## Spanish Club Award Winner to Present Talk on Guatemala

The first meeting of Los Buenos Vecinos, the Spanish Club, will be Friday, Oct. 28, at 8:15 p.m. at Pollock House Blue Room. Marilyn Mozzillo, 1960 Scholarship winner, will talk on her trip to Guatemala. Slides and movies will highlight the speech.

FRESHMEN who plan to major in Spanish are invited to attend, and anyone with an interest in promoting Spanish-American and Latin-American relations is welcome, according to Gary Scavnicky, president. Plans for a book sale will be discussed at the business meeting.

Awards presented throughout the year include a \$400.00 scholarship given to a sophomore or junior; an Art Prize to the winner at the Youngstown University Annual Show held at the Butler Art Institute; a prize to the Sinfonia Music Honorary Fraternity; and an annual Library Award which differs every year. Money is awarded to buy various Spanish scholarly journals to improve the Spanish Department at the university library.

Assisting Scavnicky are Betsy Kacenga, vice president; Katherine Thorne, recording secretary; Pat Murphy, corresponding secretary; Marilyn Mozzillo, treasurer and Jo Hanna, chairman of ways and means.

## Newman Announces New Meeting Time

Tom Rishel, external vice president of Newman, has informed the Youngstown Jambar of time changes for the organization's bi-monthly meetings.

Those persons who belong to the building and management committee are to be at Cardinal Mooney High School at 7 p.m. Cafeteria doors will open to the public at 7:30 and the business meeting will begin at 8:30.

The Communion Breakfast scheduled for Oct. 9, will be on Sunday, Nov. 6, after the 10:15 Mass at St. Columba Cathedral.

## Foreign Films Only

## Girard Art Theatre Opens; Special Rates for Students

By Dave Quarterson

The first all foreign film theater in the Youngstown area, The Art Theatre, opened last week. University students will have a chance to sample some of Europe's outstanding film exports.

Oct. 12 was the premiere of "I'm All Right Jack" an English satire on socialism vs. capitalism. The star, Peter Sellers, played Windrush a naive but sincere upper-class college graduate. Windrush's ambition is to join management. But the only thing he manages is to become a laborer in his uncle's factory.

Windrush's mix-ups as he is caught between the schemes of the union and his capitalistic uncle are executed with typical English wit and capacity for understatement. "I'm All Right Jack" is a mild form of satire, it takes no sides but pokes fun at both.

The Art Theatre is the former Wellman, located in Girard only a 15 minute drive from YU's campus on

UNIVERSITY STUDENTS participating in the Ohio Folklore Society Fall Meeting perform a dance of supplication for rain. Left to right are Rita Nolte, Linda Belinky, Sue Leebaw, Barbara Rifkin, Gail Shacter and Janis Landis.

## File Applications Before Nov. 18 For Navy Exam

Deadline for filing applications for the Navy College Aptitude tests for entrance in Regular Naval Reserve Officers Training Corps is Nov. 18. The tests will be given Dec. 10.

Applications may be obtained from the Navy Recruiting Station or by writing the Chief of Naval Personnel, Department of the Navy, Washington 25 D.C.

Those making applications must be between 17 and 21 years of age and must not be 21 before July 1, 1961. Successful applicants will qualify for attendance at one of 52 colleges and universities. All tuition, fees and books are paid for by the Navy and the student also receives a \$600 a year retainer.

## A Spark

Women can keep a secret as well as men, but it always takes more of them to do it.

## Dean Charignon Attends 3 Day Engineering Meet

By Eleanor Novotony

On Oct. 2, 3, and 4 Dean Charignon attended an international meeting of the Engineering Council for Professional Development. The meeting was held in Montreal, Canada.

Representatives from South America, Canada, Mexico and the United States considered problems of engineering and curriculum. Youngstown University's Engineering School received the highest accredited curriculum possible.

THE THREE day convention work was highlighted with many interesting social events including a banquet and dance Monday evening.

M. Jean Charignon, dean of the William Rayen School of Engineering was recently awarded the degree of Doctor of Philosophy by the University of Pittsburgh. He is the son of the late Jean and Amelie Gros-Burdet Charignon of Valance, Drome, France.

Prof. Charignon completed his undergraduate studies at North Dakota State University where he was awarded a bachelor of science degree in mechanical engineering and

## RIL Schedules Halloween Party

The Religion-in-Life Halloween Party will be held Friday evening, Oct. 21, from 8 to 11:30 in Friendship Hall of First Christian Church. Costumes are optional. Those in costumes, however, will compete for prizes for the best costume and the most original. The Reverend Albert L. Linder, chaplain for RIL, said that there will be records, refreshments and Halloween games and stunts.

