## Coming Together

Earnest linked a few rings of beer puddles together.

This was more enjoyable than studying the scientific method.

Observation. Hypothesis, Experirnentation. And

He couldn't remember the last two steps.

Earnest observed the girl in the pink sweater two chairs down. He hypothesized she would not be interested in sifting with him and hearing his life story

The link of beer puddle rings grew. The bartender looked at Earnest with contempt, making Earnest realize what a sticky mess he was making.

Pink sweater's girlfriend laughed very loudly. Earnest vaguely remembered her from high school. Or maybe it was just her laugh he remembered. Hyuh ha, hyuh ha, hyuh ha. Why did she have to be sitting right next to him? The girls should switch seats so Pink Sweater would be closer to him, he thought,

The girlfriend laughed some more, and then she announced, to the whole bar, it seemed, "Well, I have to go somewhere REAL IMPORTANT."

She left her jacket on the stool and walked away, with Pink Sweater sitting alone, smiling.

In his best imitation lounge lizard move, Earnest slithered onto the vacant seat. He called upon the Muse of opening lines.
"Hey, don't you go to YSU?," he asked Pink Sweater.
"Yes, along with about 16,000 other people," she said.

Experiment again, he thought.
"We were in the same English class, I think. How'd you do on your term paper?"
'I haven't taken my English classes yet:" she said while glancing down the bar. She admired his beer puddle rings.

Would you like anything to drink?"

While some rush to their classes others rush to get home. The pedestrian bridge spanning Wick Avenue allows for safe rushing.

Kely Durst
"No, I hardly ever drink," she slurred.
She still hadn't looked at him.
Earnest moved his glance to the puddles.
"I did that," he told Pink Sweater.
What?
"I said I did that."
"Did what?"
"Linked those beer puddles together."
"It's a work of art."
"It's like graffiti. Somebody will wipe it up. Brush it off."
"I never thought about spilled beer in that way before.
"It's not spilled. It's what ran over and stuck to the bottom of the glass.
"You sound very intelligent," she said while counting the liquor bottles on the

shelf. "You must be a senior
'Well, no I'm a
"I'm back from my VERY IMPORTANT mission," the laughing girlfriend announced. "Hey, you're in my seat, you
"Hey, you're in her seat," Pink Sweater said.

## Oh.

He went back to his seat and the two girls resumed talking about something which Earnest assumed was REAL IMPORTANT

The bartender wiped a wet, malodorous rag across Earnest's rings. Just a trace of them remained.
'Do you want another?'
'No," Earnest threw a quarter down.
He said goodbye to the two girls who pretended not to hear him. The faster he walked to the door, the farther away it seemed to get. The few people drinking that Tuesday night seemed very drunk.

A sunny day with the sweet smell of marigolds makes studying on campus enjoyable.

When Earnest reached the door, he remembered the last two steps to the scientific method.

Verified. She does not want me.
Generalize. No one wants me. walked up the hills at the edges of the circles leading from the library to Kilcawley Center. As if a nuclear bomb had been dropped at 2 o'clock, no one was left on campus but an occasional student with six notebooks and eleven books, or an unshaven old man with haze and booze scribbled over his face. Only the strong had survived.

Big chunks of snow fell into Earnest's murky blond hair and melted. Although he enjoyed the silence of the late winter snowfall, Earnest was glad to be pulling on the heavy metal bars of the doors to Kilcawley. It might be warmer in there, and Al said he was going to be in the Pub around 3 o'clock.

- Larry Fitzsimmons

Quiet outdoor corners by Kilcawley Residence Ho provide a shady site for examining thick textbooks

A leafy tree keeps the sun out of laughing eyes and marks a favorite meeting ground

the sun an excellent source

From a snail's view, the flowers seem to outnumber and dominate the many students passing by.

nest's jacket. He quietly unzipped it as he paused before the bulletin board by Arby's.

Everyone seemed to be selling something. Cars, stereos, drum sets, trips to Florida, records, and of course, books. People offered services as babysitters, typists, singers, repairmen, and who knows what else. Most of these messages didn't concern him, like the myriad of posters publicizing clubs and activities.

He moved on, walking past Dairy Queen, marvelling that people still craved ice cream in 25 -degree weather. The posters of banana splits and ice cream sundaes reminded him of riding his bike to the Dairy Queen by his house: where he would buy a $D Q$ cone and stare at the fading posters while he and his friends enjoyed cold treats on a hot July day. He had to hurry up and eat his ice cream before it melted.

He walked on.

For once, not many students were sitting on the long tables before the bank, swinging their dangling feet and laughing. But then again, it was after 3 on a Friday and most people had gone home to their respective suburbs or cities. Earnest began to think he was the only person who stayed around after his last class to study in the library and take a walk through Kilcawley.

Enough people were in the Pub that Earnest had to look at each face before he found Al's. Smiling faces, bored faces, and the ones that belonged to good friends enjoying each other's company.

Earnest asked for a beer at the counter. He was hungry, but he didn't like getting pizza late in the afternoon at the Pub. The last few times it was dried out, probably because there was no one else before him to order it and create a demand for freshly-baked pizza.

He took the beer to Al's table, spilling
some on his shoes as he walked. Two guys were sitting there, and Earnest didn't know them.
"Hey, Al."
"Ernie, where've you been?"
"In the library, studying."
"On a Friday?"
"Yeah, well, you've got to start sometime."
"I should've started about two years ago," said one of the new guys.

They talked for awhile, about the classes they were taking this quarter and the ones they were considering for next quarter. Earnest asked them what professors he should avoid for certain classes, and wondered to himself if their advice was worth taking. But he gave them his advice about certain classes, figuring he didn't really care whether or not they took it. For some reason, he

- Larry Fitzsimmons

Maag Library and the surrounding landscaping show passersby YSU at its most beautiful.
was enjoying this conversation. He had perfected it by rehearsing it three times each week with other acquainances.
"You know, I must have heard about the scientific method every quarter since I've been here, and I still can't remember all the steps to it," Earnest said to change the subject.
"You, too?" the other guy said. "I've been getting that in science classes, psychology classes and classes you wouldn't even expect to hear it in."
"This if the stuff we're supposed to be going to school for," Al said. "You know we'll think about the scientific method every day of our lives.
"That's what college is for," the first new guy said.
"I actually used it the other night," Earnest said, hoping they'd ask him what he was talking about.

They didn't ask him to elaborate. "Another thing l'm tired of hearing about all the time is 1984," said the new guy in the blue jacket.
"Everytime you open the paper there's an article about Big Brother," Al added.
"People act like it was a great novel," Earnest said. "In twenty years it will be looked at as a didactic, dated rag.

Earnest must have said something wrong, for the conversation seemed to have stopped and they were glancing around the room.
"Actually, I never read it," Al mentioned.
'Me neither.'
"I read it a long time ago. I don't remember what I read.

- Kelly Durst

A resident in the Kilcawley dormitory sneaked in
beautiful women with perpetual smiles.

Sandy Schiff and Dave Westover get close at the Winter Kickoff dance in Kilcawley Center.

Earnest didn't want to say he d read it although he had. He asked them what they were drinking and he offered to buy a round. They reacted a bit more enthusiastically to that statement.

In 1983, when he'd read the book, Earnest was glad to have the chance to read something that was always being discussed in the news. By January. 1984, he was tired of people digging into the book, saying some of the things would come true, or that some of it already had. A totalitarian state. Earnest wished people would stop using the book in political arguements. To Earnest, the book had too many obvious "messages," but he did appreciate the relationships among the two principal characters. He saw them as two people trying to come together. Maybe it was becoming difficult to come together in 1984. Earnest couldn't remember any editorials or reviews mentioning that

The young woman at the counter put four plastic cups of beer on an orange

A dapper gent enjoys a smoke before the spring thaw.

Tailgate parties before the footbell games became a big success for Penguin fans

- Larry Fitzsimmons
plastic tray for Earnest. He paid her and went back to the table.

At the table, as he passed the different brands of beer around, Earnest said, "I know what kind of beer you guys like but I don't know your names."

The guy in the blue jacket said his name was Jim and the other guy introduced himself as Mike. Or maybe it was the other way around. Or maybe it was Mark and Tim. At any rate, they announced they would finish their beers and then they would have to leave. It might have been Jim who said he had to go to work that night, with Mike saying he had to get home to eat dinner. It was a half-hour drive to the area where they lived.

Probably in high school, where they were good friends, Jim and Mike had learned to drink fast. They briefly talked about how they alternated driving responsibilities and then they talked about their cars. They got up to leave.
"Hey, thanks for the beers, uh, what was it?"
"Ernie."
"Yeah, see you around Al."
"Have a good weekend," Al said.
When they left, Earnest noticed others had left, too, since he came in about an hour before.
"Not many people around here on a Friday," he said.
"Usually aren't many on any afternoon," Al added.
"I went to Aunt Mary's Kitchen Tuesday," Earnest said. "And you should have seen how this girl acted to me. Never met such a snot before."
"What did she say?"
"I was just trying to start a conversation with her, so l asked her if she went to YSU and she said yes, but she made it sound like I was just one of a few thousand other fools she couldn't care less about.

[^0]

A student gains a new perspective on academic life in a Kilcawley study lounge.
"May she roast in hell like a marshmallow," Earnest said, raising his glass to Al's. The half-full cups made a dull thud as they came together. It certainly wasn't a satisfying clink, but it meant Al agreed with him. Earnest didn't feel so bad about himself now. Pink Sweater may not have wanted him, but he knew somebody did. He would have to start the scientific method over again to make a new generalization.

In his speech class on Monday, Earnest sat back listening to others nervously standing before him, gripping the podium until their knuckles turned white, giving their informative presentations.

Earnest felt guilty about wanting to laugh at some of the ideas, but at the same time he felt he could laugh since he'd already given his speech.

No one was saying anything really different, it was all stuff Earnest had heard before. The most interesting speech he heard was called "How to Survive a Commuter University.'

The girl giving the speech sounded not only like she knew her subject, but like she really cared. Her name might have been Kathy. She seemed to have perfected the art of grabbing the listener's attention.

The band practices marching as a loyal Penguin fan looks on

Not many computers sit sit around and study in Cushwa, but many students do

Arm wrestling has its intense moments as these students discovered in a YSU contest
"I used to hate YSU. In the morning I'd drive to campus, alone in my little car, and I'd reach Wick Avenue where there were a thousand other people moving masses of metal to one place: the M-1 deck.

So she hates traffic jams, too, Earnest thought
'But it wasn't the traffic jams I hated, or the ten-minute hunt for a parking space in the deck
"I hated the isolation.
'You see, I'd take a hike from the parking deck all the way to the Arts and Sciences building, and I'd be surrounded by thousands of other people going in pretty much the same direction
"But they were all strangers, and it seemed like a waste to me that there should be so many people, all here for a common purpose, yet rarely interacting with one another. I certainly didn't know many people.

I felt alone and angry

- Mark Macovitz

Scott Carney and Sandy Schiff discuss ten important trends transforming our lives.

That's why I used to hate YSU.

Following the prescribed steps of collegiate speech making, the girl who might be Kathy went on to say that, " know all of you have felt that way at some time or another.

Earnest checked around the room and he discovered other people were nodding their heads in agreement. He nod-

Kelly Durst
During Homecoming week, some students participated in the Charlie Chaplin 2 -mile Mini-Marathon. Others continued the routine of walking to class along Lincoln Avenue
ded his head when Kathy made eye contact with him because he figured the professor would probably give her a higher grade if several students displayed an interest in her speech.

Earnest had heard people talk about YSU as a commuter university before. In fact, next to parking, that seemed to be some people's biggest complaint

- Gene DeChristotaro

The commuter comes to YSU for a few hours each day, and then goes home, leaving a physical and psychological vacuum in his own life, and in the lives of others, the argument went.

Kathy noted that at other universities, students lived on campus, so they could not only make new friends, they could strengthen relationships. She complained about students' social habits at YSU, how they tended to rely on old friends from high school, rather than making new friends at YSU, making this a more pleasant place to come to five days a week.

Nodding his head again, Earnest thought about his own weekend. It had been particularly boring. Since his rejection at Aunt Mary's Kitchen, Earnest didn't feel like going to the bars with his old high school buddies. They went to the same places in his town, but for real excitement they would go to one of the bars near YSU. So on the weekend, Earnest decided he would study, although when his Uncle Harry came to visit, they went to the Bowl-O-Mat, where Uncle Harry beat him in every game. Earnest felt like he'd been in a

[^1]These men demonstrate an alternative method of getting to classes: cross-country skiing.

From a gently sloping hill, one can watch others walking by Kilcawley Center.

- Larry Fitzsimmons

rut since he started at YSU.
"Student activities and organizations on campus are the key to change and friendship," Kathy continued.

Now I could see myself running around with some committee of busybodies, Earnest thought. When Kathy started talking about how "wonderful" her sorority was, Earnest started drawing boxes, rectangles and angry faces in his notebook. Fortunately, Kathy was only using her sorority as an example.
"I know what most people think of

Greeks," Kathy said. "I'm not here to argue the merit of any sorority of fraternity. But I think everyone should become more involved. No matter what your interest, there's probably some organization that suits you."
"Areas of involvement include Student Government, Kilcawley Center programming committees, sports and recreational activities, service organizations, religious groups, academic, political and professional organizations, and social fraternities and sororities. There are more than 130 student organizations and groups in which to get

Maag Library stands in elegance on a dark winter night.
involved. In addition, a varied social and cultural program is provided to students including concerts and musical groups, performers, lecturers and drama groups."

My Lord, she is quoting directly from page 17 of the YSU 1983-84 Bulletin, Earnest thought. That's plagiarism. She isn't acknowledging her source
"I remember reading that in the YSU undergraduate catalog," Kathy said.

Understatement of the year, Earnest thought
"I'll admit my bias toward sorority life," Kathy said before going into an eightminute description about the wonders of sorority life.

Although not particularly impressed by her feelings about sorority life, Earnest did find himself impressed by Kathy's ability to give a good speech. For a student in an introductory class, she seemed to be well informed.

In the age-old tradition of didactic fiction, the reader will soon learn how Kathy became so competent a speaker.
'Kathy, how'd you get so good?"
Kathy kept on walking down the hall.

As the sun sets, the lights come on to brighten the center of the campus core.

Footprints in the melting snow lose direction as an unusually desolate Kilcawley Center throws off warm light just past the hill.

Students who spin the records at the Music Listening Room in Kilcawley usually can find time to talk to passers-by

## Kathy.

She kept walking
Earnest tapped her on the elbow.
"Did you like my speech?" she asked.
"It was good, Kathy.
"It's Casey
'So you weren't ignoring me?'
"Pardon me?"
"Never mind. I liked your speech. You must have given quite a few before.'
'You know it's funny. I never had to do any public speaking until I joined some of the organizations here, and now you can't shut me up.
"Recruiting innocent young things into your sorority, no doubt."
"It's more than that. I do a lot of work in the community and I've found I really enjoy getting up in front of people and letting them know what's available."

A lonesome bike waits for its master's return
"So you're really sold on student organizations?'
"Why not?"
"Doesn't it take a lot of time?"
"Depends on what you do. It's better than sitting around the Pub for three hours every day.
"Depends on your outlook."
"I'm going this way."
"I'm going that way, see you tomorrow.'

They went their separate ways.
His way was to Kilcawley. Not particularly the Pub, but perhaps to the Terrace Room or wherever the food smelled good. Once again, he stopped at the bulletin board by Arby's. A large xeroxed tomato centered on an $8 \times 10$ piece of paper said, "Big Tomato is Watching You."

Very strange individuals must be somewhere near.

But then, the wisdom of Casey flooded

back to Earnest when he spotted a poster proclaiming, "Calendar Collectors Club to meet Friday

I didn't know there were other calendar collectors in the world." Earnest said to the wall.

The wall did not here him. People passing by did. They stared.

Friday follows Monday, and eventually it did this once again for Earnest

Friday, 3 P.M., A room at the end of a shiny, people-free hall in Kilcawley Center. Earnest had a grocery bag full of old calendars, most from the 1970s and 80 s, but some dating back to the 1920 s . The secret of collecting calendars is to keep them free of birthdays, appointments and other things. Earnest had several calendars for 1984, ones he would collect, and one to hold important dates. Funny, there were hardly any important dates in Earnest's datebook.

Laughter. Someone had been reading his mind and found his empty datebook funny.

About seven calendar collectors filled the room, and Earnest found he had much in common with most of the people, besides his passion for calendars.

They admired his extensive collection of Absurdist Calendars, which had the numbers and months of the year in no particular order. Why bother.

It was refreshing to be among people who collected calendars. Refreshing, so refreshing that he thought he would never be thirsty again, was the uniqueness of this particular calendar collectors club. Unlike some clubs he had seen, the members were not preoccupied with the date. You could ask them the date, and they would say, "Well, I think it's the 24 th, but it could be the $25 t h$," and then they would count on their hands the number of days thet had elasped since they last noticed what day it was.

They had other interests besides collecting calendars. Occasionally, they would attend a sporting event together, such as the Hollywood fish races. A sport imported from a foreign land, the object is to see who can sweep the

bottom of an Olympic-sized swimming pool the fastest, without coming up for air. It is not as impossible as it sounds.

The obligatory social mixer proved fruitful for Earnest, for there he found himself "Strengthening relationships," in the words of Casey, a demi-god in Earnest's move toward social awareness and agility.

One night after a long exchange of calendar talk, The Calendar Collectors Club adjourned to a meeting at Aunt Mary's Kitchen. Sitting next to the president, a certain Ms. April Smith, Earnest noticed Pink Sweater, not because of her outstanding beauty, but because he heard hyuh ha, hyuh ha, hyuh ha Tonight he noticed Pink Sweater was
not wearing pink. He did not care. He did care about April, for she had taken an interest not only in his calendars, but in his rings of beer puddles.

As Earnest bought her a soft drink, April looked at his beer puddle rings and said, "Earnest, I think you are becoming well-rounded."

Earnest had to admit being with April and the other calendar collectors was a link to togetherness.

April verified his hypothesis with a smile.
Earnest liked this new phenomenon of "coming together.

The people who hang around Cushwa Hall lounge areas feel free to lay down and relax.

An Artcarved salesperson convinces this student that a YSU ring would make a great momento.

## STUDENT LIFE

The years you spend at college will be the most enjoyable you will have in your life. The wealth of knowledge you will acquire from scholared professors will be invaluable to you when you enter the world of work and use your degree. But there is another side of your college education that is just, if not more, valuable to you. That is part of your education that teaches you responsibility, communication skills, and how to interact with people. In other words the extracurricular activities that play a part in all of our lives here at YSU.

There are many activities here at YSU that allow students to get away from the everyday hassel of studies. Every year there are the same events that take place, like Homecoming, Winter Formal and many others. But in addition to these there are also many special events that take place that are also open to all YSU students.

All these events are designed to add excitement to going to college and to give students the a chance to relax, if they choose to do so

## A TIME FOR RELAXING

Between classes, few things are as pleasing as a nap with a close friend, as these two discovered in the Kilcawley Center Program Lounge.

- Kelly Durst

- Larry Fitzsimmons

A clear day, a quiet spot and interesting class notes provide adequate incentive for studying

Skill and determination add up to a good game of Tournament Soccer for these four students in the Kilcawley game room.

Leisure Time - the time that so many of us would like to have more of, but for college students it doesn't come very often. So when we do finally get some free time, either during a long break between classes or after classes are over for the day we want to do something that will relieve the tension and pressures of school.

There are many places to go and things to do, either on campus or nearby, which can help ease tensions, learn something new, meet new people or just spend time alone.

For the person who wishes to participate in sports activities such as racquetball, tennis, golf, volleyball or basketball in his/her leisure time, Stam-

With confidence and hours of practice on his side, this student seems sure he'll win a game of pool in Kilcawley Center

Photographers, sunny days, and lots of friends seem to bring out the most dazzling smiles.

baugh Stadium and Beeghly Physical Education Center are open for student use.

If sports activities are not what you want to do in your spare time, and you just want to "hangout" with your friends, YSU has places for that too.

The Pub, located in Kilcawley Center, is a great place to eat and socialize, between or after classes.

Arby's, also in Kilcawley, is another place to "Hangout" with friends. It is the main socializing spot for the sororities and fraternaties and for many other students who wish a large and friendly atmosphere.
The Recreation Room offers leisurely
games such as pool, foosball, and table tennis and is very popular place for students between classes.

In warm weather and throughout spring quarter, students spend their spare time playing frisbee on the lawn and relaxing on the hills.

For socializing in the evening, YSU is surrounded by several very popular nightspots. Pal Joey's, Brass Lion Pub, The Lincoln Tunnel, the Arcade, and the Penguin Pub are just a few of the places where you'll find YSU students having a good time after classes and on weekends.

YSU offers a variety of ways to relax and take a break from studying.

## HOMECOMING EXTRAVAGANZA

One of the most exciting eras in America's history was recreated as a part of YSU's Homecoming '83'. The Roaring Twenties - "Ain't We Got Fun!" was the theme and just like the "original " Roaring 20s, YSU's annual event was exciting, extravagant and just plain fun.

Homecoming Week, which began October 10 and continued through October 15 , included a schedule of events and activities that would interest almost everyone.

The week's activities commenced with an arm wrestling contest in Arby's and continued throughout the week with such events as Charleston aerobics, tug-of-war, a pizza-eating contest and movies depicting the 1920s.

A mini-concert, "Sound and Silence," featuring Livingston Taylor, Trent Arterberry and the Greg Greenway Band, sponsored by Programs Activities Council, added to the Homecoming festivities.

Homecoming Week was highlighted by the first All-University bonfire since 1963 and a Semi-Formal Extravaganza held at Stambaugh Auditorium. The dance, open to all YSU students, faculty, staff. alumni and their guests, featured casino games and prizes, old-time movies and the sounds of Vegas, Dana Dixieland Jazz Band and Little Joe's Honky Tonk Ragtime Band.

The annual Homecoming Parade, which took place early in the morning, started all the festivities off with a roaring success. The Grand Marshall was YSU alumnus Ed Neill, who is currently in the cast of the popular daytime soap opera "All My Children." The winning float was built by Delta Zeta sorority and Sigma Phi Epsilon fraternity.

With Homecoming Week being so successful the YSU football team did not want to be the spoil sports. And to prove this fact they played a great game and soundly defeated their rival Austin Peay State, 41-19.

The crowning of the King and Queen, which took place during halftime activities, added more sparkle to the football team's victory. Valerie Jones, senior, Business, was crowned queen and Donald Lewis, junior, Business, was crowned king

- Larry Fitzsimmons

Most casino game players at the Homecoming Extravaganza betted with the daring of Las $V \theta$ gas high rollers, perhaps because their money was counterfeif

The creative lighting in Stambaugh Auditorium added to the special atmosphere of the semiformal Homecoming dance.

## GAMES PEOPLE PLAY

Karen Miller approaches an orange cone during the Charlie Chaplin 2-mile Mini-Marathon, one of many Homecoming events.

A bull's-eye would make for a good game as Sigma Alpha Epsilon member Rob gets ready to throw with John, Albert and Frank looking on.

- Kelly Durst

Kelly Durst
Sigma Alpha Epsilon brother Frank told Rob during Homecoming week that he really ought to consider getting a new bike

## THE ROARING 20'S

The preparation for a Homecoming float starts two to three weeks before the parade. In this period you must first design your float then gather the materials needed. You must have pomps, wood, chicken wire, paste and alot of workers. Finally the night before the parade you put together your float. You stay up almost all night but when it is finally done it is a work of art. All the floats meet in front of Beeghly and the parade is started. When the parade is finally over you are left with the task of tearing down the float you just spent twenty hours building.

- Scott Carney

Mike Carlozzi, also of Phi Kappa Tau, pomps chicken wire into the arms of "The Governor.

Joe Vingle, of Phi Kappa Tau fraternity, adjusts one of the wheels on the fraternity's antique car Homecoming float.

Lori Lawman and WHOT's A.C. McCullough compare notes before the judging competition of
the floats begins

- Larry Fitzsimmons

SAE member Albert Pompeio registers disbelief as the float that the fraternity built with the Phi Mu's wins second prize.

## ROARING 20'S HOMECOMING PARADE

Members of Sigma Alpha Epsilon "drive" down Federal Street in grand old style during the Homecoming Parade

The Homecoming parade again toured the Downtown Youngstown area this year. The fraternities and sororities at Y.S.U. combine their talents to see who could build the best floats. Besides floats there were also clowns, decorated cars and marching bands from the local high schools. The weather was excellent and all the downtown shoppers and workers seemed to enjoy the spectacle. After the parade the floats were placed behind the stadium where they could be seen during the football game.

YSU cheerleaders take a ride down Federal Street on a Youngstown Building Materials cement truck.

ack Lyons of Phi Kappa Tau Fraternity, during
he Homecoming parade, filled in for Congress-
nan Lyle Williams who was absent

## ONE LAST TIME

The first week back to school found students all bummed and out of it. The Greek Program Board had a solution to solve all these feelings of blaise, in a back to school kick off dance. The dance featured the music of local favorite The Hearns Brothers. The dance was a success as it drew hundreds of eager students to Kilcawley Center's Chestnut Room. Everyone present had an excellent time as they danced the night away and temporarily forgot about having to go back to school on Monday.

The Hearn Brothers band helps students celebrate for the last time until next summer.

Two sfudents, Mary Jane Shields and Dan Loch enjoy the sounds of the band as well as each others company.

Karen Kocak and other Delta Zeta Sorority members enjoy dancing to the snappy tunes played by the Hearn Brothers.

- Scott Carney

## LIVING WITH MANY

After fighting the problem of moving in and lugging all ones belongings up numerous stairs, it was time to start adjusting to living in a "house" with a number of different people - dorm life.

When everything is finally into the little cubicle that is going to be a bedroom, livingroom and kitchen, then it is time to make the place feel like home by add-
ing some necessary furniture like refrigerators, hot plates and anything else that will make this form of living a little easier.

Probably the most difficult change for people who live in dorms is the wide variety of people. It never fails. At leas $\dagger$ one neighbor insists on playing his stereo as high as it will go until all hours of
the night. Others have their social hours in the hall most of the night.

The living quarters may be close but it gives a person a chance to make new friends, live his/her own life and to make it on their own, so to speak.

For most people, this type of living arrangement, is known as "home".

- Bill Ciccarell

## MAYBE HANDICAPPED BUT NOT

Photos by Mark Macovitz
Using A wheel chair has become less of a task since YSU took a common sense approach to the handicapped problems.

Atomatic door openers have been placed outside at least one restroom in every building.

## DEFEATED

By: Rachele Brewer
Walking across campus can be tiring for the average student, but for the handicapped person the journey can be exhausting
"The way this campus is landscaped makes it very hard for a handicapped person to get around," stated David Shaw, Sophomore, CAST. "The hills make it difficult for a person in a wheelchair to get across campus and the circular design of the walks makes it hard for a blind person. Blind people can usually estimate distances by counting the cracks in the sidewalks, but when the paths go in circles it is very hard for them to know how far they've walked.'

In an effort to make things more accessible to the handicapped, Congress passed the Rehabilitation Act in 1973. This Act specified that all buildings had to meet accessibility standards for the handicapped in order to pass inspection. Not only did new buildings erected after this date have to meet these standards included specific requirements for doors and doorways, restrooms and parking spaces.

After the passage of the Act in 1973 all of YSU's educational buildings were gradually renovated to meet the standards. The renovations included construction of ramps along several street
corners, and one in the Engineering Science building and the lowering of some of the water fountains and telephone booths to wheelchair height. According to Dr. George Letchworth, Director, Counseling Services, "Even though all our buildings meet state and federal specifications, these specifications are minimal.'

After Letchworth was personally shown that one of the buildings on campus, although meeting state specifications, was still not fully accessible to the handicapped students at YSU, he decided to investigate the accessibility of the other buildings. The University analyzed the needs of the handicapped and it was found that for YSU to be a campus that is fully approachable by all handicapped people, the educational buildings needed to be upgraded

By working in conjunction with Herbert Moore, designer, Campus Development, the Handicapped Access Improvement Project was born.
"The purpose of this project is to provide at least one toilet facility that is fully accessible to each sex in all of the buildings with classrooms." Stated Moore, "Some of the buildings might have two or three restrooms that are accessible, but they all will have at
least one.
'Each of our buildings meets the minimum codes, but some of them weren't accessible to all handicapped people. Therefore, in improving the buildings we are now using a common sense approach. In addition to providing toilet facilities in every building, pay telephones, drinking fountains and elevator controls of wheelchair height will be installed.

Handicapped people will also be able to attend many of the major sporting events at YSU without the fear of being in someone's way or of being hurt. The top level of Stambaugh Stadium has been made wider and is now equipped with a guardrail for their protection, especially for those in wheelchairs. Reserved seats for the handicapped at the corners of Beeghly Gymnasium are also being provided.

One of the biggest problems facing a handicapped student today at YSU is acceptance: not necessarily acceptance from other students, but acceptance from the society which designed and built our buildings. Through the Handicapped Access Improvement Project, YSU is showing its acceptance and proving that everyone deserves the chance to further his/her education.

New signs have been placed outside restrooms which have facilities for the handicapped students.

## they Just Cannot be found

Within the past few years, early morning classes have become increasingly popular at YSU. The reason: the major problem of insufficient parking.

In order to find a "legal" parking space, one has to wake with the roosters and arrive before the sun shines too high in the sky. With the number of students taking classes at YSU continually rising every year, it soon becomes obvious that there is not enough parking spaces to facilitate the number of students.

The ratio of students, faculty and staff to parking spaces is greater than three to one. This means that over 15,000 people have to fight for only 5,000 parking spaces. Although not everyone involved with YSU is here at the same time, enough people are using parking facilities, which creates a tremendous burden.

Arriving early in the morning does not even guarantee a place though, as long lines of cars can be seen waiting to gain access to the very limited parking areas.

In an attempt to improve the parking situation, YSU paved part of the area next to the south end of Stambaugh Stadium.

The lot will be for faculty and staff use only to try and provide more spaces for students only. But because the new lot is so far away from the center of the campus, faculty and staff will probably not want to park here.

So, what then is the solution? YSU has not adopted any proposals for new parking areas but most of the students agree that something must be done and soon!

- Gene DeChristoforo

Even though students buy parking stickers some are forced to park in metered lots.

When in a hurry some students are forced to park wherever they can find a space.

Tickets seem to be a major problem for students, due to an inadequate amount of parking spaces.

With the lack of parking places some people will park wherever they can find a place even if they aren' $\dagger$ handicapped.

- Kelly Durst

Finding a place to park is next to impossible and as a result many tickets are issued due to illegal parking.

- Bob Smith

To make sure everything is perfect this actress gets up close to the mirror to make sure nothing is messed up.

This actor is being helped, by a member of the make-up crew, to get his hair and make-up to correspond with the part he is playing.

- Bob Smith

Mentally psyching herself for the performance and going over her lines, to make sure she remembers them, is part of this actresses routine before the show begins.

## GUYS AND DOLLS

By: David Nudo

This musical captures the flavor of Broadway's "Runyonland" of the 1930's with gambling guys and their dolls, the Save-A-Soul Mission Band, the Hot Box Girls and a host of other Damon Runyon characters.

The musical comedy is about high rollers in New York during the 1930's and
centers around two love relationships. The first relationship is the unlikely match between the sophisticated gambler Sky Masterson and the selfrighteous missionary worker Sarah Brown.

Nathan Detroit, organizer of the city's notorious floating crap game, and his fiancee of 14 years, Miss Adelaide, make up the second couple.

Throughout the play the characters try to find solutions to their respective dilemmas. Sky searches for the perfect bet, Sarah crusades for souls to save, Nathan seeks out the perfect place to hold a crap game away from "the heat", and Adelaide rallies to get Na than to finally take his wedding vows.

As in most musical comedies, the outcome was fairly predictable.

## THE SCHOOL FOR WIVES

By: Craig Herman
Moliere's play relates the story of Arnolphe, a rich man who ridicules marriage because of the ugly possibilities of becoming the cuckhold. In other words, he does not wish to become a fool who has a wife that will commit adultery at any time she pleases.

It is Arnolphe's reasoning that all women, with their guile and cleverness, can fool any and all men and should be kept ignorant in all matters of life.

