## Pep Rally Kicks Off Homecoming

### Float Competition Time Nears

Activity is reaching a fever pitch this week as the annual fraternity homecoming float competition nears judging time. The work being done above is typical of the hundreds of hours of time that goes into a float. They will be exhibited Homecoming Day at the traditional parade and again at the half-time activities during the Toledo-Penguin game.

### Senior Finds Foreign Study An Invaluable Experience

Once again this summer, The University of San Carlos had a Youngstown University student studying there. He is Gary Scavnick, a senior majoring in Romance Languages, who won the scholarship given annually by the Spanish Club.

While there, Gary stayed in the heart of the coffee and banana section of the states of Quezaltenango and Retalhuleu in western Guatemala. His project was to study the history of Central America with particular attention on Guatemala through the various courses he took.

Life in Guatemala influenced his life considerably. "You never know your own country until you view it from the outside," he said while remarking on his trip. "I learned to be more interested in world problems as I joined in their student discussions."

Besides his studies, Gary enjoyed attending the many fiestas. These would start at 8:00 Saturday night, continue through Sunday morning Mass and until the evening. He also picked up many of their social customs, particularly their idea of tardiness, and since his return, Gary usually arrives late for his appointments.

After graduation, he would like to move to Guatemala to work on his master's degree towards which he already has six hours from his studies this past summer. Afterwards he would like to remain there as an American citizen to teach English at one of their schools.

### Deadline News 'Graphs

**SIGMA SIGMA SIGMA** Sorority will sell mums for Homecoming today, September 29. Mums are one dollar each and can be purchased with fraternity letters.

**LOS BUENOS VECINOS**, the Spanish Club of Youngstown University will hold its first meeting tonight, September 29 at 8:15 in the Blue Room of Pollock House.

**DOM ROSSELLI** of the Athletic Office announced that all teams interested in intra-mural bowling should report to Champion Lanes, 31 N. Champion, at 3:30 p.m. October 1.

**ALL MEN** interested in rushing a fraternity this semester are urged to attend the IFC rush reception to be held 8:30 to 10 p.m. in Strouss Auditorium, October 9.

### 3 Added to Rayen Engineering Faculty

Three faculty members have been added to the full-time staff of the William Rayen School of Engineering.

They are Harold Johnson of 241 Curry Place, Robert G. McNamee, 2750 Julian St., and Robert J. Sorokach, 674 Dwyer St., Sharon, Pa.

Johnson, a member of the Rayen High School faculty for 20 years, has been a part-time instructor here since 1947 and has taught in the Niles school system. He received his B.S. in education and M.S. degrees from Ohio State University and his bachelor of laws degrees from the Youngstown University School of Law.

Among the books Johnson has co-authored are "A Hand Raised at Gettysburg," "Roman Collar Detective," "Broken Rosary," "Courage Wins," and "Kay Ann." "Roman Collar Detective" has been translated into German and Braille.

McNamee was a design engineer for the North American Aviation Co., Columbus, before coming here. He received his B.S. in electrical engineering from Youngstown last year and is working on an M.S. degree at Ohio State University.

Sorokach received his B.S. in mechanical engineering from Youngstown this year. He has been employed by the Westinghouse Electric Corp. in Sharon since 1948. He is a member of Sigma Tau, honorary engineering fraternity and the American Society of Mechanical Engineers.

All full time freshmen and transfer women students are required to stop at the dean of women's office, Main 210 to fill out a personal folder and have an interview with the dean of women.

### Gallery Displaying Prof's Oil Paintings

Prof. Jon Naberezny, Art, has an exhibition of his paintings on display at the Galerie Internationale, New York City, running through Oct. 2.

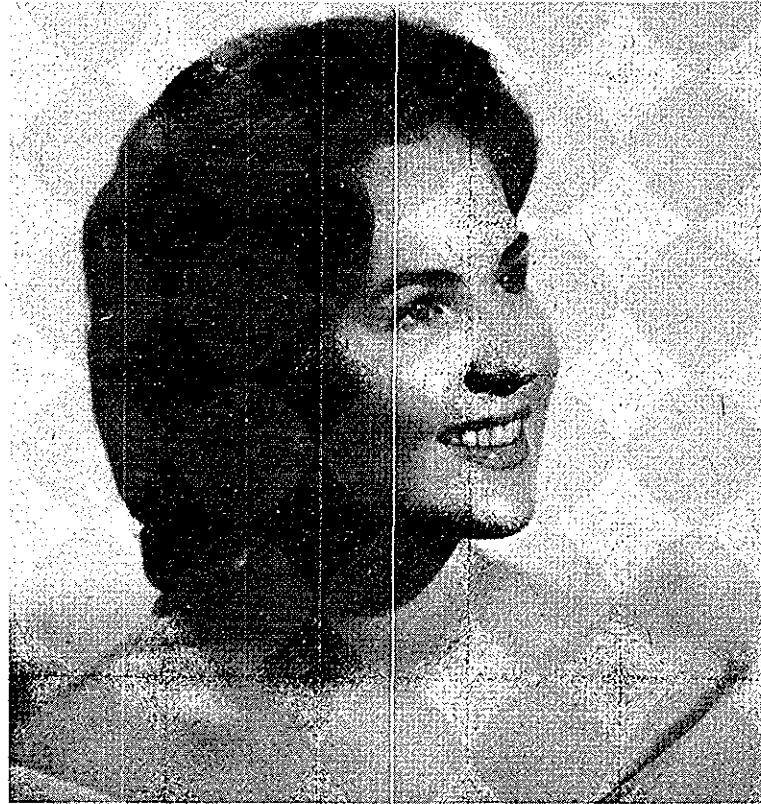

Prof. Naberezny, a faculty member since 1952, has had one-man shows at the Butler Institute of American Art, Allegheny College, Meadville, Pa., and at the University. In addition, his works have been on display in Florida, Iowa, California, and Illinois.

