

Noreen Bennett Elected New Council President

Student-Faculty Talks Enter Third Semester

Student-Faculty talks will enter their third semester at Youngstown College this coming week when the first lecture will be given at 11 a.m. on Tuesday, February 8, in the audio-visual room of the college library.

These talks are designed to provide both students and faculty with an opportunity to hear members of the college faculty speak on topics connected with their specialized fields of interest.

According to Dr. Charles A. Evans, head of the Student-Talk Faculty Committee, they provide all college students and faculty members with the chance of hearing experts speak on interesting subjects that are based on years of study.

Held Every Other Week

Following the first lecture, succeeding ones will be held every other week, or on the even week of school.

Coach D.V. "Dike" Beede, head football coach of Youngstown College.

Prof. Robert L. Miller, Dean of the School of Business Administration.

Prof. Jon Naberezny, head of the Art Department.

Prof. Margarita Mills, of the Language Department.

Dr. Walter E. Mayer, head of the Department of Psychology.

Prof. Verne Bullough of the Department of History.

Dr. Eugene D. Scudder, head of the Department of Chemistry.

Prof. Donald Elser, of the Speech and Dramatics Department.

Fuzer Retires As Nu Sig Prexy

Ed Fuzer, president of Nu Sigma Rho Fraternity of Youngstown College will be succeeded by Chuck Koutsourais, an English Major in his third year at Youngstown College.

Fuzer, a January graduate of the college, was a chemistry major.

One of Fuzer's contributions to Nu Sigma Rho activity was formulation of the "Jazz In Concert" idea. A Jazz Concert was held last spring by the fraternity.

Fuzer is credited by his fraternity brothers with devoting his four years at Youngstown College to helping and leading Nu Sigma Rho.

MORE RIFLE TEAM MEMBERS ARE NEEDED

Opportunities are open for the Youngstown College Caliber .22 Rifle Team. All enrolled students of Youngstown College are eligible. Interested students may report to the National Guard Armory on Rayen Avenue. Practice is held every Monday, Tuesday and Wednesday at 2 p.m. No prior experience is needed. Rifles will be furnished team members.

Newman Club Meets Sunday

Mardi Gras Plans Made

A Newman Club meeting will be held this Sunday, February 6, at 7:45 p.m. in the Catholic Action Center at 141 W. Rayen Avenue. The Rosary will be said prior to the business meeting. Following a discussion of current religious problems, refreshments will be served and dancing will be held.

At the meeting members of Newman Club will be assigned to different jobs on the Newman Club sponsored Mardi Gras, to be held February 19.

Would Appreciate Help

Decorations Committee Chairman Barbara Brezoveck has announced that she would appreciate all possible help on decorating the dance floor at Stambaugh Auditorium.

Ross Halamay and his band will furnish the music for the tenth Annual Mardi Gras, which will be open to all students of Youngstown College.

CHANGE OF OFFICES

From now on the JAMBAR and NEON Offices will be combined in one office, Room 22, Second Floor of Pollock House.

Noreen Bennett

Drama Guild Nominates Its Officers

By MarriAnne Bartik

Nominations of officers of the Youngstown College Drama Guild was held last Wednesday, February 2. Apprentices were also voted on.

Results were not known by press time but they will be published in the next issue of the JAMBAR.

It was decided that the one-act plays will be held either on February 24, 25, 26 or on March 3, 4, 5.

Anyone interested in backstage work (make-up, scenery and curtain-pulling) should leave their name and telephone number on the bulletin board backstage of the C.J. Strouss Memorial Auditorium.

Egotist - A person of low taste, more interested in himself than in me.

Chugden Named Vice-President

Noreen Bennett has been elected President by Student Council to succeed Tom Lavin, last semester's president. Miss Bennett was chosen at a council organization meeting held in Tod Hall, January 21, 1955. She will begin her term in office at the first meeting Friday, February 6, 1955.

Miss Bennett, second co-ed to be elected president has expressed her views and policies that are to be discussed during the Spring semester. May Day Dance, the Junior Prom and the Bare Brunch are the climaxes of forthcoming social events.

In relation to the new Student Union, Noreen states the issue is up before council and council will appoint a committee to investigate the matter further. However, Miss Bennett is hopeful about the Student Union and feels it will be built either on campus or in the basement of Tod Hall.

Wishes To Remind

She wishes to remind the organizations on campus that went inactive last semester to have their report forms in before February 20, or they must remain inactive again this semester.

Miss Bennett also states council is trying to reconstruct a Leadership program, which would consist of Council's obtaining names of all interested freshmen. The committee would then place them in various organizations.

Embarrassment - When you order something on the menu and find that the orchestra is playing it.

New Student Council officers were recently elected for the 1955 Spring semester. Noreen Bennett was elected president; Jack Chugden, vice-president; Nancy Williams, secretary; and Jerry Missory, treasurer.

The officers were appointed at the last meeting January 21, and will take their offices at the first meeting, Friday, February 6, 1955 at Tod Hall.

Appointments of committee members and committee heads were also made. Discipline Chairman, Jay Troy, members, Nancy Puskar and Marilyn Whiteacre; Constitutional chairman, Howard Martin, members, Lou Gossick and Edward Maykowski.

Finance chairman, Jerry Missory, members, Harry Fry, Gerald Pratt and Gilbert Marsh; Activities, chairman, Bill Moore, members, Don Seely and Neil Beard; and National Student Association chairman, Dick Troxell, members, Frank Foster and Jim Pedorchak.

The new president, who is currently staying at Buechner Hall, originally comes from Chester, West Virginia. She is a junior and an education major.

Besides being on Council, Miss Bennett is a member of Alpha Pi Epsilon Service Sorority, Omicron Lambda Honorary Biology Fraternity and a member of Who's Who for 1954-1955.

This will be her fourth semester on Student Council. She previously was Chairman of the Constitutional Committee.

Clarett, Haring Give Recital

Shirley Clarett and George Haring recently appeared in a joint recital in the C.J. Strouss Memorial Auditorium of Youngstown College.

Miss Clarett, who is a Sophomore majoring in piano, played numbers by Bach, Beethoven, Chopin, Arthur Foote, Alexander Tcherepnin and John Alden Carpenter.

Mr. Haring, who teaches at the Strouss Hirschberg Music Center, is a Sophomore majoring in trumpet. He played selections from the composers Fr. C.D. Haeyer, Eugene Bozza and Fernand Goeyens.

VOLUNTARY RIFLE SHOOTING OFFERED TO ALL ROTC STUDENTS

Voluntary Caliber .22 rifle practice is now available for all Youngstown College ROTC cadets, at the National Guard Armory on Rayen Avenue every Monday, Tuesday and Wednesday from 1 to 5 p.m. No equipment is needed. Everything will be furnished by the ROTC.

NEON Nears Completion Will Be Out Early In May

How's the NEON coming along? "Fine", says 1954-55 Editor Joe Shagrin. "All pictures have been taken except the dances being held in February. All pictures, except senior photos, have been sent to the engravers."

All copy is in except for "a few delinquent fraternities and sororities who have not turned in their write-ups." Shagrin added that covers for the book have been ordered and are being made up now.

