*Enduring  
Peace*

In making this dedication we firmly believe that in a very real sense we are paying our deepest respect to the servicemen from Youngstown College and from all over the nation and the world whose brave actions will bring final victory to the United Nations. For it is our conviction that the overwhelming sacrifices made by the people who will have won this war can only serve their highest purpose in having given the decisive impetus to peace-loving men's determination to banish war from the earth.

Fulfilling this purpose must be the cause to which each one of us is dedicated. We must be ready to work as unrelentingly and unselfishly for enduring peace as our courageous servicemen have fought for final victory.

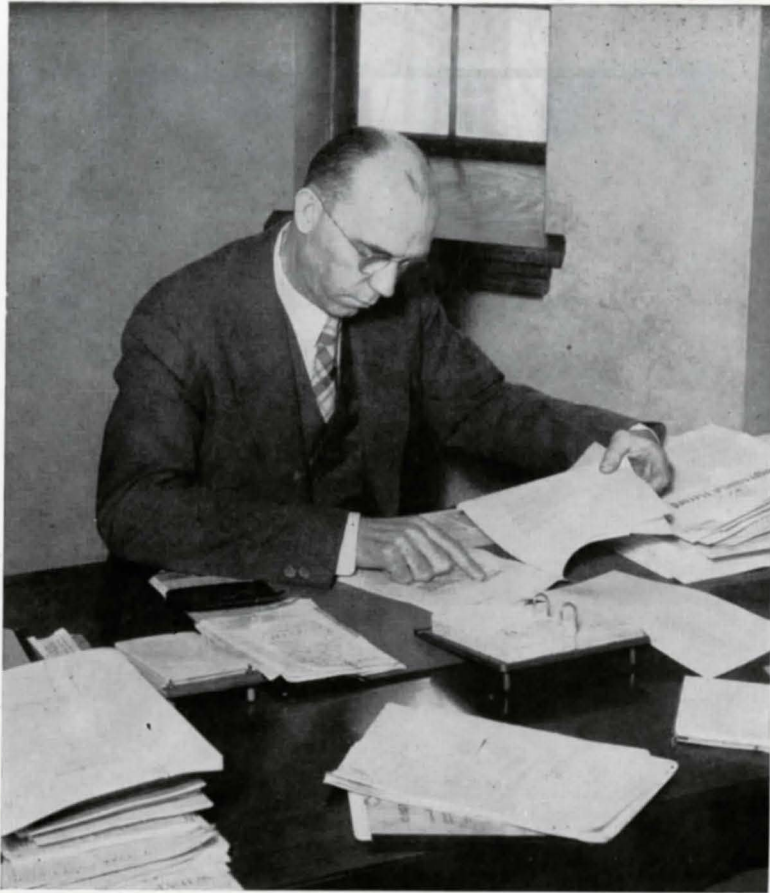

"Till the War-drum throbbed no longer, and  
the battle flags were furled  
In the Parliament of man, the Federation  
of the world.  
There the common sense of most shall hold  
a fretful realm in awe,  
And the kindly earth shall slumber, lapped  
in universal law."

From "Locksley Hall" (1842)  
Alfred, Lord Tennyson

## Faculty

Any future history of Youngstown College will record a new highlight in the accreditation of the College by the North Central Association of Colleges and Secondary Schools which was announced on April 7, 1945. Acceptance by this association was the result of years of hard work by the administration of the College to meet the requirements of the North Central Association.

The importance of the accreditation lies in the fact that it guarantees the acceptance of the credits of Youngstown College by the other colleges and universities of the country. Youngstown College students desirous of transferring to other colleges and of entering graduate schools have already reported the greater ease with which these moves were made. Receiving membership in the North Central Association is undoubtedly one of the most important advances that our rapidly expanding college has made.