No matter what steps Arnolphe takes to make Agnes the "perfect, subservient, ignorant wife," something or someone will turn up to defeat such steps.

## A guest speaker during Black History Month, from Channel 33, conducted a workshop with a ques-

 tion and answer session for all in attendence.Many students enjoyed dancing to the snappy beat of the music at a dance provided during Black History Month.

- Mark Macovitz

The Rayen High School Gosepl Choir contributed its musical talents to the opening ceremonies of YSU's 14th annual Black History program.

Delores Smith, of the Warren Trumbull Community Service Agency, talked about the purpose of Black History Month.

## BLACK HISTORY MONIH

## DIE-IN

Photos by Kelly Durst

On Friday, November 18th, Cooperative Campus Ministry and the Newman Center sponsored a "die-in" in the Kilcawley Program Lounge.

The Die-In was an attempt to dramatize the loss of life that would result from a nuclear war. It was also an attempt to focus attention on the ABC television program, "The Day After."

At 11:15, the Die-In began with Father Ray Thomas, of the Newman Center, reading aloud what would be the events of a typical day in certain people's lives within the Youngstown community

The fictional situation that Father Ray Thomas was reciting suddenly took a desperate turn. An international conflict began to escalate into nuclear war on the same "ordinary" day.

Suddenly, with a bang of a drum and a crash of a cymbal, which represented the dropping of a nuclear bomb, about a dozen people fell to the floor as if dead.

For two minutes the tragedy of nuclear war was deomonstrated. Some of the students watching were making jokes about it, some were whispering comments and some were standing by, staring silently.

## THE TOWERING INFERNO

By: Rachele Brewer
At least once a quarter, members of the Greek system try to do something that will make them always remember the quarter. For the Sigma Phi Epsilon Fraternity, a memorable event for fall quarter came with a big expense bill.

On October 21, the larger of the two houses owned by the fraternity caught fire. The fire, which started in a fireplace, caused an estimated \$15,000 damage to the fraternity house and its
contents. Damage to the building included smoke and water damage through the entire house.

Fortnately, no one was injured, although one fraternity brother, Rocky DiPuzzo, slept through the alarm.

Immediately after the fire, and while the house was being repaired, five of the seven members who had been living in the damaged house moved to the fraternity's other house next door. Although the other house is smaller and is designed for only 10 people, living in it was beneficial to the fraternity.
"It's really helping the fraternity," stated Steve Stanic, Sig Ep's Recording Secretary, of the tight squeeze. "We have to line up for showers and hope we don't run out of hot water. But it's nice to live in close quarters. The whole thing's turned out for the better. It's brought the fraternity closer together." This was one of the few times a fire has been an advantage and not a disaster.

The damage to the house was repaired and by the first few weeks of winter quarter, the brothers had returned to their larger house.

## FOLK SINGER BRINGS "SWEET" STYLE <br> 

The February 24th concert, with Tish Hinojosa, was a combination of moving love ballads, up-tempo country tunes and melodic folk songs. Tish played guitar and electric piano, while her husband, J.C. Baker, accompanied her on bass.

This sweet-voiced singer of original and well-known folk and country classics often plays the college circuit, as well as numerous club venues.

She has been playing at various campuses for the past two years, and her performance at YSU was a stop on her way to Pennsylvania.

Tish Hinojosa provided her audience with many memorable songs which all enjoyed and which she enjoyed performing

Tish performs with her husband, J.C. Baker at various campuses throughout the area and she decided to stop at YSU on her way to Pennsylvania.

## AND ALL THAT JAZZ ...

- Clem Marion

- Clem Marion

## AIRBANDS ROCK THE PUB

The great sounds of airbands returned to the Pub fall quarter. Wild crowds, rock-n-roll, and crazy airband players made this yearly event something many students look forward to.

This year's airband competition was marked by the return of one of the most popular airbands, Mike Hunt and the Muff Divers. Though MHS only placed second, their flock of groupies grew, and many people look forward to their upcoming world tour.

Gus, the group's lead singer, credits most of their success to their choices in music. MHS plays songs by such popular performers as Billy Idol and the Producers. A big crowd favorite is She, Sheila, which Producers keyboard player Wayne Famous says"Sounds just like us".

Just like in the Funky Winkerbean cartoons, airbands are here to stay.

No this is not Michael Jackson just someone that resembles him. But this guy did portray Michael during an airband contest.

Airbanding has become a big thing over the past year: it is amazing how vivid the imagination can be with or without props.

- Michele Blum

It doesn't matter how big your group is when you airband because everything is provided for you whether there's enough players or not

- Michele Blum

Some people go all out to try to make the airband com-
petition seem like the real thing. It's amazing how many
people get into this craze

## NOW YOU SEE IT NOW YOU DON'T

On April 12th, Bill Clary, internationally known magician, major motion picture and television star, singer and song writer entertained an audience with his outstanding talents.

Clary has received various awards and credits including "Who's Who Among Outstanding Young Men in America, 1983,' ' "Close-up Magic Award, 1982," and New York "Dramatic Award," just to sight a few. Clary also appeared with Loni Anderson and Burt Reynolds in the movie "Stoker Ace" and appeared on Saturday Night Live.

Bill Clary imitates this girl's every move even though he is blind folded.

Magician, Bill Clary and Geology teacher, Ann Harris; through the force of their minds lift this table from the ground, or do they?

Again blind folded, Bill Clary is given a card with a word on it and he in turn duplicated the word right below the other word.

## GUINNESS OR BUST

## - Larry Fitzsimmons

Kevin Brauer, of Phi Kappa Tau, spent 60 hours under the sun, in heavy rain and through the dark of night, playing a marathon game of Bocce. He and other fraternity members organized the event for two reasons: to raise money for the March of Dimes and to be recognized in the Guinness Book of World Records.

Brauer's team started rolling the grapefruit sixed ceramic balls at 9:57 a.m., Friday, Oct. 21. The would-be four-man team after 12 hours became a one man team. But Kevin Brauer was determined to reach his 60 -hour goal.

During the course of the weekend, Brauer faced over 20 teams and played 131 games.

The marathon bocce player completed his weekend-long effort at 10:35 p.m., Sunday evening. He had, along with fraternity brothers, successfully raised over $\$ 500$ for the March of Dimes.

But Brauer was told by a Guinness spokesman the next day that the marathon would not be recognized in the Record Book.

Kevin Brauer, of Phi Kappa Tau fraternity, strives to gain recognition in the Guinness Book of World's Records while raising money for the March of Dimes.

Kevin Brauer looks on in despare as his opponent rolls the wooden ball down the court; after all how much closer can you get?

## INTERNATIONAL PEACE RACE

The seventh annual International Peace Race took place this year on Saturday, November 5, 1983.

Despite the frigid temperatures and rain, about 1500 determined runners were ready and waiting at the starting line in front of Stambaugh Auditorium.

Many men and women, from all corners of the world, participated in the 10 kilometer and/or the 25 kilometer races.

The runners came from as far as New Zealand and as close as Kent, Ohio. Even though the runners represented many nationalities, they all shared a common bond - their love of running.

The runners of the International Peace Race, intensively await to start.

Anyone can enter the peace race and this participant shows real determination.

## OLYMPIC TORCH RUNNERS

Although the 1984 summer Olympic games were still a few months and a couple thousand miles away, the pride and spirit of the event were both present at YSU and the surrounding area on May 18th, as the torch which will kindle the Olympic flame in Los Angeles passed through the vicinity, taking a route that surrounded the campus.

Three individuals were responsible for carrying the torch during the segment of the relay which included the YSU campus. Michael Lorello received the flame on Spring Street, directly in front of the Dana Recital Hall, from Christine Stanich.

Lorello then took the torch across Spring, down Fifth Avenue and onto Lincoln Avenue, where he presented it to Caroline Davies.

Actually, only the flame was passed. Each of the runners got to keep the carriers of the flame.

- Mark Macovitz

Torch Crew? About the only thing that was torched at this point were these four guys.

Caroline Davies, an assistant head teller at the main office of the Metropolitan Savings bank, was one of the lucky persons to carry the Olympic torch.

- Mark Macovitz

Mike Lorello, freshman of Howland High School track team, was one of the three area residents who participated in the Olympic torch relay.

## ORGANIZATIONS FAIR

The Lebanese Student Organization set up a table displaying articles pertaining to their group during the Organizations Fair.

Throughout the year YSU's campus organizations have what is known as an Organizations Fair. At these events most of the campus organizations put up displays and tell people what makes them special.

The organizations that participate range from the Greeks, to the Bicycle Club to even the Karate Club. The fair gives all the students a chance to see what the campus activities have to offer them. One of the highlights of the Fall fair was the group the Bangorillas, who gave a free concert on the center court

The best thing about the organization fair is that it gives the students a chance to get acquainted with each other and learn a little bit about what is going on at the YSU campus.

Members of Alpha Phi Alpha set up a table at the Fair this fall, to recruit more members for their organization.

- Diane Restano
he Bangorillas provided free entertainment for
tudents, during the Organizations Fair on the
campus core.

## SURF'S UP AT YSU

By: Rachele Brewer
During one of winter's coldest weeks, a heat wave hit YSU. Complete with beach movies, sand, suntan Iotion, Charlie the Tuna and the sounds of the Beach Boys, the Program and Activities Council (PAC) brought California, sunshine and beaches to Youngstown.

Surf's Up consisted of an entire week of summer spirit, which added a little brightness to the gloomy atmosphere of winter. Arby's, the Dairy Queen and
the Terrace Room all participated in the festivities. Each place decorated their area and offered official Surf's Up glasses with the purchase of a medium drink. The workers in Kilcawley Center showed their summer spirit by wearing the T-shirts and painter's caps printed with the Surf's Up logo.

Surf's Up week concluded with the dance on Friday, March 2. The dance was open to all YSU students who were encouraged to wear beach attire.

The first seventy-five people through the doors, who were dressed in summer clothes, were given painter's caps. Johnson \& Johnson Company also donated 80 cases of suntan lotion, which was also distributed among the many "beachgoers". The large crowd of more than 500 people was entertained with beach party music provided by the Fabulous Flashbacks.

Vicki and Charlie the Tuna enjoy each others company while waiting for the tide to come in.

These three girls take time out to relax in the sand and to watch other people dance for a while.

This guy is coming prepared with his beach towel and radio, what more could a person need for a day at the beach?

The people at the Surf's Up dance seem to be having a good time dancing to their favorite tunes of the Beach Boys.

Charlie the Tuna is trying to show Starkist his good taste again by standing around with all these cute girls.

- John Saraya

Donny Cutrer came to the Surf's Up dance dressed as his favorite person, Jeff "Surf's Up" Spakoley

## FITE NITE

Sigma Phi Epsilon Fraternity held their 17th Annual Fite Nite on Saturday, April 14th in Beeghly Center gymnasium. Fite Nite is the only production sponsoring the sport of boxing in the Youngstown community, along with being the largest event sponsored by a non-funded organization. Fite Nite drew over 600 spectators and consisted of ten fights with karate and kick boxing at intermission. All proceeds were donated to the Eastern Ohio Heart Association. The Sigma Chi Epsilon Fraternity had a prosperous Fite Nite, while receiving vast community support and public interest By: Sandy Schiff

## WINTER FORMAL

Winter Formal is an annual event sponsored by Greek Program Board and it is free to all students attending YSU. This year it was held at The Fountain, on Belmont, and ordouves were provided along with a cash bar. The musical entertainment was provided by Rock \& Rye who played music from the 50's and 60's.

In the middle of the evening Vic Maras and Dina Shuey, last years King and Queen, announced the new King and Queen, who were Greg Isidro and Lisa Conti.

After the crowning of King and Queen everyone went back to dancing and enjoying the rest of the evening.

Thark Macovitz Brothers of Sigma Alpha Epsilon fraternity, congratulated their brother Greg for being elected King.

- Mark Macovitz

Greg Isidro of Sigma Alpha Epsilon and Lisa Con of Zeta Tau Alpha captured the King and Quee title for Winter Formal.

Rock and Rye provided 50's and 60's music for all to dance to at Winter Formal.

- Mark Macovitz

Kim Wells distributes money to winners at the over/under table.

Vickie Carrol collects the money off the table from a few unlucky gamblers.

Debbie Zetts and Scott Morgan accomodate some customers at the roulette table

A salisfied customer continues her luck at the over/ under table, in hopes of winning more money.

## CASINO NIGHT

Casino night is sponsored annually by Greek Program Board for all students attending YSU. It is the one night a year that students are able to experience gambling without actually losing their own money. They could purchase play money for a minimal price and then gamble till their hearts content.

The festivities also included a drawing, which yielded three winners. Joanie Frank won a free trip to Florida, Susan Sili won $\$ 50$ toward textbooks for her spring quarter classes and Bob DiCola took home the third prize, which was a free parking sticker for spring quarter.

After the gambling was finished, there was music provided for dancing, by a DJ, for everyone.

## GREEK SING

The biggest event of the year for the members of the Greek System is Greek Sing, held at Stambaugh Auditorium. This annual competition features sororities and fraternities performing a variety of musical selections. The fraternities and sororities can perform as a group in either the formal class or open class or individual members can perform in the open class.

In the formal class, the Phi Kappa Tau Fraternity and the Phi Mu Sorority were the first-place winners. And in the open class, Lisa Conti, of Zeta Tau Alpha,
won first place, the Phi Kappa Tau brothers and their Little Sisters placed second, and Ted Holcomb, of Sigma Phi Epsilon, took third.

In addition to the singing competition, other honors and awards were presented. Phi Kappa Tau won Fraternity of the Year for the sixth year in a row, while Delta Zeta won Sorority of the Year for the fourth consecutive year. Phi Kappa Tau and Delta Zeta also won the fraternity and sorority Chapter Scholarship Awards. The Individual Scholarship Awards were presented to

Sondra Scott, of Delta Zeta, and Steve Schmidt, of Sigma Alpha Epsilon. Dina Suhey, Phi Mu Sorority, was named Sorority Woman of the Year and Russ Brodnan, Phi Kappa Tau, was named Fraternity Man of the Year. Scott Carney, also of Phi Kappa Tau, was the Outstanding Delegate of Interfraternity Council. Alpha Phi Delta was the recipient of the All Events Sports Trophy.

This 32nd annual Greek Sing was sponsored by Greek Program Board.

Photos by Larry Fitzsimmons/Clem Marion
The brothers of Phi Kappa Tau captured first place in the 32 nd Greek sing along with fraternity of the year and five other awards.

The sisters of Delta Zeta, for the fourth year in a row. received the Sorority of the year award along with the scholarship award.

The brothers and little sisters of Phi Kappa Tau won the second place award in the open class competition.

Lisa Conti of Zela Tau Alpha sorority captured first place in the open class competition.

## VALENTINE'S DANCE

- Mark Macovitz

The large turnout at the Valentine's dance enjoys listening and dancing to the music played by the band Misty.

This winter quarter marked the sixth year in a row that the Phi Kappa Tau Fraternity has held its annual Valentine's Dance.

In years past, the Dance has featured such celebrities as ex-football star Ben Davidson. Although this year's Dance did not have a big star, the brothers of Phi Kappa Tau still pulled off one of the most successful events of the quarter.

With Master of Ceremonies Boots Bell controlling the reins, the Dance's annual Dating Game got under way. This year's guest date was Wade Najum, a Phi Tau from Bowling Green State University. The lucky winner of a date with Wade was Vickie Carroll of the Delta Zeta Sorority. Wade and Vickie won a free dinner at the VIP and tickets to a movie.

Again this year a diamond pendant was given to a lucky lady. In addition, other prizes like Bud Light mirrors and Tshirts were awarded.

The Dance was more than just for fun; it also had a serious side. This year's Dance was held to raise money for the March of Dimes. At the end of the night the brothers found themselves with over $\$ 200$ to donate to the March of Dimes.

- Mark Macovitz

Frank Bertuzzi and Boots Bell admire one of the lights donated by Bud Light, which was given away at the dance.

- Mark Macovitz

Four contestants for the dating game prepare to be asked questions, and hopefully be chosen, by the mystery date.

Karon Kocak, Delta Zeta and Betsy Amon, Zeta Tau Alpha compete for the title of Aquacade Queen.
(TOP:) A fraiernity member swims hard in the ping-pong race during Aquacade.
(Above:) The sisters of Della Zefa show their en thusiasm after winning Aquacade.

## AQUACADE

Felicia Williams, Tammy VonWeber, and Karen Kocak of Delta Zeta struggle to win the Tshirt race.

Swimming in November, no matter what the weather outside, has become a tradition for members of the Greek System at YSU.

Aquacade, sponsored annually by the Sigma Chi Fraternity, is a swimming competition between the members of the fraternities and sororities on campus. The competition, which is all for fun, includes such events as the tandem, ping pong, sweatshirt race, breaststroke innertube, and the queen's race. The Aquacade queen for the 7 th annual competition was

Betsy Amon, of Zeta Tau Alpha. Delta Zeta was the winner of the sorority competition, while Nu Sigma Tau took first place in the fraternity competition. All of the proceeds benefitted the Wallance Village, a hospital for disabled children.

To help the competitors unwind after swimming, a dance was held at the 21 st Point Racquetball Club. In addition to dancing the night away (or at least until one p.m.), the participants and their dates could play volleyball, racquetball, or just laze around.

Terri Rushman sits on the side of the pool waiting for her next event to start.

Warm-up was an important step in the Nu Sigma Tau's victory at Aquacade.

## GREEK FOR ME

- Kelly Durst

Tau Kappa Epsilon uses one of the oldest forms of advertising for its Rush Party: a rock in a central place.

Delta Sigma Thefa women display their elephants at the Organizations Fair

Joining a fraternity or sorority involves being chosen by an organization. But most people, before making a final decision about which organization they will feel comfortable with, go through a period known as rush

Rush gives an individual a chance to look at all of the chapters, whether it be a fraternity or sorority, they want to join. After viewing each chapter, then it is time to make the final decision

Most of the people, who have joined the greek system here at YSU, have found that they are, to a large extent, the life of this campus. Many of the activities that take place at YSU are sponsored by or supported by the greek system.

Active in plans for the Winter Kickoff Dance were these Delta Zeta sorority members.

slie Myers, former president of Delta Zeta, laughs a balloon flying overhead

- John Saraya

Under the dead Leaves of a tree in winter, an advertisement invites students to a Rush Party

Zeta Tau Alpha women stand in line on Preference Day during Rush Week.

## WHAT A WAY TO GO

The men and women who join the greek ... system automatically become a part of a strong, thriving organization. They have endless opportunities to attend organized events, where they are welcomed by all members of the greek system. "Activity" is the name of the game. Fraternity and Sorority men and women do it all: school, play, charity, party, intramural sports,
dinners, speakers, dances and Greek Sing. It is a guaranteed fulfilling experience, a never ending line of projects and social options.

Greek men and women are just regular students who have gotten together to form a special bond of friendship. Once a member, there is always someone to whom you can turn to when you have
a problem or even if you just want someone to do something with. The best thing of all, however, is that these friendships are not only for your college years, but also continue after you graduate. And no matter what college you may visit, you will always be welcome at your local chapter house.

## -Kely Dust

Sandy Koca

Many of the Greeks, from fraternities and sororities, enjoy a game of Simon-Sez between classes.

Joan Frank and Becky Whaley, of Phi Mu sorority help support the brothers of Sigma Phi Epsilon dur ing rush.

## RUSH . . . THE SORORITY WAY OF LIFE

The first evening of Formal Rush, I was nervous, very nervous. I really wanted to join a sorority, but the thought of meeting so many different women scared me. Joining would be a great way to meet new people and get involved on campus, but I was still apprehensive.

I arrived at the orientation meeting a little early. In that time I talked with several other women. It turned out that all of us wanted everything to get started so we could try and forget about our nervousness.

The first evening, we went to one party for each of the three sororities: Delta Zeta, Phi Mu and Zeta Tau Alpha. Each of the parties were short, but long enough so that we could meet the members and learn a little about each sorority.

Because there were so many girls participating in Rush, we had to walk to the different sorority houses instead of having one of the sorority members drive us. Walking wouldn't have been so bad, but many of the women, including myself, were dressed for effect and not for comfort. Somehow we managed to survive the agonies of dress shoes.

Although I didn't know if I would be pledging with them, I found all the
women at the parties very cordial, and they really made everyone feel at ease.

To feel so at ease with people I had never seen or talked with before gave me a good feeling, and strengthened my desire to join a sorority. It also made me more anxious to start pledging.

After the first evening of Formal Rush the three sororities invited me to visit them again on Saturday. I had to narrow my choices for sorority down to two. Decisions. I enjoyed myself so much at all of the parties that I could not eliminate any one of the sororities yet. Sol decided to return to each sorority the following day.

Somehow, the parties on Saturday were even better than those on Friday. Each sorority performed a skit that was both delightful to watch and informative. Saturday allowed more time to spend with the members, so llearned a lot more about each sorority and their activities on campus.

Sunday was Preference Day and the "rushees" could only attend two parties. This last day of Formal Rush left me with a tough decision to make.

The Preference parties were more formal than those of the first two days of

Rush. On this day, each sorority member would share her feelings abou what sisterhood and sorority life mean to her.

The two Preference parties I attendec were enhanced not only by the warmth and caring of each sorority member, but also by a beautiful ceremony that brought tears to my eyes. really felt like I belonged.

Choosing the sorority that I wanted to pledge was one of the most difficult decisions I've ever made. One might think that sororities are all alike but there are small differences setting them apart which makes choosing difficult.

Although any one of the sororities would have been an adequate choice, the one I finally did pick seemed best for me. It had a specia quality that made it stand out from the rest.

Participating in Formal Rush was an experience I will never forget - walking. waiting, remembering names, hoping not to confuse names and information and wondering if the sorority of my choice had selected me.

I'm proud to say I belong to a sorority

- Kim Wells

While waiting for return invitations from the three sororities, the "rushees" discuss their exciting evening.

- Kim Wells

Members of the Zeta Tau Alpha show their sorority spirit as they await the arrival of the fall quarter "rushees" on the second day of Formal Rush.

## AND A FRATERNITY WAY OF LIVING

Gary Pitsinger and Tom Quinn explain an award to a rushee as well as what their fraternity is all about while another brother looks on.

I first learned about Fraternities through a friend. They, to me, were just a joke. I felt that all a fraternity was good for was getting drunk, throwing parties and painting the rock. I eventually learned more, the older I got, and I began to think about going through rush in the fall. When fall quarter rolled around I saw ads all over campus publicizing various fraternity rush parties, so 1 decided to make the rounds. What I found was very surprising, I found a
group of divurgent men working cohesively for one goal, the fraternity. I decided this has to be the thing for me but, the trouble was who to join? The Sig Eps, Sig Chi's, SAE's, TKEE's, Nu Sig Tau's, APD's, Theta Chi's or the Phi Taus. lalso wondered what lay ahead of me as a pledge?
I finally made my choice and became a pledge. As a pledge I had a pledge book and in it I had interviews from all the fraternity brothers. The fraternity
never made me do anything and nev er did anything to harm me. I found out that all the stories you hear about being paddled and stripped weren't true because hazing was against the law Eventually my pledge period wore out and by the end of the quarter I founo myself being initiated as a member of c fraternity. Today when llook back at o kid who was always eager to make fur of the fraternities is today one of their most outspoken supporters.

Pat Duricy, of Sigma Chi fraternity, welcomes a rushee into their house during one of their rush parties.

- Mark Macovitz

Tom Quinn, a Sigma Phi Epsilon brother, wel comes this rushee to their rush party.

Mike Blank and Phil, of Tau Kappa Epsilon fraternity show some rushees their scrapbook and explain the activities taking place in the pictures.

## GREEKS AND ORGANIZATIONS

There are approximately 150 student organizations, fraternaties and sororities at YSU. Through these organizations, students are able to adjust to college life a littler easier, because their extra curricular activities help students become more involved in the college end to feel like they are apart of YSU. Without the student organizations, it would be all classes and studying, without some socializing.

The student organizations are responsible for a large portion of on and off campus activities, including dances, conventions, lectures, bakesales, movies, service projects,
trips - and of course club parties and meetings.

The countless number of activities sponsored by the student organizations at YSU provide entertainment, as well as the opportunity to meet other students with the same goals and interests.

Besides providing friendships and fun, student organizations provide scholarship programs, leadership training programs, tutoring for fellow members and workshops. They also help to gain practical job experience and possible job placement.

## Alpha Kappa Alpha

"The women of Alpha Kappa Alpha strive for academic excellence and true sisterhood," said one member.

Alpha Kappa Alpha actively supports the United Negro College Fund. Needy children also benefit from the club's philanthropy.

A Gospel Sing and dances allow entertainment for Alpha Kappa Alpha's members.

An AKA's eyes gleamed with enthusiasm as she discusses the success of the bakesale.

Alpha Kappa Alpha member Valerie Jones was crowned 1983 YSU Homecoming Queen.

- Mike Flynn

Members include: Maggie Ellis, Valerie Jones, Ruth Parker, Cynthia White, Rhonda Kline, Kim Floyd and Rosemary Handy.

?onda Kline and a few of her sorority sisters seem to be
laving a great time at an Alpha Phi Alpha dance.

## Alpha Phi Alpha

Alpha Phi Alpha members sponsor many dances throughout the year, but this does not mean it is merely a "partying" fraternity. "We're always doing something constructive for the community," said a spokesperson.

For services given to the community. the City of Youngstown presented the members witha resolution. The Salvation Army has also recognized them for their participation in the canned food drive.

- Larry Restivo

Micheal Crawford, Juliuos Little and Vernon Brown show everything they've got.

Apha Angels definitely know how to have a good time at Alpha Phia Apha's dances.

The several dances the group does sponsor throughout the year, have a dual purpose. One member said, "With our dances we give students something to do, so they won't be on the streets.'

This year, Alpha Phi Alpha members formed a scholarship fund for high school seniors or students with a 36.0 grade point average who needed funding for tuition. Also, the fraternuty began a housing project in Campbell
for the elderly, the Vetner Woodser Tandy Foundation. In addition, mem bers do yard work for area resident and made a donation of $\$ 700$ to the Western Reserve Chapter of the Marct of Dimes.

Alpha Phi Alpha serves its members b sponsoring conventions where corpo rations or firms set up job interviews.

- Kelly Durst

Row One: Terry Coggins, Clarence McEIroth Treasurer, Julius Little, Row Two: Willie Kennedy, Michael Powers, Troy Williams, Vernon Brown Secretary.

## Alpha Phi Delta

Alpha Phi Delta proffers a true sense of brotherhood and a home-away-fromhome feeling, says one member.

Members sought the intramural allsports championship this year. In 198283, the brothers gained second place in that event.

Scholarship is also important to Alpha Phi Delta members; they obtained the highest fraternity GPA in fall quarter 1983.

To benefit the Easter Seal Society, Alpha Phi Delta conducted its third annual Bounce-Around-the-Clock in May.

- Bob Smith

Row Two: Mark Zummerling, Ron Graham, Bart Raub, Jeff Weiland, Roger Cooper Secretary, Rob Heckathorn, Sam Bluedorn, Herb Brooks, Tim Worrell. Row Three: Jim Booby, Todd Nicolas Vice President, Doug Bietko, A.J. Lentine, Steve Simun President, Row Four: D.R. Trisket, Joe Cerminara, Mike Sunderman, Vince Pasquale.

## Delta Sigma Theta

Emphasizing service and academic excellence, the members of Delta Sigma Theta have a number of accomplishments to their credit

Members participated in or sponsored the following events: An art competition for grade school students. An annual scholarship recipient program, a Thanksgiving basket giveaway, litter control collection, a Hug-a-Thon and voter registration drives.

In addition, members donated to the United Negro College Fund, volunteered for Cooperative Campus Ministry, and aided the NAACP

By benefitting the community in such a manner, students feel they are raising their cultural and moral standards in addition to encouraging scholastic achievement.

- Mark Macovitz

- Mike Flynn

Row One: Renee Carnathan Advisor, Angela Robinson President, Lisa Lundy Dean of Pledges, Sophie Thomas Secretary. Row Two: Dr. Gloria Tribble Advisor, Danette Lukas Treasurer, Valencia Harris Corresponding Secretary, April Brown Vice President.

## Delta Zeta

Delta Zeta sorority members have a long list of awards and accomplishments to their credit.

Proceeds from their bike-a-thons and dance-a-thons aided several charities, such as the Lung Association and the Arthritis Foundation and the Hearing and Speech Center. For their philanthropic efforts, they won national and state awards.

In 1983, Delta Zeta won the Sorority of the Year award, for the third consecutive time.

Individuals from the sorority have also won recognition. Three women made the Homecoming court and Leslie Myers won the Sorority Woman of the Year award.

Social events brought more awards to the Delta Zetas. They won first place in the Aquacade and Greek Week. They came in third in intramural games.
'Delta Zeta offers young college women the opportunity to learn the moral, scholastic and financial obligations of life," said one member. The sorority participates in other Greek activities, and has aided the mentally retarded, donated to food drives and other campus and community concerns

Judi Dorsek, Karen Kocak and Kim Wells give support to the Brothers of Phi Kappa Tau, during their Bocci Marathon

Monica Musitano and Deanna Welling compete in a three legged race.

Sisters of Delta Zeta in the locker room, anxiously waiting for the Aquacade to begin.

## Nu Sigma Tau

"There is a destiny which makes us brothers, none goes his way alone," says the motto of Nu Sigma Tau.
"The fraternity gives it members a chance at scholastic and social improvement", a spokesman said, noting some of the events Nu Sigma Tau participated in this year.

Besides intramurals, Greek Sing and Aquacade, the fraternity helps sponsor activities for the Arthritis Foundation, such as the annual Tribute to Rock and Roll. Members also held a food drive for needy families in the area.

Nu Sigma Tau is proud of having its own house, a strong brotherhood and winning Aquacade for two consecutive years.

Nu Sigma Tau Brothers built a campfire during one of their rush parties.

Brothers of, Nu Sigma Tau take time to relax, after a long day of classes.

## Phi Kappa Tau

The Gamma Pi chapter of Phi Kappa Tau was founded locally on January 29, 1967, and nationally, March 17, 1906 at Miami University in Oxford, Ohio. Throughout its history, the Phi Kappa Tau fraternity has stressed innate worth, democratic nature and Christian ideals as qualifications for membership.

At Youngstown State University, the Phi Taus maintain a reputation for scholarship, leadership, community service and brotherly unity. Brothers of Phi Kappa Tau hold many positions of leadership on campus, including 1983-84 IFC

President Russ Brodnam; IFC Treasurer Rod Laird; Greek Program Board Chairman Victor Maras; Neon Editor-in-Chief Larry Fitzsimmons; and Neon Sports Editor Scott Carney.

The fraternity has been active in many areas of campus life and community service as well. The brothers held their first annual Bocce Marathon to benefit the March of Dimes. Kevin Brower played for over sixty non-stop hours. The Phi Tau team competed in College Bowl, and became the champs of YSU, defeating their opponents through style and
wit! The Annual Valentine's Day Dance was again successful in raising money for the March of Dimes, providing a great time for all in attendance.

To wrap up the year, the Phi Taus took almost all the top awards at the annual Greek Sing Competition. The brothers won First Place in the Formal class, singing "This Nearly Was Mine". For the 12th year in the last 13, the Phi Taus took the First place award in scholarship, and for the 6th straight year the fraternity was named "Fraternity of the Year." Russ Brodnan was named "Frater-

nity Man of the Year" ${ }^{\prime \prime}$, the Little Sisters and Brothers took second in the Open Class Greek Sing, and Scott Carney received the Delegate of the Year Award from IFC. Not a bad way to end a year.

Next year the fraternity will be looking for an equally successful year. Our brothers will again be in the top offices of IFC, with Dean Talaganis as President and Scott Carney as Rush Chairman.

- Bob Smith

## Phi Mu

YSU's chapter of Phi Mu sorority has been ranked in the top 20 percent of all Phi Mu chapters, perhaps because it offers an abundance of social service projects.

Phi Mu participates in an annual Sadie Hawkins dance which benefits Project Hope. Sorority members collect for the Heart Association and the Lung Association, sponsored clothing drives for the Salvation Army and Goodwill, donated toys to needy children in the area, sent letters to wounded soldiers in Grenada and gave magazines to local nursing homes

In the past year, Phi Mu's membership has doubled, and President Dina Suhey attributes this in part to the atmosphere her sorority offers. "We are one, yet we are individuals," she stressed.

