

PAN-HEL SWEETHEART DANCE NEXT WEEK

Student Union Approved By Committee

The Student-Faculty Relations Committee this week approved a Student Council proposal to initiate a program for the construction and organization of a Youngstown College Student Union.

The proposed building will contain offices for the JAMBAR, Neon, and Student Council; a large meeting room; a recreation room; a snack bar; a non-profit student co-operative store for second-hand books, and a lounge and dormitory facilities for out-of-town convention delegates. Student Council will assume all responsibilities of management.

Use 5-Year Plan

Approximately \$40,000 will be needed to finance the purchase or construction of the building. It is hoped that \$10,000 will be derived from a five-year annual appropriation of five percent of the Student Activities Fund, and the remainder from a drive to be carried on in 1957 among members of the administration, alumnae, and local business men.

According to present plans, the building will be ready for use by 1960. Student Council will be in charge of maintenance and providing revenue through fees or subsidies.

Students Get European Tour For Only \$100

The dream of a low-priced quality non-escorted tour to Europe within a college student's budget can now be realized, with the creation of a new individually-packaged tour, featuring 10 days in Europe for \$100, which includes hotel accommodations, three daily meals, tips, land transportation, and complete sight-seeing by motor coach, with a choice of nine itineraries covering eight European countries.

Of great appeal to the student traveler is the freedom offered in this plan. Being an independent tour, there is no regimentation with a group.

The nine itineraries are broken down into six of ten days each and three of five days, with unlimited possibilities offered for different

(Continued on Page 5)

Tuition Rates Increase in Fall

Effective the fall semester, 1952 students carrying a full-time class load will pay a flat tuition rate of \$10.00 per semester hour. This is the same charge now made for part-time students who carry ten hours or less a term.

Under the present tuition schedule, a student carrying fifteen semester hours pays \$120. tuition a semester, plus \$7.00 for each additional hour.

With the new schedule the student will pay \$150. for a fifteen hour load, plus \$10. for each addi-

Reigns at First Spring Dance

Fran Restelli

The petite Coed was chosen by members of all College Greek organizations to be Sweetheart of the 10th annual Pan-Hel Dance. She is a member of Gamma Sigma Sorority.

JAMBAR Enters OCNC Contest

The JAMBAR has entered the Ohio College Newspaper Contests to be held in conjunction with the 1952 Annual Convention at Ohio State University, April 25-26, 1952. Circulating cups or certificate awards will be presented to the best entries in the various divisions of the contest.

The JAMBAR is entered in the Bi-Weekly division.

Awards will include the circulating cup for the Best Issue, and certificates for the Best News Story, Best Sports Story, Best Editorial, and others. There will also be awards for outstanding cartoons, pictures, and features.

Only Three

Three entries are permitted in each division, and the judges will be from the ranks of professional newspapermen or college or university teachers, but their names will not be released until contest time.

The JAMBAR editor, Jim McFadden, and Business Managers Henry Brock and Don Baynes, plan to attend the convention along with Mr. Crites, JAMBAR advisor.

Art Department Holding Exhibit

The Youngstown College art department is holding its 16th annual Spring Exhibition with an invitational showing of work of the Youngstown Experimentalists at the Butler Art Institute continuing through Mar. 30. The Experimentalists are art graduates of the college.

With a total of 315 exhibits representing 69 exhibitors, the show will include oils, watercolors, drawings, designs, textiles, jewelry, advertising art, metal structures, wood sculpture, wire sculpture, ceramic sculpture, a wood-cut print, and a crayon.

A \$50 purchase award will be given by the Youngstown College

Fran Restelli Reigns At Stambaugh Friday

Pan-Hellenic Council, under the co-chairmanship of Pete Michaels and Chuck Hanna, once again presents its annual Pan-Hellenic Sweetheart Dance, to be held March 22 at Stambaugh Auditorium. Dancing is from 9 to 1 to the music of Ross Halomay and his orchestra.

This semi-formal affair, open to all Greek organizations who belong to council, will feature the crowning of this year's Sweetheart, Fran Restelli who is a sophomore physical education major and a member of Gamma Sigma sorority. Her court includes Kitty Verdun of Phi Lambda Delta sorority, Vivie Prees of Alpha Theta Delta sorority and Marlene Schauer of Gamma Sigma sorority. On hand to do the crowning will be last year's queen Marilyn McCallen.

Tenth Time

This dance, which is in its tenth year, was first known as the Interfraternity Ball and was under the sponsorship of the Interfraternity Council. This council functioned in the same manner as our Pan-Hellenic Council of today.

That first dance, which was expected to become a tradition, has been held each year since; except for a period of two years during the war.

Committee chairmen include: publicity, Harry Ritchey; programs, Dean Hawk; flowers, Fred Bally; invitations, George Finora; decorations, Tom Creed and Kitty Verdun; intermission, John Petrucci.

Franny Surprised: 'Hardly Believe It'

by Rose O'Horo

Have you ever noticed that cute little (about 5'11") blonde with the green eyes and the big smile running around the campus? Have you noticed that the smile has been even bigger lately? Her name is Fran Restelli, and the even bigger smile is because she has been chosen this year's Pan-Hellenic Sweetheart.

All Franny could say when she heard the news was, "Oh, I can hardly believe it!" But it isn't such a surprise to those who know her, and she is well known on the campus.

Active Member

A Sophomore Phys. Ed. major, she is an active member of Newman Club and Gamma Sigma sorority, of which she is social chairman, as well as a cheerleader and a member of the Sports Board.

As for hobbies, she enjoys swimming, baseball, and dancing. Oh yes, she is an ardent Boston Red Sox fan too - ask Snarky Parker. She graduated from Chaney High School in 1950 and intends to teach in high school when she leaves Yoco. Those classes will be lucky.

Controls Older Than U. S.

Tomorrow is the 428th anniversary of Price Controls in America. The Spanish government in Mexico tried to arrange control of prices and measures in 1524 because there was "too much money, too few things to buy."