His exhibition at the Galerie Internationale includes the oil paintings "Mother and Child," "Lovers," "Ecliptic Composition," "One Arriving," "Americanus," "Oriental," "Dante's Inferno," "Figure in Greys," "Day Greta Died," "A Song," "Verity," "Ecliptic Blue," "Goodbye," and "Vibrato."

### Robbery Spurs Protection

Dean Joseph E. Smith announced last week that city police protection around the University will be increased during night hours.

The action was taken to prevent recurrence of an incident September 19 when two Y.U. students were robbed in a student parking lot after returning from night classes.

JOANNI PLETNIK - 1961 HOMECOMING QUEEN

### Miss Joan Pletnik Elected '61 Homecoming Queen

Miss Joan Pletnik was elected queen for the 21st Annual Homecoming celebrations tonight and Saturday, Sept. 29, 30. Miss Pletnik, is a sister of Beta Sigma Omicron Sorority. Her court includes Wally Cohn, Rusty DeAngelis, Lani Meshot, and Sandy Naples.

### Colleagues Fete Father Petric

Father Petric, Catholic Chaplain of the University has been honored in many ways since the announcement of his recall to service in the Army.

A dinner was held in his honor Thursday evening, Sept. 21st, at Chicon's Restaurant with the present and former officers of the Newman Club and others closely associated with him in his work attending.

Students and faculty members of Youngstown University assembled in Strouss Auditorium Friday, Sept. 22, at 11 a.m. to pay their tribute to Father Petric. He received gifts of money from the staff and faculty of the university, Pan Hellenic Council and Interfraternity Council.

The Newman Club Open House, held at Cardinal Mooney High School, Sunday evening Sept. 24 was in honor of Father Petric. He was presented with a gift by the members of Newman Club and the new Chaplain Father Kennedy, was announced.

### Roberts & Campbell Added to Dana Staff

Dr. Robert A. Campbell of Girard and R. Ralph Roberts of Baton Rouge, La. have been appointed to the full-time faculty of Dana School of Music.

Dr. Campbell was formerly on the faculty of Glenville State College, Glenville, W. Va. where he was assistant professor of music. Previously he was on the faculties of the University of Texas and Dana College, Blair, Neb.

Dr. Blair has his bachelor's degree from Oberlin Conservatory of Music and his M.A. and Ph. D. from the University of Texas.

Roberts was director of music in

Continued on page three.

### Four Head Seminar For Local Ministers At Trinity Methodist

Four members of the sociology faculty will lead a special seminar on "The Clergyman in Contemporary Society" Tuesday evenings from September 26 to October 31 in Trinity Methodist Church. The seminar, part of a program of the School of Christian Religion planned and offered by the Youngstown Area Council of Churches, is for ministers and will deal with personal, congregational, and community dynamics and role conflicts.

The faculty members leading the seminar are Prof. Pauline E. Botty, chairman of the sociology department, and Rev. J. Donald Foster, Edna K. McDonald, and James Kiriazis, members of the sociology department.

Subjects for discussion over the six-week period include "Pulling the Curtain on the Man in the Pulpit," "Jack of How Many Trades," "Lacreation-Maceration-Frustration-Resolution," "The Autocrat of the Breakfast Table and Family Car," "Jack in the Gray Flannel Suit," and "Pulpit-Parsonage-Potluck."

A pep rally and bonfire at 8 pm Friday in the Ford Hall parking lot will open the Homecoming festivities. A dance will follow at 9 p.m. in Strouss Auditorium.

The homecoming parade will begin at noon Saturday at the university and make its way down Wick to the square, over West Federal to Belmont, up Belmont to Madison, over Madison to Fifth and up Fifth to Rayen Stadium. The parade will have radio and TV coverage.

This year's theme, "Highlights From History," will be carried out by the ten floats vying for the annual float awards.

Youngstown University's Homecoming game matches the Penguins against Toledo University at 2 p.m. at Rayen Stadium. Half-time activities include the band, Pershing Rifles and Saber Detail, the procession and crowning of the queen and her court, and the parade of floats before the queen.

The Idora Ballroom will be the scene of the homecoming dance Saturday evening from 9 to 1. During intermission the master of ceremonies will welcome the alumni, recognize the Queens, and award the float trophies.

This year's co-chairmen are Gary Jones and Robert George.

### Twenty Y.U. Students Participate in Public Relations Project Here

The Chock Full 'O Nuts Co., Inc., has selected Youngstown University for a public relations project. A public relations class under the direction of Harry Meshel of the School of Business Administration, planned and carried out a program for the firm in the Youngstown-Warren area.