The committee for the Halloween Party is composed of Joy Miller, Carol Albright, Max Hehl, Russell Van Tassel, and Linda Norling. Donation will be 50 cents.

## Board of Trustees Names 2 Members

## Mrs. William Kilcawley, A. J. Wardle, Jr. Replace Paul Davies, Franklin Powers

Mrs. William H. Kilcawley of Leffingwell Road and A.J. Wardle, Jr., president and director of The McKay Machine Co. and Metal Processing Machine Co., a McKay subsidiary, were elected new members of the board of trustees of the university.

## WBBW Broadcasts University Program; Will Feature 'Spots'

The University's student radio show will return to the air tomorrow morning on radio station WBBW. This is the 11th season WBBW has carried the University radio show.

THIS year's program will be on every Saturday from 11:05 to 11:30 a.m. Fred Kirby and Bill Hudak are the show's co-directors. They will present campus news on the show.

Kirby and Hudak are planning to tape record interviews with campus personalities for use on WBBW during the week. They plan to feature a guest on the show, from the university, from time to time.

THE NEW members will replace Paul Davies, general secretary of the Y.M.C.A., who has resigned and the late Attorney Franklin B. Powers.

Mrs. Kilcawley is the widow of the late William H. Kilcawley, one of the founders and secretary-treasurer of Standard Slag Co. The W.H. Kilcawley Charitable Trust made a gift of \$300,000 to the university last Dec. toward the cost of building a Student Union Building to be called the William H. and Mattie M. Kilcawley Student Union Building. Mrs. Kilcawley has been active in community affairs. She is a member of the DAR and was a past regent of the organization, is a member and has served as secretary of the Youngstown Garden Club, a member of Kensington Art Club, of the Clio Club, and of the Youngstown Country Club. Formerly active in the Red Cross, Mrs. Kilcawley is a member of the Presbyterian Church in Canfield.

WARDLE is the son of McKay's first president, A.J. Wardle, Sr., and attended Westminster College and Youngstown University. He joined McKay Machine Co. in 1935 as a blueprint boy and transferred to sales in 1939. He became assistant president in 1947, vice president, sales, in 1953 and president in April, 1956.

Wardle is president and a director of the Youngstown Area Chamber of Commerce and of the Mill Creek Park Board of Commissioners. He is a director of Mahoning National Bank, St. Elizabeth's Hospital, The American Red Cross and the Mahoning County Tuberculosis and Health Association. He is a member of Christ United Presbyterian Church, the Youngstown Club and the Youngstown Country Club.

Raymond J. Wean, chairman of the university board and president of The Wean Engineering Co., presided at the meeting.

commissioned 2nd Lieutenant Infantry, A.U.S. in 1932, a bachelor of science in electrical engineering and a bachelor of arts in 1933 and the

**Federal Aid**

Government figures showing a 132,000 shortage of public school classrooms may have slight relation to reality, a survey by the Chamber of Commerce of the United States reveals.

Yet it is on these figures that most arguments for federal subsidies for local school programs are based.

The survey covered 37 states. It revealed that these states determine their classroom shortages by a great variety of methods. For example, one state aims at a goal of 15 pupils per secondary school classroom, so it claims room shortages at schools where this figure is exceeded. Many other states use much higher figures. The national average is 28 pupils per classroom.

Though each state might find its own method appropriate, adding state totals to get a national classroom shortage figure, as the U.S. Office of Education does, makes as much sense as adding apples and oranges. The national total has slight meaning, the Chamber said.

Much more meaningful, the National Chamber said, are government figures that reveal that most local school districts don't need federal aid. In the last decade, for every enrollment increase of 100 pupils, school districts provided enough new classrooms to house 120 pupils and replaced obsolescent classrooms for another 40.

The question remains; do we actually need Federal Aid to education?

**Letters to the Editor**

**Worthy Comments**

EDITOR:

After years of silence, during which I have suffered through a great many of its pedant "classes," I must speak in criticism of the educational school. Much of what I have to say has also been voiced to me by other education students, and others who have taken education courses. Unfortunately I must remain anonymous because, although I admire my university for its policy of academic freedom, this freedom does not exist in the field of criticism, and I am very close to graduation. With apologies to the education major receiving a B.A., and those honest enough to admit that they are in education because it is an easy degree, I begin.

"The academic standards in education are very high." This argument has been given to me time and time again. The only remark I have to give is a comment by an education instructor, "We grade higher to keep the averages up." Need I say more? But what about an academic background for the education student? My catalog reveals that no languages are needed for this degree, neither algebra nor geometry, and only nine hours of science. Significant? Compare the number of students who receive a B.S. in Ed. with the number of students receiving other degrees. How can a person who lacks this background learn how to control his intellectual processes without a shred of formal training; there is so much I would like to say in this, and the following areas, but I am limited by space.