The national sorority was founded March 4, 1852 in Macon, Ga., at Wesleyan College. Its Youngstown chapter began in 1952. Today, members work to strengthen the greek system as well as their own chapter, Suhey noted

Besides a 100 percent increase in membership, Phi Mu is proud to have as a member the 1983 Sweetheart, Angie Miller.

Phi Mu's are just a group of girls who want to have fun!

Rush parties are a way to learn about sororities and their goals.

Sorger, Alison L. Crawford, Molly A. Reardon

A couple of Phi Mu Sisters stop to pose with Brothers of Sigma Phi Epsilon during their mixer.

- Bob Smith

## Sigma Alpha Epsilon

Members of Sigma Alpha Epsilon fraternity "try to find a good balance between partying and service," said a spokesman.

Parties, hayrides, bowling, swimming, attendance at campus sporting events, dances and contests are some of the social activities on the SAE social calendar.

In the spring, the major service project is the SAE-Muscular Dystrophy Fun Run. This benefit for MD victims attracts runners from all over who compete in a 10 kilometer race through Boardman Park. SAE helps other organizations too: Red Cross, Cancer Society, Easter Seals, Multiple Sclerosis, Shriners, Heart Fund, Goodwill Industries and the Leukemia Foundation.

SAE boasts a national membership of 190,000 men. Its founders adhered to three principles, and so do today's men: friendship, leadership and scholarship. SAE members have garnered awards and honors in all of these areas.

Recent accomplishments include: the All-Sports trophy in 1983's Greek Sing, second place in the Homecoming float competition, and several Homecoming and Winter Formal kings in recent years.

- Kelly Durst

Brothers of Sigma Alpha Epsilon sometimes play pool during their spare time.

Brothers pose for a self portrait during the winter Organizations Fair.

[^3]
## Sigma Chi

Because of its brotherly atmosphere, Sigma Chi has gained several members to become one of the largest national fraternities. Members stress their individuality and Sigma Chi prepares them for life after college.

Sigma Chi activities help students to form lasting friendships while serving the community. The fraternity sponsors Aquacade, Derby Days and Dribble for Dollars. Proceeds from the latter benefit the American Heart Association.

Brothers of Sigma Chi pose after a successful game.

Rich Kohler studying hard in Maag Library
Rough and tumble action against the Sisters of Delta Zeta.

[^4]
## Sigma Phi Epsilon

Sigma Phi Epsilon is a national fraternity. Their major event is Sig Ep Fite Nite and they participate in all greek events on campus.

Through Fite Nite they give approximately $1-2,000$ dollars to the American Heart Fund. They helped bag pine trees for the University's 75th Anniversary, sponsored a food drive and donated money to a camp fund for needy children.

Sigma Phi Epsilon offers the YSU student the opportunity to become an active participant in all the campus activities and functions at YSU.

This year Sigma Phi Epsilon participated in Greek Sing, survived a fire, and won a manpower excellence award from National Fraternity.

Brothers and Rushees of Sigma Phi Epsilon play a challenging game of fooseball with enthusiasm.

## Theta Chi

- Kelly Durst

For the past 28 years, Theta Chi Fraternity has been located at 742 Bryson Street (Behind Ursuline High School), which is $1 \frac{1}{2}$ blocks away from the University. Our house is the largest fraternity house on campus, with enormous lodging and entertainment rooms.

We seriously stress the need for involvement and true friendship; and for you, we will promote knowledge and build character. We limit our time to necessary campus functions.

We boast an Alumni Association, which gives us guidance throughout the year. We organize alumni activities such as picnics and sport outings for enjoyment and making friends.

The women in our little sister organization participate in various social activities each year such as our annual casino night, alumni activities, co-ed sports, some campus functions and our upcoming Roof-A-Thon for the United Way.

## Zeta Phi Beta

Zeta Phi Beta Sorority was founded at Howard University on January 16, 1920. Our objectives of finer womanhood, sisterly love and scholarship have brought together women from all parts of the country - women who have similar aspirations, similar potentialities for highest attainment, similar desires for concerted action which will bring results in removing or blocking movements intended to retard growth and progress of this group of women, especially in the field of academic and literary attainment. Our membership includes over 45,000 women in the professions of medicine, law, dentistry, psychiatry, psychology, social work and other fields of higher level learning

Zeta Phi Beta was the first Greek-letter college sorority organized in Africa. We were the first official Greek-letter organization to have Fraternal Brothers. Our brothers are Phi Beta Sigma.

Our local chapter was organized at Youngstown State, May 3, 1975. We also have a Graduate Chapter. Together we comprise a group of women working toward social and civic betterment. We have established a Scholarship Fund and an Educational Counselling Committee to assist our sisters in achieving their educational goals at YSU. We also have a WIZ Club that enables women who are interested in pledging to become acquainted with the members of our sorority.

Beta a new hairstyle during their cut-a-thon.
A few sisters of Zeta Phi Beta dressed up for a Halloween Party.

## Zeta Tau Alpha

Boasting numerous awards and service projects, the members of Zeta Tau Alpha also provide close friendships, sisterhood and the chance to enrich scholastic achievement for its members.

The sorority has raised money for the Muscular Dystrophy Association, the Lung Association and Tod hospital. They have also visited the children's ward at St. Elizabeth's on Halloween, and the residents of Rolling Acres nursing home. When American soldiers were wounded in Grenada and Beirut, the members wrote them letters.

Some of Zeta Tau Alpha's social activities include a dance in January and a game-a-thon. Their participation in YSU's Greek Sing and various contests have garnered them such awards as first place in the Homecoming's car competition.

## Interfraternity Council

Offering Greek members leadership development, social experiences, living accomodations, athletic participation, academic encouragement and a chance to serve the community, Interfraternity Council serves as a link among the fraternities.

Interfraternity Council aided the community in several ways this year. The members sponsored a canned food drive for the Rescue Mission of Youngstown and donated money and time to: the International Peace Race, YSU's Diamond Jubilee, the Heart Fund, the March of Dimes and Mothers Against Drunk Driving.

Some of the social events included: an All-University chicken and beer blast, Greek Sing, a tailgate party with WFMJ and an All-Greek, Christmas party.

An official said he believes the entire Greek system at YSU is entering a new period of growth and he encourages others to become involved and help mould the policies of the fraternities.

Sigma Chi painied the rock on the Campus Core to let everyone know they were having a party. Painting the rock is more or less a tradition at YSU.

- Gene DeChristofaro

Members Include: Don Cutrer Secretary, Steve Gasparek Vice President, Russ Brodnan President, Rod Laird Treasurer, Al Szabo Rush Chairman, Scott Carney, Bob Turner, Pete Trucksis, Joe Verostko, Chris Adams, Dean Talaganis, Jeff Brown, Dean Bullard, Father Ray Thomas, Vic Maras.

## - Kelly Durst

Row One: Victor Maras, Donna Crea, Bill Dilulo, Row Two: Kim Wells, Betsy Amon, Tammy Weber, Pucci Castor, Carol Bak, Jill Rindy, Nick Maiorana, Row Three: Wally Miller, Bob Venarsky, John Necko.

Representing the entire Greek system on campus, the Greek Program Board joins together fraternities and sororities to put on special events for the entire student body.

Events the board sponsored include: quarterly kick-off dances, Winter (formal) Weekend, Spring Fling and Greek Sing.

Serving as a governing body for the social sororities on campus, the Panhellenic Council sponsors such activities as Greek Week, formal rush and dances.

The three national sororities making up the council are: Delta Zeta, Phi Mu, and Zeta Tau Alpha.

All proceeds from Greek Week went to Mothers Against Drunk Driving (MADD).

For its participation in the Blood Drive, the Panhellenic Council won a first place prize of $\$ 200$.

## Alpha Beta Chi

To stress the importance of communication in business and industry, students from a variety of majors formed Alpha Beta Chi.

Students from speech, management, public relations/advertising, telecommunications and marketing help each other to develop communication portfolios and business contacts.

A quarterly newsletter allows students to develop a portfolio. Members of Alpha Beta Chimay also submit articles to Communication ABC's a Western Michigan University magazine.

Students have the opportunity to attend national or regional conventions. In November, the club visited New York City for the International Convention of the American Business Communication Association.

President Barbara Maiorana received the Donald Elser Award for starting Alpha Beta Chi at YSU.

## Alpha Delta Sigma

Students majoring in advertising gain professional experience, contact and knowledge about advertising through their experiences with Alpha Delta Sigma, the advertising club.

Alpha Delta Sigma is affiliated with the American Advertising Federation and this allows students to participate in national competition, an honorary society and a job clearinghouse.

Students began forming an ad agency to service campus organizations. They cosponsored a Hug-a-Thon for Battered Persons' Crisis Center on Valentine's Day.

A field trip to Cleveland media offices helped further their understanding of advertising opportunities.

Combined, these activities strengthen leadership skills.

## Alpha Epsilon Rho

Members of Alpha Epsilon Rho have gone on to professional careers in television, radio, cable and related careers in law.

Many of the students gained practical experience before graduating by taking advantage of opportunities the organization offers. The Underground Sound, YSU's cable radio station, provides entertainment and information for the community, and strong broadcasting experience to members of Alpha Epsilon Rho.

Qualified students can also gain an internship at WKBN-TV, as editorialists for its program, "Talkback." Interns write, produce and host the segments.

Volunteer work in the community keeps the members busy as well. They have donated their time and skills to the Muscular Dystrophy Association for two of its fundraising events this year.

Since the main focus of the group is to promote education and excellence in broadcasting, the students attend conventions to keep themselves wellinformed.

## Alpha Kappa Psi

Alpha Kappa Psi is the only national business fraternity on campus. It accepts all business students and does not focus on one particular field.

Members kept active this year with a food drive for the Battered Persons Crisis Center, a credit card drive for Sears, a road rally in the spring and a flower sale on Valentine's Day. Students also sponsor guest speakers and field trips.

- Kelly Durst

Row One: Stacey Adger Vice President, Barry Logan President, Dr. Alfred Owens Advisor, Yvonne Vignon Secretary, Doug Beach Treasurer, Row Two: Chris Dota, Patti Gault, Art Byrd, Natalie Gamble, Dave Pignanelli, Brenda Irwin, Mark Morelli, Connie Jones, Ed Lazor, Row Three: Michelle Blazek, Kathy DelFraino, Leslie Myers, Craig Duff, Dave Morton, Jim Stipetich, Row Four: Larry Jensen, Rich Kepley, Kelly Mills, Ed Winkleman, Daniel Allshouse and Art Follett.

- Kelly Durst

Row One: Bill Ohlin President, Robert Soroka Vice President, Dave Zippie Treasurer, Lori White Secretary. Row Two: Kim Brown, Barb Turner, Kim Wells, Don Preister, Row Three: Mark Quinn, Tim Shaffer, Jane Simmons Advisor, Jim Stein, Randy Rubesa, Larry Hitchcock, Bill McRoberts.

- Gene DeChistoford

Row One; Bruce Roberts Vice President, Brian Brennan President, Marla Dietz Treasurer, Scott Solomon Public Relations. Row Two; Doug Jenkins, Chuck Gulas, Pam Brenneman, Ann White, Chip Cossette, Michele Magni, Mike Klepin.

Between classes, hungry students can fill themselves up with inexpensive treats at bake sales.

## Alpha Mu

Alpha Mu helps students become better acquainted with careers in marketing through contacts at meetings, conferences and other programs.

Career Night enables students to informally meet and share information with local professionals over dinner.

YSU students have the unique opportunity to obtain credit from major department stores when Alpha Mu holds it credit card driveŝ. Members of the organization will also answer any questions individuals have about Alpha Mu when they throw their annual Spring Party, a free event open to all, where members also celebrate a year's hard work.

Bi-monthly meetings allow students to gain an in-depth understanding of marketing and related fields because professionals speak and students can interact with fellow marketing classmates.

By paying a small fee and volunteering a few hours of time throughout the year, students can become members. Alpha Mu can greatly expand one's educational background in marketing.

A spring banquet brings together students and faculty for socializing and presentation of awards to outstanding students and teachers.

## Alpha Tau Gamma

Alpha Tau Gamma is an honorary accounting fraternity with approximately 80 members. Because of the outstanding enthusiasm and participation we had this year, the fraternity was able to accomplish many successful projects, including: The Accountant for a Day Program, a trip to Cleveland's Big-8 Accounting Firms, and our Annual Accounting Clinic.

Our programs are designed to help the accounting student discover the many opportunities available in the accounting field, visit companies that share his/her career interests, and also to benefit from the chance to make contacts with area accountants and recruiters.

Many of our alumni have entered into positions with the Big-8 in Cleveland and Columbus or in major corporations. Many of these former fraternity members met their future employers at one of our functions. The influence of Alpha Tau Gamma is quite expansive.

This year our members had the exciting experience of developing that "sense of camaraderie" that is so necessary in a fraternity. Because of our newly-formed Alumni Association, friendships in Alpha Tau Gamma are lasting.

Students clown for the camera in the newly remodeled Brass Rail Café.

- Kelly Durst

Row One: Laurie Goss, Mary Koss, Nita Geordan, Susan Patton, Bill Majzik, Lorraine Kotheini, Joe Elenz, Row Two: Patty Lyden Recording Secretary, Mike Mintus Vice President, Joyce Ruzich President, Chris Wharry Corresponding Secretary, Len Pogaenik Treasurer, Row Three: Tim Loch, Inez Gross Advisor, Sue Rarick, Pamela Laney, Judy Frohman, Jim Martin, Linda Murray, David A. O'Hare, Row Four: Debbie Liggett, Tom Bertyn, Susan Bezzard, Greg Blasiman, Dave Pecchia, Robert Ferro Jr., Jeff Sabarine, Marsha Tsangaris, Dan Strong, Jerry DeAngelis, Monte Dzurenko, Bob Potozney.

## - Dino Bovo

Members Include: Walter Jennings Social Chairman, Mary Beth Fabian President, Jeff Scott Vice President, Jerry LaRosa Social Chairman, Bruce Potter, Barb Green, Mohammad Azmodeh, Maureen iweeney, Lori Bohazi, Lynette Guerra, Jude Tinkler, Brad Nemergut, Judy Scullin, Irene Corfias, Mehdi Houshiar, James DeSellem, Patrick Scott, Leif Ericksen, Jerry Fabrizio, Tom Abbas, Paul Glova, Nick phillips, Dave Grich, Theodore Socha, Mike Makris, Dr. Leslie Szirmay, Dr. Soonsik Lim, Greg Tisone, Eileen Keller, Eric Stoeber, Bob Arquilla, Brad Fedorchak, Bob Newberry, Tridy Zedaker, Lonnie Curtin, Steve McGreal, John Gayetsky, Mohammed Kerimagi, Scott Brewer, Faye Costarell, Dr. Stanley Zager, Rich Kohler, Tammy McLaughlin, Tom Saloom, Jim Salata, John Sarisky, George Tataseo, Doug Hura, Joe Rossi, Michael Csernok, James Braun, Joe Manijak, Steve Hawkins.

- Kelly Durst
ow One: Dr. Leslie Szirmay Advisor, Julie Blackburn, Bob Romansik, Robert Arquilla Treasurer, Christina Abbas President, Nick Phillips, Lynette Guerra. Row Two: Shafiuddin Syed, David Schick, Steve Baltafarno, Mohamed Kermagi, Mike Csernik, Joe Manijak. Row Three: Bruce Potter, Mike Ivany, Bob Hoanes, Ken Leonelli, Doug Hura, Dave Swan, Afsmin Bagmaie, John Sarisky.

## American Institute Of Chemical Engineers

Relaxation from a rigorous curriculum and interaction among classmates may have helped boost the American Institute of Chemical Engineers' membership.

Get-togethers with students and professors, or "smokers," are part of the organization's social progression. So is its participation in Engineering Dean's Council parties, dances and picnics.
A.I.Ch.E. provides service through its assistance in freshman orientation. The organization grew to 87 members this year, with more sophomores and freshmen than usual.

Besides offering interaction with fellow chemical engineering students, the club allows additional education by sponsoring tours and lectures. Members toured the Perry Nuclear Plant in Perry, Ohio and attended a regional convention in Michigan.

## American Nuclear Society

Plant tours, speakers, social gatherings and information about the nuclear age are all part of the activities the American Nuclear Society offers.

YSU has one of the few student chapters of the American Nuclear Society, a highly respected international organization.

Last fall, students toured Perry's Nuclear Power Plant. Other tours, bake sales and speakers were planned.

Students participate in the Engineering Dean's Council's Christmas party, picnic and dance in the spring. This year, students also helped bury a time capsule with other engineering organizations.

To interest other students, the organization sponsors a membership drive. With the Engineering Dean's Council, the society participates in a social gathering for freshmen in the fall.

## American Society For Metals

Participating in projects as well as academic activities, American Society for Metals remains a small group, but members concede it is a close-knit one.

Like many groups, members have participated in the Student Organization Fair, Kilcawley door watches, and Dean's Council activities. But they have also taken a Metal Carbides plant tour, gone to a metals conference in western Pennsylvania and attended an Alcan metals seminar.

## American Society Of Civil Engineers

The American Society of Civil Engineers participates in a concrete canoe race, in addition to other social and educational activities.

Students in this organization meet with professionals from the civil engineering field and after graduation they may still participate in a similar society.

While much of its purpose is educational, the ASCE also sponsors a chapter picnic with the participants' parents. In addition to competing in the concrete canoe race, members convened in Kentucky this year.

- Kelly Durst

Dr. McCoy Advisor, Marek Patejak, Bruce Woik, Terry Hughes, Mark Harris, Bonnie Hruska President, Jerry Bailey, Martin Shone, Jeanine Layfield, Bill Clark Treasurer, Pierre Tanquay Secretary, Kyraikos Lambis.

- Mike Flynn

Row One: Terry Finn, Bob Mossman, Bill Reedy, Keith Knutter. Row Two: Ron Sines, Jim Brown, Brad Downie, Randy Wiesner, Michelle Kopnicky, Jody Totin, Gary Tareri, Dave Ray, Jack Bakos Advisor, Bill Malcosky, Guy Cerimele.

Whether drinking from paper cups or staring into space, students always find something pleasurable to do on YSU's manicured hills

## - Dino Bovo

Row One: Kathy Brill, Dave Nold, Craig West, Walter Raub, Mark Smith. Row Two: Dave Baranski, Pau Russo, Brian Bennett. Row Three: Dan Suchora, Wendell Tackett, Ken Onderko, Jim Slovan, Larry Jicken, Bill Sekela

## American Society Of Mechanical Engineers

The American Society of Mechanical Engineers informs students about their field in an informal manner. The students also sponsor several social events which are not related to their field.

ASME members frequently take off-campus tours to benefit their understanding of engineering. In addition to visiting industries, guest speakers lecture on the field.

Social activities included bowling night and a logo t-shirt contest.

Anthropology Colloquium

To keep up with what goes on in the field and to add to information gained in classes, the Anthropology Colloquium holds presentations and discussion about various topics in physical anthropology, archaeology, cultural and social anthropology.

Typically, a speaker, who may be a faculty member, a student or some other guest, will present a topic related to anthropology at a meeting. Then the topic will be discussed informally.

The group sponsors bake sales to raise money for trips and its speaker fund. In January, members went to Williamsburg for a conference on historical archaeology. Students may also visit a local museum or the Smithsonian Institution.

## Association For Computing Machinery

By joining the Association for Computing Machinery, students can keep up with advances in the computer fields and offer services to others.

ACM is a student chapter of a national, professional organization. Through the national organization, students can request speakers on specialized topics. Subscriptions to ACM communications also keep the YSU students up-to-date. In addition, students may attend national ACM conferences.

Underclassmen studying computer science may benefit from the tutoring services ACM members offer.

Area high school students competed in a programming contest sponsored by ACM. And YSU students had the opportunity to challenge their own knowledge when ACM sent a programming team to a regional contest.

Row One: Elizabeth Glasgow, Connie Geary, Jack Kraft, Mark Shutes Advisor, Nick Kardulias, Chuck Mastran. Row Two: Patty Martin, Margaret Mellinger President, Shawn Gallagher Secretary-Treasurer.

- Kelly Durst

Members Include: Kirk Markopoulos, Mark Goddard, Jim Gallagher, Dr. Klein, Bill Rodgers, Raymond Dell, Don Pearson, John Carson, Dave Caddes, Ron Franczkowski, Pam Sanner, Diana Toto, Dan Vermeire, Ruth DeVincent, Kathy Jickess, Lisa Kowalsky, Debbie Scarvel, John Carson, Mark Toskin, Lori DeMatteo, Dale Barr, Bob Vargo, Susan Stanek, Deanna Welling, Rich Johnson, Norm DeGennaro, Keith Unger, Rose Mastrianno, Michael Yacher.

Row One: Kathy Kulnis, Joy Macaulay, Rose Mastrianno, Evan Hood Secretary, Jeff Byers Vice President, Debbie Scarvel, Angela Ciccotelli, Mike Hatfield. Row Two: Alan Koporc, Keith Unger, Tim Tanneyhill, Bill Collen President.

## Association For Systems Management

The Association for Systems Management offers students the opportunity to meet with local business personnel in their field and also sponsors many social activities.

The association welcomes area computer business representatives to speak to members about current job opportunities. Members take tours of local computer businesses as part of their preparation for careers in this field.

Social activities also make an important portion of the association's endeavors. The members sponsored tailgate parties for the Homecoming and other football games. They participate in intramural athletics and hold a year-end brunch for all members.

The association also serves the community by donating blood in the Red Cross drives.

New students discovered the variety of clubs serving a multitude of interests at the Fall Organizations Fair.

## Beta Psi

Beta Psi, an organization for students interested in business and professional careers, has been on campus for three years.

Affiliated with the National Association of Negro Business and Professional Women's Clubs, Inc., Beta Psi gives interested students opportunity to learn more about their careers through various programs.

Beta Psi members are involved in the community as well as the University. Program objectives include education, housing, health, the elderly, and career development. Through such activities, members of this organization increase their leadership skills, experience cultural enrichment and meet others with the same goals.

We invite any student who is seeking a well-rounded University experience to join us.

The Pub in Kilcawley offers a great place to study, talk with friends and drink beer.

- Kelly Durst

Row One: Wanda M. Scroggins, LisaM. Thompson, Valerie Jones, Samantha Gay, LaVerne Chambers.

— Kelly Durst
Row One: Jill Weber, Shari Thake, Tom Hren Treasurer. Row Two: Janet Smith, Karen Miller Secretary. Row Three: Bob Smith, Dr. C. Allen Pierce Advisor, Dean Pierce, Collin Roberts, John Quaranta, Tim Loch President.

— Kelly Durst
Row One: Donna Slagle Recording Secretary, Beth Howard Corresponding Secretary, Patty Mitchell President, Sonny Hostetler 1st Vice President, Patricia Bleidt Advisor, Dan Hackett Treasurer. Row Two: Cathy Anthony, Sondra Scott, Regina Schajatovic, Arlene Billock, Janet Smith, Michele Truhlik, Mary Mathews, Pam Kubina, Karen Wasson. Row Three: Beth Cooper, David Perkins, Tom Ashby, Scott Beckman, Joe Vogel, Valerie Vasil, Howard Pincham, Kelly Stocz, Bob Joshua, Dawna Baughman, Paul Guzman, Robin Nielson, Eugene Krystek, Mark Lalama, George Martuccio, Scott Vannoy, Larry Chen, Don Pearson, Julie Mercer, Gina White, LeAnn Hickle, Mark Macovitz, Dwane Williams.

## Bicycle Club

The only group on campus geared to the cyclist is the Bicycle Club. The organization sponsors weekend rides, and in the spring and summer, holds several 100-kilometer rides.

The group provides YSU cyclists the opportunity to meet and ride with other cyclists, and to exchange maintenance and riding information.

## Centurians

The Centurians is an honorary organization formed by the Students Serving Students program. Its purpose is to recognize and encourage leadership, promote unity and service in the YSU community and to stimulate interest and support in the SSS program.

Only 100 members may join the Centurians. Members must maintain a 3.0 accumulative average, must be pursuing a four-year degree and must have completed no less than one and no more than four quarters.

To serve the community, the Centurians usher at special lectures, give tours to high school students and participate in the parent convocation and parent information programs.

The Centurians have sponsored a pumpkin sale, bake sales and a Valentines Day flower sale.

## Circle K Club

Its many service projects keeps the Circle $K$ Club visible in the YSU community.

Students may be familiar with the organization because of its quarterly book exchanges, which allows them to buy or sell used textbooks. Cuts from sales benefit charities.

Others may remember Circle K's "Halloweening for Unicef" project. For three days, the students collected donations around campus while dressed as Sesame Street characters, a pink elephant and a pink rabbit.

Despite a dwindling membership, Circle K remains active. The students participate in recycling efforts, raise funds for the March of Dimes "ring the bell" for the Salvation Army, usher at Powers Auditorium, show movies at nursing homes and give parties for the sick or disabled in various institutions. Members also help out with the Kiwanis Radio Auction, the International Peace Race and other community functions.

For its leadership and service. Circle $K$ has received several awards, "too numerous to write down," one member said.

## Cricket Club

With a keen interest in cricket, Pradeep K. Patnaik and others formed a Cricket Club, which is open to all YSU students who want to learn the style and technique of the game.

Similar to baseball, the game is played during the warmer months of early fall, or in the spring and summer. This year, Cricket Club members competed against a University of Akron team, and arranged matches with other college teams.

- Kelly Durst

Row One: Vanita Khanna, Gauramg Derai Secretary, Anamika Mishr Treasurer, Pradeep Patnaik President. Row Two: Javed Khawaja Vice President, Ramana Rao, Jagdeep Talwar, Jagjit Dhillon.

## - Gene DeChistoforo

## First Year Dental Hygiene Students

Row One: Andrea Itts, Natalie Riffee, Rebecca McHugh, Charles Heck, Bridget Ferrise, Peggy Fee, Mochelle Blackledge. Row Two: Laura Rinaldi, Alese Rotella, Therese Guidos, JoAnn DiSalle, Bernadette Gledhill, Cheryll Benson, Carol Windwood, Leslie Wyatt, Michele Smith, Stephanie Rose, Jean Luth, Cindy Barkley.

- Gene DeChristoforo

## Second Year Dental Hygiene Students

Row One: Jamie Farmartino, Diane Davison, Thomasine Mistovich, Diane Crisp, Carol Zippie, Nancy Orben. Row Two: Teresa Romito, Sherry Janis, Nancy Gelonese, Kathleen Schaeffer, Suzanne Meeder, Stephanie Ramer, Michelle Whited, Jill Fryman, Barbara Skillman, Terri Fisher, Susan Glagola, Kimberly Mokros, Colleen Wilson.

## Dental Hygienist's Association

Because of its dedication to education and service, the Dental Hygienist's Association allows a greater number of citizens to receive necessary assistance with dental health.

The student hygienists aid many groups in the Youngstown area. They visit hospitals, schools, nursing homes and other institutions to provide dental education, instruction and services to those needing it.

The students provide professional cleaning, examination, fluoride treatment and X-rays for patients. Faculty, staff and students often make use of these services.

During National Children's Dental Health Month in February, the association hosts various public awareness programs.

Outstanding student hygienists on the association are eligible for recognition through the academic and clinical awards the group sponsors.

## Engineering Dean's Council

The Engineering Dean's Council coordinates activities among the various engineering organizations and reports them to Dean George Sutton. In effect, the council ties together the entire School of Engineering and keeps the dean abreast of all that goes on in the school.

Alone, many of the individual organizations would find it difficult to accomplish some activities. The Dean's Council gives them centralized leadership and lets them work in unison. In addition, it provides many services and sponsors events benefiting engineering students and others.

To introduce freshman and sophomore engineering students to the many departments and organizations, the council sponsored an Engineering Open House. The council also organized a Christmas party, a dance and a picnic. In December, they put together a time capsule.

At the Organizations Fair last fall Students saw many rows of trophies and heard of many good times.

- Dino Bovo

Row One: Bonnie Hruska, Pierre Tanguay, Kevin Ballish, Tom DeFino, Barb Green President, Mary Beth Fabian, Dave Sefcik, Nick Phillips, Tom Rossman. Row Two: Rich Kohler, Dale Cousin, Randy Notzen, Walter Jennings Vice President, Dean Sutton Advisor, John Sarisky Treasurer, Ron Gabrick.

## - Mike Flynn

Row One: Phyllis Wright President, Lyn Ickes Vice President, Keith Batcher Secretary-Treasurer. Row Two: Mary Jean Celec, Dale Keeler, Karen Simone, Robert Joshua, Joseph Kramer and Dr. P. Humbertson Advisor.

- Mike Flynn

Row One: Dr. Mary Loud Foreign Languages Vice-Chairman. Row Two: Dr. Rick Shale English Chairman, Dr. Lowell Satre History Secretary-Treasurer.

## Geography Club

The Geography Club, a new organization, was formed so that geography majors could become more involved in activities and to make YSU students aware of this field.

In addition to broadening their scope of geographic knowledge, members attempt to increase their awareness of the world and various places.

Scheduled activities included a ski trip, a Christmas party, a map sale and attendance at a geographic seminar in Washington D.C. during spring quarter.

## Gould Society

Students who have achieved academic excellence in the liberal arts are eligible for membership to the Clarence P. Gould Society, which gives encouragement and recognition to students enrolled in the College of Arts and Sciences.

The Gould Society Faculty Committee meets each spring to elect students. New members are honored at a banquet and induction ceremony prior to the annual Honors Day Colloquium.

On April 29, 1983, the Gould Society celebrated its silver anniversary by holding a banquet for all members inducted in the past 25 years.

The organization bears the name of the late Clarence P. Gould, professor and chairman of the history department from 1938 to 1958, emeritus chairman of history, and holder of the Phi Beta Kappa key. Charter YSU faculty members belonged to Phi Betta Kappa.

The society's faculty committee is chaired by Dr. Rick Shale, English. Dr. Mary Loud, foreign languages, serves as vicechairman, and Dr. Lowell Satre, history, is the secretary-treasurer.

# Health And Physical Education Majors And Minors Club 

Anyone familiar with such health programs as Health-O-Rama, Healthwise and the Great American Smokeout, is familiar with H \& PE Majors and Minors which works extensively with the community.

The club offers opportunities for participation in professional programs as well as recreational and social activities.

H \& PE Majors and Minors also service the community by donating toys and gifts to needy children at Christmas.

To recognize outstanding students, the club awards two scholarships annually. It also presents the Carson-Laborde award to a notable male and female graduating senior each spring.

## Hispanos Unidos

By means of music, foods, customs and crafts, Hispanos Unidos members display Spanish culture. They also help individuals in the community and at YSU.

Hispanos Unidos serves the community by tutoring students at the Organization Community Council Hispanic Association. Some members also tutored students through the Minority Student Advisory Committee at YSU.

The club's president says many different types of people compose the group and they are made comfortable because members do not restrict themselves to speaking Spanish. The group holds many social activities including a dinner dance and sponsored the Canfield Community Marching Band in a November performance in Kilcawley Center.

- Kelly Durs $\dagger$

Row One: Valerie Gamble, Terri Ruschman, Donna Slagle Secretary, Karen Miller, Lana Eddy. Row Two: Joan Kober, Michelle Donnelly, Laurie Workman, Karen Mincher Publicity, Paula Begeot Co-president, Judy Wellington Co-president. - Mark Macovitz

Row One: Pat Sgambati. Row Two: Narene Anzelille, Darlene Arrago President. Row Three: Vicki Book, Ruth Bernet, Lu Ann Sabo Vice President, Mrs. Elias.

## History Club

The History Club draws from the scholarly talent the University possesses in order to expose the YSU community to expanded areas of thought, opinion, and information.

The History Club meets weekly in Kilcawley Center. Its speakers come from a variety of areas and discuss a number of topics. They may deal with religious, scientific or economic affairs. Speakers include local personalities, YSU professors, Vietnam veterans and lecturers from other institutions. "We don't charge to satisfy your curiosities," said one History Club official about the lectures.

To further the study of history, the group helps sponsor History Day at YSU, an annual event which involves local high school students and the University.

The History Club's membership and events are open to all members of the YSU community.

