

# THE JAMBAR

1908 Youngstown University 1958  
Semicentennial

Friday, February 20, 1959

Youngstown University, Youngstown, Ohio

VOLUME 35, NO. 2

## Nu Sigs Affiliate With Sigma Tau Gamma National

Nu Sigma Rho local fraternity was installed as Beta Gamma chapter of Sigma Tau Gamma national fraternity, Sat., Feb. 7 at the local chapter's house on Lincoln Ave. Beta Gamma is the first Sigma Tau Gamma chapter in Ohio.

The Sigma Tau Gamma chapter from Clarion State Teachers College was in charge of the installation ceremonies. Newly installed officers are Pres. Tony Verdram, Vice Pres. Nick Pupino, Treas. John Andreyko, Sec. Joe Cortese and Sgt. of Arms, Ed Bodnar. Jack Menosky was installed as the Graduate Advisor.

A banquet was held at the Tod Hotel after the installation. Featured speaker was Bill Cornell, Sigma Tau Gamma, Province Governor. Speeches of congratulation were given by Pres. Howard Jones and Dean of Men, John Gillespie.

## OSPE Members Hold Elections

The Youngstown University student chapter of the Ohio Society of Professional Engineers elected new officers at a regular meeting recently in the Engineering School.

The new officers are: President, John Simerlink, Vice-President, Gary Jones; Recording Secretary, Robert Amsler; Corresponding secretary, Richard Wrasman; and Treasurer, Paul Sevenich.

The group, which seeks to maintain an organization common to all the engineering students, has its next meeting planned for today, Friday, Feb. 20, at 12:00 noon in Room 103 of the Engineering School.

### Plan Many Activities

Dues for each semester are \$2.50 and many activities are listed on the agenda for this spring. Included are a dinner dance; films, speakers, smokers, a field trip, dinner meeting and the state convention at Toledo on Mar. 19 to 21. O.S.P.E. chapters from all over Ohio will be represented along with their parent chapters.

The group is open to all engineering students and meets every other Fri. at noon in Rayen School.

## Eight Graduates Receive U.S. Army Commissions

Eight graduates of the Youngstown University Reserve Officers' Training Corps of Cadets were sworn in as Second Lieutenants in the United States Army Reserves in ceremonies held at Pollock House last week.

Lieutenant Colonel O.R. Hummel, Professor of Military Science and Tactics, conducted the ceremonies and tendered the commissions to the new officers.

### List of Graduates

The following graduates received commissions: Harry B. Bosch, James R. Cooksey, Russell Colton, Albert Fortine, Jr., Ronald Iseli, Donald Miller, Eugene Williams, and Andrew Zvilna.

Dignitaries of the University, U.S. Army, and parents were present at the ceremonies.

MEMBERS of Sigma Tau Gamma Fraternity gather around the banquet table prior to their installation. The old Nu Sigma Rho held the ceremonies in the Tod Hotel.

## Know Your Councilmen: They Owe You Something

This is the first in a series of articles designed to acquaint the student body with the purposes and workings of Student Council, the governing body on campus.

Student Council is composed of students who owe their seats on campus to the votes you cast for them in all-campus elections. Members know full enough that they have a true responsibility to these voters, and they are more than willing to listen to complaints which they will bring on the floor at Council meetings for possible solution.

### Know Them

You are urged to know the representatives of your particular School. The following is a list of these

representatives. Engineers are represented by Dale Cunningham, Alan Hegedus, Sam LaLama, Dan Murphy, Gary Swanson and Greg Grist.

Liberal Arts students on Council are Judi Appelman, Joyce Bailey, Sandra Bailey, Martha Clark, John Esposito, Janice Georges, Michael Kaiser, Vilma Terle, and Jim Zamary.

Business School students are Dave Clark, Tom Flynn, Leonard Loopp, Gerard Repasky, and Ronald Stowe. Secretarial School is represented by Donna Stillians and Music by Lillie Wall.

Remember this motto: "Complain to those who have a responsibility to listen."

## Lexington Story On Valley Tales

In the area now occupied by Alliance, Ohio, wild game was once so plentiful that a man could shoot his dinner from the front door almost any time. However, when the bears discovered an amazing new way to steal pigs, something had to be done.

This is the background of the story "Lexington Township's Remarkable Bear" which will be broadcast on area radio stations by the Industrial Information Institute this coming week.

This is number 20 in a series of tales of the Mahoning and Shenango Valleys, all sponsored by the Industrial Information Institute.