"The first two sections of the book are being printed and the complete book is expected at the printer's by March 1. Publication will be done in late April. As of now, the NEON will be distributed during the first or second week of May."

An appeal is being made by the Editor for help from students in picking up advertisements that are contracted for but have not, as yet, been picked up.

Taking a moment to rest are (l to r) Jack Chugden, Sports Editor, and Joe Shagrin, 1954-55 editor of the NEON. Shagrin and his staff began preparations as early as last July, to see all phases of activities at YoCo were covered completely.

Student Council Choices

During the interim period between semesters, Student Council held election of officers. Noreen Bennett was elected President.

The JAMBAR would like to discuss Miss Bennett's election and also Council member Howard Martin's appointment as head of the Constitution Committee.

Miss Bennett's election is unique in that she is one of the few of her sex to be elected to this high office. She was head of the Constitution Committee of Council last semester.

She discharged that office in an extremely capable manner and her firmness in regard to the matter of declaring inactive campus organizations who had not turned in their annual report forms was quite evident.

As we job as President. But she is an independent. This fact alone may be the source of some trouble this semester. We certainly hope not.

In our last issue we wrote an editorial expressing the hope that perhaps we had seen the last of rivalry between Greek organizations. Because the new President is an independent, she may be able to lead a council composed essentially of Greeks, and it may be possible that she can better guide Council without allegiance to any specific sorority.

Howard Martin's appointment is of great significance. The Committee he heads has charge of making any changes in the Constitution, as the by-laws of Council may not be waived.

Martin served with Miss Bennett on the Constitution Committee last semester, and his election as head of the Committee reflects his good record of the past.

But Martin too is an independent. The same we said about Miss Bennett applies, we believe, also to Martin.

We are just beginning a new semester. We trust that all the members of Student Council will be able to discharge the duties of their high office with honesty and efficiency.

We trust that they will all constantly keep in mind that Student Council exists only to represent the Student body of Youngstown College.

What About Sportsmanship?

It is difficult to criticize the refereeing at most college basketball games. The officials who are chosen are reliable men who are experts in their field. However, every now and then the poor officiating must be brought to light in order to keep certain officials on their toes.

Many of the students here at YoCo will have a hard time forgetting the officiating at the Steubenville-Youngstown game. The sportsmanship displayed by Steubenville and the officials reached a low ebb.

How in the world two men, with years of officiating experience behind them, could miss calling to attention some of the unsportsmanlike conduct committed by the center of the Steubenville team will never be known.

When officials are receiving a salary to officiate a fair game, it is only right that they do so. We realize that sometimes the play in a game is so heated and fast that it is very difficult to catch all of the fouls committed. But the evidence can be seen right here on our campus, by the limping and swollen faces.

Naturally a 6-6 giant who totes around 240 pounds on his frame is not going to be the most agile man on the court and is expected to throw around a few elbows, but certainly not with the power and force that were behind those thrown by Steubenville's center.

This is not a blast towards the officials but only an appeal asking for fair and equal officiating, whether for or against YoCo. Let's keep our eyes open, refs.

J.S.

Record Collection

Available In Library

The Youngstown College Library is an innovation in itself and an evidence of progress to be flaunted before complainers. The newest opportunity afforded the students of YoCo by their library is a collection of long-play record albums available on a lending basis.

This service will provide a means of acquiring cultural and educational development, combined with just plain enjoyment.

Selections at present are few, in this recent addition to the library, but there is something to interest every individual, ranging from standard semi-classical or popular show-tunes to lovely classical music which most of us have heard but never actually listened to.

This is not only a windfall for habitual music-lovers but has the promise of being of much wider scope. Mr. Pirie, who is in charge of the library, has suggested that, with sufficient interest, the collection may eventually be expanded to include well-known plays and poetry.

Further and more complete information on this project will be supplied by the library. So do yourself a favor and ask about it.

R.J.S.

Photopinions

by Jo Anne Gioglio

Question: What do you think of the idea of having a Student Union in the basement of Tod Hall?

Joseph Santangelo - Jr.

Though this campus is badly in need of a Student Union, the library basement is not a good location for it. It would not be centrally located, noise would necessarily be limited, due to the building's construction and there is a possibility of cramping the library in the future.

Beverly O'Neill - Jr.

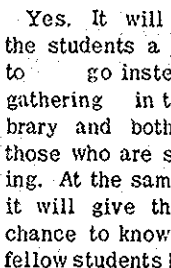

The purpose of the Student Union is to increase school spirit and give the pupils a better chance to become acquainted. I think the library is a wonderful place to set up a temporary Student Union to discuss school work, to have social get-togethers, to talk and relax. Since there is no building for this purpose now and there are organizations supporting the Student Union with their time, it'll have to succeed.

Jack Shaffer - Soph.

I think the basement of the library is an ideal place for a Student Union. It is centrally located and is large enough for such a place. A Student Union would supply a much needed phase of college life at Youngstown College.

Judy Barrett - Fr.

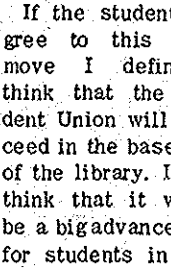

Yes, it will give the students a place to go instead of gathering in the library and bothering those who are studying. At the same time it will give them a chance to know their fellow students better and create a fuller appreciation of campus life which so many of the larger schools have.

Don Phillips - Jr.

The building was built to be a library so let's keep it as one for in the future the space in the basement will be utilized for library purposes. The construction of the building is such that the adaptation of the building to a Student Union would be unwise. The library basement is not usable for the students going to and from the basement. They could not go through the main floor of the library. They would have to enter through the door in Tod Hall.

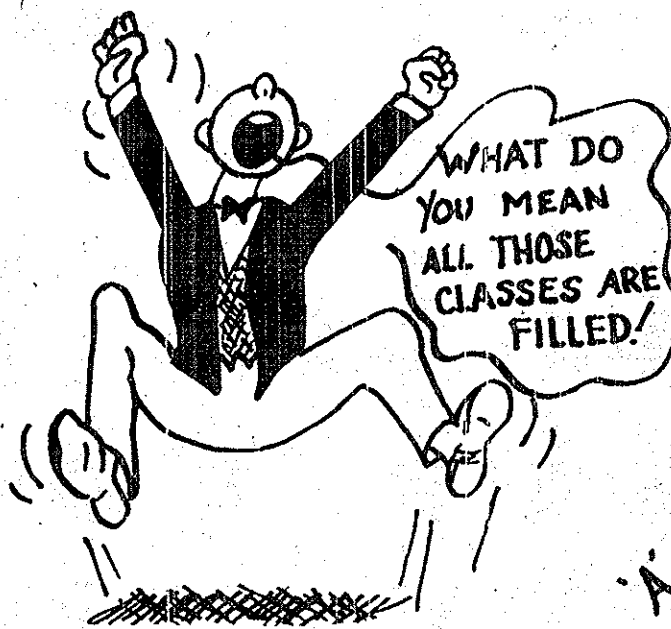

Barbara Neisen - Fr.

If the students agree to this wise move I definitely think that the Student Union will succeed in the basement of the library. I also think that it would be a big advancement for students in that it would create more friendships and at the same time bring about much needed recreation.

Itches - Something that when both hands are full, your nose always.

