LIBRARY SERIALS DEPARTMENT

SHELVED WITH NEWSPAPERS

tuesday, october 23, 1978

vol. 59 - no. 9

1978-79 YSU HOMECOMING KING AND QUEEN are Chet Tabaka, junior, engineering and Jane Moore, junior, advertising and public relations.

Moore and Tabaka honored Homecoming royalty crowned

Jane Moore and Chester Tabaka were crowned as the 1978 Homecoming King and Queen during the halftime festivities at the Homecoming football game Saturday against Akron. Honored as members of the Homecoming Court were Patricia McDowell, Pam Pogany, Paul Roberts and Paul Shiller.

Jane Moore, of 1411 Albans Dr., Youngstown, is a junior majoring in Advertisement/PR. Jane is presently the executive chairperson for the Kilcawley Center Program Board. She is a member of the National Entertainment and Campus Activities Association, a former new Student Orientation Group Leader and a student co-chairman for

the Association of College Unions International Regional Conference that was held in Kilcawley Center. Jane's extra-curricular activities off campus include her serving as a Sunday School teacher at St. Christine's Church in Youngstown. Because of Jane's grade point average, she has qualified for YSU's Dean List.

Chester Tabaka, 4980 Middletown Rd., New Middletown, is a junior majoring in Civil Engineering. Chester is a member of the Sigma Alpha Epsilon Fraternity where he holds the position of Sports Director. Chester is also a member of the American Society of Civil Engineers. He is also active in various intramural sports.

The Homecoming King, Queen and Court were crowned and presented gifts by the Homecoming King, Queen committee. The committee consisted of Kim Zimmerman, Carol Amodio, Theresa Nephew, and Anthony Linebaugh.

The queen received a crown of red silk roses and babies breath. She was also presented with a trophy. The king was awarded a medallion and trophy. The Queen's court were gifted with charm bracelets and king's court received pewter tankard mugs.

Later that evening, the King, Queen, and Court were guests of honor at the Alumni/Collegiate Dance which was held at the Mahoning Country Club.

Students are too busy to help with ecology

by Mary Jane Klempay

In the early '70s, the big movement was to be ecology minded. This meant, in essence, recycling anything that was used once into reusable matter.

According to Sister Elizabeth Staudt, H.M., an ecology minded biology teacher, students of today are conscious of the ecology problem but too busy with school, studies, and work to make a dent in the problem.

The possibility of having a recycling center on campus is a bit unrealistic reported Sister Staudt. Because students are too busy, there would be a definite lack of manpower, as has been proved in the past. Two recycling centers in the Youngstown area that have closed down for this reason.

In addition to the manpower problem, there is very little profit in the recycling process unless it is done on an extremely large scale. To do this on a large scale would require a lot of workers at a full-time job and many people transporting the materials to Akron, Canton, and Pittsburgh areas.

The closest recycling centers are on Pyatt Street and the Howland Center. These centers receive most of their business from the Youngstown and Warren areas and according to Sister Staudt both are quite successful.

As far as the students who are concerned on campus, Sister

Staudt feels that most of the students in her Biology of Modern Man classes are genuinely interested and many of them show their concern through their class projects. These projects include field trips to recycling centers, landfill areas, and farms, and also clean-up litter programs that have been sponsored by the Biology Department and major corporations.

However, as a final thought on the subject Sister Staudt said, "The operation is a success, the patient died." What this means explained Sister, is that there is a lot of involvement by the students in ecology but the citizens, community and media are letting the program down. Total support is needed to make an ecology project work.

Parking tickets increase; stickers must be visible

by Ed Shanks

Many students feel that this quarter so far is the worst as far as parking tickets are concerned, Don Minnis, Director of Auxiliary Services, said. He added that he thinks that there have been more violations this quarter, too, but that since the parking lot attendants are now able to dispense tickets, this is not surprising.

Lot attendants were trained in some of the pertinent facets of security to their job, given uniforms, and, in short, prepared better for their job. "We decided to make use of our manpower," said Minnis, and "in this upgraded program...security people are freed to attend to their other duties."

"It seems that the area we've

Randy Gerber to leave TV center for new video tape company job

by Toni DiSavo

"When I left WKBN as news director and came to YSU, I felt my professional career had plateaued and that YSU was a good place to develop. I have come to that point again," says Randall Gerber, Producer/Director for YSU's television station.

Gerber's reason for his recent resignation effective Dec. 31, 1978, is that "there are new areas to be developed," and he wants to move on to explore those areas.

Gerber came to YSU in April, 1976, because there were "certain limits (amount of time and resources) that a daily television

station has which keep you from doing things (special features i.e. documentaries), and at YSU there was more potential for professional growth." At YSU, Gerber was able to be more creative in programming and production.

One creative work that Gerber views with a great amount of satisfaction is entitled "Surviving Steel." Gerber, along with two crew members, travelled to Dayton and South Bend, Ind. and interviewed people as to their survival after a major firm and a major corporation pulled out. He also included in the documentary the problem Youngstown faced when its steel company closed. There have been requests from local and community groups and Eastgate Development and Trans-

portation Agency to view the film.

Gerber regrets leaving the TV Center because of the great potential it has to offer. "I have enjoyed my 2½ years here," says Gerber, however, he is "very anxious" about his future plans with Image Productions, Incorporated.

This newly-formed business is a video tape production corporation that deals in communication purposes. Gerber says video tape and television are "the single most effective media (used) to persuade and inform people." The viewers must be entertained in the process because "if you don't entertain them (viewers), then you won't be able to inform them."

(Cont. on Page 3)

Automated deck will relieve YSU's parking problems

by Diana Cicchillo

YSU's parking problem will be relieved by the new Wick Avenue parking deck that will be fully automated when completed.

Don Minnis described the proposed system which will involve the installation of traffic flow signals. Three entrances and the lighted directional signals will help traffic to flow smoothly, he said.

The parking fee increase was partially caused by this proposed automated system.

The exact system for ident-

ifying the "paid" student vehicles is not yet known. Bumper stickers have been proposed but it is unlikely that the window sticker will be abandoned until a more permanent system is devised. The more permanent form of identification will be designed for the automated system.

The far reaching plan is the change over of the old parking deck and other lots to an automated system.

Minnis said once the deck is completed it will park 2,100 cars and will be the largest parking deck under one roof in Ohio.

How would Freud relate to Cinci?