Industry Expects Character, Ability From Graduates

"American industry is seeking two things -- character and ability -- in the college graduate," Clarence B. Randall, president of Inland Steel Company writes in his preface to the 1952 edition of CAREER, the annual guide to business opportunities.

"If the colleges can give us men of integrity," says Randall, "who can think clearly, learn quickly and apply their knowledge and experience to new and unfamiliar situations, we can provide the detailed training they need to advance in our industries and our companies."

The 61-year-old executive and Harvard Law School graduate asserts that "industry itself must undertake the specific training of the individual for its own needs."

Shouldn't Wait

Randall, a trustee of the University of Chicago and a member of Phi Beta Kappa, warns against postponing career decisions and offers concrete suggestions for selecting a life's work.

Randall's article is one of several in CAREER surveying job opportunities and telling how to break into the field of the student's choice.

CAREER is being distributed free of charge to graduates of approximately 300 of the nation's leading colleges and universities through their placement directors.

It's Getting Much Warmer

Fire losses for the last year reached \$731,405,000, the highest point in the history of the United States, topping even the 1948 record of \$711,114,000, the National Board of Fire Underwriters reports.

Tuesday, Mar. 25, is the last day Youngstown voters will be able to register for the May 6 primaries.

Very often preparations for full-scale voting in fall minimize the equal importance of spring elections and large numbers of voters fail to register in time for the primaries.

Don't join the ranks of these "half-way" citizens. Register at the Realty Building Board of Elections on or before Mar. 25.

- Editor

Chosen Most Popular on Campus

Nancy O'Connor

Fran McHugh

Nancy O'Connor and Fran McHugh have been elected "Miss and Mr. Popularity of 1952" by the students of Youngstown College. Nancie is a Sophomore English major and Fran is a Senior majoring in Merchandising. The winners were announced by the Phi Gamma Fraternity at their seventh annual Popularity Dance last Saturday.

ATTENTION!
JAMBAR STAFF MEETING
ON TUESDAY AT 11:00 A.M.

Furniture Dealers Boost Scholarships

The current Youngstown College Scholarship Assistance Fund campaign sponsored by the industrial, commercial, professional, and business interests of the area gained new impetus when the Scholarship Committee, of the Mahoning Valley Furniture Dealers Association held an organization meeting for the purpose of soliciting the support of their membership in the project.

Herbert Osgood, president of the furniture dealers' association, served as chairman of the meeting in the absence of Jacob Penner.

Will Lend Support

In presenting the project to the committee, Osgood said: "The Mahoning Valley Furniture Dealers Association welcomes the opportunity to lend its support to this worthwhile community project. Our campaign is a voluntary one, and all members of the committee are enthusiastic in their support of the college program and recognize the need of scholarship assistance to deserving and needy students.

They are offering their services and will undertake to make personal calls on every home furnishings' dealer in our area. We feel that this represents a most useful contribution to the future of the Mahoning Valley."

A letter will go out from the committee to all members of the association including 60 firms in Youngstown and the surrounding area, and letters will be followed by personal solicitation on the part of committee members.

In discussing the importance of Youngstown College to retail merchants in the area, Wolter stressed the fact that college surveys show that when students go out of the

city to attend college, the majority of them seek employment elsewhere and thus are lost to the community as trained workers, as consumers, and as citizens, while those who remain in Youngstown to attend college are most likely to utilize their training with local firms and be citizens of the community.

Becoming Difficult

Wolter said that recent surveys show that because of the high cost of everything at the present time it is becoming increasingly difficult for parents to send their sons and daughters to college and that many students are forced to drop out because of financial difficulties.

The over-all goal for the campaign for the combined industrial, commercial, professional, and business interests is 150 scholarships of \$500 each.

All subscriptions, whether they are for full or partial scholarships will become part of the Youngstown College Scholarship Assistance Fund. A definite percentage of the full scholarships will be awarded on the basis of competitive examinations to be given in the spring; others will be provided for students with specialized talents. The remainder of the fund will be used as a partial-assistance fund for other qualified entrants, as well as for presently enrolled students who are maintaining required grades.

Student Council Publicity Regulations

POSTERS

1. Posters are to be displayed on the wires located in the Main Building, first floor.
2. On the bulletin board on the second floor, Main Building, to the left of the Testing Office.
3. In the cafeteria.
4. In the Annex buildings, first floor.
5. Only posters advertising Student Council and administration projects and events may be placed on easels in front of the auditorium entrance.

No poster may be put up earlier than 10 days prior to the event.

HALL REGULATIONS

The use of tables in front of the main auditorium entrance is restricted to Student Council. Other organizations wishing to use tables in the hall should contact the Dean for permission.

This Is What Bothers You

This is why some people can't find a seat in the cafeteria during the lunch periods. Many of the players, when asked to stop by members of the Student Council Discipline Committee, have refused. Council president Jack Shea stated that stronger measures would have to be taken to keep people from using unnecessary space during the lunch periods.

Hornblower Toots Whistle

A man named Josiah Hornblower was probably the first engine-whistle tooter in the U.S. He was engineer on the first steam engine

put to use in America, in 1755.

The engine was imported from England for use at the copper mine of Col. John Schuyler near the present North Arlington, N.J.

Kappa Sigs Lead Canned Food Drive

Kappa Sigma Kappa fraternity took first place by a narrow margin in the recent canned food drive sponsored by Alpha Phi Omega, College service fraternity. New Sigma Rho placed second. The campaign, which turned over 3000 cans of food to the Salvation Army, was under the chairmanship of Harold J. New. Committee Members were Don Beck and Tom Fard.

During the drive a large graph was placed in the main hall, with the name of every contributing organization listed on it. The progress of the drive was recorded on this graph.

At the end of the drive A-Phi-O went about the task of choosing the winner.

Some Bigger

As some organizations on campus are larger than others, the winner was picked on the basis of the number of cans per person in each organization.

