KENNEY'S KORNER

American Health Congress Report

The convention can be best described as another step toward socialized medicine, at least that was the mood and temperament indicated to yours truly. Everyone was disturbed and frustrated because of their lack of ability and loss of hope to ever meeting the health needs of the patient we serve at prices they can afford. The speakers called for better use of the knowledge we have, and better utilization of our present facilities, and above all, better cooperation of physicians and paramedical disciplines without personal or professional bias.

Administrator
Little Forest Medical Center
Harold J. Kenney

Mr. Hugh Downs stated that in the next few years medical politics will become as important as the politics of the black's and women's movements. One speaker (a doctor M.D. P.h.d.) said that the consumer is paying 2½ times more for health care and getting less and demanding that the Government do something about it. He concluded by saying that if we are not in the business to serve human beings then we have no business at all.

From the Desk of the President

For the past few months we have been involved in extensive discussions concerning our blood banking facilities and the possible role of the American Red Cross in helping solve any existing blood banking problems. The majority opinion of the participating society members is well summed up by the following letter written by a committee chaired by Dr. Abdu and addressed to Mr. Ted Dravis, Executive Secretary of the Mahoning Chapter of the American Red Cross.

July 21, 1972

Dear Mr. Dravis:

The goal of the Mahoning County Medical Society is to provide adequate voluntarily donated blood for all the people of the Mahoning Valley and we welcome the help of the American Red Cross in achieving this goal.

The members of the Mahoning County Medical Society feel that they are currently being served by their Blood Banks with plentiful supplies of excellent blood. However, the recruitment of voluntary blood donors is always a problem and the American Red Cross could assist materially in stimulating voluntary blood donations to the existing blood banks in our area to guarantee continued adequate supplies to our local blood banks and to decrease the percentage of blood purchased from commercial sources, despite the fact that our current system has provided wholesome blood with no increased risk of disease in our community.

The members of the Mahoning County Medical Society feel that the best possible service to the people of the Mahoning County area would be provided by a combination of the currently operating local blood banks plus the aid of the American Red Cross so that:

1. The recruitment of blood donors is stimulated by the American Red Cross.
2. The processing and distribution of blood is handled locally in existing facilities.
3. The blood collected in excess of the local needs would be sent to the region center under the auspices of the American Red Cross.

This cooperative venture would result in:

1. The needs of the Mahoning Valley area would be met locally, under local control, and responsive to local needs.

A History of Medicine in Youngstown and Mahoning County

HALF-CENTURY CLUB

by John C. Melnick, M.D.

The Mahoning County Medical Society established the "Half-Century Club" at its 76th annual meeting on March 18, 1948. The meeting was held at the Youngstown Country Club. Dr. John Goldcamp, chairman of the social committee, handled the arrangements. Dr. John Noll, president of the Medical Society, assisted.

Of the thirteen members of the Medical Society that qualified for the "club" nine attended the banquet and represented 477 years of the practice of medicine in the Youngstown area. Virtually all of the doctors were still in the practice of medicine. In the year 1948 there were 260 members in the Medical Society.

The doctors attending the banquet were:

Dr. Harmon E. Blott	60 years	Dr. Charles David Hauser	51 years
Dr. C. R. Clark	53 years	Dr. Milton E. Hayes	53 years
Dr. David R. Williams	56 years	Dr. Adin V. Hinman	50 years
Dr. Warren D. Coy	51 years	Dr. Wallace W. Ryall	51 years
Dr. Colin H. Beight	52 years		

The doctors unable to attend the banquet were:

Dr. Robert M. Morrison
Dr. Henry Manning Osborne
Dr. Charles Henry Slosson
Dr. Raymond Edward Whelan

Dr. D. R. Williams of Girard had attended 50 of the annual dinners! This certainly must be the record.

Each physician in the Half-Century Club receives a special emblem in the form of a lapel button and a "Certificate of Distinction" from The Ohio State Medical Association. It is customary for the presentation to be made by the district councilors.