There is also the problem of social acceptance into the department, and this sociability, or attitude, in relation to class conduct and grades. I realize that a person is not

measured by his intellectual ability alone, but also his personality. This, by the department, is deemed one of the most important aspects of the future teacher. You cannot argue or discuss a serious point in an education class unless it be education, discussed with appropriate terminology, and no outside facts brought into the discussion, other than those of educational leaders.

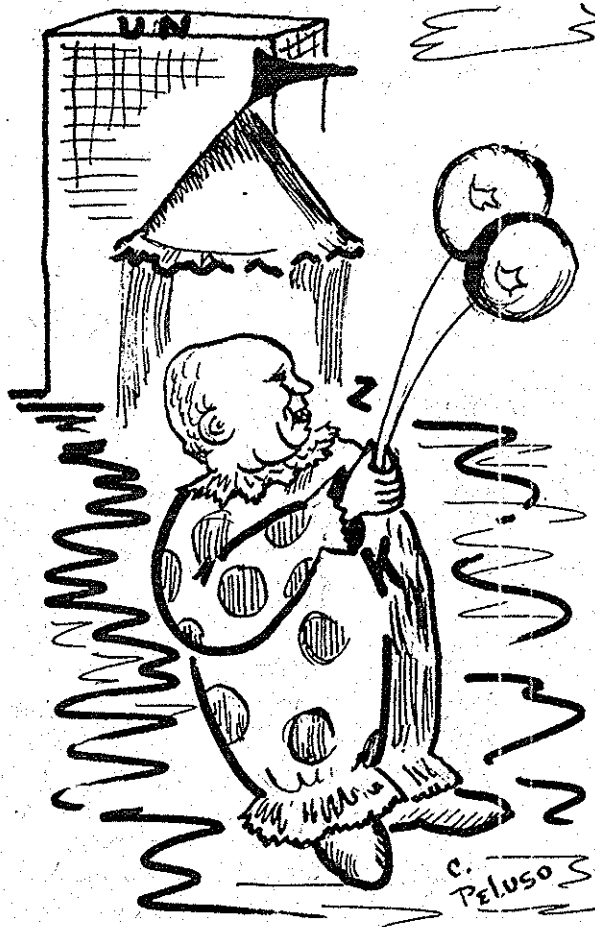

The greatest disagreement I have with teacher training is the course of study. Look at it! Disgusting! All methods and no content. How can any reasonable person presume to step into a class and begin teaching any subject without a thorough background. This is assuming the intellectual capacity of every great writer and philosopher who is known to history. But again I realize that some method is necessary, but not that which is carried out at the present. Cut-outs! Bah!

And how, I know that everyone wants to know how I dare to criticize persons who have spent years in developing, and working in the field of education. From studies, reports, and readings, it appears to me that no two educational philosophers can agree with each other, which is good in relation to progress, nor can any one alone agree COMPLETELY with himself.

The Haruspex

P.S. I am only one individual, not a collective effort.

Editor's note: The editorial board believes this letter to be worthy of campus interest and we hope it stimulates the student body.

**Come One, Come All**

**Khrushchev Makes Debut In U.N.'s 3-Ring Circus**

By Frank Court

Khrushchev, the one-man show, has made his grand exit. The bald little premier who speaks with all the fury of a fire and brimstone tent preacher has pulled up stakes and left for home. With him he took his three-ring circus, clowns and all. The fat, red-faced Russian left his mark on the General Assembly of the U.N. and was revealed for the gaudy spectacle he is. Home he goes, to cry in his vodka.

THE OCTOBER 17 issue of "Newsweek" commented on Mr. K's accomplishments. "A series of defeats in the Chamber; a bad impression in public, but forceful and perhaps profitable politicking in private."

The leaders of the world's nations watched the squat, irrational diplomat throw protocol to the salt mines. They watched him unleash an attack on U.N. Secretary General Dag Hammarskjold. A man regarded by most of the newer Asian and African nations as a friend. They watched him turn blue with anger and beat violently on his desk throughout the Secretary General's address defending his position.

"A JERK" was what they heard him call a Filipino delegate, when that delegate referred to the independence of captured Communist nations. To emphasize his fury, Mr. K. removed his shoe and waved it threateningly at the astonished Filipino.

At times during the sessions, he was gripped with a type of apoplectic fury that prompted him to talk openly of rockets and war. During the disarmament talks he claimed the vest was trying to frighten him. "We won't be bullied," he cried. "Our rockets will come out like sausages from the machine." A French delegate called K's speech a "spectacle".

