PRESIDENT'S PAGE

Your president approaches his new duties with some trepidation. He realizes his short-comings as an administrative officer, having been interested chiefly in the scientific programs of the Society. He feels, however, that we can have a successful year if every member will cooperate enthusiastically. He herewith asks such support.

One of our important duties to our patients is to keep abreast of current medical progress. Downright fatigue makes it virtually impossible to read at night. To set aside an hour a day for this purpose is not feasible when the patient load is so heavy. Post-graduate courses except the short ones are not available. We must therefore try to bring the best speakers in the country for our monthly meetings.

A list of outstanding speakers representing various fields of medicine is at hand. These men will come if we will promise them a large audience. Frankly, the January meeting is a trial. If we do not have a good turnout to hear one of the best prepared men in the country, an authority on his subject, a Colonel in the Army Reserve, who is medical consultant for the entire Sixth Service Command, then the pattern of subsequent meetings will of necessity be changed.

W. H. BUNN, M. D.,

President.

YOUNGSTOWN RECEIVING HOSPITAL

By DR. C. H. CRONICK, Medical Director

The Council of the Society, at my request, enthusiastically consented to take over the task of organizing a consultative Staff for the new Youngstown Receiving Hospital for nervous and mental illness. This is the first receiving hospital to be organized by the Public Welfare Department in the State of Ohio. The proposed plan of operations of this hospital differs in many respects from the usual state hospital routine. Though the national committee for mental hygiene has consistently placed the Ohio State Hospital System near the bottom of the list, we have been fortunate to be served by Massillon State Hospital with very high standards of care under the direction of Dr. Hyde. The acute need for a local hospital for treatment of nervous illness has been obvious to the medical profession for years.

The time lag factor of obtaining admission to Massillon State Hospital has been the result of several conditions, namely: the distance from Massillon and the overcrowded conditions of all the state hospitals and especially Massillon. There has also been a prejudice against the hospitals because of their association with the name lunatic asylum. Until the last ten years there was little of active psychiatric therapy. It is true that there has been a gradual development of various psychotherapeutic techniques in dealing with the minor psychoses and psychoneuroses. Many of these techniques unfortunately were philosophical in approach. With the advent of the various shock therapies, it became obvious that many psychoses were on a physiological basis. Present research is directed toward an analysis of the relationship between the psycho-dynamic factors

in mental illness and the physiological factors. The need for intensive treatment is apparent in these conditions. The receiving hospital will offer this type of treatment. Massillon State Hospital has kept abreast of the time and has offered all modern therapies, but because of understaffing, has been unable to offer intensive treatment to all of the cases admitted.

The necessity for formal commitment to obtain admission to Massillon State Hospital has kept many people away who would otherwise have readily consented to admission. The receiving hospital obviates this in that patients are admitted by voluntary commitment or court remand which simply means that any doctor desiring to have a patient admitted to the hospital merely refers the patient and, if admission has been deemed advisable, a telephone call to the court places them on record as in-patients. As far as the patient is concerned, they are unaware that there has been any court record.

Only after extensive study by the Welfare Department of the State of receiving hospital function, it was resolved that the present hospital should be converted into an ideal receiving hospital. Naturally, the expense involved was far greater than anticipated. For this reason the State decided to buy the site outright as they did not feel free to go ahead with their plans on the basis of a five year lease without option. Furthermore, since the law requires that a receiving hospital must serve all the counties of the district served at present by a local state hospital, an extensive program of expansion must be contemplated. It was sheer accident that this development should

coincide with the proposed legislative appropriation of \$37,000,000 for the purpose of mental hospital construction. Thus funds are going to be available for expansion as needs become manifest.

Primarily, because of the vision and foresight of Dr. Tallman, State Commissioner for mental illness, it is proposed that the present hospital be utilized as a training institution with Rockefeller or Commonwealth funds for the training of resident physicians to be approved for fellowship. This naturally requires that the hospital be approved by the American Certification Board as well as the American Medical Association. Thus, high standards of specialty consultative service must be available. Incidentally, it is astounding that so many medical men fail to realize the importance of the physical aspect of mental illness. Mental patients do develop all the physical illnesses that any other individual does. Care for these illnesses must be available. The present state system fails to provide approved consultative service and all of the medical work is in the hands of full time state men. Normally, such care would mean the calling in of outside state civil service employees.