## Faculty Members Attend Conclave

Two members of the faculty of Youngstown University, Mrs. Jayne Harder and Miss Elizabeth Sterenberg, will attend the annual regional meeting of the Foreign Students Advisors and Teachers of English as a Foreign Language, to be held at Ohio University.

Mrs. Harder will be on the panel discussing Goals in Teaching English as a Foreign Language.

## Student Library Fund Drive To Feature "Kick-Off" Day

In an effort to raise funds for the purchase of special books for the Youngstown University Library, students will be asked to contribute to the Library Fund Drive which will be conducted on campus March 2, 3, 4, 5, and 6.

## Enrollment Up Over Last Year

Final figures are tabulated for the second semester at Youngstown University showing a total enrollment for the semester of 5,655 students, an increase of 332 over enrollment for last year at this time.

A breakdown shows the highest enrollment in liberal arts with a total of 1,970. Other schools follow in order of highest enrollment: business administration, 1,481; engineering, 1,243; education, 851 and music, 110.

The high liberal arts enrollment is partially accounted for by the fact that education students now are enrolled in liberal arts for the first two years of their curriculum. Engineering enrollment is slightly lower than that of last year. All basic science classes are filled.

## Denver U. Offers Work on Masters

Graduate fellowships for 1959-60 for the study of International Relations, leading to the degree of Master of Arts, have been announced by the University of Denver.

The Social Science Foundation of the University will provide a number of fellowships ranging from tuition to \$1,600.

Deadline for applications is Mar. 1, 1959. Only college graduates who will hold a degree by Sept. 1, and who have outstanding undergraduate records are eligible.

The funds raised by the student committee, headed by Gerard Repasky, will be used for the purchase of certain volumes which will enrich our growing library.

Individuals are urged to participate in the fund drive. Those who make a contribution will receive a book mark to indicate the fact that they have "marked their book." Each organization on campus will be asked to contribute as a group to the fund drive. Cooperating with the general committee are Pan-Hellenic Council and Inter-Fraternity Council.

### Plan Kick-Off

The "kick-off" for the fund drive will be Friday, February 27, on which day the owners of the J. & E. Parking Lot will turn over all proceeds from student parking for that day to the Library Fund. The parking lot is located 2/3 of a block from the university on Elm Street at Arlington.

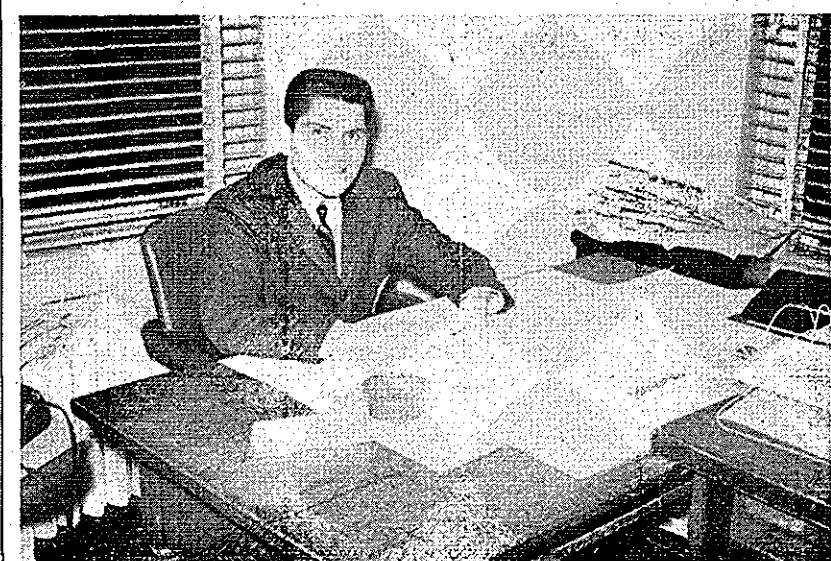

Similar projects to help the drive are being planned. The committee urges all students to participate in the Student Library Fund Drive.

## Appoint Air Force Man to Campus

Major Frank M. Clark of the United States Air Force Reserves has been appointed liaison recruiting officer for Youngstown University.

In this capacity Major Clark will be available for explaining the various benefits which the Reserves offer to former members of the Air Force, as well as the requirements to be fulfilled by obligated Reservists. All interested in the Air Force are urged to contact Major Clark no later than March 1, 1959.

## New JAMBAR Editor Chosen

John A. Hernandez has assumed the duties as editor of the JAMBAR for the 1959 Spring Semester. He succeeds Mickey Kaiser.