THE LEADERS of the world's nations heard Khrushchev call Spain's Franco a hangman. They heard him threaten to create his own world organization at the expense of crushing the U.N. They watched him lunge when he called Nationalist China, "a rotten corpse", and demanded entry of Red China into the U.N.

When the final results of the U.N. session are tallied, it may well show Mr. K unconsciously doing us a service. The sessions accomplished little but at least the world got a ringside seat in the bald neurotic's big top of Communistic fiasco.

HE'S GONE, goody, goody, and we hope he remains away for a long time. He came to the U.N. to exhibit himself and his gangster buddies. He returns home, a spectacle of lunacy and bad manners. He has certainly hurt Soviet world prestige. His scheduled three day goodwill tour to Cuba was cancelled when his security chiefs warned him about growing anti-communist threats in Cuba and Latin America. If he does journey to Cuba in the future, for the sake of humanity let him take a bar of soap and a razor for Dictator Castro's use.

**We Agree**

Editor:

Now, understand, I don't mind discussing politics with people on a sensible basis, but the way some of these students go to extremes working for their candidates is carrying things a little too far.

Wearing campaign buttons is fine; I wear one myself, but some people go around carrying banners and throwing them at people. I walked

into one of my classes the other day and there pasted to the blackboard was a political poster about three feet high. This is an Institution of Learning? Learning what? Politicians' names, evidently.

If you mention that you are for one candidate, there is always someone for the other who says that you're sick. Evidently, you have no freedom of speech.

**Did You Know It's the Truth That . . . . .**

By Mike Shelley

There are other things in this world beside money - - stocks, bonds, annuities....People who make fun of women drivers just don't realize how difficult it is to drive in the middle of the road....It's a tough world for the Americans. Every time he invents something, the Russians invent it a week later, and the Japanese make it cheaper.

Pretty soon there won't be enough pedestrians to go around, but what's the difference? None of the drivers go around them....They claimed he died from drinking beer out of an old tomato can. Well, it just goes to show, beer can't kill you, but an old tomato can.

Someone should abolish term papers....What ever happened to pink shirts?....You should look twice at a guy with clean white bucks....Students are overworked....Being a disc jockey must be boring.

One of the most popular hobbies in Japan is Photography....One book that was never made into a movie is the dictionary....You can buy pens that write under water....It is impossible to really enjoy golf or tennis unless you play well, but you can enjoy bowling or swimming no matter how bad you are.

I'm running out of ideas....Personally, I think it should be called the Infernal Bureau of Revenue....I like Daiquiris. The lime gives me strength, the sugar gives me energy, and the rum gives me ideas on what to do with the strength and energy....They say money can't buy love, but it can certainly put you in a wonderful bargaining position.

You are more likely to be killed by sleeping pills than poisoned food, by the odds of 4 to 3....The older a man gets the further he had to walk to school as a boy....Human nature is that which makes you swear at the pedestrian when you are a driver and swear at the driver when you are a pedestrian.

When it comes to spreading the news the female is a lot more dependable than the mail....A cosmetics manufacturer asserts that American women use enough lipstick each year to paint 40,000 barns bright red.

Nowadays, a dollar saved is a quarter earned....The average rain-drop is said to have 6,000,000,000,000,000,000 atoms....Most firms, have a compulsory retirement age of sixty-five, since at that age the average person is no longer supposed to work and think as efficiently as younger people. The average age of our Supreme Court justices, entrusted with upholding our nation's laws, is sixty-seven. Something is wrong somewhere.

Nine out of ten women like to cook....One jellybean contains seven calories....A baseball is 9 1/4 inches in circumference and weighs 5 1/4 ounces....In England there's a "Society to Discourage the Use of Swear Words Among Parrots."

Just because I have red eyes doesn't mean that I'm drunk. For all you know, I might be a white rabbit....With one billion dollars you could buy 500,000 new cars costing \$2,000 each. Placed bumper to bumper these cars would extend 1,562 miles....14,000 foul balls are knocked into the Yankee Stadium stands every year.

Conscience gets a lot of credit that should go to cold feet....Robert E. Lee was born in 1807....College boys love babies, especially those born about 18 years ago....Solid mercury melts when its temperature is raised to 37.96° F....Mothers day is May 8.

One ton of iron and steel makes 2,000 one-gallon paint cans.

An Economic View

# Kennedy, Nixon Called 'Great Men' by Dr. Kermani

By Sue Cleavelly  
In an Interview with Dr. Taighi Kermani

Both Nixon and Kennedy are great men, and both have good ideas to offer. However, the election of Kennedy would result in the loss of two great talents -- Nixon and Lodge, who have been in administration such a long time that they have valuable experience to offer.