The committee has announced that the Kappa Sigs were ahead with an average of five cans per member. The Nu Sigs ran a close second with a 4.75 average.

The food drive has become an annual project of the service fraternity. The plaque, which was awarded to the winners, will be displayed at the College, and the name of each year's winner will be added to it.

Alpha Phi Omega expressed its thanks to all the organizations who contributed to the success of the drive.

Exhibit Accepts Skeggs' Painting

Prof. David Skeggs of the art faculty of Youngstown College has been awarded Honorable Mention for his painting "Into The City" now on exhibit at the Terry Art Institute Exhibition in Miami, Fla. The painting which formerly won Best Color prize in the 1951 Spring Salon at Butler Art Institute will be exhibited with other prize winners in the Hall of Fame at the Dinner Key Auditorium in Miami.

Prof. Skeggs' painting is one of more than 2,500 accepted for the Florida exhibition which is one of the largest in the country and which distributed \$18,000 in prizes.

Prize winning paintings were selected by a group of nationally known art critics including: Dr. Justus Bier, University of Louisville; Copeland Burg, art critic of the Chicago Herald-American; Dorothy Crafty, critic for American Artist magazine; Francis Klein, art critic for St. Louis Globe-Democrat; Arthur Millier, Los Angeles Times; Dr. Bernard Myers, New York University, and Doris Reno, Miami Herald.

Other Youngstown artists represented in the exhibit were Gordon Hockenberry, a senior at Youngstown College; Jon Naberezny and Miss Beatrice Fried, members of the Youngstown Experimentalists and graduates of the college.

Ault Speaks to OSPE Meeting

Wayne E. Ault, technical engineer with the Automatic Sprinkler Co., was the principal speaker at the meeting of the Youngstown College Student Chapter of the Ohio Society of Professional Engineers held recently, at Pollock House. Mr. Ault spoke on fire protection engineering. He is vice president of the Mahoning Valley Society of Professional Engineers.

The meeting was attended by members of the William Rayen School of Engineers, active members of the college student chapter of OSPE, and prospective members.

At present the group is conducting a membership drive for all interested sophomore, junior, and senior engineering students, with John Bell as chairman, assisted by Ed

(Continued on Page 6)

Harold New, chairman of the canned food drive, presents the winner's trophy to Richard Huesken, president of Kappa Sigma Kappa Fraternity. The Kappa Sigs contributed the most to the drive, which was sponsored by Alpha Phi Omega, College service frat.

Ohio State Agency Filling More Jobs

More than 353,000 jobs were filled by the 82 offices of the Ohio State Employment Service during the first nine months of 1951. It was announced by Ernest Cornell, Administrator of the Ohio Bureau of Unemployment Compensation. This represents an increase of 23.4 per cent over the placements made during the same period one year ago.

Biggest news in the statistics recently released by the Employment Service lies in the increase in professional and managerial placements made by state employment offices throughout the state. During September of this year, there was an increase of 77 per cent over August, and, for the nine months ending September 30 of this year, there was an increase of 82 per cent, over the same period of a year ago.

These figures were hailed by Mr. Cornell as an indication of greater acceptance by employers who apparently are making greater use of the local employment office as a source of professional and managerial workers.

Reflecting the rise in employment, and the growing shortage of qualified workers, the Employment Service statistics show a drop of 3.7 per cent in the total number of new applicants for employment, an increase of 14.8 per cent in the number of individuals given aptitude tests, and an increase of 31.6 per cent in the number of individuals given proficiency tests.

Further indication of labor shortage is seen in the sharp drop in the number of persons actively seeking employment. During the first nine months of 1950, an average of more than 157,000 persons per month were looking for jobs through the local state employment offices.

Haven't We Seen Them Before?

It seems that Yoco's Most Popular Boy and Girl have received honors together once before. The "honor", however, was not realized at the time. Above, Nancy O'Connor (left) and Fran McHugh (right) under the spell of the "Handsome Hypnotist", Dr. Monroe. Monroe showed his powers to the student body in the Strauss auditorium last fall.

Off the Record . . .

by JIM MCGINTY

Cheer up, lovers of music; I'm back. After a weeks vacation in the sunny south, (South side of town) the boss-man of this newspaper, and I use the word loosely, has consented to let me hack out another column. So -- as to renew old friends and make new

The Stuff Columns Are Made Of

Jim McGinty banging out what he is pleased to call his "Call-em". On the table, above, below, around, beside, and in front of him are some of the tools and materials he uses to turn out his masterpieces.

enemies, I would like to inform the perpetrator of a recent "Letters to the Editor" of my correct name: JAMES D. MCGINTY. Also it is my sincere wish that the so-called singer, JOHNNY RAY, -- drop dead!

As I have said before, "fog horn Ray, from Back Bay" would make a fine plumber. Willie The Weeper, whose fat little hand wrote that charming letter, would do well to change vocalists and ideals of what makes a guy with an enlarged larynx a singer.

Dogs, cats, and Lions have a larynx, but do they sing? Well not lately -- only when their hungry. -- Now for page five, for the society news. You just finished reading the obituary section.

Facts and Figures

Maynard Ferguson, the ring-leader of the Stan Kenton band has done "flew the coup". Ferguson, accompanied by his horn, is forming his own band. -- Jo Stafford, the New Orleans "song bird", will open for a two weeks visit at the Palladium in London, on April 7. -- Louie Armstrong will also leave the country -- going to Europe and British Isles. Along with Ferguson leaving the Kenton band were drummer-supreme, Shelly Manne, Art Pepper, alto sax and Bob Cooper, tenor sax. No reason was given of the departure.

Rumors are flying that the BILLY MAY band will be in the neighborhood around May Day Ceremonies. The band with a name like May would be a natural for the festivities. Think of the headline the JAMBAR could run -- MAY DAY et al -- BILLY FOR MUSIC with MAY (YOCO) for Fun. May-May-May -- decoded means -- Billy, Month, Day.