John is a senior majoring in English. He has been with JAMBAR for four years. Two of these years were spent as sports editor and one as managing editor.

Hernandez is very interested in journalism and plans to enter newspaper work upon graduation.

He graduated from East High School in 1955 and will graduate from Youngstown in June of 1959.

He is past vice-president of Phi Sigma Kappa Fraternity, and a member of Newman Club.

## Editorials . . .

### And To What End?

A basic judicial question involving newspapers and their methods and sources of obtaining news stories made headlines of most newspapers throughout the country recently. The case in question was that of TV columnist Marie Torre — jailed for her refusal to reveal the source of information regarding actress Judy Garland.

Much to the chagrin of many citizens, and not only those connected with the newspaper industry, this young woman had to serve a jail sentence for being faithful to her vow not to expose another person. Here is what the editor of the Michigan State News had to say. "If reporters are not allowed to keep their sources confidential, if the right not to divulge names of their informants is merely mouthed and not respected in practice and in the courts, then we are arriving at a low point in our American system.

Often sources of stories that citizens should know, need to know, insist on the protection of anonymity. If this protection is denied or threatened, as in the Marie Torre case, these sources will dry up, and with them many a story that needs to be told."

### To A Patriot

Though much has been written about George Washington, much of the material is dull and repetitive. Why then should this man, whose biographies appear uninteresting, be revered as a father and god?

He is godlike, for his name has become a legend with the American individual. Estates, mountains, lakes and colleges bear his surname. His countenance has been printed on postage stamps and coins; His profile graces a mountainside.

Perhaps Washington, in the eyes of the British is a rebel, but through our eyes we see the Father of the United States; A monument dedicated to our vast heritage.

### Butler Art Features Student Paintings

by Shelby Heakin

Mary Fedorko, Jerry Malarick and Jan Burgemyer, Youngstown University students are participating in the 25th annual show sponsored by Polish Arts Club at Butler Institute. The exhibit opened Sunday, Feb. 15, and will close Sunday, March 1.

Miss Fedorko received a second honorable mention on her oil "Angry Women". Her other entry was entitled "A Dream".

Malarick's entries are "My Mellorism" and "Oriental Landscape" in oils and a watercolor "Early Snow". "Painting in Blue" and "Moon-Glow" are Jan Burgemyer's entries.

This year's exhibit emphasizes the work of students of Slavonic descent in the competitive division and the works of recognized artists in the older division.

**Brotherhood  
for Peace & Freedom**

### Firestone Editor Is YU Graduate

Richard F. Hixon, a graduate of Youngstown University, has been named editor of the Non-Skid industrial publication of Firestone Tire and Rubber Company.

Hixon, who has been a member of the Firestone advertising department since May 1957, succeeds Miss A.A. Eubaker as editor of Non-Skid.

He was born in Struthers, Ohio, and was graduated by Struthers High School in 1950. After attending Kent State University for a short term, he served in the U.S. Army.

Hixon graduated from Youngstown University in 1957 with a B.A. degree in English. He is married and now lives in Akron.

Grandmother: "Were you a good girl at church today, Susie?"

Susie: "Oh, yes! A nice man offered me a big plate full of money but I said, "no, Thank you, Sir."

## The Campus Voice

By

by Vilma Terle

Hello again! This week some students from the field of science would like to talk to you - members of Omicron Lambda Honorary Biology Fraternity

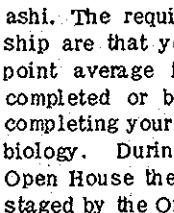

Charles Maas

Is a senior and a graduate of Girard High. "I have chosen pre-med for my major because I have long been interested in medicine and in helping those in need of help. After graduating from Youngstown I plan to go to Pittsburgh U. School of Medicine. I joined Omicron Lambda because I am interested in Biology and therefore am interested in others in this same field. I believe it has been of intellectual and social advantage to me through meetings, field trips and lectures."

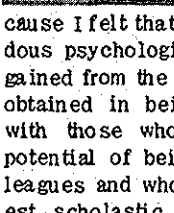

Paul Martelerne

Is the President of Omicron Lambda. "I'd like to tell you some things about the organization. It was chartered by Student Council in February of 1936. Our advisors are Dr. Donald Marcy and Mrs. Doris Hirabayashi. The requirements for membership are that you must have a 2.00 point average in biology and have completed or be in the process of completing your 8th semester hour in biology. During the University's Open House the biology exhibit was staged by the Organization."

