

THE JAMBAR

Buckminster Fuller Tonight

Speaks At 8:30 In Stambaugh

R. Buckminster Fuller

R. Buckminster Fuller, noted inventor of the geodesic dome, will speak tonight at Stambaugh Auditorium at 8:30 p.m. on the "Strategies of Realistic Thinking."

Earlier in the day Mr. Fuller will attend a press conference and a luncheon which will be attended by engineering and art faculty of the University. Immediately following the luncheon there will be an informal seminar for engineering and design students.

Mr. Fuller is internationally known as the inventor of the geodesic dome. There are now more than 3,000 such domes in use throughout the world, with the latest and most spectacular of them being the 250 foot diameter skybreak bubble of the United States Pavilion at Expo '67.

In addition to his fame as an architect and inventor, Mr. Fuller is internationally recognized as a governmental advisor, lecturer, university professor, and creative thinker.

Mr. Fuller attended Harvard University and the United States Naval Academy. He is the recipient of 13 honorary degrees, 14 national and international awards, and is a member of 25 professional societies.

He has held the position of Professor of Design Science at Southern Illinois University, Carbondale, since 1959. He has served as a consultant to

numerous firms and governmental organizations including Youngstown Sheet and Tube, the U. S. Steel Space Team, NASA, and the Pennsylvania Education Curriculum Committee.

Mr. Fuller's current work concerns "floating cities"; huge pyramidal structures which would be capable of floating and could house up to a million people. The base of the structure would be two miles across and would have an airport and harbor facilities.

Mr. Fuller sees the floating cities as a possible solution to the problem of world wide over-population.

Mr. Fuller's lecture will be the third of the Skeggs Lecture Series at Youngstown. Leonard T. Skeggs, Sr. played a vital role in the foundation of Youngstown State University.

The semi-annual lectures were established in 1966 in his memory with the purpose of bringing distinguished men of the arts and sciences to the campus.

Tickets for the Fuller address may be obtained at the Admissions Office, Dean of Men's or Dean of Women's Office, the Public Relations Office, or at Stambaugh Auditorium this evening.

Paraska New Dean

Dr. Nicholas Paraska, associate professor of civil engineering at Youngstown State University, has been appointed Dean of the Technical and Community College of the University, it was announced today by Dr. Albert L. Pugsley, University president.

The Technical and Community College will be a major division of the University, and will begin operation with the fall quarter 1968-69.

Dr. Paraska has been a member of the YSU faculty since 1960 when he left his position as Special As-

Doan Nicholas Paraska

stant for Air Force Projects to the Assistant Chief of Engineers for Military Construction, Corps of Engineers, Washington, D.C.

He holds a Bachelor of Science degree from the United States Military Academy (West Point), his Master of Science, with a major in civil engineering, from Texas A&M University, and his Ph. D. in civil engineering from the Carnegie Institute of Technology.

In announcing the appointment, President Pugsley stated, "In the appointment of Dr. Paraska as Dean of the new Technical and Commu-

ity College of the University, recognition has been granted to an able faculty member whose abilities are particularly well suited to the tasks ahead.

Dr. Paraska has a deep concern for students of all levels, but his special concerns lie with students who seek courses of study that allow direct and immediate entrance into the great market of technical, industrial, business, and other positions supportive of the professions.

"He will work closely with employers of the area to develop these two-year programs. His experience in industry, his excellent professional background, his qualities of leadership, and his dedication to the objectives of this new college of the University confirm the great confidence we have in selecting him for this important task."

The appointment of Dr. Paraska as dean is effective February 1, 1968.

Dr. Paraska has served as a consulting engineer for a number of architectural, legal, and business firms in the Youngstown, Sharon, and New Castle areas, including Smith, Buchanan and Smith Associates, architects, Youngstown; Routman, Moore and Goldstone, attorneys-at-law, Sharon; Luxenberg and Kraus, developers, New Castle; and for the Manufacturing Division, Republic Steel Corporation, Youngstown.

He has also served as Assistant Security Officer, Department of Defense Classified Documents, 1963-66, and as Security Supervisor, Department of Defense Classified Documents, 1966-67.

As a professional engineer, Dr. Paraska is listed as a Registered Professional Engineer and Surveyor in Ohio, a Registered Professional Engineer in Pennsylvania, and a Registered Professional Engineer in the District of Columbia.

He is a member of the following scientific and professional societies: Fellow, American Society of Civil Engineers; member, American Society of Engineering Education; member, National Society of Professional Engineers; member, Ohio Society of Professional Engineers; and member, Water Pollution Control Federation.

In the latter membership he attended the National Symposium on Quality Standards for Natural Water at the University of Michigan, 1966.

Dr. Paraska and his wife, Martha, reside in New Bedford, Pa., and are the parents of three sons, Harry J., 26, and Nicholas II, 25, both of whom graduated from YSU in 1966 and are now in the U.S. Army, and Robert L., 21, a senior mathematics student at YSU.

ISO Presents Third Annual Variety Show, Sat., Feb. 10

The Youngstown State University chapter of the International Students Organization will present its third annual variety show Saturday, Feb. 10 at 8 p.m. in the C. J. Strouss Memorial Auditorium.

The evening's performance entitled "Around the World in Two Hours," includes songs and dances from Poland, Hawaii, Thailand, Philippines, Yugoslavia, Ukraine, Italy, Portugal, Spain, Hungary, Greece, Turkey, and the Arab World. The show is open to the public and tickets are available at

the door. Jannie Chow, Taipei, Republic of China; and Uwe Haushalter, Mantuwadge, Canada, will serve as masters of ceremonies.