It is not generally known that Dr. Tallman is in favor of the maintenance of the privilege of free choice of physicians when the patient cares to enter into a private contract with the physician. This does not include their psychiatric care, unless the patient specifically requests a psychiatrist other than the State appointed man. Yet, it is hoped that family physician will continue to care for the physical state of his patient while in the receiving hospital. Many patients will not have a family doctor or the family doctor will be located in one of the other counties making it impossible for that physician to care for the patient. Also, specialty facilities must be maintained. No doubt, the

majority of the patients will come from the Mahoning Valley. The Welfare Department is well aware that this hospital is being constructed for service to this particular region. In view of these facts, it should be plain that unless local men volunteer to care for those patients in the same fashion that they care for house cases in the local hospitals, full time state men will be appointed, and not necessarily from this region.

I wish to make it clear that there is no in between state of affairs, either the local men offer their services to the house cases free of charge, or there will be full time state men brought in at the discretion of the administration in Columbus. This would inevitably lead to the total lack of any free choice of physicians and complete state control over all patients admitted to this hospital. It is one of the provisions of my acceptance to this position as Director that the local men should have a voice in the affairs of the institution. It was hoped that this hospital would be one more unit of the local hospital system. There seems to be some misunderstanding on the part of some men as to what is to be expected of them as staff members. The primary purpose of this letter, is to clarify the proposed policy of the institution.

The paid staff naturally expects to carry out the routine medical work of the institution under the advice of the qualified men. Even though we are psychiatrists and neurologists, in addition to our specialty function, we expect to act in the capacity of resident physician for the carrying out of the proposals of the consultant staff. This, of course, will not hold true with those private cases where men are being paid by their private physician. We do not propose to violate a private contract. We hope that our staff will function much the same way as the local hospital staffs operate. We also hope

REPORTS OF COMMITTEES

PROGRAM COMMITTEE

The chairman wishes to acknowledge the help of the members of the committee in obtaining programs.

The January meeting was the work of Dr. Harvey. In February Dr. Sedwitz succeeded in bringing us Dr. Novak. In March the speaker was obtained by Dr. Bunn. In April for post-graduate day the out-of-town speakers were obtained by Dr. Frances Miller and Dr. Sedwitz; and Dr. Collier of St. Elizabeth's helped out locally. In May Mr. Endres of Youngstown Hospital Association succeeded in bring-

ing Dr. Steele of Cincinnati to us. In June we had a local speaker with Dr. Delfs giving us of her personal experience and knowledge. In September Dr. Lupse was responsible for the speaker. In October we were favored by several of our local physicians: Dr. Brant, Dr. McNamara, and Dr. Collier. In November the program chairman finally did a little work and obtained Dr. Wetzel from Cleveland with the help of Dr. Delfs.

My sincere thanks to those who helped us obtain these programs in the face of difficulties.

E. C. BAKER, Chairman

January

SECRETARY

The Mahoning County Medical Society at the end of 1944 has two hundred thirty four active, twelve non-resident and six honorary members. There are sixty eight of our active members in the armed service and seventeen St. Elizabeth's Internes and thirty two of Youngstown Hospital Internes.

We regret to report that we have lost two members who passed away during the year, Drs. M. H. Bachman, April 14th, 1944, and C. R. Wallace, September 30th, 1944

The regular monthly Council meetings were held as usual during the year.

G. M. McKELVEY, Secretary

*

TREASURER

Inserted in the December issue of the Bulletin was a copy of the financial report as submitted by the auditor. I believe no further explanation of the Society's finances is necessary.

SAUL TAMARKIN, Treasurer

*

POSTGRADUATE

On Wednesday, April 14th, the Society held its 16th Annual Postgraduate Assembly at the Hotel Pick Ohio.

Much to our surprise, the attendance was well over three hundred. A record, considering the uncertainty nowadays.

The program was conducted by two of our own doctors who made special study of the subjects they discussed. Other papers by members of the faculty of Georgetown University Medical School, Washington, D. C.

The subjects discussed were:

Clinical Problems Concerned with Blood Incompatibilities, Dr. W. D. Collier, Youngstown.

Venography of the Lower Extremity, Dr. E. C. Baker, Youngstown.