The first guest speaker was Harold Eide who spoke of "My Alaska Adventures." In the April 1948 issue of *The Bulletin* two of the honorees wrote short articles on their experiences. Dr. S. W. Osborne wrote "Our Distinguished Gentlemen of Medicine." He spoke of "the progression of the stature of medical practice from the days of footwalking and carriage riding

to patients, practice of surgery on the kitchen table and the treatment of disease with crude drugs, to the day of modern medicine." Dr. W. W. Ryall wrote "Let Us Look At The Record." He spoke of "no improved roads, no automobiles, nothing but horses and good legs. Lots of night work. At first only one telephone in town and that in a hardware store. Many days I walked 25 and more miles, when roads were impassible for either man or beasts."

Another, Dr. W. D. Coy, wrote in the *Bulletin* "One of Them Speaks." ". . . So these old men are aware that nature makes man pay for longevity. They learn to adapt themselves to their losses. They expect less of themselves in accomplishment, but do not like alibis. They know that physical deterioration may long precede the inability to perceive, to select and to think of a logical conclusion."

In the May 1948 issue of *The Bulletin* an article by Dr. Horace K. Giffen recounted the ceremonies of the evening. He referred to the men being honored as "Our Medical Supreme Court." They were basking in the radiant yet mellow glow of the towering pink dome of President John Noll. Dr. Ryall responded for the thirteen men who had reached the half century of medical services. He commented that Dr. Steve Ondash made him feel near sainthood through his introduction.

The "good old days" were when a house call including medicines, was 50 cents and yet not infrequently not paid. The doctors walked 25 or 30 miles a day calling on patients and avoiding unfriendly dogs. The doctors often tried to make a call at one home, at least, where they could get a good hot meal. Many started their day at 6 a.m. and hoped to return by 6 p.m. The physician used horses or buggies but frequently walked through dirt and mud, climbed fences and hiked through fields covered with corn stubble.

In the tribute by Dr. Ondash he said, "We salute you for your courage in facing the problems of your time, and your resourcefulness in meeting them. We pay tribute to you for the things you have done toward promoting and improving medicine and its practice."

Following is a chronological listing of 53 physicians who have received their 50 year certificate and pin during the period 1948-1972.

Continued from page 250

2. The lowest possible cost for the blood could be obtained through elimination of duplication of processing charges and other services.
3. The immediate availability of fresh blood for patients with heart and blood vessel diseases, malignancies, leukemia, and other dread diseases will allow for the growth of expert facilities in our area for the local treatment of these diseases.
4. Our Mahoning Valley responsibilities to the northeastern Ohio and to the people of the Mahoning Valley who might require blood from the Red Cross when hospitalized in other parts of the United States would be met.
5. Under an adequate voluntary blood donation program, the replacement fee for blood transfusions would be dropped.

The members of the Mahoning County Medical Society have a vital interest in ongoing discussions with the American Red Cross to do the best possible job of supplying wholesome blood for the people of our area.

Sincerely,

H. Holden, M.D.

For The Mahoning County Medical Society

We are requesting the Mahoning Chapter of the American Red Cross to institute a vigorous blood recruitment program in order to reduce or eliminate the 25 - 30% commercial blood now being used in our hospitals. The Board of Governors of the American National Red Cross on Feb. 15, 1971 authorized local Red Cross Chapters to institute such recruitment programs.

—Henry Holden, M.D.

President

SEPTEMBER MEETING

Tuesday, Sept. 12, 1972

Mahoning County School for Retarded Children

4801 Woodridge Drive, Austintown

6:30 p.m. Dinner (\$3.50)

7:30 p.m. Business meeting

Tour of Retarded School Facilities

Please make your dinner reservation by mailing your check to the Mahoning County Medical Society office.

DOCTOR'S OFFICE MOVED TO FAIRGROUNDS

TOP: The office is moved down Rt. 14 from North Jackson to Canfield.

CENTER: Before and after the move.

BOTTOM: Taking part in the ribbon cutting ceremony to open the building at the Fairgrounds are Dr. Henry Holden, Mrs. Ray Hall, Mrs. S. G. Patton, Sr., Mrs. H. P. McGregor, Dr. S. G. Patton, Jr. and Bob Hammett, president of the Canfield Fair Board.