Jan Crawford, Canfield, is the chairman of the show. The assisting committee members are Fred Ghossein, Youngstown; Raja Hamarneh, Jordan; Margaret Novak, Sharon, Pa.; and Fred Tadayon, Iran. The group is advised by Mrs. Edna K. McDonald, assistant professor of sociology at YSU.

(Continued on Page 4)

Twelve Council Seats Open; Candidates Must Meet Tues.

A mandatory candidate meeting will be held on Tuesday, February 13, from 11:00 to 12:30 p.m., for those students interested in running for Student Council's 12 open seats. All candidates must have and be able to maintain a 2.5 accumulative average, and must attend a meeting to be held in the Buckeye Room in the Student Lounge.

The following seats will be open: Music-1; Engineering-1; Education 1-2; Liberal Arts-4; Business-2; and Representative at Large-2. Due to the new quarter system the Engineering seat, one Education seat, and

two Liberal Arts representatives will not be seated officially until the last meeting of the Spring quarter. Elections will be held on Monday and Tuesday, March 4 and 5.

Those candidates who wish to run

in the various academic schools, must be enrolled as full-time students of that school. These candidates will be elected by constituents of their particular school.

The Representative at Large seats are open to any student who is non-Greek affiliated.

The RAL is elected by the whole student body. Student Council Discipline Chairman, Nino DiIullo, stated that all those students who are interested in running, must attend the Tuesday meeting.

SPORTS SCENE

By Mike Foley

Youngstown State University's road jinx was extended last Saturday evening as the Knights of Gannon College scored a 78-74 victory.

YSU has accumulated a 11-5 record this season and all defeats have occurred on the road. The Gannon victory marked the fifth straight year that Youngstown has lost on the Gannon court.

Game is Tight

The Penguins took an early lead at the onset of the game by a 16-8 margin, but Gannon came back to hold a 21-20 lead with 10 minutes remaining in the half.

The halftime score was 45-38. With 6:47 left to go in the game Gannon had stretched the score to 65-53, but YSU surged in the final minutes to close the score to 72-69.

But the taller Knights managed to hold on and capitalize on a series of late fouls to win the game. Glen Summers of Gannon was the high scorer of the game with 26 points.

Freshman Bob Patton, from YSU, netted 19 points, though he had to sit out part of the opening half when he suddenly took ill.

Cleveland State Tomorrow

The Penguins will travel north tomorrow as they take on Cleveland State at 2:00 p.m., at the Civic Arena in Cleveland, Ohio. Quite a number of students from YSU are planning to make the trip as will the Cheerleaders.

Marty Schwebel reported to me that the ZBT's were out in force for the Gannon game, so we hope to see them in Cleveland.

Swim Team Wins Ninth

Although the YSU finnen only won five of eight events, a number of seconds and third placings gave them their ninth victory in ten starts, as they defeated Ashland College 64-47, last Saturday.

The YSU 400 yard Freestyle Relay team of Ashe, Schmidt, Tatsch, and Kovish, established a new Ashland pool record as they swam the distance in 3:33.

Final Home Meet Today

This afternoon at 2:00 p.m. the Penguins will take on Grove City College at the Central YMCA. Last year Grove City was the conference champ and the meet this afternoon promises to be the best of the season. All students are invited to watch our swimmers in action at no cost.

Soccer Club Organized

Last Friday Student Council gave permission to the YSU Soccer Club to organize. Apparently this was the only way in which a soccer team could be officially recognized on

Campus Poll Shows GOP Win Over Johnson

Potential GOP presidential nominees were preferred by large majorities over President Lyndon B. Johnson in a voluntary straw-ballot poll conducted by the YSU Young Republican Club in Kilcawley Lobby, January 30 and 31.

A total of 397 students and faculty members cast ballots on which they indicated their party affiliation; Republican presidential nominee preference; and president preference in which Lyndon Johnson was pitted against the selected GOP nominee.

The 141 Republicans, 126 Democrats, and 130 Independents chose Gov. Nelson Rockefeller of New York as the most preferred GOP candidate (121 votes).

Rockefeller was closely followed by former Vice-President Richard M. Nixon (100 votes). Following, in order of number of votes secured were: Governor George Romney of Michigan (59), Governor Ronald Reagan of California (45), and Senator Charles Percy of Illinois (25).

Overall the 397 voters indicated a preference for their selected GOP nominee as opposed to Lyndon Johnson by a 76 to 24 percent margin.

AOPI DANCE

Alpha Omicron Pi is sponsoring the annual Greek God and Goddess Dance Friday, February 9, in Strouss Auditorium from 9 to 12 p.m. Music will be provided by the Jesters.

"Lions" and "Poison" In Store For Four YSU Students

Four university students are cast in major roles in "Androcles and the Lion" by G. B. Shaw and "Passion, Poison, and Petrification" a one act by Shaw at the Trumbull New Theater.

The Play is being directed by Jack Brizzi of Kent State U. in co-operation with Trumbull New Theater.

Students involved are Jay Silverman, Bill Conlin, Tim Johnson, and Howard Greene. The Play opened Feb. 2nd and will run through Feb. 17.

Student tickets can be obtained for the Feb. 16-17 performances for \$1.00 and a Student I.D. Curtain is at 8:30.

Student Views Tow-Away Problem

Jambar Staffer Faces Realities Of Towing

By D. Brian Mangan

I stood outside the barred window of the Youngstown traffic ticket office Wednesday and watched as a student pleaded for the release of his towed-away car.

It was like looking into a mirror, for I had been that same boy only a week before.