- Sour Owl

With the ENGINEERS . . .

And there you are! Whoever said "the first year is the hardest?" Sure got their information from the wrong instructor.

From the boys in the back room comes the story that Ray McAlhse is operating a "black market test" ring out at Niles. An investigation squad headed by Warren Stark tried to catch him in the act the other night but heavy snows prevented any action being taken. Three cars were seen to leave the hideout in the early hours of the morning.

That Engineering display sponsored by the O.S.P.E. seems to be coming along in fine style. If they could only make up their minds what idea to use - they'd be all ready to go. Tony Giangardella's idea of a combination electronic nose wiper, shoe lacer, and old chewing gum preserver almost caused a riot and just about got him impeached.

What Happened?

What happened to all the boys who were rushed by Mu Pi? Now that the initiation fee has been collected, we understand the heat is off and a lot of nothing is being planned. It is hoped this will be a big success and if everything goes alright, more of the same is planned for next year.

And we are overjoyed to the point of exhaustion to hear that the Radio Club is back in business. Someone looked in the radio room, saw the transmitter in pieces on the floor, grunted, and walked out. But at least it's progress!

We understand that next year we are to follow a new policy. Everyone having an average of thirteen (13), or above is automatically excused from the final. Nothing like making things tough!

Did You Notice?

Did you notice the looks on the poor souls standing in the line for registration this week? I've figured that it takes on the average of 10,800 seconds to go through the line; 62 seconds for the girl to add up your bill (with a sinister sneer that would scare Peter Lorre); and 4/3 microseconds for the cashier to relieve you of your money, check the serial

numbers on all the bills, and inform you that you are \$24.14 short.

After paying through the nose, (which can be very injurious to the health), I have decided to go into the book selling business. Books for all engineers at 97% off.

Just send me your grandmother and the top off your refrigerator and I'll give you my address.

Modern man will stand for almost anything but a woman in a bus.

"Experience Is The Best Teacher"

Many of the students at Youngstown College do not know anything that goes on around here but what happens in their classes. A college not only offers courses and a diploma but also offers the chance to all students to put their talents to use in many diversified extra-curricular activities.

One of the more practical and valuable of these activities is the student publication the NEON. This is a man-sized job but no where else in school can a student spend his time and effort more wisely. It is nearly impossible to realize the many new acquaintances that can be made or the possible future connections that can be acquired.

The NEON is still considering applications for 1956's editor. The job is open only to full time students with an accumulative average of 1.75. This year's editor will prepare the future editor for this position, thus making his job that much easier.

The Student Council will vote in May for the Editor, so hand in your application now at the Neon office, Room 22, 2nd Floor, Pollock House. A scholarship will go with the job, but as of now the extent of the scholarship is not known.

Consider it, fellow students! You can not make a wiser choice as far as extra-curricular activities go.

Industrial Exposition To Be Held Feb. 28 70 Companies To Participate

The seventh annual Industrial Exposition will be held in Stambaugh Auditorium, Youngstown, Ohio from February 28 through March 11, 1955. It will present the progress of 70 diversified industries and businesses of the Mahoning and Shenango Valleys in featured displays.

Announcement of the 1955 Industrial Exposition, which will be under the supervision of the Schools Advisory Committee of the Industrial Information Institute, Inc., was made today by William J. Sampson, Jr., president of the Institute and of The American Welding and Manufacturing Company, Warren.

Mornings and afternoons during the show will be reserved exclusively for the high school seniors who will attend in groups with their teachers.

Open to the Public

The show is to be open for the public, without admission charge, during the afternoon and evening of March 5, Sunday afternoon March 6 and each evening from 7 to 11 p.m., March 7 through 11.

The purpose of the Exposition is to present for the high school seniors of the city of Alliance and Columbiana, Mahoning, Mercer and Trumbull counties the economic and vocational opportunities which are open to them right here at home. The Exposition is a supplement to classroom studies of community resources developed by the Schools Advisory Committee.

Members of the Junior Chambers of Commerce in the member cities will be in charge of the reception and routing the student groups throughout the run of the show.

Held in Stambaugh

Both the auditorium and the lower exhibition hall will again be used for the 1955 Industrial Exposition according to R.B. Collins, director of the Institute and manager of the show.

Special motion pictures will be shown in the auditorium and the exhibits of the industrial and business concerns, as well as those of several schools, will fill the lower hall.

The Guidance Administrators Committee of the Institute, made up of school guidance counselors and administrators, will present vocational guidance information for the visiting school seniors. The Vocational Guidance Committee will coordinate the information selected by the school administrators.

Working Models Displayed

Once again working models of many machines and processes of the industries of the valleys will be on display to show the great advances which have been made in production methods and products.

Choruses from member companies of the Institute and community groups will sing during the evening stage shows.

Snuff - Stuff that if you don't feel well you're not quite up to.

Akron Leads In LEBC Matches

Akron Naval Air Station, with a 6-0 record, is leading in the Lake Erie Basketball Conference matches. Youngstown College ROTC is tied for third place with Akron University AFROTC.

The Youngstown Air Base holds down the second place listing. Youngstown College got off to a bad start, but several new team members are causing hopes to rise.

New cagers ready to go in the second round of the Conference are Jim Vecchiarella, Ron Stoops, Henry Smith, Tony DeAscentis and Tony Cougras.

Prospects Good

With the addition of Frank Beck and the coaching of Cougras, prospects look good. The ROTC has entered several local basketball tournaments which will begin the latter part of this month.

The ROTC now has new, red uniforms which were purchased with the \$125 appropriated them by American Legion Post 15, on Spring Street.

A meeting is scheduled today in Pollock House with conference coaches to discuss mid-season matters.

Frank Foster is team manager.

Vic Vet says

The top three in each league will play off in a single elimination tournament starting around the 21st of February.

LOOK! LOOK! LOOK! LUCKY DROODLES!

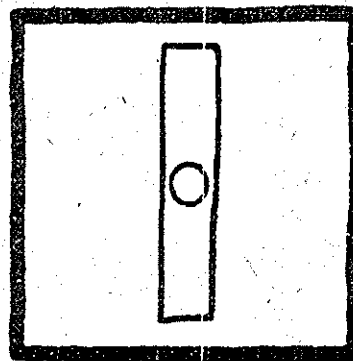

WHAT'S THIS?

For solution see paragraph below.

OBVIOUSLY, THE TITLE of the above Droodle is: 47 insectology students enjoying better-tasting Luckies while studying 3 fireflies. All kinds of students are bugs about Luckies. Matter of fact, college smokers prefer Luckies to all other brands--and by a wide margin--according to the latest and greatest of all college surveys. Once again, the No. 1 reason: Luckies taste better. They taste better, first of all, because Lucky Strike means fine tobacco. Then, that tobacco is *toasted* to taste better. "It's Toasted"--the famous Lucky Strike process--tones up Luckies' light, good-tasting tobacco to make it taste even better... cleaner, fresher, smoother. So, enjoy the better-tasting cigarette... Lucky Strike.

With the Greeks . . .

by Ella Clark, Joan Pavlov

With the start of a new semester and exams and grades in the past, the fraternities and sororities will start having more parties. At the present there are few being held. Due to the week in between semesters, we were unable to contact all of you for news so if your news isn't in this time, we'll be sure to get it in next time.

