# DEATH and TAXES

Preparation for the one—  
Has always been a necessity.

Preparation for the other—  
Is becoming increasingly difficult.

---

Declaration of your 1943 "estimated tax," to be filed the 15th of this month, warrants a complete and full understanding of what is to be contained in this declaration and how it is payable.

In some respects—such as determining income and deductions—the problems encountered are pretty much the same as in the preparation of the March return. It is new and novel in many others.

---

A valuable service has been established by The Medical-Dental Bureau and the complicated determination of amounts can be eliminated by the use of our new TAX SERVICE.

---

J. L. PRICE, Executive Director

## PRESIDENT-ELECT'S PAGE

The lull of the Summer Season when every thing is at a low ebb, will soon be history. It is to be hoped that all had some sort of vacation or at least a diversion from the usual routine, however short or long the time may have been.

We are now swinging into the early Fall Roundup and we have a busy future confronting us. With the constant call for more doctors to enter the armed services and the continuous depletion of our ranks on the home front, we are assured that the day will not be long enough to accomplish the duties that call us.

Our Society will again resume its activities. Meetings of Council and of the Society as a whole are scheduled. It is to be hoped that our programs can be carried on as usual. Dr. Bunn and his committee have been able to pull the proverbial rabbit out of the hat and are to be commended on their ability in securing the very able talent presented and we feel assured that future programs will be equally of scientific importance.

While we were enjoying our summer quietude, the politicians were busy and another "blessed event" occurred. The birth was rather spontaneous and the infant grew to manhood over night. I refer to the Emergency, Maternity and Infant Care Program for wives and children of enlisted men in the armed forces, presented to the medical fraternity to take or to leave as is. While the inpouring applications signify the favorable reception by prospective mothers, it would be a stretch of human imagination to think that any great amount of obstetrical ephoria is being enjoyed by the participating doctors. The proposal may have its merits and no doubt is intended as a great humanitarian movement. However, since medical service cannot be measured by monetary standards, competent service will be rendered to all regardless of any improvised rules.

ELMER H. NAGEL, M. D.,  
*President-Elect.*

**Editorials---****Just Like That!**

It's easy to correct anything. Just pass a law!

Two young boys, twins, dead, murdered in Cleveland a few days ago. And another little boy cruelly mal-treated. Those were the doings of a mentally defective, whose perversions are both sexual and murderous. Horrid!

The Mayor, his Safety Director, our State Welfare Director, our Governor, our own Judge Woodside, and others, held a "conference." Quite an exciting time was had by all. The people, or at least a few of them were "making demands," and the newspapers were "bemoaning," too. Quite a lot of good publicity, if widely publicized incompetence is "good" publicity!

The dear bewildered populace demands "something." They, the people, want a law. "Keep" these dangerous elements "incarcerated," that's the idea. "Feed and house these poor misfits,—put 'em where they'll be safe so we may be safe," is about the purport of the clamor.

Could it be possible for us to face realities? Before anyone may be restrained from going and coming at will the dangers must be shown to exist, and that "beyond a reasonable doubt."

Good. So we've caught the culprit and have proved it on him. Now, let's feed, clothe, and house him—or her—for an indefinite duration!

Who thinks the scheme will work? Not many realistic observers, but,—

Why not try a humane and sure method? Why not give radical, but safe, painless, and inexpensive sur-

gery a chance? "Physiological" reform is the only reform possible here. Complete removal of the gonads is not dangerous, and is effective. Did anybody ever hear of a eunuch committing a sex crime? Fact is, they don't commit any kind of crimes! They still can work and be of some use to society. And they can stay at home while doing so.

If that were done upon every person, male and female, convicted of a sex crime just once don't you believe that would put a quietus to such shocking acts?

They always give plenty of warning before the climactic episode of assault and murder. We did in the case at Cleveland. But maybe the solution is too simple!

P.S.: Why not apply this remedy also to those repeatedly found guilty of anti-social and violent conduct in any form?  
C.B.N.