Before me stood a college student begging for the car which carried him to the school, to work and to his home.

I heard him say that he couldn't get to work without his automobile and it was as if a tape recording played back to him the message I had heard last week. "Did you think of how you were going to get to work all the while you weren't paying the tickets?"

I heard the boy tell them that he had only a few dollars on him,

and I watched him pull out his billfold to prove it. I saw there my own fingers nervously opening and closing the wallet as if that motion could somehow change those few one dollar bills into tens or 20's.

I saw a look of fear that school, work, and home were far away without a car, and I felt my face tighten with that same fear as it had a week before.

And finally I saw a look of gratitude when arrangements were made for him to get his car immediately if he promised he'd be down with the money on Friday. He walked

away wondering where he would get the \$45 by Friday, but he smiled with relief because he would be able to get his car back.

I too smiled when I went down with \$35 to get my car back. I probably still smile a bit each week as I make my five dollar payment toward the balance of \$115.

The number of students who have had their cars towed thus far is not available. Mr. Thomas DiBernardi, Bailiff, could not say what the number was, or how many dollars were represented by those cars.

Only by casually asking a secretary was any answer concerning this question gotten. The answer: "I don't know exactly, but quite a few."

Some students are apparently not taking the City's warning seriously. They are still parking their cars on the streets, and those cars are being towed daily.

The wiser student who has un-

paid parking tickets is not ignoring the facts. A few students have voluntarily gone to the bailiff to clear up their violations. But according to Mr. DiBernardi these are a small minority.

He again requested that students who have unpaid tickets try to clear them up as quickly as possible to avoid having their cars towed.

For those students who, for some reason can't do this, the only alternative is to try to "lay low" and hope they're among the lucky ones."

Greek News

By Frannie and Zooey

We are glad to report that, after a one week absence that Frannie has returned, as the campus representative to the National Fire Prevention Week. We are also glad to announce that this Friday the Jambar will have a Fire Sale sponsored by Zooey.

Levaliered: John MacFarland (Phi Sig) to Patty Nicholson (ZTA).

Pinned: Rick Bernauer (Phi Sig) to Carol Henry (ZTA).

Engaged: Oakie Larson (ZBT) to Becky Wood; John Losch (Phi Sig) to Shirley Fergus; Gary Ross (Sig Ep) to Lois Giblin (Tri-Sigma).

We would like to congratulate the sororities on their newly installed pledges, they are: SIGMA SIGMA SIGMA; Madeline Banjo, Cindy Bundy, Barbara Grim, Floy Lawson, Sandra Love, Janice Marino, Janice Santangelo, Nora Jane Yatsko: ZETA TAU ALPHA; Jane Barrett, Catherine Baxter, Margaret Bender, Linda Colangelo, Cheryl Cole, Cheryl Conte, Carol Davies, Diana Gulfo, Tracie Maffei, Pamela Mangin, Joanne Thorne, Daphne Young: PHI MU; Susan Bedek, Karen Conklin, Marianne DePietro, Patricia Duffy, Susan Gallatin, Wendy Gromley, Marie Melfi, Patricia Moran, Susan Passarelli: ALPHA OMI-

CRON PI; Maxine Bindas, Kathleen Cronin, Anita DePasqua, Laureen Hamilton, Barbara Harden, Carol Principi, Janis Mollica, Carolyn Shea, Cindi Williams.

Don't forget that tonight, Alpha Omicron Pi is sponsoring their annual Greek God and Goddess dance at Strouss Auditorium from 9-12, with the music by The Jesters. Then after the dance, there will be a chugging contest beginning at 12:00 midnight at the newest college hot spot, THE LIBRARY. There will be trophies for 1st and 2nd place winners. We hope that every fraternity will participate.

"Que Pasa"
Is it true that Mel Evanovich plays first chair violin for a Serbian orchestra? Who is Howie in love with this week? Is it true someone needs a date for installation? Is it true that Joyce Johnston plays strip poker and always wins? Is Do-Do really pinned to Harry?

VIET NAM DISCUSSION
A Viet Nam discussion will be sponsored by the YSU Students and Faculty for Peace. The discussion will be held this Friday in the Buckeye Conference Room of Kilcawley from noon to 2. All interested parties are invited to attend.

ATTENTION!
All campus interviews for teacher recruitment will be held at Ford Hall. Please report there if you have made an appointment for these interviews through the placement office.

Atomic Reactor Aids Study In Nuclear Physics

To aid students interested in nuclear physics, in the study of unknown elements, the radiation content of known materials and the measure of reactor parameters, the university has an atomic reactor and its related equipment.

Students may take an element that is presently not radio-active, and through using the machines make it radioactive, and then have the Multi Channel Analyzer analyze the amount of radioactivity and the impurities present.

The Multi Channel Analyzer is the basic tool for the research projects since it will tell what elements are present in the specimen being studied and detect impurities as small as one billionth of one gram.

It also makes copies of data concerning the specimen.

The atomic reactor and the related equipment are under the supervision of Edward Mooney, Radiation Safety Officer.

Mr. Mooney stated that there is no danger involved in the use of the equipment when it is properly used.

If improperly used neutrons present in the uranium samples, which are submerged in water in steel tubes, can escape and cause lasting damage to the person.

Students also work with plutonium berillium which is dangerous if improperly handled.

Omicron Lambda Meeting
Omicron Lambda, honorary biology fraternity, will hold its regular meeting today at 1:00 p.m. in the Pollack House.

Thursday, February 15,
explore an
engineering career
on earth's
last frontier.