Post-War Problems of Tropical Diseases in Civilian Practice, Dr. E.

R. Whitmore, Georgetown University.

Surgery of Thrombosis of the Peripheral Veins, Dr. Ross Veal, Georgetown University.

Acute Obstruction of the Small Intestines, Dr. Ross Veal, Georgetown University.

A. J. BRANDT, Chairman

*

HOUSING & LIBRARY

This committee has endeavored to carry on during the year with little activity.

Our meetings have been held during the year as usual at the Youngstown Club and the Postgraduate Assembly at the Pick-Ohio Hotel.

G. M. McKELVEY, Chairman

*

SOCIAL

The above committee has little to report for 1944, activities being curtailed due to the war.

The golf meet held August 3 was the only social gathering during the year, and was held in conjunction with Corydon-Palmer Dental Society and the Mahoning Drug Club.

A buffet lunch was served as usual at the Annual Meeting at which time the Society elected its officers for the year 1945.

E. J. WENAAS, Chairman

*

PUBLICITY

The Publicity Committee carried on during the year as usual.

Signs were posted in the three hospitals of the various meetings and anything of importance that should be called to the attention of the membership. Post cards also were sent out from time to time notifying members of different activities.

Information of our scientific meetings was turned over in due time for effective press publicity, thus helping our attendance.

J. D. BROWN, Chairman

January Meeting

Speaker:

COLONEL IRVING S. WRIGHT, Medical Corps
Consultant in Medicine

Subject:

"FUNDAMENTAL CONSIDERATION OF PERIPHERAL VASCULAR DISEASE, PARTICULARLY FROST BITE, TRENCH FOOT AND IMMERSION FOOT"

Colonel Irving S. Wright was born in New York City in 1901. He was graduated from Cornell University Medical School in 1926, following which he engaged in teaching, research, and consultation practice in New York City until the United States entered the war.

He was Professor of Clinical Medicine at Columbia University, Director of Medicine of the New York Post-Graduate Medical School, Consulting Physician to Hackensack Memorial Hospital, Orange Memorial Hospital, Mount Vernon General Hospital, Monmouth Memorial Hospital, and Goldwater Memorial Hospital.

Entering the Army in 1942, Colonel Wright was assigned as Chief of the Medical Service of Army-Navy General Hospital, Hot Springs, Arkansas, which post he held for sixteen months. Following this, he became Consultant in Medicine for the Sixth Service Command, with Headquarters in Chicago.

He is a member of the Association of American Physicians, American Society for Clinical Investigation, The Society for Experimental Biology and Medicine, New York Academy of Medicine, American College of Physicians, New York Academy of Sciences, and American Association of Military Surgeons. He is a Corresponding Fellow of the Academia de Ciencias, Bogota, Colombia, South America.

He is a Member of the Executive Committee of the Board of Directors and Chairman of the Section for Study of Peripheral Circulation for the American Heart Association, Chairman of the International Committee for the Standardization of Blood Pressure Readings, and on the Advisory Board on Cardiovascular Diseases for the American Board of Internal Medicine.

He has served as Chairman of the Section on Experimental Medicine and Therapeutics, American Medical Association.

Tuesday, January 16th, 8:30 P. M.

"I Go for
BAKER'S MODIFIED MILK"

FOR YEARS, doctors have been recommending Baker's Modified Milk, with its seven extra dietary essentials, as a dependable alternative for human milk. In these busy times this nourishing ration is especially favored because of its wide applications—most feeding cases make better progress, require fewer adjustments.

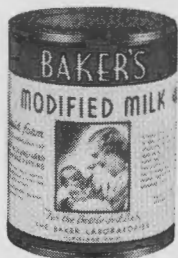

Mothers like the convenience of Baker's Modified Milk . . . babies thrive on it . . . and it is well tolerated by both premature and full-term infants . . . helpful in correcting regurgitation, constipation, loose or too frequent stools . . . and well supplied with nutritive elements for proper growth.

Baker's Modified Milk is very easy to use—either powder or liquid is merely diluted to proper feeding strength with cool water, previously boiled.

We advertise only to the medical profession and invite physicians' inquiries for full information about this infant food with a solid foundation in medical experience.