Cold. Yet warming. Hearty, full-bodied flavor. Yet smooth and easy going down. And, Cinci Cream develops a big head on contact. Conflict. Conflict. Trauma. Trauma. Freud's diagnosis? We think he would have said, "It's too good to gulp." And you will, too. In the final analysis.

Don't lose a night's Class to aid frightened speakers

by Leslie Pearce

If you have to give a report in class, do you lose sleep worrying about it, cut classes to avoid it, or become physically ill thinking about it. This series of questions is based on recent research from Penn State University and now YSU has a solution to such problems. A course will be offered spring quarter which, according to Dr. Kathleen Kougl, will perform "intensive work on fundamental speech communication problems."

Dr. Kougl, instructor for the class, is a three year member of the speech department. She commented, "There are people out there who are in need. This course is not going to teach writing. It is designed for problems dealing with situations you have to deal with orally, whether it be social, business, or of an academic nature."

Some other statements by the Penn State researchers, which can help you identify whether you need this course are:

You tend to avoid talking with people because what you say "doesn't come out right."

When you have to talk under pressure (in class, to people with authority) you feel ill, go blank, feel dizzy, forget what you have to say, or quit before you are through.

You avoid asking questions or expressing opinions because people might laugh at you or think you are "dumb."

You have trouble meeting a stranger or carrying on small talk.

Dr. Kougl's added remarks on these statements was, "We're all reticent in some situations. But there is a difference between choosing to remain silent at times, and having to be quiet

because you lack the communication skills you need to cope with the situation."

She continued by saying, "Silent discomfort is not an adequate way to deal with our interactions in the course of a day."

Dr. Kougl plans to work with each student in setting goals for improvement in his/her area of difficulty. The professor described her competency in teaching such a course by relating, "I received my training in working with people with basic oral communication problems at Penn State, where I worked with reticent college students for four years."

Dr. Kougl concluded by saying, "Entry into the course is by permission by the instructor. So, if someone thinks they need this course, they should give me a call. My number is 742-3632."

Developmental Education exists to aid students in achieving success at YSU

by Bob McKimmy

The Office of Developmental Education at YSU helps students overcome academic barriers and facilitates their adjustment to the university in order to maximize their chance for success.

"I'm trying to build the program and get the word out to students that didn't know we existed," said Sharon Blackman, counselor in the Developmental Education office.

Services focus on students with deficiencies in basic skill areas, those with physical disabilities, the culturally different, older students, and the veteran.

Two major components of the office are peer counseling and peer tutoring, but the office also supports the Reading Lab, the Writing Center, the Reader Assistant program and various sections offered as part of the university curriculum.

Blackman strongly urges students that may need any kind

of assistance to stop by the Developmental Education Office, located in Room 115 of Kilcawley Men's Residence Hall. Hours are Monday through Friday 8 a.m. - 5 p.m. and Tuesday evenings 5 p.m. - 8 p.m., phone: 742-3540. Services are free to all students and she will answer questions about fees, financial aid or even study skills.

Tutoring is available in 500 and 600 level courses. Blackman stated that there has been 130 people apply for math tutors. A shortage of math and chemistry tutors has temporarily occurred and she wants to thank the students for being patient. They will be serviced, she added.

The Reading Lab, located in Room 208 in the School of Education Building, deals with increasing reading comprehension and developing study skills. Hours are Mon., Wed., Fri., 12 noon - 4 p.m.; Tues., Thurs., 9 a.m. - 12 noon. Rooms 210 and

211, Engineering Science Building, house the Writing Lab, which helps students with problems in composition and language usage. Dr. Nancy McCracken is director. Hours are Mon. through Fri. 9 a.m. - 12 noon, Tues. evenings 7:30 p.m. - 9 p.m.

Presently five visually impaired or blind students are being aided by the Reader Assistant Program. The assistants read texts and tests for the student and also help research materials for papers.

Developmental sections in Basic Composition 550, Algebra I and El. Ed. 510 (Reading & Studying Skills) are offered as part of the university curriculum.

Dr. George Letchworth was appointed as acting director of the Developmental office for this academic year after the August resignation of Philip Berns.

Blackman, new to YSU this year, came from Earlham College, Richmond, Indiana, where she was director of student housing.

The Michael Stanley Band has been signed to replace Stephen Stills in concert Friday, Nov. 10, pending formal University approval, announced Mark Shanley, coordinator for Student Affairs. Another band, yet to be selected, will open the show. Tickets for the concert will go on sale next Monday, says Shanley. Prices will be \$5.50 for YSU students, and \$6.50 for non-students. They will also be sold the day of the show for \$6.50.

Stanley was signed to fill the void created by Stills, who cancelled tour because of his upcoming divorce hearing.

LETTERS POLICY

The *Jambar* welcomes the opinions of its readers through the form of letters to the editor and input columns.

Letters to the editor may not exceed 250 words and should concern campus issues. Input columns may not exceed 600 words and may concern issues beyond the campus. No submission may be libelous, inaccurate, nor may it have any free advertising. The editor reserves the right to edit or reject all submissions. Both letters and input must be typed and signed, and must include the contributor's phone number.

Architectural barriers are problem to handicapped

by Helene Olexo

"Architectural barriers are just the beginning of the problems for the handicapped," stated Judy Horvat, public affairs director for the Mayor's Office on Handicapped Affairs (MOOHA), during her recent lecture to YSU's media presentations at the School of Business Administration.

Horvat addressed the class to assist the students in their class project to design a new public relations program for MOOHA.

Horvat went on to explain that most area people simply are not aware of the problems the handicapped face every time they attempt to enter a building or cross a street.

She added that her job is to make people aware of these problems, but that her staff is made up "almost entirely of volunteers" and for this reason it is difficult to keep coming up with good PR (public relations) programs.

As a result, the media presentations class, under the direction of Jane M. Simmons, PR and Advertising instructor at YSU, is assisting in the redesigning of MOOHA's PR program as part of a class requirement for the fall quarter.

The class has been divided into groups, each one developing a pamphlet or slide presentation aimed at either the handicapped, building owners, architects or opinion leaders in the Youngstown area. According to Horvat, each one of these groups needs separate attention in order to better understand and cope with the whole problem.

Horvat said that 17 per cent

of Ohio's population is handicapped in some way, and that in the greater Youngstown area this figure is between 15 and 17 per cent. She said that this is quite a good portion, but that as citizens the handicapped are largely overlooked when buildings are designed or remodeled.