THE LOSS of the democrats losing the election would not be as great a loss, since they still have capable senators and representatives who are doing a fine job.

Kennedy's over-all economic ideas sound good, but his idea of lowering the commercial rate of interest throughout the nation, perhaps increasing the supply of money may lead to inflation. Nixon's platform is not as outwardly inviting, but is more realistic and practical in the international approach. In a time when we have to compete with foreign producers, anything that would increase the cost of production could prove fatal to our economy.

ALSO, I do not believe we are behind Russia in the economic aspect. When you compare the economic positions of two nations you must compare a balanced form of economy, rather than one aspect. When we compare the standard of

living, consumption, and improvements in other fields, we are over-all far more ahead.

As to the question of Quemoy and Matsu, while Nixon is right that we should not give in to communistic threats and leave the islands so voluntarily and easily, such voluntary withdrawal does not necessarily damage our positions "in the eyes of Asia" - - this may show our sacrifice to prevent war; then, if we are to leave the islands at any time, it is better off to leave voluntarily than being forced out later.

IN SUMMARY, while Kennedy has some good ideas and is a great man, Nixon also has good ideas and is also a great man. The difference lies in the fact that Kennedy's plans may lead to inflation which would be disastrous at the present time. Nixon has a more realistic and practical platform, which, combined with the abilities of Lodge, will be able to do the job.

## 7 Cities Represented At Folklore Program

Members of the Ohio Folklore Society from Lakewood, Cleveland, Columbus, Akron, Marion, Berea and Youngstown assembled at the University library last Saturday to participate in the fall program of the society.

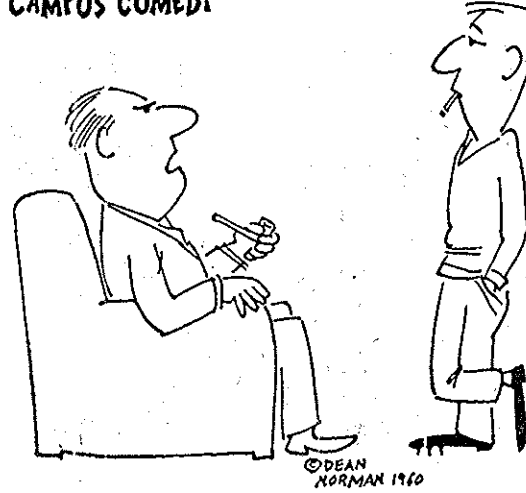

DR. Kelsie Harder of the University English faculty and a member of the executive committee of the Folklore Society, was program chairman for the day's activities. George Kummer, of Cleveland, president of the society, presided at both the morning and afternoon sessions.

Following registration at the University Library guests assembled in the audio-visual room where they were welcomed by George Jones, University librarian.

MRS. Helen Orze was the main speaker at the morning session. She spoke on "Polish folklore in Youngstown and Alliance College." Mrs. Orze discussed the work being done at Alliance College in the building of a collection of Polish folklore. She said that in Poland over the past century and a quarter there has been a great collection of folk material completed.

Mrs. Roy Mills, of the University Spanish faculty, spoke at the afternoon session on Latin American Dances and Folklore and illustrated

## This Week With Greeks and Clubs; Rushees Prepare to Begin Pledging

Once again the Greeks are busy with the whirl of dances, parties, and soon the new pledges. In the hollow halls of our university you will soon hear alpha, beta, gamma, ... get that signature, pledge!

### Sigma Sigma Sigma

Sigma Sigma Sigma sorority has finally found a suitable apartment, closer to school on Bryson Street. The bucket brigade will start immediately.

### Alpha Kappa Alpha

Alpha Kappa Alpha sorority held their Rush Party last Sunday at 6 p.m. in Pollock House.

### Alpha Phi Omega

Alpha Phi Omega fraternity has elected two officers for the fall and winter semester. They are Robert Larson, alumnae secretary, and John Chadwick, sergeant-at-arms. Our current service projects are ushering for the Ohio Folk Lore Society and backing the administration by campaigning for the Urban-Rural Bond Issue.

### Phi Sigma Kappa

On Sunday afternoon, October 9, the brothers of Phi Sigma Kappa dealt the previously undefeated Tau Kappa Epsilon fraternity an 8 to 6 defeat in our IFC competition. Later in the afternoon, we went on to out-bowl Theta Chi fraternity in of three games. Monday night, October 10, we had our first rush party of the semester.

