEN O'CLOCK

ALMA MATER

All hail to thee, O Youngstown,
Our Alma Mater fair;
In sunlight and starshine
We see thee in all thy glory.
The Red and the White, thy glorious colors,
Ever we praise and hold them
High to the breeze as the symbol of our
Most loyal allegiance.
This anthem, O Youngstown,
Our pledge of trust shall be
That thy sons and daughters
Shall keep faith with thee forever.

THE COMMENCEMENT SPEAKER

DR. KENNETH E. YOUNG is director of the Institute for Learning in Retirement at American University and senior associate with Diane U. Eisenberg Associates, both in Washington, D.C.

Dr. Young's service to higher education spans 40 years. His career began in 1946 when he became an instructor at San Francisco State College. He subsequently joined the faculty of California State Polytechnic College, and became acting dean of arts and sciences at that institution's Kellogg-Voorhis campus. From 1957 to 1959, he was dean of faculty at the University of Alaska.

In 1959, under the sponsorship of the Carnegie Corporation, Dr. Young served a one-year fellowship in college administration at the Center for the Study of Higher Education of the University of Michigan.

Dr. Young became executive vice president of the University of Nevada in 1960, a position he held until 1964 when he was appointed president of the State University of New York at Cortland. As head of SUNY-Cortland, he presided over its transition from an institu-

tion that was primarily teacher-training in nature to a state college with a broad liberal arts base.

Dr. Young moved to Washington, D.C. in 1968 to become vice president and director of the Washington office of the American College Testing Program. While at ACT, he served as the organization's representative and spokesman in the capital on such topics as testing, evaluation and educational data processing.

After seven years with ACT, Dr. Young was appointed president of the Council on Post-secondary Accreditation, and later became executive director of the National University Continuing Education Association, where he served until accepting his present posts in 1984.

An active writer for the past 35 years, Dr. Young has published articles on higher education in many of the field's periodicals.

He received his bachelor's degree with honor from San Francisco State College and his master's and doctoral degrees from Stanford University. He also holds the honorary Doctor of Laws degree from the University of Nevada.

CANDIDATES FOR DEGREES

Graduates who are awarded degrees at the end of the fall and winter quarters are recognized at Winter Commencement. Because the list of candidates for winter graduation had to be prepared ahead of time, it is tentative; the diploma, together with a certified transcript, is the proof of graduation.

Candidates for the degree Bachelor of Arts whose names are followed by the symbol (†) will receive their degrees from the College of Fine and Performing Arts. All other A.B. candidates will receive their degrees from the College of Arts and Sciences.

ACADEMIC REGALIA AND CEREMONY

The gowns, hoods, and caps worn in academic ceremonies today are relics of clothing worn in medieval times by students and professors. In the early universities—Bologna, Paris, Oxford—the undergraduate students had no prescribed academic dress but wore their usual clerical or ecclesiastical habits. The professors wore more colorful academic regalia than their modern day descendants. Probably the gowns and hoods were worn for warmth in the unheated halls where the lectures were delivered. From the sixteenth century on, there is a change to somber black and it is only in the hoods worn in academic processions today that the warmth and color of medieval academic pageantry is retained.

The hoods representing degrees granted by various colleges and universities have linings (turned to exhibit their hues to the fullest advantage) in the colors of the granting institutions. In addition, the facing of the hood represents by its color the discipline in which the degree has been granted: white for arts, letters, or humanities; golden yellow for science; purple for law; green for medicine; lemon yellow for library science; orange for engineering; drab for commerce or business; light blue for education; pink for music; brown for fine arts; apricot for nursing; dark blue for philosophy; scarlet for theology; citron for social work; sage green for physical education. It is possible, also, to determine from the length of the hoods the type of degree held by the wearer—quite long for the doctor's degree, medium for the master's, short for the bachelor's.

Since 1895, in the United States, the colors and types of caps and gowns have been largely standardized; in 1932 the code was revised to some extent, and in 1960 it was revised once more. A few American universities have adopted gowns other than black in color, and in European universities there is more diversity in cut and in the cap than prevails in the United States. Trustees and administrators of American colleges and universities, too, may wear regalia

which is different from that commonly worn. The trustees of Youngstown State University wear a specially designed cardinal gown.

The bachelor's gown is worn closed; the master's gown is worn open or closed, depending partly on its tailoring; and the wearer of the doctor's gown has the privilege of wearing it open or closed. The sleeves of the three types of gowns are of different lengths and cuts, and in addition the sleeves of the doctor's gown have three horizontal velvet stripes. The doctor's gown also has vertical facing of velvet in front. The stripes and facing may be either black or in the color representing the field in which the wearer has received the doctorate.

There are different opinions about the origin of the caps worn in academic ceremonies. One view is that the "mortar board" is in actuality adapted from the wooden square used by masons. Another is that it stems from the ecclesiastical or clerical head covering of the medieval period. The tassels worn on the caps may or may not be of the same types. In some institutions all masters' and bachelors' tassels are black; in others the tassels, which are the same as the colors of the facings of the hoods, reflect the degree received. The tassels worn by doctors may be black or gold thread.

There is something of the same adherence to tradition in commencement processions that exists in academic garb, although each institution has the right to adapt the ceremony to its own requirements. The chief marshals lead the line of march, followed by the president, the speaker, trustees, and other members of the party to be seated on the platform. Then follow the faculty and the candidates for degrees. The procession at the end of the ceremony follows the same order.

Recipients of **University Honors** will receive special insignia, consisting of golden honor cords placed around the shoulders.