Talk with Newport News On-Campus Career Consultant about engineering openings at world's largest shipbuilding company—where your future is as big as today's brand new ocean.

Our half-a-billion-dollar backlog of orders means high starting salary, career security, with your way up wide open. It also means scope for all your abilities. We're involved with nuclear ship propulsion and refueling, nuclear aircraft carrier and submarine building, marine automation. We've recently completed a vast oceanographic ore survey. We're a major builder of giant water power and heavy industrial equipment. We're starting to apply our nautical nuclear know-how to the fast expanding field of nuclear electric power generation. We're completing competitive systems designs for the Navy's \$1 billion plus LHA fleet concept.

Interested in an advanced degree or research? We're next door to Virginia Associated Research Center with one of the world's largest synchro-cyclotrons, offering advanced study in high energy physics. We're close to Old Dominion College and University of Virginia Extension Division, where you can get credits for a master's degree, or take courses in Microwave Theory, Solid State Electronics, Nuclear Engineering and other advanced subjects. Ask about scholarships, tuition grants, study and research leaves to implement these opportunities.

Ask, too, about the pleasant living and lower living costs, here in the heart of Virginia's historic seaside vacation land, with superb beaches, golf, fishing, boating, hunting.

DANA FACULTY IN SPOTLIGHT

Members of the Dana brass and woodwind faculty will be featured in an evening of "Chamber Music," on Monday evening, February 12, at the Dana Recital Hall. Starting time for the concert will be 8:00 p.m.

The Dana faculty brass quintet will be featured in the works of Johann Pezel, Johannes Brahms, and the contemporary composer Starer. Members of the quintet are Esotto Pelligrini and Jacob Larson, trumpets, Lois Hopkins, French horn, and Verne Kagarice, trombone. Playing tuba will be Gene Vasconi, a student at the school of music.

Comprising another portion of the program is the Dana Woodwind Quintet. For this concert the quintet has selected the E. Bozza "Variations," Op. 42. Faculty members are Charles Rullman, oboe; John Alleman, clarinet; Donald Byo, bassoon; and Lois Hopkins, French horn. Judy Britchford, a student from Dana, substituting for Walter Mayhall, is the flutist.

The highlight of the evening will be the combining of the two groups for a performance of Igor Stravinsky's "Octet for Wind Instruments." Wade Raridon, a member of the voice faculty, will conduct.

Admission to the concert is free to all university faculty and students with presentation of an I.D. card.

Of added interest was the past performance by Fred Rosenberg as soloist with the Warren Symphony.

in Warren, Ohio, on February 8. As guest artist for the evening's concert, Mr. Rosenberg played the Johann Sebastian Bach "Concerto No. 2 in E Major for Violin and Orchestra."

Mr. Rosenberg, well known performer, teacher, and author, is also chairman of the string department at the Dana School of Music. He has been concertmaster with the Warren Symphony since 1966.

A former member of the famed Cleveland Orchestra, Mr. Rosenberg did his undergraduate study at the Cleveland Institute of Music, and holds the Master of Arts degree from Western Reserve University. He has also continued his study at the Vienna (Austria) State Academy. Mr. Rosenberg is also an author of a book on violin technique, and many Y.S.U. students and faculty may remember him as former concertmaster of the Youngstown Philharmonic Orchestra.

M.E.N.C. to hold dinner-meeting. The Student Chapter of the Music Educators National Conference at Y.S.U. will hold a dinner-meeting on February 12, at 6:00 p.m. in the Kilcawley Faculty cafeteria. All M.E.N.C. members and guests are invited to attend.

Featured speaker at the meeting portion of the program, will be Richard S. Bame, director of the instrumental music department at Boardman High School. Mr. Bame, who has had a long line of impressive achievements with the instrumental program at Boardman, will speak on "Organizing an Instrumental Program in the High School."

Perizat Ozkan, left, and Pamir Seyrekoglu rehearse, with George Basto, for the ISO variety show.

ISO Presents

(Continued from Page 1)

The ISO was founded at Youngstown State University in 1955, one year after foreign students first started attending the University. Over 130 foreign students are presently attending YSU.

The purpose of the ISO is to orient foreign students to their new surroundings and acquaint them with American life. It also works to promote better understanding and goodwill between foreign students and their American counterparts.

RUSH PARTY

Alpha Mu, a honorary business fraternity for merchandising, general business, public relations, and advertising students, will be holding an open rush Thursday, February 15, at 9:30 p.m. in the lounge of Kilcawley Student Center. Those students who are interested in joining and possess a cumulative average of 2.50, and a 3.0 in their major, are welcome.

A.A.U.F. Hosts 2nd Annual Symposium

The school chapter of the American Association of University Professors will host the second annual symposium on graduate school, Monday, Feb. 12, at 4 p.m. in the Engineering Science Building Auditorium.

Prof. D. S. Ives, supervisor of classical studies, will be the chairman for this event. Speakers will be Dean Earl Edgar of the Graduate School; Pro. T. M. Dillon for mathematics and the physical sciences; Prof. Mary V. Hare for language, literature, and the humanities; and Prof. J. W. Kiriazis for the social sciences.

A question and answer period will follow. Preference will be given to students who must leave by 5 p.m.

Dean Edith G. Painter: A Wise Counselor To YSU's 4500 Coeds

By Sandra Moller

There are almost 14,000 students attending Youngstown State University, exactly one third of which are female. The girls at Y.S.U., being no different from co-eds in any other section of the nation, have certain problems, academic and emotional, that often need the advice of a wise counselor or, sometimes, just a sympathetic listener.

