"SHINING BIT"

"Culture is an attitude of mind that is characterized by fine highly desirable traits: intellectual curiosity, independent judgment, breadth of tolerance, appreciation of the beautiful, and courtesy."

FROM BEHILD THE DESK

"Unto whomsoever much is given, of him shall be much required."

Luke 12:48

College people, whether students or teachers, have been unusually blessed. Not with wealth (no indeed!) but with well trained minds and potential power for service to mankind. The world expects much of us because we have had the advantages of a higher education.

But mere book-learning will not spell success. Hundreds of college men and women are walking the streets today looking for jobs. As a rule, however, they are the ones who looked upon college as a chance to have a good time for four years with just enough study thrown in to 'get by'. Or, perhaps they sought a college degree merely for the social prestige it would bring.

FENCING MATCH

The Fencing Team will meet Wittenberg Saturday afternoon March 28, at 2 o'clock in the little gym at Central "Y".

Let's get back of the team - they need every bit of our support.

CHEMISTRY

"The thought of the chemistry department is to build it up to meet the needs and interests of the students. Some take it merely as a science requirement and others as part of a nurses' training, a teaching or pre-medical course."

Dr. Eugene Scudder, head of the Chemistry department, became associated with the school in the autumn of 1930. He has had eleven years teaching experience in departments of mathematics and science.

Three courses in Chemistry are offered at the present time: General or Qualitative,

Organic, and Quantitative. Two additional courses will be offered next semester if the students desire them. Physical Chemistry and Metalurgy are now being considered.

With the supervision of Dr. Scudder, we are sure the students will take advantage of these opportunities and plan for the courses in their schedules.

DR. FOARD IN POLITICS

Dr. Foard will soon be qualified to join the ranks of the politicians of the day since he has already acquired some distinction in presiding over the freshmen elections.

Monday, March 23, the midsemester freshmen organized
their class and the following
students were given offices:
James Shutts, president;
Irene Nunamaker, vice-president; Evelyn Koffman,
secretary; Yetta Pianin,
representative to the Student
Council.

A dancing party, at which friends of the members were entertained, terminated the affair.

Arrangements for the event were made by the committee which consisted of Louis Makres, Larry Root and Bob Mullin.

KALIPUS KOMMENT

There are a couple of things that Grandma could easily dispense with around this Kampus. For example, the maps in room 8. Nobody uses them anyhow, but Joe Sheban and Grandma thinks he is learning to depend on them altogether too much. Great day, in History, Sociology, Dramatics, and Public Speaking-Little Joe illustrates all his points by showing the class where it all happened on the map. Grandma suggests he break this deplorable habit by the process of substitution and draw pictures on the board. However, even that might tend to tax our

IT WAS BOTICED FREDA!

Harry Peterson is in his second(orthird) childhood. He surprised the Sigma Belts the other night by refusing to act as a dignified 'frat' member should and insisted upon riding George Beaumier's little brother's kiddie kar.

McCandless has not decided whether he will start boosting volley-bail or just keep on letting it slip through his fingers.

Those who thought of a college course as an opportunity to prepare for a life of service and who therefore made the most of their time are not now increasing the length of bread lines. Much is being given to you right now in the way of opportunity. Much will be required of you in later life.

THE ANNUAL

Hello, Everybody! Grandpa is speaking. At last the annual is progressing. A very fine staff has been appointed and Grandpa is willing to bet three suspender buttons that this annual is going to be good. However, students, don't think that a fine staff alone can make a good annual. The staff HUST have the cooperation of the student-body. Everybody sign up.

The staff was appointed and approved by the Faculty and Student Council. Here are the names of the students who will guide the destiny of the annual for 1931:
