New Dean Receives Congratulations

Shown above are Mr. Charignon and Dean Franklin. Dean Franklin, who recently resigned as Dean of the Engineering School, congratulates Mr. Charignon, his successor.

New Merchandising Dept. Established

Prof. McKinley Browne has been named head of the department of merchandising of the School of Business Administration of Youngstown University, effective immediately.

Prof. Browne has been a member of the faculty of the School of Business Administration since he came to the university in the fall of 1948 from Bay City, Mich. where he had been teaching merchandising at Bay City Junior College. He has had experience in his field as merchandising manager of the Ford Clothing Co. in Bay City and in connection with the men's center at the Strouss-Hirschberg Co.

Prof. Browne was one of the organizers of and is now an advisor to Alpha Mu honorary advertising and merchandising fraternity.

Has Grown Rapidly

The merchandising department of the university has been expanding rapidly until during the past year the four-year curriculum allows for specialization in both the fields of retail and industrial merchandising.

The curriculum, leading to the de-

gree of Bachelor of Science in Business Administration, may be completed either in day or evening school and attracts not only many full-time students just out of high school, but employed men and women already in the field who want further training, and those in other occupations who want to turn to merchandising as a profession.

Prof. Robert Miller, dean of the School of Business Administration said that many new courses have been added recently to meet the current demand, including non-textiles, textile fabrics, home furnishings, men's fashions, women's fashions, and others.

Dean Miller said it will be the policy of the school to keep up with this rapidly expanding field and to do everything possible to help meet the demand for trained personnel.

DEAN FRANKLIN RESIGNS AS ENGINEERING HEAD

Mr. Charignon Assumes Post

Edward C. Franklin, dean of the William Rayen School of Engineering of Youngstown University since February 1, 1954, has resigned his position effective with the closing of the current semester, to become director of the Technical Refrigeration Division of Bowser, Inc., at Terryville, Conn.

M.J. Charignon, assistant dean, has been appointed to fill the position vacated by Dean Franklin. Dr. Howard W. Jones, president of the university has announced. Charignon has been assistant dean since September 1950 when he came to the university from Republic Steel Corp. to join the administrative staff and faculty.

In speaking of his resignation, Dean Franklin said "only an offer so attractive that I could not turn it down would have induced me to leave the university."

Bowser, Inc., has 17 subsidiaries and divisions in the United States, Canada, England, and Switzerland and deals in a variety of Engineering products.

Was a Colonel

A Colonel in the U.S. Army, Franklin has had a wealth of experience in a varied military and civilian career. Among many important military assignments were service with the Army Air Corps tactical unit in Alaska and the Aleutian Islands as ordnance officer of the Eleventh Air Service Command.

An assignment to the Far East established him as representative to the Far East Air Force Evaluation Board, engaged in surveying the results of military operations against Japan and in evaluating Japanese military methods.

In 1946 Franklin retired from the army at his own request. He was U.S. representative on the international staff of the North Atlantic Council. While working with NATO, Franklin traveled in 13 European countries.

Dean Franklin has his degree of bachelor of science in civil engineering from Virginia Military Institute and the degree of master of science in military engineering from Massachusetts Institute of Technology. He has won numerous military honors.

Served Five Years

Mr. Charignon is a veteran of five years in World War II, attaining the rank of Colonel, served for two years in the Far East with the Chinese Combat Command.

He received the degree of bachelor of science in mechanical engineering from North Dakota State College in 1932 and the degree of bachelor of science in electrical engineering from the same university in 1933.

He authored a four-volume set of books on infantry tactics in the Chinese language for the Chinese government while in military service.

Charignon is a member of the American Society of Mechanical Engineers, the Reserve Officers Association, is a registered professional engineer, a licensed stationary engineer, and a member of Kappa Delta Pi fraternity.

This just fills this line.

Receive Awards In Library Campaign

Alpha Phi Delta Fraternity closed its annual Library Campaign Drive last Monday with the announcement that Alpha Kappa Alpha Sorority and Alpha Tau Gamma Fraternity will receive the awards for the largest contribution and largest per capita donation, respectively. The two organizations will receive plaques for their support.