The college band, a small closely-knit unit, has made their radio debut, over station WFMJ. I think that even Paul LaValle of the Band of America, would envy the organization. "So much is accomplished, with so little," that no dead wood can be tolerated. -- The RAY ANTHONY band which received wild acclaim, did a return engagement on March 3, at the local dancery.

The band is like the popular beer ads -- "smooth to the last drop or note -- as you prefer". The whole group when either playing or resting lends to the audience a profound stimuli. The only band which I would say lives up to its recording reputation. Usually the records are fine due to the

National Security Deferments OK By Congress

The Congress, in the 1951 Amendments to the Universal Military Training and Service Act, declared that adequate provision for national security requires maximum effort in the fields of scientific research and development and the fullest possible utilization of the Nation's intellectual resources; it authorized the President to provide for the deferment of any or all categories of persons whose activity in study is found to be necessary to the maintenance of the national health, safety or interest.

Criteria Rank Or Score

The criteria for deferment as a student is either a satisfactory score (70) on the Selective Service College Qualification Test or satisfactory rank in class (upper half of the freshman class, upper two-thirds of the sophomore class, upper three-fourths of the junior class).

Seniors accepted for admission to a graduate school satisfy the criteria if they stand in the upper half of their classes, or make a score of 75 or better on the test. Students already enrolled in graduate schools may be deferred so long as they remain in good standing. It is not mandatory for the local boards to follow the criteria.

General Hershey remarked today that when the Selective Service college deferment plan was first announced last Spring objection

big. The little fellow who has the fine bass voice is the "end" -- probably never took a lesson either.

Marcheta -- Tommy Dorsey -- An oldie, given new life. Mr. T.D. blows great gobs of sweet tones around with good support by the band. Decca.

Johnny Hodges -- Sideways - A bouncy jump tune - slightly commercial but will do for most citizens of the "rhythm is the thing" section.

Ella May Morse -- Blacksmith Blues -- Its a hit already -- need I say more.

Ray Anthony -- I Hear a Rhapsody -- A smooth commercial tune. Dance -- on the flip will shake your shoes loose. Maybe your teeth too.

Anita O'Day and Ralph Burns Orch -- Lover, Love for Sale, Rock and Roll Blues - etc. A worth-while album. Mercury.

Blue Tango -- Hugo Winterhalter -- Good instrumental.

excellent studio musicians who remain stationary -- (they don't travel with road bands) but in Anthony's case the procedure is changed.

Ray has a well rehearsed group, though big names in the various sections of the band are nil, they phrase, punch and blend together to a tee. If you still don't understand what has transpired, leave with one thought - I like the Ray Anthony band. -- Like serious music? - try the Youngstown Philharmonic Orchestra -- tickets range from students 60¢, to people who work at 4.10 -- dollars, that is. -- Have you ever been out West without leaving town. Try it sometime -- just buy a seat to Oklahoma, like I did. The best in show-business is always by Rogers and Hammerstein.

Wax in your Ears

Believe It, Beloved -- Connie Boswell -- Done very tastefully, musically and otherwise. Decca.

Begin the Beguine -- The Ravens -- No matter what tune the boys do, it can't help but go over

Student Council Digest

Fri. Feb. 29

Bob Clayton replaced by Henry Handel as representative of Phi Gamma Fraternity.

A. Vargo, D. Boop, F. O'Connor, and E. Hurst are new Independent members.

Council recommended that the Finance Committee take no more than \$750.00 of the Activity Budget for a student parking lot.

A poll will be taken to determine whether or not the Neon will be continued.

Fri. Mar. 7

May Queen elections to be held Fri. Mar. 14.

Eberhardt and Galep are new members to Council.

was heard that the plan gave preferred treatment to the comparatively small number of "bright boys" who could afford to go to college.

Opposition Gone

He said he believed that virtually all of the opposition on this ground has been dissipated, since there is now a general understanding of the fact that the purpose of the plan is to select those most fitted to pursue college educations and that a large proportion of college students are "working their way through college", either partly or wholly.

He cited a recent survey made by the United States Office of Education which showed that fewer than 25 per cent of college students are solely dependent upon their parents.

"We are faced with an emergency that many experts predict will last perhaps 10 to 20 years," General Hershey said. "We must, therefore, think in long-range terms, in developing plans to provide an adequate supply of highly skilled manpower."

Plan is Logical

"I believe the country is aware that it is logical, in deferring stud-

ents in the national interest, to defer those with demonstrated ability, instead of gambling on those with lower capacity."

General Hershey explained that the intent of Congress was that these students should be deferred only until they have completed their college training. "Deferment" means that a registrant shall have his service delayed or postponed until he completes his education. It is by no means an outright exemption.

The 1951 Amendments to the Universal Military Training and Service Act provide that any registrant who was in a deferred classification on June 19, 1951, or who was thereafter placed in a deferred classification shall remain liable for training and service until he reaches the age of 35.

Therefore, any registrant deferred now as a student will be required, if physically fit, to serve two years in the armed forces sometime before he becomes 35.

With the ENGINEERS . . .

by Ted Herman

Last week, the Westinghouse Electric Corporation invited, under the supervision of Mr. Klingshim, thirty one electrical and mechanical engineering seniors to attend a field trip at their Sharon transformer plant. The group met at 10:00 A.M. in the plant lecture room and were very cordially welcomed. The group was split up into squads of five, each headed by a plant engineer and were then taken through the various departments which comprise in the end, the production of a completed transformer.

It was interesting to note that Westinghouse produces transformer's which range in weight from one half of an ounce to six hundred thousand pounds. The one half ounce transformer is built on the principle of radar components while others are just "built" and stand as high as 15 to 20 feet. Large transformers are rated as high as 230,000 volts and as much as 160 K. V. A.