**Methuselah**

(Hennepin County Bulletin)

Methuselah ate what he found on his plate,

And never, as people do now,  
Did he note the amount of the calory count—

He ate it because it was chow.  
He wasn't disturbed as at dinner he sat,

Devouring a roast or a pie,  
To think it might lack in granular fat—

Be a couple of vitamins shy.  
He cheerfully chewed each species of food,

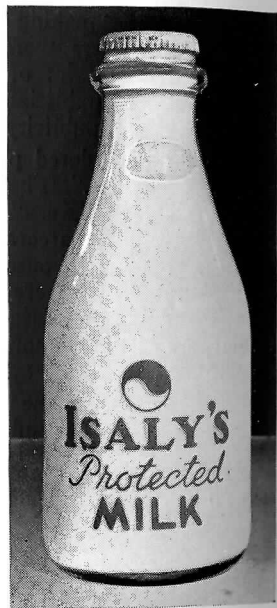

Unmindful of troubles or fears  
Lest his health might be hurt by some fancy dessert—

And he lived over nine hundred years!

## "THAT FEMININE TOUCH"

Old Dobbin doesn't seem to object that he has been marshalled into service for the duration. Neither does he oppose the feminine touch that has been given to a number of Isaly's many milk delivery routes with women drivers. And in addition . . . it's dollars to donuts he would enjoy stopping regularly at your home to leave Isaly's fresh, wholesome, pasteurized milk . . . the milk that has so many Ohio prize-winning ribbons to its credit and comes to your door in the famous seal-tight, tamper-proof Dacro bottle with protected pouring lip. Phone 4-5151 for a sample order.

# THE NORTHEASTERN OHIO HOSPITAL PROBLEM

By James W. Stephan

May 18, 1943

Dr. Frank H. Lahey, Director  
Procurement and Assignment Service  
Washington, D. C.

Dear Doctor Lahey:

The hospitals located in the industrial area of Akron, Youngstown, and Canton would like to bring to your attention the problem created by the recent ruling of the Procurement and Assignment Service relative to the apportioning of residents.

In order that the problem may be clearly defined, we shall present figures for the area as a whole, for each county within the area, and for each city within the county. In appended material will be found information concerning the individual hospital.

## A. General Information:

Location	Population		Industrial Firms Doing War Work		Employees Eng'd in War Work		Agricultural Workers	
	1940	1943	1940	1943	1940	1943	1940	1943
Akron	244,000	282,500	—	—	—	110,424	—	—
Youngstown	167,700	168,000	—	—	—	67,874	—	—
Canton	108,500	122,000	15	90	10,000	40,000	—	—
Summit County	339,000	400,000	12	175	40,000	112,000	4,200	4,000
Mahoning County	240,000	240,000	—	—	—	67,874	3,000	3,000
Stark County	235,000	258,000	25	120	15,000	61,500	22,500	22,500
TOTAL AREA	814,000	898,000				241,374	29,700	29,500

Akron has increased 16%, Youngstown has remained relatively constant, Canton has increased 12%, Summit County has increased 18%, Mahoning County has remained relatively constant, Stark County has increased 10%, and the total area has increased 10%.

## B. Number of Practising Physicians.

Location	Practising Physicians		Practising Physicians in Armed Services		Ratio of Practising Physicians to Population	
	1940	1943	1940	1943	1940	1943
Akron	341	204	1	102	1 to 716	1 to 1,385
Youngstown	204	150	0	62	1 to 822	1 to 1,120
Canton	136	91	0	45	1 to 797	1 to 1,340
Summit County	403	230	1	134	1 to 841	1 to 1,739
Mahoning County	219	162	0	65	1 to 1,096	1 to 1,481
Stark County	235	144	0	91	1 to 1,000	1 to 1,790
TOTAL AREA	857	536	1	290	1 to 950	1 to 1,675

The number of practising physicians has decreased 40% in Akron, 31% in Youngstown, 33% in Canton, 43% in Summit County, 26% in Mahoning County, 39% in Stark County, and 37% in the total area.