"Architectural barriers are a form of discrimination to the handicapped," stated Horvat, citing such barriers as curbs, steps, narrow doorways, high drinking fountains, heavy doors and high telephones.

Horvat went on to say that if plans for accommodating the handicapped were initiated in the blueprint stage building costs would only be increased by approximately .10 per cent, adding that right now if a building owner would incorporate barrier-free designs he can deduct up to \$25,000 from his income taxes.

Horvat said that there is currently a federal legislative act on the books mandating barrier-free architecture, but that in Youngstown it is still somewhat ignored, either deliberately or through ignorance.

Horvat added that, on the whole, YSU had come a long way in complying with the needs of the handicapped and that the University organization is one of the few building owners in Youngstown that has.

"If we could just abolish the barriers," commented Horvat, "then more handicapped persons could become self-supporting citizens of the community."

MOOHA's office is located at the Mill Creek Community Center. For more information on its function and activities call 747-3561, ext. 203.

Workshop planned on problems of coping with death

Cutting the cost of dying and lessening the impact of grief through Death Education and Pre-Planning is the subject of an upcoming workshop, entitled "Death Education and Funeral Planning." It will be held at the Poland United Methodist Church, 1940 Boardman-Poland Road in Poland, Ohio on Saturday, Nov. 4.

This informative seminar will start at 9 a.m. and conclude at 3:30 p.m. The program is being offered by the Mahoning Valley Association of Churches.

Dr. Sally Hotchkiss, from the Psychology Dept. of YSU will be a featured speaker. Her topic: "Death, Dying and Grief: Psychological Approach." Additional guest speakers will include a funeral director, a representative of Organ Recovery in Cleveland, a representative of the Pittsburgh Memorial Society and others.

The meeting is open, non-sectarian, and the sponsors extend an invitation to all. For more information call Bob Ebert, 755-8696, or send name and registration fee of \$1.50 to MVAC-Workshop, 75 Jackson Drive, Campbell, Ohio 44405 up to Oct. 27. (Registration at the door is \$2.00).

Coffee and donuts will be served in the morning. Those planning to attend may bring a sack lunch or patronize the church cafeteria.

Time management workshop held

YSU's department of continuing education is offering two workshops in time management to be held on the YSU campus. "Effective Secretarial Time Management" is the subject of first workshop scheduled on Fri. Nov. 17, 9 p.m. - 4:30 p.m. Registration fee is \$70 per person which includes participation, workshop materials and exercises, luncheon and coffee breaks.

The second of the two workshops involves "Techniques in Time Management and Personal Effectiveness for Managers and Supervisors." The workshop will be held on Sat., Nov. 18, 9 a.m. to 4:30 p.m. Registration fee is \$85 per person which includes participation in the sessions, workshop materials and exercises, text, luncheon and coffee breaks.

Registration for either of the workshops should be made ten days in advance of the workshops. They will be lead by Dr. John R. Loch, director of continuing education and public service at YSU.

For further information contact the YSU department of continuing education's professional development programs division, (216) 742-3358.

SC extends hours of Escort Service

by Renee Cambier and Billie Radd

A motion was passed extending the Campus Escort Service to daytime hours during the Monday, Oct. 23 meeting of Student Council.

The meeting was chaired by new Student Council Chairman Mario Massaro. Massaro succeeded John Carano who resigned last week.

Elody Fee, student council member, was elected to Kilcawley Center Program Board; also elected were Jim Brink, also a council member and Ralph Minuto to the Academic Senate.

Elections for Student Council are being held Nov. 28 and 29. Machines will not be available for the election; however, paper ballots in booths will be used. Petitions for those students wishing to run for Council should be

Gerber

(Cont. from pg. 1)

Gerber's new job with Image Productions, Incorporated, will deal mainly with corporations and businesses involved with training programs. The new business through the use of video tape equipment, will help train new employees; produce safety training, techniques to employees and staff, assist in marketing, deal with executive and management techniques, and develop several other programs. "Video tape is more efficient in corporate use," says Gerber, but it also is applicable in professions such as real estate, law and others.

Gerber's position will not be vacated until next year and applications will be sent out soon. Gerber said that the person who takes over this job will take on many responsibilities.

editorial laugh line

Guz reviews not-so-famous quotes

Ecology, Economy

In light of the recent job-shortage situation in the Steel Valley, ecological concerns have taken a back seat to economics. Indeed, these concerns for the most part have been intentionally overlooked and forgotten. While it is certainly important that we focus our attention on our economic woes, it is equally vital that we work on our ecological problems.

The General Accounting Office, in a report recently released, asserted that state environmental protection agencies were being too harsh in the policing of agency guidelines for industry. Economic concerns such as employment factors and price considerations, the report suggested, should be taken into account.

But how long must these economic considerations be allowed to postpone industry adherence to guidelines? It will be much more expensive for industry to install pollution control devices, such as the smokestack scrubbers mentioned in the GAO report, in the future. Neither situation will get better; one will get much worse.

There was a great interest in ecology during the early seventies. Recycling centers sprang up throughout the land; Earth Day was observed by hundreds of thousands of Americans annually; tough new anti-pollution ordinances were enacted. There seemed to be a genuine concern for the future of our environment.

This concern has been obscured for the most part by simple economics, and, as a result, we're farther behind than ever in policing and regulating environmental waste and pollution. The problem has not gone away, just our attention to that problem.

It's important that legislators and citizens be made aware that in averting one disaster, we are postponing another. Consideration should be made of both economics and ecology, but attention to one problem cannot be diverted at the expense of another.

After all, what can we do with jobs in the valley when the river and the sky both die?

by Guz Scullin

"Life is not unlike a shoehorn resting on a mango in the hot winter sun." anonymous

Today, I would like to take a look at some quotes, but not the "quote, unquote" famous quotes, but rather, not-so-famous quotes of famous people. Ain't we got fun?

First off, I'd like to examine some not-so-famous quotes of the famed statesman, president, inventor, and ambidextrous jogger? Mr. Thomas Jefferson. Most good folk do not know that Jefferson was a jockey in the Virginia Orchestra. And he rode quite well. You've never heard of Jefferson's "mount-a-cello"? Here are a few of Jefferson's not-so-famous

quotes:

"'Que Sera Sera' will be a biggie for Doris Day."

"If man were meant to fly, he would be born with an airline ticket in his pocket."

"Man is basically a three-lettered word, as are can, aid, sex, let, art, and tree-if you drop one of the 'e's."