Fabius Russell

Is a Senior mathematics major. "I choose this major because it is the basic tool of research. I am studying medicine with the ultimate aim of entering the field of Psychiatry. I joined Omicron Lambda because I felt that there was a tremendous psychological advantage to be gained from the sense of satisfaction obtained in being able to identify with those who have the greatest potential of being professional colleagues and who represent the highest scholastic achievement in the biological sciences."

Gerald Dusza

Is a junior in the field of Pre-Med. He graduated from Warren Harding High School. "I have always been interested in Nature, Biology and Medicine. After graduation I hope to enter into post graduate work. Right now I'm not sure whether it will be a medical school or dental. I joined Omicron Lambda because the members have a common interest - biology. Also because it is an honorary society I feel that it is an honor to belong to it."

" -- When I'm ready to come out I'll yank 3 times .... that's when you come into action!"

## Student Concerned With Conformity; Cites Smoking

To the Editor:

The problem of conformity has been receiving much attention lately because of fraternity and sorority rushing and well it should, it is worthy of much thought.

Jrecks have been accused of being spineless conformists and joiners. This may, or may not be true. We are not concerned with that problem now.

The real problem is this: can a person be a member of a group and at the same time be an individualist?

It should be quite clear that this can be. This analogy of smoking will clarify my point. People that smoke comprise a great majority of Americans and to be a part of this group marks you as a conformist. The person that does not smoke is very proud of himself, the nonconformist, and always makes it a point to tell

the smoker, the conformist, how spineless he is to smoke because everyone else does. But isn't it easier to abstain from smoking than it is to have control over the amount you smoke? In other words it takes more courage to apply moderation than to abstain from smoking altogether.

This is the crux of the argument concerning conforming: This idea of moderation can be applied to any instance of conforming. The person involved should not completely subordinate himself to the act, such as smoking, or the group, such as fraternities and sororities. It is only when a person completely surrenders himself to an act, or a group that he could properly be titled a conformist.

Name Withheld

### Objective Exams

Dear Editor:

In reply to the letter printed in the Jambar on February 13, 1959 titled "Student Slams Objective Exams" signed "A Student".

In the essay type test a student lax in a subject may be able to give an instructor a "snow job". An instructor may have a tendency to grade accordingly to how well a student can compose rather than how well he knows the subject he is writing about. In other words students receive an "English Composition" grade along with the subject tested on each test, whether it be history, liberal arts, or business.

"A Student" evidently is a good composer but unable to retain straightforward facts easily. He probably has the ability, like many others, to take a few facts, write well, and give the instructor the impression of knowing what he is talking about.

The objective type of test establishes the knowledge a student has absorbed. There is little room for guess work if the instructor chooses his questions and answers carefully. No partiality on the part of the instructor can be shown, the answer is either right or wrong.

Dan Eisner  
Engineering School

Dear Editor:

I have just finished reading a rather naive and elementary letter that appeared in the JAMBAR concerning a student's so-called criticism of objective exams. This student, first of all, has given no clarification on the type of objective exam in question, and secondly, he has not enumerated the REAL, basic faults of such an exam.

Objective exams (and I do not mean merely the true and false type) are extremely valuable to our system of education. The type of objective exam I have in mind is the subjective exam conducted in the objective manner. That is, the essay type question dealing with an enumeration or conglomeration of certain objective principles that produces a synthesis of all that the student has learned from a certain course.

This type of exam, which is able to show the professor how much you have learned and how well you have learned it, is much to be preferred over the purely subjective type in which the student may attempt to bypass the real subject matter and actually bluff the professor with how little he knows.

This student, who did not like objective tests because they are "pretty much glorified cross word puzzles", has evidently such a scheme in mind. May I remind him that education in America today is being purged from the roots up, and the student, who spends his time "living-it-up", instead of absorbing knowledge (and this is the students' and schools' only existence for being) will not only be a detriment to himself, but to society and to his country as well.

An Interested Student

# YU Penguin Sports

## Bushman, Melfi Reserve Stars

By Pete Sloan

Charley Bushman and John Melfi are kind of a Mutt and Jeff combination on the basketball floor, Charley towering at 6 feet 7 inches and John standing only 5 feet 9 inches. There are some similarities, too. Both are seniors striving for degrees in advertising and both are front line reserves.

Charley was an all city performer at Rayen High School, where he manned the center spot. Since coming to Youngstown he has been used at the forward spot. His best year was last year when he played in 26 games and scored 124 points and picked off 137 rebounds. The best game of his career came last year when he dumped in 15 points in a losing cause against St. Francis. His height also helped out against the Frankies, too.