As a tribute to the hundredth year of the Mahoning County Medical Society, the Canfield Fair this year moved an old doctor's office into Pioneer Village on the Fairgrounds, where it was viewed by thousands who went through the building during the five days of the 1972 Fair.

The office was originally built in 1913 at North Jackson by Dr. Stewart G. Patton, Sr. With the help of the Medical Society and under the supervision of Dr. Stewart G. Patton, Jr., the Canfield Fair Board has refurbished the building with antiques and old medical equipment to look exactly as it did

when the elder Dr. Patton was in active practice.

Pioneer Village is a year-round attraction at the Fairgrounds in Canfield. The doctor's office takes its place with a general store, a railroad station, law office, school house, library and blacksmith shop.

Physicians and their families are encouraged to visit Pioneer Village and see the building, which stands as a memorial to the history of the early days of medicine in Mahoning County and a monument to all of the physicians who have gone before.

S. Q. LAYPIUS OBSERVES:

Writing for publication is an art. Reporting is a science.

When medical men wish to report something of value the report must be exact and truthful. In addition a little art helps to make the message more readable.

When I was in medical school, Osler's Medicine was our Bible. It was rough going, worse than the Old Testament. Yet his memoirs and speeches were charming and quotable.

In today's competition for the reader's attention an article must be well written. No one should submit an article to the Journal of the A.M.A., the Ohio State Medical Journal or even our *Bulletin* without reading "Tips To Authors" in the J.A.M.A.

There is a lot of verbal garbage that could be eliminated. "In my opinion" and "This is the way I see it" and "Other opinions notwithstanding" can be thrown out. If you express your opinion, every one will know it is yours. You don't need to tell them.

Quoting background research in the text is seldom necessary. It can be in the references at the end.

Charts and diagrams may be helpful but they are time consuming and the tired practitioner may go to sleep over them.

The best example of well written articles for the active practitioner is "Consultation" published by Smith, Kline and French.

I am disenchanted with Modern Medicine and Medical World News and Medical Economics. The articles are good but try to find them in the mass of advertising. That goes for many others.

Today the average doctor is overwhelmed with medical literature. He must be choosy in order to survive. I try always to read three editorials: Irvin Page and Walter Alvarez in Modern Medicine and Morris Fishbein in M.W.N. There is good writing. Jack Schreiber writes well, too.

If you find time to submit an article for publication, for the reader's sake be brief, factual and grammatic, ask yourself, "Is this trip necessary?"

Rocom™ Health History System

ROCOM Health History Questionnaire

ROCOM Health History Questionnaire (Spanish)

ROCOM Patient Data Base System

ROCOM Branching Health History Questionnaires for:

Respiratory Gastrointestinal

Cardiovascular Obstetrics/Gynecology

A multi-option system for obtaining patient information

1. ROCOM Health History Questionnaire *

The basic component in the ROCOM Health History System... 129 carefully chosen questions arranged by body system... your patient fills out the questionnaire prior to the examination... only positive answers transfer through to the summary sheets... you begin the examination with a complete outline of the patient's medical background.

2. ROCOM Health History Questionnaire (Spanish)*

Identical to the questionnaire described above, except that questions are in Spanish and the answers in English. The form translates for you. If you have Spanish-speaking patients, and if your Spanish is weak, this questionnaire will help to narrow the communication gap.

3. the logical step forward... ROCOM Data Base System *

Combines the Health History Questionnaire and a physical examination form in one compact folder.

The patient completes the Health History Questionnaire, then on the same form your aide adds the results of routine physical measurements and diagnostic tests, relieving you of these tedious, time-consuming tasks.

You pinpoint physical abnormalities by means of an 18-point systemic check list and then record problems and your plans for treatment in the space provided.

The ROCOM Data Base System helps assure that patient management proceeds on full baseline information, and that you get a quick, yet comprehensive, look at the "whole" patient.

The ROCOM Data Base System is recommended whenever you perform a physical examination on a new patient and for periodic examinations of established patients.