## C. Hospital Facilities and Statistics.

### 1. Bed Complement and daily patient load (as of May 1, 1943).

Location	Bed Complement Including Bassinets		New beds to be added during 1943	Daily Average (4 months)		Percent of Occupancy	
	1940	1943		1940	1943	1940	1943
Akron	841	886	220	663	764	79%	86%
Youngstown	848	972	—	646	788	76%	81%
Canton	396	445	125	289	430	73%	97%
Summit County	892	979	220	682	820	76%	84%
Mahoning County	848	972	—	646	788	76%	81%
Stark County	602	661	167	403	611	67%	93%
TOTAL AREA	2,342	2,612	387	1,731	2,219	74%	85%

The number of hospital beds has increased 5% in Akron, 15% in Youngstown, 12% in Canton, 10% in Summit County, 15% in Mahoning County, 10% in Stark County, and 12% in the total area.

2. Number of monthly admissions, number of surgical cases under treatment during a month's period (these figures based on average for January, February, March and April); total number of industrial cases cared for during first four months of 1943, as compared with similar period in 1940.

Location	Average Monthly Admissions		Avg. Monthly No. Surgical Patients		Number of Industrial Cases		Patient Days Industrial Cases for	
	1940	1943	1940	1943	1940	1943	1940	1943
Akron	2111	2452	1012	1090	294	461	2569	2838
Youngstown	1972	2471	921	979	218	290	3050	3549
Canton	944	1415	374	484	130	244	1846	2953
Summit County	2257	2623	1028	1140	318	502	2818	3109
Mahoning County	1972	2471	921	979	218	290	3050	3549
Stark County	1326	2081	551	748	205	417	2890	5013
TOTAL AREA	5555	7175	2500	2867	741	1209	8758	11,671

The volume of service rendered has increased 16% in Akron, 25% in Youngstown, 50% in Canton, 16% in Summit County, 25% in Mahoning County, 57% in Stark County, and 29% in the total area.

3. Number of internes and residents as of July 1, 1940, and as contemplated for July 1, 1943.

Location	Internes Residents				Other House		Ratio of Internes to Admissions		Ratio of all House Officers to Admissions	
	'40	'43	'40	'43	'40	'43	1940	1943	1940	1943
Akron	21	14	17	7	0	3	1 to 1206	1 to 2107	1 to 667	1 to 1226
Youngstown	22	15	6	3	0	0	1 to 1076	1 to 1976	1 to 845	1 to 1647
Canton	9	2	4	7	—	—	1 to 1258	1 to 8487	1 to 771	1 to 1887
Total Area*	52	31	27	17	—	3	1 to 1160	1 to 2453	1 to 763	1 to 1491

\*Hospitals in this area, outside of the cities of Akron, Youngstown, and Canton do not have any house officers.

The number of house officers has decreased 37% in Akron, 36% in Youngstown, 31% in Canton, and 35% in the total area.

4. Number of Anaesthetists, registered nurses, and student nurses as of May, 1943.

Location	Anaesthetists		Registered Nurses (hospital)		Student Nurses	
	1940	1943	1940	1943	1940	1943
Akron	10	8	309	246	263	317
Youngstown	10	10	220	189	220	447
Canton	0	0	119	106	132	219
Summit County	10	8	321	258	263	317
Mahoning County	10	10	220	189	220	447
Stark County	—	0	156	156	196	292
TOTAL AREA	20	18	697	603	679	1056

The recent allocation of residents only allows Akron 4, Youngstown 2, and Canton 1 resident. These appointments in addition to the internes which have been appointed will only allow the following ratio of internes and house officers to admissions.

	Internes	House Officers
Akron	1 to 2107	1 to 1634
Youngstown	1 to 1976	1 to 1744
Canton	1 to 8480	1 to 5660
Total Area	1 to 2453	1 to 2001

These figures may be compared with the American Medical Association's Report of March 1, 1943, in which they stated that the average for the United States was one interne to every 920 admissions, and one house officer for every 583 admissions.

It should be held in mind that this area is doing one billion, 630 millions of dollars of war work, and that we do not have a primary teaching hospital, within our territory. The increase in population and industrial cases is greatly overburdening our depleted attending staffs. This factor makes it impractical to force additional work on the practising physicians; in addition to this, our Schools of Nursing have greatly expanded, and it is vitally necessary

for the house officers of resident experience to participate to a greater degree than heretofore in the teaching of student nurses.