## Home <br> Economics Association

This year, as in the past two years, the Home Economics Association with the cooperation and help of the Nutrition Soclety will hold a Spring Recognition Reception where faculty and students showing exceptional achievement during their 75 th anniversary are honored guests.

Also Career Day was held to acquaint prospective college students to the Home Economics programs offered at YSU and HEA is involved in promoting Home Economics.

HEA meetings provide opportunity to meet others in the profession and foster personal and professional growth. HEA also holds bake sales each quarter to raise money to provide funds needed for special projects.

HEA is a professional rather than a social organization, which is the student chapter of the American Home Economics Association.

## Indian Student Association

As the only organization which gives the students of YSU any awareness about Indian culture, the Indian Student Association offers such activities as musical programs and Indian food.

## Institute Of Electronics And Electrical Engineers

Open to students in electrical engineering, electrical engineering technology, computer science, physics and anyone else interested in any aspect of these areas, IEEE is a branch of the largest professional engineering society in the world.

IEEE sponsors technical and non-technical speakers from well-known companies to expose students to various industries and types of employment.

The organization participates in the Engineers' Christmas party and spring picnic, Engineers Week, IEEE Student Conference in Pittsburgh and a spring picnic for electrical engineering students and faculty.

- Kelly Durst

Row Four: Mavyla Breit, Ray Haven, Ed Mosko, Doug Mansfield, Mike Calderone, Ted Stiffler, George Zapotocky.

Part of the fun surrounding the Organizations Fair included a free concert by the Bangorillas, a regional band synthesizing different musical styles.

— Kelly Durs
Row One: Brenda Wolf, Vinny Stagnitta, Terry Byers, Sam Dickey. Row Two: Bob Snyder Co-president, Lee Goehring, Dawn Wilson, Colleen Gibboney, Dr. Charles Gebelein Advisor.

## Inter-Varsity Christian Fellowship

Through Bible studies, prayer meetings and numerous social activities, members of Inter-Varsity Christian Fellowship help each other to mature in their relationship with Christ.

Besides weekly Bible studies and prayer meetings, students may go on weekend retreats or mix at pot luck dinners where Christian music or skits may be performed.

Guest speakers have spoken on such topics as "Creationism vs. Evolution." Christian literature from Inter-Varsity Press also keeps members informed on relevant issues.

Christians, no matter what their denomination, can form friendships at IVCF-sponsored athletic events or gatherings.

## Intercollegiate Programming Team

Intercollegiate Programming Team offers good programming students the opportunity to test their skills against others at universities throughout the country.
"This organization has one specific purpose: to select and sponsor the best qualified students to represent YSU at the ACM programming contest," wrote a spokesman. "All of our efforts are directed toward improving the programming skills of potential representatives at this contest."

Besides helping competitors in the Association for Computing Machinery contest, the team holds programming reviews for interested students.

## Irish Club

"We offer a chance to learn about lrish culture and have some fun doing it," said an Irish Club official.

Proof of this statement comes from the many activities the cultural/social club sponsors throughout the year. Their participation in the St. Patrick's Day parade, a film and lecture series, baseball games, a winter Folk Festival, a litter control festival and flower sales for St. Patrick's Day all keep the club members busy.

Each month, the Irish Club participates in Seisuns - Irish jam sessions. During the summer, the club members attend The Feis - an Irish step-dancing competition. They may go to other social activities together too, such as concerts and games.

Formed in November 1980 to further Irish culture, the group has won a trophy for its participation in the Litter Control Festival and a ribbon for a display at the Canfield Fair.

- Gene DeChristoforo

Row One: Robert Chiles, Mark Hofius. Row Two: Dave Taylor, Sue Stanek Treasurer, Norm DeGennaro, Dan Vermeire, Debbie Whitfield, Jesse Booher. Row Three: Dr. Klein Advisor, Mark Goddard President, Kathy Schueller, Paul Mullins, Dave Caddes.

Row Two: Ed Gata, Robin Cartino, Elise Calabrese, Gifford DeEulie, Laura Brindza, Bassil Anasi. Row Three: Joe Leone, Joe Fandossi, Joe Mandora, Dr Veccia Advisor, Dr. Aliberti.

- Kelly Durst

## Italian Club

One does not need to be Italian or a student of Italian to join the Italian Club, just interested in making friends and having fun.

This year's club is comprised entirely of "rookie" members, so students involved can help guide activities to suit their tastes.

The Italian Club does grant a scholarship to a qualified Italian language student.

A Christmas party and membership drives at the Winter Organizations Fair and the International Organizations Fair comprised this year's activities.

A game of Simon Sez during Greek Week brought out many students who enjoyed raising their right arms.

## Karate Club

Since 1978, the YSU Karate Club has attended 37 tournaments including the yearly USKA Grand Nationals. The club has brought home a trophy every time for its winnings.

The organization has produced 11 black belts. Nine of them started their training with the YSU Karate Club. One of the black belts is now a third degree and has made it to the USA Karate Team.

Besides competing with other universities, members participate in campus activities and most importantly, help the needy. Every year the club sponsors Thanksgiving and Christmas dinners for impoverished families, and collects toys for needy children.

Karate Club members and Master Joe Bonacci, the founder of the organization, teach lifesaving techniques to women and the police.

In addition to an internationally recognized system of self-defense, the organization offers students physical and mental awareness, concentration, control and balance through its philosophy and training.

The group competes in the USKA Grand Nationals the AAU Regionals, and tournaments at Denison University, Walsh College, Ohio University and Kent State.

## Jazz Society

Swing, be-bop; as long as it's jazz.
The Jazz Society brings in guests and lecturers. At meetings, members listen to live and recorded performances by jazz musicians. Discussions focus on artists past and present.

Since, 1982, the Jazz Society has been building up a scholarship so new students may study jazz at the Dana School of Music. Proceeds from a "swing into spring" banquet went into the scholarship fund.

The Jazz Society also actively organizes and sponsors concerts.

- Kelly Durst

Diane Restaino

## Lambda Tau

Medical technologists and medical lab technicians joining the honorary society Lambda Tau have the common goal of servicing the community, and they may do this in a number of ways.

For example, they help sponsor the International Peace Race held in Youngstown. They also participate in the spring health fair on campus and the health fair at Southern Park Mall.

Karate club members demonstrate their skills on the hills by Kilcawley

## Les Bons Vivants

To promote interest in French culture, Ianguage and literature, Les Bons Vivants sponsors a variety of activities throughout the year.

Discussions of French history, presentations of French literature, and demonstrations of French cooking and folk dancing highlighted the club's promotions.

Les Bons Vivants also holds a Declamation Contest for area high school students. Along with the German Club, the group sang traditional French and German Christmas carols at local nursing homes

Besides a Christmas party, Les Bons Vivants threw celebrations at Epiphany, for Mardi Gras and at other times during the year.

The organization presents two awards: The Rosemary Pecchio-Johns Memorial Scholarship Fund and the Les Bons Vivants Scholarship, which allows a qualified student to study French abroad.

Open to all individuals from the YSU community, the club always welcomes new ideas on how to best suit the needs and interests of those interested in French culture, said member Mike Starr.

Halloween brought out many strange people to parties around campus. These two cheerful folks where found at the Phi Kappa Tau house.

- Kelly Durst

Row One: Dr. Corbe, Paige Shick Vice President, Michael Starr President, Annette El-Hayek Secretary, Elizabeth Fekete. Row Two: Carol Martin, Cathi Cardwell, Roland Alexander, Karen Simone and Claudia Corbe

Row One: Mike Hernan Vice President, Paul Kovach. Row Two: Vanessa Darby, Mary Bratovich Treasurer. Row Three: Father Ray Thomas Director, John Weber President. Row Four: Dean Fredrickson, Jim alumia Advisor, Teresa McKarns, Kris Russo. Row Five: Mary Jo Vlach, Brother Joe Martin Associate Director, Dan Beaver, Jackie Bednar. Row Six: Annie Poyer, Secretary, Curt VanHorne, Kevin Yuhas, fandra Tonkovich, Mark Rhodes. Row Seven: John Cligrow, Tom Murphy, Jean Zuga, Anthony DeFe$c e$.

Members Include: Alice Watkins Secretary, Renee DiCicco President, Pam Harold, Tricia Connolly Jice President, Terry Irons Treasurer, Karen Groner, Mrs. Jean Hassell Advisor.

Newman/Student
Organization
Careful planning helps the Newman Student Organization to offer a wide variety of social and service activities.

One innovation is the Newman Center's Clown Ministry program. Students dress as clowns and visit hospitals and nursing homes. The organization also services the poor by working among the needy in Appalachia and sponsoring food drives for local soup kitchens.

The list of social activities is large: Mug Nites in fall and winter quarters, a '50s sock hop, wine tasting trips to area wineries, intramural competition, canoeing, hiking, skating, sledding and bowling.

Organization members have free use of the Newman Center facilities, including the lounge, library, study, stereo and television rooms.

Students also participate in the Walk on Wick each spring.
Nutrition Society
While teaching others about the importance of nutrition and health, members of the Nutrition Society are learning and forming friendships.

Students speak about nutrition and weight loss to clubs, schools and other public groups. They also participated in Healthwise ' 84 at the Southern Park Mall. They further serviced the community by Christmas caroling at a local nursing home.

For their education, the students sponsored speakers from the department and a lecture by Dr. Maria Simmonson of John Hopkins University Medical School. Members of the Nutrition Society initiated a scholarship for dietetics students.

Students raise funds with fruit and bake sales, and have a Christmas party.

## Scabbard And Blade

Scabbard and Blade is an honor fraternity for students enrolled in the advanced ROTC corps. Individuals are eligible if their academic achievements and ability to serve as a leader of the Corps of Cadets on campus reaches appropriate standards.

The Youngstown area benefits from the two service projects Scabbard and Blade members perform each year.

ROTC members, out in the field, say "come on make my day"

- Kelly Durst

Row One: Bill Florig, Bob Ellis, Steve Barber, Richard Yarnell. Row Two: Tony Morell, Shaun Jones, Donno pierce, Sue Forkel. Row Three: Tim Walter, Tim Higgins, Patti Rheichle, Cathy Olinick, Amy Wellington, Cerry Stanton, Glynis Herns, Dale Vaughn.

- Kelly Durst
ow One: Dave Freudenberg, Paul Bray, Jacki Pennell. Row Two: Sue Forkel, Don Scott, Tim Higgins, ue Martinelli, Bruce Work, Bruce Henry.

## Pershing Rifles

Members of Pershing Rifles make themselves visible as color guards at such events as the Homecoming parade, all YSU football and basketball games, the Red Cross Volunteer Recognition Banquet and the Liberty Township Halloween parade.

Pershing Rifles is a military-oriented fraternity affiliated with ROTC. Membership is open to any full-time YSU student.

Students joining Pershing Rifles may learn more about the Army and can participate in rifle matches, orienteering matches, and, of course, color guard ceremonies. Members volunteer in the Red Cross blood drive and sponsor various social events such as camping, canoe and ski trips. They also co-sponsor, with Student Government, the annual ROTC Military Ball.

## ROTC Cadet Staff

ROTC brings a wide variety of activities to students interested in the military.
"Fun" classes such as rappelling, winter survival and orienteering are offered to YSU students, while further participation may yield career opportunities.

ROTC color guards march in the homecoming parade and at YSU football and basketball games. The students compete in campus intramural sports such as basketball and volleyball. Each year, they hold a formal dining-in and military ball.

For some of its innovations and service to the community, YSU's ROTC unit has been rated as one of the leading installations in America. Students have a Big Brother/Big Sister sponsorship program, volunteer in the Red Cross Blood Drive and service the community in other ways, too.

## Omega Chi Epsilon

Omega Chi Epsilon offers chemical engineering students the chance to become familiar with faculty and fellow students. It promotes additional education in engineering by providing speakers, films and tours which focus on the issues important to a chemical engineer.

The organization is an honor society. Omega Chi Epsilon members pride themselves on the high scholastic achievement they exhibit as well as the service to the chemical engineering department and professionals they offer.

An Omega Chi Epsilon Award is given to the senior chemical engineering student who has best exhibited the essential characteristics of a professional.

In the fall, the organization sponsored a lecture by Steve Phillips, a representative of Dow Chemical. He explained resume writing and interviewing techniques and was then given a tour of the campus, including the chemical engineering labs.

Group members also went on a plant tour and a ski trip, and designed t-shirts for Omega Chi Epsilon this year.

Kris Russo and friend tells a curious student what Students United for Peace offers to its members.

- Clem Marion

Row One: Patrick Scott, Connie Curtin, Jude Tinkler, Paul Glova, Lynette Guerra, Lorine Bohazi, Brad Fedorchak, Eileen Keller, Tina Abass, Tom Abass. Row One: Jeff Kubina, Diana Toto, Debby Whitfield, Kathy Schueller, Tony Ferreri, Marlene Shasho, Frank Cantelmo. Row Two: Scott Roessler, Dr. Faires Advisor, Bob Vargo, Kirk Markopolous, Mark Goddard, Bob Price, Richard Shabsin, Kim Nicolson.

- Larry Fitzsimmons

Row One: Gary Frankowski, Paul Maholtz, Kris Russo President, Joseph Rudjak, Jr. Advisor.

Pi Mu Epsilon
Pi Mu Epsilon appeals to students with an interest in mathematics by sponsoring lectures and a career day.

Most of the lecturers speak in layman's terms so a wider audience may feel comfortable in attending. Lecturers may be from the YSU community or from other universities.

Alumni spoke to current students about opportunities in the mathematics and computer sciences fields during the winter quarter career day. Their experiences helped students planning to graduate from YSU see how the job market stands.

Polish-American Student Organization

The main objective of the Polish-American Student Organization is to study and disseminate knowledge of interest to the Polish-American community. It offers friendship and Polish intellectualism. A cultural experience and a good time are also available, members say.

Last summer, the students attended a Polish Youth convention held in Washington D.C. They also participated in Slavic-Eastern European week at YSU. In December, members sponsored a Polish songfest. Many other social events are available to participants: the annual Polish Arts dinner/ dance banquet, and beer blasts, such as the one co-sponsored by Students United for Peace.

Members note they work on many projects throughout the year and frequently interact with the Polish students at Kent State University.

## Penguin Review

The Penguin Review, YSU's annual literary/arts magazine, publishes works from alumni, faculty and current students.

The Review serves as an outlet for the University's writers and artists. Students who are interested in learning about magazine lay-out and design may gain valuable experience as staff members. The staff consists of students who read submissions, plan the magazine, put it together and then offer it free of charge to the YSU community in the spring.

This year the Review sponsored a fiction and cover art contest. The magazine also sponsored poetry readings for the community.

## Photography Club

By exploring photography as an art and a science, members of the Photography Club hope to broaden their knowledge of photography and to better express themselves through this medium.

Michele Truhlik, president, formed the club when she was "amazed" to find no such club currently existed on campus.

Knowledge about photography would come through lectures about careers or specialties available to photographers. Such topics as portrait photography, nature photography and abstract photography could be topics. Films, conferences and conventions would also educate members of the club.

Other plans for the new club include a photography contest for all YSU students and photo critiques.

- Kelly Durst

Row One: Dan Leone, Victoria Hoyt, Nancy Krygowski, Cindy Mitlow. Row Two: Cathi Cardwell, Jean Sadeckas, Sam Dickey, Lisa Macioce.

- Mike Flynn

Row One: Mike Flynn, Brian Wilson Vice President, Mark Macovitz. Row Two: Chris Flanagan, Kelly Durst, Richard Mitchell Advisor, Rick Jurus, Michele Truhlik President. Row Three: Bob Smith, Forest Molinaro Treasurer, Bob Lutsky Secretary.

Members Include: Debra Bucci, Dr. Domenico Aliberti, Salvatoro Aliberti, Michelle Truhlik, Barb Beckett, Rick Martiner, Cindy Mitlow.

## Polygloł

The Polyglot publishes articles, stories and poems in various foreign languages. Its purpose is to encourage the study of foreign languages and cultures. The large majority of entries come from YSU students who are studying or have studied foreign languages. Submissions may also be made by foreign students and others.

- Kelly Durst

Members Include: Robert Chrismas Film, Debbie Wensel Recreation, Charlotte Good Fine Arts, Pat Kachurek, Brian Pierce, Diana Chermely Publicity, Dean Fairman. Maria Spagnola Entertainment, Shelly Durig, Don Patrick, Sherri Smerchansky, Mark Mahaffey, Tom Vogel, Joe Eschman, Troy Radinsky, Bill McRoberts, Lori Nell Brown Executive Chairperson, Yolanda Elebie Social, Mike Alberico, Diana Madeline, Pam Tolliver, Janet Puhalla, Shelly Zahorsky, Becky Measmer, Aggie Goda, Craig Duff, Carmela Basham, Keith Nutter, Ed Lazor, Ed Wright Video Arts, Tammy Chacona Staff Advisor.

## The Program And Activities Council

Most of the activities available to YSU students resulted from the work of PAC members, who make available dances, aerobics, concerts, the weekly film series, College Bowl, Music at Midday, video tapes and Rockworld, lecturers, workshops and other music and fine arts programs.

Currently enrolled students in good standing form the council. They may divide up into seven committees which present activities and programs. Following are the committees and some of their events 1) Social - H.O.M. and: 2) Entertainment Livingston Taylor and Trent Arterberry with the Greg Greenway band; 3) Film weekly film series; 4) Video Arts — video digest program; 5) Recreation - ACUI tournaments, College Bowl and aerobics; 6) Fine Arts - ICTUS and Clairsrach; and 7) Publicity - working in correlation with the other committees.

PAC also plays an important role in the Red Cross blood drives. It is a member of the National Association for College Activities.

Executive Chairperson Lori Nell says, "In PAC you learn to work with others more constructively and appreciate their views." She adds that members learn about contracts and they may take pride in knowing they are responsible for programming on campus.

## Pre-Law Society

The Pre-Law Society gives students who have an interest in law the opportunity to learn more about the various aspects of law and law school.

One of its major service projects is Law Careers Day. Members also participate in debates co-sponsored by the Debating Team. Throughout the year, the group sponsors speakers and takes trips to law schools.

Arby's is the popular place when those midday hungreys hit.

- Mike Flynn

Row One: Suzanne Prieur Vice President, Diane Chermely President. Row Two: Barbara Johnson, Dean Fairman Treasurer, Dana Sutton

- Mike Flynn

Members Include: Sherri Bertilacci President, Dr. Jane Kestner Advisor, Rick Lillo, Mike Malley, Rachilla Workman, Vicky Matasy, Vickie Sanders.

- Bob Smith

Row One: Mike Mouley Historian, Charlene Dawson, Debbie Huberman, Mary Lisa DePaola, Joy ReadWest, Sherri Bertillaci, Jayne Shurell Treasurer, Theresa Wesolowski, Roselynn Airato. Row Two: Rich Gent President, Judy Kaczowka Secretary, Mike Hernan, Dave Knez, Vicky Matasy.

## Psi Chi

Psi Chi members invited all of the university community to attend its rap sessions, which dealt with such topics as "Normality" and "Individuality."

Psi Chi is the national honor society for psychology students. Members hope to promote the science of psychology and create a warm and friendly atmosphere through their rap sessions.

Psi Chi also sponsored forums on Edgar AlIan Poe, psychology as a major, and graduate school information.

The club offers a better understanding of psychology and its applications to everyday life. Involved discussions about important, current issues may also arise at Psi Chi get-togethers.

## Psychology Club

The Psychology Club offers students an excellent chance to understand, appreciate and become involved in the field of psychology.

The group holds several activities throughout the year. Members may take trips to national and local psychology conventions. Students learned more about sensory deprivation by visiting a facility devoted to this subject and listening to a lecture about sensory deprivation. Guest speakers and movies also help students to explore various topics. Wine and cheese parties for students and faculty members also comprise part of the Psychology Club's activities.

The group emphasizes that an interest in psychology is the only requirement for membership - the club welcomes students from all fields of study, not just psychology majors.

## The Residence Hall Association

The Residence Hall Association performs a unique function by focusing almost all of its attention on the needs of students who live on campus.

Each quarter, members plan events to satisfy the residents. The Winter Olympics, the Spring Olympics, and the softball tournament stand as some of the group's major events.

While generally focusing on resident involvement, each spring the association sponsors a dance which is open to all of the University.

## Russkij Klub

"When people hear the word 'Russian,' they automatically have a negative reaction," says a Russkij Klub spokesperson. "They shouldn't. There is a difference between Russian and Soviet. This is not a political club, a Bolshevik club or a Soviet club. This is the Russian club. We're here to erase some of this negativism and to educate people about it."

By holding numerous bake sales throughout the year, Russkij Klub members expose numerous students to authentic Russian dishes. They also participate in the International Festival.

Members find the club's activities of great educational value. They can experience Russian culture and learn how to make authentic Russian dishes. Their Christmas party featured Russian food and musicians playing balalaikas.

The club offers an excellent opportunity to make new friends with similar interests.

- Kelly Durst

Row One: Melissa Gardner. Row Two: Mary Gehr Secretary, Troy Radinski, Chris Slicker, Mike Fiest Treasurer, Jim Brosovich, Bill McRoberts President. Row Three: Ross lukovich, Steve Curtis Vice President, Pete McKenna.

- Kelly Durst

Row One: Cynthia Beckes Corresponding Secretary, Katica Markulin President, Lynette Yurcho Vice President, Regina Schajatovic Treasurer. Row Two: Carey Cavanagh Advisor, Joel Serbel, Pat Gordon, Yvette, Gary Lazor, Tim, Luba Barna Advisor.

- Mike Flynn

Row One: Karen Simone, Rita Catalona Second Vice President, Richard Machuga President, Tom Vitek. Row Two: Dr. Shuster Advisor, Terry Beronja, Michelle DiGregorio, Susan Roach, Mik Stryffeler, Pete Morrison First Vice President, Elaine Machuga, Donna Corsale Secretary, Ron Jantz Treasurer, Dr Guzzell Advisor.

## Sigma Pi Alpha

Sigma Pi Alpha gives students with an interest in personnel administration the opportunity to compete for nationally sponsored scholarships, to read the national publication Personnel Administrator, which informs and updates students on recent developments in this field, and to hear speakers employed in personnel management at monthly meetings.

The organization also has a quarterly dinner meeting, sponsors company tours and attends a national conference sponsored by the American Society of Personnel Administration.

All of these activities helped Sigma Pi AIpha to receive a merit award from the American Society of Personnel Administration.

The fountain near Kilcawley Center provides a relaxing spot for talking with friends or studying between classes.

## Society Of Women Engineers

The Society of Women Engineers offers career guidance and support to women engineering students. It presents opportunities for students to interact with engineers and learn the practical aspects of their field of study.

These opportunities arise through the various lectures, plant tours and social events members participate in. Major companies, such as Alcan, Sohio and Owens-Corning are often involved.

Representatives also attend Dean's Council meetings and watch the doors in Kilcawley Center.

Art work by Art Department Chairman Richard Mitchell hangs outside the Kilcawley Art gallery.

- Kelly Durst

Row One: Ruth Ann Copanic, Celia Sroka, Karen Morgan, Jacci Lindsay, Jeanne Watson Treasurer. Row Two: Dorothy Grecula, Kim Rowe, Cyndy Frederick, Lorraine Cerimele, Mary Domkowski, Stephanie Pennell, Laura Gerek Vice President, Lori Grivensky, Bonnie Hruska President.

Row One: Kristy Organ, Nancy Burge, Dave Reed, Debbie Huberman, Rhonda Kline, Mary Mathews, Clark Sanford, Sharon Tanner, Bob Lupean.

- Kelly Durst

Row One: Jacque Dorazio, Lori Ellenberger, Charlene Erb. Row Two: Vallene Weeda, Kenneth Passella President, Adelfa Cuesta, Julie Laskowitz Vice President, Jim Parks, Doris Stevens, Malcolm Ruggiero.

## Student Retention Program

Through support, encouragement and advisement, the Student Retention Program staff attempts to prevent selected freshmen from dropping out of the University.

The five faculty members, known as Faculty Mentors, team up with ten student Peer Assistants to begin guiding 200 freshmen in the fall. The staff helps the freshmen throughout the year by providing their skills in such areas as tutoring, study skills and information about other services available to students.

Student Services instituted the program in 1983 to assist freshmen who have the characteristics of potential drop-outs. Through regular meetings, the staff members help the students progress toward goals they have established for themselves.

## Student Art Association

Individuals interested in the art world can become involved on a first-hand basis through the Student Art Association's activities.

Students help prepare art exhibitions, a complicated process unique to the art museum field. Their main focus is the Annual Student Art Exhibition held at the Butler Institute of American Art each spring. Student members do all preparations for the show and opening.

During winter quarter, SAA members assisted with the Annual Northeastern Ohio Regional Scholastic Art Awards Exhibition held on campus. The exhibit featured over 500 works by area junior and senior high school students. Students helped accept entries, hung exhibitions and assisted judges.

Cultural trips and lectures also form a major portion of the club's activities. Students may take weekend trips to New York City or day trips to museums.

## Student Council

Student Council is the legislative branch of Student Government. Both branches work closely together to assure students a voice in matters involving administration, faculty and community.

All seven of YSU's academic schools are represented in Student Council.

Student Council elects students delegates to Academic Senate and fills positions on other University boards and committees. This enables students to communicate directly with faculty and administration.

Council co-sponsored several voter registration drives and assisted in campaigning against State Issues 1,2 , and 3 in the fall.

Several speakers appeared at Student Council meetings. Dr. Neil Humphrey, acting president of the University and Jim Miller, director of parking, spoke to students, thereby, allowing a dialogue between administration and students.

Council also sponsored such events as "An Evening at the Improv", a comedy night in the Pub.

## Student Social Work Association

Members of the Student Social Work Association hope to become the YSU student's best friend.

They would like to answer students' questions, give academic advisement, or simply offer the chance for students to talk to someone. They may do this themselves or direct individuals to the proper channels.

Besides offering aid to students, the SSWA assists non-university persons. Members sponsored a Thanksgiving food drive, and gave the proceeds to Daybreak, a local runaway center.

The association encourages all students to become more involved in the community. It attempts to increase awareness of professional opportunities in the helping fields.

Row One: Jeanne Ann Lasky Business Chairman of Publicity, Holly Maggiano Chairman of Discipline, Michelle Blum Secretary of Council, Tony Rossi A\&S Chairman, James Hook Vice President. Row Two: Sharon Tanner Business Chairman of Financial Appropriations, Mareen Boehm A\&S Representative, Karen Simone Business Representative. Row Three: Burnadette Cledhill CAST Representative, Tony Dudzik CAST Chairman of Elections, Greg Ball F\&P Representative, Dana Sutton Chairman of Special Projects and Research, Kris Russo A\&S Representative, Donnie Cutrer CAST Chairman of Nominations, Steve Gasparek CAST Representative, Micheal Teolis CAST Representative, Dave Ray Engineering Representative.

- Mike Flynn

Row One: Syretha Cooper Advisor, Lee Slivinski Advisor, Joan DiGiulio Advisor, Row Two: Mary Jo Ulach, Shari Uncapher, Denise Sparacino, Mary Parker, Betty Jean Harris.

At the same time, the SSWA would like to enrich the students' college experience by helping anyone in need. Throughout the year, members hold bake sales, sponsor speakers and also have a Christmas party.

Row One: Cinder Schooley, Francine Palomfaro, Cathe Pavlov, Row Two: Robert Cerni, Barb Green, Gary Lawman, Theresa Kosica, Row Three: Carol Martin, Row Four: Richard Gent, Ed Lasor, Johnny Rizk, Walt Avdey.

## Student Government

Student Government's actions and concerns are those of YSU students: obtaining financial aid, solving grievances, improving academic quality and maintaining the value of YSU diplomas.

For its efforts, Student Government has received commendations from Sherrod Brown, Governor Richard Celeste, and Senator Harry Meshel's spokesman Sherman Miles.

Student Government sponsors many activities benefitting community and student. Each quarter, blood drives, organization fairs, voter registration, Campus Escorts and daytime and weekend entertainment such as a winter-time Beach Party, keep the campus alive.

A mayoral forum, opposition to state issues 1,2 and 3 , a food drive and a free clinic benefit were some of the special benefits Student Government sponsored.

Participation in Student Government activities offers new perspectives on the University, improved leadership skills and a chance to improve the quality of student life at YSU and throughout Ohio.

Members of Student Government and others had the chance to improve themselves at a communications seminar at Bethany-on-the-Lake this year.

A low cost hair cut was a welcome event for YSU students in Kilcawley during Winter Quarter.

## Students United For Peace

Students United for Peace remains dedicated to learning, teaching and sharing the power of peace and love through the various activities it sponsors throughout the year.

In October, members sponsored the John Lennon Peace Week: A Concept of Love. It was a week-long celebration of the slain musician's philosophy of peace and love. They also co-sponsored a die-in with the Newman Center and Cooperative Campus Ministry. This November event called attention to The Day After, a TV movie depicting what would happen if an American town became the victim of a nuclear attack. Along with the Youngstown Peace Council, the group sponsored a Freeze Walk in the fall.

In addition to sponsoring debates and exploring the philosophy of peace and love, the group held a beer blast with the PolishAmerican Student Organization.

Members add that the club offers friendship and all meetings are held in an informal atmosphere.

## Table Tennis Club

Students who enjoy table tennis may enjoy this club, which allows competition among members and ranks them according to their style of play.

The Table Tennis Club allows players to compete on an organized basis and brings together different individuals for a common purpose.

The club was formed four years ago to maintain an organized system for ping pong players.

The club gives awards and trophies to winners of tournaments the students sponsor each quarter. Quarterly parties also provide entertainment for players.

- Kelly Durst

Row One: Joseph Rudjak, Jr. Advisor, Diane Lesher, Sam Dickey, Kris Russo President, Carol Martin Treasurer, Paul Graham, Diane Chermely.

— Kelly Durst
Members include: Stacey Adger, Barry Logan, George Danes Music Direcotr, Dr. Alfred Owens Advisor, Brenda Irwin Operations Manager, Doug Beach.

- Mike Flynn

Row One: Anita Siciliano, Lois Hopkins. Row Two: Camilla Basham, Kathryn Gray, Denise Peoples, Joyce Swierz, Glynis Herns, Nancilynn Gatta, Mary Franklin, Sally Caraballo, Lisa Brown, Danna Mathews, Vilma Batori, Carey Robins, Sue McQueen.

## Underground Sound

The only cable radio station in Youngstown serves YSU: The Underground Sound.
"UgS" is an affiliate of Alpha Epsilon Rho, the national broadcasting society. On Monday through Friday, from noon to 4 p.m., the station provides music, news and information to listeners on campus.

From its studio in the basement of Cushwa Hall, the Underground Sound's student broadcasters host hour-long shows featuring a variety of music. UgS also has regular programs such as Byrd's Eye View and Sports Monday.

## Women's Chorus

Unlike many other ensembles at the Dana School of Music, Women's Chorus is open to all female students, instead of just music majors.

Women's Chorus provides University students with an interest in music to spend two hours per week singing with women from various academic fields.

The organization usually sings once per quarter for the Music at Midday Concert Series in Kilcawley Art Gallery. In February, Women's Chorus joins the Men's Chorus for an annual Winter Quarter Concert held in Bliss Recital Hall. In addition, Women's Chorus travels to various schools, clubs and churches to perform throughout the year.

In recognition of cultural service to the community, the Women's Chorus received a certificate from the Boardman Kiwanis in spring of 1983.

## The Jambar

Dan Leone, Copy Editor

Faun Lenon, Compositor

Janice Cafaro, Sports Editor

Joni Griffith, Dark Room Technician

George Nelson, Feature Editor

## - Mike Flynn

Row One: Janice Dafaro, John Gatta, Chris Wharry, Row Two: George Nelson, Jackie Hvizdos, Jan Wright, Sam Dickey, Faun Lenon, Dan Pecchia, Jill Berchtold, Mariann Daliman, Row Three: Joni Griffith, Clareance Moore, Dan Leone, Mary Kay Quinn, Bob Smith, Kelly Durst, George Denney.

Because of a new computer system, the creativity of the managing editor and the advertising staff, and the diligence of several staff members, The Jambar sports a clean, refreshing look for 1983-84.