### Sigma Tau Gamma

The Sig Taus were recently paid a visit by their National Field Secretary, Larry McGee. Larry enjoyed his stay at the fraternity house and was pleased to find everything in order. Get the newspaper, Donlin - Compliments of "Quack".

### Sigma Phi Epsilon

Brothers Steve Pikna and Earle Pratt were elected President and Vice-President of the Beta Sigma Omicron Election Dance held after the Baldwin-Wallace game.

The brothers and their dates enjoyed a fine hayride last Friday evening. Cold enough, boys?

### "Three Bad Popes"

"Three Bad Popes" is the title of the third talk in a series of short talks being given by Father Paul M. Petric, Catholic chaplain, at this Wednesday's noon chapel service.

Weekly services are held each Wednesday at noon in St. Joseph Church.

### University Drama Guild

University Drama Guild will hold a meeting Oct. 24, in Strouss Auditorium at 4 p.m. All students who are interested in joining are invited to attend.

Those who join will serve a constructive apprenticeship.

### Math Club Gambles

"Heads I Win, Tails You Lose" will be the topic at the Math Club Meeting October 21, 12:00 Noon in Room 14, Clingan-Waddell. Marilyn Biles, a senior majoring in Math will be the speaker.

## Sig Taus Crown 1960 Sweetheart

Joan Pletnik

On Saturday, Oct. 15, freshman Joan Pletnik, was named 1960 Sweetheart of Sigma Tau Gamma Fraternity.

A trophy was presented by Joyce Billy, 1959 Sweetheart. The brothers of Sigma Tau Gamma serenaded both sweethearts.

JOAN is the daughter of Mr. and Mrs. John F. Pletnik of 257 E. Aurburndale Avenue, Youngstown, Ohio. She is a June graduate of Cardinal Mooney and is a Art Education major. She is active in Newman Club and the Youngstown Jambar staff.

### Bulletin

All freshmen and transfer student women are asked to come to Main 210 to fill out Personnel record folders and make an appointment for an interview with Dean McCarty, dean of women.

For a complete selection of ESTERBROOK PENS shop at the UNIVERSITY BOOK & SUPPLY Wick & Rayen

# Bulls Bounce Penguins in 40-13 Romp

## Penguins String Stopped At 3; Record 2nd Defeat

By A. Robert Steiskal

BUFFALO, N.Y. - Last Saturday, the Youngstown Penguins met the highly touted Buffalo University Bulls in a grid battle which saw the Bulls score early and often downing the Penguins 40-13 at Buffalo.

WITH 7:37 remaining in the first quarter, Gordon Bukaty slashed over from the eight yard line, Bukaty booted the extra point, and the Bulls led by a score of 7-0. Youngstown's only tally in the first half came after a punt by Frank Horvath, Penguin ace, punted to the Bull 13. On the next play, Lewis of Youngstown grabbed a Buffalo fumble and the Penguins went over for the score three plays later. Little Dick Hartzell missed the point after and Buffalo led 7-6.

Later in the second quarter, it looked as though Youngstown had another break as another Horvath punt landed on the Buffalo 4 yard marker, but the Bulls pushed all the way back down the field, tearing big holes in the Youngstown line for the second marker. A nine yard pass from Bukaty to Valencic was good for the six points. Another Bukaty pass was good for the point after and the Bulls led 15-6.

THE BULLS kicked off and three plays later, on the option play, Bliss of Buffalo, grabbed an attempted lateral from Green to Horvath and raced 53 yards down the sidelines for another score. The conversion failed and the Bulls led at halftime by a score of 21-6.

In the third quarter, the Bulls moved 60 yards in ten plays to score, with Meue going over from the two for the score. Bukaty converted and the score read 28-6. On this drive, the Youngstowners were tiring, for the Bulls were two platooning them to death. The boys from Buffalo were tearing holes in the Penguin line even though the Youngstowners were battling with everything they had.

WITH approximately six minutes left in the third quarter Jerry Moore, freshman quarterback, dropped back to pass. He tried to hit a man in the flat on a screen, but the Bulls Keats cut through the defense, intercepted it and went 50 yards for the score. The point after failed and the Bulls led 34-6.

In the fourth quarter, Youngstown turned Frank Horvath loose who carried three times for 49 yards. Horvath cut through from the ten and Hartzell converted; the score read 34-13. Tom Richards, of Youngstown, lost the handle on the ball on Youngstown 18, Buffalo recovered, and went over for the final score. The point after missed and the final score read 40-13.

### Alpha Phi Victorious

Alpha Phi Delta edged Phi Sigma Kappa 13-6 in a thriller. The teams played equal ball until four seconds were left in the game.

