Anderson said his close-up view of the nation's leaders over the years has helped him understand the country's presidents bet-

YSU Foundation Ranks High In **Endowments**

YSU - The YSU Foundation, created in 1967 as the Youngstown Educational Foundation by the University's first President, Dr. Howard Jones, and 37 community leaders, ranked in the top half of 437 college and university endowments according to a Feb. 9, 1994 article in The Chronicle of Higher Education.

The YSU Foundation's assets of more than \$60 million place it fourth among the nine Ohio public universities listed. Only Ohio State, the University of Cincinnati and Ohio University were listed with larger endowments.

The YSU Foundation is a separately chartered nonprofit corporation.

"The Foundation is entirely independent of the University and has its own separate corporate board," said C. Reid Schmutz, president of the YSU Foundation. "But the Foundation's purpose for existing is to exclusively benefit the students and programs of Youngstown State University."

Schmutz stressed that income from the Foundation's endowment earnings is dedicated "first to support a strong University scholarship program at YSU." Schmutz noted that the Foundation also augments YSU with contributions to programs like the University's Community Interface Programs, the Cushwa Center and the Williamson Symposium.

YSU President Leslie Cochran lauded the essential role played by the Foundation in supporting the University's extensive scholarship program. Cochran noted the "impressive way in which the local community has supported the University through the YSU Foundation." Cochran stressed that the University Scholars Program would not be possible without the YSU Foundation.

Cochran indicated that the investment advantage of the YSU Foundation is the major factor in why the University uses the Foundation to manage the University's endowment investments. Schmutz said that the Foundation does everything that it can within its basic purpose of supporting a strong student scholarship and financial aid program to help the University.

Struthers native Rosemary Protain, who for several years managed to take care of her family and attend YSU full-time, received her bachelor's degree Saturday, along with her son, James Jr., at the University's winter commencement.

Mrs. Protain graduated with a degree in elementary education. She will teach math in middle school or on the elementary school level. She is now teaching as a substitute.

In 1989, Mrs. Protain decided to take the big step forward by attending YSU.

"I love teaching. Teaching is something I have always wanted to do," she said. "Now I can start to enjoy my new career."

Mrs. Protain is also a recreational long distance runner. She competed in the 1989-90 Young-Classic/One-Half Marathon.

"Many of my outside interests had to be put on hold while I attended YSU," she said.

A member of the Golden Key National Honors Society and the honors society Kappa Delta Phi, Mrs. Protain was awarded a YSU Foundation Scholarship for 1990-93 and received the Martin Luther King Jr. Achievement Award for 1991-93.

Many publications that come out of the Youngstown area contain stories written about serious

issues, for serious people, by serious people. Once in awhile, wouldn't it be nice to breeze through a publication whose purpose was to get the reader away from all of the seriousness in life? Although I do not mean to belittle the writers of Pinch Point magazine by calling them "not serious," I am assuming, from reading issue seven of the magazine, that their purpose is to poke

fun at people in the spotlight, have fun while doing it and give others something fun – and funny – to read. Pinch Point magazine is, according to Michael Gorgei, one of the contributing writers to Pinch

Point, "a satiric publication by a small group of Youngstown-area writers."

interviews included the "loudmouthed tub of lard," Rush Limbaugh, and a Youngstown prostitute. Although the prostitute article by Editor Afrin Argon filled up space more than it entertained, his Limbaugh interview was witty and comical. (Anyone who dislikes Limbaugh is a friend of mine.)

A couple of other funny articles were placed under the Culture section. Here you can find a story about Nickelodeon's Xuxa, who author Michael Gorgei describes as "a native of Brazil, but. . . looks more like an Aryan she-princess, what with her straight blonde hair,

blue eyes, fair skin and impeccable bone structure." The article goes on to describe the show and what Gorgei feels most parents will think "looks [more] like a Mardi Gras parade staged by Frederico Fellini" than a children's television show. Another clever, well-written tale.

Sure to be popular among those who are smart enough to buy issue seven of Pinch Point magazine (it costs one buck, and can be purchased at Twice Loved Books or The Gargoyle coffee house) is a looks are as sharp, hip and lively as Issue seven was divided into fiction piece called "The Man Who the articles.

Pinch Point also has "MTV VJ Ratings," by Afrin Argon, which any cynic would appreciate (he hates them all) and a Top 10 College Chart Countdown Review for 1993 by George Herbert Walker Lincoln Rockwell. These reviews are serious, (at least I think they are), but they never lose their sense of humor.