Alpha Phi Delta started their campaign three years ago to purchase volumes of the Jefferson Papers for the library.

This year they sent letters to all organizations on campus, urging their needed support, and sponsored the Ribbon Fund Dance. The President's Student Committee also collected funds through a personal student contact.

Four Students Entertain On TV

The old adage of the "Way to a man's heart" being through his stomach was effectively demonstrated on February 29, by four University students on Marjorie Mariner's special Leap Year television program.

Marcia Geiger and Carole Rochford, two co-eds who are would-be homemakers were cooking to catch their men, John Werning and John "Moe" Brown. The girls cooked and served dinner and carried on after-dinner conversation before the Youngstown TV audience.

Winners Receive Plaques

Pictured above (l to r) are Rocky Media of Alpha Phi Delta Fraternity which sponsored the recent Library Fund Drive; Audrey Coleman, who accepted the award for Alpha Kappa Alpha Sorority; Gerald Pratt, of Alpha Tau Gamma; Albert Guerrieri, Alpha Phi Delta; and Mr. James W. Pirie, head of the Library.

BY-LAWS OF THE INTERFRATERNITY COUNCIL CONCERNING RUSHING

1. A rushee must be a full time student of the Youngstown University in good standing at the time of rushing.
2. Bids shall be turned into the Secretary-Treasurer of the Interfraternity Council by twelve (12) noon on Wednesday, April 11.
3. Rushees shall give no acceptance in any form to any fraternity before Wednesday April 18. At this time, rushees shall make all positive replies to bids in writing. These replies shall be turned into the Dean's Office in the Main Building by three p.m. on April 18. These bids must be accompanied by a \$2.00 fee which shall be employed to present a booklet on fraternities at the Youngstown University.
4. Each rushee shall accept only one bid.
5. Any potential pledge who willfully co-operates with any illegal form of rushing will be denied pledging privileges to any fraternity until the beginning of the following semester.

Founders' Day Banquet Held By Phi Mu Alpha

The Founder's Day Scholarship Kick-Off Banquet of the Delta Eta Chapter of Phi Mu Alpha Sinfonina Fraternity was held Saturday, February 25, 1956, in the Wickwood Banquet Room.

The banquet was held in memory of Dr. Henry V. Stearns, member of the Dana School of Music, who recently passed away.

Ray Melcer, president of the local chapter of Phi Mu Alpha, national music fraternity, made the opening remarks, dedicating the Scholarship Fund to the memory of Dr. Stearns, with the remark that "We of Delta Eta Chapter feel that this is the best way we can express our gratitude to a man who was an inspiration both as a teacher and a friend."

Toastmaster Mr. Alvin Myerovich introduced Mr. Myron J. Wisler, faculty advisor, and Mr. Kenneth Kitchen, Dean of Dana School of Music, who

made introductory remarks. Guest speaker for the affair was Dr. Karl Dykema, head of the University English Department.

Over \$550 was received from the banquet for the Memorial Scholarship Award Fund, and anyone wishing to make contributions may do so at the Music School.

Among guests of honor was Mrs. Stewart Hume, daughter of the late Dr. Stearns, who was presented with a large picture of her father.

Reverend A.L. Linder, advisor of the Religion in Life Club delivered the benediction.

New Opportunities

In the past several weeks many developments have taken place to enhance the positions of students here at Youngstown University. Various corporations have been laying plans to construct large plants in this general area.

Two of these corporations, Chrysler and General Motors, are establishing plants at Hudson, Ohio and Lordstown, Ohio, respectively. At first this may not have appeared to be too important to the students here at the school but if one just contemplates it for a short time the significance of these developments will crystallize in your mind.

Although Youngstown is not the only school in this immediate area, it has one advantage over schools like Kent State, Hiram, and others. Youngstown, as you all know, has a school of engineering. These above schools do not have engineering schools and the engineering students graduating from Youngstown University have a new source of nearby employment openings.