Members were given specific areas of responsibility and the project which was conducted as in a public relations organization. Twenty students participated.

Now We Get to Brass Tacks

J.F.K. Regains Initiative; Emphasizes 12 Points

President Kennedy has arrived. An American leader once more will be a world leader. With his speech to the United Nations, John F. Kennedy has closed the mouths of many opponents, told the Russians just where to get off (or on as they will decide) and united the Allies as they have not been united in many years.

He has caused Gromyko to be careful with his words and hurled barbs at the Russians. Actually Kennedy's actions are not surprising.

In his STRATEGY OF PEACE, published in 1960, Kennedy set forth a plan which he maintained he would follow in the presidency. His twelve point foreign policy program stated: "We must make invulnerable a nuclear retaliatory power second to none ... we must regain the ability to intervene effectively and swiftly in any limited war anywhere in the world ...

We must rebuild NATO..." and "greatly increase the flow of capital to the underdeveloped areas of Asia, Africa, the middle East, and Latin America."

Kennedy also mentioned in separate points of his plan, Berlin, Europe, China and the Middle East.

The eleventh point was, "We must begin to develop new, workable programs for peace and the control of arms. We have been unwilling to plan for disarmament and unable to offer creative ideas of our own, always leaving the initiative in the hands of the Russians. An arms control research institute could undertake the technical studies needed before we can detect and monitor the vast and complex weapons systems of modern warfare.

The entire world hopes that the collapse at the Summit has not destroyed man's hope for a nuclear test ban. But if such a ban is achieved, it must only be the first step toward halting the spiraling arms race that burdens the entire world with a fantastic financial drain, excessive military establishments, and the chance of an accidental or irrational triggering of a worldwide holocaust.

At the same time we must move toward the eventual rule of world law by working to strengthen the United Nations and to increase its role in resolving international conflicts and planning for international scientific and economic development."

Our president mentions a strong U.N. in relation with solving our major problems of the day.

The Soviets may continue to act balky but the leadership of an American is established. He is carrying out his word. Now, at last, the lines are drawn. The words of Kennedy opposing the Troika plan reveals the stupidity of it.

Yet, the words of threats (and the words used in relation to the atomic weapons are threats) show that if we must use "the bomb" we will, and the necessity of it.

Let Kennedy sum it up, as TIME magazine reports an excerpt of his Inaugural speech: "Let every nation know, whether it wish us well or ill, that we shall pay any price, bear any burden, meet any hardship, support any friend, oppose any foe to assure the survival and success of liberty."

Did You Know It's the Truth That . . . . .

By Mike Shelley

A well known zoology professor was unwrapping a parcel before his class which he explained was a fine specimen of a dissected frog. Upon disclosing two sandwiches, a hard-boiled egg and a banana, he was very surprised and exclaimed, "But I was sure I ate my lunch." ... Odds are, that 1 person out of 25 will skip bail ... It takes longer to go from 2nd to 3rd than from 1st to 2nd because there is a shortstop between 2nd and 3rd.

Frequent water drinking prevents you from becoming stiff at the joints — only some of the joints don't serve water ... Anybody who thinks the wheel was a boon to mankind has never played roulette ... One out of every two people suffer from some kind of allergy ... Women and telephones repeat what they hear only the telephone repeats it exactly ... A dirty double crosser is a man who crosses the ocean twice and doesn't take a bath.

Simple Simon: "Don't use such bad words."

Piemán: "Shakespeare used them."

Simple Simon: "Well, don't play with him anymore."

A coed is a beautiful girl with the answers to the exam. ... Whistling in the dark is okay if you've seen the girl before the lights went out... The odds are only 1 in 100 that an expert can tell an original from a reproduction. ... They're putting tranquilizers in cigarette filters now. It doesn't stop lung cancer but now you don't give a damn ... In the matter of romance men are willing to rob the cradle, but are not interested in filling it ... Study is something you do when you can't possibly get a date ... The entire course of a man's secret love affair was revealed when his mother came upon a shelf of letters from the girl and noted this sequence of salutations: "Dear Mr. Stein," ... "Dear Ira," ... "Tra Dear," ... "Dearest Ira," ... "You Wonderful Guy," ... "My Own Sensational Lover," ... "You Wonderful Guy," ... "Dearest Ira," ... "Dear Ira," ... "Dear Mr. Stein."

Parking tickets are back, fraternities and sororities are back, teachers are back, and so is homework ... One teacher was giving a lecture on memory and was giving an example of association in training one's memory. "Let's suppose you want to remember the name of Robert Burns — picture a man with a sign on him saying Robert in the middle of a fire." All was fine until one girl asked how to remember Robert Browning ... You can change a dollar 293 different ways with just American subsidiary coins, pennies, nickels, etc.

THE WEED OF CRIME BEARS BITTER FRUIT. ....

Letters to the Editor

Dear Sir:

Because it would be impossible to personally thank the many people and organizations who helped with the 1961 Orientation program, we would like to take this opportunity to let you know how very much your cooperation was appreciated.

A special "thank you" goes to our administration, our faculty, our committee chairmen and Student Council, who sponsored the program. We also wish to acknowledge the time and trouble taken by the various other people who worked with us throughout the summer.