### Plays Baseball in Spring

In the Spring Charley's talents turn to baseball for the Penguins. He pitches and plays first base. During the Summer months he is a softball pitcher for Skyway Tavern. He won the pitching trophy last year with a 9-0 record. His team placed second in the State tourney.

After graduation he would like to work in the sales department of General Fireproofing. He is engaged to Gloria Stevens.

### Melfi Wampus Star

John Melfi played his high school ball at Wampus High. There he was a star along with Don Hennon. Pitt great. In his senior year he hit for 507 points and was very instrumental in leading his team to 31 straight victories and the Pennsylvania Class B crown. He made second team All-Pennsylvania.

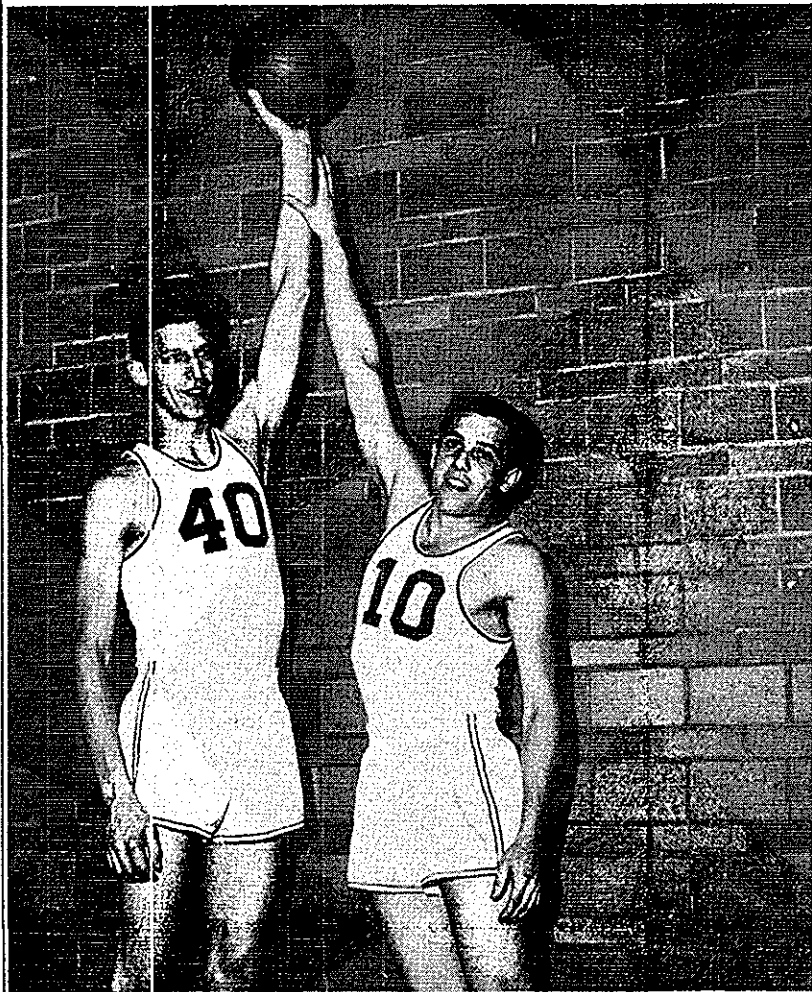

Melfi has been a reserve guard since coming to Youngstown. His best year was his sophomore year when he and Roy Taylor alternated. That year he played in 25 games and hooped 132 points, his best being 19 points in Gannon College.

### Plays in Band

During the summer, John is a traveling musician. He is an accomplished drummer, having played with the Crew-Cuts and the Four Step Brothers. He has worked musicals at fairs, including "Annie Get Your Gun", and "Oklahoma." After graduating he plans to go on

## YU "Mutt and Jeff" Combination Cage Games In Review

By Pete Sloan

YOUNGSTOWN UNIVERSITY'S "Mutt and Jeff" combination of Charley Bushman and Johnny Melfi demonstrate the reason for their nickname. (Jambar photo by Paul C. Jagnow)

Last Saturday night the Penguins lost to a good Niagara basketball team at their homecourt. The score was 79-64, but actually the game was closer than this. The teams battled evenly in the second half and Niagara didn't put in their subs till 1:09 left in the game. Actually the game was lost with about three minutes remaining in the first half. The Red Raiders bombed in ten points to our two. The Penguins threw the ball away two times and were guilty of steps once during this spree. This made the score 44-30 at the half.

