

FOR RELEASE: IMMEDIATE

Mailed: March 23, 1987

YOUNGSTOWN, Ohio - Two non-credit language courses will be offered through the Youngstown State University Office of Continuing Education beginning in April.

"Conversational French" will be held from 5:40-7:30 p.m. Thursdays, April 9 - May 28.

In this course for beginners, participants will learn to understand, read, and converse in French for situations experienced by travelers. Correct grammar and accurate pronunciation will be stressed.

Annette El-Hayek of Youngstown, limited service instructor in YSU's Foreign Language Department, will be instructor. She has a Bachelor of Arts degree with majors in French and German from YSU.

The course fee is \$90.

"Conversational German" will meet from 5:40-7:30 p.m. Mondays, April 20 - June 15.

Also designed for beginners, this course will include basics for greetings, restaurants, public transportation and other situations encountered by travelers. German behavior and etiquette will be included.

Elizabeth Fekete of Youngstown, limited service instructor in the Foreign Language Department at YSU, will be instructor. She has a Bachelor of Science degree in Education from YSU.

This course fee is \$90, or \$75 for individuals registering prior to April 6.

FOR RELEASE:

Mailed March 23, 1987

YOUNGSTOWN, Ohio - Dr. Sherry Turkle, author of The Second Self: Computers and The Human Spirit, will present a lecture for Youngstown State University's Special Lecture Series on April 6.

Dr. Turkle will discuss her book during the program at 8 p.m. in the Chestnut Room of Kilcawley Center, Spring Street.

YSU's Special Lecture Series is free and open to the public. Seating is on a first-come, first-served basis.

These programs are designed to enhance and enrich community and University life by bringing to campus prominent social, political, and intellectual leaders.

Dr. Turkle's book, The Second Self, explores the vast social and psychological implications of the emerging computer culture--an age in which, she argues, we are developing a new and unprecedented intimacy with machines.

After six years of research, she has developed some complex theories about the relationship between user and computer.

"The question is not what will the computer be like in the future, but what well we be like? What kind of people are we becoming?" These are some of the questions the author asks.

Dr. Turkle holds a joint doctorate in Sociology and Psychology from Harvard University and is an associate professor at the Massachusetts Institute of Technology's Program on Science, Technology and Society.

Patrons of lectures in Kilcawley Center are encouraged to use the Wick Avenue Parking Deck across from Maag Library and Butler Institute of American Art. They can park on the fourth level and walk across the pedestrian bridge to the campus and Kilcawley Center. There is a \$1 parking fee for all events.

FOR RELEASE:

Mailed March 23, 1987

YOUNGSTOWN, Ohio - Some 30 area high schools will participate in Youngstown State University's "Business Olympics," sponsored by YSU's Business Education and Technology Department and the Yo-Mah-O Chapter of the Professional Secretaries International.

Nearly 200 students from Mahoning, Trumbull, Columbiana, Beaver, Lawrence and Mercer counties will compete in the program from 8:15 a.m. to 12:30 p.m. April 11 on the third floor of Cushwa Hall, Lincoln Avenue.

The event will feature 14 competitive areas, including accounting, business mathematics, job application, interviewing skills and sales presentations, as well as shorthand, typing and word processing.

An awards ceremony for the top three competitors in each category will be held at 12:30 in the Chestnut Room of Kilcawley Center.

The Business Education and Technology Department offers associate degrees in accounting, business management and marketing technology, and in labor studies and secretarial studies. The department is part of YSU's College of Applied Science and Technology.