Of course these new plants will not only create job opportunities for engineers but also for many other majors. There will be an increased demand for business majors in these plants. Through the increasing of the population in the communities where the plants are established, more teachers will be needed to instruct the increased school population.

There is no limit to the job opportunities that will be presented to the students as well as other people here in this valley. As more industry moves into the area many other industries will look into the possibility of moving their plants from other locations to this area. The more the better. The more industries, the more work for college graduates.

J.E.T.

Student Council

Do you know the members of Student Council from your school? If you don't the article in today's JAMBAR and the articles in the subsequent issues will benefit you a great deal.

Most students here at the University do not know the important part that the council plays in his life while he is attending college. Student Council decides the policies of the student body and therefore each student should take more of an interest in this function.

Because of this belief the JAMBAR is going to run several articles about council and several pictures of the members of the council. This is to acquaint you with the representatives of the school in which you are striving for your degree.

If any person has a suggestion to make to Student Council he should do so through his representative. Get to know your member and talk over matters with him so that council will have more opinions from the students and will be able to formulate their plans to better suit the students of Youngstown University.

J.E.T.

Congratulations In Order

With the close of another basketball season, congratulations are in order for the students of Youngstown University. Earlier in an issue of the JAMBAR, an editorial was run criticizing the students of the college for not supporting their team in this sporting function.

All comment on this editorial is now withdrawn. We of the JAMBAR staff, and we're sure the members of the basketball squad will agree, are proud of the way you students have participated in cheering the team on to victory.

Rarely was there a game, unless out of town, where a large majority of students were there with their "voices raised on high." Evidently this yelling must have paid off as a look at this year's record will show as compared with last years.

So, once again we congratulate the student body of Youngstown University and hope this gesture of campus spirit will persist in the future.

J.R.P.

The Campus Voice

Ann Arbutina
Mary Ann Margosiak

QUESTION: SINCE WE ARE LIVING IN A DEMOCRACY, SHOULD WE HAVE SELECTIVE ADMISSION REQUIREMENTS ON ENTERING A COLLEGE TO MAINTAIN HIGH INTELLECTUAL INTERESTS OR SHOULD THE COLLEGE DOORS BE OPEN TO EVERYONE?

ALEXANDER J. FEDOR
RANK: JUNIOR

We live in a democratic form of life and why not keep it that way. Selective admission requirements would probably hinder some people and discourage them, whereas if they had the chance without being pressured, they could very wisely develop into good outstanding representatives of their fields.

JOHNNY ANDREYKO
RANK: FRESHMAN

I am against selective admission requirements on entering a college. Since up to the age of sixteen education is compulsory, I think those that are interested in furthering their education should not be refused the opportunity. Most of the students who lack the interest or ability usually drop from college by their junior year. Although there are some who do receive a degree, the percentage is low.

MARCELLA MATUSCHAK
RANK: FRESHMAN

Everyone who desires to learn ought to be allowed to go to college to pursue his endeavors without being hindered by having to pass certain required entrance examinations. If a student is sincere in his pursuit of knowledge, he will succeed in passing his studies. Examinations do not always determine the extent of everyone's knowledge. Therefore, the intellectual standards of a college will not suffer as long as everyone desiring entrance to college are sincere, realistic, and eager for knowledge.

DON DE MARINIS
RANK: SENIOR

In view of the fact that good counseling is lacking in many schools, I feel that an individual's capacities are not always discovered until later in life. On these grounds, required entrance examinations that restrict, in that only a select few can go to that school, might be holding back some potential scholars. Therefore, it is my firm conviction that entrance examinations should be used for a guide rather than a direct means to an end.

