

FOR RELEASE: IMMEDIATE

Mailed January 13, 1988

YOUNGSTOWN, Ohio - The Office of Continuing Education at Youngstown State University will offer a course for individuals planning to take the Federal Aviation Administration (FAA) Private Pilot Written Examination.

"Private Pilot Ground School" will be held from 9-11 a.m. Saturdays, Feb. 13-April 16.

The course will introduce participants to basic flying fundamentals, systems aerodynamics and navigation communication systems. It meets FAA requirements.

The instructor will be George Repasky, FAA certified ground school instructor.

The fee is \$165, or \$150 for those registering before Jan. 30.

For more information, or to register, call the YSU Office of Continuing Education at (216) 742-3358.

FOR RELEASE: IMMEDIATE

Mailed January 13, 1988

YOUNGSTOWN, Ohio - The next space "voyage" at the Youngstown State University Planetarium is "Traveller," which opens on Feb. 18.

In conducting this tour through time and space, "Traveller" utilizes the amazing audio-visual capabilities of the Planetarium to construct environments firmly grounded in science, yet tinted with the imaginative colors of science fiction.

For this show, the audience is visually transported around the earth, then taken on great ships that ply the seas of future space.

All YSU Planetarium shows are free and open to the public. However, advance reservations are required and seats will be held only until five minutes before show time. The programs begin promptly and latecomers cannot be admitted.

Because the subject and setting are inappropriate for them, pre-school children will not be admitted.

Advance reservations may be made by calling the Planetarium weekdays at (216) 742-3616.

The current Planetarium show, "Stars and Stone: The Forgotten Americans," concludes Jan. 29 and 30, and "Skywatch," a live presentation, will be offered Feb. 5 and 6.

FOR RELEASE: IMMEDIATE

Mailed January 13, 1988

YOUNGSTOWN, Ohio - Youngstown State University's Office of Continuing Education will offer two computer courses beginning Feb. 20.

"Computer Literacy" will provide an examination of computer terminology and an overview of how computers work, as well as their applications to both professional and personal use. The focus will be primarily on microcomputers and will include lectures and hands-on experience. This basic course is recommended for those with no experience or prior knowledge of computers.

Classes will be from 9 a.m.-noon Saturdays, Feb. 20-March 12.

"Programming With Basic I" is also intended for those with little or no experience with programming microcomputers. The emphasis will be on the "basic" language, use of microcomputers, and modeling problems for computer solutions. The level of mathematics will be kept at an introductory level.

Classes will be from 1-4 p.m. Saturdays, Feb. 20-March 12.

Each course will be \$140, or \$125 for individuals who register prior to Feb. 6.

For a free brochure on these courses and other computer programs, or to register, call the YSU Office of Continuing Education at (216) 742-3358.