John J. McDonough, M.D. -2-

August 25, 1972

conservation project to the Butler Institute of American Art. I am delighted that you, too, are assisting them, as well as the Youngstown Playhouse.

Mrs. Florence Lowe, a member of my staff who handles public relations and publicity, has offered to assist in bringing your unique project to the attention of some of the specialized publications concerned with the arts. If you send her your press releases and the program, she will help in any way she can. She can be reached at 202 382-6064.

Congratulations on an idea whose time has truly come -- combining the goals of medicine with the joys of the arts.

My best wishes for a successful birthday party.

Sincerely,

National Council on the Arts

National Endowment for the Arts

WASHINGTON, D.C. 20506

August 25, 1972

Dear Dr. McDonough:

What a wonderful way the Mahoning County Medical Society has chosen to celebrate its 100th birthday!

The arts have been part of American life from colonial days. And since President Nixon has asked for increased funds to make the arts part of "the quality of life" they do, indeed, affect all professions. It seems appropriate that modern medicine, which concerns itself with the whole person, should turn its attention to the role of the arts in a healthy society.

As far as we can tell, there is no precedent for a major thrust of the kind you describe. Doctors, of

As far as we can tell, there is no precedent for a major thrust of the kind you describe. Doctors, of course, like people all over the world, have been active in the arts on a personal, and sometimes professional basis. But you are probably correct in calling your salute to the arts a "first" for any medical organization.

Sadly, it will be impossible for me to participate in the November 4 celebration. I will bring the occasion to the attention of President Nixon, who has been most enthusiastic in his strong support of the arts. I think it likely that he will send a message of good wishes.

I urge you to contact Donald Streibig, Executive Director of the Ohio Arts Council. He is currently on vacation, but I have already spoken with his office and indications are they would be happy to cooperate in any way possible. Mr. Streibig can be reached at: 50 West Broad Street, Suite 2840, Columbus, Ohio 43215, telephone 614 469-2613.

The Endowment, incidentally, has given grants for three consecutive years to the Youngstown Symphony Orchestra and recently gave a grant for a long-range

Choose the one or more components of the ROCOM Health History System that fill your requirements. Your needs may be suited best by the Health History Questionnaire, which covers the patient's over-all medical background. You may require a branching questionnaire for in-depth investigation of a specific system. Or you may want to use both. Either one saves your time, for the patient fills it out before his appointment and the pertinent answers are readily discernible. Both are particularly useful if you are developing a data base for eventual problem-oriented medical record-keeping.

Your patients answer questions like these:

15. Are you very nervous around strangers? 15. Yes No
 16. Do you find it hard to make decisions? 16. Si No
 17. Do you find it hard to concentrate or remember? 17. Yes No
 18. Do you usually feel lonely or depressed? 18. Yes No
 19. Do you often cry? 19. Yes No
 20. Would you say you have a hopeless outlook? 20. Yes No
 21. Do you have difficulty relaxing? 21. Yes No
 22. Do you have a tendency to worry a lot? 22. Yes No

Your summary sheet shows this:

- nervous with strangers
 difficulty making decisions
 lack of concentration or memory
 lonely or depressed
 cries often
 hopeless outlook
 difficulty relaxing
 worries a lot

In Spanish, this is how the questions appear:

15. ¿Se pone nervioso en presencia de personas extrañas? ... 15. Si No
 16. ¿Se le hace difícil tomar decisiones? 16. Si No
 17. ¿Se le hace difícil concentrar o recordar? 17. Sí No
 18. ¿Se siente solo o deprimido? 18. Sí No
 19. ¿Llora a menudo? 19. Sí No
 20. ¿Diría usted que tiene una perspectiva irremediable? ... 20. Sí No
 21. ¿Tiene dificultad en relajar o reposar? 21. Sí No
 22. ¿Tiende a preocuparse demasiado? 22. Si No

But your sheet is still in English:

- nervous with strangers
 difficulty making decisions
 lack of concentration or memory
 lonely or depressed
 cries often
 hopeless outlook
 difficulty relaxing
 worries a lot

New... to pinpoint your exploration into specific problem areas

4. ROCOM Branching Health History Questionnaires

Cardiovascular

Respiratory

Gastrointestinal

Obstetrics/
Gynecology

You can utilize these branching questionnaires to obtain second-level, in-depth screening of specific body systems. Each questionnaire probes deeply into a particular area, providing between 100 and 216 answers in this specialized category. Since the questionnaires are self-administered by the patient, you save valuable time in obtaining this background information.

Physicians in General Practice or Family Practice may prefer to use the branching questionnaires as adjuncts to the basic ROCOM Health History Questionnaire and/or the ROCOM Data Base System. Specialists, on the other hand, may feel that a specific branching questionnaire, used alone, will provide sufficient essential data.

The ROCOM Medical Management System*

The complete ROCOM Medical Management System consists of the following components:

ROCOM Health History System

ROCOM Telephone System

ROCOM Medical Record System

ROCOM Appointment System

ROCOM Patient Health Guides

*Created and developed by Patient Care Systems, Inc.

To obtain complete information about the ROCOM Medical Management System please fill out the attached postage-paid reply card and send it to us.

A History of Medicine in Youngstown and Mahoning Valley

DOC'S OF DIXIELAND

Founded 1958

John C. Melnick, M.D.

One of the most interesting, unusual and enduring extracurricular activities of a group of local physicians is the Doc's of Dixieland. The author is indebted to Dr. James Fulks for the information in this presentation.

The Mahoning County Medical Society Auxiliary Benefit Ball was held at the Mural Room in 1958. The band was "put together" to play for acts of a show presented during intermission at the Ball. Approximately two weeks prior to the Ball the group had its first rehearsal at Dr. A. Rappoport's home. The original group consisted of the following:

Dr. James Fulks — piano	Dr. Dean Stillson — clarinet
Dr. Paxton Jones — drums	Dr. Ed Beyon — trombone
Philippine Surgical Resident — guitar	Dr. Bob Brown — trombone
Dr. Arthur Rappoport — sax	Dr. Bob Kiskaddon — trumpet
Dr. Jim Smeltzer — trumpet	

The inauguration of medical musical talent also featured a line of "can-can" girls. The line-up included Ray Lupse, Fred Friedrich, Bill Bunn, and Bob Fisher. Dr. Lupse arranged for foam rubber geometric bras. The breasts came in oval, square, round, and triangular shapes. When Dr. Bob Parry encountered one of the can-can girls (Ray Lupse), not being fully aware of the occasion, he did not recognize "the girl." When Ray gave a vigorous pectoral muscle contraction the one breast conspicuously jerked and a startled Dr. Parry was amazed. The can-can girls rehearsed for two weeks under the guidance of a professional dancer who was later to perform on the New York stage.

At about the same time a group comprised of Dr. Alfred Mangie on accordian, Dr. Tony Altiero, a dentist from Niles, on clarinet, and Mr. Lou Heyer on bass was also gathering from time to time and playing for pleasure. Mr. Heyer, a graduate of the Julliard School of Music, played professionally in New York City before joining the local group.

L. to R.: Dr. D. E. Beynon, Dr. James L. Fulks, Mr. Lou Heyer, Dr. Tony Altiero, Dr. Paxton L. Jones, Dr. Robert Kiskaddon and Dr. Alfred S. Mangie.

The Dixieland Docs in action. With their singer, Miss Martha Gozalik.

The two groups met and soon merged into a single group.

From time to time a member would discontinue playing with the merged band. Rehearsal was held at various homes. The original performance of the "new" group was a party for the Y.H.A. House staff which was held October 1959, following a home football game played by Youngstown University.

The members at this time were Drs. Beynon, Altiero, Mangie, Jones, Kiskaddon, Fulks, and Mr. Heyer. The desire to appear with a professional touch resulted in the group's first large expenditure of \$8 per outfit. This consisted of striped red and white coats, white straw hats with a striped red and white band with matching striped red and white ties. What a sight! They looked like a patriotic chain gang! The group's dress has varied recently. One outfit was dark sport coats with white shirts and long red ties.