"nutritionally similar to human milk"

Baker's Modified Milk is made from tuberculin-tested cows' milk in which most of the fat has been replaced by animal and vegetable oils with the addition of lactose, dextrose, gelatin, iron ammonium citrate, vitamins A, B1 and D. Not less than 400 units of vitamin D per quart.

Powder

or Liquid

THE BAKER LABORATORIES
 CLEVELAND, OHIO

REPORTS OF COMMITTEES

(Continued from Page 13)

RELIEF**YEARLY MEDICAL REPORT—Dec., 1943, to Nov., 1944**

MEDICAL—Total number of patients treated for various complaints	2,274
House Calls	578
Office Calls	1,696
Medical expense only	\$6,995.25
DENTAL—Total number of patients treated.....	'90
Dental expense	557.00

MEDICAL SERVICE PLANS

The Committee on Medical Service Plans spent much time during the year considering several plans, and was all set to present one to the Society, at a specified meeting, when we received a communication from The Ohio State Medical Association, Columbus, to the effect that the state was going to propose and put into practice a plan which we felt would supplant our own, therefore, we gave up all plans until we would know just what the State had in mind.

P. J. MAHAR, *Chairman***AUXILIARY**

The Woman's Auxiliary to the Mahoning County Medical Society should be commended for its fine work.

Much time and effort has been spent on the Delinquent Children Problem. We wish to thank Judge Beckenbaugh for his fine cooperation in this matter.

The fostering of the Youngstown Receiving Hospital has been appreciated by all concerned.

R. B. POLING, *Chairman*

HAVE YOU PATIENTS WITH Any Of THESE CONDITIONS?

Nephroptosis or Visceroptosis with Symptoms - Low-Back Pain - Spinal Fractures, Deformities or Disease - Inoperable Hernia - Prenatal, Postpartum, Postoperative Conditions - Breast Disorders or Breast Removal - Certain Cardiac Syndromes?

A SPENCER SUPPORT

Designed Especially for Your Patient

Will meet your requirements and patient's personal needs precisely, because each Spencer is individually designed, cut and made for the one patient who is to wear it. That is why they are so effective. You state what you need. After that you are saved all bother regarding proper design, fit, comfort.

Every Spencer is designed to provide support to lower abdomen, with no downward compression; snug binding of pelvic girdle; back support; posture-improvement.

Telephone or Write to the Spencer Corsetiere below whose Address is nearest Yours.

Youngstown Receiving Hospital

(Continued from Page 9)

that there will be a sufficient number of men who express their willingness to serve so that no one will be overburdened. Naturally, each individual specialty service must have a head. This chief of service is ultimately responsible for the care of the case. We propose to call him when there is a problem in his particular field and he shall designate a man, who in his judgment, is competent to handle the problem. We sincerely hope that men of all age and experience will express their willingness to cooperate with us. There probably will be considerable work on the part of various consultants, especially in internal medicine, surgery, orthopedics and other specialties. For example, we hope to have an opinion from an internist on each case before shock therapy is attempted. We shall have routine chest X-rays to aid in the formulation of this opinion. If members of the staff care to conduct

rounds regularly, we shall be more than happy. We shall be entirely satisfied if we merely have men available on call for particular problems as they arise.

I wish to express my gratitude to the Society members with whom I have already talked for their help and guidance in all matters pertaining to the institution and hope this will clarify our proposed policy and dispel the fear that they will be asked to do routine staff work.

FREE DIET ADVICE

What's the best exercise for reducing?"

"Just move the head slowly from side to side when offered a second helping."

*

WELL INFORMED

"Do you play golf?" he asked of the simple but gushing maiden.

"Dear me, no," she bashfully replied, "I don't believe I should even know how to hold the caddie."