CALVIN A. McMAHAN
RANK: FRESHMAN

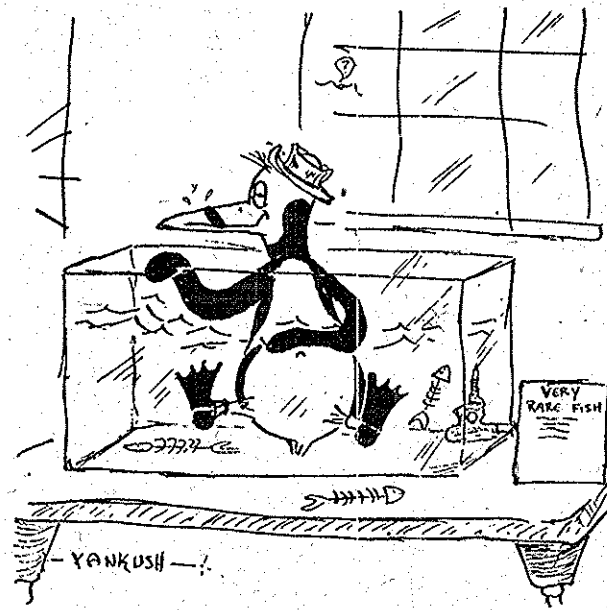

I think every citizen of the United States should have the right to attend a college with conditions, of finances, satisfactory conduct, and grades. I also believe it is best to have separate educational institutions for various groups.

There are many different types of peoples and cultures in our wide world. Certain types of communication can be and are easily transacted. Nevertheless radically different groups cannot become fused in everyday life completely or even partially with success or truthful and unsuspecting acceptance. I have the highest respect for all races, creeds, and colors and I consider some phases of the lives of these groups are superior to that of my own. Education, Livelihood, money, and a comfortable life should be available to all those who will put forth the effort.

"Are you the young man who jumped in the river and saved my son from drowning when he fell through the ice?"

"Yes, Ma'am."

"Well where are his mittens?"

"But I know that Pete is around here someplace."

ENGINEER'S ANGLES

Congratulations to all the men who helped make the Open House success that it was. The co-operation of the faculty and the student body made possible a varied, interesting display that was appreciated by all those who partook of the invitation to tour the local Engineering Plant.

Neil Beard was heard to give an eloquent dissertation on the operating characteristics of a matched and unmatched transmission lines to one group. When he had finished the lecture, one bright looking visitor raised his hand and asked, "Do you have a light? My Pipe went out." C'est la vie!

Joe Voytik was last seen wrapped around the transit at the Civil Engineers display, sighting in on Strouss' Music Store.

Meeting To Be Held

OSPE will have a business meeting at 7:30 p.m., March 16, which will be followed by a smoker. The meeting will be held on the second floor of the Wickwood and the smoker is scheduled for the American Legion Hall on Spring Street.

An interesting speaker will be an added attraction at the business meeting.

Dick Jones and Dick Pirugi have just received offers to join the Mickey Mouse Club after graduation.

Denounces Theory

Bob Mazur was heard to denounce Mr. Klingshirn's theory that E-IR because he connected two batteries in a series and could not get any current at all. Only after much explaining and table pounding it was discovered that he had them connected opposing each other. Some days you just can't win.

It is with a feeling of regret that we accept the fact that Dean Franklin has resigned his position here at the University to accept an offer for an executive in an Eastern Manufacturing Company. Mr. Franklin has at all times held the interests of the school and its members to the fore, and any actions taken have always been with these interests in mind.

Deserves Many Thanks

It would take a much more eloquent person than this reporter to convey to Mr. Franklin the thanks he so richly deserves for the fine job he has done. His theory of a closer relationship between the faculty and the student body have led to the formation of the Dean's Council, and to a new outlook from each side on the other's opinions and actions.

We hope that Mr. Franklin has derived some degree of satisfaction, for all the work he has done, in knowing that he has steered some young men in search of a career in the right direction. We wish him all the best in his new capacity, and hope that he will remember us as well as we shall remember him.

The bright side of the picture is that we are acquiring a man who is capable of performing the duties required of this office.

Successor Announced

Mr. Charignon has been announced

as successor to Mr. Franklin. Let me be one of the first to officially congratulate you, Mr. Charignon.