...other cases the students of Y.S.U. have a willing person to whom they can turn for help. She is Dr. Edith G. Painter, Dean of Women and Associate Professor of Psychology. Dean Painter has been interested in working with young women and the problems they face for many years. It was during her own college days at Tufts University that she decided to enter the field of counseling students in planning their careers.

She graduated magna cum laude and was elected to Phi Beta Kappa while at Tufts University. She received her master of arts degree from Columbia University, where she held the Anne Elizabeth Cook Fellowship, and her doctorate in educational psychology and counseling from Colorado State College.

Dean Painter is especially interested in working with the problem facing many young women in America today, that of successfully combining marriage and a career. She believes that if planned correctly it can be done. The Woman Power Commission, she pointed out, tells us that the average American woman will work twenty-five years outside of the home.

In her seven years at Y.S.U., Dean Painter has tried to develop an atmosphere in which she can help the students solve their problems and set them on a path that will lead them to success.

When she replaced Mrs. Olive McCarty in 1961, she had accumulated a great deal of experience in counseling. She had served as Dean of Women at Boise College, Boise, Idaho, New Paltz State College, New Paltz, N.Y., and Meredith College in Raleigh, North Carolina, as well

SNEA NEWS

The Student National Education Association (SNEA) will hold its monthly meeting at 8 p.m. Wednesday, February 14 in the Dana Recital Hall.

Provisions in teacher contracts such as salaries, tenure, duties, etc., will be the topic of discussion by Dr. Samuel Aven, an assistant professor in the Education School.

Election of 1968-69 officers will be held. The January issue of the "Ohio Schools" will be distributed, as well as pins for those members who ordered them last fall.

as Executive Director of a community Y.W.C.A., Lincoln Towers or Bucher recreation director with the Special Services of the armed forces.

The office of Dean of Women encompasses many responsibilities, the main duty being in the realm of counseling girls on academic matters. One of the most frequent problems, she said, concerns the girl who has the ability of doing college work but is not doing it.

Another problem involves the girl who is not really qualified for college. She may have been pushed into college by parents who have over stressed the need for a college education. Through conferences, Mrs. Painter tries to work out a redirection of the goals for this individual so that the girl will be able to find a more satisfactory placement in life.

Dean Painter has one general philosophy concerning her position: make an effort to meet all of the Freshmen and to explain the duties of her office to them. She does this by meeting with small groups of incoming Freshmen during Orientation.

Another responsibility of the Dean of Women concerns the off-campus housing of young women who attend Y.S.U. The policy of the University has always been to co-operate with the owners of housing facilities and with the City Housing Department.

Since the University does not own dormitories for women, the problem of housing must be solved by private organizations. Less than one percent

SPECIAL M.A.T. PROGRAM PRESENTED

Starting at 8:20 a.m. on Friday, February 9, 1968, Mrs. Martz, a representative of the Miami University Graduate School will be on campus to confer with seniors and others who are interested in a graduate program at Miami. They will give special attention to their new Master of Arts in Teaching program, School of Education.

Those who want to talk with the Miami representative should make an appointment with Mrs. Martz in room 400, Jones Hall. The telephone is 744-8451, Ext. 264. Those without appointment may come in between the hours of 11 to 12, and 3 to 4 on Friday February 9, 1968.

of the women attending Y.S.U. are concerned with this problem. Most of them live in one of three places: Y.W.C.A., Lincoln Towers or Bucher Hall.

About one third of the approximate 4,500 girls attending Y.S.U. are what the dean terms "older." Here she refers to anyone over twenty-one years of age or over the age group of typical college students.

Most of these women are married and have families. Some have returned to college after a short break, while others have been absent from schooling for a long period of time. Their most difficult problems seem to be in regard to class scheduling that will coincide with home schedules and adjusting to college life. Most of these women, she stressed, are able to make the adjustment and are quite successful in their college life.

One of the more pleasant duties of the Dean of Women concerns the social life of the campus. Although it involves a lot of time and energy, Dean Painter feels that it is her responsibility to get to know as many of the students as she is able to.

There are eighty-seven groups on campus and her office sets up a social calendar so that special events do not overlap.

She considers herself very fortunate to have a husband, Clyde A. Painter, Assistant Professor of Business Organization, who is active on campus and who is very interested in the activities of the student body at Y.S.U.

Mrs. Painter resides in Campbell with her husband and their two children, Scott, 9, and Brett, 5.

She is a member of the board of the Adult Mental Health Clinic, the American Psychological Association, the National Association of Women Deans and Counselors, Delta Kappa Gamma and has been listed in Who's Who in American Women.

Her office is on the second floor of Jones Hall and is always open to any students wishing to discuss their problems. Her secretary, Mrs. McCabe, is also available to render any services that she can. Mrs. Painter refers to Mrs. McCabe as her "Girl Friday", whose assistance is invaluable.

Dean Edith Painter

Two Departments Schedule Open House

The departments of physics and astronomy of Youngstown State University will hold an open house Saturday, Feb. 10, 1968, at 10:30 a.m. in the Ward Beecher Science Hall.

Junior and senior high school students who are considering attending YSU, high school physics teachers and interested parents are invited to attend.

Faculty members will be available to answer students' questions and the department's major equipment will be on display.

GANT SHIRTMAKERS

The elegant broadcloth button-down by Gant. Tailored with singular precision for dress in a very choice cotton broadcloth. Distinctively Gant . . . from its softly flared collar to its barrel cuffs. Yellow or blue. \$7.50.