Mastrangelo, the Alpha Delta's quarterback, threw a long pass from his 20 yard line. A Phi Sig deflected the ball into the hands of Dave Veitz who ran the remaining distance for the winning touchdown.

### Kappa Sigs Win Third

Kappa Sigma Kappa rolled to its third straight victory, 46-6, defeating Theta Chi.

In the first half it was all Bobby Cain for the Kappa Sig's with Theta Chi scoring one touchdown. This was the first time this season that the Kappa Sigma Kappa goal line has been crossed. The first half score was 19-6.

In the second half, aided by a few breaks and the fine running of Sonny Joseph the Kappa Sigs took complete charge scoring four touchdowns.

### TK's Blast Tau Omega

Tau Kappa Epsilon walloped Tau Omega to the tune of 44-8. Macejko and Rega had manners well in hand 26-6 before the third quarter started.

Tau Omega made two touchdowns late in the game but by then the Teke's had much of an advantage.

Pritchard and Calazza excelled for the TO's while Macejko, Agresta, and Gittlin stood out among the Teke's.

### Football Standings

DIVISION A				
	W	L	T	Pct.
Kappa Sigma Kappa	3	0	0	1.000
Sigma Tau Gamma	2	0	0	1.000
Theta Chi	1	2	0	.333

Kappa Sigs, bye

#### DIVISION B

Phi Sigs vs. Tau Omega at 1:00  
Zeta Phi vs. Alpha Deltas at 2:15

Teles, bye

## Coeds Attend Field Hockey Clinic at Kent

Miss Ann Delano of Smith College, Northampton, Massachusetts, served as supervisor of the Kent Field Hockey Clinic on Oct. 8, which girls from the field hockey class and members of WRA of our university attended.

After hearing and watching the guest instructor, the girls participated in games with representatives from area colleges. Bowling Green, Baldwin Wallace, Lake Erie and Kent were represented.

The WRA has started its membership drive and all coeds who are interested in intramural team and individual sports competition are encouraged to join. Girls need not be physical education majors or expert sportswomen.

Participation in archery, basketball, tennis, volleyball, badminton and social activities is offered. Many of the sports are co-educational. For information on membership, contact a WRA board member or the women's physical education office for information.

**Sig Tau's Down Sig Eps'**  
Sigma Tau Gamma defeated Sigma Phi Epsilon 33-0. Margala threw for three touchdowns and scored two, while Stanley was the Sig Tau's defensive star.

Charley Africa also shone at defense intercepting a pass and running 45 yards for a touchdown.

### Gridders Enjoy Vacation

## Southern Connecticut Hosts Penguins in Next Week's Tilt

By A. Robert Steiskal  
Jambar Sports Editor

Youngstown University's Penguins will meet the Owls of Southern Connecticut tomorrow morning at 10:30 at Bowen Field in New Haven, Connecticut. So far this season the Owls have faced teams at Maryland University, Geneva College, Ithaca College and Central Connecticut.

The Owls coach, Jesse Dow is a graduate of West Texas State Teachers College. His teams have won 74, lost 20 and tied 5. Several times his teams have been named nationally for their defense. Dow came to Southern Connecticut in 1947, when there was no system of inter-collegiate athletics.

In 1948, he fielded a football team, his only losing team. Since then, his teams have been on a steady upgrade, playing tougher and tougher teams and finding better and better men.

The team has shown great spirit in all their games, and they are real fighters all the way down the line. This game should be close, but the Penguins will probably take it. I will stick out my neck and say that the Penguins will take it by at least 6 points.

If you are going to play tackle football, play tackle football with

rules and regulations pertaining thereto, but if you are going to play touch football use those rules. Inter-Fraternity Council football is a mixture of soccer, football tackle or touch, and sandlot battle.

The injuries to all participants are appalling, with bloody noses, broken bones, bloody lips and dislocations of various natures. The referees try to hold down the mayhem as much as possible, but are in effect powerless to do anything, for although there are rules governing IFC football no-one follows them. If they do, then they are usually carried off the field feet first.

The referees must be informed at the onset of the game whether or not any rules are to be used, and of what character they are so that if anything happens, he may give the offending player or team a just penalty. If this is not done, we should change the name of it to Inter-Fraternity Council free-for-all.

For that quick sale you want use Youngstown Jambar classified ads. Phone RI 4-8451, EXT. 9.

As We See It

# We Get Complaints

By Pat McCarren and Blaise Deleo

Well, Little One, last week sure was a big one, what with all the politicking, the World Series, etc., mostly the etc.

Firstly, we wish to make an offer to any and all persons on campus . . . anytime that any of you wish to make the acquaintance of the Honorable (??)