Most of the fraternities have just completed "hellnight" but there are a few that are still trying to shape up their pledges. This is the excuse that they have been giving their pledges.

February 13 is the date that the sororities will start their rushing season and about a month later you will see pledges running around in pink beanies, white hats, yellow knee socks and perhaps, even bunny ears again this year.

Pledge season may seem terrible during the time that you are participating in it but there is always one good thing that keeps the morale up, you'll be an active next year and you'll be able to boss around other pledges.

Held Box Lunch

On January 26, the Phi Gams and the Gamma Sigs held a box lunch at the Phi Gam Room. The money that was raised went to the March of Dimes campaign. Chuck Yeaton paid the largest amount, but he said it was worth it and the money was going for a good purpose.

So a tip for next year, Phi Gams, Cookie Korody makes very good chicken. The Phi Gams have also acquired a fraternity house on Bryson St.

The Phi Lams with the Phi Gams are presenting their annual "Sweater Dance" on February 11, in the Strouss Auditorium. Two sweaters will be raffled off, one for a girl and one for a boy. Stag or Drag, all are invited for 75¢ a person.

Pat Russo and his band will be playing. On January 24, a meeting was held at the Phi Lamb room with an ice skating party ending up with a 'pj party in Lois Jacobson's fabulous one room apartment.

The newest members of the Phi Lams are wearing their pins with the Phi Lamb Shield and Sword. Betsy McClurkin was elected Mardi Gras Queen.

Elect Prexy

The Nu Sigma Rho fraternity has elected a new president, Chuck Koutsourais. Chuck is an English major and is a junior. Coming back to Yoco after serving in the Army is Gil Prokop. Coming in the near future is their "Jazz Concert".

Joe Malenic, president of Newman Club and also a Sig Ep, was recently in the hospital, but is now recovering. Bill Nagy and Jack Hamley are still applying all their time to the Mardi Gras. This dance should be a huge success as it has been in previous years.

The Gamma Sigs will also have representative in the court of the Mardi Gras. Cookie Korody. Cookie was also an attendant last year. Maggie Docherty, one of those woman engineers, will be back at school this semester. A "PJ" party was held at Louise Sarville's house after the John Carroll basketball game. A birthday party was held for Helen Savic on February 2nd.

Knott's 28 Pace Penguins To Win

Tony Knott and Ralph Melfi combined for 51 points to lead the Rossellimen to a 95-76 victory over Alliance College Monday night. Paul Danilov made his initial appearance as a Penguin and chipped in with 14 points.

Miss Fink Appointed To Dana Voice Faculty

Miss Else Fink, who won fame in Europe as a dramatic soprano with a 45-role operatic repertoire and who can sing in 15 different languages, has been appointed to the voice faculty of the Dana School of Music of Youngstown College, effective with the opening of the new semester, January 31.

Born in Vienna, Austria, Miss Fink was playing the piano at five years of age, and singing from music at six. She gave her first recital when she was sixteen and at seventeen was a member of the Berlin State Opera. After two years with the company she began singing heavy dramatic parts in Wagnerian opera.

Miss Fink became a citizen of Czechoslovakia when she married in 1938, and a political refugee from that country with the outbreak of war in 1939. She was playing to audiences in Nice when the Germans marched into Prague, and her husband and family were executed by the Germans.

Sang in "Walkure"

In the summer of 1939, the dramatic soprano was singing in Wagner's "Walkure," with Fritz Weig on the coast of Belgium. In the fall she went back to France and had her own studio during the first war years.

She was hidden from the Gestapo by the French Underground in 1942 while a false set of papers were secured to make a flight to Switzerland possible. After walking over the border into Switzerland and waiting five months in a camp, her papers were finally cleared.

Miss Fink won fame in Switzerland for her role "Fidelio." She appeared in this role six months after Norway's Madame Flagstad, whom she considers the most important singer of her time, had four sell-out nights in the same role. She sang to 35 full houses, endearing herself to Swiss opera lovers.

Had Own Program

In Switzerland Miss Fink ran her own radio program, made recordings of Czechoslovakian folk songs and sang opera, besides appearing in more than 50 refugee camps.

She came to New York in 1947 where she began teaching again. She has appeared in recitals in Town and Carnegie Halls, in Miami Beach and

Miss Else Fink

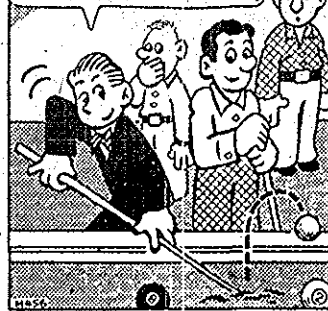

in eastern cities.

Miss Fink appeared in recital as a guest artist for the Dana School of Music in November. She has been teaching in New York and has been a visiting voice instructor at Ohio University, Athens.

Miss Fink has sung leading roles in opera and given recitals and radio performances in Germany, France, Switzerland and throughout Europe.

"You don't have to inhale to enjoy a Cigarillo"

Looking Around...

by Ray Schindell

Having survived another registration, (my last) my faith in the endurance of Youngstown College students has been renewed ten fold by what these tired old eyes have witnessed. I, gullible as ever, set forth to register for this semester clear-eyed and confident, with Mr. Nelson's voice ringing in my shell-like ear, (and you can't hardly get that kind any more.)

"With this new system no one will be in line more than ten minutes." I arrived at school, stopped to shorten my yo-yo string, once again nervously fingered by lunch money, which Mom had pinned beneath my undershirt, and while whistling a jaunty tune, I stepped into the library. A stern - "Use the other door you dummy" - shouted at me by Bob Craine and Warren Gurski - sent me scurrying around to the back door, where John DeLeo sent me to the basement with a well placed kick.

Chuck Dittmar picked me up and put me in line, and I waited it out. Then it was my turn - down wrong line. I washed my hands and went back out. I bumped into Shirley Granny, Mary Ellen Conlin, Mary Summers and Betsy McClurkin (M.G.Q.)

And believe me, that's darn good bumpin'. After about three hours I got up to the first table where they informed me that it was lunch time and would I please come back in an hour. I reached into my undershirt for my lunch money and it was gone - safety pin and all. I ate the undershirt, much to the amazement of Alma Mackin, Nancy Johnson, Shirley Pitts and Nancy Puskar, who murmured something about me being a slob (whatever that is, something good probably.)

Don Phillips, Lee Crisan and Dick Stebleton came up and started kicking me. Part of registration, I figured, so I smiled up at them and lost a tooth. I finally made it through, however, and signed up for the only classes that were left. - Bird watching and Volleyball - two real thrillers, I understand.

Seen working through registration and deserving of a plug for their fine job were, Betty Jean Maltchan, Hanna Moore, Louise Sarville, Dotty Dolan, Eileen Larson, Loretta Liptak and Marilyn (I'm glad because I need the money) Ervin.