A name for the group soon became a necessity. A popular group at the time was called the "Dukes of Dixieland." Dr. Beynon suggested the name "Doc's of Dixieland." Since they had no music and faked everything they played, the only music they appeared to know was Dixieland style, so the name was appropriate and stuck. It is said a nameless member of the musical group thought that "Dicks of Dooxieland" would even be more appropriate.

The regular members of the group have been with the band since its origin. A number of others have played for varying periods of time. These included Dr. Armin Banez on drums; Joe McCrea, inhalation therapist at South Side Hospital, on tuba; Dr. Robert Kiskaddon, III, on trumpet; Dr. Harold Hassel, drums; Dr. Bill Hein, vocalist; Dr. Jack Schreiber, as Master of Ceremonies and magician; and Mr. Charles Gurney. Mr. Gurney played with Dr. Fulks in a college band at Ohio University.

The only female member of the group is Miss Martha Gozalik, R.N. who is the newest addition. Miss Guzaliak is Head Nurse on 3-South at South Side Hospital. She has joined as a vocalist.

The closing theme song was written by Dr. Mangie while he was still in high school. The song has no official title but is known as Ed's theme, Bob's theme, or Jim's theme. The group has played for a large variety of events but prefers cocktail parties. It seems that as the blood alcohol increases the music is smooth, well played and enjoyed by everybody.

The group plays regularly at the Y.H.A. and St. Elizabeth's Hospital staff recognition dinners and the Nuns' Christmas Party. Other "events" include political rallies, on the back of trucks in parades, Grotto Show, fund raising affairs for schools, hospitals, and churches, the openings of Little League ball fields, Symphony Society, and the Ohio Surgical and Anesthesiology Societies.

The group really was fully recognized when asked to play for a party of the Youngstown Music Teachers Association.

The band does not charge fees. Small mementos frequently given to the group are accepted with gratitude.

100 YEARS AGO: CUPPING AND LEECHING

One hundred years ago the letting of blood by either cupping or leeching was a popular treatment, and Tiemann's catalogue provided the physician with a variety of equipment for the purpose, some of which is shown here. The Centennial Committee would welcome medical antiques such as these for display in the doctor's office at Pioneer Village.

CUPPING.

MEETING OF CENTURY IS NOV. 4

The gala centennial celebration of the Mahoning County Medical Society will be held on Saturday, Nov. 4, at Powers Auditorium. All members and their wives are urged to attend what will be the biggest social event in the history of medicine in Youngstown.

The centennial committee is hoping for 100% attendance from members. In addition, the evening of entertainment and birthday celebration is open to friends of medicine in the community. It is expected that the hall will be filled that night for performances by the Youngstown Symphony and the Playhouse.

Mark the date on your calendar and plan to attend. No one will want to miss the big night when the Mahoning County Medical Society celebrates its 100th birthday.

TWO GREAT REASONS TO MOVE YOUR OFFICE:

WESTVIEW CENTER

HITCHCOCK CENTER

When you opened your current office it was the best solution at the time. But now we have a significant improvement to offer you, your staff and your patients.

We have the most complete service available, from interior designer to janitor, the most accessible locations in the Youngstown area, and the most cooperative and attentive staff to assure that you get exactly what you want.

In considering a move, you want a proven product. The success of Hitchcock Center proves we deliver what we promise.

From the Bulletin

FORTY YEARS AGO — SEPTEMBER, 1932

The Meander Reservoir and filtration plant were put in operation after seven years preparation. Before that time we were drinking water from the Mahoning River, heavily flavored with chlorine. The new soft water dissolved a lot of old deposits present in the pipes and for a while it contained brown flakes which caused much protest from the consumers. The deposits soon were cleared out and we have been enjoying good pure water ever since.

In the early days of the Society the chief source of revenue was the collection of two dollar fines from any member who failed to prepare a paper when his turn came to appear on the program. The treasury usually had a cash balance of ten to fifteen dollars. Dr. Cunningham presented a paper in 1874 on scarlet fever in which he stated that the malady was not contagious but most of the members disagreed with him. They did agree on the use of ice water baths and large doses of wine for the "fever" and the application of leeches to the neck to reduce swelling.