George Washington, who set precedent by being the first president, also had many not-so-famous quotes:

"As a child, I was quite young."

"I never chopped down a cherry tree, I just made that up so everyone would think I was honest. The story was the pits."

"I don't even like cherries,

they stain my oak dentures." "If I had a hammer, I'd hammer in the morning, I'd hammer in the evening, all over this land." So much for the father of our country.

Another person who had many not-so-famous quotes (they far exceeded his famous ones), was Ben Franklin. Ben was the author of *Poor Richard's Almanac*, which had a cover price of \$.25 an issue, but one could save almost a buck if they got a ten-year subscription. It was Ben who first coined the phrase "Go fly a kite," and "Damn, that smarts, I think I have discovered electricity!" Let us take a gander at some of Ben's not-so-famous quotes

"A penny saved gathers no moss." "A Rolling Stone will get busted for heroin."

"The early bird catches the cold."

"A penny for three days hard labor, is a penny earned."

"Early to bed, early to rise, and you miss all the late night flicks."

"To get rid of those unsightly blemishes on furniture, try smearing mayonaisse on the blemish, wait an hour or so, wipe it clean. It does wonders, believe me."

"Invention is 99% inspiration, and 1% perspiration, wait, or is it 99% perspiration, no I think it's about 60% perspiration, damn, I forgot."

"Someday, man will walk real funny on the moon."

"To sew a clock is a stitch in

Homecoming '78 of success estimate attendance is 2 000

This year's Homecoming was a total success because of the combined efforts from the University community, and media, according to Pam Spon, Homecoming co-chairperson.

Participation by both Greek organizations and independent teams added to the best attendance and participation record ever for homecoming events.

Sunny skies and indian summer weather for the four days of homecoming week made the attendance reach over 500 participants and over 1500 spectators.

Highlighting Friday's events was the second annual Presidential Ping-Pong Duel which was won by Student Government President, Tony Koury.

Saturday's events started with the Homecoming Parade which

drew quite a crowd from Federal Plaza as it made its way towards campus.

Sigma Sigma Sigma sorority won the float competition with the slogan "Pooh on the Akron Zips." Sigma Chi fraternity took second and Delta Zeta sorority took third.

The parade was the biggest ever drawing a variety of participants from the community and campus.

From the parade, a caravan of cars travelled to Fitch Stadium following the football-players' bus.

This year's homecoming game had the best attendance in the last ten years. Reaching peak capacity of 11,500 people at Fitch Stadium, a record crowd

HEW provides funds to purchase music equipment

Approval of a \$23,670 Health Education and Welfare grant, administered by the Ohio Board of Regents, has been announced by YSU President John J. Coffelt for the establishment of an electronic music studio at YSU.

Appropriated under the U.S. Education Act of 1965, HEW is providing half of the \$23,670 grant with the remaining half being funded by the University.

According to Donald Byo, director of the YSU Dana School of Music, the grant will enable the purchase of a much-needed synthesizer and sound recording equipment. "The music studio will provide a new and most welcome place of learning in the YSU College of Fine and Performing Arts," he said.

Establishment of the laboratory facility is expected by early next year.

Mountaineering #3.

METHODOLOGY

Mountaineering, as all but the chronically misinformed know, is the skill, the science and the art of drinking Busch Beer. It begins by heading for the mountains (i.e., a quick jaunt to your favorite package emporium or wateringhole) and ends by downing the mountains (i.e., slow slaking swallows of the brew that is Busch).

¶ However, between those two points lies a vast area of personal peccadilloes sometimes called technique and sometimes called methodology (depending on your major). Hence, this ad. ¶ Sipping vs. chugging. Both have their merits, of course. But generally speaking, except for cases of extreme thirst or a leaking glass, sipping is the more prudent practice for serious, sustained mountaineering. ¶ Next,

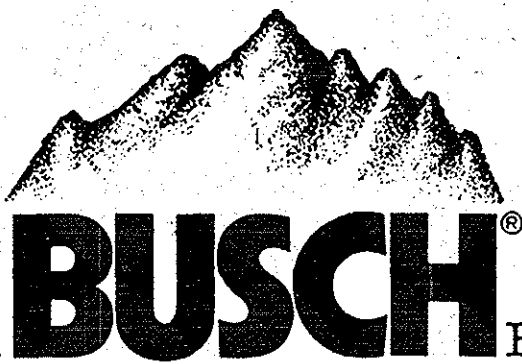

the proper position. Some swear by sitting; others by standing. Suffice it to say that the most successful mountaineers are flexible, so you'll find both sitters and standers. (Except on New Year's Eve, when it's almost impossible to find a sitter.) ¶ Which brings us to additives. Occasionally a neophyte will sprinkle salt in his Busch; others mix in tomato juice; and a few on the radical fringe will even add egg. While these manipulations

can't be prohibited (this is, after all, a free country), they are frowned upon. Please be advised that purity is a virtue, and the natural refreshment of Busch is best uncompromised.

¶ Finally, there's the issue of containers. Good taste dictates a glass be used. But bad planning sometimes prevents that. If you find yourself forced to drink from the can, you should minimize this breach of etiquette. Be formal. Simply let your little finger stick out stiffly (see Fig. 4). Happy Mountaineering!

Don't just reach for a beer. **BUSCH** Head for the mountains.

sports

Penguins zap Zips for MCC lead; continue toward top spot in nation

by Bill Snier

The old high school cheer of "We're Number One" takes on new meaning on the college level as the YSU Penguins are truly on top in the Mid-Continent Conference following a 27-3 victory over arch-rival Akron Saturday.

On the national scene, the Penguins were ranked second in the last Division II poll behind Winston-Salem with only four points separating the two teams. While YSU was defeating the sixth-ranked team, Akron, Winston-Salem was topping unranked Elizabeth City, 28-6. The law of logic states that YSU could well be the top team in Division II when the poll becomes official later today.

YSU combined a very balance rushing attack with a very strong defensive effort in subduing their old nemesis. The starting running backs tandem of Dwight Dumas and Robby Robson each rushed for over one hundred yards and quarterback Keith Snoddy added 98 more as the Penguins picked up 342 yards on the ground. The Penguins also chalked up

135 yards through the air on 7 of 21 completions. But at least two of those completions, both by Jim Ferranti, set up Penguin tallies.

A 32-yard pass from Snoddy to Ferranti set up a ten yard touchdown run by Robson and later, in the second quarter, a 68-yard bomb from Snoddy to "the Flea" set up a 23-yard field goal by Chuck Haynali.