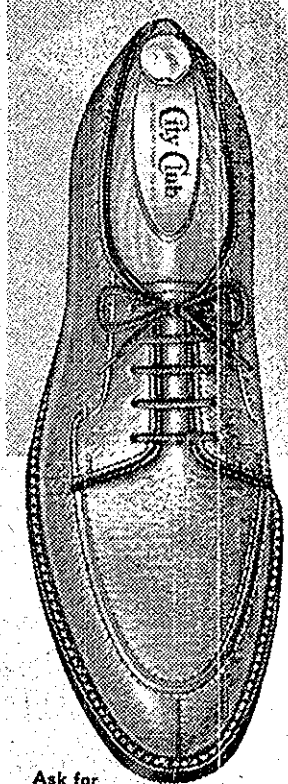

P.S. Everyone had a swell time at the Pan Hel Dance.

ROTC Graduates Stationed From Alaska To Germany

Youngstown College Army ROTC graduates of 1953 and 1954 are filling positions of leadership from Alaska to Germany.

First Lieutenant Alfred B. Colson of Warren, who graduated from Youngstown College in 1953, is a platoon commander with the 94th AAA Automatic Weapons Battalion, 2d Armored Division, in Germany. Stationed nearby is Lieutenant Charles Leo Coughlin, 1952 Youngstown College football team captain, now platoon commander with the 43d AAA Automatic Weapons Battalion, 9th Infantry Division.

Soon to join them in Germany is Lieutenant Thomas L. Waters, Executive Officer of a howitzer battery of the 3d Armored Cavalry Regiment, presently at Fort Meade, Maryland, but soon to travel to Europe under "Operation Cryoscope", the Army's unit rotation plan.

Lt. Bernard Zoldak, of Struthers, is presently undergoing the close combat phase of the Army Ranger Course at the Infantry Center, Fort Benning, Georgia, and will travel to Europe about March 15th.

Units Protect Bases

With Army Skysweeper units protecting overseas Air Force bases are Lieutenants Arnold Hume, and Paul Stebelton. Lt. Hume is in Iceland and Lt. Stebelton in Alaska.

Lieutenant Carl Mott, Jr., of Niles, is a battery executive officer of the 43d AAA Automatic Weapons, 8th Infantry Division, Camp Carson, Colorado. Lt. Mott has been selected to command an artillery unit in "Exercise Hallstorm", a deep snow exercise in the Colorado Rockies.

Lieutenants Joseph L.R. Mazur and Robert Pavilonis are stationed at Travis Air Force Base, California, and Ellsworth Air Force Base, North Dakota, with Skysweeper units defending Strategic Air Command bases.

Lieutenant Samuel Penrod is commander of an antiaircraft battery in the defense of the Pittsburgh area. Lieutenant William Petrusky will soon join the antiaircraft defenses of New York City.

Now Being Schooled

Eight officers who have been commissioned from Youngstown College ROTC are presently in school at the Antiaircraft Artillery and Guided Missiles Center, Fort Bliss, Texas, and three are students at the Chemical School, Fort McClellan, Alabama.

One of the artillery student officers, Lieutenant Phillip Folt Thompson, has gained recognition in the southwest as a member of the Juarez, Mexico, polo team. Lieutenant Robert P. Eunn will join other Youngstown College Graduates in school at Fort Bliss January 24th.

Lieutenant Lawrence Sisman will enter the Quartermaster School, Camp Pickett, Virginia, March 30th.

Other 1953-1954 graduates are stationed in antiaircraft units in the Pittsburgh, Philadelphia, and Chesapeake Bay areas, are in universities completing graduate professional or have not yet reported to active duty. All except those officers who have prior service will enter active service prior to June 30th, 1955, or upon completion of graduate studies.

They have devised a process of making wool out of milk, which only makes the cows feel sort of sheepish.

Teacher: "What is the shape of the earth, Willie?"
Willie: "It's round."
Teacher: "And can you give proof that it's round?"
Willie: "All right, it's square, I don't want any argument."

Miss Brown Is Home Ec. Dept. Head

Miss Brown

Miss Wilma Brown has been appointed head of the department of Home Economics, effective the beginning of this semester. She was assistant professor of home economics since her appointment to the faculty last semester.

Miss Brown attended Iola Junior College in Kansas, received her degree of bachelor of science in home economics from Kansas State College, and her master's degree in home economics from Ohio State University.

She is a member of Delta Kappa Gamma honorary teachers society and Omicron Nu honorary home economics sorority.

A Little Late, But He Made It

Lt. Richard C. Fees (left) is shown being sworn in last Monday by Lt. Col. Eugene L. Lash, PM-1 of Youngstown College. Due to illness, Lt. Fees only this past semester was accepted for his Commission.

A little late, but he made it. That's the story of Richard C. Fees, who was sworn in this Monday as a 2nd Lieutenant of the U.S. Army Reserve.

Lt. Fees was due to be commissioned and also to graduate from Youngstown College last June. However, during his physical examination, it was discovered that the Business Administration major had a pilonidal cyst. He was rejected because of this. During the summer the condition was

corrected and Fees applied a second time for his ROTC commission and was accepted this fall.

Sworn in by Lt. Col. Eugene L. Lash, Lt. Fees, a native of Youngstown, will leave in April to attend the AAA Guided Missile Center at Fort Bliss, Texas.

He will participate there in the Officers Basic Course in Antiaircraft Artillery.

Discussion Is Offered For Students, Faculty

Youngstown College, the Youngstown Public Library and the Board of Education are jointly sponsoring an adult discussion group on World Politics. The first program will be held Tuesday evening, February 8, at 8 p.m. and will be held each Tuesday night for ten weeks in the Public Library on Wick and Rayen Avenues.

All members of the student body and faculty are eligible but each group is limited to 32 people in order to provide all the participants an opportunity to express themselves. There is positively no propaganda or political bias in the purpose of the discussion groups.

Helps People Understand

The purpose is, rather, to help

people understand the complexities of world politics and to form independent, critical judgments on political affairs and public policy.

The programs are based on selected readings that provide a wide variety of points of view. These readings are designed for the average citizen who wants to understand the major issues underlying current affairs but who has limited time at his or her disposal.

Among the questions to be discussed are: What practical policies will avoid another war? Can Democracy and Communism peacefully co-exist? How can we best reconcile individual liberty and national security?

Father Petric Is New Advisor To Catholic Students, Newmanites

The new Catholic Student Advisor and Newman Club Director is Father Paul M. Petric. He replaces Father Arthur B. DeCrane, who is now pastor of the Immaculate Conception Parish.

Previously, Father Petric had been assigned temporarily to St. Patrick's in Salville, Ohio. The Most Reverend Emmet M. Walsh, Bishop of Youngstown diocese appointed Father Petric to his new post.

The new advisor was born in Youngstown and attended Ursuline High School. He went to St. Joseph's in Indiana (Collegeville) to study philosophy.

Ordained in 1944

From there he went to St. Mary's Seminary in Cleveland and was ordained in 1944. First assignment was at St. Peter and Paul's as an assistant.

In 1951 Father Petric joined the U.S. Army as a member of the Chaplain Corps and a year later he left for the Far East.

He was later assigned to Fort Sam Houston, Texas and stayed there until the end of his tour of duty.

Father Petric's office is on the second floor of the Annex.