Took No Chances

Due to the limiting factors we were not shown through the departments in which the coils of smaller transformers were wound by women employees. I don't believe the boys looked too "wolfish" but the company took no chances. J. D. Grewell, one of the spokesmen for the company told us that they had cases where wrenches, pliers and even a ladder were encased in one of the completed larger transformers but have never as yet entombed a worker in one. This particular gentlemen by the way was the "life of the party" and he did a good job in keeping the boys in a humorous mood.

A film was shown on "Distribution Transformers" which gave in detail from the start to the end, the production of such a transformer. It was a very interesting picture and really shows the large amount of work that goes into its production. The trip in general was really worth the time spent at the plant and I advise that all up and coming seniors to make sure that one of the faculty makes possible such a field trip for you.

The seniors are going to take another field trip in April to the Westinghouse East Pittsburgh Plant where switch gear and rotating machinery are manufactured. By the way, "Mr. Westinghouse" gave a free lunch (all that you can eat) to the attending group. Special thanks goes to all concerned in making these field trips possible.

The little boy awoke at four in the morning and asked his mother to tell him a story.

Just be patient, dear. Daddy will be home soon and we'll hear a story that'll be a honey."

combinations and groupings. The inclusive cost is \$10 a day, with a small additional charge to cover the actual cost of transportation between the end of one ten day itinerary and the beginning of another.

The \$100 tours, created by a special department in New York's "House of Travel," will be sold to the public through over 2000 travel agents throughout the United States and Canada. Pre-paid tickets, insuring reservations and covering all facilities abroad, will be issued to clients upon purchase of the tour.

Social Regulations Changed

Several changes have been made in the general College regulations for student functions. As of Feb. 26, 1952, the Dean's office has announced:

- (1) The Social Calendar will be open for date placing for the year at a meeting held during the first week of school.
- (2) No date will be considered final until placed on the College calendar.
- (3) Public dances on Sunday will not be permitted.

Butt's And More Butt's

It has been noticed by the heads of the engineering department that too many students are missing the cigarette receptacles while others don't even attempt to miss. This practice should be avoided at once for if it continues the privilege of smoking in this building might be taken away from us. There are surely enough receptacles in the hallways, so if you see any student acting contrary to this notice, kindly remind him otherwise.

Charter members of the Student Chapter who have not paid their spring semester dues are urged to do so. You still have six days of grace, so lets go fellows! Twenty eight new members have been accepted into the Student Chapter which will make a grand total of 127 if all charter members pay their dues. SEE YOU AT THE "CONVENTION".

With the Greeks . . .

by Nancy Crofford

Rushing is tops on the agenda of most all the Greek organizations on campus this month. This is an important time for the sororities and fraternities because they get a chance to know their prospective members. (Of course, who are we to deny that the parties are fun too?)

Speaking of parties, the Phi Sigs held their first rush party in the form of a smoker at the D.A.V. March 6 was their Founder's Day Banquet with alumnae and Junior Birdsmen in attendance. There were plenty of chickens present, cooked ones that is.

Beta Sigma Omicron's first party was a circus! Really. The guests were entertained by various sideshows such as fortune telling etc. No real animals were present, but they did serve animal crackers. Their next party was a joint one with the Pi Beta Chi boys.

Another Party

The Alpha Deltas held a party this week with Pi Beta Chi. The next one will be in the form of a tea at Pollock Hall. We are sorry to say that sister Carol Pape is no longer with us.

Laziness grows on people; it begins in cobwebs and ends in iron chains. The more one has to do, the more he is able to accomplish. — T. Buxton.

Besides a busy schedule of rush parties, the first one being a tea, Alpha Pi Epsilon is busy making plans for the Jest's Ball to be held April 5. This affair is under the co-sponsorship of Alpha Pi Epsilon and Alpha Phi Omega, our two service organizations.

Thanks to sister Marilyn for doing my column for me and don't forget April 22, the PAN-HELLENIC SWEETHEART DANCE.

A woman came up to a policeman on his beat and said: "Oh, officer! There's a man following me and I think he must be drunk."

The officer scrutinized the woman and answered. "Yes, he must be!"

The barber had cut him, nicked him and gashed him.

"Give me a glass of water, please," gasped the victim.

"You aren't going to faint, I hope?" asked the barber in alarm.

"No," replied the victim. "I just wanted to see if my mouth still holds water."

Be Happy-Go LUCKY!

In a cigarette, taste makes the difference — and Luckies taste better!

I study hard for each exam,
And all I get is C.
But I get A's on smokers' tests
With L.S./M.F.T.

The play was over, the curtain drawn,
The cast was now at ease.
Said seconds, stars and stagehands, too,
"A Lucky, if you please!"
Stan Book
West Virginia University

The difference between "just smoking" and really enjoying your smoke is the taste of a cigarette. You can taste the difference in the smoother, mellower, more enjoyable taste of a Lucky . . . for two important reasons. First, L.S./M.F.T.—Lucky Strike means fine tobacco . . . fine, mild tobacco that tastes better. Second, Luckies are made to taste better . . . proved best-made of all five principal brands. So reach for a Lucky. Enjoy the cigarette that tastes better! Be Happy—Go Lucky! Buy a carton today!

L.S./M.F.T.-Lucky Strike Means Fine Tobacco

When politicians rave and rant,
I just sit back and gloat,
For better-tasting Lucky Strike
Will always get my vote!

Looking Around...

with Jack De Rose

March 17th is coming. Do you know the importance of that day? It's the birthday of charming VIIVE PREEES. Oh, yes, I almost forgot -- it's St. Patrick's day, also. Two great people commemorating the same day. I won't tell you how old Viive is but she's just leaving her 'teens.

Celebrating this joyous occasion will be BOB O'DEWBERRY, JERRY O'RUDOLPH, JOE O'GORSKI, ROSE and CHARLOTTE O'ITALIANO, and that new addition from the Gilboy clan, LEONA O'GILBOY. They'll all be decked out in green. (It had better not be "red" or they'd be investigated by a senate sub-committee.)