The lone Akron score also came in the second quarter. Following a costly roughing the kicker penalty, Akron drove to the YSU five-yard line where Andy Graham booted a 22-yard field goal to reduce the Penguins lead to 10-3 at the half.

In the second half, an interception by Kevin Statzer got the Penguins going. The interception by Statzer broke the old mark for interceptions in a career and also tied the mark for interceptions in a season. YSU drove to the Akron 4-yard line, but four plays could not get them into the end zone.

On the second play from the YSU one, Akron fumbled and it

took the Penguins only two plays to score on a run by Robson and increase the score to 17-3.

Another Akron fumble in the fourth quarter set up still another Penguin tally. Sam Barbera sacked Bob Maxwell, the AU quarterback, and he fumbled at the YSU 45. YSU then took seven plays to reach the end zone with the final four yards coming on a pass from Snoddy to Robson.

Chuck Haynali added a 25-yard field goal with about 2:42 left in the game for the final count.

The defense was the most consistent factor in the game for the Penguins. YSU held the Zips to only 261 yards in total offense, with only 115 yards coming on the ground. This is a particularly impressive statistic since the Zips were averaging almost 223 yards per game on the ground coming into the game. The "D" also forced five fumbles, with the Zips losing three of them. Two of the turnovers were turned into Penguin tallies.

But the road get more difficult

(Cont. on Page 8)

INTRAMURALS

Soccer Begins

The Intramural Department has kicked off soccer competition for another year. From last week's games, Sigma Chi scored a 3-1 win over Sigma Alpha Epsilon, while Sigma Phi Epsilon defeated Phi Kappa Tau 1-0. Phi Sigma Kappa outlasted Theta Chi to win 3-2 in triple overtime. Hana's Bananas picked up a forfeit from Mirage while Crimson Pride scored an upset victory over HPE Club 2-1. I.E.E.E. notched a 4-2 win over Kilcawley Diseases, and Valley Crew shut out Qantas Bears 4-0. Phi Kappa Tau defeated Sigma Chi 3-1, while Phi Sigma Kappa edged Sigma Alpha Epsilon 2-1, and Theta Chi scored a 3-0 win over Sigma Phi Epsilon.

Football Continues

Intramural football action continued into its third week of competition. From Saturday's games, Parodi Kings picked up a forfeit win from Buzzards while M. Bears shut out Penguin Gang 21-0. Twi-Light Zone notched a 15-0 win over Jambar, and E.Z. Widlers defeated Clones 6-0 to stay unbeaten. Seagram's 7 edged by Young I-Tams 6-0 while Stoned Rangers picked up a 26-7 win over Morton's Marauders. Wedgewood Rats and Z-Seven had a double forfeit while R.O.T.C. remains

unbeaten by virtue of a forfeit from Ambri. Tendencies held on to a 6-0 lead to beat Angels, and Kilcawley II forfeited to EMTAE. Roundballers edged Razorbacks 1-0 while Campbell Works and Kilcawley Diseases both forfeited.

From Sunday's action, Snake & Co. squirmed by Mean Machine 7-6, and B.M.F. shut out A.S.C.E.T. 33-0 to remain unbeaten. Ohzone rolled to a 33-0 victory over Valley Crew, and Badlands defeated Hana's Bananas 7-0 in a close game. Outlaws outscored Mirage to win 35-7 while Austintown All Stars defeated Animal House 32-7. Y.S.A.S. came on strong in the second half to edge I.E.E.E. 7-0, and Crimson Pride scored a 25-13 win over the Assassins. Fishermen picked up a forfeit from Coneheads of Les Bushe, and Bo's Pros got a forfeit from Rams.

From fraternity games, Theta Chi outclassed Alpha Phi Delta to win 21-0, while Sigma Chi shut out Nu Sigma Tau 26-0 to remain unbeaten. Phi Kappa Tau continues to roll as they defeated Tau Kappa Epsilon 18-0.

Women's action included the Ram Jammers picking up a forfeit from Specialty Team, while Banana Babes got a forfeit from Delta Zeta.

SPORT SHORTS

Rifle Results

The YSU varsity rifle team narrowly lost their initial meet of the season Saturday as the Penguin shooters were topped by Penn State 2639-2637.

The Penn State Nittany Lions now lead the series between the two teams 4-2.

Penn State shooter Glenn Dubis was the high scorer in the meet with 568 out of a possible 600 points. Kevin Cooper was the high scorer for YSU with 542 points.

Other scores for the Penguins were Dan Brown 539, John Dance 522, Don Baker 520, Ken Tillery 514, Dave Lipe 513, Lee Humphreys 508, George Gordon 506, and Joel Zalar 500.

The Penguin shooters will return to action this Friday and Saturday when they will host the first of three Lake Erie Intercollegiate Rifle Conference (LEIRC) tournaments at the Beeghly Center Rifle Range. The YSU team is coached by Sgt. Robert Fairchild.

Soccer

The YSU soccer team suf-

fered their fifth setback of the season Saturday as the Penguins were drubbed by Behrend College 11-0.

Paul Healey and Bob Lawrence with five goals and two goals respectively led Behrend. Rich Stine also contributed to the cause with 24 saves.

YSU's record now stands at 0-5 while Behrend increased their record to 6-3-1.

The Penguins will return to action today when they will travel to Baldwin-Wallace College for a date with the Yellow Jackets. Match time is 7 p.m.