I wish I were a moment in my professor's class. For no matter how idle moments are

They always seem to pass.
- Randolph Macon Old Maid

Father Paul Petric

Say it with flowers
Say it with eats;
Say it with kisses,
Say it with sweets.

Girls are like newspapers: They have forms, they always have the last word, back numbers are not in demand, they have influence, you can't believe anything they say, they're thinner than they used to be, they get along by advertising, and every man should have his own and not try to borrow his neighbor's.
Notice: Anyone found near my chicken-house at night will be found there next morning.

Chance Still Open To Apply For JAMBAR Editorship

Time is running out for any interested student to apply for the position of Editor of the JAMBAR for 1955-56. Several applications are in already, but don't let that discourage you, if you have a 1.75 point average and are willing to put time and effort into turning out a good bi-weekly for Youngstown College.

The type of printing used in putting out the JAMBAR is offset printing, and the next Editor must devote sufficient time to learning the techniques of this style of printing. A person interested in becoming Editor would have to start training now and work through to next May, when the next Editor will be chosen by your Student Council.

It's your opportunity, so don't throw it away. A scholarship has been instituted by Student Council to pay part of your tuition as long as you are Editor.

If you enjoy writing; if you want to see the result of your work published every two weeks and if you want a better Youngstown College then turn in an application for the position of Editor.

Any applications should be turned into the JAMBAR Mailbox, Number 69, in the Registrar's Office in the Main Building.

tired of rooting thru a big purse for pencils and lipstick? here's an idea! carry a genuine leather

Pastel Clutch Bag

\$2.98 plus Fed. tax

Clutch purses in dark colors are nothing new . . . but clutch purses in PASTEL COLORS, that's something to write home about! And what an array of colors we have for you to choose from: pink, pastel orange, light green, pale blue; grey, lilac and white! One or two zipper-top styles make it easy to reach everything you need . . . and you'll be riding the crest of fashion favor with your colored purse.

(Handbags, Street Floor)

McKelvey's

Student Trainee Exam Offered

The United States Civil Service Commission has announced a Student Trainee examination for positions paying \$2,500 to \$3,175 a year, in the fields of physics, metallurgy, chemistry, cartography, and engineering, located in various Federal agencies in Washington, D.C., and vicinity.

Applicants must have completed an appropriate high school curriculum, or they must have had 1, 2, or 3 years of appropriate college study. (Students who expect to complete the required training by June 30, 1955, may apply.)

Written Test Given

A written test will be given. The

age limits, waived for persons entitled to veterans preference, are 16 to 35 years.

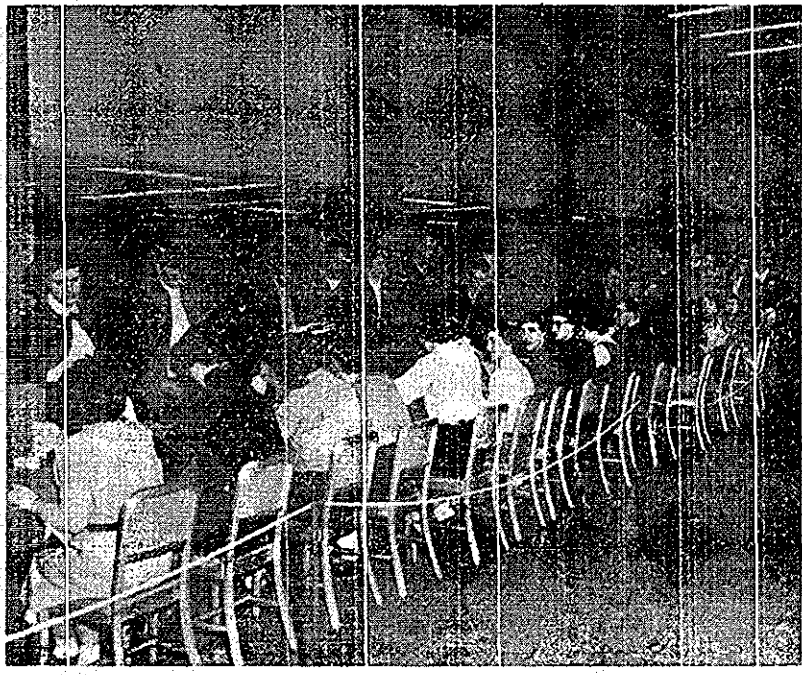

Persons appointed will participate in training programs consisting of periods of on-the-job training in a Federal establishment alternating with periods of scholastic training at an accredited college or university.

Further information and application forms may be obtained at many post offices throughout the country, or from the U.S. Civil Service Commission, Washington 25, D.C.

Applications will be accepted by the Commission in Washington until May 1, 1955; however, persons who wish to take the first written test to be given must have their applications on file not later than Feb. 15, 1955.

Father - The kin you love to touch.

Here We Go Again!

Those long, winding trails of registration hit campus a few days ago. Tired feet and short tempers may have resulted in some cases but at least schedules are made for another semester.

ENGINEERS

BOEING AIRPLANE COMPANY

WILL CONDUCT PERSONAL INTERVIEWS ON CAMPUS

February 24
Group Meeting will be held at
9:00 a.m. Feb. 24

Boeing has many positions open for graduating and graduate students. These opportunities are in all branches of engineering (AE, CE, EE, ME and related fields). Also needed are physicists and mathematicians with advanced degrees.

Fields of activity include DESIGN, RESEARCH and PRODUCTION. Your choice of location: Seattle, Washington or Wichita, Kansas.

A group meeting, first day of campus visit, will precede personal interviews. Details of openings, nature of assignments, company projects, etc. will be explained. Married students are invited to bring their wives.

Come and learn about these excellent opportunities with an outstanding engineering organization—designers and builders of the B-47 and B-52 multi-jet bombers; America's first jet transport, the 707; and the BOMARC F-99 pilotless aircraft project.

For time and place of group meeting and for personal interview appointments—consult your

SEATTLE • WICHITA

Atterholt, Cleary Out For Rest of Season

By Tom Kolic

A few more gray hairs have been added to the head of coach Dom Roselli as he once more has been confronted with the problem of re-shuffling the starting lineup.

During the season Roselli has had to cope with injury problems to Mayberry, Lobough and Atterholt. However, two new problems have come up which can not be cured with a doctor's aid.

Youngstown College will be without the services of forwards Fred Cleary and Bob Atterholt for the remainder of the cage season.

Cleary has quit the squad because of work. Fred had played in nine games and had tallied 106 points before cutting. It was his play which was instrumental in YoCo's winning the consolation honors in the Youngstown Invitational Cage Tourney as he collected 20 points.

Has Been Dropped

Atterholt has been dropped from further eligibility due to poor grades. The former All American high school star was second in the team's scoring output with 240 points in the 13 games he had played.

Bob's high game for the season was against St. Vincent when he sent 28 nitches through the hoops. He has been hampered the last two weeks by a knee injury sustained in the Steubenville fray.

Paul Danilov has been promoted from the reserves to fill in the gap left by Atterholt. Paul who is a transfer student from Davis and Elkins has played in four games for the J.V.'s and has averaged 15 points per tilt. The former Farrell ace specializes in set shots from out front.

The new lineup is dominated by Pennsylvania athletes in the starting five. It reads Bob Mayberry (East Brook), Tony Knott (Farrell), Ed Poplava (Sharon), Ralph Melfi (Wampum) and Paul Danilov (Farrell).