Borrowed from IVAN SLAPSOLE:

A woman is a funny animal;
She screams like a demon on seeing a mouse
And purrs like a kitten when a wolf's in the house
To understand the phenomena of science
"My cup runneth over" with self reliance
But the easiest way to start my head swimmin'
Is tryin' to understand these dog-goned women.

Hats off to LEW MIRAGE, president of the freshman class, for a fine job done on the freshman dance. I wasn't there, but from what I heard, there was a great turnout, and even some upper-classmen were present.

Whenever you telephone the college, the sweet voice you hear saying "Youngstown College" is that of SALLY CONNELLY. She is our full-time operator and can tell you the phone number of any student or faculty member as well as give advice on love, income tax, etc. etc.

There aren't so many cigarette (pardon the expression) "butts" strewn around the school lately. Some people take the Lenten season seriously. DICK JACKINICH quit smoking, JOHN BOBKO stopped playing cards and LARRY O'NEAL won't do any swimming at all during Lent. BILL MARTIN quit studying and STEVE POMPURA refuses to smile at girls. Ah! these Lenten sacrifices!

Whenever someone new transfers from another school or enrolls as a freshman here at Youngstown College, NANCY O'CONNOR is on hand to introduce him (or her) to me. The newest attraction is a couple of sisters called MARGE and TERRY SCHLUEDER, two lovely blondes transferring from Notre Dame in Cleveland. Welcome, girls, and may your days at YoCo be happy ones.

DON MCBRIDE came to me the other day and demanded to know why I don't say too much about the girls in the business school. I told him that I was sorry and that if he would write a few pages on the subject I would be glad to print them. He answered, "You BET I will!!!"

Here is what he wrote:

"Our business school might look old and gray from the outside but Oh Boy, when you see such beauties as NANCY FERGUSON, JAN JOHNSON, and the VARLEY twins it looks awfully young!I'm sorry, Jack, I didn't realize it was such a big job. I can't think of another thing to write...."(Now do you see what I have to contend with?...J.D.R.)

Now to finish this before the editor jumps down my throat. MIKE TIRPAK has a polka band that's very popular around this area.... WILLIAM JEFFERSON, with the Globe Printing Company, printed the tickets for the senior banquet entirely free of charge. Thanks, Jeff....JOHN YAKUBOVIC found out it's pretty costly to go to a rush party....Joe Grohovsky is the father of a six pound baby girl. (He's none the worse for the experience) ...Did you know that BERNIE RAGAZZO'S last name means "boy"? Bernie Boy.... Sounds nice..Congratulations to Pan-Hel queen FRAN RESTELLI.

Students Produce One-Act Plays

by Marilyn Amey

Next week on March 21-22 three one-act plays will be produced in the Strouss Memorial Auditorium directed by three promising young directors, Ed Cunningham, Jim Shaeffer and Andy Vargo.

Ed's production "Balcony Scene", by Prof. Donald Elser, is a fantasy in which a man attends his own funeral and discovers what his so-called friends really thought about him.

"The Idol and His Girl" (director- Jim Shaeffer) by Ferenc Molnar is a comedy about an extremely jealous actor who is a complete ham. "His girl" through the one-act never forgets that she is first of all an actress.

The third play, "The Flattering Word" by George Kelly under the direction of Andy Vargo is another comedy. An actor comes to visit an old flame of his who is now the wife of a minister. This play was written about 1918 with the location in the city of Youngstown.

Ready New Play

"Petticoat Fever" by Mark Reed is now in rehearsal at the Canfield Playhouse. This play should not be missed. The leading man, played by Jim Shaeffer, hasn't seen "a woman for six months, a white woman for a year, and a beautiful woman for two years, "consequently, very funny situations arise when his solitude is invaded by an English nobleman (Ed Cunningham) and his fiancée.

Joe Flynn, the director, is doing a marvelous job. His expressive little gestures he is clearly convey and point up the meanings of the lines. Don't fail to be at the Canfield Playhouse sometime next week.

Now to the Movies-----

There is only one movie upon which I wish to comment. It was recently shown in town for three weeks. Why I don't know. Certainly not too many people could have found it so extremely entertaining.

Not That Good

Some have commented that Peter Ustinov portrayed Nero so magnificently that he deserves an academy award. He did do a fine job, but it was certainly no strain on his acting ability for he acts very similarly, but less wildly, in "Odette".

As for Deborah Kerr and Robert Taylor -- they must have been conserving their talent for

the future. They certainly didn't spare any here.

The role of the cynical Petronius stands out as the only part deserving of praise; however, the lions were appropriately ferocious.

The photography was excellent. The burning of Rome, the mauling of the Christians by the lions, and Buddy Baer's struggle with a bull were the high lights of the film. These episodes are the only commendable things in the whole production.

Space Journeys Use Star-Gasing

by Nancie O'Connor

Climb into my time machine and you and I shall take a jaunt off into space. I know the machine is small but pin your nose upon the glass window and I'll pin mine to yours and I'll set the clock.

I know you have a class in an hour but don't worry, we'll be back in three seconds. A second lasts one month in space so we'll spend one second finding our destination, one second to visit, and one second to return. I'm sure in one second we can cause enough trouble that they won't forget us easily.

Simoniz your watch, fasten your hair bow and swuuuuuuuusssh--we're off like a dirty shirt. Look! There goes the moon by -- If nothing else we're getting higher up in the world. There's the Milky Way! Did you bring your life preserver? Oh well, then we won't stop.

Destination Distant

The machine has stopped. We must have flew into a destination. I just checked the gas gauge and we're out of gas. Now we're suspended in space -- I wonder if there's a gas station around? You don't know? You not very smart!

You haven't said a word. Open the window and grab some of those stars that are turned off during the day. They say they're balls of gas so I'll stuff them into the tank. That scientist, named Frankenstein must

Ault Speaks to OSPE Meeting

(Continued from Page 3)

Klipeck and Lawrence D'Amico.