D. M. Rothrock, M. D.,
Mahoning County Medical Society,
1204 Central Tower,
Youngstown, Ohio

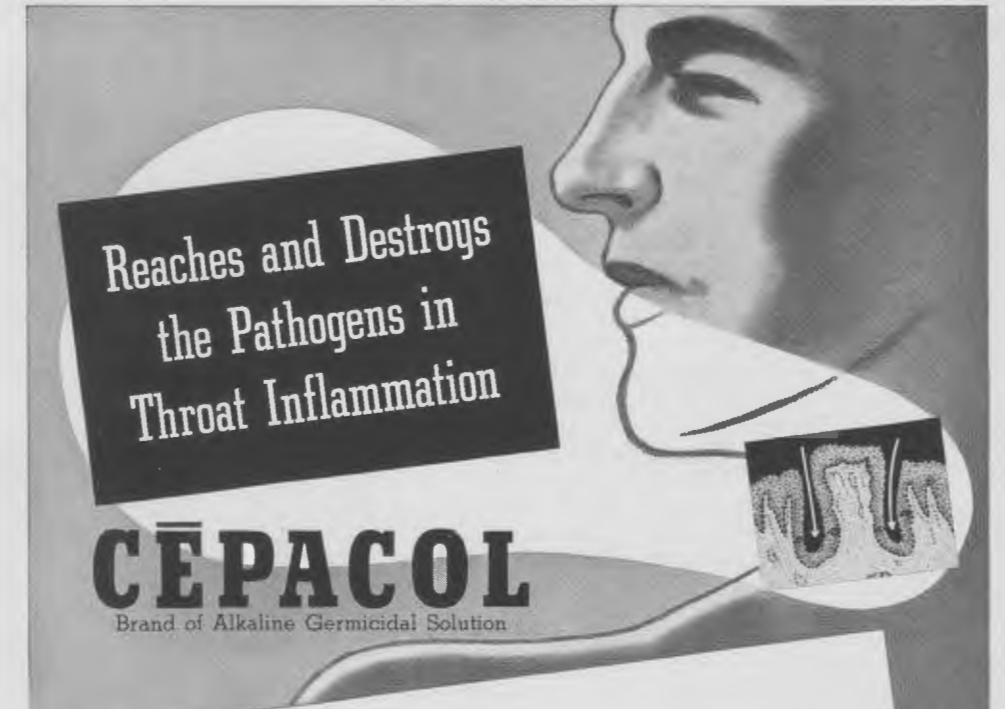

Dear Dr. Rothrock:

Colonel R. D. Harden, Commanding Officer of this hospital, wishes to express to you his thanks for your kind invitation for members of our staff to attend your medical meeting on 16 January 1945.

This invitation will be extended to each member of our staff and those able to attend will notify you, if possible.

Respectfully yours,

JOHN H. MARSHALL,
Lt. Col., M.C.,
Executive Officer.

Reaches and Destroys
the Pathogens in
Throat Inflammation

CĒPACOL

Brand of Alkaline Germicidal Solution

Cēpacol is rapidly effective against pathogenic bacteria associated with sore throat, and at the same time, acts as a mildly alkaline cleansing solution that allays irritation and soothes inflamed tissues.

Due to unusually low surface tension, recesses of the mucosa are reached by Cēpacol and cleansed by its foaming detergent action. In clinical use it is nontoxic, nonirritating, nonastringent, and does not interfere with healing.

Cēpacol can be used as spray or gargle, full strength or diluted with an equal volume of water. Its delightful, refreshing flavor invites cooperation by the patient.

At prescription pharmacies in pints and gallons

WHEN THE *Restorative* POWERS OF TISSUE MUST BE AUGMENTED

In the management of burns and non-infected or infected indolent wounds, Morruguent Ointment, widely advertised and detailed to the medical profession, has proved of highly beneficial influence on healing. Based on the unsaponifiable active principles present, Morruguent is 25% stronger than cod-liver oil, U.S.P. This greater content of the vitamin-bearing fraction, to which the stimulant influence on wound healing is attributed, accounts for the greater therapeutic value for which Morruguent has been acclaimed by so many physicians.

M O R R U G U E N T

Wound odor disappears, necrotic material is liquefied, granulation tissue fills the wound, epithelization begins early, scarring is minimized. Morruguent Ointment is applied directly onto the wound, gauze covered, and the area lightly bandaged. Supplied in 2-oz. collapsible tubes, and in 1-lb. and 5-lb. jars.

Secretary's Monthly Report

The regular monthly Council Meeting was held at the home of Dr. E. H. Nagel, 141 W. Warren Ave., on the 11th of the month.

The regular Annual Meeting was held at the Youngstown Club, Tuesday, December 19th, 1944. The following officers were elected:

Pres.-Elect, Edw. J. Reilly

Secretary, G. M. McKelvey

Treasurer, V. L. Goodwin

Delegate for 3 year term, J. N. McCann

Alternate Delegates, J. B. Birch, P. J. McOwen and E. J. Wenaas

Society's representative on the Associated Hospital Board, H. E. Patrick.