We have to our knowledge, completely exhausted every method of obtaining additional internes, and if we are not permitted to retain the assistant residents and residents which we have already secured, we feel that we will be endangering the health of our communities, and we will be hampering the effectiveness of the war program in this area.

Sincerely yours,

Children's Hospital, Akron, Ohio

City Hospital, Akron, Ohio

People's Hospital, Akron, Ohio

St. Thomas Hospital, Akron, Ohio

St. Elizabeth's Hospital, Youngstown, Ohio

Youngstown Hospital Association, Youngstown, Ohio

Aultman Hospital, Canton, Ohio

Mercy Hospital, Canton, Ohio

James W. Stephan, Chairman

Aultman Hospital has a bed complement of 180 beds, and is operating at 98% occupancy. The attending staff in 1940 was 51, it is now reduced to 38. In 1940 there was 1 resident and 4 internes; as of July 1, 1943, there will be 4 residents and no internes. No residents were allotted by the Procurement and Assignment, as we are not approved for resident training in specialties. However, it should be held in mind that the Council on Medical Education and Licensure of the American Medical Association states in the Journal of March 1, 1943, that "a hospital approved for internes is likewise accredited for general or mixed residency training." There are to be 60 beds constructed during 1943.

James W. Stephan, Director

## Big Issues on Horizon—Are You Ready to Do Your Part?

### A Personal Message from The Council to All Members of the Ohio State Medical Association

Vital questions affecting the practice of medicine and members of the medical profession are materializing.

The purpose of this communication is three-fold:

1. To provide you with information;
2. To warn you that the chips are down and the stakes high;
3. To suggest to those of you who are on the home-front, what you can do about it—now.

Incidentally, this letter is being sent also to those of you who are in military service, to keep you posted on developments back home.

You are familiar with the mild furor which arose over the Association's refusal to approve the United States Children's Bureau proposal

for providing emergency maternity and infant care to the dependents of enlisted men.

Read the text of the final action of The Council on August 8, appended as a part of this communication. Read it carefully. It reveals how bureaucracy works. It reveals the part politics can play in such matters. It reveals what the medical profession—other groups as well—are up against when the steamroller rolls.

You will note that the Association is still opposed to the Children's Bureau plan, believing it to be unsound in principle—a principle which produces regimentation and a poor quality of service.

(Continued on Page 209)

# SEPTEMBER MEETING

Our Autumn Season Opens with

**DR. JOHN P. TUCKER**

Associate in Medicine, Cleveland Clinic

**Subject—**

## **PENICILLIN AND MODERN BACTERIOSTATIC AGENTS**

**Tuesday, September 21st, Youngstown Club**

Dr. Tucker is one of the many good reasons why Western Reserve School of Medicine could well be proud to the point of vanity. "By their fruits we shall know them." Dr. Tucker meets the requirements.

Graduated from Oberlin in 1912, the doctor entered medical school that fall, and emerged in 1916 with his M. D. degree. After a year of internship in medicine at Lake Side Hospital he entered War I Armed Service, in 1917. In this he "gave and acquired,"—as often happens. He "gave" to others as a teacher at Camp Greenleaf, Tennessee, and showed those qualities which constantly increased his fame as a medical teacher. While doing this he acquired" more and more of that scientific flair which has led him to become a clinician of high order.

On returning from the Army, Dr. Tucker went with the B. F. Goodrich Company at Akron, but joined up soon after with the Cleveland Clinic in 1921, the very day that institution was opened, and he has been associated with "The Clinic" ever since.

Dr. Tucker's scientific memberships are numerous, including the Central States Society for Clinical Research, and others. He has written many long and short articles on various subjects, such as "non-specific Protein Shock Therapy," "Hand-Schuller's Disease," "Encephalitis," "The Relation of Encephalitis and Hyperthyroid Disease," to name only a few.