The second half started, Niagara upped their margin to a 25 point bulge. But the Penguins came fighting back and were behind by only 13 points with five minutes to go. At this point the foul rule of one and one killed the chances of the Red and White. Another factor was that Herb Lake fouled out of the game.

### Many Fouls Called

The officials called a total of 23 personal fouls against Youngstown and many of these were hard to distinguish by the ordinary fan. A few of the fans yelled as if to say, "Let the players play the game." The officials called only eleven personal fouls against Niagara.

If the fouls would have been distributed a little more evenly the Penguins would probably have come away with a victory for the Red and White outscored Niagara from the field, 29 to 27. It was the fouls that won the game with Niagara sinking 25 out of 34 free throws while Youngstown made 6 out of 11.

The Penguins scoring went like this. Mickey Yugovich led with 21, followed by Jim Cramer with 17 and Herb Lake with 10. Niagara had a player that certainly filled the shoes of Boo Ellis, their All American of last year. It was Al Battles, who really showed his ability to the fans. He drove for shots, hit from the outside, set up plays, and rebounded for a total of 25 points for the night.

When the Youngstown Athletic Director, Willard Webster, asked for a game next year he received the stock answer that their schedule was all filled up. Possibly Niagara was afraid that they would lose if they played at South High Field House again. This proves that the Penguins can play with the best of the college teams in the nation and are likewise feared by some of these teams.

Youngstown University was outpointed by the Akron Goodyear quintet, 114 to 103 recently, in a thrilling contest at the South Field House.

The Visitors jumped to an early lead and managed to keep the locals at a ten point deficit during a large part of the play.

Jim (Beanie) Gordon made good for 29 markers while Herb Lake and Jim Cramer bucketed 25 and 23, respectively, to pace the Penguins.

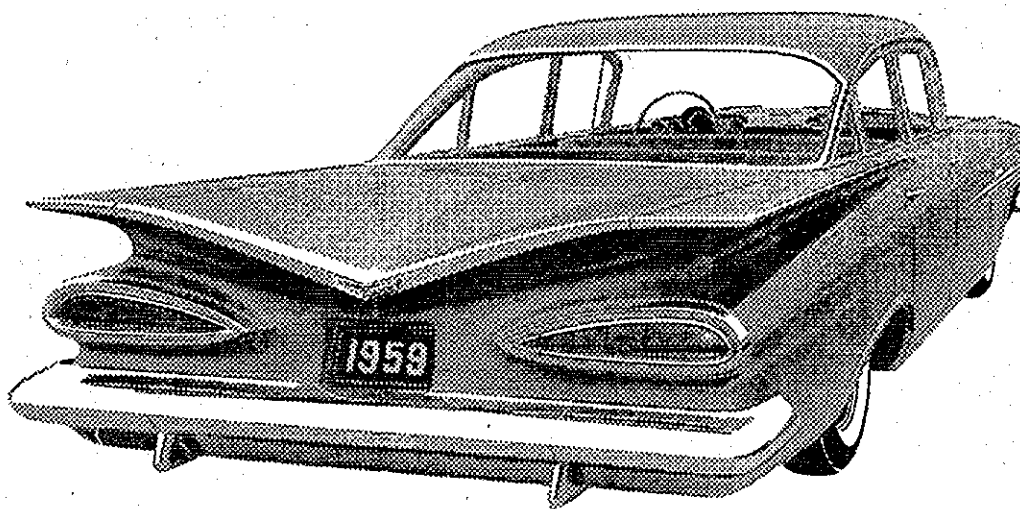

Wally Walowac, Goodyear playmaker, thrilled the fans with his startling exhibition of fancy ball handling and deadly shooting.

Absent-minded professor: "Hair-out, please."

Barber: "Certainly, but will you please remove your hat?"

Professor: "Of course. I didn't know there were ladies present."

# GOES AND GOES AND GOES ON A GALLON!

Biscayne 4-Door Sedan shows the Fisher Body beauty of Chevrolet's lowest priced series for '59.

## CHEVY'S NEW HI-THRIFT 6

More miles are back in a gallon of regular-grade gas—up to 10% more—and Chevy's new Hi-Thrift 6 engine puts them there. It also gives you more "git" in the speeds you drive the most.