Announcement was made at the meeting of the appointment of John Bell as secretary-treasurer of the State Student Council of the Ohio Society of Professional Engineers. Bell, a junior mechanical engineering student, and Eugene Tars-shawty were two local delegates to the State Student Council meeting held at Ohio State University recently. Prof. Frank D'isa is faculty adviser to the Youngstown College group.

have been right because we're off again.

Look! There's some flying platters Ha, ha, and they thought they were saucers on earth. Wait until I tell them. Crunch, slush, crack, bang, air, air, -----Get out of here, you stupid passenger! You're taking too much air and room. (I bet you're glad you didn't come along with me?)

I'm going to be rich, have fame, and I'll have it all to myself. Oh! I'm out of gas again ---- Hey you, grab another star. I forgot --- I threw him out a few spacelits ago. What? The stars within reach have all fallen. I'm suspended in air. Help me and I'll take you for a ride in my time machine!

What To Use?

Mother Knows

It happened in Michigan, where they have a sales tax. A little girl, not more than six years old, was on an errand to the neighborhood notion store to get some diapers for her recently-arrived baby brother. She took the package the clerk handed her, gave him some money, and started to leave.

"Just a minute, honey," said the clerk. "You forgot the tax."

"Oh, don't bother!" replied the little girl. "My mommy always uses safety pins."

-Earl R. Ranes.

Sporting Views

by Danny Michaels

Now that the regular basketball season is over, and there has been a cut in the spring athletic schedule, it looks as if there will not be too much happening here at Yoco until football starts again in the fall. There are exceptions to this, however. For instance, at the moment, Intra-Mural basketball is providing a great many interesting moments. Generally, the level of play has been good, with enough evenly matched teams to make the action more interesting.

The same goes for I-M bowling. This year's race has been especially close and hot, with the Phi Sigs taking the first half crown, and fighting desperately for the second half title. If they can make it, it will be the third straight year that the Phi Sigs have won. No other club can make this statement.

More For Majors

Since it looks unlikely that there will be much baseball around Yoco this spring, the interest in Major League ball will probably increase. One subject that has become a favorite topic already is what Bill Veeck will do with the usually hapless St. Louis Browns. Our guess is that he may surprise everyone in the baseball world by bringing a good team back to St. Louis.

This is more likely to be true if Marty Marion can get back any of his old form, and if Veeck can come up with a good second-base man to work with the former Cardinal manager. If this happens, the Browns will have a vastly improved infield, especially if the newly acquired Dick Kryhoski can learn to finish a season like he starts it.

Still Weak

Of course, the rest of the team will still be pretty weak, and Veeck has not as yet come up with any good outfield prospects. But the pitching staff should be at least adequate this year. Carver is good for another 20 game season, and Tommy Byrne looked very good toward the end of the last campaign. Besides, Al Widmar has been improving steadily, and with the addition of "Sugar" Cain, the Browns should be able to rotate four good starters, something that they could accomplish last year.

Last but not least, Rogers Hornsby, the Browns new manager, should put more spunk into what has been a sad-sack team. Or perhaps the big thing will be playing for Veeck. Now, the Browns can feel that, if they play hard, they may be paid well, and stay with the club, instead of being kicked around the league, and for peanuts. Anyway, the Browns may be the team to watch this year - not for pennants, but for surprises.

Cleveland Cagers Play Local Frat

Omega Psi Phi basketball team will play host to Cleveland Omegas, Saturday night March 15, at the West Federal St. YMCA. Game time is 8:00 p. m. The game will be the first of a two game series between the chapters.

The Cleveland team boasts two

Western Reserve basketball players, and is carrying a 1-2 record. A victory will even up the record. The locals will be seeking their first victory.

The game is a benefit game to raise funds for a Scholarship Fund to be set up by the chapter at Youngstown College. Donation for the game is fifty cents. Tickets are available from members of the Frat.

J. Paul Sheedy* Switched to Wildroot Cream-Oil Because He Flunked The Finger-Nail Test

POOR SHEEDY was in the soup with a turtle named Myrtle. "I'm in a tortizz," he wailed. "What shall I do?" "Well, it's your messy hair that parts you from all the girls," his roommate said. "Better get Wildroot Cream-Oil! Non-alcoholic. Contains soothing Lanolin. Relieves dryness. Removes loose, ugly dandruff. Helps you pass the Finger-Nail Test. Paul got Wildroot Cream-Oil and now he's out turtle-necking all the time! So don't stick your neck out... get some terrapin-money and hurry to the nearest drug or toilet goods counter for a bottle or tube of Wildroot Cream-Oil. And ask for it on your bare at your favorite barber shop. Then you'll really be in the swim.

Cronin Says Recall Will "Strike Out" Bosox' Williams

Red Sox General Manager Joe Cronin, commenting on the service recall of Ted Williams has stated that he thinks this stretch of active duty will be the third strike on the Boston slugger.

Joe says it will be nothing short of a miracle if Ted can make a comeback in 1954 when he gets out of the service.

Williams, baseball's highest paid slugger, has been recalled by the Marines. His physical examination comes on April 2, and if he passes, he will go on active duty starting May 2. The injury he sustained in the '50 All-Star game and the resulting surgery which have impaired the mobility of his left arm may keep him out. However, he says that he is going to go through with his spring training and let come what may.

Played Ten Seasons

Ted cost Thomas Yawkey, of the Red Sox, \$25,000 in 1939. He has played through ten seasons and is said to have received over \$600,000 for his services. He was out of baseball and in the services during the '43, '44, and '45 seasons. The Major League's last .400 hitter - .406 in '41 - has been the American League batting champ four times, '41 (.406), '42 (.356), '47 (.343), and '48 (.369).

He has played in 1,421 major league games, made 1,753 hits, scored 1,273 runs, driven in 1,241 runners, and has a total of 325 homers. His top year for home runs was 1944, when he made 43. And last, but not least, he was voted the American League's most valuable player twice.