The magazine finishes with a "Hometown Essay Contest" and peeks into the next issue. Among the topics for this "Special How-To Edition" include "How to ruin familial relationships by pretending you're gay!" "How to increase your alcohol tolerance 35%!" "How to hide a corpse!" and, my favorite, "How to charm a stripper into bed!"

Another commendable aspect of the publication can be credited to the copy editors - the publication was virtually shining - and also to the designer; the magazine's

Fast-paced Daily Commended In Ron Howard Film

DON HANUSCIN Staff Reporter

From the moment Henry Hackett's (Michael Keaton) alarm clock goes off until early the next morning, he's on a frantic pace that would put the Indianapolis 500 to shame. Hackett's a newspaper man with a lot going on under The Sun in Ron Howard's latest directing effort, The Paper which has opened at area theaters.

less challenging and pretentious. The pressure intensifies at *The* tality. parànoid McDougal (Randv Quaid), who is certain that the parking commissioner he wrote about is out to get him, and a raving reporter (Jack Kehoe) who complains about his back-pain and the special chair he has to have. Real plot

The real center of the story, aside know. from press-room lunacy, is the two young juveniles being detained in connection with the murder of two out-of-town bankers.

A moralistic debate consumes from a stray easy route of a photo with the susbullet that goes pects donning the headline through a wall and asks, "Why "Gotcha!" It's not that Alicia shouldn't be strong-willed, but here she's just a cut-out of past characters with little else to offer but ranting. Alicia's not a terribly written character; however, she's not as consistently perceptive as the rest of players. Close is good in the role and shines in stronger moments like when in editorial meeting butts heads with Keaton. Set keeps its own pace

Debra Schutt's set decoration cannot be over-looked. She gives the film's Sun office a valid aspect. The hectic pace of the news room is authenticated by small offices, crowded desks, piles of work and computers and the addition of repair men sprawled about the office without care.

Howard has created, along with Koepp, a deftly-paced movie that recalls all of the better incarnations of The Front Page (especially Howard Hawke's His Girl Friday). He manages to show the incredible tempo of a big city news daily, while keeping most of the characters in focus.

The film is best watched for its tribute to American journalism and less so with the sub-plot of the murder. But whatever way you come to view the film, it won't be

Commentary

Welcome back, basketball fans. Spring break is over, and it's time for the Final Four. If you read my commentary a couple of weeks ago, you know who my pick is to win the championship. Since chances are you didn't, I

chose Arkansas to cut down the nets. That's the good news. The bad news is that Arkansas was the only one of my Final Four teams to actually become Final Four teams. My other choices were Missouri, Kansas, and North Carolina.

Let's start with the things I was right about. We'll do that first because it won't take that long. When I wrote my first commentary, I told you to watch out for the University of Florida. Lo and behold, here they are in the Final Four for the first time in their history. Even I didn't think they would get this far.

I was also right about UCLA. Gone in the first round. Bye-bye. Louisville also fell short, as did Kentucky, Indiana, Michigan, and Purdue, although the latter two made strong showings. Well, that about wraps up all the things I was right about. I told you it wouldn't take long.

Now for the flip side: Boston

College and Arizona. I said that also wrong about California. No Connecticut would be the only Big sweet sixteen for them. No East team to make any noise. Kidding.

Wrong. With victories over North My other three picks for the Carolina and Indiana, they Final Four were as follows: certainly showed more than the Kansas, North Carolina, and Missouri. I came this close to Huskies. In fact, I was surprised when they didn't vault over Florida picking Missouri to win the whole and into the Final Four. They had thing. Thank goodness I didn't. I an air of destiny about them, like chose North Carolina because, well, they were last year's I should have known that champion. Got to show some Arizona was going to make a run respect. I chose Kansas for no good reason. It just felt good. I guess it like this. The last two years they've lost in the first round. It was about didn't feel good enough.

