

## Vote of No Confidence Resolution

---

Whereas the administration has misrepresented the safety procedures it claimed to have put in place to protect the air quality of the students, staff and faculty at YSU, and

Whereas the administration has expressed its intention to not follow CDC and local health guidelines regarding the best practices for mitigating the health threat posed by the COVID-19 pandemic, and

Whereas the administration has repeatedly excluded faculty from the decision making process that informs the policies, procedures, and safety measures employed on campus, and

Whereas the administration has shown an inability to distribute even the most basic of personal protective equipment in a timely fashion, and

Whereas the threat of the COVID-19 pandemic to the health of our students, staff, and faculty is ongoing and will require informed decision making both now and in the foreseeable future,

Be it resolved that the YSU Academic Senate has no confidence in YSU's administration, specifically with regard to the processes and policies currently in place to deal with the COVID-19 pandemic.