THE NEUTRAL CORNER

by Suarky Parker

Any week now, Sports Editors all over the country will turn into "Great Wizards" on events to come each will choose for their respective magazines or newspapers, the final standings in the Major League Races.

I think that I'll jump the gun and go ahead to pick the winners before the tide begins to roll.

After reading several sports magazines and especially the Sporting News, I think I'll go along and stay with the Boston Red Sox for another year.

Varsity Hall Wins Basketball Finals

by Lou Chiaro

The Varsity Hall cagers edged out the Swish team, 38-37, to win the Intra-Mural basketball crown. Pat Connelly of Varsity Hall won the individual honors with a season high of 107 points.

The I-M race, which was divided into the Chestnut and Walnut leagues, had a fast-moving season this year, featured by fairly close races in both divisions. Over the regular season, the final standings were as follows:

Walnut League		W	L
1. Varsity Hall		7	0
2. Kappa Sigs		6	1
3. Sigma Sigma		5	2
4. Newman Club		5	3
5. Golden Bears		3	5
6. Dynamo		1	5

Chestnut League		W	L
1. Swish		7	0
2. R.O.T.C. No. 1		6	1
3. Phi Gamma		4	4
4. Fighting Bears		3	4
5. Nu Sigma Rho		2	5

The first four teams of each league participated in the Shaughnessy play-off. In the first round play, Swish beat Newman Club 36-29, and the Kappa Sigs downed the Phi Gams 41-25. Varsity Hall swamped the Fighting Bears 44-24, and ROTC beat Sigma Sigma 42-31.

Easy Winners

In the semi-finals, the Swish topped the Kappa Sigs 45-35, and Varsity Hall again romped to an easy victory, this time over the ROTC, 55-35.

In the final game, Varsity Hall had to fight hard to eke out a 38-37 margin over the stubborn

Findlay Smashes Tournery Hopes

The Yoco basketball squad missed a chance for a berth in this week's NAIB Tournament in Kansas City by dropping a 72-70 decision to Findlay College's Oilers at Delphos, Ohio, March 6.

The Penguins played without the services of playmaker Walt Brian, who had the "flu" and for the final five minutes without either Hemon or Craig, who fouled out. At that, the game was close all the way, with YoCo losing out in the last 25 seconds on a shot by Oiler center "Herk" Wolfe.

The six-foot-seven-inch Wolfe was the big gun for the victors, dropping in 26 markers. Mike Magula paced the locals with 24 points.

Yoco made the Kansas City tourney in 1943, but was eliminated in the first round. The defeat by Findlay made it a 16-7 season for Coach Dom Rosselli's squad.

Swish Quintet. Connelly, who also took season high point honors, and Blanders were high for Varsity with eight points apiece. Thomas and Vostal each had 10 points for the losers.

Newman Club Takes Bowling Honors

The I-M Bowling race continued to be a hot one with the Newman Club moving into undisputed possession of first place behind Zill's 520 set. Three teams, the Phi Gams, Kappa Sigs, and Independents, are tied for second place with identical 13-8 records.

The Phi Gams defeated the Kappa Sigs with Hurtuk displaying consistent good form to turn in a 556 series. The Independents kept their hopes alive for a second half victory by downing the Sig-Sigs 2-1. Steele was high for the Independents.

Get In Shape

The Phi Sigs, first half champs, had a bye, and took advantage of it to get in shape for the next round. They now have a 12-9 record.

Starting Sunday, the matches will be held upstairs in the Champion alleys, starting promptly at 12:30. Members are urged to be on time, as other leagues are waiting for the alleys.

The only change in the individual

ATTENTION

"Those interested in participating in spring Intra-Mural sports should begin to organize their teams now," says Penguin Coach Dom Roselli. With the absence of regular spring sports, Roselli explained, the accent will be upon the Intra-Mural competition. A softball league will be started soon, and there will also be tennis and golf matches arranged.

standings saw Zill move into first place with a 170.47, while Vross is second with 170.21.

I - M Bowling

Team	Games	Won	Lost
Newman Club	21	14	7
Phi Gams	21	13	8
Kappa Sigs	21	13	8
Independents	21	13	8
Phi Sigs	21	12	9
Sigma Sigma	21	10	11
R.O.T.C.	21	10	11

To Remember

Babe's Homer

Babe Ruth's first homer, made as a member of a professional team, is to be commemorated on April 4th and a marker set up to mark the

event and place for posterity

The Babe made this homer when he was a rookie with the Baltimore Orioles in 1914 when the team stopped off in Fayetteville, N. C. for an exhibition game.

Art Department Holding Exhibit

(Continued from Page 1)

Student Council on behalf of the students of the college to the college student exhibiting the best work in oil. Letters of commendation will be awarded for first, second, and third places in oils and watercolors, and for first and second places in design, drawing, textiles, jewelry, and advertising art.

The judge of the show will be Professor Robert Iglehart, chairman of the department of art education, New York University. Iglehart will give a talk on art at 8 p.m. Mar. 14 at the Butler Art Institute to which the public is invited.

THE NEUTRAL CORNER

(Continued from Page 7)

The main reason in picking the Bosox is, - Walt Dropo. Why, he alone will lead the way for the Boudreau Boys.

For him I have written these few lines of Verse.

I hope you folks don't think me loco

Because I root for big Walt Dropo To me, he sure is quite a player I think he should be Boston's Mayor

Besides that he is big and stalky

Assisted to Honors

On March 21, 1897, Zebulon Pike, after whom Pike's Peak is named, became the first American to enter El Paso, at that time a Spanish post in the present state of Texas.

However, he did not gain the honor without assistance. He was brought to El Paso as a prisoner of the Spaniards, having been arrested for exploring in their territory.

He'll hit this year for 'ole Tom Yawkey

So please don't write and tear me down

Cause this year Dropo's going to town.

Now back to the world of baseball and Snarky Parker's 1953 selections:
