YOUNGSTOWN, Ohio - Boardman, Canfield, and Poland area residents now have the opportunity to work toward an undergraduate degree from Youngstown State University right in their own community.

"Where You Live" classes, taught by YSU faculty, are now available to adults whose responsibilities make it difficult to attend conventional day classes. The classes meet at times and locations convenient for nearly everyone.

Those interested can earn credits toward a bachelor's degree or may enroll simply for enjoyment and personal enrichment.

Courses offered for YSU's Spring Quarter, beginning March 30 and ending June 12, include: Home Economics 502, nutrition; Speech 652, business and professional speaking; Anthropology, 602, an introduction to Anthropology; Geology 510, National Parks; English 616, introduction to Literature; film & drama; Management 725, fundamentals of management.

The home economics class is offered at the Union Elementary School in Poland at 30 Riverside Drive. All other courses are offered in the Boardman Senior High School, 7777 Glenwood Ave. in cooperation with Boardman Local School District's Adult Education Program.

Students working toward a degree must have completed high school or the General Education Development (GED) test. Previous college work, even many years ago, may count toward your degree.

A one-time, non-refundable undergraduate admission fee of \$20 is paid at the time of initial application. Qualifying Ohio residents pay \$22 per credit (or \$88 tuition for a four credit course) plus a general fee of \$15 for a total of \$103. Non-Ohio residents pay a tuition surcharge of \$21 per credit hour. Master-

MORE

card and VISA will be accepted.

Students taking courses for personal enjoyment follow the same procedures and pay the same tuition and fees as degree students.

For further information concerning these off-campus YSU courses, call the university at (216) 742-3221 to schedule a visit with a YSU representative at the nearest branch of the Public Library of Youngstown and Mahoning County, which is cooperating with this program of educational counseling and information. Remaining sessions will be held at these dates and times:

Boardman Branch, 7227 Glenwood Ave., March 23, 6-8 p.m.

Canfield Branch, 43 W. Main St., March 24, 1-4 p.m.

Poland Branch, 311 Main St., March 25, 1-4 p.m.

YOUNGSTOWN, Ohio - Youngstown State University's Planetarium begins a new show, "The Wonders of the Universe," Thursday, March 19 at 2:00 p.m. All other programs are scheduled for Friday and Saturday showings and are as follows: March 20, 8:00 p.m.; March 21, 2:00 and 8:00 p.m.; March 27, 8:00 p.m.; March 28, 2:00 and 8:00 p.m.; April 3, 8:00 p.m.; April 4, 2:00 and 8:00 p.m.; April 10, 8:00 p.m. and April 11, 2:00 and 8:00 p.m.

"The Wonders of the Universe" visually transports its audience to the future seas of space where they experience the strange and wondrous beauty that abounds the Universe. Viewers will board great space ships for a journey which will set them free of the Earthly lines and plunge them into the depths of time and space. The program is intended for the wonderers, the curious, the bold and above all, the thinkers and possessors of "the mind's eye."

Noted science fiction author Ray Bradbury once said, "It is the province of science fiction to take that idea that begs to be acknowledged and built upon; that idea that is ignored or scoffed at for its sheer boldness and color, and clothe it in more practical garb, that it might be accepted into the ranks.

And so it is with space flight, which wears the garments of science, exploitation, economics and politics--those staid robes of gray and white. Yet underneath hides a radiance of hues unimagined."

"The Wonders of the Universe," have long been reflected in the excitement and brilliance of Bradbury's creations. He never fails to take such space flight journeys and contends, "Many would deny it, others would speak of it as immature, yet I think more than a few of us would wish to bear those flamboyant banners, to wrap ourselves in those brilliant colors of excitement, adventure and discovery

MORE

which are the heart and soul of space flight; and like some gaudy cosmic tourist simply go out and see what there is to see."

The YSU Planetarium showings are free and open to the public. However, advance reservations are required and can be made by telephoning the Planetarium at (216) 742-3616. Reserved seats will only be held until five minutes before showtime. All programs begin promptly and latecomers can not be admitted once the show has begun. Because the subject and setting are inappropriate for pre-school children, they will not be admitted to any YSU Planetarium showings.