I know you will have the support of the entire student body in carrying out whatever plans you may have. May we wish you success in this newest venture in the field of engineering which will surely add a little lustre to the long list of accomplishments you have already compiled.

Let's all get behind this drive, headed up by Senior Class President John Ewashko, for the Engineers' Lounge. Thanks mainly to the efforts of Dean Franklin, we have now gone over the \$250 mark. Every dollar we can collect, up to \$500, will be matched by Student Council.

The seniors have practically all given, and they won't even be around to enjoy it (they hope). Just a little bit of support can make our school a little more pleasant. What say gang?

John Knable Accepted At Still College

John Wayne Knable, a senior pre-med major, has been accepted at the Des Moines Still College of Osteopathy and Surgery and will enter there this fall.

An East High School graduate Knable is the son of Mr. and Mrs. Michael J. Knable, 4225 Kirk Road. He is an active member of Pi Beta Chi fraternity, Omicron Lambda honorary biology fraternity, Newman Club, and the Psychology Club. He also won the Mr. and Mrs. Howard W. Jones senior scholarship.

A sailor and a girl were riding on horseback out in the country. As they stopped for a rest, the horses rubbed necks affectionately. "Ah me," said the sailor, "that's what I'd like to do."

"Go ahead," said the girl. "It's your horse."

1956 Neon To Be Completed In May

"The NEON will be out in May!" we were told by Bela M. Csejtey, one of the co-editors of the NEON.

Bela told us that the first part of the book is up at the printers at the moment and that he is waiting for the proofs. He explained that the first part consists of the dedication of the book to the late Dr. Steam, the administration section, and all the activities till the Mardi Gras dance.

Bela Csejtey

The Military Ball, The Junior Prom, and The May Day Dance, as usual, will be that of last year's. Bela made it clear that it could not be done any other way because of the deadline on the engraving, printing, and cover binding.

The sport section, done by Jack Chugden, will be up at the printers as soon as all the art work is finished. The organizations section and the seniors are following Jack's section.

Bela wishes to thank the following people for helping on his part in the Year book: Ernie Bodo and Harry Frye for the help in the faculty section; Bill Petrec for his help on all the activities; Joanne Cestone and Joe Shagin for letting Bela take the book to their homes in the evenings when office space was not available on the campus; also many thanks to the girls in the Public Relations Office where Bela had to hold up quite often during the day; and the girls in the Dean's office where he had to leave some of the work he couldn't carry around in his brief case.

The work is not done yet. The setting of types at the printers will be followed by the usual long process of copy reading. For copy reading Bela would appreciate any help he could get from students.

Bela told us that it is not enough that the staff should kill themselves but that the student body should help out. There is still a lot to be done and Bela, Chuck Koutzouras, and Marv Jaffee could use some help.

Vogan Elected AIEE President

William Vogan, a junior at Youngstown University majoring in electrical engineering, is the newly elected president of the student chapter of the American Institute of Electrical Engineers.

Vogan is the son of Mr. and Mrs. James H. Vogan, 830 Winona Drive and lives with his wife Barbara at 369 E. Boston Ave. He's an active member of the dean's council, and Sigma Tau national honorary engineering fraternity.

Other officers are: vice-president, William Billings; treasurer, Dale May; recording secretary, Haydon Fox and corresponding secretary, Robert Mazur. Mr. Eugene A. Klingshim of the engineering faculty is advisor of the group.

Italian Study Offered To Y. U. Students

The Italian Government and three Italian universities will offer fellowships to American graduate students for the 1956-57 academic year. Closing date for the Italian competitions is April 1, 1956.

Six fellowships for advanced study or research are offered by the Italian Government through the Cultural Relations Office of the Ministry of Foreign Affairs. Men and women candidates may apply in any field. Each grant includes a stipend of 600,000 lire. Free tuition will be given at a school or university for a six month period.

Candidates in the field of music will be given an extra 50,000 lire for private lessons. A grant of 10,000 lire will also be provided for travel inside Italy. Grantees should have funds to pay their own transatlantic travel and incidental expenses. They may, if eligible, apply for Fulbright travel grants.