Dr. Tucker expressed this feeling: "I am not in sympathy with the tendency to rely at once upon devices for diagnosis. It is much better to start upon the foundation of sound Clinical Judgment, Tests, Laboratory and X-Ray, and all the rest, are important, but of much more value when interpreted by trained, careful clinical experience."

That's the kind of teacher and scientist we shall have as our speaker this month. DON'T MISS HEARING HIM!

## Big Issues on the Horizon

(Continued from Page 203)

Nevertheless the plan will be in effect in Ohio soon. The reasons for this are set forth in The Council's statement, appended.

It will be up to each service man's family and to each physician to decide whether they will wish to participate in the program.

Do you know that there is pending before the present U. S. Congress a Federal medical and hospitalization bill, the cost of which has been estimated at three billion dollars annually?

It is Senate Bill 1161—the so-called Wagner-Murray-Dingle Bill for Social Security. It is an all-inclusive bill—the real McCoy! It is the socializers' dream! Present governmental medical programs are mere bags of shells in comparison.

Read the analysis of the Wagner Bill in the August, 1943, issue of The Ohio State Medical Journal. Do you like it? Do you want it?

If you do not favor the Wagner Bill—and other vicious trends,—what can you do right now to help defeat them? Here is a suggestion:

Ohio's members of the Congress are at home at this time. Congress is in recess until September 14. Call on your Congressman. Call on Ohio's two senators—Senator Taft of Cincinnati, and Senator Burton of Cleveland—or write them. Discuss these questions with them. A personal interview now will be worth a dozen letters later. You have a right, as a constituent and a physician, to express your views on medical and health matters to your elected representatives. In fact, you should consider it an obligation on your part to do so. Perhaps your lay friends, who may feel as you do, will want to talk to them. Here is a job for all to do—immediately.

We have learned that the time to stop the spread of governmental medicine is before the legislation is enacted.

Will you do your part—now?

C. C. Sherburne, M. D., President.

## FROM OUR DOCTORS IN SERVICE

### Twenty-seven Months

July 31, 1943

Dear Miss Herald:

Another change of address for me. I have been transferred to the 44th General Hospital, stationed and in training at Ft. Sill. It was quite a break for me to be relieved from duty with the 158th Sta. Hospital. With this larger unit I will get a chance to do some ophthalmology. The 44th General Hospital is composed of the University of Wisconsin staff and they all are well trained and fine fellows. Being from Wisconsin they don't like the terrific heat we are exposed to down here. Capt. Malcolm Hawk is a member of this unit; he is the first Youngstown doctor I've had close contact with since I've been in the Army. We should be moving out in the near future and I'm ready to go after being stationed in the U. S. for twenty-seven months.

I was home for a ten day leave July 11th and enjoyed seeing old friends and also the family. The home guard seems to be doing an excellent job of taking care of the ills of Youngstown and are

working harder than we in the service. But they have the compensation of old friends and families.

My duties with this unit have been ophthalmology at the Station Hospital, some training of enlisted men and also coach of the enlisted men's baseball team. We have a team entered in the post league and have won more than our share of games. Coaching the team not only has been a service of pleasure and exercise but has been something to do in the evening.

Give my best wishes to the members of the Society both at home and abroad. Hope to be seeing some of the latter one of these days.

Major John S. Goldcamp.

\*  
It's Major Fred!

Madison, Wisc., Aug. 25, 1943.

Dear Claude:

Just a line to let you know that Uncle Sam changed my rank to Major this month. I've had my family here all summer and we certainly have had a great time.

Fred Coombs.

### Dr. Rosenfeld Hears from "Sam"

Dear Joe:

Until recently I was more or less up in the air not knowing where I was to be sent next. When I arrived back here after my leave there were letters requesting I be sent back to San Francisco. But since there was a shortage of doctors here, correspondence was carried on to keep me here. The Colonel inquired as to my choice and I asked for duty ashore and I would like to stay here if I were given shore duty. I felt that after a year at sea, and having entered the army to remain off ships, I was entitled to duty on land. My request was granted and I have been regularly assigned to duty with the station hospital at Ft. Lawton, Wash. I had to make one concession however and that was to give up my promotion, the recommendation for which had already gone in, because the T. O. here is complete and there are no vacancies.