But changes in layout weren't the only changes this year. The editor, news editor and sections editors worked hard to make The Jambar more stu-dent-oriented. Reporters sought out the issues and events affecting students and brought their concerns to the attention of faculty and administration.

A newspaper is as great as its readers. Suggestions from the YSU community are welcome. Students who feel they
have something to contribute in the way of graphics, photography, writing, salesmanship and layout should stop in at The Jambar office in Kilcawley, under the bookstore

Students who spend a few hours a week at The Jambar find themselves benefiting in a number of ways. They will learn more about the campus and meet a variety of people. They will gain a great deal of valuable experience otherwise unavailable to a YSU student desiring a career in journalism. They may gain paid positions or learn of job openings in the area. Best of all they can take satisfaction in working for a Real Newspaper, as staff members often say

Chris Wharry, Compositor

Mark Peyko, Managing Editor and George Denney, Editor in Chief

## 1984 NEON STAFF

Rachele Brewer, Staff Writer

Tammy Chacona, NEON Advisor.

Bill Beil, NEON Advisor.

Mary Kay Quinn, Copy Editor.

We're an organization, too, The NEON. We're not always well-organized, but we have one thing in common; we're putting together the yearbook.

This year we sold about 3,000 yearbooks. Not a large amount, but for those who did buy a yearbook, thank you, and we hope you're satisfied. If you're not, too bad, what can you do.

One thing you can do is join the staff next year, if you don't graduate or

Jacqueline Pennell, Darkroom Technician.

Kelly Durst, Photo Editor.
something nasty like that. We always need creative people (can't you tell) who enjoy photography, layout or writing. It helps if you don't enjoy missing a night of sleep now and then.

For the purpose of this description, we all had a lovely time this year and we love each other dearly. At this writing there are two office romances going on, between Chair and Floor and Book and Shelf.

The NEON is a great place to meet people, in short. What you'll do after you meet them is up to you. Liquid refreshments in The Pub and our annual Christmas party have been known to do wonders for establishing truly meaningful relationships.

## SPORTS

When you graduate from college and in a few years look at an old yearbook, you may forget peoples faces but more than likely you won't forget the people who starred in sports.

At YSU sports are on the upswing Though the football team did not have a winning season, they showed great promise for the future. When you think of the great football players that have worn the Red and White, names like stoudt, Carter and Jaworski immediately come to mind Unlike football, basketball does not have a truly rich tradition, but it's on the move. The name Mike Rice will conjure up some image in our minds a few years from now. YSU is filled with other sports and other heroes; two new teams were pleasant surprises this year. Who would have expected a second year cross country team or
a first year tennis team, like the womens team, to have such outstanding seasons?

Sports surround us everyday. Hardly a 24 hour span goes by without us making contact with a sport some way or another. Since YSU has moved to Division One, sports are of an even greater influence at our school. This years basketball team showed everyone what major sports could be like with a packed auditorium and TV coverage at games.

Probably the most memorable thing to come out of sports is the people and what they mean to a sport. To me the memory will always hold, of Jamie DeVore coming out after halftime in a game, running onto the field and yelling, "Get your heads up, the game's not over yet, we're YSU"

- Kelly Durst

-Kelly Durst
passes across the middle. Goode was scouted by NFL, USFL and the Canadian Football League scouts, and is expected to be one of the many names from YSU to play pro football.

Paul McFadden also closed out his final season of college football. Like Goode, he has an excellent chance at playing pro ball. McFadden carved his name into the YSU record books by kicking 52 field goals in his carreer. He finished his college career by connecting on 38 straight extra points. Before coming to YSU, MCFadden had never kicked a football, but he will be leaving his name in the number 2 spot for all-time leading scorers.

Another offensive stand-out was senior offensive tackle and team co-captain Rick Brunot. Youngstown sports fans
may be seeing more of Brunot, though, if the All American wrestler sticks out another year of wrestling for the 1985 season.

Though the offensive was sporadic at best, many times during the season the defense was dependable and tough. Junior Pat Toler led the team with solo tackles as he notched 48 solo sticks for the year. Toler also blocked and recovered a punt for a touchdown in the game against Austin Peay.

Senior Mick O'Hara, along with sophomore Gary Barber, led the team in interceptions with three each, while junior John Klomfous was able to reach the quarterback 7 times on the season.

Bob Newberry was honored this season with the Goodwill Blood and Guts
award. Newberry, a defensive standout, earned the award through the courage and determination he showed during the season.

Punter Nick Xides was able to lead the OVC in punting this past year as he averaged 40 yards a punt. Nick only had one punt blocked. Xides was able to drop the ball inside the twenty yard line 10 times.

Looking back on the season, Coach Narduzzi reflected, "Injuries to key players hurt us, and they are things that can't be anticipated. We fell short on times this year on several occasions, which could have made a difference on our record. " Coach Narduzzi is looking forward to leading his youthful squad into next season with only one change - a winning season.

- Scott Carney

Nick Xides, the OVC's leading punter shows the
form that earned him that distinction.

The defensive line stops the Western Kentucky offensive at the Penguins own five-yard line.

- Kelly Durst

Linebacker Bob Newberry trips up an Austin Peay
runningback in their backfield.

Coach Bill Narduzzi's face shows the pressure a football season can put on a coach.

Former Cardinal Mooney standout and workhorse fullback Mike Hardie pounds the football up the middle of the Western Kentucky Hilltopper defensive line.

Robert L. Thompson is prepared to take the ball up the middle against Austin Peay

- Scott carney

Row One: Ron Capogreco, Griffin Keys, Teryr Chatman, Gene Rochet (Asst. Coach), Pete Lymber (Asst. Coach), Fred Thomas (Asst. Coach), Bill Narduzzi (Head Coach), Bob Dove (Asst. ## THE GATORS

Apathy was an apparent problem at the YSU football games. That is unless you are a gator. What is a gator? Gator is short for tailgator. The gators were a group of people who support the football team.

Though they met with a lot of opposition during the season, the gators were able to overcome any trouble. Whether it was from the weather, the stadium security or a lackadaisical band which was happier playing Christmas carols,
the gators never faltered.
Tom Descentes was the leader of this group of energetic fans. He explained why he was so eager to support the football team. "A few years ago, went to an Ohio State game and could could not believe the fans, " Descentes said. "I know we aren't OSU, but these players don't work this hard during the week to not get any support.

Descentes was not only upset about
the people yelling at the gators to sit down and stop cheering, he was also upset about the band. "I can't believe band members are paid to play Christmas carols instead of fight songs.

Though many people did not appreciate the gators, many of the players did. I guess that's all the gators want to support the players and not the apathetic fans.

## Bob Courtney fades back in the pocket against

 Akron. Courtney is expected to be YSU's eventual starting quarterback. season here in a game against Western Kentucky.

Saturday afternoons in the fall would not be complete without a college football game. The weather is usually beautiful, the sun is always shining and people seem to be in a joyous spirit. The actions of people at a YSU football game are no different than those around the United States. All this comes fogether to make Saturday football an American tradition.

## COLLEGE FOOTBALL AND SATURDAYS A TRADITION

All American swimmers Becky MacFadyen, Janet Kemper, and Cathy Sipka show their team spirit at the Homecoming game.

Chrissy DeVincenzo was everyone's favorite cheerleader at the games.

The Brothers and little Sisters of the Phi Kappa Tau fraternity show they have as much spirit as anyone else

Pete the Penguin faces off against what will probably be his toughest opponent of the year.

Everyone, especially the cheerleaders, were caught up in Homecoming spirit.

## Surprise Season for Harriers

"We did a lot better than I expected we would do this season." That was a definite understatement issued by Cross Country's Jack Neville. The YSU Harriers in only their second season of competition after finishing 0-4 last year, ended this season 6-2. Besides an improved record, the Penguin runners captured first place at the Muskingam Invitational and finished a respectable fifth at the OVC championships.
"We improved at every meet, and should only be getting better," Neville stated. "Considering we should have our whole team returning next year,
we can only improve." One place the team could improve is in depth. Still, outstanding performances by team MVP Steve Luthern and Jeff Cipriano constantly sparked the team. New blood was also added to this year's team by runners like Rick Braur, Ken Voitas and Bob Johnson. Warren Slay was also always counted on for his leadership and fatherly advice.

I'm really looking forward to next year," Neville says. How can you blame him? It seems that YSU's surprise team may become one of YSU's most dependable teams in the future.

Super Sophomore Jeff Cipriano shows some of the form that helped him to become an excellent cross country runner

Warren Slay showed great leadership fo Coach Neville's Cross Country team. Slay could always be counted on to give 100 percent

Two members of the cross country team cool
off after running 8 one mile sprints in Wick Park.

Row one: Bob Johnson, Tom Gratonic, Bruce Potter, Jeff Cipriano Row two: Jack Neville (Head Coach), Brian Talley, Steve Luthern, Warren Slay, Jeff Luther

## Learning Season For Spikers

The YSU women's volleyball team took a step up in competition this year and though they did not have a truly outstanding record, Coach John Tokash is ooking toward long range improvement. This year's schedule was probably the hardest ever played by a Penguin volleyball team as they faced Division 1 foes. The Penguin spikers carried what was really a misleading record into the end of the season at 18-24-0.

The record failed to show the many outstanding tournament showings by YSU.

YSU again hosted their own tournament at Stambaugh Sports complex. The team made a fine showing as they finished sixth of 15 teams. In other tournament showings The Pens did outstanding jobs as they finished third out of 17 at the Slippery Rock Invitational,

and 4 out of 9 at the Mansfield invitational. "Considering the competition that we played this season, the only thing that I am disappointed with is the final record and the fact that we finished with under a 500 record," said coach John Tokash. Tokash was also disappointed in YSU's 6th place showing out of 8 teams at the OVC tournament. "Ireally wanted to do well at the OVC tourney because we had it here at home.

Two people that Tokash could never have been upset with were the excellent tandem of Sandy Treece and Meg Deibel. Both were named honorable mention to the all-tourney team in the Mansfield tourney and both placed on the first team at the Slippery Rock state tournament. Treece also had the honor of being named to All-OVC tournament team. "Treece played excellently throughout the year with sparkling front-court play, while Meg Deibel played sparkling defense," stated Tokash. Tokash is really looking forward to next year's season. Though the schedule is even harder he feels that it will only make his team play better and more competitive in the OVC. Tokash will have to go out, he feels, and really beat the recruiting trails to shore up a weak defense. Still, he feels that his teams are only a year or two from being one of the top teams in the OVC.

Meg Deible and Beth Seigle go up to block a shot from arch rival Akron. The Zips won the game 3 sets to 2 .

Sandy Treece was a stand out all season long. Here she bumps the ball to the front court. Treece was chosen to the All-OVC tournament team.

Row One: Diane Glassneyer, Michele Ferre, Mary Zoccolo, Meg Deibel, Anna Quatraro, Angula Skinner, Row Two: John Novak Student Trainer, John Tokast Head Coach, Dawn Kelley, Beth Slagle, Sandy Treece, Valerie Ginther and Denise Dietz Student Assistant Coach.

## 1983 Women's Volleyball Squad

- Gary Taner

Members of the team take a little time during a break in the action to get themselves properly motivated.

The volleyball teams line play was usually consistent throughout the season but here an Akron foe is able to fool the YSU front line and slip the ball past the YSU defense.

Beth Seigle prepares to dink the ball over the net after a good set by Meg Deible.

Meg Deibel is shown here setting up a fellow linemate. Deible along with Sandy Treece was a stabalizing influence for the team throughout the season.

- Clem Marion

## KEY LOSSES MAR SEASON

A 4-9-0 season makes any coach wonder what exactly went wrong during the season. "Of course it's a disappointment after we were over 500 last year to not equal that mark" stated head coach George Hunter. "A lot of people would have folded their tent and left, but our athletes kept plugging away." We gave our all every time out, although the scores don't reflect that."

The loss of Nick Cindric in the middle of the season really hurt. "As thin as we were in '83, the loss of Nick really hurt," quoted Hunter. The loss of last year's number one and two scorers Rick Boysen and Dave Cendol didn't help mat-
ters much. Boysen rewrote the record books as a freshmen last year and Cendol wasn't far behind. Both men had to leave for personal reasons.

We still had many outstanding individual performers on the team," cited Hunter. Mohamed Fard and Mike Sabula were both excellent offensive players while the defense of Ron Baker and freshmen Glen Behra and Pat Foley had Coach Hunter smiling.

At the moment 1985 is too far away to plan, but I think we will be much improved. I am sure with most of the team returning and a key redshirt we will be tough:" said coach Hunter.

- Kelly Durst

A view from the top as a YSU goalie finds himself under pressure from the Gannon College team. The team from Gannon was to score later in this period.

Glen Behra a dependable player for the Penquins throughout the year kicks the ball down field in a game against the University of Pittsburgh Cougars

# Wrestlers Struggle Through Season 

Although the wrestling team posted only a 3-16-1 record on the season, Coach Bruce Hinkle was more than pleased with some individual performances. "Some of the guys had just excellent seasons," Hinkle said. How true that was with four wrestlers, Dom Mancini 21-6 ( 126 lb . class), Roy Thomas $18-9$ ( 142 lb . class). Aquilino Morales 20-8 (167 lb. class), and Senior Rick Brunot (Heavyweight) who posted a

24-1 record.
While Brunot won regionals to qualify for the National meet, Dom Mancini a Sophomore who placed second, missed by one vote in the wild card draw. Roy Thomas, another Sophomore, placed sixth at the regionals.
"Our overall record, due to an enormous amount of injuries throughout the
season wasn't very impressive," stated Hinkle. "Still we had outstanding performances from both Dom and Frank Mancini, Brunot, Morales and Tom Treppa. A season high point was the West Liberty tournament, where both Dom and Rick took first place honors, while Aquilino Morales took second and Tom Treppa captured sixth." An athlete who closed his career this year at YSU was two sports star Rick Brunot. Brunot, who was picked up as a free agent after the draft, will reportedly skip out on his final season of eligibility and go to the pros. Brunot made AllAmerican as a freshman and came close to repeating this year, as he barely fell short at nationals.

The future of YSU wrestling program is up in the air, but with good recruiting and almost the whole team returning next year, it's all in the hands of the wrestlers themselves whether they will keep the program or not.

Here Dom Mancini gets some advice from head coach Bruce Hinkle. In this match against Cal State, Dom was able to put away his opponent early in the second period.

Left: Dom Mancini awaits the referee's whistle to start the second period against his opponent from Cal State PA.

Row One: MohammedFard, Frank Mancini, Hyun Chul Kim, Roy Thomas, Todd Waters, Dom Mancini, Kevin O'Neil, Row Two: Brunce Hinkle, Head Coach, Bob Donaldson, Aquilino Morales, Rick Brunot, Dave Janofa, Tim Treppa, Jim Huber and Tony Coleman.

Stellar senior Rick Brunot is shown here putting away another opponent early in the match. Brunot rang up pin after pin during the season on his way to a 24 and 1 record.

- John Saraya

Roy Thomas was one wrestler Coach Hinkle could always depend on to perform well in matches. Thomas always had an energetic personality which helped keep the team up.

Aquilino Morales was another dependable wrestler throughout the season. Morales who wrestled at 167 pounds, placed second at the West Liberty Tournament, a high point for the YSU sophomore

- John Saraya

## FOUR POINTS FROM GLORY

At the start of the 1983-84 basketball season the Ohio Valley Conference basketball coaches picked Youngstown State to finish at the back of the pack in seventh place. Little could anyone guess the Penguin hoopsters would come only four points away from gaining a berth into the NCAA tournament.
"I am elated with what happened this season," said head coach Mike Rice. "The men on the team played just terrific basketball and the home game crowds were great."

The season saw YSU play what was definitely its toughest schedule ever. Mike Rice and his troops had to face 4 NCAA Tournament-qualifying teams including two teams that during the season were in the Top Ten.

A big Penguin victory early in the season proved that the Penquins indeed were a force to be reckoned with. After wins over Ferris State and a 10437 sleeper over Ohio Dominion, YSU faced a major test in perennial power, LaSalle. The Penguins won the game 81-76, and by doing so, showed the
teams in the OVC that they had a new powerhouse to contend with.

The Penguins ended League play with a 9-5 record, which was good enough for a third place finish. This qualified the Penguins for the championship tournament at the end of the season. Tennessee Tech was knocked off easily by the Penguins, 63-55, after one period of overtime. In the championship game YSU faced Morehead State, the regular season champions, who had handled the Penguins easily by beating them twice during regular season play. The championship game was very different though, as it was a defensive battle between the two teams. Morehead State came out on top, 48-47
"I think just getting this far was an excellent experience. The players learned what tournament play was about," stated Rice.

Ray "Truck" Robinson led the team in scoring with an average of 12.4 points per game. Ray also pulled down 6.2 rebounds a game for the Penguins.

Right behind Robinson in scoring was point guard Bruce Timko. Bruce averaged 12.3 points a game, while dishing out over 155 assists on the season.

Defensive standouts were Ricky Tunstall and Kevin Cherry. Tunstall rejected 83 shots on the season, for an average of over 2.9 per game. Tunstall also led the team in rebounds with 8.2 a game.

Kevin Cherry was a thief-superior on the court, stealing the ball off of opponents 46 times on the season.

Both Robinson and Timko were placed on the All-OVC second team at the end of the season and both will be returning next year.

Over the past two years Mike Rice has turned what was a dying athletic program into one of the best in the state. Besides being an excellent coach, Rice is an excellent recruiter who will keep an influx of talent coming onto the YSU campus. Coach Rice has finally helped bring excitement back to YSU sports.

Kevin Cherry and Ray Robinson go up for a re bound in the Penguins 87-60 dumping of Ferris State.

|  | YSU | OP |

## FRIDAY NIGHT LIVE

00 John Saraya

- John Saraya

Friday night live games were one of many new and exciting events for YSU basketball this year. Sportstime cable carried two 11:30 games which brought SRO crowds and produced great community interest. Sportstime cable carried one OVC game a week and also sponsored the halftime one-on-one tournament. Sportstime, a division of the Anheuser-Busch Company, plans to continue its partnership with the Ohio Valley Conference next year.

- Bill Rowan

## LADY PENQUINS COME UP SHORT

Though this year's women's basketball team ended the season with a 7-17 record, Coach Ed DiGregario was happy with a lot of what he saw.
"I was really happy the way the girls came in and adopted my philosophy," stated Coach DiGregorio. DiGregorio's philosophy is very simple: hard work and togetherness as a team, and respect for one another is what makes a team.

A high point of the season was the Penquins sweep of the Akron Zips. "I was very happy to have defeated Akron twice. It kept us out of the cellar," DiGregorio stated.
standout from Springfield Local, led the team in scoring, averaging over 17 points a game. Carson led the team in scoring in 15 out of 24 games. Carson was also the second-leading rebounder on the team with Mary Jo Vodenichar leading the team with 9.4 caroms a game.

Margaret Peters, for the second year in a row, led the team with 128 assists, an average of 6.6 a game.
"At the middle of the season we were in the thick of the conference playoffs, with a chance for a position. We came up short at the end of the season," reported DiGregorio.
total of only 18 points. Five of the games were against league foes and if the games had been won, two YSU teams might have been going to the OVC playoffs.

DiGregorio's outlook for next year is excellent. The only graduating member on the team is senior guard Sharon Woodward. "Sharon was a good leader and a catalyst who will be greatly missed next year," states DiGregorio.

Even though Woodward will not be playing, DiGregorio expects the team to be good, and is hoping to be able to send a team to the OVC Tournament.

Sophomore Danielle Carson, a local The lady basketeers lost 6 games by a

Freshman guard Elisa Beiz drives to the hoop in the second quarter of a game against Eastern Kentucky.

Carol Wills puts a shot in in the closing minutes of a game against Kent State.

- John Saraya

Freshman Carol Sipka had an excellent season, breaking one school record and earning AllAmerican status.

## SWIMMERS MAKE WAVES

The performance of the 1983-84 women's swim team could only have been called an encore performance. The 1982-83 team set 8 records, had four All-Americans and placed in the top twenty at nationals. The 1983-84 team set 10 swimming records and placed 11 th at nationals. Even more important was the teams 7-4-0 record, acknowledged as the best ever for a YSU swim team.
"This is as fine a team as I have ever been associated with" was some of the praise coming from Head coach Joe Kemper for his female swimmers. Kemper sent five swimmers to nationals and had five gain All-American status. Returning All-Americans Cathy Sipka, Janet Kemper, Lori Greenlee and Becky MacFadyen again gained AllAmerican honors while freshmen Carol Sipka also received the honor.

Janet Kemper was again an awesome force at nationals, setting one national record and being named All-American in 5 events.

Every cloud has a silver lining, and though the men's team had a 1-9 record they showed a great amount of improvement. Greg Wetson, an excellent four year performer, ended his season on the upswing setting YSU records in the 50 free and 100 fly. Though Kemper wasn't pleased with the record, he was happy with the team's spirit. "It was a tough schedule. Our swimmers never gave up, and that tells me a lot about them." Kemper feels that opponents haven't heard the last of his men's team. There's some bad news for other swim teams, too: they definitely haven't heard the last of the women's team, since the oldest member was a sophomore this season.

- Clem Marion

Row One: Becky MacFadyen, Carol Sipka, Liz Chamberlin, Anne Murphy, Marlene Maurer, Cindy Yasher, Mary Beth Campean. Row Two: Cathy Sipka, Kay Walter, Lori Greenlee, Abbey Crelin, Janet Kemper, Peggy Duvall, Sabra Reigel. Row Three: Coach Joe Kemper, Rob Murphy, Kurt VanHorne, Todd Christener, Scott Neidrich

Cathy Sipka, a two-time All-American, is shown cheering on her teammates.

Mike Thuman springs off the board and in his specialty, the 200-meter freestyle

All-American, Lori Greenlee, is getting set to start the first leg in the record-setting 200-yard relay.

Abbey Crelin, a senior, is shown starting off in the 400 freestyle. Crelin was a steadying influence on the team throughout the season with her maturity and experience.

Senior Abbey Crelin is shown knifing through the water in the four hundred free. Crelin was a fouryear member of the Women's Swim team.

- Kelly Durst

## Gymnasts Suffer through Losing Season

- Kelly Durs

The 1983-84 season wasn't one of the best for Pam Ruby's gymnastic teams. The teams 2-8-1 record was a low point but still th the team had many reasons to look towards a brighter future. A major reason of future optimism is freshmen Michelle Frankford, who is from Girard, Ohio. "Michelle had an outstanding season for us and performed superbly all year long," said Ruby. Another reason for serious improvement in the future is the return of Wendy Gainy and Chris Dimmerling, two outstanding freshmen who couldn't perform this year because of injuries.

We faced tough teams all season long, but considering our predicament we always gave 100 percent," Ruby said about her team's performance. Gone for next year will be Sherri Laney a senior, but basically the whole team will be back

Though the team will be facing a schedule that is equally as hard as last year's with Frankford returning and the addition of both Dimmerlin and Gaimy the team should be much improved. What Ruby has done with this team is build a nucleus for a long term improvement.

Ronda Dixon shows her floor routine to the judges in hopes of getting a high score. Ronda along with Michelle Frankford was an outstanding freshmen on this year's team.

Senior Sherry Lancy shows great enthusiasm in her floor routine. Sherry competed very very well throughout the season even though she had to battle many nagging injuries throughout the season.

Row One: Shannon Auld, Row Two: Wendy Gainey, Sherri Lancy, Chris Dimmerling, Row Three: Pam Ruby Head Coach, June Van Driel, Ronda Dixon, Kathie Cedar, Michele Frankford, Pauli Barnett and Mike Kenneally Assistant Coach/Trainer.

Joan Van Driel concentrates as she performs her floor exercises. Van Driel along with Sherry Lancy was a senior performer for Coach Rubies team.

## PLAYERS IN THE PROS

People expect large schools like Notre Dame or Ohio State to produce lots of pro football players. If you told people that YSU today has 5 players in the pros they would probably be surprised and if all goes well that number could be run up to 8 . This is not a recent happening. YSU has been sending players into the pro ranks since Sloko Gill played for the Detroit Lions in 1941. Gill started a tradition that has found Penguin Alumni in Super Bowls and All-Pro games.
YSU's football program started in 1940 and in 1941 Sloko Gill played center and captained the Red and White. Gill started what could be called the $Y$ town Detroit connection because of the number of players from YSU drafted by the Lions. In fact it wasn't two years later that a running back Tony Aellio was drafted by the Lions. Football was then dropped at YSU because of World War Two. It wasn't until 1950, and Al Campana, that a YSU player donned a pro uniform. Campana played for several seasons with the Chicago Bears under the legendary George Halas. Later, a native of Campbell Ohio, Ralph Goldston played for Philadelphia and converted from the tailback spot to defensive back and played in the Canadian Football league.
Larry Jordan led the list of Penguin Pro's in the 60's. The defensive lineman was

- University Relations

Two Stars in both the pro ranks and the college ranks, Ron Jaworski and Cliff Stoudt pose for the camera in this picture taken during the mid 70's at the time Stoudt was stil playing for YSU and Jaworski was playing for the L. A. Rams.

John Goode, recently drafted by the St. Louis Cardinals, hopes to equal the success shown by many Penguin players who have made it into the pro ranks.

- John Saraya
drafted by the old A.F.L. San Diego Chargers were he played for four years. In the late 60's tightend Craig Cotton extended the list of YSU players to wear the powder blue and silver of the Detroit Lions.
The 70's found YSU's biggest star, to date, Ron Jaworski. Ron set 11 passing records while at YSU. The Polish Rifle was first drafted by the Los Angles Rams but was later traded to the Philadelphia Eagles. It wasn't until Dick Vermeil took over the reigns at Philly that Jaworski's star began to shine. Ron quarterbacked the Eagles to the Super

Bowl in 1980. Even though Ron lost he was still named the NFC's outstanding quarterback as he started the All-Pro game. A few years later many of Jaworski records would be broken by a man who would collect two Super Bowl rings with the Pittsburgh Steelers. Cliff Stoudt has finally come into his own this past year with the U.S.F.L. Birmingham Stallions. Though Stoudt did quarterback the Steelers into the playoffs in 1983 he was never fully appreciated by the fans or front office. Two of Stoudts teammates would also play in
the Pros. Lineman Ed Mc Glasson put in time with both L.A. and Philly while little wide receiver Jim "The Flea" Ferranti played for Pittsburgh.
Today two YSU players are also found far North in the C.F.L., they are 1983 Grads Paris Wicks and Jeff Patterson. While former All American Wicks has been relegated to kick return duties, Patterson is seen as a budding star at receiver, with three players drafted in the '84 Pro draft it seems as if YSU's list of Pro's will only continue to grow.

Ken George explodes off the mound in a game against Murray State. The Pens lost this game to the Racers and ended the season league play with a record of 0-15 in the OVC

The YSU baseball team had, what could be called, a rained out season this year. In all, a total of 28 games were rained out or canceled during the season because of cold weather.

The team also hit the low point this year, having one of the worst records in the history of YSU baseball with a 15-28 record. This record marks the fourth time in the schools history and the third time in the past six years that YSU's hurlers have failed to pass the .500 mark.

The season wasn't without its bright spots, as many players had an excellent season. Dennis Krancevich was the teams MVP, leading the Penguins in home runs, RBI's and hits. Krancevich also set a consecutive hit record for hits (17). Rob Luklan hit . 336 and along with Krancevich was the only Penguin over the 300 ladder. Jeff Misko was right behind Krancevich in RBl's and home runs and hit over 280 for the year.

The pitching was YSU's only major weakness, with Eric Hovanec posting the best record of 3-2.

A lack of experience and depth hurt the Penguins this year. The YSU ball players also faced a tough schedule and a tough Spring road trip.

The best thing to look forward to is the teams youth. The baseball team, like many of YSU's other teams, is loaded with talented young players who just need a little experience and seasoning.

Coach Dom Rosselli is looking forward to his team getting back on the right track next year.

- Bob Smith

Bob Smith

Superstar Dennis Krancevich goes up high to help pull off the double play. Krancevich teamed with second basemen Jeff Misko throughout the season to form an excellent defense up the middle as well as being a timely hitter

Jeff Stofko played a dependable third base all year long. The freshmen handled the hot corner very well and gained a large amount of experience.

Bob Smith

Row One: Tom Abbas, Eric Hovanec, Richard Jovanovich, Jeff Misko, Dennis Krancevich, Jeff Stofko, Mark Carlson and Mark Snoddy. Row Two: Dom Rosselli (Head Coach), Todd Nicolas, Vince Santangelo, Brian Mincher, Dave Moore, Willie Micco, Randy Haas, Rob Luklan and Troy Radinsky (Student Manager/ Sports Information Student Assistant).

- Bob Smith

## SOFTBALL TEAM PASSES 500 MARK

The fourth time proved to be the charm for head coach Rick Bevly as his 1984 women's softball squad gave the four-year head coach his season long wish; a season above the .500 mark.
"Not to make excuses," ' Bevly said, "but we lost several close contests throughout the entire season. When our backs were against the wall, however, this youthful squad was determined and fought back to overcome our adversity." The best example to echo coach Bevly's words came on a 3-2 Penquin victory over arch-rival and Ohio Valley Conference foe Akron. The Zips were ranked second in the nation at the time of their defeat and this was the cornerstone upon which Bevly and his diamond crew built an 11-9-0 spring slate.

The gem that really shined bright for Bevly and the Penguins was senior hurtler Melissa Kerner. Kerner posted a

Dianne Martino a catcher for Rick Bevly's Penguins swings the bat against Austin Peay and also played in the infield when needed

7-5 mound record with an earned run average of 0.70 over 89.33 innings of work. Michelle Ferre also received work on the mound, as she started eight games and broke even for her efforts at 4-4. Ferre and Kerner's combination on the hill gave Youngstown State a combined era of 1.49. Ferre also laid the lumber brigade by pounding the ball for a .344 batting average.

Kim Calhoun was close behind in the batting race, as she chalked up a . 399 average. Calhoun led the team in slugging percentage with a .462 mark, this included a home run, a double and two triples. Sandy Treece came close to Calhoun's slugging percentage with a
.423 percentage, which was a combination of two double and three triples. Treece led the team in walks (11), runs batted in (6) and was tied with Meg Deibel and Mary Jo Naples for team leadership in stolen bases, as the trio had three stolen sacks each.

With the majority of the team returning a broad smile is devilishly disguised by Bevly's mustache when the content of verbal conversation turns to the 1985 season. "With the youth that we had this season, they gained valuable play ing experience, and will be prepared for the 1985 campaign. I can honestly say that I'm looking forward to next season."

[^7]

Kneeling: Laurie Shebeck, Michelle Ferre, Kim Calhoun, Dianne Martino, Tina Zebosky, and Mary Jo Naples. Standing: Rick Bevly (Head Coach), Dianne Glassmeyer, Nancy Jo Balog, Melissa Kerner, Sandy Treece, Cindi Brunot, Gaylene Weigel, Rose Ann Gustafson, Jodi Parker, and Trainer Shirley Cosma.

Sandy Treece was a two sport star for YSU as she was a standout in both Volleyball and in Softball.

- Bob Smith

Michele Ferre shows her pitching form as she warms up for a game against Austin Peay. Michele was a solid sophomore performer and she also played other positions on the field.

Ann Gustafson sends a ball out deep into the Rocky Ridge outfield in a game against Eastern Kentucky.

Pitcher Michele Ferre bunts the ball in a game against Cleveland State.

This would be, Murray State player is on the wrong end of a Melissa Kerner fastball. Kerner was outstanding all season long for Coach Bevlys Penguins

## YSU PLAYERS DRAFTED

John Goode watches the action during a game Goode's chances with the Cardinals are suppose to be excellent and he could be another Pen in the Pros.

Intercollegiate football was just the beginning for YSU standouts John Goode, Paul McFadden and Rick Brunot. Now these three are headed for professional ball in the NFL.

The St. Louis Cardinals chose Goode in the fifth round of this year's draft while Philadelphia selected McFadden in the 12th round. And not to be outdone, YSU offensive guard Rick Brunot agreed to a free agent contract with the Denver Broncos Wednesday afternoon.
"We're real proud that John, Paul and Rick can continue their football careers," said YSU head coach Bill Narduzzi.

When the phone rang, May 1 st at 6 p.m. the waiting was over for former YSU tight end John Goode. At the other end was a representative of the St. Louis Cardinals telling him he had been drafted.