Quality Acting, Excellent Direction Hallmark Successful "One-Act" Plays

By Luis F. Suarez

A premiere production, excellent direction, and high quality performances by Youngstown players resulted in a memorable "Evening of One-Act Plays" last weekend at Strouss Auditorium.

Playwright Dr. Louis E. Catron, the author of the three plays presented, visited the YSU campus last week.

Dr. Catron, a member of the Department of Speech and Drama at the College of William and Mary in Virginia, has written several plays, is listed in "Who's Who in American Colleges and Universities," and has directed many productions. He visited our campus by invitation of Professor Donald Elser, chairman of the YSU Speech and Drama department.

The premiere performance of "Interrogation" was directed by Skip Koch. The play concerns the interrogation of a young couple by members of the U.S. State Department.

Bureaucrats vs. People

The lively one-two set of bureaucrats is played by Elaine Homalya and Chet Amedia.

Miss Homalya, the "come-let's-reason-together" member of the team, is the jab before the punch of Gestapo-like interrogator Amedia. Chip LaVogue and Kathy Fallat are the young married, he protective and cocky, she a worried bundle of nerves.

Director Koch deftly weaved their roles to produce a fast-paced interchange. It is this fast-paced interchange in a home setting which gives the twist of interest to the hardly original government vs. individual conflict.

Mr. Death Almost Foiled

The second play, "Granny Davis and Mr. Death", won the Red Mask Community Players one-act play-writing contest.

It concerns a granny, played by Cathy Riffle, who, behind locked doors and the double barrel of her shotgun, challenges Mr. Death and hangs on to the last shreds of her life's memories.

Miss Riffle is one of the best actresses on YSU's stage, and she proves it in this role. But not even Miss Riffle, aided by every fit of business director Gracie Conroy can suggest, can completely hold the

Cantrell's CRY Is Aid For Youngstown

During the past few weeks several recruiting officers have visited the YSU campus making efforts to get interested students to join such groups as the Peace Corps, Vista, and the like. What the students are apparently not aware of is that many voluntary service opportunities are available here in Youngstown.

The Reverend Burton Cantrell, Protestant chaplain at YSU, has organized a group called Campus Reaching Youngstown. This organization placed over a hundred students in various voluntary positions last year.

The purpose of CRY is really to act as a voluntary workers brokerage for various civic organizations. CRY places workers in various positions with Red Feather organizations, with the Volunteer Service Organization, and with just about any civic group needing help.

CRY gives the interested student the chance to help out any way he can here in our own city. One would get the same satisfaction working through CRY as working with the Peace Corps. The advantage to working with CRY is that you may do the volunteer work at the same time you are enrolled in school.

audience's interest focused on this play.

Because of its lack of action, the lines move very slowly. Author Catron has a lot to say, but he says it all. The meaning would have suffered little and the audience much less if parts of the monologue had been omitted.

Man vs. Man

"The Actions of Tigers", the last one-act, is the highlight of the evening. Superb direction by J. A. Silverman results in outstanding performances by Tony Maravola and especially by newcomer Dan Khoury. The play pits the wills of two soldiers trapped behind enemy lines.

The conflict is high-strung and emotionally charged, and Maravola and Khoury bring it out in full force. Catron's play powerfully depicts the lonely results of hatred.

A comment is in order concerning the theater facilities at YSU. The importance of light and sound effects was especially evident in the last two plays. Peg Ward, Jack Granger, and Jeanne Elser, working at the controls booth, should be

commended for their work.

But it was apparent that the tired lights, the reverberating speakers, the static-filled sound system, and the creaky stage were far from adequate and, to say the least, downright embarrassing.

Even worse, the Strouss auditorium is the official school auditorium, used by many organizations to present their programs. For a university the size of ours, our auditorium facilities must rank among the poorest worldwide.

Dr. Louis E. Catron

Depends on the giant. Actually, some giants are just regular kinds of guys. Except bigger.

And that can be an advantage.

How? Well, for one thing, you've got more going for you. Take Ford Motor Company. A giant in an exciting and vital business. Thinking giant thoughts. About developing Mustang, Cougar. A city car for the future.

Come to work for this giant and you'll begin to think like one.

Because you're dealing with bigger problems, the consequences, of course, will be greater. Your responsibilities heavier. That means your experience must be better—more complete. And so, you'll get the kind of opportunities only a giant can give.

Giants just naturally seem to attract top professionals. Men that you'll be working with and for. And some of that talent is bound to rub off.

Because there's more to do, you'll learn more. In more areas.

You'll develop a talent for making hard-nosed, imaginative decisions. And you'll know how these decisions affect the guts of the operation. At the grass roots. Because you'll have been there.

If you'd like to be a giant yourself, and your better ideas are in finance, product engineering, manufacturing, marketing and sales, personnel administration or systems research, see the man from Ford when he visits your campus. Or send your resume to Ford Motor Company, College Recruiting Department.

You and Ford can grow bigger together.

Campus Jobs Help Finance Many Student's Educations

One of the greatest ways for a student to help finance his education has proven to be campus employment, but many of the students are not availing themselves of this opportunity.

Colonel John E. Wales III, Director of Student Financial Aids, stated that many students claim that they are unaware of the procedure for applying for student employment. This year a campaign is being initiated to inform the students of the process involved in becoming employed by the University.

April 1, 1968, is the deadline for the 1968-1969 academic year. Applications are available at the Office of Student Financial Aid, room 103, Jones Hall.

Posters put up in the various buildings will be reminding students of the necessary procedures.

"Letters will be sent to those students already working, advising them to re-apply for the next quarter," emphasized Colonel Wales. "Extension of work into the next term is not automatic."