Organizing the 1961 Orientation program was indeed a privilege and a most rewarding experience for both of us.

Marlene Mogish  
and  
Eleanor Novotny  
1961 Orientation Co-chairmen

EXTRA-CURRICULAR ACTIVITIES-A REBUTTAL

Last week, in an editorial, we urged you to join student activities to learn responsibility, develop your personality, and become a mature individual. This sounds reasonable. But now we find it necessary to defend our position. It is understandable that we should receive criticism. For as in most situations critics look at the black side of an issue. They pick out the minority and reason that it applies in all cases.

An example: Critics are harranging on about juvenile delinquency. They lament what is happening to America's youth, they are going to the dogs. But one fact they seldom mention is that these delinquents make up about two percent of the teenage population.

Joiners Flunk

Extra-curricular activities are the same. We know students who joined too many outside activities and sacrificed their studies. They are no longer with us. They flunked. But these students are a minority. They weren't motivated by the same reasons for which we urge you to join activities. They were joiners. Most of the time social life is the only reason they came to college.

They didn't become mature, responsible students because they were active for other reasons. They missed the whole reason for the existence of campus organizations. If they were becoming mature they wouldn't have neglected their studies, they wouldn't have gotten involved with so many activities.

Critics of Minority

Those that fail college because of extra-curricular activities are the minority. And those that criticize extra-curricular activities look only at the minority. We don't expect you to run out and join a half-dozen organizations at once. Take your time, be selective. don't get overburdened. But do take the first step toward becoming a mature, responsible, and capable individual.

THE FALL OF AMERICA

Apathy is a word that has been debated about, campaigned against, talked on, and vilified at YU for the past 52 years. Students leaders are continually bewildered why students do not participate in campus activities.

The chief excuse always offered is that Youngstown is a commuter school. Students are handicapped by being some miles away from campus and, unless they own a car, cannot move freely between home and school. They also have friends from high school days that they have known and associated with for year .

Apathy Isn't Isolated

But this is untrue. Talking with students from Princeton, University of West Virginia, Pitt, Drury, and a host of other schools, we have found that apathy isn't isolated to Youngstown University.

It goes deeper. Apathy seems to be the American way of life. Few seem to be concerned with the vital forces of our economy and government. When a local union recently voted whether to strike or not, fewer than 600 out of 1400 participated. Even our national elections draw only an approximate 70% of the voters.

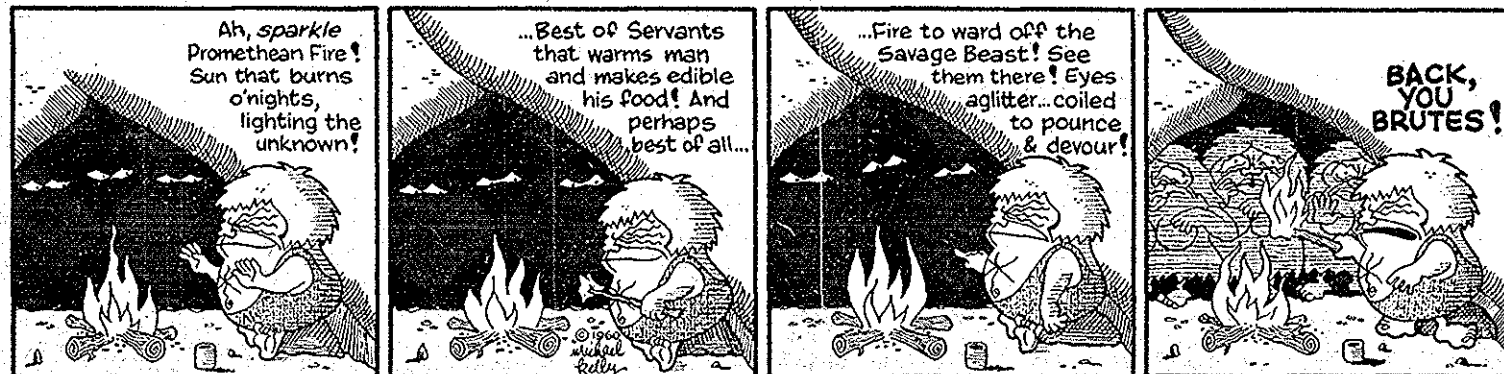

Where the town hall meetings of the 19th Century used to be the rule, they are now the exception. City council meetings look as if they are quarantined for the plague.

Wrong Country

When Dag Hammarskjold died recently we asked a friend what he thought of it. He asked, "Who's Dag Hammarskjold?" Another friend told us that the Amazon is the longest river in Africa. He didn't even know that the Amazon is in South America.

No wonder the Communists are making such strides. They at least make other countries THINK they are interested in their welfare. Most Americans just don't care. We have to break away from this national feeling of apathy. And such a movement can't start from the top. It has to start with you, the reader. George has done it long enough, he's getting tired.

FOR

## This Week with Greeks and Clubs; Romances Share Summer Spotlight

School is in full swing again. Freshmen and sophomores are scurrying all over the campus to and from class. With the exceptionally large freshman class this year, campus is even more crowded than ever. Tomorrow afternoon and evening the annual Homecoming game and dance will be held.