The only ex-YSU football player to ever be drafted higher was quarterback Ron Jaworski, a second round pick of the Philadelphia Eagles in 1973.
"I was excited about being picked by St. Louis," said Goode. "I didn'† know they were interested in me."
"Believe me," said Jim Hannifan, coach for the Cardinals, "we intend to take a good look at him. He possesses good
hands and he runs very tough."
YSU's barefoot placekicker Paul McFadden was on a plane to Philadelphia hours after being chosen by the Eagles. He was unavailable for comment.

As the draft came to a close in the early morning hours Wednesday, the Denver Broncos immediately offered YSU offensive guard Rick Brunot a free agent contract. After checking around the league, talking to representatives of Cleveland, Chicago and Pittsburgh, Brunot decided to accept the Broncos' offer.

Brunot wasn't disappointed in not be-

Paul McFadden and Nick Xides watch the Penquins play arch rival Akron. Paul was watched for the last two record setting years of his career by many pro clubs and was drafted by the Tampa Bay Bucaneers.

- John Saraya
ing drafted. "It's just as well being a free agent," he said. Brunot chose Denver because of the coaching staff, the location and better opportunity to play. "They can develop me into the kind of player they want me to be," said Brunot. He signed a three-year pact with Denver and left for the Mile High City May 7 for orientation. In June he attended a developmental camp before rookie camp began July 7 .
"I think he has a great chance to make it," said Narduzzi.

## GOLFERS

## SHOW IMPROVEMENT

"I was hoping to be above the 500 mark at the end of the season," noted first year coach Tony Joy Jr., of the 1984 golf season. "But while we fell three games, showed a lot of character while they competed in various tournaments all season long.

A Lack of general depth and experience are the only things that hurt the Penguin golfers. Coach Joy started his first season with a team that had little
or no major college golf experience. "Sure experience hurt us, but these men were always giving 100 percent," stated Joy when asked about the teams season long performance.

Joe Santagatta had the teams lowest average but Chris and Andy Hrusovksy also played exceptionally well throughout the year." Joe, Chris and Andy all played exceptionally well throughout the year and I was really
pleased with the job they did," Joy said about his three key players. "We faced some tough competition toward the end of the season," added Joy. "While the finish didn't indicate our improvement collectively as a team, the individual improvement was a marked one." Joy is looking for his team to easily break the 500 mark next year and then improve league play

- Elise Cleary

First Row: Chris Hrusovsky, Andy Hrusovsky and Joe Santagata. Second Row: Tony Joy (Head Coach), Tom Hulala, Doug Pilney, and Roger Boyd.

## PETE

## THE

## PENGUIN

What makes YSU so distinct? Is it because we are a commuter school? Is it because of the different programs we offer? No what makes YSU so distinct is it's mascot Pete the Penguin. We have had Pete around ever since a visit by the great explorer Admiral Byrd. In fact we at one time even had an actual Penguin here at YSU but the real Pete wasn't able to handle the weather. So when you think of YSU you more than likely will think of our mascot Pete The Penguin, YSU's biggest difference.

## TENNIS TEAMS SUFFER UPS AND DOWNS OF A TOUGH SEASON

In only their second year of existence, the lady Penguins posted a suburb record of 9-2-0. With only one senior, two sophomores and four freshmen, head coach Rob Adsit was a little pessimistic at the outset of the season. "I didn't think we'd be 9-2-0 come season end, but I felt that this dedicated youthful group of players would have one super season," stated Adsit.

The lady Penguins started the season off on the right foot as they downed arch rival Akron on their home court. It was then on to Cincinnati, as the more established Bearcats were just to much for the Penguins. Adsit and group regrouped to real off 6 straight wins, before losing to Allegheny at the Stambaugh courts. The Penguins went on to win their next three matches and closed out their season.

The backbone of the team was formed by freshmen Terri Malarich, Joanne McNalyy, Cheryl Puskar and Patty Miller. Patty Miller was a big surprise as she posted a 8-3-0 mark in singles competition. Miller teamed up with Lisa Tibolet to post a 5-0 doubles record. McNally, Puskar and Malarich all posted 1-4 marks on the season as singles players. Sabra Reagle was the Ione senior and she posted a 7-4 re-
cord and supplied large amounts of leadership.

What spelled success for Rob Adsits womens team only spelled frustration for Adsit and his men's unit. With only one senior and five freshmen on this years squad the men suffered through a 5-19 spring. "The frustration didn' $\dagger$ stem from any one thing about the season" noted Adsit. "The fact that we dropped six 5-4 matches and just looking for a break that never developed for us was the frustrating part of the season."

Besides the rugged Ohio Valley Conference foes, the Penguins also had to face strong squads from West Virginia University, Cincinnati and the University of Pittsburgh. Another fact that didn't help the netters was that only eight of the scheduled 24 matches were held on the concrete courts at YSU, as the netters could only muster a lone victory at home. On the road, the Penguins faired a little better, posting a 4-10-0 record.

There were a few bright spots for the squad this season thanks to Eric Beachy and Al Redmond. Beachy posted the best singles mark, going 12-12-0 in 24 matches at the number two singles
slot, while Redmond posted a 10-10-0 ledger record from the number four singles position.
"I had hoped to do better in our OVC matches," pointed out Adsit. "Our goal for next year is to do better in the OVC." Stated Adsit

Eric Beachy was one of the few shining spots on Coach Adsits mens Tennis team. Beachy recorded a 12 and 12 record on the season as a freshmen and has a promising career at YSU.

- Elise Cleary

Rob Adsit (Head Coach), Sabra Reagle, Cheryl Puskar, Terri Malarich, Joanna McNally, Lisa Tibolet and Jan Durick.

Terri Malarick was the number one singles player on the 9-2 womens Tennis Team. Malarick was a key reason for the teams improvement over the year as she posted a 7-4 record in singles.

- Elise Cleary

Kneeling: Al Redmond, Scott Kringeta, Eric Beachy, Rob McGivern. Standing: Rob Adsit (Head Coach), Jon Miller, Paul Lieber, Larry D’Andrea, Brett Carnahan, Thad Hawkes, Rich Walker, (Asst, Coach).

Scott Krengeta was another member of the tennis teams baby corp of young freshmen. Though the team lacked lots of experience they always tried their hardest in every match.

Rob McGivern was one of many freshmen to play on coach Adsits men and womens teams. McGivern was a local athlete from Boardman who decided to stay at Youngstown and play tennis at home.

Cheryl Puskar was one of several surprise freshmen who starred on the ladies team. Puskar in her first year of competition ran up a $7-4$ record on the year.

Though it's just tag football, it is still a very physical game. The DZ's ended up with a third place finish in women's tag football.

Leslie Meyers prepares to let a pass loose early in a game against the speeders.

## THE BREWSKIES

The main idea behind the intramural sports program is to have fun and stay in shape. Having fun with your friends is a major reason why the team sports are so popular. One such team was the Brewskies. The Brewskies were a group, of girls who lived in the Kilcawley Dorm and decided to put a volleyball team together. Though they played the game for fun the ladies from the dorm found themselves undefeated at the end of the season and they were crowned intramural champs. To quote one member Wendy Gainey, "Winning was really nice but the best part was just participating."

Teamwork is an important part of the game of volleyball and the Brewskies display a complete awareness of the game here.

## SENORS

The freshman gets her yearbook, she looks through the senior picture section and categorizes the photos according to whom she knows. She knows three people out of 819 , and this is cheating, since she counts her counsin

However, by the time this woman be comes a senior, she will know many more of the students in her yearbook, and that won't be counting her own picture.

Of course, the fun in a college yearbook is finally learning some students names and majors. There's always someone you pass everyday at the same hour while on your way to class,
and perhaps because the person is extremely attractive or has pink hair, you notice this person, and possibly make eye contact. But this person never registers for the same classes you register for, and after a quarter or so, there's some other stranger's face to replace that one.

For two, four, or six years or longer, we've been coming together, knowing a relative:y small group of friends and sometimes ignoring the other bodies on campus. Here are the names, majors, and photos of old friends and familiar strangers. The strangers now have alphabetical identities, except for the person with pink hair, who doesn't like to have her picture taken.

- Larry Fitzsimmons

## Homer B. Warren

From an "inauspicious undergraduate career," Homer B. Warren, instructor, marketing, has come to be the recipient of two teacher of the year awards.

Warren says he believes his undergraduate days were a setback, and overcoming this obstacle has been a major accomplishment for him. In 1982, Alpha Mu, a professional marketing association at YSU, gave him a teacher of the year award. In 1981, Black United Students also gave him such an award.

After obtaining a master's degree seven years ago, Warren went into local government, with no intention of ever teaching. "fortunately for me, my team lost a political election and I was out of a job," he states.

While looking for a job, Dr. William Binning, Chairman, political science, offered Warren a job teaching limited service. "By the end of the first class I had ever taught, I had the strangest sensation of satisfaction, which later sparked the pursuit of a teaching career," Warren recalls.

Helping students to open up in class gives Warren a great deal of satisfaction, he said. He likes students "who are good sports about my prodding and probing for answers and responses," especially when they have previously been introverted.

Warren has ABD status at Kent State University, and a Masters in Economics and a BS in BA from YSU.

## Dr. James A. Conser

Dr. A. Conser, Assistant professor, criminal justice, was chosen to appear in Who's Who in the Midwest for 1984. He is co-author of his first book, The Police Personnel System and has written several articles for journals and trade magazines. In 1978, the U.S. Jaycees named him as one of the "Outstanding Men of America."

He chose teaching over some other profession because "I wanted to have some impact on future police officials who are being educated at YSU." His career also offers opportunity for research "and (possibly) to influence public policy in the field of criminal justice, specifically policing." He adds, "Sometimes public agencies are influenced more from outside pressures than internal willingness to change."

An outstanding professor, he says, pos-
sesses honesty and dedication to his field and shows concern for his students and their goals in life. "Sometimes professors forget who they serve and become self-serving. Outstanding professors do more than just lecture or convey knowledge, they strive for understanding on the part of the learner."

YSU's faculty is well-qualified, Conser says. "In fact, we're fortunate to have and be able to retain a number of nationally recognized experts at YSU they could be teaching most anywhere."

From 1972-74, Conser was a police officer with the Arlington County, Virginia, Police Department. He has a Ph.D. from Kent State University, an M.D. from Michigan State University and an A.B. from YSU.

## Ann Harris

"I wear several hats as an educator, an author, researcher, field geologist and expert in abandoned deep mines," said Ann Harris. "Only a place such as YSU allows an individual to do such things."

Many Youngstown area residents became familiar with Harris, an associate professor in geology, when abandoned deep coal mines began collapsing in backyards or beneath garages a few years ago.

Harris said she is pleased with her work on the abandoned mines, especially with the possibility of getting mine sub-
sidence insurance established in Ohio.

Besides researching the location of the mines and finding information about them, Harris said she enjoys "making geology real to students who are just taking a science requirement."

She does this by occasionally doing something different in class. When lecturing about Isle Royale National Park, she may play a tape on wolves and show slides; for Wind Cave she may turn off the lights and show fluorescent minerals; and she may tie in geology to Indian legends about an area.
"Since the age of twelve I had alwa planned to become a geologist and teach nine months and work in the fie during the summer months," Harris sta ed. "I have been teaching one thing another since I was 12 years old.'

Harris wrote the textbook, Geology National Parks, now in its third editio One of her hobbies is collecting equir ment from abandoned deep co mines.

She has an M.S. from Miami Universi and a B.S. from Kent State Universit

- Bob Smith

## Jon M. Naberezny

"Getting students to understand what is significant in art rather than what is cute," is one of the most challenging jobs for Jon M. Naberezny, professor, art.

He tries to make class interesting for his students by arriving well-prepared. "I don't like the idea of reading from notes," he said.

Besides being extremely knowledgeable and enthusiastic about his field, an outstanding professor "must be a 'ham,' he must be fair, and above all, he must like people," Naberezny stated.

The students who please him the most are "not necessarily the brightest ones, but those who are interested and want to learn," he noted.

For 24 years, Naberezny served as chairman of the art department. He has had one-man exhibitions in New York City, Philadelphia, Ohio, Kentucky, and Michigan in the past 20 years.

Naberezny has a BS in Ed. from YSU and an MA from the University of lowa. He notes that when he entered college, his only interest was in painting and he hoped to go into a commercial area.
"But after getting married, I realized I should work towards a specific profession," he recalled. He eventually entered the teaching field.

Besides keeping up with the "latest trends in the visual arts," Naberezny enjoys golfing, bowling and cycling.

## Dr. Duane Sample

"I came from a family that was "service oriented"; teaching was a natural way to go," says Dr. Duane Sample, professor, music.
"However, my love of music and performance preceded preparation as an educator. Most musicians end up teaching in some way or another and I am glad the opportunity exists in such an attractive situation for me."

Sample recalls the rapid growth of the University in the late 60s and early 70s and says it was challenging to help write a Masters' degree program and be on the first Graduate Council.

He says YSU offers many advantages. "It is an open school, allowing many to enter if not so many finish," Sample states. "There is much talent here, and not a great deal of pretense. The stu-
dent who is serious about learning can find many helping hands."

By relating class activities to the world outside, Sample says he makes class more interesting for students. "I would be glad to never again hear a student comment on 'getting another course out of the way.'"

In addition to showing concern for the student as an individual, "Good college professors are current in their disciplines, keep the paper work flowing, and retain a sense of humor when things get most tense," Sample notes.

In 1972, Sample received the Walter E and Caroline H. Watson Distinguished Professor Award. He has an EdD from Columbia University, an M. Ed. from the University of Pittsburgh, and a BFA from Carnegie-Mellon University.

## hilip Hirsch

s "the heart of campus," Kilcawley enter provides the primary social and ecreational facility for students, and a nectic" job of organization and cordination for its director.
lanagers of food service, the bookore, the residence hall and other reas must report to Philip Hirsch, Kilawley director and assistant dean of tudent Services.
ver 250 persons work in the facility, $30-150$ of them students. With gradutions and summer sessions, the staff of udents constantly changes, making ie job of training and devising schedes difficult, Hirsch noted.

The organization and coordination ever ends, we're constantly working † it," he said. However, while Kilcawley a "hectic place," Hirsch adds he enys the fast pace.
/hen Hirsch came to YSU 11 years go, not much programming existed, ood service hardly resembled today's ttup and no staff or supplies were on
hand. By April 1974, the basic core of the building was there, but Hirsch had a lot left to do.
"Kilcawley was designed to be the primary social and recreational facility on campus," Hirch noted. The administration gave a great deal of support for renovations and additions, and the building now has a heavy traffic flow and an abundance of activities.

Kilcawley's food service offers a variety of options from the fast food at Arby's and Dairy Queen, to the traditional restaurant fare and service of The Wicker Basket. Hirsch works with the managers of such areas to maintain variety and quality.

Associate director of Kilcawley, K.J. Satrum, oversees all the operations in programming - the variety of activities available to students. Hirsch notes she was hired at the same time he was.

Other day-to-day operations, such as the candy counter, the Craft Center, the duplication center, and the music
listening room fall under Satrum's "outstanding" organizational skills, Hirsch adds.

With so much activity, Kilcawley must be properly maintained. "If you keep it well-maintained, students respect the building, with 12 or 13 entrances accommodating a constant flow of students, the building requires a great deal of maintenance, but Hirsch notes there is very little vandalism.

Hirsch's expectations of students are high, one key to their respect for the building. He also sets high expectations for his student employees, he said.
"They have a very good record of providing services," Hirsch stated. "Let them know your expectations, train them properly and they will produce."

Before coming to YSU in July, 1973, Hirsch had a similar job at New York University. He has a B.A. in history from State University of New York at Oswego.

## Dr. Earl E. Eminhizer

"The hand I have had in improving the YSU campus for handicapped students and faculty is probably my most lasting contribution," stated Dr. Earl E. Eminhizer, associate professor, religious studies.

When he first joined the faculty in 1958, there were no facilities for the handicapped. As a member and chairman of the Governor's Committee on Employment of the Handicapped, Eminhizer helped pass laws and see money appropriated for improvements, along with other groups and the University itself. "Changes are still in progress, and we now have good accessibility," he noted.

Some of the rewards of teaching come in the opportunity to do research, Eminhizer said. Researching figures in American Church History like Alẹxander Campbell, founder of Bethany College
and the Disciples of Christ Church, "opens new vistas in one's area," he stated.

By discovering previously unknown facts in one's subject, the profession becomes exciting, Eminhizer said, because it can change current understanding and cause the scholar "to eagerly await the next new idea or material he may find. "

One of Eminhizer's main hobbies is photography, because he delights in taking pictures of old churches, especially Pre-Civil War American churches.

Eminhizer has a ThD from the School of Theology at Claremont, a ThM from Crozer Theological Seminary, a BS in ED from Youngstown College, a $B D$ from Crozer Theological Seminary and a BA from Furman University

## Dr. Dean R. Brown

Dr. Dean R. Brown has found success with other jobs besides teaching, but he discovered he liked teaching too much to give it up.

For over six years, Brown was chairman and acting chairman of mathematical and computer sciences at YSU. In that time he saw the department grow and prosper, but he left the position in September 1983, so he could return to fulltime teaching.

After working four years as an engineer for the General Electric Research and Development Center, Schenectady, N.Y., Brown left so he could teach. "I did so because I wanted to be doing something directly for people, where there was direct contact with the person being served."

Brown enjoys responsive students. "Ire-
call one student whose face was readable," he said. I could always tell if he was understanding what was being said or not by his facial expression. I really enjoyed having him in the class."

To make class more interesting for his students, Brown said he includes examples or background "to make the material being studied seem worth knowing." He also said he asks questions and gives unannounced quizzes - "That seems to stir up interest!"

When not teaching, Largent studies history and Christianity and he notes that he likes trains, "full-size and miniature."

Brown studied at Ohio State University, Rensselaer Polytechnic Institute and Rose Polytechnic Institute. He is from Terre Haute, Indiana and has two sons in Poland High School.

## Dr. David C. Genaway

four years, circulation and usage of e library have increased, regardless f enrollment, and the University Librarin doesn't seem to be making the difcult easier for himself.
/hile an undergraduate, Dr. David C. enaway heard a speech which adised, "Approach the difficult as hough it were easy and the easy as if it ere difficult."
ne challenging job of planning, admintering and evaluating the operation f Maag Library is made easier with the ght attitude, Genaway says, and he hds the growing popularity of the lirary necessitates an open ear to stuents and staff alike.
enaway began his position here in uly 1980. In 1979-80, 118,000 books cirulated; in 1982-83 140,000 were hecked out. The turnstile count for $979-80$ shows 565,000 persons used ne library; in 1982-83, 699,000 did so. licroform use also increased in that eriod.

Some noticeable changes have taken place under Genaway's administration. The government documents section was moved to the sixth floor from the third. Book sales, the first of which raised $\$ 2,000$ for the book fund, have been made an everyday part of library operations.

The acquisitions budget has gone up from $\$ 492,923$ in 1979-80 to $\$ 660,000$ in 1983-84. Genaway notes this helps departments to "beef up" their collections of books when they're being observed for accreditation.

More interesting, perhaps, is a proposed computerized card catalog system. Within one year, a terminal should be in operation which will allow one to search for books by author, subject or title. Eventually, a terminal may be available in each University building with more terminals in the library making the current card catalog almost obsolete.

Genaway's expertise in library systems
not only helps Maag Library operate efficiently but it helps others to learn. In Columbus last year, he conducted a National Conference on Integrated On-Line Systems. A publishing company will soon release abook he wrote, Integrated On-Line Library Systems. An article he wrote for a professional magazine has elicited responses and requests from several foreign nations, Genaway said.

Before coming to YSU, Genaway held similar positions on other coilege libraries. He has also taught at a library school, a special education school and a junior academy. He has a PhD from the University of Minnesota, an MALS from the University of Michigan, an MA from Andrews University, and a BA from Atlantic Union College.

Besides conducting workshops and conferences and participating in professional and community activities, Genaway enjoys flying, skiing and traveling.

- Bob Smith

## Dr. William R. McGraw

Dr. William R. McGraw, dean, F\&PA, says the YSU community should participate more in "activities that cut across departmental and college lines."

For example, he said students, faculty and administration should become more actively involved in social and cultural activities concerning the University as a whole.

The seriousness of students and faculty, the excellent physical facilities, "the rapidly improving library," and a faculty and staff experimenting with new ideas, impress McGraw as the best things the University offers.

As the chief administrator of the Col-
lege of Fine and Performing Arts, McGraw must try to raise the general attitude others have toward the arts and speech communication, he states.

McGraw has held previous administrative positions at Ohio University at Athens, and at West Virginia University. He has served in the Naval Air Reserve, and as the past president of the American Theatre Association.

An active member of the Canfield Presbyterian Church, McGraw also enjoys traveling and horsemanship. He has toured Europe and Africa on ten separate occasions; and saw the Orient in 1978, including the Peoples' Republic of China.

- Larry Fitzsimmons
"I'm always looking for teaching strategies/tricks that will help the students delve deeply into the area of music theory," said Dr. Edward J. Largent, associate professor, music.
"I seek to generate curiosity in the students: curiosity not only with regard to music and its phenomenology but intellectual curiosity, the willingness to look into new areas or problems within the academic arena," he continued.

But Largent would like to see more of students who work hard at their studies in all academic areas, "regardless of talent or academic ability."

For freshmen music theory courses, Largent developed a computer-assisted instruction program and he also formed classes in electronic music.

Keeping himself in contact with the changing world of music theory is one of the most challenging aspects of his profession, Largent said. So is remaining intellectually active through research and stimulating students to "go beyond their own level."

As a licensed referee with the United States Soccer Federation, Largent referees most of the year, especially at the youth level in leagues throughout northeastern Ohio. "I'm also an avid computer person and am wearing out my APPLE lle very quickly," he stated.

Largent has a PhD in music from Ohio State University, a Master of Music from the University of Illinois, a Bachelor of Music and a BS from Ohio State.

## eggy J. Potts

nere is one thing and one thing only at makes an outstanding professor d that is the student," said Peggy J. tts, assistant professor, business edution and technology.
/ithout the student constantly seek, challenging and questioning the ucator there is no way that the acher can fulfill his role," Potts stated. he student is the one that pushes me research, create and devise leces and material to stimulate them to highest degree."
give her students the best educan possible, Potts noted she brings in
professional speakers, equipment vendors, former students, slides and movies to show the latest in office technology.

Former students from the BET department have achieved success after graduation, Potts stated. Many have landed noteworthy positions in business, government and education, giving Potts a great deal of satisfaction as a teacher.

In 12 years of teaching at YSU, Potts said she has "thoroughly enjoyed each and every year," and is always looking for more ways to improve her effectiveness.

While on Faculty Improvement Leave two years ago, Potts visited over 50 companies in the United States to review their equipment, applications and employee training needs. She also worked in some of the companies to gain first-hand knowledge about office automation.

Potts stated that her previous employment with IBM as an Advanced Marketing Support Representative, as well as her educational background, has helped her to bring out the best in her students.

- Bob Smith

## Joan F. DiGuilio

"After many years devoted to the practice, supervision and administration of social work services, I sought an opportunity to impart the knowledge I possessed to students who aspired to the field," says Joan F. DiGuilio, assistant professor, social work, about her decision to teach.

DiGuilio has authored several articles about her field, and has much experience as a marriage and family therapist.

Instructors with "a thorough in-depth knowledge of the subject matter taught, enthusiasm, the ability to inspire, and the capacity to relate to the students" are generally the outstanding ones, she states.

A low student-faculty ratio, and insightful, curious students make YSU an excellent place to teach, DiGuilio notes.

Encouraging stimulating discussions and personalizing the class to the needs of individual students helps course content to become "alive and meaningful" in her classes, she says. "I try to make the class relevant to current social work practices."

DiGuilio is completing work on her PhD dissertation at Case Western Reserve University, School of Applied Social Sciences. She holds an MA in social work from the University of Chicago and a BA from the College of St. Francis, Joliet, III.

## Dr. James E. Dale

"I like working with people more than working with things," said Dr. James E. Dale, noting that he was an architectural engineer for 10 years before returning to graduate school.

Dale, a professor of political and social science, said he likes teaching the best, although he feels that scholarship and University service are also important parts of his profession.

While teaching gives him satisfaction, so do his other numerous achievements - high teacher evaluations, production of a nationally televised film about ethnic groups in Youngstown, a PhD, a scholarship to Harvard, and being the Minnesota State Wrestling Champion in 1953.

Students with broad interests and excitement about learning, Dale stated, enhance the rewards of teaching.

The excellent faculty, the beauty and proximity of the campus, and the low cost are strong advantages YSU has in its favor, Dale noted.

The Youngstown-Western Pennsylvania area itself is very beautiful yearround, Dale stated, adding that he enjoys hiking in the area.

Dale attended Harvard College and the University of Minnesota. He has an MA and PhD in American studies, an MA in political science, and a BA in architecture.

## Dr. Sally M. Hotchkiss

"A topnotch central administration, a knowledgeable and effective faculty and a student body that is, for the most part, highly motivated and cooperative," make YSU an excellent place to work or receive an education, said Dr. Sally M. Hotchkiss.

As the associate provost and dean of graduate studies, Hotchkiss administers the Graduate School and faculty research; provides general administrative supervision to Maag Library and Continuing Education; serves as administrative liaison to academic advisors:
and approves limited-service faculty contracts.

With all of these responsibilities, Hotchkiss stated she misses the student contact she enjoyed as a faculty member.
"Better communication, particularly regarding the budgetary constraints that make some unpopular administrative decisions necessary," could maximize relations among students, faculty and administration, she noted.

Hotchkiss holds an A.B. from Randolph-

Macon Woman's College, Lynchburg Va., and Ph.D. from University of Minne sota. All degrees are in psychology.

She serves the community as immedi ate past president of the Ohio Board o Psychology; a Senior Warden and layr eader at St. James Episcopal Church Boardman; and as a board member o Hospice of Youngstown, Inc. Her othe interests center chiefly about her hus band, two grown sons, daughter-in law and travel.

## Dr. Daniel J. O'Neill

"YSU's facilities are much better than the more prestigious liberal arts colleges," stated Dr. Daniel J. O’Neill, professor, speech communication and theatre.
"We focus on undergraduate instruction and that puts us ahead of many of our sister institutions who only pay lip service to undergraduate education," he continued.

While in Detroit, Mich., O'Neill said he first realized urban universities provide the literate poor with a chance for upward mobility.

O'Neill chose to teach because of the personal freedom the job offers, he
stated. "It's a great way of life and I have no regrets."

To make the subject matter "come alive for students and set the scene for new insights," O'Neill said he tries to use as much variety as possible, in the form of role playing, informal and structured activities, lectures and discussions.

As an ardent Peter Sellers fan, O'Neill said he will also imitate Sellers and classic scenes from the Pink Panther movies for his classes.

O'Neill had a PhD from Michigan State, an MA from Bowling Green, and a BA from Wayne State.

## Melvin P. Mamula

Melvin P. Mamula, professor of marketing, says he chose to teach because of the "great satisfaction I derive from knowing that to some degree I am helping someone."

To make class interesting for his students, he introduces "real life" examples of textbook material, avoids repetition, and lets students become more involved by letting them learn by doing, he states.

The best professors, he says, put their students' needs first. Such professors are patient, understanding and compassionate. Mamula notes the most difficult aspect of his profession is "to keep coming up with better ways to encourage students to do their best."

The kind of students who please Ma-
mula are ones who are mannerly, professional in conduct, and above all, enthusiastic. 'I dislike 'crybabies' and 'chiselers,'" he adds.

Having the respect of colleagues, business associates and students, authoring at least 100 "noteworthy" advertisements, raising a family and earning the rank of professor are some of the accomplishments Mamula says he is most proud of.

Mamula has a Master of Letters from the University of Pittsburgh and a BS in BA from YSU, where he majored in advertising. He notes he has also learned from his experiences in the U.S. Navy, being at Long Beach City College and belonging to the Newspaper Institute of America.

## r. Mary B. Loud

Dr. Mary B. Loud, chairman, foreign inguages, her field is a fascinating ne, but one that must be protected om banishment.
believe that at present the biggest nallenge is to defend and convince eople of the relevance of a program f study whose only finality is intellectugrowth," she states.

There is a very real danger that the urrent impatience, understandable ough it may be, with everything that
does not promise an immediate payoff will destroy the intellectual foundations upon which our culture rests. Theoretical work is the lifeblood of any advanced culture, and without the money and time to devote to renewing this blood, stagnation, decay, and collapse will result."

Students should also find the study of foreign languages inherently interesting. "To me, the subject matter itself is of such interest that I cannot imagine having to do anything to make the
class interesting but present the material as clearly as possible," she states.

Loud chaired the committee which planned the new language lab in the College of Arts and Sciences. She also designed a self-paced course in elementary Spanish.

She has a Ph.D from the University of Kentucky, an M.A. from the University of North Carolina and a B.A. from the University of Wisconsin.

## Dr. Bernard T. Gillis

Dr. Bernard T. Gillis, Provost, has a long list of achievements from other universities and with other organizations.

Gillis obtained his BS degree in Chemistry from Loras College, Dubuque, lowa in 1952. Doctoral research was performed under the direction of Sr. Calvin L. Stevens at Wayne State University culminating in the PhD degree in 1956. In 1955 he was awarded the Wayne State University Chapter, Society of the Sigma Xi Research Award.

In 1956 he was at the Massachusetts Institute of Technology as a post-doctoral fellow and engaged in the structure proof of a natural product, Fun-
gichromin, under the direction of Dr. Arthur C. Cope.

He accepted an assistant professorship at Duquesne University in 1957, rose to associate professor in 1960 and to professor of chemistry in 1964. He was appointed associate chairman of chemistry in February, 1965. In September 1968, he was appointed acting assistant dean of the graduate school. He came to Indiana University of Pennsylvania in September, 1970, as dean of academic affairs and faculty. In 1971 he was appointed academic vice president and provost. In 1980 he came to YSU to serve as provost.

## Dr. Lawrence E. Looby

Dr. Lawrence E. Looby, associate vice president of public services, finds many ingredients have contributed to making YSU an excellent place to work or receive an education.

The University offers: "A solid faculty with good academic credentials, a conducive, pleasant physical environment, an interested and committed Board of Trustees, and a responsive administration."

Looby is the Area Officer responsible for Intercollegiate Athletics, the department of telecommunications, University Relations, Urban Studies, Cushwa Center and alumni activities.

Looby was previously employed at the University of Colorado and Ohio University. He has a Ph.D. from the University of Nebraska, and an M.A. and B.A. from Michigan State University.

## Dr. James A. Scriven

Dr. James A. Scriven, Assistant Provost or Academic Services, keeps many behind-the-scenes operations running smoothly.

As Assistant Provost, he plans, manages and evaluates all operational, financial and personnel activities of the following offices: Admissions, Records, Registrar, Student Data Services, Developmental Education and the Media Center.

Scriven notes that YSU has many ingredients which make it an excellent place for both student and employee. The University offers an excellent faculty, staff and administration; it maintains high-quality course offerings and curricula; features an outstanding physical environment; and most importantly, Scriven added, the University community promotes a high degree of cooperation among students, faculty and staff.

In addition to his numerous duties at th University, Dr. Scriven holds the hono ary position of Civilian Aide to the Ser retary of the Army. In this position $r$ meets with representatives of vario educational, civic and social group who are often associated with YS "For others, my presence provides introduction to the University and to o role in the community." Dr. Scrive holds an EdD from the University Oklahoma, and an MS and a BS fro Kansas State University.

## Dr. Gordon E. Longmuir

"The kinds of students that please me most are those who have to struggle to achieve," says Dr. Gordon E. Longmuir "I get great enjoyment seeing those individuals show improvement after working hard for a certain period of time."

An associate professor in health and physical education, Longmuir says an instructor must strive to make his classes relevant to students. "The information should be current, up-to-date and interesting - in and of itself," he stated.

Longmuir chose teaching as a profession because he enjoys working with individuals of all ages and working in an educational setting, he said. "I also get a thrill out of seeing people learn.'

Some of Longmuir's hobbies include wilderness survival programs, particularly

Outward Bound. He has gone mountaineering, and frequently went camping in the west.