All right. Let's dispense with

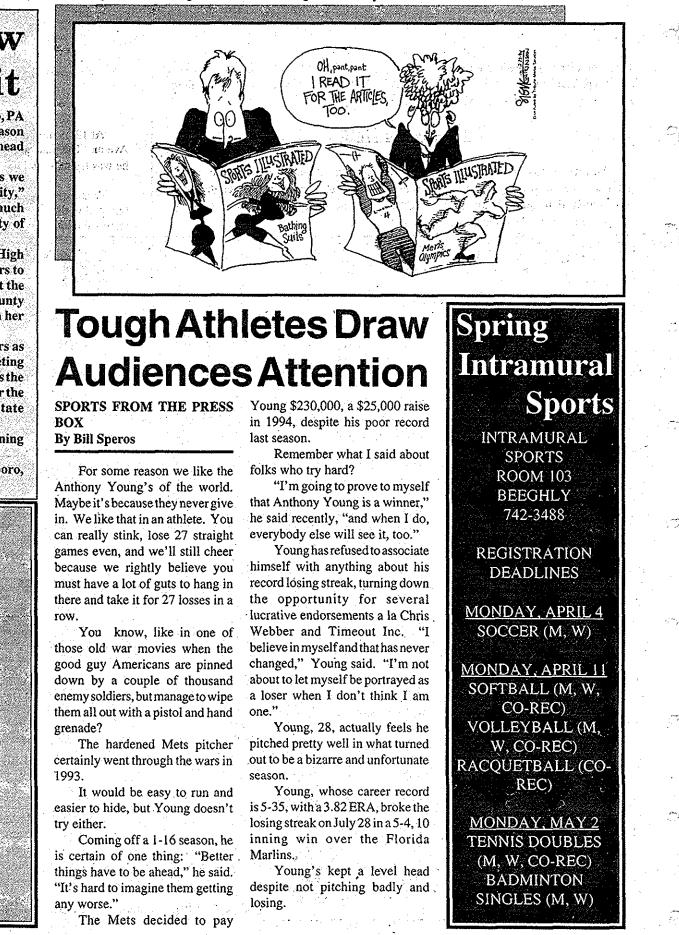

the crap. You probably want to know how I think the Final Four will play out. Get out your pencils. First of all, Duke will beat Florida, as much as it pains me to say so. There's just too much experience on the side of Coach K. On the other side of the bracket, Arkansas will beat Arizona. No surprise there, huh?

April 1, 1994

Then it also should not be surprising that I will be choosing Arkansas over Duke in the championship game. My team has come this far. I may as well stick with them.

I have more than just my pyschic integrity on the line here. The managing editor Cindy Catheline has chosen Duke to win the championship. Needless to say, we have engaged in a small wager. Loser buys the winner a six-pack. The only thing I like better

Amy Hermann, a 5'11", middle blocker from Edinboro, PA has signed a national letter-of-intent to attend YSU next season on a volleyball scholarship, it was announced today by head. coach Joe Conroy.

"Amy is the type of athlete that we are looking for as we build our volleyball tradition at Youngstown State University,"

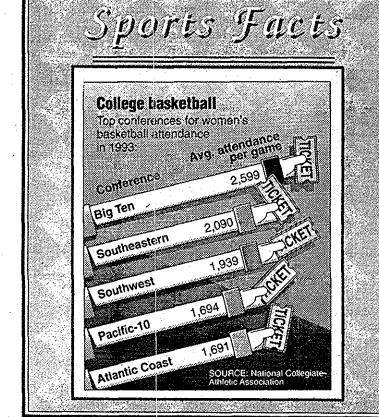

Conroy noted. "She is an excellent player who will add much needed depth to our squad next season while seeing plenty of action," he added.