### INTERFRATERNITY COUNCIL

President Dom Galante of Theta Chi is at the helm of IFC this year. An informal rush will be held in Trouss Auditorium, Oct. 9, sponsored by Sigma Phi Epsilon, Theta Chi, and Phi Sigma Kappa. IFC membership is made up of two delegates from each fraternity as is the custom.

### ALPHA PHI DELTA

Officers for the coming year include Dave Colson, president; Bill Flynn, vice president; Ed Koleman, recording secretary; Ron D'Alesandro, corresponding secretary; Ed Cordisco, treasurer and Rich DeVencentis, chaplain.

Tony Airato and Ron D'Alesandro are co-chairmen of the homecoming float.

Members pinned during the summer include Louis Moliterno, Rich DeVencentis, "Muzzy" Muzzaco, Frank Irilli, and Joe Irillia. Bob Chuey was married this summer.

Steve Spires, Alpha Phi Delta member from St. Francis College, is a transfer student here.

### SIGMA ALPHA EPSILON

Homecoming float chairmen include Dick Giba, Jerry Hromyka, and Jerry Davis.

Plans for remodeling and redecorating our new house on Pennsylvania Ave. are under way.

### TAU OMEGA

We are making application for affiliation with Delta Sigma Phi national social fraternity.

An open house is planned at our new house, 224 Arlington Ave.

### ALPHA OMEGA PI

Among those pinned over the summer were: Bridget Italiano to Ron Antonelli; Dee Swan to Gerry Mentz; engaged were Eleanor Walsh to Dick Vance, and Angela Healy to Dan McCormick.

### BETA SIGMA OMEGA

Five sisters were married over the summer. They are: Carm DeOto to Robert Curtis; Molly Stuart to Mike Court; Betty Susor to Ron Vanatsky; Maureen Moore to Blase DeLeo; and Betty Fabry to Gene Alexander.

Joyce Cobei is pinned to Bill Schrak and Stevie Lucich is pinned to Dick Giba, as are Pat Loveless and Joe Purser.

Barbara Bieterman and Elaine Cooper were new initiates over the summer.

### PHI MU

Larry Lewis was Phi Mu's "Man of the year" and Sue Morosky, Pink Carnation Queen, at the annual dinner dance at Squaw Creek Country Club.

### Dr. Swartz Speaks At Education Meet

At the Student Education Association meeting Sept. 21, Dr. Joseph F. Swartz, Dean of the School of Education, spoke about adjusting oneself to the professional viewpoint and responsibility in the teaching career.

He stated that this could best be done by attempting to develop objectivity, learning to disagree with others without emotional reaction, and cultivation of tolerance for opposing viewpoints, even though disagreeing with them. Stressing the fact that economic rewards are secondary to the basic purpose, teaching, Dr. Swartz said, "Service should be our primary reason for entering the profession."

New Officers of the Association are Barbara Schmolder, president; Barbara Steiner, vice pres.; Loetta Haller, treasurer; Sue Ellen Hooper, secretary; Bonnie Bennett, recording secretary; Eileen Lyden, reporter; Paul Rubinak, historian.

The next meeting is scheduled for Thursday, October 19 when a family play will be presented. New members are welcome.

### Drive-In Offers Low Rate

The Westside Drive In has extended special rates to Y.U. students and faculty, for September 29 and 30 of 25 cents each.

University identification cards must be presented for admission. The feature movie is "The Young Savages." The drive-in is located at 6126 Mahoning Ave. on Route 18 in Austintown.

### Added to Dana Staff

Continued from page one  
the North Highland's Baptist Church in Baton Rouge from 1954 - 58 and was an opera singer at the Rendsberg State Theater in Germany for several years.

Roberts received his bachelor's and master's degrees from Louisiana State University and has studied privately in voice with Sergei Radamsky in Vienna and Florence. He was winner of the Southeast United States Metropolitan Auditions in 1960.

Both are members of Phi Mu Alpha Sinfonia, national honorary professional music fraternity.

### Peace Corps Exam Given To Graduates

Any American who wants to serve in the Peace Corps will have another opportunity to qualify by taking examinations on October 7th. The examinations will begin at 8:30 a.m. and will last for six hours with an additional hour out for lunch.

Each person will be given his choice between two types of examinations. One examination is designed for men and women who would like to be considered for positions as secondary-school or college teachers. A bachelor's degree is required to take the test but applicants need not be accredited teachers.

The second examination is for those interested in serving in the Peace Corps. There is no rigid passing grade for this test. Results are considered along with such other elements as background, special skills, and character references.

The tests will be administered at the Post Office Building in Youngstown, October 7.

### Two Profs Attend YU This Week Institute at Purdue

Two Youngstown University faculty members attended Summer Institute programs on nuclear energy sponsored jointly by the American Society for Engineering, Education and the Atomic Energy Commission.

Dr. Hugh A. Shaddock of the William Rayen chemical engineering faculty attended the Reactor Laboratory advanced course at the Argonne National Laboratory, Argonne, Ill. The second Rayen faculty member, Frank J. Tarantini attended the Beginning Summer Institute at Purdue University.

The summer institutes are for the purpose of giving engineering and technical faculty members a better background in the field of nuclear energy and engineering.

Friday, Sept. 29 - Bon fire and pep rally. Sigma Sigma Sigma mum sale.