G. M. McKelvey, M. D.,
Secretary

Thanks to Editor Norris

The thanks of the incoming editorial board are extended to Dr. Norris and those who have helped him in previous years. The pattern which he has set and the work he has done make it easier for those who follow to continue the previous high standards. The entire Society has many successful years of publication of the bulletin for which we are indebted to him. Again thanks and best wishes.

E.C.B.

SINCE LAST MONTH—

A/S James L. Smeltzer, USNR, was home from Duke University, Durham, N. C., to spend the holi-

days with his parents, Dr. and Mrs. D. H. Smeltzer, Fairgreen Ave.

Philip Norris, son of Dr. and Mrs. Claude B. Norris, was home from Western Reserve Academy to spend the holidays with his parents.

William G. Walker, a student at Western Reserve Academy spent the holiday vacation with his parents, Dr. and Mrs. O. J. Walker.

Dr. and Mrs. M. M. Yarmy were registered at the St. Regis, N. Y., during the holiday season.

Lt. James D. Miller of the army medical corps, spent the holidays with his wife and son. Dr. Miller was a former Youngstown Hospital Intern.

Dr. and Mrs. Frederick J. Bierkamp visited their daughter and son-in-law Lt. (s.g.) and Mrs. Joseph P. Keogh, Seattle, Wash. Another daughter, Dorothy, was home from Barry College, Miami Beach, Fla., for the holiday vacation.

Robert Fuzy from Western Reserve Academy, Hudson, and his brother, Paul J. Fuzy, Jr., A/S, USNR, who is in the medical school at Harvard University, spent Christmas week with their parents, Dr. and Mrs. Paul J. Fuzy.

Oletimer: "Is your married life one grand sweet song?"

Newlywed: "Well, since our baby's been born it's been more like an opera, full of grand marches, with loud calls for the author every night."

Dec. 1, 1944

This is to send you my new address. I needn't tell you that I am now more anxious than ever to receive the County Bulletin. Regards to everyone.

Major H. H. Ipp

*

It's nearing Christmas-Time '44, and I want to wish all the hard working doctors back home a merrier Christmas and a Happier New Year. This is my second Christmas in England and I've had much good fortune to be grateful for. I hope that this next year will bring us closer to the end of both struggles, and will see all our mutual friends through safely. I look forward each month to getting the Bulletin (Please note my change of A.P.O. No. from 637 to 557) and I particularly appreciate the news from our medicos in all parts of the globe. I wish I could write something newsy, but after being on one field for sixteen months, "NEWS" takes on an everyday appearance. I'm quite sure that interesting news of this business is being written in other places. Good luck and good health to you all.

Capt. M. M. Kendall.

Woman's Auxiliary

With Mrs. F. W. McNamara as Program Chairman, members of the Woman's Auxiliary of Mahoning County Medical Society held their annual meeting and Christmas dinner at the Youngstown Club, December 18th, 1944.

Mr. George Glasgow, principal of Woodrow Wilson High School was the after-dinner speaker and gave an informal talk on problems encountered in the school.

During the business session, the following officers were elected. President, Mrs. A. E. Brant to succeed Mrs. R. B. Poling. Vice President, Mrs. D. M. Rothrock, Secretary, Mrs. R. W. Fenton and Treasurer, Mrs. Sol Tamarkin. Mrs. L. G. Coe was elected President-Elect.

The next meeting will be held at 1:30 P.M., January 15, 1945, at Woman's City Club.

Mrs. R. E. Odom

3 ADVANTAGES OF

PRIVINE*

1. PROLONGED VASOCONSTRICTION

Privine usually provides symptomatic relief from nasal congestion for 2 to 6 hours without reapplication.

2. SMALL DOSAGE

Only 2 to 3 drops of Privine are needed for prompt and prolonged vasoconstriction.

3. PHYSIOLOGICAL RATIONALE

Privine is prepared in isotonic solutions strongly buffered to the same pH as the delicate nasal mucous membranes. It thus restores alkaline pathological secretions to normal acid range.

PRIVINE Hydrochloride

(NAPHAZOLINE)

DOSAGE: 0.1% for adults : 0.05% for adults and children.