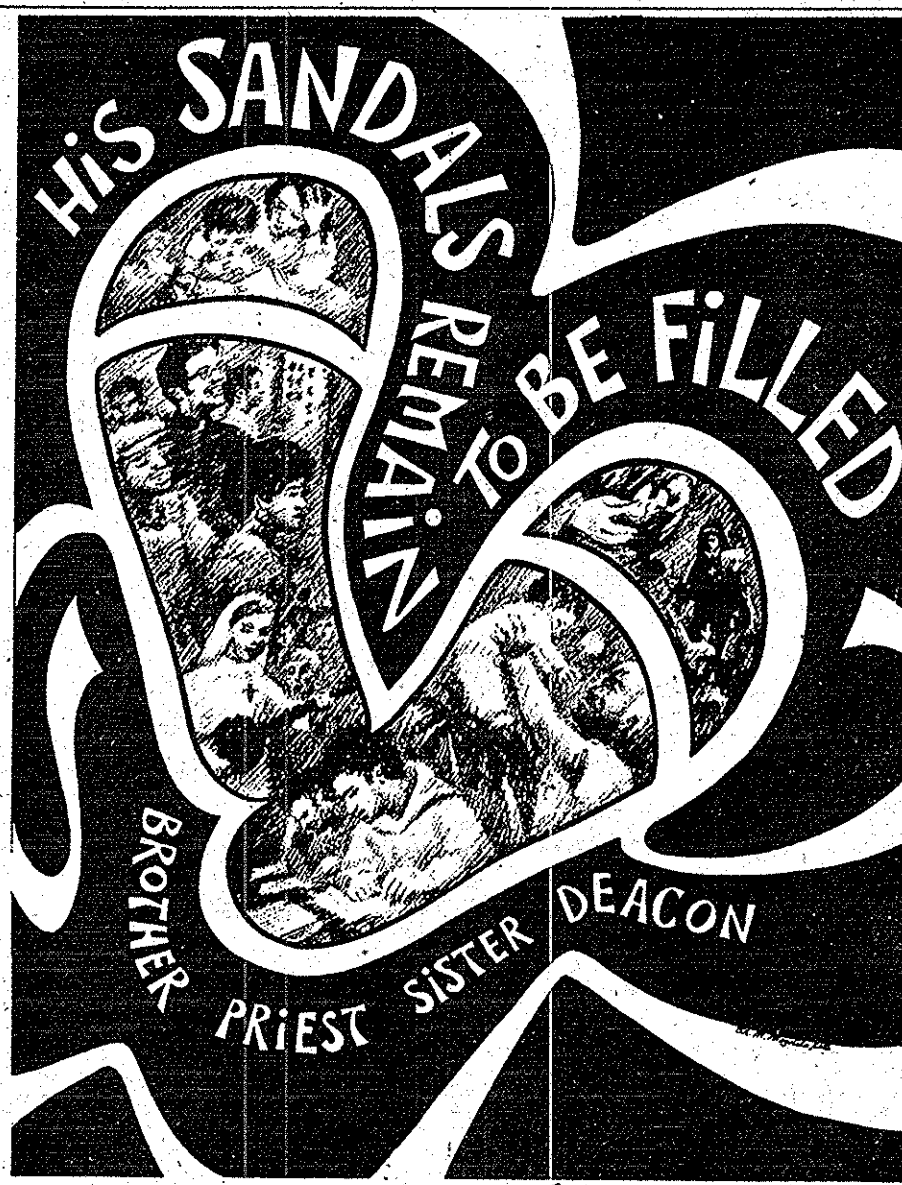

Women's Volleyball

The YSU women's volleyball team took its record over the .500 mark on Saturday by scoring two victories in a triangular meet held at Malone College in Canton.

The timely serving of Renee Wearsch helped the Penguins to overcome Malone in the first match by scores of 15-10, 14-16, and 15-11 and then come back to sweep Bluffton in the second match, 15-7 and 15-3.

The Penguins, with an overall record of 5-4 for the season,

Special Lecture Series Fall 1978

Dr. Laurence Peter

Monday, October 30, 1978
Kilcawley Center
8:30 p.m.

In the best-selling *The Peter Principle*, Dr. Peter presented his now-famous theory that working people tend to rise to their level of incompetence. Subsequent books, *The Peter Prescription* and *The Peter Plan*, offered a blueprint for a better society, and firmly established Peter as a leading social visionary.

Bella Abzug

Monday, November 13, 1978
Kilcawley Center
8:30 p.m.

The fiery former Congresswoman from New York continues to speak eloquently on such critical issues as minority rights, consumer and environmental protection, openness in government. A leader in the women's movement, she was presiding officer of the National Commission on International Women's Year.

Ronald Reagan

Wednesday, December 6, 1978
Powers Auditorium
8:30 p.m.

The former California governor who almost toppled an incumbent President from his party's nomination in 1976, Ronald Reagan is considered a frontrunner for that nomination in 1980. A powerful voice for the conservative point of view, he supports reversing the growth and reducing the complexity of government, returning decision-making to the people.

return to action Wednesday night for a dual meet with Clarion State in the friendly confines of Beeghly Center. The match will get underway at 7 p.m.

Swim Team Meeting

A Women's Swim Team Meeting will be held Wednesday, November 1, 1978, at 3 p.m. in room 307, Beeghly.

Should you have any questions, please contact Grechen Julian at extension 3653 or the Athletic Office at extension 3479.

Cross Country Results

The YSU cross-country club journeyed to Ashland College on Saturday coming home with a third place finish in a four-team meet.

The Ashland Country Club was the scene of the 8000-meter race, the first time a race of this type had been held at the site.

The four schools involved in the meet and their final point totals were Ashland 31, Walsh College 36, YSU 59, and Ohio Dominican College 115.

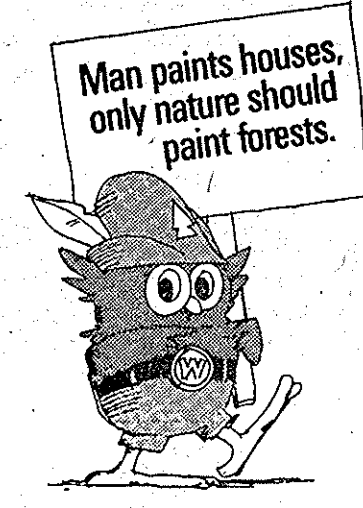

Brian Loux of Ashland was the first-place finisher, running the course in a time of 26:38. The best finish for the Penguins was Steve Sedlacko in fifth place with a time of 28:09.

"We are making steady progress," stated club coach Jack Neville. "We are very pleased with the results so far because we really didn't think we would even be here in the first place."

When asked if there were any plan to make cross-country a varsity sport in the near future, Neville responded that "we are aiming for next year, but it may be only two years away at the most."

"The financing of the sport would not cost that much. The only real expenses are for travel and for the uniforms for the team," stated Neville.

The next meet has not been scheduled as of yet, but Neville is trying to make arrangements for meets on the next two weekends.

GIVE A HOOT. DON'T POLLUTE

Football

(Cont. from page 7)

as the Penguins must now contend with the Division I Villanova Wildcats at Falcon stadium Saturday. More on the deceptive Cats in Friday's *Jambar*.