Editor of the JAMBAR, we will be most happy to arrange an introduction. Why, you might ask, do we make this astounding proposal??? The main reason is that we are tired of hearing complaints from all sections about such and such was left out of the paper.

or this and that was wrong in the paper, etc. Of course, we want to thank you for thinking that your authors are important people around the JAMBAR office, but in all honesty we must tell you that we really don't have a thing to do with what goes into, or stays out of the paper, except this fabulous little section. (We're not complaining. Just want to have the facts straight, Ma'm.)

Big Sam LaLama and Walt Good have both demanded equal time in the paper after last week's issue, so fellas, here it is. Sam is a confirmed Kennedy man, while Goodie is behind Nixon all the way. Now that we're on the campaign, we noticed a few little tidbits around the campus. Campaign signs are being plastered everywhere, on lockers. It's OK to put signs on your own locker, folks, but let's not put them everywhere.

Then there was the cute little Irish Colleen seen in the faculty parking lot tearing posters off cars.

And now, Sport Fans, to the World Serious! Did you notice all the empty seats in class rooms when the games were on? No? Oh, I see you were home watching it yourself. Then, the next A.M., everyone is trying to second-guess Danny and Casey. We have only one thing to say concerning the whole bit....Our boys showed those Yam Dankees a thing or two. But by now, everyone should have been able to find their way back from Pittsburgh, so back to the good ole' rut.

You say you had an 8 o'clock class last Friday in the Science Building, and those jokers outside with the air hammer kept you awake during the whole period? You must have the same trouble as the fellow we saw in the Snack Bar who crawled under a table rather than have to move everyone sitting around it.

The latest pastime in the Cafeteria is playing football across the table, with match books.

WANTED: a person Qualified to instruct people in the laxt art of Ear-wiggling and left-eyebrow-raising. Please send a letter of Application to the History Dept.

We took a recent survey at North Hall, and by just looking at the books around the place, we have concluded that all the regular patrons are the English majors and the Business Majors. Also, we noted that the rear entrance is the most used. Not because the patrons do not want to be seen, but because of its proximity to the lower campus.

In the immortal words of J.C. Puppybreath "Glass doors are made to look through and not to walk through, especially when they are closed", isn't that right Eve Benyicki. This little lady tried to gain entrance to the Reference Room a few days ago without opening the glass door. Has anyone a glass cutter handy?

The next few ill chosen words are directed to those dear souls who always manage to time their departure from the Main Building exit at ten till the hour. It never dawns on them that maybe between 300 to 400 students would like to use the same

sidewalk they are racing down. If you have been one of the unfortunate number (and they number into the thousands) who got trapped in front of the "concerner" ones didn't you get the feeling that you were walking on railroad tracks with the Super Chief behind you.

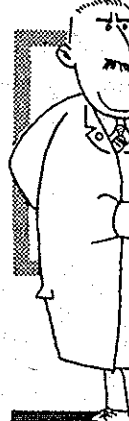

One final word . . . have you Sportsmen had your shots yet?

♣ A K Q

Dear Dr. Frood: Here is a controversial bridge hand played at a recent college tournament. The contract was six no-trump. Some say declarer should have played the Fiskill Convention, squeezing West while end-playing East. Others, however, say a straight dummy reversal and a trump coup would bring home the contract. What would you do with a hand like this?

*No Trump*

DEAR NO TRUMP: In our club, successful play would require slapping the Jack, whistling at the Queen and quickly saying "Sir Hinkum Dinkum Fuzzy Duster" when the one-eyed King is played.

Dear Dr. Frood: How can a nice girl tell whether a boy is sincere—or just a wolf—when he asks for a kiss?

*Nice Girl*

DEAR NICE: Ask to see his teeth.

Dear Dr. Frood: Like every normal college man, I smoke Luckies. The other day I met this character who smoked something else. I want to know how a guy can be stupid as that and still get into college.

*Lucky Fan*

DEAR LUCKY: Obviously your college is very easy to get into.

Dear Dr. Frood: Everybody laughed when I brought my mother to the Homecoming Dance. What's so funny about that?

*Freshman*

DEAR FRESHMAN: She's probably a very funny woman.

Dear Dr. Frood: I am 20 years old and I am about to marry a very nice, well-to-do man. He is 92 years old. Do you think the gap in our ages will affect our happiness?

*Fiancée*

DEAR FIANCEE: Not for long.

"IF YOU DON'T SMOKE LUCKIES," SAYS FROOD, "YOU OUGHT TO HAVE YOUR HEAD EXAMINED!" And Frood ought to know. His head has been examined seventy-three times. (And phrenologists are still wondering where he got the good sense to smoke Luckies.)

**CHANGE TO LUCKIES and get some taste for a change!**