Morris Rosenblum, Walter Tims and Sam Schwebel opened their offices for the practice of medicine.

THIRTY YEARS AGO — SEPTEMBER, 1942

The war effort was in a state of feverish confusion. Rules and directives changed from day to day. The *Bulletin* mentioned induction examinations, civilian defense, scarcity of doctors, rationing of food and strikes of defense workers. Here are some of the regulations on rationing of tires:

1. Doctors are not eligible for new tires while the ones they are driving are recappable.
2. Application must be made while casings are recappable.
3. In instances where the casings are injured through no negligence of the doctor and cannot be recapped, the Board may permit purchase of new casings but it must be shown that proper care has been exercised.

The Committee on Civilian Defense had to change its plans from day to day because of loss of personnel to the armed forces. Doctors who left that month were Fred Coombs, Lou Deitchman, Raymond Hall, J. B. Kupec, R. H. Middleton, W. W. Neidus, G. G. Nelson, John Noll, Harold Reese, M. S. Rosenblum, J. M. Russell, J. L. Scarnecchia, M. M. Szucs and Sam Tamarkin.

TWENTY YEARS AGO — SEPTEMBER, 1952

The American Cancer Society brought a group of seven speakers here from the Memorial Hospital in New York for a full day of Cancer Symposium at the Stambaugh Auditorium. Wm. Flynn made the arrangements and the program was outstanding, attracting many out-of-town guests.

There were five cases of polio reported, one scarlet fever, thirty-one gonorrhoea and twenty of syphilis. No small-pox and no typhoid.

Dr. Sidney Davidow became a diplomate of the American Board of Pediatrics.

There was quite a furor over fatal reactions to chloromycetin in children. John Rogers won the Lyons trophy at the annual golf meet of the Medical Society and Coryden Palmer Dental Society with a low gross of 73.

TEN YEARS AGO — SEPTEMBER, 1962

President Stertzbaugh wrote, "The best public relations man that money can buy is the one you see every day in the mirror!"

From the Legislative Committee: "Physicians are not interested in government—physicians are interested only in specific issues that affect them. We took an active role regarding "medicare" but have done nothing, for example, regarding water pollution, a program for retarded children, the increasing cost of state mental hospitalization."

The Ohio Chapter of the American College of Surgeons was here for a two day meeting at the Hotel Ohio. Stephen Ondash was in charge of the arrangements. Thirty two guest speakers were listed. Local participants were Gordon Nelson, John McDonough, Oscar Turner, William Flynn and J. K. Herald.

Carl Klodell opened his office for the practice of ophthalmology. Ed Shorten was planning to build a professional office building on Oak Hill Ave. Arthur Rappoport was Program Chairman for the meeting of the College of American Pathologists and American Society of Chemical Pathologists.

MEDICAL ASSISTANTS DINNER IN OCTOBER

For the first time in a number of years, the Medical Assistants Dinner has been changed from the usual first Thursday in November date. Due to the centennial celebration, the girls' dinner has been moved to Thursday, Oct. 5. It will be held at Ramada Inn.

Dr. C. Conner White, chairman, asks every doctor to send all of his girls. This is a function of the individual physicians and the Medical Society, and is not related to the Medical Assistants Society. Girls do not have to belong to the Medical Assistants Society in order to attend the dinner. This is a doctor's dinner for his girls.

Along with the dinner, there will be favors, door-prizes, music and entertainment. The girls look forward to this every year. Last year, more than 250 attended. Cost is \$10 per girl. Make reservations for all of your girls by sending a check to the medical society office.

HOPE ART SHOW SET FOR SEPTEMBER

Art buffs who shop the Hope Show at Butler Art Institute Sept. 24 through Oct. 1 will be choosing from some 200 paintings ranging in price from \$25 to \$60,000. The proceeds will help bring space-age medicine to underdeveloped nations via the S.S. Hope hospital ship.