Penguin Notes

The Penguins have now piled up 282 points this season which cracks the season scoring mark set last year...with a 40.2 points per game average, the Penguins are now tops in Division II in scoring...For the second straight season, Keith Snoddy has gone over the 1,000-yard mark in total offense with 1,225 yards so far this season...Chuck Haynali now holds the YSU record for most field goals in a season with 9, eclipsing the mark of seven held by Max Judeh...Haynali is also within three extra points of breaking the season mark of 32 he set last year...Kevin Stutzer needs only one interception to break the season mark for interceptions which he now has tied.

— NEON —

Anyone interested in working on the staff of the 1979 Neon may apply at 102 Rayen Hall, Wednesday, October 25 between the hours of 6 and 7 p.m.

review

Cars create almost perfect album

by Guz Scullin

This year has been a bad one for new groups. Few debut albums have been impressive either musically or commercially. But now the time has come to roll on down the road of Rock; "The Cars" have arrived.

The Cars' first album was released recently on Electra records. The album, simply titled *The Cars* has already caused a stir among rock fans. The last debut albums to gain any notoriety was Boston's debut, *Boston*, and Foreigner's first; *Foreigner*. Neither albums can match *The Cars*.

Boston was the most successful debut album ever with sales upward of 6 1/2 million copies. Masterminded by MIT graduate Tom Sholz, Boston caught the nation by ear with strange, eerie, weird noises. It was a fine novelty, but I'm afraid it won't last. They have just released their second album (which I'd love to review, but don't want to pay

the money for it), and it is even more tedious and boring than their first. Their latest album sounds like one big single. There are only so many times one can hear Sholz make his funny noises with his guitar, and only so many times one can tolerate Brad Delp's screeching of "Let's Rock and Roll". Boston created a fresh sound and it now appears they are buried in that sound.

Foreigner's debut album was also sucked up by the public. The songs were nothing new, and the lyrics bordered on the asinine. It seemed every song was about the big rock star and the groupie. In a truly creative burst, Foreigner's second album deals with the same subject matter. "Hot Blooded" deserved its success on AM radio, it was definitely geared for the teeny-bopper audience. It is good music to yawn to.

Enter The Cars. This group has created the almost perfect album. They have a sound of their own (but do not repeat it

song after song like Boston), and that sound is very impressive. The songs are diversified; hard rock, rhythmic rock, beautiful harmonies—they hit all bases. Even if you like the noises Boston makes, you'll be impressed with the sound of The Cars.

Some of the songs which are more outstanding include "My Best Friend's Girl," "Just What I Needed," "Moving in Stereo," and "All Mixed Up."

In "My Best Friend's Girl," the singer tells us the tale of a girl he sees walking down the street. The music is funk-rock. "She's my best friend's girl/and she used to be mine/you've got your nuclear boots/and your drip dry glove/and when you bite your lip/it's some reaction to love."

"Just What I Needed" builds with a wall of guitar, smashing symbols and bass drums, to a climax that suddenly mellows to a nice rock beat. It is a very listenable song indeed, regardless of your taste.

"Moving in Stereo" is a song which begins like a Pink Floyd song. The song is chock full of wierd noises, but they are explained in the lyrics.

"It's so easy to fool with the sound/it's so tough to get up/it's so tough to live up/it's so tough on you." Boston is finding it hard to "live up."

"All Mixed Up" sounds some-

Director Minnis remarks on computer book system

by Toni DiSalvo

"Faster service to our students is what we're after," says Don M. Minnis, Director of Auxiliary Services, who is preparing a proposal of a new computer system for the YSU Bookstore.

Our present system "needs modernized" because it is very antiquated. The registers are 10 years old and the Bookstore has expanded since the registers' first installation.

"We have checked other universities that use it (computer system)," continued Minnis, "and it does speed up the process of buying textbooks. This means the students won't have to stand in lines for two hours to purchase their books."

The study began about a year ago and one of the universities that was visited was the University of Pittsburgh.

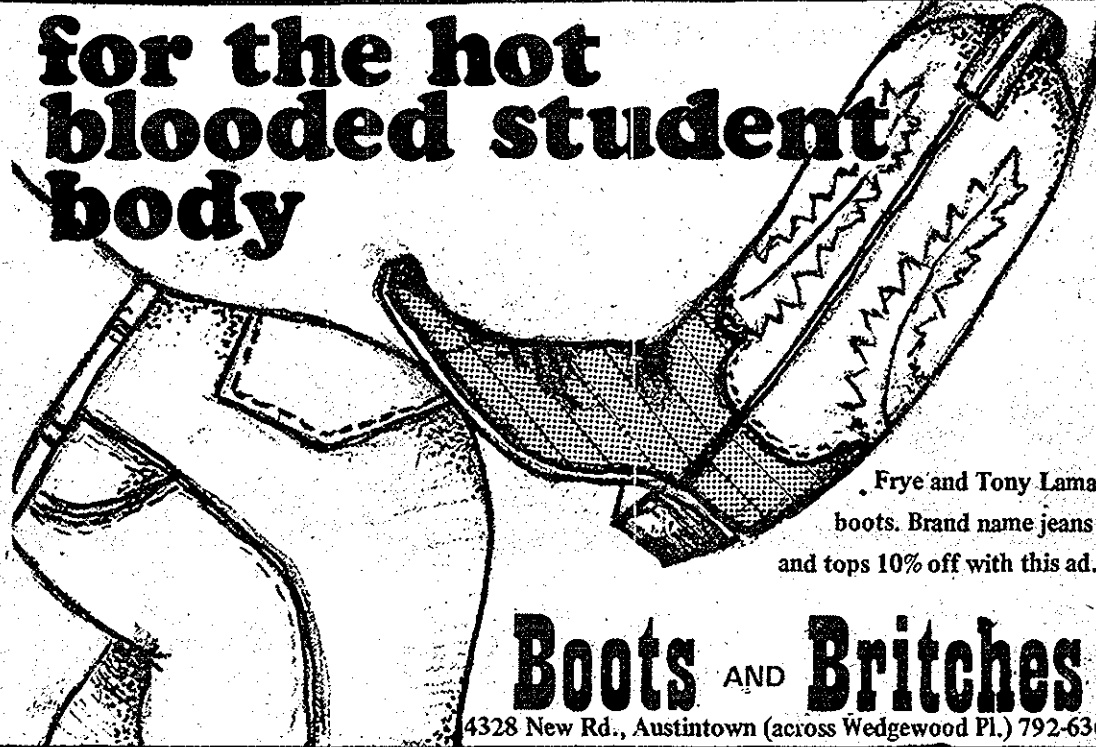

The computer will store data pertaining to the amount of

books to be requisitioned, purchasing orders, inventory control on a daily basis and other pertinent data. The data can be reviewed quickly and easily in a fraction of the time it takes now when using our manual system.