Tentative Gridiron Schedule Released

The Youngstown College Penguins tentative football schedule for the 1955 season has been released for publication by the Athletic Office.

The schedule is as follows:

Sept. 24.....	Great Lakes.....	Great Lakes.
Oct. 1.....	Open	
Oct. 7.....	West Chester.....	Rayen Stadium
Oct. 13.....	Morris Harvey.....	Rayen Stadium
Oct. 22.....	Xavier.....	Cincinnati
Oct. 27.....	Baldwin Wallace.....	Rayen Stadium
Nov. 5.....	Marshall.....	Huntington, W. Va.
Nov. 12.....	Gustavus Adolphus.....	Rayen Stadium
Nov. 19.....	Abilene Christian.....	Abilene, Texas

Full of Fireworks

The opening game with Great Lakes should prove to be full of fireworks. Football fans will remember the donnybrook at Rayen this past season. Great Lakes will be out for revenge after the beating they received here.

West Chester State Teachers has been champion of the Pennsylvania State Teachers Conference for the past two years. YoCo was lucky to gain victory last year.

Morris Harvey has continually been a power in football. This is a renewal of an old series.

Although they did not have a successful season Xavier has also had some very good teams since the war.

Hotly Contested

The games between YoCo and Baldwin Wallace have always been hotly contested and this year should not be different.

This year will see a renewal of the series with Marshall College. In previous games YoCo has won one and tied one.

In one of toughest games of the year, Gustavus Adolphus will come to Youngstown. If you remember, the Penguin gridders dumped the Gusties last year 13-0.

In the final game YoCo will travel to Abilene, Texas to meet the rough, tough Abilene Christian eleven.

SPORTZ QUIZ

by Ed Sferra

1. How many times did Stan Musial win the National League Batting Crown?
2. Give the year for this famous sports headline "DiMaggio hits safely in 56th straight game".
3. How many laps are necessary to complete the Indianapolis "500"?
4. Rocky Marciano is the youngest man ever to win the heavy-weight championship. True or False.
5. What official fires the gun ending a football game?

Answers:
 1. Six.
 2. 1941.
 3. 200.
 4. False, Joe Louis was 23 when he won the title.
 5. The Field Judge.
 "I've got my husband to the point where he eats out of my hand."
 "Saves a lot of dishwashing, doesn't it?"
 - Ohio State Sundial

Lobaugh Is Coming Penguin Cage Star

A newcomer to the Penguin cage team this year is freshman Larry Lobaugh. Some of you people probably have never seen Larry play due to his injury that keeps him on the sidelines. He injured his ankle at the outset of the season and has had difficulty getting back in full stride.

However, you will see a great deal of Larry if you attend the remaining games at South Field House.

The lean, lank and likeable Lobaugh graduated from Niles McKinley High School in 1949. While at McKinley High he starred in basketball and on the gridiron. He was a member of the Niles team that went to the State finals at Columbus in 1949.

Was Valuable Player

Larry was one of the most valuable players on this stellar ball club. One of his most valuable assets was his ability to control the backboard.

After graduation from high school,

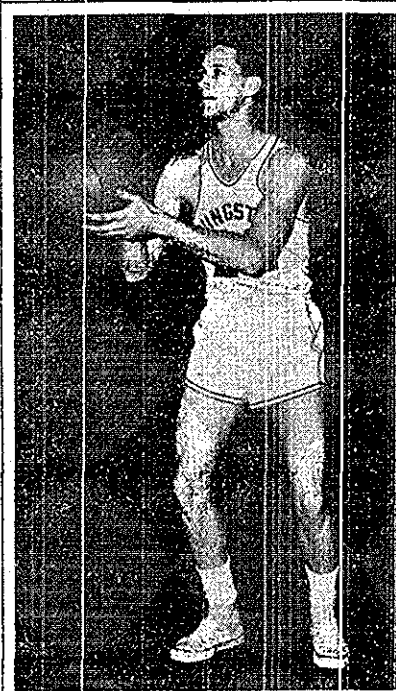

the United States Army requested his attendance for three years. Larry served in Japan and Korea for 27 months with the 24th Division Tank Corps. He was discharged just before the fall semester began and decided to attend YoCo.

He has three more years of eligibility after this year, and should be a star player for the Penguins. The 6'3" Lobaugh is at home as either a center or forward. As soon as that injured ankle heals Larry will be able to go at top speed to help the Roselli men finish the season with a fine record.

Sporting Views

By JET Kolic

Rumors are spreading around Youngstown College that a nationally ranked cager team may play at YoCo next year. Coach Dom Roselli has been trying to schedule a team that has one of the finest records in the country, continually listed in the top five for the last ten years. Not mentioning any names, but the school is located in Kentucky.

Good luck to Joe Guido in the future. Joe was one of the finest half backs in Youngstown College's history. He will certainly be missed next year. There should be a battle royal for his tailback position when the first season whistle blows.

Grapevine Has It

The grapevine has it that Chuck McBride, 230 pound All-State tackle from Rayen may be coming back to the halls of YoCo. He may be used very efficiently to plug the hole left by seniors, Sam Pagano and Bob Garcar.

Another Rayenite, Dick Horvat may also enter YoCo.

Youngstown has an open date on the football schedule for October 2. The Athletic Department is trying to secure a top line opponent. Look out! YoCo is really going to be a football power in a few years. Next year will tell part of the story.

Still Held Down

The injury to Bob Atterholt is keeping the Penguin Cage Team from hitting top stride. The knee is still giving Bob a difficult time. Let's hope it mends quickly so that Bob can be allowed to display his considerable talents in the final ten games.

The injury to Atterholt occurred in the most poorly officiated game this writer has seen. When a player actual-

ly kicks another player and the referee doesn't call it, something is drastically wrong.

The sportsmanship shown by Steubenville and the refereeing of the game were atrocious. I hope we don't get those refs again.

How About Support?

What do you say that College gets behind the Youngstown Board of Education and helps to get new lights for Rayen Field? If the footballers are going to use the field, let's do something for our benefit.

The new lights would do a lot of good. Many more teams might schedule YoCo if we had better playing conditions. Many officials from other colleges have been complaining about the poor lighting.

Why couldn't the college help? I'll leave you with this thought. See you in the next issue.

Woman (Opening door of a refrigerator and finding a rabbit inside): What are you doing there?

Rabbit: This is a Westinghouse, isn't it?

Woman: Yes.