Offer Two Fellowships

The University of Padua will offer two tuition and maintenance fellowships. The competition is open to both men and women under 35 years of age, but preference is given to men candidates.

The Collegio Ghislieri in Pavia, a residential college with a long tradition of high academic standing, is offering one tuition and maintenance fellowship to a male graduate student under thirty years of age. In addition to courses in letters and science, students may attend lectures in the various faculties at the University of Pavia.

The Scuola Normale Superiore in Pisa offers one maintenance and tuition award for study at the University of Pisa. Candidates must be men under thirty, preferably those planning to teach.

Must Have Character

Eligibility requirements for the Italian awards are: United States citizenship; demonstrated academic ability and capacity for independent study; good moral character, personality and adaptability; and good health.

Candidates for the Italian Government awards must have a master's

degree or its equivalent in advanced work, such as recognition as an artist, a scholar, or a scientist. They must present a project, outlined in detail, for advanced study or research. Artists and musicians may have to submit recordings or samples of their work. Successful candidates are required to learn some Italian before taking up their fellowships.

Candidates for the Italian university awards must have a bachelor's degree at the time the award is taken up and a good knowledge of Italian.

Applications may be secured from the United States Student Department of the Institute of International Education.

The little girl was sitting demurely on the couch, watching her mother smoke a cigarette. Her nose was wrinkled and in her pale blue eyes there was an expression of childish disillusionment. Finally unable to stand it any longer she burst out in her quavering falsetto: "Mother when the dickens are you going to learn to inhale?"

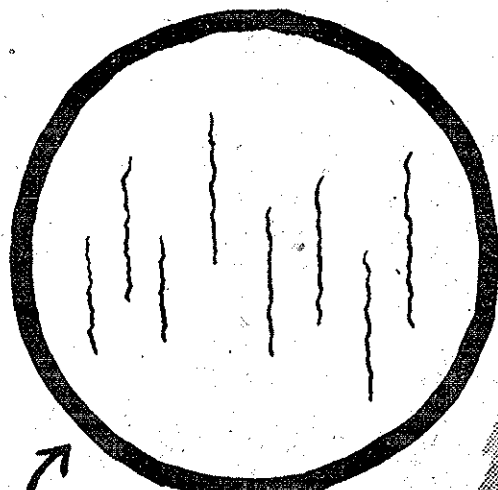

ANNOUNCES CHANGE

Wajih Saadeh, president of the International Student Organization, wishes to announce that meetings will be held on Tuesday of the first week of the month from 4-6 p.m. and on Wednesday of the third week of the month at 8:30.

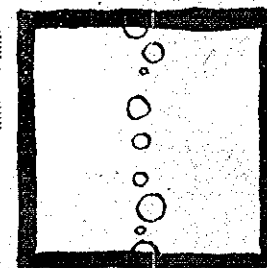

A wealthy farmer, returning from his grand trip abroad, was asked by an artistic friend whether he had managed to pick up a Picasso or a Van Gogh.

"Naw," said the traveler. "They're all left hand drive and besides I have three Buicks anyway."

THE GREEKS SPEAK **Browsing Around**

By Joan Pavlov

With George and Ernie

Right in the middle of rush season, the Phi Mu's decided to declare February 25 a National holiday. Lucille Elias was twenty-one on that day. They celebrated it by having a surprise party on her at the home of Shirley Haney.

They also elected new officers who are Lucille Elias, president; Mary Jane Lewis, vice-president; Shirley Haney, Secretary; Pat Casey, Treasurer. March 4 was Phi Mu's 104th birthday, so Delta Mu Chapter celebrated it with their alumni on March 6 with a banquet at the Youngstown Club.

Their second rush party was held Thursday, March 1 at Jones Island, better known as Jones House. The theme was pirate party and the entertainment for the evening was a treasure hunt on the campus of Youngstown University. All the actives were dressed as pirates and the house was decorated to carry out the pirate theme. At the end of the treasure hunt, all the rushees were given penguins, dressed as a pirate.