"One of the biggest problems that occur now is the overstocking of textbooks. We have \$50,000 or \$60,000 worth of obsolete books because we just didn't get them back (to the publish-

Medical Technology Major

Any Medical Technology major wishing to join Lambda Tau, an honorary Medical Technology society, should attend a meeting to be held Friday, Oct. 27, 12 noon in the College of Applied Science and Technology, (Cushwa Hall), room 1075. Future plans will be discussed.

Employment

Students interested in working for the Care of Grounds Department (20 hours per week), please contact Henry Garono, Superintendent, who will be interviewing every day this week from 9 - 11 a.m. and from 1:30 - 4 p.m. Office located at 230 W. Wood Street (Physical Plant). Telephone number 742-3239.

National Research Council

Applications are now being accepted for the NRC Research Associateship Programs for 1979. These programs provide scientists and engineers opportunities for postdoctoral research.

The programs are open to recent recipients of the doctorate and, in many cases, to senior investigators. Some programs are open to non-U.S. citizens.

Applications must be made to the NRC and must be postmarked by January 15, 1979. Results will be announced in Spring.

Application materials and detailed information about specific opportunities for research are available from the Associateship Office.

News Conference

A news conference on Tuesday, Oct. 24, 9:30 a.m. has been scheduled in the YSU-TV Center, Cushwa Hall to announce the results of a study conducted to help plan a "human services response" to the more than 5,000 steelworkers who lost their jobs last year as a result of the economic problems of the Youngstown Sheet & Tube Co.

Speaker

Alpha Kappa Psi, Professional Business Fraternity and Student Government present E.J. Schneider, Manager of Technical Sales, Sheet and Tube. He will be speaking on "HSLA Steels...More for your Steel Dollar" at 8 p.m. on Tuesday, Oct. 24, 1978, Kilcawley Center room 240.

English Dept.

English Department is giving makeup placement tests for Freshman and Current Students planning to enroll winter quarter. We, Nov. 1, 5p.m. in Schwebel Auditorium in the Engineering Science Building.

No Conference

The Full Employment Conference/Symposium scheduled for Thurs., Oct. 26, 1978, at YSU, has been cancelled.

No future date has been set at this time.

The workshop was sponsored by:
 Ohio Council of Churches
 Mahoning Valley Association of Churches
 NEOCROSS
 Eastern Mental Health
 Youngstown Area Community Action Council

Discussion

The YSU History Club will present a discussion on "America's Ethnic Symphony", the film recently shown on public television and at last week's meeting. Leading the discussion will be Dr. James Dale, social science, the executive producer of the film. The film dealt with America's cultural diversity and the International Institute of Youngstown's efforts to deal with the ensuing problems on a local level. The meeting will take place on Wed., Oct. 25, at 12 noon in room 238, Kilcawley Center. The public is invited and may bring a lunch.

Electrical and Mechanical Engineering Students only:

If you are interested in working in the Building Maintenance Dept. (20 hours per week), please contact Rocky Mediate, Asst. Superintendent, who will be interviewing every day this week from 9 - 11 a.m. and from 1:30 - 4 p.m. Office located at 230 W. Wood Street (Physical Plant). Telephone extension is 742-3239.

(Cont. on page 11)

Book system

(Cont. from page 9)

ers)," says Minnis. "The publishers limit us on overstock," continued Minnis because they give us a certain time factor in which to return them.

According to Minnis, the new computer system will "recommend to us a quantity of books" to be purchased by the date fed into it and will decrease the problem of overstocking books.

The YSU Computer Center made a preliminary study of the system and is working with Minnis on the project. The system will be either "a self-sustained system (an outside company will come in with their own system) or we'll decide to use our own computer people," explained Minnis. The Computer Center outlined their findings in a report submitted to Minnis on October 3, 1978. This report will be included in a proposal.

Minnis feels it would be better to deal with our own facilities. The only problem with that is the priorities set by the computer center. The center presently takes care of registration and students in computer programming. Minnis said that the bookstore use will be "worked in at a time when it didn't conflict with the other programs."

"The main thing about this new system is a wand feature," says Minnis. The books will be coded and when the students come to the register, a wand will pass over it and all the data will be taken. "It's so much faster," replied Minnis.

Dr. Meil Humphrey, Vice President for Financial Affairs told Minnis to make a proposal which will be sent to several firms who in turn, "will give a quote on the ability to supply what we want," and the cost and time will be included in their quote.

"We are on our way to seeing a system initiated," said Minnis encouragingly, "as long as we have the money." After the proposal is totally finished, it will be reviewed by all the necessary university channels. Minnis gave a "ball park figure" of \$100,000 for the new system.

The cost of this system will not be reflect to the students in a form of higher prices for books.

As far as personnel is concerned, Minnis said, "No elimination of personnel will take place," when the system is installed. "Right now, we are operating a little tight" and we are not hiring anyone to help out. This way no one will be asked to leave, the only thing that will change is the elimination of certain tasks that the computer will take over.

available this Friday. It was reported that 25,125 gallons of blood were donated last Tuesday during the blood drive. A total of 219 donors participated in the event. The breakdown of who gave will be available sometime next week.

A motion passed to extend and fund the Night Escort Service to include a Day Service also. At present the Night Escorts work four hours a day and receive \$140/month. With the addition of the new service, both time and money will be doubled. David Bozanic, Vice President of Student Council, hopes that this service will be available within ten days. Both potential escorts and students in need of the service should go to the Student Government Office for further information.

The Input column, written by Richard Curry, appearing in last Friday's *Jambar* was given much consideration. Council has decided to respond, in the form of a letter, explaining their actions and reasoning taken on certain issues.

The calibre of a man's character is directly linked to his resolve and indirectly linked to the occasion of his primary defeat.

Carey Lonatose

Cars create

(Cont. from page 9)

what like Alice Cooper's "Ballad of Dwight Fry," it is an excellent song. Plenty of good guitar riffs and harmonies.

Fasten your seatbelt before you put on the Cars, Ric Ocasek and the other four members of the band will make sure you stay awake at the wheel. By the way, the album was produced by Roy Thomas Baker, the producer of Queen, and he did an excellent job on "The Cars".
