YOUNGSTOWN, Ohio - Youngstown State University's Kilcawley Center Art Gallery is presenting "Carol Imes: recent work" now through Dec. 10.

Free and open to the public, the exhibit will feature intaglio prints made by the Toledo artist.

This printing process involves printing on a press from the marks on a metal plate. The plate is engraved with a sharp tool, etched with mordants, or scratched with a needle.

Imes received her Bachelor of Fine Arts Degree from the University of Toledo and Master of Fine Arts from the University of Michigan, where she majored in printmaking. She also studied papermaking.

Imes has had her work displayed in such shows as "Women Alive," at the Edison Plaza Gallery, Toledo; "All Ohio Show," Canton Art Institute, Canton; "An Alternate Reality," Trustcorp World Headquarters, Toledo, and many others.

Gallery hours are Monday, Thursday and Friday, 10 a.m.-4 p.m.; Tuesday and Wednesday, 10 a.m.-7 p.m.; and Saturday, 11 a.m.-3 p.m.

FOR RELEASE: IMMEDIATE

Mailed November 19, 1987

YOUNGSTOWN, Ohio - Dr. Shaffiq Ahmed of Youngstown, professor of metallurgical and materials science at Youngstown State University, recently returned after completing a year as a Fulbright visiting professor in India, and as a senior research associate at NASA's Marshall Space Flight Center in Alabama. He undertook these projects during his YSU faculty improvement leave for 1986-87.

Dr. Ahmed was awarded the Fulbright professorship for the Bengal Engineering College of the University of Calcutta, India. There he taught graduate and undergraduate courses and also acted as an advisor for curriculum development and several research projects, including one with the Indian Space Research Organization.

While in India he met some of the engineers who were trained at YSU under Ford Foundation grants during the 1960's. He said they now hold positions in government and industry and were quite eloquent about their pleasant memories of the U.S. and its people, particularly Youngstown.

The U.S. Educational Foundation in India also organized a series of lectures for Dr. Ahmed at different research organizations and universities in India.

Next, Dr. Ahmed participated in NASA research on the next space shuttle's main engine. His work centered around special alloys for the engine, which will operate at very high temperatures and under extremely high pressure.

Dr. Ahmed's NASA research resulted in several NASA publications and patents.

MORE

ADD ONE

He said he found the atmosphere there exciting and challenging. "One comes alive in meeting the challenges on the frontiers of technology, and also in the atmosphere of the dedicated, hardworking scientists and engineers there."

Dr. Ahmed joined the YSU faculty in 1960 and is a professor in the Materials Engineering Department of YSU's Rayen School of Engineering. He received his bachelor's degree from the University of Calcutta, master's degree from the University of Illinois and doctoral degree from Case Institute of Technology.

He was honored by the American Society for Engineering Education in 1979 with the Western Electric Award, and received the YSU Distinguished Professor Award in 1978.

FOR RELEASE: IMMEDIATE

Mailed November 19, 1987

YOUNGSTOWN, Ohio - The Youngstown State University Dana Chorale, a chamber choir of 24 voices directed by Dr. Wade Raridon, professor of music, will present a winter concert, "Music for the Holidays," at 4 p.m. Sunday, Nov. 29, at First Christian Church on Wick Avenue.

The concert is free and open to the public.

"Solemn Vespers" by Mozart will be performed by the chorale with organ accompaniment by Kathryn Davison Miller and soloists chosen from the chorale. Also featured will be the 1930 work of Ottorino Respighi, "Laud to the Nativity," which will be performed with woodwinds, piano and chorale soloists. The program will also include works by Palestrina, Hovland, Wood and J.C. Bach.

YSU's Dana School of Music is part of the College of Fine and Performing Arts.

YOUNGSTOWN, Ohio - An informational meeting for those interested in this summer's travel seminar to the USSR, sponsored by Youngstown State University, will be held at 7:30 p.m. Monday, Nov. 23, in Rooms 121-122 of DeBartolo Hall.

The meeting, as well as the trip, is open to the public.

The tour will be led by Dr. Melissa T. Smith of the Department of Foreign Languages and Literature. It is scheduled for June and July of 1988 and will include visits to seven cities in the USSR.

A video on the USSR today will be shown at the meeting, and tour organizers will be available to answer questions.

Dr. Smith received her bachelor's degree in French from Barnard College, Columbia University, and studied for a semester each in Leningrad and Moscow before completing her master's degree in Russian at Middlebury College. She served as the assistant director of the Russian Language Program in Leningrad for a year under the auspices of the Council for International Educational Exchange.

For further information, contact Dr. Smith at 742-3463.