Dr. John J. McDonough, who served aboard Hope in 1963, is chairman and founder of the annual benefit show and sale. He selected the canvasses this summer from the Grand Central Galleries, the Kennedy Galleries and Parke Bernet, all in New York City. During a visit to Rockport, Me., he also solicited works from the artists colony there. All paintings hanging in the show will be available for sale.

The canvasses are being housed at Butler Institute after being trucked to Youngstown from New York. As for the past four Hope shows, transport service was donated by Howard McNally Jr., president of Lake Shore Motor Freight.

A champagne and hors d'oeuvre gala, sponsored by the Friends of American Art, will open the event Sept. 23 for invited guests. A public opening is set for the next day.

Dr. McDonough and his office nurse, Mrs. Alice McCullough, organize the Hope benefits as a "labor of love." Past shows have raised as much as \$10,000 for the fully equipped floating hospital. S.S. Hope receives no federal aid, depending entirely on private gifts.

Term insurance is cheap — providing you outlive the term period or die within it.

100 YEARS: MOMENTS IN MEDICINE

The *Bulletin* continues to publish "firsts" in each issue during the Centennial Year. Your contributions will be welcome. Send them to the editor, Dr. John Melnick.

First Y. H. A. Staff Library — Dr. H. E. Patrick, chairman, 1934

First Commando Operation — Dr. William Flynn, 1952

First Father-Son Presidents, Mahoning County Medical Society —

Dr. J. J. Thomas, 1899 Dr. J. L. Fisher, 1935

Dr. A. W. Thomas, 1931 Dr. R. R. Fisher, 1968

First street closure for hospital construction — Upland Street, South Side Hospital

First "Hospitalization" — 1922, "Endowment bed fund" for nurses

Last Homestead on Federal Street — Federal and Walnut Streets, Dr. W. L. Buechner

First Secretary, Mahoning County Medical Society —

Dr. Raymond E. Whelan, 1872

First President, Youngstown Automobile Club — Dr. W. H. Buechner

First President, Oak Hill Cemetery — Dr. Henry Manning, 1852

First Order of Business rules, Mahoning County Medical Society — December 31, 1873

First General Practitioner of Year (Mahoning Academy of General Practice) — Dr. J. L. Fisher, December 14, 1954

First Twins with two distinct placentas — Dr. John McCurdy, 1876

First permanent meeting place of Mahoning County Medical Society — First National Bank, July 1878

First Nurse Alumni Association, Y. H. A. — 1907

First Meeting Mahoning County Medical Society at Elk's Club — January 17, 1950

OFFICERS ATTEND MALPRACTICE CONFERENCE

Dr. Pichette (left) addresses a question to Dr. Lieber.

Drs. Holden, Pichette, Dietz and Lloyd, as officers of the Mahoning County Medical Society, attended the Sixth District Conference on Malpractice at Kent on August 30th. Several other members of this Society were among the approximately 70 physicians in attendance from the six-county district.

Dr. Fred F. Somma of Akron was appointed chairman of a commission to study a Sixth District group malpractice insurance proposal and to present it to a Sixth District meeting when ready. The meeting took place at Cunningham Hall of Kent State University.

MEDICAL SOCIETY FALL SCHEDULE

As the centennial year draws to a close, all members are urged to participate in the remaining schedule of events:

- Tues., Sept. 19 — Society Meeting, at Mahoning County School of Retarded Children, dinner at 6:30 p.m.
 Thur., Oct. 5 — Send your girls to the Medical Assistants Dinner, Ramada Inn, dinner at 7:00 p.m.
 Sat., Nov. 4 — Gala Centennial Celebration, Powers Auditorium, entertainment at 8:00 p.m. This is the meeting of the century. Our goal is 100% membership attendance.
 Nov. 12 - 18 — Diabetes Week, sponsored by Medical Society.
 Tues., Nov. 21 — Society Meeting, at Sokol Center, dinner at 6:30 p.m. Nomination of officers for 1973.
 Tues., Dec. 19 — Society Meeting, at Ramada Inn, dinner at 6:30 p.m. Election of officers.