SIGMA DELTA BETA

The first big rush party of the Sig Deltas was on Feb. 21 at the Ma-Fe Club. The candles burned to the wee hours of the night, with Joe Nohra providing all with strong man antics. The next rush party is scheduled for Monday, March 21. Pledge masters this year are Lou Sudano, Clive Unger and Jack Cerimele.

Newly appointed officers in the fraternity are Jack Cerimele, secretary; Carl Veriholik and Tom Buck, recording secretaries and John Hernandez, Historian. They are also planning a dance coming in April. It promises to be quite an affair.

GAMMA SIGMA

The Gamma Sigs held their second rush party, the Gamma Sigfield Follies, March 2, at the Old Log Cabin in Mill Creek Park. The rushees were entertained by many acts such as, Nancy O'Connor and Maggie Docherty, dancing to the "Sugar Plum Fairy" (a very graceful dance, incidentally), Gay Wollitz and Alma Mackin, singing "I Wanta Get Married"; Loretta Liptak, Jody Konesky, Patty Flynn and Kay Harmon, the Beauty Shop Quartet (who are considered the better singers in the sorority???? Ask Nancy O'Connor or me about this). Cookie Korody, is the marionette, who comes to life at midnight and dances to Dragnet. She only does this in the Follie, though.

At every show you must, of course, always have someone who wants to get into the act. In this case, its Joan Bonapane, who after working so hard on her Sadie Hawkins Day costume, is finally given an award. Sweeping the stage between acts, was Helen Savic, who also was the Barefoot Contessa and the native was -- Oh, Helen, you tramped on my fingers in that step.

A pajama party was recently held at Alma Mackin's house. A very quiet ??? party with everyone getting plenty of sleep except Maggie Docherty, who can't sleep nights anyways. Maggie, of course, has things on her mind.

SIGMA PHI EPSILON

The Sig Eps held a successful rush party last week at the American Legion. They are now looking forward to the next which is March 11. This will be the football game at Crandall park which separates the men from the boys.

Another Sig Ep has given out his fraternity pin. This time it is Jim Fedorchak, who pinned Marianne Bartik, Beta Sigma Omicron.

PHI LAMBDA DELTA

You should have seen the pirates that landed at Arlene Delisio's house last week. This was the Phi Lamb's second rush party. Even "Captain Hook" Verba was there. What turned

Art Students Work On Sculpture

At work on a sculpture are three University art students with their instructor, Professor Jon Naberezny (right). The students are, (l to r) Bill Petric, Gloria Sanchez, and Guy Chiarella.

the yellow salad purple, Margene? After informing the sorority of her relation to Rembrandt, they put Louise D'Agostino to work painting the scenery. She didn't paint the ship strong enough, because it sank.

After twelve girls piled into Julie's Buick, the tire collapsed. Their hero, Bob Magni fixed the tire. Mary Summers has a new job at Commercial Shearing. They broke her in with a new pair of scissors.

ALPHA PHI DELTA

The Alpha Phi's are happy over the event of having two men on Youngstown University intercollegiate bowling team. Spike Traveline and Sam Rogers are the men with average of 163 and 157. Good luck, men.

Their first rush party was held on March 3. It was a stag and Larry Mirtzo and Don DeMarinis say the program was better than the average. What can a bunch of guys do by themselves, that's better than the ordinary? You figure it out, I can't.

One of their new brothers (a pledge alumni) is selling Necchi-Elna sewing machines. He reports it is the world's best apparatus and anyone interested should contact him. He can be seen on campus "needling" people and uses the name of Thomas E. Marccone, Esquire.

Henry Pezzulo and Pete D'Antonio say that they will take the fatal step in June. Congratulations and best wishes are sincerely extended to them.

SIGMA SIGMA

The Sig Sigs, the majority of the people who went to New York in January, are planning to send a delegation to Terra Haute, Indiana in April for the Newman Club Convention.