Brochures are being printed, going into great detail, explaining that the scholarship program helps those who have achieved a high scholastic rating, while the grant, loan, and employment programs assist deserving students whose grade averages do not meet these standards.

Several types of aid may be combined into a financial aid "package."

"All students working on campus are part-time employees," stated Miss Brenda L. Smith, clerk-typist work-

ing in student employment and state loans. "They number roughly four hundred. In addition to all other qualifications, they must be in good standing scholastically."

Areas in which students are doing work include library, maintenance, general office (clerks, clerk-typists), laboratory assistants, and professors' helpers.

All receive pay within the department budget. The pay is \$1.15 an hour minimum. "A few in a specialized field, such as laboratory assistant in chemistry or biology, subject to approval by Dean William H. Coffield, receive \$1.25 or \$1.50," stated Mr. William T. Collins, Jr., Assistant Director.

"Until August it had been possible to get an assistantship—full (34 hours) or part-time (17 hours) by which some of the work took care of part of the tuition. This is now being phased out."

"The students work all over the campus," continued Mr. Collins. "The University Placement Office takes care of students employment off campus."

Financial Aids is under Business Manager, Mr. Joseph S. Rook.

Education Opportunity Grant, National Defense Student Loan, and scholarships are types of financial aids available. These aids are for

full-time students. However, part-time students may apply for work on campus. A good academic standing is required for aid of any sort.

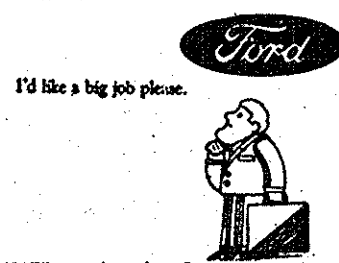

Student employment on campus based on awards, given because of financial need, is provided by a system of matching funds.

Three forms of aid are available: Educational Opportunity Grant, National Defense Student Loan, and student employment on campus.

"If a student needs \$400," explains Mr. Collins, "he provides \$200 from his pay, and the other half is matched by the grant."

The staff of the office welcomes inquiries, and is cooperative in answering questions and in assisting students and parents.

Rapid Growth Marks Alumni Office's 1st Yr.

The YSU Alumni Office, still in its first year of operation, is rapidly expanding as an administrative office.

The office has an active alum file of over 14,000. Since June of 1967 when the office was established, Director John P. Uliceny and his staff of six have been constantly editing and revising to keep the files current.

The main concern of the office is to coordinate all activities of alumni organizations connected with the university.

This includes the publication of a YSU Alumni Newsletter on the average of once every two months.

This relatively new staff of alum-

workers is the first full-time group directed at keeping in touch with graduates since the school was founded. In the past the work was done only on a voluntary basis.

The office is also concerned with fund raising. As Mr. Uliceny explained, the state does not support every area of campus life that requires funds. As a result, outside money is still needed for such projects as students unions, etc.

At present there is only one active Alumni Club, and that is in Youngstown. Mrs. P. Arthur D'Orazio is the president.

Mr. Uliceny outlined plans for an eventual expansion to a point where the Youngstown club would act as the home club with chapters all over the country.

Flads Ad Lads Prepare For National Ad Week

February 10-17 is National Advertising Week on the campus of Youngstown State University and throughout the United States.

Alpha Delta Sigma, the National Professional Advertising Fraternity, is helping promote Advertising Recognition Week through various media in Youngstown and its outlying areas.

Under the direction of their advisor, Mr. William Flad, associate professor of advertising and public relations, the men and women of Alpha Delta Sigma have been busy creating window displays, television commercials, radio spot announcements, and outdoor posters using the theme, "Truth In Advertising."

As students of advertising, the members of Alpha Delta Sigma are learning that advertising is the "Spark Plug" of our existence.

It makes people aware of better products and new ideas, and helps provide a higher standard of living for everyone.

Ronald Pusateri and Dick Corbett, both of Youngstown, are co-chairmen for National Advertising Week at YSU.

Stop Tow-Away

An editorial in the January 26 issue of the JAMBAR warned students that the City was going to begin towing all Pennsylvania cars which had unpaid parking tickets as of February 1.

It was suggested at that time that the City re-examine its proposal since the system seemed haphazard in its enforcement.

Coincidentally, on the day of publication, six days before the proposed date, several Pennsylvania cars were towed.

It was ironic that one of those cars belonged to the writer of that editorial and this. This puts the writer in the rather unique situation of knowing just how much the system operates on chance. Had something not come up at the last minute, the car would have been moved long before the tow truck arrived.

The writer has lost the game of hide-and-peek, and knows the feeling. He has even become somewhat indebted to the City for a payment plan which has been set up for the \$150 in fines.

That money is lost, there is no way of avoiding payment. But there is no reason why any more than those already caught should have to pay because they didn't manage to elude the police.

Again it is asked of the City that they abandon this method of collecting money which they themselves let pile up.

A considerable amount has been paid by those already towed. It is time for the City to forget water under the bridge and begin keeping track of their tickets as they write them. —DBM

GO To The Buckminster Fuller Lecture

Letters To The Editor

To the Editor of the Jambar:
 During the last few months I have read much criticism in the Jambar concerning poor student participation at YSU. I feel these criticisms are true but in need of defense. Granted, for a university with an enrollment of 13,000 students, attendance at school functions is meager. But why is student participation poor?

- (1) Since the University has only one dormitory, the vast majority of students live off campus and many live at home with their parents or relatives.
- (2) The majority of students have either part or full time jobs. Time doesn't afford these working students the opportunity to participate in many student activities.
- (3) Since the University is a city school, many students can enjoy a social life completely void of extracurricular campus functions.