Other than the added pay that the increased rank entails, there is no penalty on the character and type of work I do here. I am listed on the records of the War Department and the post here as a general surgeon. I am in charge of a surgical ward and am able to schedule and do all the surgery admitted to my ward. It is a 35 bed ward and I have a pretty good turn over. Beside this there are many other duties of a medical nature to perform. I also have a dispensary in which as high as 200 a day go through. I also act as surgical consultant to other dispensaries. This being a port of embarkation I also have to assist in the processing of troops for overseas duty. I take my regular turn as O.D. and participate in several non-medical functions at the post.

Contrary to the experiences of other doctors in the Army, I have been more than busy medically and surgically speaking. The rule of 6 doctors per 1000 men does not apply here, rather there is only 1 doctor for about 1500 men. Practically all the surgery is emergency stuff but we are able to sneak in the hernias and an occasional gall bladder. We also see some gynecology, what with the wives of soldiers and officers and WAC's around here. Since being here I have had to put in at least 10 hours every day and many times have worked well into the night to keep caught up. I am trying as well as I can to practice good medicine and try to take a good history and examine the boys instead of merely prescribing for a symptom. We have good laboratory and X-ray facilities and I use them freely. I feel that it is less humiliating to be fooled by a

gold brick than to overlook some real illness. I give the boys the benefit of the doubt until all possible tests and consultations prove otherwise. And even then I feel that my judgment may not be entirely infallible. Of course all this is time consuming and hard work, which explains the reason for the late hours.

I believe I have been most fortunate in all my assignments and have constantly been in contact with medical problems since entering the Army. I have had none of the preparatory work that most men get and was put to work taking care of the sick right from the beginning. I had to learn all the paper work the hard way and undoubtedly made many mistakes.

Our commanding officer here is sincere in trying to run the hospital for the care and treatment of the sick. In a recent conversation with him he mentioned that it is his desire to make use of the talents which the men under him possess. This policy makes it pleasant for the men who work because it eliminates a lot of the politics which go around places like these.

Living out here is very pleasant and the surroundings are beautiful. We have all the facilities for good living with a beautiful officers' club, movies, athletic and recreational facilities, and in a large city. What more could one desire?

I had occasion to speak to a soldier here who has been a recent guest at your brother-in-law's place in Sharon and he informed me that your brother-in-law suffered a broken neck. I hope it is not serious. I remember how well I was treated the day I spent there riding his horse. I also hope that this letter finds you fully recovered from your recent illness.

Please let me hear from you and tell the rest of the boys that I will try to get around to writing them as soon as I can.

Sam Klatman.

\*

### Major Sokol Wants Bulletin

July 20, 1943

Dear Doctor Norris:

It was with pleasure that I received the March Bulletin. In the past I had occasional opportunity to see Dr. Sisek's copies. We were formerly stationed close together and had some fishing and swimming sessions. The only other Youngstownite I have seen since parting company with Dr. Hazel in Denver in January, 1942, was Dr. Keogh, who is still in this vicinity.

My acknowledgement of receipt of The Bulletin was delayed while waiting for a stabilization of address. I will ap-

preciate changing my address to Charles R. Sokol, Major M. C., 15th Fighter Group, A.P.O. No. 959, c/o P. M., San Francisco, Calif. I enjoy very much being able to keep posted on the whereabouts of the good friends I made in my years training in the Youngstown Hospital Assn., and wish to extend my regards to them.

My respects to you,

Charles R. Sokol.

\*

July 12, 1943

Dear Mr. Price:

My typewriter is tied up today, so, I will scrawl one. Have planned to write for some time but have just neglected it. I suppose you get some of the gossip so know about what goes on with the boys. I am chief of medical service and it is getting bigger all the time as new buildings go into use. In a few more months it will be a big job. Don't know where the 450 patients will come from but expect some evacuees before long.

It's great to have my family here with me and they sure are profiting by their desert exposure, growing like weeds and eating up 95% of my income. We have a nice house now, 30 miles from the hospital. I'm with them 6 nights a week, better than I ever did in private practice. At 5:00 P.M. I am through

for the day and do I like that?