Here's an engine that always seems able to coax extra miles out of a tank of regular-grade gas. In fact, if you're one of those drivers who keep tab on things like gas mileage, you'll soon see for yourself that this new Hi-Thrift 6 gets up to 10% more miles a gallon.

Another thing you'll like about this 135-h.p. 6 is the

extra pep it gives you for passing and climbing hills. This is due to higher torque at normal speeds.

It may be hard to believe anything that looks and moves like this '59 Chevy can be such a stickler for economy. But—whether you pick the Hi-Thrift 6 or a vim-packed V8—this is just one more reason Chevy's the car that's wanted for all its worth. Stop by your dealer's and see.

The smart switch is to the '59 Chevy!

now—see the wider selection of models at your local authorized Chevrolet dealer's!

## The Beat Generation: What Are Its Aims?

(ACP) -- San Francisco's North Beach, home of the beats may now extend from Newfoundland to Mexico, if comment in the college press on the beat way of life is any indication.

Memorial University of Newfoundland's MUSE ran a beat-style editorial. In part:

"I know this life is beginning to give me the itch. Hey don't say that man, suppose the word gets around that you're a square. I know but nothin' ever happens so what nothin' supposed to yeah but I need a shave my face is getting itchy so scratch it it'll help the atmosphere hey I just got an idea how's this I have seen the best minds of my generation dragged into the dust. Hey now you're getting it that's really beat."

"I don't b'lieve in thuh Govment I don't b'lieve in the p'lice force I don't b'lieve in thuh Postal Services I don't b'lieve in the 'phine company I don't b'lieve in th' Armed Forces I don't b'lieve in the sewage system I don't b'lieve in nothin'."

These statements are typical of the so-called beat generation found in San Francisco's North Beach, the home of the beats.

### What is a Beat?

Student Tom White at Mexico City college gave the COLLEGIAN his view of the beats. He lived for a time in the San Francisco 'among the group, 'made the scene' if you will.

"BY THE WAY, Beat doesn't mean dragged-out or tired; that's a very crummy misconception that people have; what it signifies is that they're on the beat, in tune, aware, almost overaware and sensitive of what's going on."

"No, the Beats are just a group of people who've sort of run up against a wall, guys who're just punching in

the dark, really. They're definite rebels against the prevailing social system, against the 9 - 5 and no down payment set. They aren't exactly sure of what they want, but they do know what they don't want.

"THE NUCLEUS of the group up there are sincere, honest individuals trying to find their place, that's all. You can't count the hangers-on and the imitators and wise-guy thrill seekers. No they're really just lost; not a new concept really; you your 'lost generation' after WW I; well, this is sort of a WW II lost generation, that's all."

### Out of Reach

"Believe me, they're looking for life, but right now it seems too far away for their binoculars to reach. And there isn't any focus adjustment on the lens."

The National Student Association's National Student News seems to offer the best description, or explanation of the beats. "If we may say one positive thing of the 'beats' it is that they represent humanity stripped of all that civilization has given them as a heritage -- both good and bad. They are mankind stripped to the marrow, trying in vain to find someplace to start again."

Girl: "If you want a date with me you'll have to wait a million years."

Boy: "But I'm the only boy left in town."

Girl: "My, howtime flies!"

## New Members Host Alpha Iota Actives

Newly installed members of Alpha Iota, Secretarial Sorority, were hostesses for the "Old Actives" at a recent meeting held at Donna Eunderlan's home.

The regular business meeting was held with discussion and making of plans for the coming State Conclave to be held in Youngstown, May 15-17.

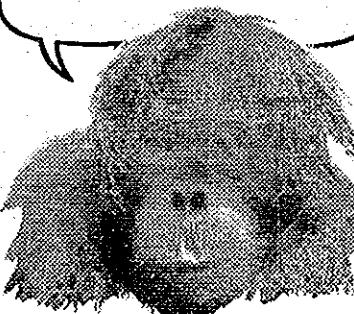

## Former YU Student Wins Art Acclaim

Ralph V. Humphrey, a former Y.U. student and now a professional artist, in New York city, won world wide acclaim in his first painting exhibition at Tibor De Nagy Gallery in New York.

Dore Ashton, New York Times art editor, described Humphrey's paintings as "romantic," and searching for a transcendent expression". He relies on color and surface to carry his emotions.

Humphrey is a 1951 graduate of Chaney High School and attended Youngstown for two years, from 1954 to 1956.

## Get WILDROOT CREAM-OIL Charlie!

\*67 121 St. Morris Hill Rd., Williamsville, N. Y.

Just a little bit of Wildroot and...WOW!