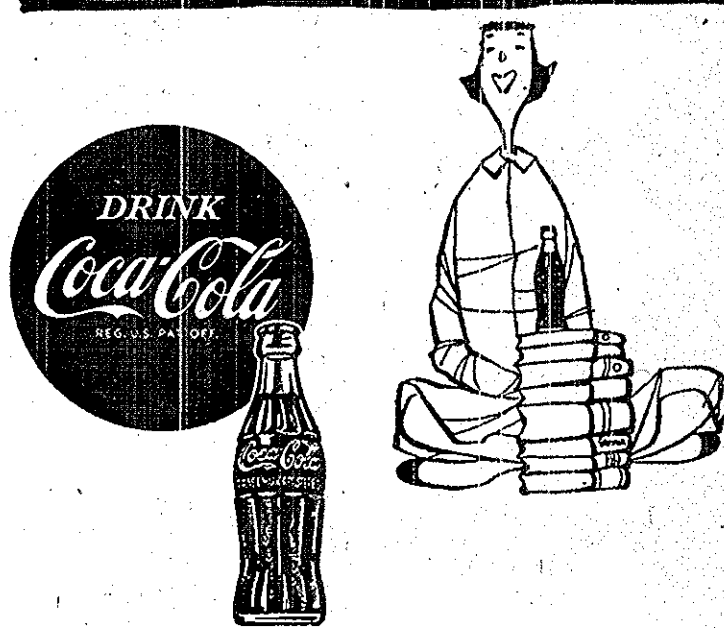

Rabbit: Well, I'm just westing.

Industry Shows New Attitude Toward Colleges

NEW YORK -- Recognizing that the future of the nation may well be in the hands of institutions of higher learning, U.S. industry has adopted a whole new attitude towards higher education in the past few years and set up a series of plans to give help to colleges and universities.

With the announcement of a \$2,000,000-a-year gift program by General Motors, TIME magazine says "one thing had become clear: U.S. industry was well started on a program to give help to U.S. colleges and universities -- and therefore to help itself.

Though U.S. corporations are far from using up the 5% tax exemption allowed (they use less than 1% for all types of philanthropy), they have obviously adopted a whole new attitude...as practical and down-to-earth as a balance sheet."

Mutual Help

Nearly half the nation's private colleges are running in the red. U.S. campuses will need at least \$3,570,000,000 before 1960 for plant construction alone and it will take \$5,500,000,000 merely to house the estimated jump in enrollments by 1970.

Until the crisis became so acute, TIME says in its report on industry aid to education, most companies were satisfied to finance a few scholarships and professorships or research projects related to their own work. Some worried about stockholder objections and legal rights.

But gradually, "under the prodding of such men as Alfred P. Sloan, Jr., Irving S. Olds, Laird Bell and Frank Abrams, U.S. businessmen began to realize that 1) higher education is industry's best hope for talent, and 2) industry is education's best hope for funds."

What Companies Are Doing

Of all the plans in effect so far, TIME says, none is more comprehensive or generous than General Motors', which adds \$2,000,000 to the \$2,500,000 already being spent annually on special training, fellowships and research. Other programs:

FORD MOTOR CO. finances about 70 scholarships a year for the sons and daughters of employees and also gives \$500 annually to each private college or university the students happen to choose.

THE GULF, MOBILE & OHIO RAILROAD has given more than \$185,000 since 1951 to private colleges along its route.

DUPONT now pours \$2,500 grants into the chemistry departments of 50 different campuses, expects to give in various ways \$800,000 this year.

THE RADIO CORP. of AMERICA will pay for 26 scholarships (at \$800) this year.

STANDARD OIL CO. (N.J.) spread \$450,000 over 138 campuses plus \$50,000 for the National Fund for Medical Education last year.

UNION CARBIDE'S plan: \$50,000 for 400 scholarships to more than 30 colleges.

STANDARD OIL CO. (Ind.) gave more than \$350,000 in 1954, matches its scholarships with equal gifts to each campus.

U.S. STEEL last year gave \$700,000 in unrestricted gifts.

BETHLEHEM STEEL since 1953 has given \$321,000 to the colleges - if privately endowed - of young employees completing its collegiate training program.

GENERAL ELECTRIC has promised to match every employee's gift to his own college up to \$1,000, will spend "substantially more" than 1,000,000 in 1955.

Naval Command Interviewer Coming Here

Summer, cooperative or full-time jobs and professional careers in research, development and testing activities of the Potomac River Naval Command will be discussed by Mr. Lamar E. Kemp, a representative of the PRNC Board of Civil Service Examiners February 17, 1955 at 9 a.m. in the Visual Education Room of the college library.

He will have literature available

regarding the various positions open, the career opportunities available and graduate study programs whereby Master and Doctorate degrees may be earned while employed.

He will not only endeavor to answer all questions during the meeting but will conduct individual employment interviews immediately after the meeting.

All Are Invited

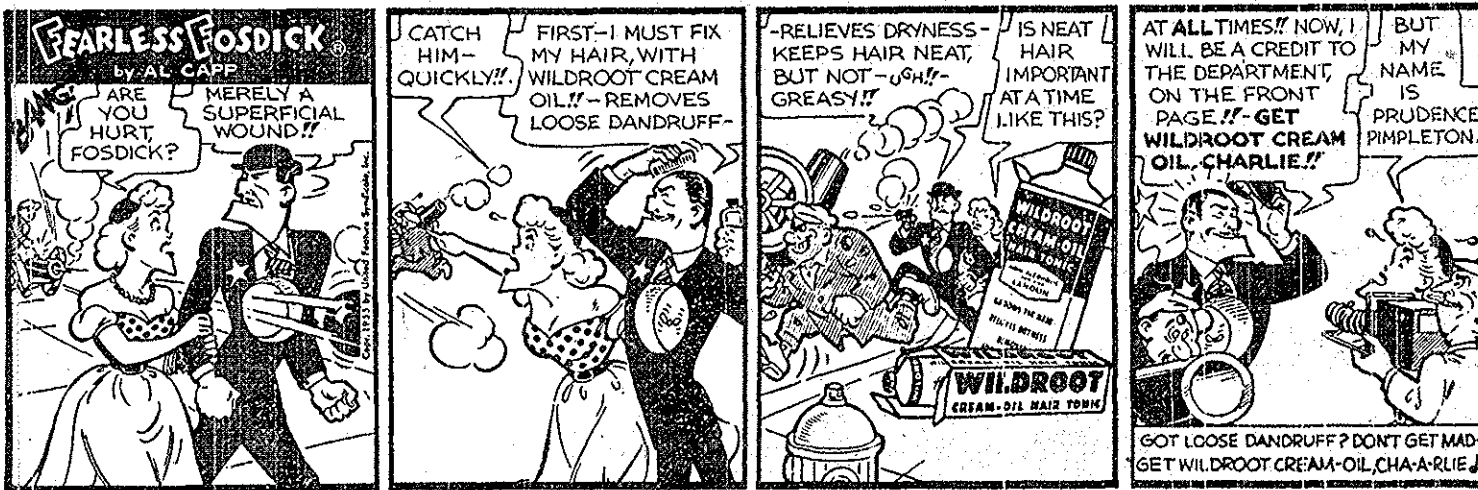

All students, professors and alumni are invited to see a 25-minute program of colored slides with synchronized sound visualizing the research development and testing activities of the Potomac River Naval Command. Mr. Kemp will represent the entire

Command and is able to discuss job opportunities of any PRNC establishment.

Applications will be accepted for any one of twenty-four options of engineering and for physicists, chemists, mathematicians, and electronic scientists.

Also, those interested in the fields of oceanography (biological, geological or physical) meteorology, astronomy, industrial hygiene, metallurgy, navigation (marine) naval architecture, and laboratory electronic mechanics are encouraged to apply.

Most of the graduate study programs are carried out through the University of Maryland and George Washington University.