Saturday, Sept. 30 - Homecoming parade, noon. YU vs Toledo, 2 p.m. Homecoming dance, 9 p.m. to 1 a.m.

Sunday, Oct. 1 - CAAA tea, 2-5 p.m.

Monday, Oct. 2 Circle K.

Tuesday, Oct. 3 Debating society, 4-5 p.m. Informal rush 9 a.m. to 4 p.m.

Wednesday, Oct. 4, Social Science Club, 8 p.m. RIL chapel, 11 a.m., St. John's Church.

Thursday, Oct. 5, Dana rehearsal 7-10 p.m.

This just fills this line.

**On Campus** with Max Shulman  
(Author of "I Was a Teen-age Dwarf," "The Many Loves of Dobie Gillis," etc.)

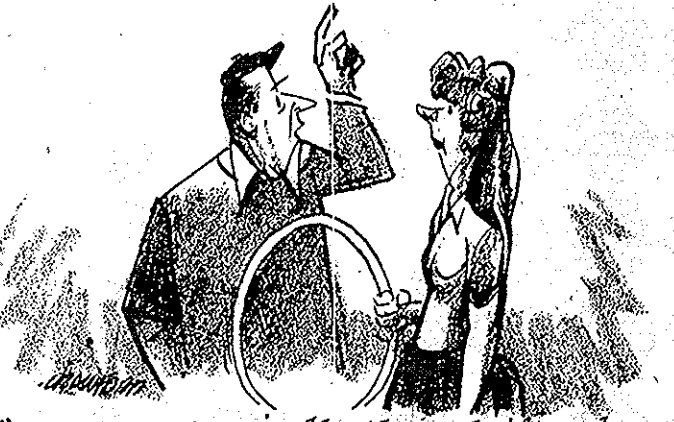

### THE GIRL I LEFT BEHIND ME

It happens every day. A young man goes off to college, leaving his home town sweetheart with vows of eternal love, and then he finds that he has outgrown her. What, in such cases, is the honorable thing to do?

Well sir, you can do what Rock Sigafos did. When Rock left Cut and Shoot, Pa., he said to his sweetheart, a simple country lass named Tess d' Urbivilles, "My dear, though I am far away in college, I will love you always. I will never look at another girl. If I do, may my eyeballs parch and wither, may my viscera writhe like adders, may the moths get my new tweed jacket!"

Then he clutched Tess to his bosom and planted a final kiss upon her fragrant young skull and went away, meaning with all his heart to be faithful.

But on the very first day of college he met a coed named Fata Morgana, a girl of such sophistication, such poise, such savoir-faire as Rock had never beheld. She spoke knowingly of Franz Kafka, she hummed Mozart, she smoked Marlboros.

"You can hit me in the stomach if you like."

Now, Rock didn't know Franz Kafka from Pancho Villa, or Mozart from James K. Polk, but Marlboros he knew full well. He knew that anyone who smoked Marlboros was modern and advanced and as studded with brains as a ham with cloves. Good sense tells you that you can't beat Marlboro's exclusive selectrate filter, and you never could beat Marlboro's fine flavor. This Rock knew.

So all day he followed Fata around campus and listened to her talk about Franz Kafka, and then in the evening he went back to the dormitory and found this letter from his home town sweetheart Tess:

Dear Rock,  
Us kids had a keen time yesterday. We went down to the pond and caught some frogs. I caught the most of anybody. Then we hitched rides on trucks and did lots of nutsy stuff like that. Well, I must close now because I got to whitewash the fence.

Your friend,  
Tess

P.S. - I can do my Hula Hoop 3,000 times.  
Well sir, Rock thought about Tess and then he thought about Fata and then a great sadness fell upon him. Suddenly he knew he had outgrown young, innocent Tess; his heart now belonged to smart, sophisticated Fata.

Rock, being above all things honorable, returned forthwith to his home town and walked up to Tess and looked her in the eye and said manly, "I do not love you any more. I love a girl named Fata Morgana. You can hit me in the stomach with all your might if you like."

"That's okay, hey," said Tess amiably. "I don't love you neither. I found a new boy."

"What is his name?" asked Rock.

"Franz Kafka," said Tess.

"A splendid fellow," said Rock and shook Tess's hand, and they have remained good friends to this day. In fact, Rock and Fata often double-date with Franz and Tess and have heaps of fun. Franz can do the Hula Hoop 6,000 times.

## YU Sophs, Juniors Should Apply Now To Study in Europe

September 25 marked the official opening of the application period for three spring semester undergraduate European study programs offered by the Institute of European Studies.

Sophomores and juniors who meet the minimum standards for each of the programs may apply until December 15. The three programs are located in Vienna, Freiburg (West Germany), and Paris.

Selections are made on the basis of past records of academic accomplishments and recommendations from two faculty members familiar with the applicant's scholastic capabilities.

A wide range of liberal arts courses is offered to fulfill the varying needs of U.S. undergraduates studying in Europe. Intensive language instruction is given to all students and other special courses may also be attended.

Students need not be proficient in a foreign language to study in the Vienna and Paris programs. Classes are taught in English as well as in the language of the host country. Only juniors may enroll in the Institute's Freiburg program, and competence in the German language is required there.

Students are housed in private homes to provide a practical workshop for the learning of a new language and a deeper insight into European culture.

All spring semester students will sail from New York in February, 1962, and return to the United States in July.

Full information about programs can be obtained by writing to the Institute of European Studies, 35 East Wacker Drive, Chicago 1, Illinois.

## Pigskin Pete Offers Free Movie Tickets

by Pigskin Pete

School spirit here stinks!

It would appear after the first trial run of this column that it too is doomed to defeat by student apathy. I can't even give away something free. However, I console myself for not getting any replies on my offer of two passes to the Art Guild Theater by convincing myself that no one read past the headline on my last column.

If you did read past the headline, then you know I'm boasting an .800 percentage after the first weekend of college football. I was tripped up on the Virginia-William and Mary and Air Force-UCLA games. I don't feel too badly however, since my dark-horse - - Puget Sound U. - - beat Willamette College, 20-19.

Let's try it one more week. Don't forget those free passes to the Art Guild. Right now I think I'll award them to myself since I doubt whether anyone would have picked more correct games anyhow!

Youngstown over Toledo - The Penguins' offense, kept pretty much under wraps against Central Michigan, comes to life.

North Dakota over Morningside - The North Dakota "Sioux", a future YU foe, rebound after a pasting by big-time Nebraska last week.

Ohio State over Texas Christian - The Buckeyes will know they've been in a battle but should come out on top.

South Carolina over Wake Forest - We had South Carolina on the losing end the first week, they could reverse that here.

Wichita over Cincinnati - The Missouri Valley Conference champs look too big and tough for the Bearcats to handle.

Pitt over Baylor - A toughie but the Panthers command a lot of respect. Coe College over Ripon - A one-time ROTC instructor of mine attended Coe College and he says this is their year. (by the way it's in Iowa.)

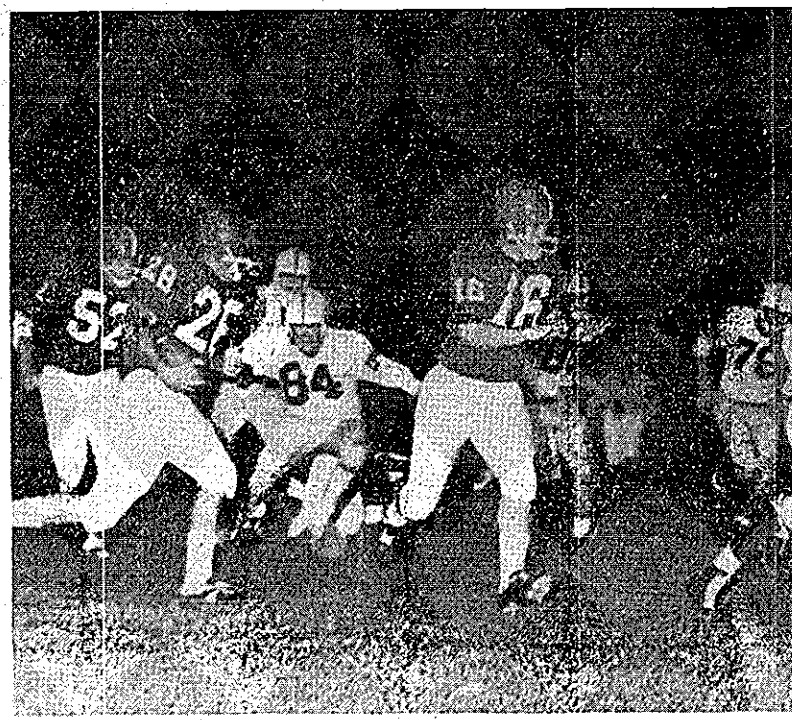

Penn State over Miami - The Mt. Nitts got a scare against the Navy but their second half rally convinced me of their strength.

Michigan State over Wisconsin - The Spartans look like one of the top teams in the rugged Big Ten Conference.

Yale over Connecticut - With only one member of last year's unbeaten team returning, the Bulldogs will be weakened. However, we see them winning their opener.

Well, here's ten more chances for some bright (?), energetic (?) student to make me eat my words. That's all for this week. I'm off to the Art Guild with my two free passes!

## Horvath, Richardson Pace Initial Victory

THE PENGUINS offensive sprang to action as Frank Horvath carried the ball for first down. Dom Vecchiarelli (52) and No. 16, Bruno, carry out the blocking.

With an opening 36-7 win over Central Michigan under their belts the Youngstown University gridders prepare to meet the Toledo Rockets in the annual Homecoming tilt scheduled for 2 p.m. tomorrow at Rayen Stadium.

The Rockets have lost their first two games this season, both by slim margins. They were beaten two weeks ago by Missouri Valley Conference champion Wichita, 12-7, and last Saturday lost to defending Mid-American champs Ohio University, 10-6.

Last season, Toledo defeated Youngstown in the final seconds of a thrilling game, 34-30.

A major Toledo problem over the past few seasons, lack of depth, may have been solved with a 60-man squad this season. Leading the team at quarterback is sophomore Phil Yenrick backed up by another soph, Jerry Baumgartner.