# Looking **Y** Around...

By Pat McCarren and Frank Guarnieri

An idolatry for Fidel Castro, evidenced by long haired male faces, seems to be making inroads to the Y.U. campus. Don't shave the beards boys but change the idol to -- SANTA CLAUS. Dye your beard white!

Who gave up smoking for Lent?

It is gratifying to note the increased attendance at chapel lately. But, why must our so-called "educated" college students persist on writing on the tables and desks in the library? One table in particular we noticed was completely smeared with ink. Does Student Council have to appoint a Table Watcher to slap hand with a ruler?

On a recent stroll over the campus, the following items were mentally recorded for this column:

A Railway Express truck delivering 5000 "No Parking ..." stickers to the office of the Dean in the Rayen School of Engineering. You say you can't see the color of your car because it is completely covered with stickers???

A cup of hot coffee going down the back of some innocent student bystander in the ever crowded Snack Bar.

Who gave up drinking for Lent?

The acceptance of our last column was so overwhelming that a few students have approached us to start a drive to change the Y.U. mascot from a penguin to a skunk named "IN". Fellow students -- no violence please. A joke is a joke, so let the dead be interred.

We gave up candy and pastry for Lent?

When we make a mistake, naturally we will be the last to admit it. And the way it sounds around here, we ARE the last to admit -- that we missed a sure fire bet when we didn't capitalize last week on Friday the 13. But, have no fear, little one, the home team will score 100 on March 13, also a Friday. (Look out for that ladder, Frank!)

The Ole Obidokie Swamp has been declared in a state of emergency. Authorities have called out the Pershing Rifles to guard it. They are patrolling the area in an Army Duck borrowed from a local town after the recent floods and have orders to shoot on sight anyone who so much as gets their feet wet. A word to the wise is sufficient -- the PR's have new squirt guns.

Who gave up lending because it is lent?

We leave you with this closing thought ... He who laughs last has found a meaning the censors missed.

# Do You Think for Yourself? (ANSWER THESE QUESTIONS AND YOU'LL FIND OUT!\*)

1. If you get stuck on a crossword puzzle, do you (A) finally refer to a dictionary, or (B) leave the puzzle unfinished?

A  B

2. Would you rather be (A) the designer of the first successful space vehicle to the moon, or (B) the first man to ride in it?

A  B

3. If you were faced with two tasks, one pleasant and the other unpleasant, would you first do (A) the pleasant task, or (B) the unpleasant task?

A  B

4. If you find you aren't doing well in an activity, do you (A) concentrate on it to improve your performance, or (B) devote your attention to things in which you do excel?

A  B

5. Would you prefer to play tennis with an opponent you know to be (A) not quite so good as you, or (B) a slightly better player?

A  B

6. In deciding whether to see a movie, are you more influenced by (A) what a casual friend tells you about it, or (B) what you know of the cast and story?

A  B

7. If you were a multimillionaire, would you rather have (A) everyone know it, or (B) only a very few know it?

A  B

8. Do you take more notice of someone's (A) good looks, or (B) good manners?

A  B

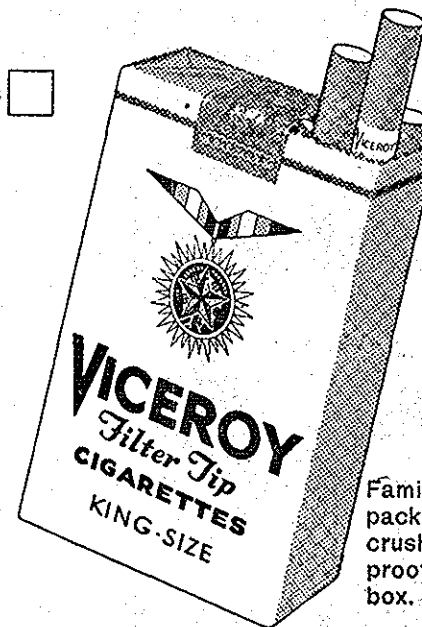

9. When making your choice of a filter cigarette, do you (A) act on the basis of what someone tells you, or (B) think it through for yourself?

A  B

If you're the kind of person who *thinks for yourself* . . . you use judgment in your choice of cigarettes, as in everything else. Men and women who think for themselves usually smoke VICEROY. Their reason? Best in the world. They know that only VICEROY has a thinking man's filter and a smoking man's taste.

\*If you checked (A) on three out of the first four questions, and (B) on four out of the last five . . . you really think for yourself!