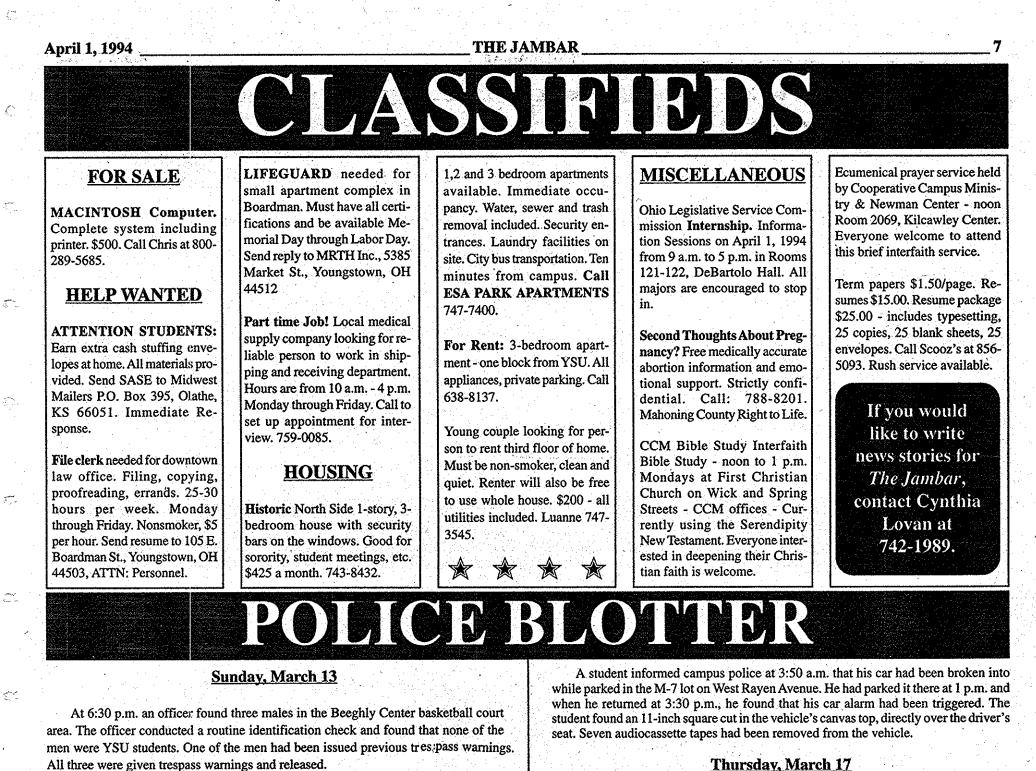

Hermann, a senior this season at General McLane High School, will bring an impressive collection of athletic honors to the Youngstown State campus in the fall. For her efforts at the scholastic level, she was named to the first team all-county squad, while grabbing first team District 10 honors in both her junior and senior seasons.

A duel sports athlete she is an impressive on the cinders as she is on the volleyball court. Hermann is currently competing in her fourth season with the Lancer's track squad. She holds the school record in the triple jump (37'4") and has qualified for the Pennsylvania Interscholastic Athletic Association State Championships since her freshman year.

In the classroom Hermann carries a 3.4 GPA and is planning to study allied health and physical therapy at YSU. She is the daughter of Ed and Bonnie Tansey, Edinboro,

HOROSCOPE

By Linda Black

Weekly Tip: The sun's in Aries all week, which should spur the athletes to new heights.

Aries (March 21 - April 19) You may be very lucky in love! A partnership you form could last. The pressure's on this weekend, so stay busy!

Taurus (April 20 - May 20) You may have to cover for a ditz. Be patient. You'll be more effective with just about everything, especially if you're working with an energetic partner.

Gemini (May 21 - June 21) It should be a fun time, so schedule an early date. Don't make any major decision. Your work's cut out for you, so get to it!

Cancer (June 22 - July 22) It could be a difficult week. Don't try to do everything at the same time, set priorities! Make plans for the future.

Leo (July 23 - Aug. 22) This whole week's great for sports activities. You may be distracted, however, by love. Watch out for a roommate who's holding a grudge.

Virgo (Aug. 23 - Sept. 22) This should be a good phase for you, financially. You may have to work for what you get, though. Figure out how to bring in a few extra bucks.

Libra (Sept. 23 - Oct. 23) You're lucky, but there may be competition for your attention. Money woes could cramp your style. Sell something!

Scorpio (Oct. 24 - Nov. 21) You're under a bit of pressure this week. Don't worry, just stick to what you know best. You'll be more effective, although you may have to push past resistance.

Sagittarius (Nov.. 22 - Dec. 21) Your social life may interfere with work. Get back on schedule or you'll wish you had! Concentrate on finishing something. No more extensions!

Capricorn (Dec. 22 - Jan. 19) It could get hectic this week. Use a roommate's anger as motivation; don't get upset. You'll be very effective working with a group.

Aquarius (Jan. 20 - Feb. 18) You're lucky in most things pertaining to higher education. Tests should be a breeze. You can expect your least favorite person to say something you find disgusting. Pisces (Feb. 19 - March 20) Take care of financial paperwork. Plan an excursion. A good time to finish up a project. Another could come soon.

If You Were Born This Week:

You may find the perfect partner this year, but you may have to abandon your old stereotypes first! Study finances. What you learn now could pay for more education and your future! Sports and travel are favored. Find a way to do both! This is the year you get to learn discipline! Don't put up a fight, you'll waste time!