His educational background shows a great deal of traveling. He has a Doctor of Education from the University of New Mexico and at the University of North Dakota he obtained a Master of Science and a BS in Education. He graduated from high school in Winnipeg, Manitoba, Canada.
"I think that one of the best educational experiences I have had has been outside the realm of formal education," Longmuir states. "Just the moving from western Canada to North Dakota, then to Minnesota and New Mexico and finally to Ohio provided me with a genuine understanding of people from various ethnic and racial groups."

## Dr. Robert K. Smith

'I'm usually in the middle of several hings at once, and have to be ready o drop any one thing and do somehing entirely different with little or no prior notice," said Dr. Robert K. Smith.

As assistant dean of Arts \& Sciences, imith has many responsibilities. Primar$y$, he is responsible for A\&S students, but he is also the director of the Individalized Curriculum Program and an un-
dergraduate program for BS/MD students. "Whatever else needs attention," Smith said, becomes part of his duties.

Fortunately, Smith finds his work interesting and challenging, the people, pleasant to work with, and the facilities, good, Smith stated.

With degrees in chemistry from Ford

Technology, the University of Massachusetts and the University of Wyoming, Smith said he expects to return to YSU's chemistry department this fall for full-time teaching.

Some of Smith's outside interests include outdoor sports such as skiing and hiking, photography, especially of scenery and wild animals, and spending time with his son.

## Dr. Leslie V. Szirmay

Educated in Hungary, Austria and the United States, Dr. Leslie V. Szirmay looks forward to fulfilling an invitation to teach and do research in France.

Szirmay, a professor of chemical/metallurgical engineering, will teach at the University of Toulouse in France during the 1984-85 academic year.

He has a BS in Chemistry from Eotvos University in Hungary, an MS from the University of Detroit, an ME from lowa State University, and a PhD from the University of Denver and a PE from Ontario.

Although he has worked as a chemical and nuclear engineer, Szirmay said he
found teaching the most rewarding profession.

Szirmay realizes technical subjects can become monotonous for students, so he said he uses animation to hold their interest.

Students who will respond to a professor's efforts by generating a genuine interest toward the subject please him the most, Szirmay said.

Szirmay has a patent in gas separation by adsorption, and in addition to his scholarly accomplishments, Szirmay finds time for such hobbies as skiing, tennis and paddling a kayak.

## Dr. Jack D. Bakos Jr.

Dr. Jack D. Bakos Jr., chairman, civil engineering, said he has much to be proud of.

He was named a distinguished professor, as both a faculty member and an administrator.

He has published two textbooks on structural engineering.

He has directed the department through a successful accreditation program.

Perhaps the most fulfilling aspect of his profession, Bakos said, is being able to inspire a student to achieve.

To do this, he must keep abreast of
new developments in engineering, bring this knowledge to the classroom and show students the importance of the information through his own enthusiasm, Bakos noted.

But students must "walk the extra mile," too.

Bakos likes to see hard workers ask questions, submit neat and professional homework and projects, and seek to expand their knowledge.

Bakos obtained a BSCE from the University of Akron and an MSCE and a PhD from West Virginia University. He enjoys running, golf, bowling and card playing.

- Gene DeChristoforo

## Theodore S. Chrobak

Tremendous growth in his department has pleased Theodore S. Chrobak, professor, computer technology.

Chrobak noted the computer technology department has grown from an associate to a bachelor's degree program, with an initial enrollment of 100 students to the present 600.

The University itself offers some shining advantages he said, citing a variety of curricula available and a reasonable tuition rate.

Keeping up with changing technology makes Chrobak's profession a challenging one, but conscientious and industrious students help to make teach-
ing a pleasant experience, he said.

Taking time to talk to students, making class interesting through the use of visual aids, humor and class participation increase his effectiveness, Chrobak stated.

He recalled that the late Professor Paul Luginbill, a former teacher of his, asked him to join the chemical engineering department, an offer Chrobak said he "was happy to accept."

Chrobak has a BE from YSU and an MS from West Virginia University. He lives in New Bedford, Pa., with his wife and two sons, where he enjoys such hobbies as auto restoration.

## Dr. Ilajean Feldmiller

For llajean Feldmiller, professor, home economics, teaching is the best way to learn.

Professors, she said, should help students and faculty develop their own value system, make people challenge themselves and increase motivation in all students, regardless of their talents.

To do this, Feldmiller noted she tries to relate content to current conditions, organize information, present projects and activities for her classes, and keep an open mind about all of her students.

The best students, she noted, are ones who ask questions after some thought, recognize value in all people, give a rationale for their decisions, and take

## responsibility.

YSU has much to offer students and faculty, Feldmiller stated. Students have contacts with a variety of people on campus. YSU has "humility," Feldmiller said, "We aren't constantly saying how good we are." In addition, the departments, schools and administration maintain proper coordination.

When not teaching, Feldmiller enjoys swimming a mile, walking, bird watching, reading, weaving, hand work, cooking and spending time with friends.

Feldmiller has an MS and PhD from Ohio State University and a BS from Pennsylvania State University.

## Dr. Mervin Kohn

"Teaching is very much like selling," said Mervin Kohn, professor, management.
"You must know your product (subject), be sold on it, and be able to sell it to your clients (students)."

Kohn should know. He spent 27 years in his own business, while teaching parttime for 17 years. His decision to teach full-time "came naturally," he said.

He believes an outstanding professor should set high expectations for his students and stimulate them to achieve those expectations. Kohn admits he is considered a "tough" professor, and admires students willing to work with him, finding that students who are serious about their work will get the most out of each course.

Kohn said he hopes "something about me" will rub off on his students, making them better individuals.

He has several achievements, including his election to Phi Kappa Phi and Alpha Kappa Psi. He has published a textbook, Dynamic Managing, which has been used by YSU and other universities since 1977.

But the accomplishment that pleases him most is helping to influence students to seek careers in business, start their own businesses or teach.

Kohn has a PhD in business administration from St. Louis University, an MS in Commerce from St. Louis and an $A B$ from the University of Missouri.

## Dr. Taylor Alderman

Dr. Taylor Alderman, Vice President, Personnel Services, has held that position since his appointment in 1974. A native Virginian and YSU faculty member since 1969, Alderman earned a bachelor of arts degree in English from Emory and Henry College, MA in American Civilization from the University of New Mexico.

He has taught at Christopher Newport

College of the College of William and Mary, for two years served as faculty advisor to The Jambar, and was chairman of the English department at YSU.

Dr. Alderman is affiliated with the Modern Language Association and the Midwest Modern Language Association.

Dr. Taylor Alderman and his wife Pamela reside in Youngstown.

## Mary Ann Echols

"There are so many things that need to be done and so little time to do it all," said Mary Ann Echols, assistant for Minority Student Services.

Her job is to assist minority students by identifying their needs, to provide information and assistance and to develop special programs.

Students should be more assertive in using such services and in asking questions, Echols noted. "Many faculty and administrators are genuinely concerned about students' total development and are willing to go beyond their
call of duty to enhance that development," she added.

Echols also keeps active in the community. She presents workshops on such topics as education, careers and race relations to community groups. She serves on several boards: the YWCA, Help Hotline, Lake to River Girl Scouts Committee, the United Way Committee and Cooperative Campus Ministry.

At YSU, Echols obtained an $A B$ in sociology and an MS in education/counseling.

## Dr. Victor A. Richley

YSU faculty and administration center on a common goal - student education - with loyalty, dedication and enthusiasm, stated Dr. Victor A. Richley, dean, CAST.

This characteristic, Richley said, makes him happy here.

YSU's medium size, experienced faculty and variety of program selections add up to make an excellent undergraduate educational opportunity, he noted.

To maximize relations among students, faculty and administration, Richley said there should be continued open communication and time to share in the
mutual solution of common problems.
As the man who plans, administers and evaluates academic, operational, financial and personnel activities for CAST, Richley commented that "there never seems to be enough faculty, courses, equipment and finances to meet the need."

Richley has a BE from YSU, an MSE from the University of Akron, and a PhD from the University of Pittsburgh; all his degrees are in electrical engineering.

Richley added that he is "reasonably active" in community, scouting, church and professional activities.

## Dr. L. Anthony Whitney, Jr.

By the year 2000, health may be a major industry, said Dr. L. Anthony Whitney, Jr., associate professor, health and physical education.

And with the number of projects Whitney has started, this certainly seems likely.

From a grant proposal in 1970 to a private, non-profit, tax exempt corporation, Whitney has helped build up the Professional Cardiac Rehabilitation (PROCARE) Program. He is currently developing a YSU Lifestyle Evaluation program and a new H\&PE $A B$ degree in
fitness management and health promotion.

Whitney is also the president of Health Promotion Associates, Inc., a consulting firm which develops health promotion programs for various organizations.

With all this experience, Whitney said he chose teaching because he feels his "purpose" in life is to help people lead healthier lives so that they may "meet their respective goals with less effort."

To be a good professor in the health field, Whitney suggested that one must
maintain current skills and experienc - "one who can do as well as teaches."

Whitney has a BS in education fro YSU, an MS in physical education fro Springfield College in Massachuset and a PhD from Ohio State Universit

Whitney is one of 200 certified progra directors in the American College Sports Medicine, and a commander the US Naval Reserve.

## Dr. James C. Morrison

"Most of psychology is intrinsically interesting," stated Dr. James C. Morrison, chairman, psychology.

When it isn't, Morrison said he will use examples "which are at once humorous enough to be palatable and bizarre enough to be remembered."

Morrison's technique must be working He recalls that four outstanding students who graduated in the spring started out in his fall General Psychology class four years ago. "It's been a joy for me to watch their progress over this time," he added.

Many psychology students, in fact, have gone on to gain PhD's and other professional degrees, something Morri-
son attributes to his department's ability to equip its labs and training areas with proper equipment and to attract first-rate faculty members.

Morrison said he chose teaching as a profession because, "In what other work environment do you have a certain change of scenery (new classes) every 11 weeks, and can count such diverse types as historians, mathematicians, anthropologists, poets, biologists, geologists and nurses as your friends and colleagues?"

Morrison obtained a PhD from Michigan State University, an MA from the University of Tennessee, and a BA from the University of Oregon.

## Dr. Glorianne M. Leck

Dr. Glorianne M. Leck, professor, foundations of education, said she wants to help students learn that "the classes are theirs, not mine."

She stated, "as students learn that education is earned through interest and pursuit, schooling and classes simply become an occasion for mutual exchange of information and ideas."

Leck enjoys teaching students "who are authentically in pursuit of their own answers and their own education." She added that she finds "a great deal of challenge in working with those who have not yet chosen to create their
own lives and to take responsibility for that creation."

Leck said she chose to teach because she believes "ignorance is inexcusable and curable." Teaching also gives her the chance to learn, share her learning, and help others to realize a more just and creative society - Leck stressed her interest in freedom and distribution of opportunity and social tolerance.

At the University of Wisconsin, Leck earned a PhD in philosophy and educational policy studies, an MS in educational policy studies, and a BS in philosophy and history of culture.

## Thomas W. Doctor

Keeping the often-used facilities at YSU ahead of overall demand is a big job, one the Computer Center director says "is a difficult assignment."

Thomas W. Doctor noted he must not only ensure that demand is met, he must see that good service is provided. Currently, he is planning for the upgrading of facilities.

Not only does he plan, direct, and administer computer activities, Doctor teaches part-time.

He said he feels teaching allows him direct contact with students, something essential to all administrators and faculty.

YSU has in its favor a relatively small size, a good student/faculty ratio, excellent facilities, a mature student body,
an appropriate emphasis on longrange planning and a cooperative faculty, Doctor stated.

However, he suggested the Univeristy needs more clarification on matters regarding use and plans for computing.

Before he became Computer Center director, Doctor was assistant director for 10 years, and he worked at Goodyear Aerospace and IBM.

Doctor serves on many area committees, and offers his expertise on com-puter-related matters to the community. He notes he is deeply involved with Children's International Summer Village.

Doctor has a BS in math from Grove City College, and pursued an MBA in management at YSU.

## Pat Bleidt

For Pat Bleidt, Assistant Dean, Student Services, fonding enough finding enough time tp examine important issues and concerns, and having adequate resources to expand or initiate programs and services is one of the most difficult aspects of her job.

Her job includes responding to the general concerns of students, and administrating Career Services, Counseling Services, Students Serving Students.

Interacting with students in these programs makes her career enjoyable,
said Bleidt. Her special area of interest and expertise, she noted, concerns students in leadership roles.

Also adding to the rewards of her profession are dedicated staff and the flexibility the University allows her to have.

Bleidt has a Bachelorof Music from Hendrix College, in Conway, Arkansas, a Master of Music from the University of Oklahome, and she did postgraduate work in higher education at the University of Arkansas.

## Dr. Janet E. Del Bene

Dr. Janet E. Del Bene, professor, chemistry, has met success, both as a scholar and a teacher.

She has conducted and continues to conduct a successful research program funded by external research grants, which has resulted in the publication of 70 papers.

She received one of 20 Camille and Henry Breyfus Foundation TeacherScholar Grants, a national award, in 1974.

She has received the YSU Distinguished Professor Award four times.

Del Bene chose teaching as a profession because a university provides the
academic freedom to pursue research and scholarly activities and to have contact with and teach young people during an important period in their lives, she stated.

The profession presented many challenges, in that she must continue to conduct a vigorous and competitive research program and always strive to increase her effectiveness as a teacher.

At YSU, Del Bene graduated Summa Cum Laude with a BS and AB. She has a PhD from the University of Cincinnati, and performed postdoctoral work at the Theoretical Chemistry Institute, University of Wisconsin and at the Mellon Institute Institute.

## Charles H. Whitman

Charles H. Whitman, director of Career Services, has the difficult task of seeing to it that all YSU students will be exposed to "quality job opportunities."

As the Director of Career Services, Whitman helps ensure students receive aid on planning their careers and obtaining suitable placement.

Most students, by the time they graduate, will have used at least some of the services, from helpful hints about
resumes, to important interview arrangements that may lead to a fascinating job in one's area of interest.

Whitman recalls that he has pursued three other careers before settling into his position at YSU. He was an "entrepreneur", a high school teacher and a higher education administrator.

He holds a BS in Business Education and an MD in Secondary Administration from YSU.

Busick, Louis M.: BE in Mechanical Engineering.
Busonik, Marie E.: BS in BA.
Byler, Eugene E.: BS in BA in Accounting. Byers, Teffrey A.: BS in AS, American Society for Metals Vice President, Centurians Second Vice President.

## C ccc

Calinger, Joe: BA in History, Student Council, History Club, Young Democrats, Kilcawley Center Program Board, Program and Activities Council.
Campean, John S.: AAS in Computer Technology.
Cannatti, Carla: BA in Psychology.
Carlisle, Alice M.: AB in Social Work
Carlozzi, Mary: AAS in Nursing.
Carison, Catherine L.: BE in Industrial Engineering, American Institute of Industrial Engineering.
Carson, Anita M.: BS in Special Education/ EMR, Student National Education Asso-
ciation, YSU Centurians.
Carter, Ida M.: BS in BA in Marketing, American Marketing Association.
Casey, Kelly A.: BA in Sociology.
Cashwell, Lynne: BA in Pre-Law, Alpha Kappa Alpha Sorority Incorporated.
Cato, Debra L.: AAB in Secretarial Studies.
Ceremuga, Lori B.: BS in Comprehensive Business Education.
Chalaka, Ravi Shankar: MBA, Federation of International Students President, Student Council Representative, Student Government, India Student Association.
Chauvin, David R.: BFA in Graphics.
Chiavazza, Robin: AAS in Medical Assisting Technology, Intramurals.
Chi-Cheng, Chen: MS in Mechanical Engineering.
Chickonoski, Frances M.: BS in Elementary Education.
Chilenski, Dora: BS in Elementary Education/Learning Disabilities and Behavioral Disorders, Circle K Vice President, Student National Education Association.
Chismar, Janet: BA in Social Studies, NEON staff.
Choppa, Kathleen R.: AAS in Nursing, Irish Club President and Vice President
Christoff, David J.: BS Computer Technology, Phi Kappa Phi.
Chuck, Cathy A.: AAS in Respiratory Therapy.
Chuparkoff, Stephen J.: BS in Mathematics, Students Serving Students, Phi Mu Epsilon, Intramurals.
Clark, Curtis L.: BS in AS in Electrical Engineering Technology.
Clutter, Erin: BS in Health and Physical Education, H\& PE Club Secretary and President, Centurians, Intramural Supervisor, Life guard, intercollegiate Field Hockey.
Colby, Edward L.: BS in Biology, Alpha EpsiIon Delta Vice President, Omicron Lambda, Philiatric Society Vice President, Outdoor Club Treasurer.
Collins, Christine M.: AAS in Nursing
Conley, Amanda: BA in Psychology.
Connelly, Raymond: BS
Cook, Charles: BA in Speech Communications, Alpha Epsilon Rho, Kilcawley Center Program Board.
Cope, Mark W.: BS in BA in Marketing, American Marketing Association, A1pha Mu.
Coppola, Jon: BS in BA in Accounting, AIpha Tau Gamma
Corbett, Judith C.: BA in Psychology, Que Essence Club
Corsell, Dominic J.: BS in BA in Accounting. Alpha Tau Gamma.
Costello, Nicholas J.: BFA, Communications Club.
Coughlin, John: BA in Accounting, Intramurals.
Cougras, Cathy: BS in Elementary Education.
Coy, Philip: BE in Mechanical Engineering. American Society of Mechanical Engineers, Ohio Society of Professional Engineers.
Creighton, Ralph: BS in industrial Management, Sigma Phi Epsilon Fraternity.
Crews, David P.: BS in BA in Accounting.
Croysdale, Joyce: BS in Computer Science, Math and Computer Science Club, Phi Mu Epsion
Cruz, Linda M.: AAS in Medical Laboratory Technology
Cullen, Marie D.: AAS in Legal Secretarial Studies.
Cunningham, Donald: BE in Electrical Engineering, Institute of Electronics and Electrical Engineers.
Cunningham, Lawrence L.: AAB in Transportation Management.

## D ddd

Dailey, James A.: BA in Elementary Education.
D'Alessanoro, Joseph A.: BS in Mathematics, Pi Mu Epsilon.
Daliman, Marianne: BS in BA in Advertising/Public Relations, Alpha Delta Sigma Vice President, Jambar Staff Advertis-
ing Sales Manager, American Advertising Federation Honorary Society, Business Curriculum Committee.
D'Amato, Carmela: BM in Music/Vocal Performance, Dana Chorale, Dana Madrigal Singers.
D'Amato, Kathleen A.: AAS in Computer Technology.
D'Ambrosi, Toni: AAS in Medical Assisting Technology.
Damicone, Susan: AAS in Applied Science, BS in Education (Baldwin-Wallace College).
Dangelo, Thomas: BS in Computer Science.
D'Apolito, James P.: BS in School of Arts and Science, Philiatric Society 2 nd Vice President, 2nd Vice President and "Scalpel" reporter for Alpha Epsilon Delta, Omicron Lambda, Phi Kappa Phi. Davis, Barbara: BS in Physical Education, H \& PE Club, Student Representative on H \& PE Upper Division Screening Intramurals.
Davis, Joyce A.: BS in BA in Accounting. Ski Club, Alpha Tau Gamma.
Davison, Gary: BS in BA in Warehouse Management.
Dawson, Charlene: BA in Psychology, Psychology Club.
Day, Bonita R.: BS in BA
DeAngelo, Mark A.: BS in BA in Accounting, Sigma Phi Epsilon.
DeAscentis, Thomas A.: BS in BA in ACcounting.
DeChristofaro, Lou Ann: BS in Computer Science, Math \& Computer Science Club.
DeFelice, Anthony J.: BA in Comprehensive Social Science, Varsity Baseball, Newman Student Organization Membership Chairman.
DeFino, Thomas M.: BE in Engineering, Institute of Electrical and Electronics Engineers Chairperson, National Society of Professional Engineers, Ohio Society of Professional Engineers, Engineering Dean's Council, Penquin Ski Club.
DeFuria, Joseph: BE in Clivil Engineering, National Society of Professional Engineers, intramural Sports.
DeGenaro, Stephen A.: AAS in Respiratory Therapy
Deley, Edward W.: BE in Civil Engineering, American Society of Civil Engineers.
DeLisio, Lisa: BS in BA in Advertising/Public Relations, Advertising Club.
DeMarinis, Mary Ann: AAS in Child Care Technology.
Denney, George: BA in Journalism, Jambar Editor-In-Chief, Polyglot Co-Editor.
Dennison, Mary Ellen: BA in Speech Communications, Alpha Beta Chi, Jambar, German Club.
DePaola, Mary: BS in Secondary Education, Student Assistant, Student Organization Staff, Student National Education Association, Psychology Club.
DePizzo, Kimberly D.: AAS in Medical Assisting Technology.
Detchon, Debra L.: BS in Food and Nutrition, Nutrition Society, Bicycle Club
DeVita, Daniel P.: AAS in Criminal Justice, One year manager with YSU Soccer.
DeVito, Peter M.: BS in NEOUCOM and BS in MD.

Dew, Rick A.: BS in AS in Mechanical Engineering Technology, Sigma Chi Fraternity President; Treasurer: Secretary
Diaconis, Evanthia N.: MS in Chemistry.
Diana, Caihy: BS in Nursing.
Diana, Linda: AAS in Nursing.
Dickey, Jeffrey T.: BFA.
DiCicco, Renee: BS in AS in Food and Nutrition, Nutrition Society President; Vice President.
DiCola, David A.: BE in Industrial Engineering. American Institute of Industrial Engineers, Intramurals.
Dietz, Marla: BS in BA in General Administration, Alpha Mu Treasurer, Delta Nu Alpha.
DiGiacomo, Anthony S.: BS in BA in Industrial Management.
DiGiacomo, Dominic: AAS in Electrical Engineering Technology.
DiGiacomo, Janet: BA in Telecommunications, Jambar Writer, Disc Jockey for Underground Sound.
Dilullo, Guy: BS in BA in Business Administra-
tion.
Dilullo, Vifo: BA in Social Science
DiMatteo, Candida: BA in Italian.
Dinapoli, Carla: AAB in Court/Conference Reporting.
Dlabick, James: BE in Electrical Engineering, Institute of Electronics and Electrical Engineers, Ohio Society of Professional Engineers, National Society of Professional Engineers.
Domhoff, Christine: BS in Secondary Education/Social Studies Comprehensive. Donadio, Lisa A.: ADN.
Donaldson, Bob: BS in BA in Accounting/ Finance, Wrestling, Student Council.
Donaldson, Debra M.: AAB.
Doran, Julia: BS in Secondary Education.
Dorazio, Jacqueline S.: BFA in Art/Graphics, Art Club, Major Events Committee, Student Art Show, Dean's List, National Dean's List.
Douglass, Terri: BS in BA in Accounting, PAC Recreation Committee, Alpha Tau Gamma.
Downie, Bradford C.: BE in Civil Engineering, American Society of Civil Engineers, Penquin Ski Club Treasurer, Varsity Athletics Basketball.
Dravis, Ted E.: BS in BA in Economics.
Drissen, Renee A.: BA in Social Science
Drobney, Joseph C.: BA in History, Phi Kappa Phi, Who's Who Among College Students.
Drozda, Steve D.: BS in BA in Accounting. Alpha Tau Gamma, Sigma Alpha EpsiIon Fraternity.
Dubos, Diane M.: BS in BA in Fashion Marketing.
Duckworth, Eric A.: BA in English
Dukes, Carol L.: BS in Elementary Education.
Dulay, Joseph R.: BFA in Graphic Design, Intervarsity Christian Fellowship Treasurer, Men's Chorus.
Dunlap, Martin L.: BE in Electrical Engineering, Institute of Electronics and Electrical Engineers, National Society of Professional Engineers.
Dunne, C. James: BS in Marketing, Off Campus Programming Committee Vice President; President.
Dunne, Jeffrey D.: BS in BA in Business Management, YSU Bicycle Club Vice President, intramurals.
Duriga, Mary: BS in Secondary Education, Intramurals, Biology 507 Lab Aide.

## E eee

Echols, Larry: BS in Business Administration. Omega Psi Phi, National Association For The Advancement of Colored People.
Eckenrode, Susan L.: BS in Business Administration.
Edwards, Kathleen Jo: BFA in Fine Arts.
Eiland, Joy: AAB in Medical Secretary.
Ellis, Audrey: AAB in Word Processing
Ellis, Linda M.: BE in Industrial Engineering, Engineering Dean's Council Secretary, American institute of industrial Engineers, Time Out Christian Fellowship.
Ellis, Maureen: BS in Education, Phi Mu Sorority Vice President; President.
Ensign, Jeffry J.: BS in AS in Law Enforcement Administration.
Erkard, Minnie L.: AAS in Dietetic Technology.
Esposito, Christina: AAS in Applied Science.
Estes, William F.: AAS in Medical Laboratory Technology.

## F fff

Fabian, Mary E.: BE in Chemical Engineering, American Institute of Chemical Engineers President, Engineering Dean's Council, Society of Women Engineers Secretary, American Nuclear Society. YSU Centurians
Fajack, Ralph M.: BS in BA.
Fajcak, Deborah M.: MBA.
Fakner, Regina: BS in Combined Science, Intramural Waterpolo.
Farina, Gerald M.: BS in BA in Marketing Management, Varsity Football, Intramurals.
Fedak, Lorraine A.: AAS in Nursing, Band.

Fedders, Janet M.: AAB Marketing/Graphics Technology
Fedorchak, Bradley B.: BE in Chemical Engineering, Omega Chi Epsilon Treasurer, Tau Beta Pi, Centurians, American Institute of Chemical Engineers, Varsity Baseball.
Felde, Kathleen: AAS in Applied Science. Felden, David M.: BE in Electrical Engineering, Institute of Electronics and Electrical Engineers, National Society of Professional Engineers, Ohio Society of Professional Engineers, Tau Beta Pi, Table Tennis Club.
Felden, Robert M.: MS in Biology, Omicron Lambda Secretary, Alpha Epsilon Delta, Philiatric Society, Table Tennis Club.
Feranchak, Kathy: BA in English, Youngstown English Society, Student Member of National Council of Teachers of English, Jambar Staff Writer.
Fernandez, Vilma I.: BA in Spanish, Student Assistant in Marketing Department, Sigma Delta Pi, Hispanos, Unidos, Los Buenos Vecinos, Alpha Psi Omega.
Ferrell, Jeanette: BA in Social Work.
Ferreri, Anthony M.: BS in Computer Science, Association of Computing Machinery Treasurer, Math and Computer Science Club, Pi Mu Epsilon.
Ferro, Robert: BS in Business Administration. Alpha Tau Gamma Chairman Audit Committee: Chairman Tax Committee, Williamson Society.
Fetch, Louis G.: BS in AS in Electrical Engineering Technology. American Society of Certified Engineering Technicians, Phi Kappa Tau Fraternity
Fimognari, Cheryl: BS in English Education
Finocchio, Mark F.: BS in BA in Business Management.
Fisher, Patricia J.: AAS in Nursing
Fisher, Terri: AAS.
Fitzsimmons, Larry: AAS in Mechanical Engineering Technology and BFA in Studio Art, NEON Editor-in-Chiet and Photo Editor, Phi Kappa Tau Fraternity.
Flarey, Dominick L.: BS in Nursing.
Flaviani, Mary Ann: BS in Elementary Education.
Floyd, Cindy: BA in Eary Childhood Education, Zeta Tau Alpha Sorority Vice President, Panhellenic Secretary.
Foley, James F.: BE in Chemical Engineering, Swim Team, American Society of Chemical Engineers, National Society of Professional Engineers.
Follett, Arthur G.: BFA and BA in Telecommunications, Alpha Epsilon Rho, Intramurals.
Forked, Susan A.: BS in Math and Computer Science, intercollegiate Programming Team Secretary, Math \& Computer Science Club President, Association for Computing Machinery, Pershing Rifles, Scabbare \& Blade. ROTC Cadet Staff.
Forner, Charles K.: BS in AS in Mechanical Engineering Technology.
Foster, Kathleen: BS in BA in Accounting. Foutz, Fred S.: BS in BA in Management. Fraley, Michael D.: BE in Mechanical Engineering, Residence Hall Association President, Tau Beta Pi, American Society of Mechanical Engineers, Varsity Tennis, intramurals.
Francisio, David R.: BE in Electrical Engineering, Institute of Electronics and Electrical Engineers, Ohio Society of Professional Engineers
Freeman, Aaron: BA in Psychology.
Frisbee, Kelly R.: AAS in Nursing, Centurians.

## G ggg

Gabrick, Ronald: BE in Electrical Engineering, Institute of Electronics and Electrical Engineers Vice President, Ohio Society of Professional Engineers President.
Gainan, Phil: BS in Marketing Management.
Gamble, Natalie: BA in Speech and Communications, Alpha Epsilon Rho.
Gambrel, Mark R.: BS in Mathematics.
Garramone, Guy: AAS in Mechanical Engineering Technology.
Garrett, Wayne A.: BS in BA in industrial Management, Sigma Phi Alpha.

Gasparek, Stephen A.: BS in Mechanica Engineering Technology, Nu Sigma Tau Fraternity Pledge Master; Rush Chair man; Greek Sing Chairman and Dinner Dance Chairman, Student Council Publicity Co-Chairperson, Interfraternity Council Vice President, Greek Program Board, Semper Fidelis Society Secretary, American Society of Certified Engineering Technology Secretary, Sk Club, Geology Club, Homecoming Court 1983, Mahoning Valley Management Association.
Gault, Patricia A.: BA in Speech Communications, Alpha Beta Chi, Alpha Epsilon Rho, Zeta Tau Alpha Sorority
Geragi, Sandra L.: AAS
Geroni, Patricia: BS in Special Education Student National Education Association.
Gersinecker, Timothy N.: BE in Electrical Engineering.
Gianetti, John: BS in Combined Science, Intramurals.
Gilliland, Kenneth: BS in Math and Computer Science. Math \& Computer Science Club, Pi Mu Epsilon.
Gilmore, Kathy L.: AAB in Accounting.
Ginnis, Cindy: AAS in Applied Science
Gioiello, William J.: BS in Biology/Pre-Dentistry, Philiatric Society Treasurer, Alpha Epsilon Delta Treasurer, Omicron Lambda.
Glagola, Sue: AAS in Dental Hygiene, JADHA.
Grafton: William R.: BS in AS in Computer Technology
Graham, Ron: BA in Political Science, Resident Advisor, Vice Chairman of Student Council, Residence Hall Association Vice President, Alpha Phi Delta Fraternity.
Gran, Kenneth J.: AAS in Electrical Engineering Technology.
Granato, Joyce L.: AAS in Computer Technology
Grecula, Dottie: BE in Electrical Engineering, Ohio Society of Professional Engineers, Resident Advisor, Centurians, Institute of Electronics and Electrical Engineers Secretary, Residence Hall Association President
Green, Barbara: BE in Chemical Engineering. Assistant Secretary of Grievances of Student Government, Engineering Dean's Council President, American Nuclear Society Secretary, American Institute of Chemical Engineers, Ohio Society of Professional Engineers.
Greene, Kermit J.: Bachelor of Arts, Apostolic Christian Fellowship, Omega Psi Phi Fraternity.
Greene, Sulvera T.: BFA, Apostolic Christian Fellowship
Green, James: BS in AS in Electrical Engineering Technology, National Association for the Advancement of Colored People, YSU Alumni Association, American Society of Certified Engineers.
Griffith, Karen S.: AAS in Nursing
Grilli, Lora A.: BS in BA in Fashion Marketing. Alpha Mu.
Griswold, Glenn: BE in Mechanical Englneering, American Society of Mechanical Engineers.
Grosso, Patricia A.: BE in Industrial Engineering, American Institute of industrial Engineers, Society of Women Engineers Treasurer.
Grunenwald, Sharleen M.: AAB in Word Processing
Guido, Ronald M.: BA in Speech Communications, Centurians, Alpha Beta Chi Treasurer, Member of National Dean's List.
Guilford, Paula P.: BS in AS.
Gulas, Charles: BS in BA in Marketing Management, Ski Club, PAC Film Committee, Alpha Mu, Centurians.
Gura, Billy: BA in Telecommunications, Varsity Football.
Gura, Kevin M.: BS in BA in Retail Marketing
Gurgos, Michele A.: BE in Electrical Engineering, Society of Women Engineers Institute of Electronics and Electrical Engineers Secretary.
Guy, Kimberly S.: BS in Retail Marketing. Alpha Mu.
Guy, Marsha A.: BS in Elementary Education.