Recent War Department tie-up in promotions will see me a perennial Captain, I'm afraid, but guess I can stand that too with all the other things that are different.

Believe me, I sure appreciate what Medical-Dental Bureau has done with my accounts. I've been pleased and surprised by your success; many of them that you have cracked I felt were hopeless and that extra dough is the only thing which keeps the poor house doors closed for a while longer. When and if I ever get home, I suppose it will be "start all over again."

Thanks for your personal interest and best wishes to Medical-Dental Bureau for continued success.

Luke (Capt. L. K. Reed)

*An Important Contribution  
to Therapeutics*

**A New Codeine Derivative  
with**

**Specific Antitussive Action**

**HYCODAN BITARTRATE**

REG. U. S. PAT. OFF.

Brand of Dihydrocodeinone Bitartrate

Each tablet triturate contains 1/12 grain of dihydrocodeinone bitartrate. Chemically, HYCODAN is closely related to codeine.

HYCODAN has physiological actions similar to those of codeine. The advantages of HYCODAN are:

- Effective in smaller doses than codeine with more prolonged action
- Non-constipating
- Has practically no emetic properties
- Does not repress expectoration
- Does not influence respiratory or heart rate

## FROM ASSOCIATED HOSPITALS, INC.

The Associated Hospital Service, non-profit, health care program with headquarters in the Realty Building, announces that dependent parents of subscribers, for the first time as a regular enrollment procedure, are now eligible to full membership privileges.

The board of trustees recently took action in this respect which since has received the approval of the hospitals in this area under whose sponsorship the program is operated.

According to Robert E. Mills, executive director, thousands of requests have been received for this type of coverage since the organization began operating in 1938, but trustees did not feel free to provide protection to this uncertain risk.

However, ample reserve funds and conservative management prompt the trustees to believe that they are now in position to extend the program to dependent parents under certain conditions, which do not modify the protection to which they will be entitled. The period during which members will be accepted has been limited, however.

Enrollment will take place between August 15th and September 15th only, when membership applications will be accepted through places of employment where hospitalization groups are now in effect. Hospital care will be effective as of September 1st.

The Associated Hospital Service, as a non-profit community enterprise, managed by representatives of the hospital boards and of the Mahoning County Medical Society, was designed to make hospital care available to as many people as possible. The board of trustees of the organization believe that they have followed this policy quite rigidly, keeping in mind the need for good underwriting practice. Dependent parent coverage is an extension of this policy.

The program was originally sponsored by St. Elizabeth's Hospital and the North and South Side Units of the Youngstown Hospital Association, but quickly expanded throughout this area and now embraces hospitals in Warren, Salem, Steubenville, Bellaire, Martins Ferry and Marietta as well.

Membership now numbers more than 120,000 in over 1,800 various employed groups. This represents a gain of 12,000 since January 1st. A. C. Cook is president of the board of trustees, H. H. Wickham is secretary, and J. P. Hyland, treasurer.

## SINCE LAST MONTH—

Dr. M. M. Szucs, past assistant surgeon in the U. S. Public Service, has been appointed head cardiologist for the base hospital at Manhattan Beach, Brooklyn.

Dr. and Mrs. Myron S. Owen, Ravenna, O., announce the birth of a daughter, Josephine, North Side unit of Youngstown hospital. The child is the granddaughter of Dr. H. E. Patrick and Mrs. Owen is remembered as the former Grace Patrick. Dr. Owen was resident interne at Youngstown Hospital before going to Ravenna.

Dr. and Mrs. W. O. Mermis and their son, Walter, Jr., spent a fortnight's vacation in New York City recently where they were guests at the Waldorf-Astoria.

Major E. W. Sears spent a seven day furlough with his family and friends recently.

Captain John A. Rogers was home on a short leave during the month of August.

Dr. Herman H. Ipp has been promoted to Major at San Marcus Field, Lockhart, Texas. Dr. Ipp was promoted to Captain in June, 1942, at Kelly Field, and was a former interne at Youngstown Hospital.