A weak spot in the Rocket offensive line may be at end where Pete Jolliff and Jim Thibert hold down the jobs. Their defense is good but their offensive work leaves something to be desired. The Toledo line, tough and fast, is lead by co-captains, tackle Russ Hoogendorn and guard Tom McCartney.

The Youngstown defense turned two pass interceptions and a fumble recovery into scores to record the lopsided victory before 6,500 fans at Rayen Stadium last week.

Leading the attack for Youngstown was junior halfback Frank Horvath with 90 yards gained in 18 carries. Freshman Paul Richardson tallied two six-pointers to lead the scorers.

The University was outgained on the ground by Central Michigan, 198 to 182 but outpassed the visitors, 83 yards to 64. The first downs were all even at 11, but the YU defense repeatedly stopped the Central Michigan game cold when they threatened to move goalward.

### The scoring:

Youngstown, Dom Vecchiarelli, 80, run with fumble recovery. (Hartzell kick)

Youngstown, Richardson, 35, run with pass interception. (Hartzell kick)

Central Michigan, Koons, 29, pass from Gephart. (Davis kick)

Youngstown, Horvath, 36, run with pass interception. (Hartzell kick)

Youngstown, Richardson, 44, run. (Run failed)

Youngstown, Edwards and Roth tackled Walzak in end zone for safety.

Youngstown, McElroy, 35, pass from Durkin. (Hartzell kick)

## Opening Victory Marks 101st Win

Coach "Dyke" Beede won his 101st game last week, and entered his third decade of coaching at Youngstown University.

Coach Beede considers the 1941 season to be the most successful. The team was undefeated but tied the first game of the season, 0-0.

When asked if he had noticed much change in the teams or players during his 20 years as coach, "Dyke" commented that the teams are getting progressively stronger year by year and the schedule was getting tougher and growing along with the school. When the football team was first started in 1938, there were only 600 students in the college. Beede stated, "But the boys who are interested in the sport haven't changed much over the years."

As We See It

**Moral: Meet Those Deadlines; Activities Starting to Swing**

Well, hello again group. In case you missed us last week, you now know what happens when the Jambar's two best columnists miss a deadline -- we just ain't there. And in case you didn't miss us -- who needs you anyhow.

By now most of the freshmen should be able to find their way around the campus to their various classes and other essential places such as the Snack Bar, Cafeteria, Johns, Book Store, Cashier's Office, etc. And after a few more weeks they will be just like the rest of us professional students -- wondering when they get out.

Have you noticed how hard it is to find a parking place? You can drive around for hours looking for a legal, or even an illegal space, and there are none to be found. Of course now that school is in full swing again, the city police don't have to worry about their daily quota of tickets. Anyone behind in his quota can just drive over by the campus and have a good time writing.

Seriously though, something is going to have to be done -- no one can afford all these tickets and if you came to school after 5:45 a.m., the lots are generally full. What can you do?

Suggestion -- an ideal Christmas present for the College man that has everything is either a portable parking space or a fold-away car.

Speaking of cramped conditions, during the Indian summer days, students can spend leisure time outside. But when it gets cold and messy, where will we go? The Cafeteria and Snack Bar are close to resembling (or even surpassing) the proverbial sardine can now. One can't go to the library to lounge because all those who even open their mouths to yawn are told to leave. The only solution is to go to your car and neck.

"Choose your partner 'cause here we go again." ... could well be the theme of this year's Homecoming. Off at a gallop for registration, and then into Homecoming with a bang (man, like which way did he go ???) Homecoming with all of it's campaigning, elections, float building, bonfire, and the highlight of the week, the dance tomorrow night, along with the crowning of our lovely Queen. Our sincere congratulations and best wishes to her and her court.

Next week, in case you might be wondering about the new students in class wearing fraternity pins, they really aren't new students. It's just that now the floats are finished, and the men can start to classes seriously.

To Freddy and Freda Frosh, these things may seem a bit hectic. But cheer up kids, this is only the beginning, and things get progressively worse.

From the moans and groans heard around the campus, it seems that many of our illustrious professors have heard the war call and are complying with a vengeance. School work is already starting to pile up. To some worthy students, "Flunk out early and avoid the rush." Or should it be, "Cram now, and avoid the rush later."

For anyone who is interested, an exclusive interview has revealed that the surest way to Nadine Phillips' heart is to present her with a big box of M & M's.

A special hello to the Tallahassee lassie, Penny. And don't forget, little One! Only 169 days 'til St. Patrick's Day.

CLASSIFIED ADS ...

what comes after the wheel? ford motor company's educated guess

Frankly, there is no practical substitute for the wheel today. But at Ford Motor Company, our scientists and engineers refuse to give "no" for an answer. They are tackling, among others, the problem of wheelless vehicles for tomorrow.

Is "tomorrow" really far off? Not according to the men at Ford. Already they've developed the Levacar as one possibility. It replaces the wheel with levapads, perforated discs which emit powerful air jets to support the vehicle. Air suspension—if you will—of an advanced degree. Imagine traveling swiftly, safely at up to 500 mph, riding on a tissue-thin film of air. Guided unerringly by a system of rails. Propelled by powerful turboprops. This is the Levacar.

Meanwhile we've still got the wheel. And the job of building better cars for today. So we hope you won't mind riding on wheels just a little longer while we concentrate on both tasks.