## H hhh

Habuda, Jacquelene: BA in Social Work. Halbert, Jill F.: BS in Combined Science, Phi Mu Sorority Assistant Treasurer, Panhellenic Council, Lambda Tau, Homecoming Committee, Sigma Alpha Epsilon Little Sister.
Hall, Diane L.: BS in BA
Hall, Mark A.: BA in Pre-Law/History, YSU Soccer
Hami, Anooshiravan: BA in PremedicalChemistry, Philiatric Society, Alpha EpsiIon Delta, American Chemical Society.
Hamilton, Jill: BA in English, Youngstown English Society, Alpha Beta Chi.
Hamilton, Richard T.: BA in Economics, National Economic Society.
Hanshaw, Brenda K.: BA in Speech Communications, Sigma Alpha Epsilon Little Sister, Phi Mu Sorority Phi President, Jambar Staff, Alpha Epsilon Rho.
Hardy, Philip D.: BS in BA in Business/Accounting.
Harge, Glenn: BS in Biology.
Harris, Betty J.: BA in Social Work
Harfford, Linda A.: AAS
Hartsky, Thomas: BM in Applied Music
Harvischak, Patricia: AAS in Paramedics.
Hawkins, Amy J.: AAS in Medical Assisting Technology.
Heban, Kathleen: BS in BA in Accounting.
Herberger, Margaret A.: AAS in Nursing.
Hervbin, John: BA in History/Pre-Law. History Club, Pre-Law Society.
Hess, Raymond: BS in Computer Technology.
Heston, Mark S.: BS in Public Administration. Hetrick, Jean A.: BS in BA in Business Administration.
Higgins, Timothy: BS in Business Administration, YSU lrish Club, Pershing Rifles, ROTC.
Hilk, Timothy M.: BS in BA in Marketing Management, YSU Mens Swim Team.
Hines, Patricia A.: AAS in Medical Laboratory Technology, Lambda Tau President
Hoellein, Christine M.: BE in Chemical Engineering and BA in Chemistry, Society of Women Engineers Secretary, Circle K, American Institute of Chemical Engineers, American Nuclear Society. American Chemical Society
Hofius, Lynn A.: BS in Computer Science, Math \& Computer Science Club.
Holmes, Johnie: BS in Elementary Education.
Hood, Evan R.: BS in AS in Computer TEchnology, Associations for Systems Management Secretary
Hopes, Dave R.: BS in Business Administration, Bowing Club, Centurians, Alpha Tau Gamma.
Hovck, Christine M.: AAB in Medical Secretarial Studies and AAB in Work Processing. Phi Mu Sorority.
Houston, Patrick J.: BS in BA in Accounting. Sigma Alpha Epsilon Fraternity, Alpha Tau Gamma.
Hovanic, Jayne F.: BS in General Administration
Hover, Todd P.: BS in BA in Management, intramurais.
Howe, Deborah S.: BS in BA in Accounting. Hoyt, Victoria: BA in English, Penguin Review Editor: Poetry Editor, YSU Speech Team.
Hripko, Raymond A.: BS in BA in Retail Marketing.
Hruska, Bonnie K.: BE in Metallurgical Engineering, American Society of Metals President, Society of Women Engineers President, Academic Dean's Council. American Institute of Metallurgical Engineers, YSU Marching / Concert Band.
Hurtuk, G. Robert: AAS in Marketing.
Hvizdos, Jacquelyn M.: BA in Speech Communications, Alpha Beta Chi Secretary, Jambar Writer
Hyland, Eileen L.: BE in Industrial Engineering, American Institute of Industrial Engineers, Society of Women Engineers.
Hynes, James V.: BS in BA in Accounting.
Hynes, Mark P.: AAS in Electrical Engineering Technology.
Hyyti, David A.: BE in Civil Engineering. American Society of Civil Engineers.

## I iii

Iannizzaro, Diane M.: AAS in Nursing
Irwin, Brenda L.: BA in Speech Communications, Alpha Epsilon Rho Secretary, Underground Sound Station Manager.
Isidro, Gregory M.: AAS in Restaurant Management, YSU Cross Country Team, Sigma Alpha Epsilon Fraternity Rush Chairman: Social Chairman: Pledge Educator.

## J $\|$

Jackson, Ronda D.: AAS in Medical Assisting Technology
Jacobs, Scott: BS in BA in General Administration, Varsity Football.
Jain, Neeraj: BS in Combined Science American Chemical Society, Society of Physics Student, Varsity Soccer, Dean's List, Alpha Phi Delta Fraternity, JEDS, Philiatric Society.
Jakubek, Joseph: BE in Chemical Engineering. American institute of Chemical Engineers Treasurer, Omega Chi Epsilon Secretary, Table Tennis Club Vice President, Tau Beta Pi, American Nuclear Society, National Society of Professional Engineers, Ohio Society of Professional Engineers.
Janci, Jacqueline: BS in Computer Science.
Janci, Jeffrey J.: BS in Computer Science. Jawhari, Ziad: BS in Computer Science.
Jeffers, Pamela S.: AAS in Nursing
Jewell, David M.: BA in Combined Social Sceences, Pre-Law Society.
Johnson, Matthew L.: BS in Chemistry, Cross Country Club. American Chemical Society Secretary.
Johnson, Michele L.: AAS in Medical Assisting Technology.
Johnson, Richard A.: BS in Computer Science, Math \& Computer Science Club. Association For Computing Machinery. Bicycle Club, English Society.
jones, Bonnie: BS in Computer Science. Math \& Computer Science Club
Jones, Karla: AAS in Electrical Engineering Technology, YSU Majorette, Sigma Chi Little Sister
Jones, Patricia A.: BS in Comprehensive Business Education, Ohio Education Association Vice President.
Jones, Robert C.: BS in BA in Accounting. Jones, Valerie L.: BS in BA in Marketing Management, Alpha Kappa Alpha Sorority President, Beta Psi President, Student Government Cabinet Member, Academic Senate Grievance Committee, Minority Student Advisory Council, National Panhellinic Council Secretary, Black United Students.
Jwayyed, Wadad M.: BS in Biology.

## K kkk

Kacir, Kathleen A.: AAB in Accounting Technology
Kaczowka, Judy L.: BA in Psychology, Psi Chi Vice President, Psychology Club Secretary, Student Serving Students.
Kacaman, George P.: BA in History/Economics.
Kamensky, Robert J.: AAS in Police Science Technology and BS in AS in Law Enforcement Administration.
Kana, David J.: BM in Music Education/ Jazz Performance, Jazz Ensemble President, YSU Jazz Society President, Dean's Advisory Board, Mug Club, Music Educators National Conference National Association of Jazz Entertainers.
Kapsal, Pamela A.: AAS in Nursing, YSU Chorus.
Kargakos, James: BA in Psychology Who's Who, Psi Chi, Psychology Club intramurals.
Kaiz, Jeffrey L.: BS in Industrial Marketing, Nu Sigma Tau Fraternity
Keller, Sharon A.: AA in Social Studies, BS in Social Work and BS in Sociology.
Kennedy, Gale R.: BS in Biology, Black United Students Publicity Committee Chairperson

Kennedy, Willie C.: BS in AS in Computer Technology, Alpha Phi Alpha Fraternity President, National Panhellenic Council Vice President, Black United Students, National Association For The Advancement of Colored People, intramurals.
Kerner, Melissa J.: BS in Computer Science, YSU Basketball Team, YSU Softball Team. Kerr, Glenn D.: BS in Math and Computer Science. Association For Computing Machinery, Penquin Ski Club.
Ketchum, Jina M.: BA in Speech Communication, Jambar Sports Editor, NEON Sports Editor, Student Assistant to Sports Information Director, Football and Basketball Stat Crews, Student Representative on YSU Alumni Association Scoreboard Committee, Budget Subcommittee on General Fee Fund, Alpha Beta Chi Secretary and Chairman of Newsletter Committee, National Dean's List, Jambar Słaff.
Khaligii, Samad A.: BS in AS.
Kiraly, Patrick S.: BE in Mechanical Engineering, Tau Beta Pi, Phi Kappa Phi.
Kissella, Katherine J.: AS in Medical Assisting Technology
Kitenda, Patrick: BS in Management, Afican Students Union, Youngstown State Urban Internship Program, Representative of Butler Institute of American Art.
Kilgore, Clorinda: BS in Elementary Educa tion.
Kirk, David A.: BS in Civil Engineering Technology.
Kissel, Roger T.: BS in BA in Finance
Klein, Kevin: BS in BA in Advertising Art, Ad vertising Club.
Klepin, Michael R.: BS in BA in Marketing Marketing Club
Kline, Rhonda D.: BS in BA in Marketing Management, Alpha Kappa Alpha Sorority Vice President, National Panhellenic Council Treasurer, Beta Psi Treasurer. Minority Student Advisory Council Vice President, Board of Trustees Student Affairs Committee.
Knuft, Edward B.: AAB, NEON Photo Editor, Ski Club, lrish Club.
Kobele, Charlene: AAS in Nursing.
Kolenich, James J.: BE in Industrial Englneering. American Institute of Industria Engineers.
Kolovich, Laura: BS in Physical Education, H \& PE Club.
Komsa, Jack F.: BS in AS in Computer Technology. Member of Speech Team. Association for Computing Machinery Association for Systems Management
Konicki, Cyndi: BM in Music Education, Alpha Omicron Pi Sorority, Kappa Omega Sorority, Student Academic Griev ance Committee, Jazz Society, Wind Ensemble, Concert Band, Marning Band, Jazz Ensemble, Music Educators National Conference, American Guild of Organists, Sigma Alpha lota. PolishAmerican Student Organization, Brass Ensemble. Trumpet Ensemble, Marching Band.
Kook, Linda: AAS in Applied Science
Kopnicky, Michelle M.: BE in Civil Engineering. American Society of Civil Engineers Secretary, Onio Society of Professional Engineers.
Kossler, Richard P.: AAS in Computer Technology, Computer Advisory Committee.
Kotasek, Thomas J.: BS in BA.
Koutsounaris, Elaine: BS in BA in Fashion Marketing.
Kowach, Thomas J.: BS in AS in Electrical Engineering Technology, National Society of Professional Engineers.
Kozar, Robert J.: BA in Speech Communi cation, Student National Education As sociation, Youngstown English Society
Kregar, Dori M.: AA in Arts, Kappa Delta Pi Krispinsky, P. Lynn: BA in Speech/Telecommunications, Alpha Epsilon Rho Treasurer.
Krok, Jeff: BS in Medical Technology/Biology, PAC.

## L IIII

Ladipo, Roland O.: BS in AS in Civil Engineering Technology, Black United Stu-
dents Treasurer, YSU Table Tennis Club. American Society of Certified Engineering Technicians.
LaLonde, Carl H.: BS in Biology, YSU Swim Team
Lanahan, Colleen M.: AAS in Nursing.
Laska, James A.: BFA in Studio Art
Lasky, Jeanne A.: BS in BA in Business Administration, Business Representative on Student Council, Academic Grievence Committee
Laugen, Richard S.: BS in BA in Transportation Management, Delta Nu Alpha Treasurer, Marching Band, Intramurals.
Leach, Mary: BS in BA in Management, Sigma Pi Alpha, Ski Club.
Lelekacs, Ellen: BS in Elementary Education.
Leonelli, Kenneth: BE in Chemical Engi neering. American Institute of Chemi cal Engineers, American Nuclear Society, Omega Chi Epsilon, Student Academic Grievence Sub-committee, Athletic Council
Lewis, Carla: BS in Elementary Education.
Lewis, Joanne S.: AAS in Child Care Technology.
Lewis, Ralph F.: AAB in Court Reporting. Theta Chi Fraternity, Intramurals.
Liggett, Debbie L.: BS in BA in Accounting.
Linko, Andrew T.: AAS in Applied Science. Student Government Assistant Secretary of External Affairs
Lipinski, Richard A.: BS in AS in Computer Technology
Lischak, Myron J.: AAS in Civil Engineering Technology.
Lisko, Agnes E.: BS in AS in Nursing
Listorti, Christine M.: AAB in Graphics Technology, Student Art Association.
Litzvetz, Kimberly A.: AAS in Nursing
Little, Randi M.: AAS in Graphic Art.
Litz, Beth A.: BS in AS in Computer Technology, Association for Systems Management.
Livas, John C.: BS in Political Science. Kappa Alpha Psi
Lloyd, Kathy: BS in Elementary Education intramurals, Paraprofessional in Career Offices Office.
Lockett, Sheila D.: AAS in Child Care Technology
Lockshaw, James E.: BS in Computer Science, Math \& Computer Science Club. Association for Computing Machinery.
Longstreth, Susan: BS in Computer Science. Math \& Computer Science Club.
Lopez, Lisa: BS in BA in Advertising
Lopuchovsky, George: BE in Electrical Engineering
Lorimer, Margaret C.: BA, Psi Chi.
LoScalzo, Mary Beth: Master of Music, Assistantship for the Music School Under The Graduate Program.
Lowry, Thomas C.: BS in BA in Finance, YSU Centurians, Chairman of the Constitution and By-Laws Committee. Student Serving Students.
Lynch, Mary A.: AAS in Child Care Technology.
Lyons, John J.: MBA in Marketing, Phi Kappa Tau Fraternity, President; Interfraternity Council Rush Chairman, Greek Program Board, Winter Weekend Committee Chairman.

## M mmm

Maas, Raymond: BS in AS in Mechanical Engineering Technology
Macheras, Constantine: BS in BA in Management and Economics.
Machuga, Richard W.: BS in BA in Management, President Sigma Pi Alpha.
Madsen, Karen A.: AAB in Medical Secretary.
Maggiano, Holly J.: BS in Chemistry, Omicron Lambda, Alpha Epsilon Delta, Philiatrics, American Chemical Society. member of Student Council, Centurians.
Magni, Michele: BS in BA in Marketing. Marketing Club
Maiden, Linda G.: BS in Education, Deans List.
Maiorana, Barbara: BA in Speech Communications, Alpha Epsilon Rho, Alpha Beta Chi founder.
Majzik, William G.: BS in BA in Accounting

Alpha Tau Gamma, Student Government.
Makki, Hassan Yousser: BE in Civil Engineering, Lebanese Student Organization, Soccer
Malley, Michael: BS in Psychology, Centurians, Psychology Club, Psi Chi, intramural Football and Volleyball.
Malys, Barbara: BS in AS in Computer Technology.
Malys, Loretta: BFA in Graphic Design, Student Art Association, University Theatre Productions.
Manypenny, Charles Bryan: BS in BA in ACcounting.
Marchionda, Sandro Joseph: BE in Industrial Engineering, American Institute of Industrial Engineers, Intramurals.
Marinis, Evangelos: BE in Mechanical Engineering, Ohio Society of Professional Engineers, NSPE, HOA.
Marino, Lisa: BS in Fashion Marketing.
Markopoulos, Christy: BS in AS in Medical Technology.
Markopoulos, Kirk John: BS in Mathematics and Computer Science. Association for Computer Machinery, Math/Computer Science Club Vice President, Pi Mu Epsilon Vice President, intramurals, Centurians.
Marshall, Michael M.: AAS in Civil Engineering Technology, ASCET
Martauz, Frank: $B E$ in Electrical Engineering, IEEE, Tau Beta Pi.
Martin, Karl A.: BA
Martin, Patricia: BA in Anthropology, Swim Team, Anthropology Club.
Martinec, Patrick: BFA in Graphic Design Polyglot Graphics Editor, Voices for the Third World Organization, Penguin Review, Imaginations Unlimited, Shuffleboard Club, Gamma Gamma Alpha Psi.

McGuire, Collen: AAS in Nursing
McHugh, Margaret Mary: BS in BA in Fash ion Marketing.
McKnight, Carolyn: BA in Social Work, Student Social Work Association.
McKnight, Oscar T.: MS in Community Counseling, Psi Chi, Psychology Club PAC, Student Government, Student Council.
McNally, Thomas M.: BS in Electrical Engineering Technology.
McNally, William J.: AAS in Nursing, Intramural Soccer, Sailing Team
McNeal, Harold M.: BS in BA in Marketing
McQueen, Susan J.: BA in Communications Management, Zeta Phi Beta, Beta Psi. NPHC Black United Students
McQuiston, Lisa Ann: AAB in Medical Secretary, PAC Fine Arts Committee
Mediate, Mary Jo: AAB in Office Management.
Meeder, Suzanne: AAS in Dental Hygiene Technology JADA
Mehalco, Nadine Ann: AAS in Criminal Justice, Penguin Review, Homecoming ' 83 Committee.
Melanson, Dennis W.: BS in BA in Marketing Management.
Mellinger, Margaret: BA in Anthropology Anthropology Colloquium President

Penguin Review
Mendel, Elizabeth: BA in Spanish/Italian International Communication, Sigma Delta PI, Spanish Club, Italian Club. Hispanos Unidos, Federation of International Students.
Mershimer, Suzanne: BA in Psychology. Alpha Omicron Pi, Phi Kappa Tau Little Sister, Panhellenic Council
Metzinger, Thomas P.: BE in Civil Engineering. American Society of Civil Engineers.
Mick, David E.: BS in BA in Management, Italian Club, Intramural Football.
Midgley, Ronald Erik: BE in Civil Engineering, ASCE, OSPE
Mikula, Ken: BE in Clvil Engineering. 1981 Mr . Youngstown Bodybuiling.
Miller, Angela: AAS in Respiratory Therapy Technology, Phi Mu Sorority.
Miller, Diane S.: BS in Mathematics and Computer Science, Pi Mu Epsilon
Miller, Jeffrey L.: BE in Electrical Engineering, IEEE, Table Tennis
Miller, Karen Sue: BS in Health and Physica Education, Bicycle Club, HPE Club, YSU Jump RoDe Team, intramurals.
Miller, Mark K.: AAS., Sigma Alpha Epsilon Fraternity.
Mincher, Karen L.: BS in Education, Health and Physical Education Majors Club. Kappa Delta Pi, Intramurals, College Bowl.
Minichino, Jim: BS in Business Economics. Minnozzi, Shirley: BS
Mintus, Michael R.: BS in BA in Accounting. Alpha Tau Gamma, intramural Softbal and Basketball.
Missos, Viola: BS in Elementary Education.
Monico, Karen Ann: BS in BA in Fashion Marketing, Alpha Mu. American Marketing Association.
Monk, Amy Rae: AAS in Child Care
Moore, Daryl W.: BS in Business Administration.
Morales, Diane: AAS in Dietetic Technology, Nutrition Society.
Morris, Renee L.: AAS in Nursing
Morrison, Peter: BS in BA, Sigma Pi Alpha.
Morsillo, Guy Joseph G.: BA in Geography, Geography Club, Ski Club, Scuba Club, intramurals.
Morton, David D.: BA in Speech/Telecommunication, Alpha Epsilon Rho, Jambar.
Morvay, Laurie L.: BA in Spanish and international Economics, Sigma Delta Pi, Los Buenos Vecinos, Omicron Delta Epsilon.
Mosko, Edward W.: BE in Electrical Engineering, EEE, Chess Club, Fencing Club.
Mossman, Robert Gillis IV: BE in Civil Engineering, American Society of Civil Engineers.
Mostofizadeh, Saeed: BE in Civil Engineering.
Mowry, Marsha: AAS in Computer Technology
Moylan, Patricia Ann: AAS in Child Care Technology, NAEYC.
Murcko, Paula: BA in Combined Studies.
Musial, Namey J.: BS in Computer Technology
Music, Bonnie Jean: BS in AS in Computer Technology, ASM.
Myers, Frank Vincent: BE in Electrical Engineering.
Myers, Leslie: BA in Speech Communication, Delta Zeta Sorority, Phi Kappa Tau Little Sister, Triad Editor, Panhellenic Council, Greek Program Board, Jambar. President's Council, Alpha Epsilon Rho, Homecoming Committee, Interfraternity Council, Greek Week Committee, Student Government
Myers, Linda: BFA., Delta Zeta Sorority. Homecoming Committee, Phi Kappa Tau Little Sister, Triad, Student Government, Greek Week Committee

## N nnn

Naples, Sandy Paul: BS in Biology, Philiatric Society, Intramurals, Ski Club
Ndagire, Caroline: BS in AS African Association.
Nechiporchik, Monica: BS.
Neddy, Susan L.: BA in Commercial Art, Advertising Club.
Nelepka, Christine M.: BS in AS in Accounting, Alpha Tau Gamma

Nelson, Veda Renee: AAS in Computer Technology
Nestor, Lorraine: BS in Psychology, KCPB member Phi Kappa Phi, recipient of Youngstown Education Foundation Scholarship, Dean's List, graduated Summa Cum Laude, nominee as Outstanding Student in Psychology.
Newberry, Robert J.: BE in Chemical Engineering, AICHE, Football team.
Neri, Patricia: BS in AS in Accounting
Nicholson, Kimberly S.: BS in Computer Science, Pi Mu Epsion, Math and Computer Science Club member.
Nicholson, William E.: BE in Industrial Englneering.
Nick, Barbara A.: BA in Physical Education. Women's Basketball and Softbal Varsity Team - 4 year letter winner.
Niknafs, Behrooz S.: BE in Mechanical Engineering, ASME, ANSE.
Nist, Jane: BS in AS in Child Care Management, Home Economics Association, Student Rep. Tru-Mah-Col, Student Rep. Library Committee.
Niswander, Lyn A.: AAS in Nursing
Nixon, Mark A.: BS in BA in Business Administration.
Norton, Jerald: BE in Electrical Engineering. IEEE, OSPE, NSPE
Novak, Sandra: AAS
Nudo, David: BA in Labor Relations, Jambar Advertising Manager, Pre-Law Society, Italian Club, Parking Rules and Violations Committee, Community Relations Committee
Nudo, Louis: MS in Biology, intramural Football, Graduate Assistant, Inter-collegiate Football
Nye, Iawnya Kay: AAB

## 0000

O'Brien, Clara: BM in Music, Dana Chorale, Dana Madrigal Singers
O'Hara Donna J.: AAS in Dietetic Technology. Nutrition Society.
O'Hare, David A.: BS in BA in Accounting, Alpha Tau Gamma, Willam Society, Student Advisory Committee to the Williamson School of Business.
Olbrych, Paul A.: BS in AS, Dean's List, intramurals.
Olexa, Mike: BS in BA in Marketing Man agement.
Oliphant, Rick Jay: BS in Business, Intramurals Co-ed Racquetball Doubles.
Olorunsola, Feyisola Adeleke: BS in BA in Industrial Management. African Student's Organization, International Student Organization.
Onderko, Kenneth P. Jr.: BE in Mechanical Engineering, ASME, NSPE
Orben, Nancy L.: AAS in Dental Hygiene
Owen, Robert E. Jr.: BA in Economics Combined Business Minor.

## P ppp

Pacheco, Aida L.: AAS
Palatas, Gail M.: BS in Nursing.
Paliga, Randall: $B E$ in Mechanical Engineering.
Pallante, Concetta L.: BS in Education.
Pallante, Jim: BS in Marketing, Varsity Baseball.
Panchik, Nancy Marie: BS in BA in Management, Student Government Secretary of Finance, Student Liaison for the Dean's Search Committee, Student Researcher for Budget Subcommittee
Pandolfi, Robert: BS in BA in Accounting
Pannunzio, Nick: BS in BA in Marketing Management
Paolone, Louis P.: BS in Geography, Geog raphy Club.
Paolucci, Michele: AAB in Word Processing.
Pappas, Michael Demetrios: BS in Combined American Chemical Soclety, Society of Physics Students, United States Alkido Federation. Dean's List, JEDS, Philiatric Society
Parillo, Mary Jo: BS in BA in Accounting Alpha Tau Gamma.
Parise, Jerry: BS in Computer Science, YSU Parking Services.
Parker, Mary: BA in Social Work, Student

Social Work Association Vice President: Parker, Ruth Ann: BA in Social Work, Alpha Kappa Alpha Sorority, Black United Students, Beta Psi, National Panhellenic Council, Minority Student Advisory Council.
Partain, Robert E.: BS in AS in Electrical Engineering Technology.
Patnaik, Pradeep K.: BS in Computer Science, Cricket Club President and Captain, Indian Association.
Patterson, Larry B.: BS in AS in Civil Engineering Technology, ASCET
Patton, Susan Colette: BS in BA in ACcounting, Centurians, Alpha Tau Gamma, Accountant-for-a-day Committee, Alpha Tau Gamma Newsletter Committee.
Pecchia, Damian: BA in English, Jambar Sports Editor, Jambar Managing Editor. Pechalk, Michael: BS in Economics, Student Government Major Events.
Pellegrini, Darryl G.: BM in Education and Performance, Jazz Society, Marching Band, Percussion Ensemble, Symphonic Wind Ensemble, Jazz Ensemble, Orchestra.
Pennell, Jacqueline: BFA in Graphics, Student Art Association, Kilcawley Center Fine Arts Committee, NEON, ROTC Battalion Commander, Pershing Rifles Sec-retary-Treasurer, Scabbard and Blade.
Pennell, Suzanne M.: BS in Education.
Perkins, Tina J.: AAS in Medical Laboratory Technology.
Petela, Art: BE in Mechanical Engineering
Petrakos, Calypso: BA in Economics, Centurians, Omicron Delta Epsion.
Petras, Gerald David: BS in BA in Accounting.

Zurawick, Debra J.: BS in BA in Advertising and Public Relations.
Zwolinski, Cheryl L.: AAS in Nursing.

## CLOSING

As much as we might complain about exams, dull textbooks and demanding professors, most of us realize at one time or another that going to YSU brings us great opportunity, however, not just opportunity in the sense of a career. For there's always that one talented instructor, that one great book, or maybe just that one line of wisdom you come across in four years of electives.

The closer you get to the end of it all, the happier you are to be rid of most of it, but sadder to lose some of it.

Each of us will lose something special What's special will differ from person to person. We'll all leave behind the chance to meet hundreds of people with assorted interests and backgrounds. We'll pass from the comfort ably familiar to the unfamiliar

Of course we'll get over most loss because in four years at this University we'll have gained so much more. The very least one should attain is the ability to look at problems from various angles. When we can do that, we're ready to go. And if we're ready, we have no cause to worry.

- Scott Carney

## CLOSING IT OUT

"Coming Together" may seem like a simplistic idea, even by yearbook standards.

Certainly there is always going to be something that divides us, whether it is politics, social status, religion or just personal likes and dislikes.

But despite all those differences, it is always uplifting to see people over-
come them
What's not so delightful however, is the indifference we show towards people we may be very similar to

One student said she doesn'† ever bother trying to make friends with people in her classes. Sure, she talks to them, but since she doesn't expect to see them next quarter, she doesn't see
the use in befriending them.

It has something to do with protecting herself. It really hurts to find yourself caring about someone you may never see again. Everyone at YSU has probably had the experience of waving to someone fall quarter that you used to talk to spring quarter. The person stares as if he had never seen you before; that can make anyone feel insignifi-

Little Joe and his band is always a favorite at YSU; they played for Lunch and Lyrics during Spring Quarter.

The Rocky Horror Picture Show was shown as the PAC's final film of the year. While many students did not dress for the movie they were all too eager to throw food.

- Kelly Durst

Civil Engineering students were able to get quite a view through those mini telescopes, as warm temperatures brought out the girls
cant.

So some of us find ways to compensate for that feeling of anonymity

Maybe we get together with our old friends at Arby's every afternoon.

Maybe we hang on to that one boyfriend or girlfriend, scheduling classes so our breaks will be at the same time.

Perhaps we try to get home by noon so we can be with our family and then go to a job at the store.

For one reason or another, some students are not satisfied with those solutions - they want to meet "a new crop of people.

A new job can bring a lot of change, and if it is on campus, the student can be sure he will meet a lot of students, many with similar interests.

All the various organizations tailor themselves to individual interests. You

could even form a club, with student government money, to develope a new, unique club that interests you and others.

Any of these things goes a long way towards maintaining sanity. Unless you plan on studying twelve hours a day, there has to be something worthwhile to fill your day.

But there is always someone who never feels quite right at YSU. This person knows the campus is empty at 7:00 a.m. and that within an hour it will fill with thousands of people, only to empty out again around 3:00 p.m.

That he means nothing to them and they mean nothing to him is far from reassuring. He looks around and sees so many people alone at 8:00 a.m. that he begins to believe no one ever comes together on this campus. Maybe he will give up. Many won't.

Even for students who know a lot of people, things don'† always go well. Faces change every quarter in organizations or campus employment. You will come across a picture of five people you saw every day last summer, and then you will realize you haven' $\dagger$ seen any of them in months. It is never enough to say there will be others to
replace them, as there always are in the quarter system.

But as best we can, we all try to "Come Together. " Sometimes just a re-hash of the day's classes with another student can mean a lot, for without it, YSU can seem impersonal.

When YSU does seem impersonal, you can bet others feel the same way. So just wave at a total stranger on your way to the parking deck. It might make that person's day. You never know, that "total stranger" may remember you from a class last spring!

- Kelly Durst

Lunch and Lyrics was quite popular during the spring, because the barbacue smell filled the campus core.

Election of a new student body president and a Red Cross blood drive were both held during spring quarter: Walt Avay was the winner of the election and the Red Cross the winner of the blood drive.
(upper left) Sigma Chi Durby Days again got the sorority girls out, this time to throw water balloons at each other without breaking them.

- Clem Marion

(lower left) Bob Smith of the grounds crew and the NEON Staff looks like he's doing a real good job as he watches the student bodies in the grass.

## SPRING COMMENCEMENT

James A. Malone, bishop of the Diocese of Youngstown, told 1984 YSU graduates they are "special" because they have actual work experience while attending college.

Malone delivered the main address to 1,072 graduates at YSU's Spring Commencement in Beeghley Center.

The 1984 class included the 50,000 person to graduate from the University since it was founded in 1908.

President Neil Humphrey gave the degrees to students. Of the 1,072 students receiving degrees, 312 received associate's degrees, 669 bachelor's degrees, and 92 master's degrees. Michelle Ann Bernardich and David DeFrance graduated with 4.0 grade point averages.

Bishop Malone stressed the importance of patience in this computer age and urged graduates to demonstrate fidelity to job, family and religious commitments

Beine seen by your family and friends is a big job at graduation; one student waves while another painted hearts on her hat.

Sunny weather and games to play, drew many students out of classes and onto the lawn

Early spring brought many homemake kites to the campus core

The 1984 Olympic torch came through the YSU campus on its way to the L.A. summer games.

- Mark Macovitz

Sondy Kocek

## Senior Photography

Davor Photo Inc.

Colophon
The 1984 NEON, of Youngstown State University, Youngstown. Ohio, was printed in offset lithography by Herff Jones Yearbooks, Gettysburg, Pennsylvania.

It was printed in limited edition of 2650 copies with 368 pages.

Two poper stocks were used throughout, $100 \%$ Calais on page 33-352, and German stock on pages 1-32 and 353-368

The cover is a Blind Embossed non-woven material in Antique White and Maroon with Cordova grain. It is mounted on 160 point binder's board.

In addition to the black ink used throughout, there are 11 flats of four-color.
All captions and body copy is done in 8 and 10 point Avant Garde Book using Avant Garde Demi as the emphasis type face.

For further information, contact The 1984 Neon Yearbook Office, Youngstown State University, Youngstown. Ohio, 44555.

The 1984 NEON "Came Together", sometimes easily, sometimes not: But through it all we laughed and learned and kept at a seemingly endless task. Icannot say l'd like to do it again. but it was fun while it lasted.

I would like to thank the following people who put up with during this past year: Bill Beil (Advisor), Tammy Chacona (Advisor), Charlie McBriarty, Bess Smith, Roxanne Armile, Wes Traylor, Elise Cleary, Greg Gulas, C.T. Miller, Chuck Reed. Esther and Abe Orick, Carl Leet, Tina Ketchum, George Denney and his Jambar Staff.

Most of all I would like to thank the staff and photographers of the 1984 NEON.
To those who follow I wish you success.

Lary Fitzsimmons 1984 Editor-in-Chief