Therefore, although poor student participation is indeed a fact at YSU, there are sound reasons why this situation exists. It is my feeling that student participation will re-

main poor as long as the average student at YSU is a working commuter.

Larry W. Forbes
 Junior
 School of Engineering

To the Editor of the Jambar:

The appalling apathy of the student body again showed itself at the recent Student Council meeting which I attended last week.

I have often heard the complaint that the school is run by "Greeks". I must agree with this but, because I have reason to—the only people present at the meeting was the council itself which is mainly "Greek". No-one showed up to debate or question any proposal.

At this meeting, roughly five students came to observe what was going on—five out of 12,000 students is a rotten average. With a .0004 average, nothing will ever succeed.

Not everything the council has done was right but, how can it if we as students don't voice our opinion—don't give them a guide line as to our wants and desires.

We should all be aware that the

Our Man Hoppe

The Mightiest Nation On Earth

Arthur Hoppe

Herewith is another unwritten chapter in that standard unpublished reference work, "A History of the World, 1950 to 1999." The title of this unwritten chapter is, "The Mightiest Nation on Earth."

It was in January of 1968 that the first portent of the cataclysmic change occurred: The tiny country of North Korea stole an American spy ship.

"We are the mightiest nation on earth!" said the President of the United States proudly. "We'll show them a thing or three."

So he called up Pyongyan and spoke to the Minister of Tow-Aways, Mr. Nho Park King. (cq) "That's our ship," said the President confidently, "so you give it back."

"Go soak you head," said Mr. King blandly. "If you don't," said the President sternly, "we'll . . . we'll . . ."

"You'll what?" said Mr. King and hung up.

The President angrily called in his advisers. "We're the mightiest nation on earth," he said, "and no two-bit backwater country is going to push us around. Now, what'll we do?"

"Let's send a mighty armada into their port to free our vessel," said a patriotic Congressman, "and those Commie rats will . . ."

" . . . sink our ship and shoot the crew," said the President glumly.

"There is no recourse, sir, but to declare hostilities," said a General hopefully. "And don't worry about getting bogged down in a land war in Asia because . . ."

"Another one?" said the President gloomily. "I don't like the bog we're in already."

"A few hydrogen bombs strategically placed," said a mad scientist who was mad because he didn't get to speak first, "would . . ."

. . . turn the whole world against us," said the President testily. "Come now, gentlemen, surely you can think of something."

But every time they thought of something—like armadas or war or bombs—it wouldn't do. For the very mention of such possibilities appalled the rest of the world. "Why don't you pick on someone your own size," said the rest of the world, "you big bully, you."

American frustration mounted and mounted. But worse was to come. Peru swiped an American crab boat. Lower Volta copped a C.I.A. canoe on the upper Zambezi. And Fidel Castro kidnaped Mrs. Jacqueline Kennedy, who had water skied too far out from shore.

In each case, the President sent a stern diplomatic note. In each case, he received an undiplomatic one in return saying, "Yanh, yanh, go climb a sapling."

The end came when the Ambassador from Phynkia stole a Presidential ash tray at a White House reception and coolly demanded to know what the President was going to do about it.

The President did the only possible thing. He called a convention of the States; the Articles of Confederation were repealed; and America became 50 sovereign nations—each small enough so that no one dared push it around.

And everybody lived happily ever after.

In his retirement in the Republic of Texas, the President was visited in his declining years by a young historian who said: "There's just one thing I don't understand, sir. How could this have happened to America? It was the mightiest nation on earth."

"Yep," agreed the President sadly. "Our other problems we could've licked."

Calling All Seniors!

Applications for June graduation will not be accepted after March 1. Seniors are advised to apply at their particular school. Students receiving degrees in the College of Liberal Arts should apply at the Records Office. All other students MUST apply at their school.

Nonsense 502

Instructor: Sam Staff, B.V.D.

Here are the answers to last week's quiz:

1. Superman's arch-enemy was Lex Luther.
2. Mr. Martindale most resembles Errol Flynn.
3. Green Arrow's real name was Oliver Queen.
4. Phi Sigma Kappa won the spirit contest.
5. Rocket Man propelled himself via a rocket pack strapped to his back.
6. Dan Kutsko has only one tri-plane in his collection.
7. Vicki Carr was the girl reporter in the Batman comic books.
8. John Hitchcock announced there would be 360 pages in this year's NEON.
9. The three L.L.'s in Superman's life were: Lois Lane, Lana Lang, and Linda Lee (Supergirl).
10. Censored.

Here is this week's quiz:

1. Who is responsible for the cracked walls and ceilings in Kilcawley?
2. What was the name of the corporal in Rin Tin Tin?
3. Who is the head parking lot attendant?
4. Who owns Rin Tin Tin? (Full name)
5. Who is the newest member on Student Council?
6. What was the name of the fort where Rin Tin Tin lived?
7. What was the final score of the SAM-TKE basketball game?
8. Who was actually the guardian of the little boy on Rin Tin Tin?
9. What is P.C.'s title?
10. What was the sergeant's name on Rin Tin Tin?

SPANISH CLUB BOOK SALE

The Spanish Club, Los Buenos Vecinos, will hold a used book sale next week in the library lobby. Thursday and Friday, February 15 and 16, dedicated members will be working hard to reach their goal of \$50 in this sale. All profit will be added to the Spanish Scholarship Fund which will be available in competition to any sophomore or junior majoring or minoring in a foreign language or in English.