The first rush party of the season was held at Struthers V.F.W. in February. On Friday, March 9, the second rush party, a square dance, will be held at Willow Ranch with Delta Chi Epsilon, just in time to see the willows in bloom. Eight members journeyed to Madison on the Lake and received a hostile reception. Seems the local inhabitants "remember?"

With the advent of spring most of the members thoughts have turned to love, especially Bill V. The Gamma Sigs and the Sig Sigs are planning a post lenten party to again further their studies of the "Problems of American Youth" encountered on April 5.

KAPPA SIGMA KAPPA

The Big St. Patrick's Day event

This week we again take up the topic of people, a delightful phenomenon of college life. People are really very interesting, and come in various shapes, sizes, and forms, besides being educational.

Some people are naturally attached to each other. Can you imagine seeing Janie Huff without Dick "Tag-Along" Blake, or Barbara Wentz without Don "Lover-Boy" Seely.

Some people just can't take a hint. Can you imagine Norma Jo Mitchell and Cynthia "Butch" Ryan trying to borrow a pen knife from Ernie Hammer so they can pick the lock on the door from Tod Hall into the Library. They figure this saves walking around like everyone else. - Oh, well, freshmen will be freshmen.

You have to be crazy to work for this Scandal Sheet. Recently, our Chief, John "Eager Beaver" Tudhope, plastered signs all over our smokey little haven. As you walk in the door, a sign confronts you, "Please Remove Spurs." Of course this is only for people like Gene Yankel, Don Bender, Bill Carnie, and George Gulla, who are ruining the ceiling. It wouldn't be so bad if they walked on the floor like everyone else.

While we were snooping around, we ran into Jim Lewis. Since he is one of the select few with a roommate on this campus, we decided to ask him how he went about choosing one. Upon entering this University, or "Haven for Card Sharks" as it is fondly referred to, he was advised by counselors, otherwise known as "Friends of the Little People," to choose a person with regular habits. He inquired around and was amazed to find so many people with regular habits. Take Tom Rattigan, for instance, who loves to recite the Articles of War and eat peanut brittle in the wee hours of the night, and Charlie Bushman who has a regular habit of beating a great gong from midnight until 4 A.M.

After much deliberation and debate, our opinion of a good roommate is one who is exactly your size, otherwise you will have to have his clothes altered to fit you, which can be a considerable nuisance. In fact, it is sometimes impossible. Can you imagine Bob Mayberry and Bernie O'Reilly exchanging suits for a dance?

There are still people on this campus - CAMPUS?? - who have no ethics. Hanna Moore, Mike Roncone, Fred Redman and John Gyurek have formed a union and are selling crib notes for Elementary Basket Weaving, History of the Siberian Salt Mines, and Cafeteriaology to unsuspecting freshmen like Bucky Gillespie, Jerry Repasky, and Carol Emery, who don't know that these courses were discontinued last semester.

Girls, beware! Bob "Cassanova" Cooksey is back in school. Sometime when you have a couple of hours to kill just ask him what he is here for, huh, Bob?

Since the question always arises in a girl's mind of what to look for in a man, we have decided to answer that question. The most important feature is health.

Although he may be as rich as Captain McCutchen, or as handsome as Apollo, what good is he if he lays around all day accumulating bedsores?

The first thing to do upon meeting a man is to make sure he is sound of wind and limb. Before he has a chance to beguile you with his wit and charm, slap a thermometer in his mouth, roll back his eyelids, yank out his tongue, palpate his thorax, rip his patella, and ask him to straighten out a horseshoe with his teeth. Poor Lee Crisan and Don Infante always have trouble with that horseshoe test. Oh well, practice makes perfect, boys. If they fail to pass these simple tests, girls, you had better call an ambulance and move on to the next prospects.

Our advisor, Mr. Crites is a very eminent person, but he just can't joke. Imagine him getting mad just because someone slashed his tires, burnt his seat covers, and let his pet raccoon out of the trunk of his car. Of course, Pat Muretic, Nancy Puskar and Bob Mondok wouldn't know anything about this. By the way, where did you get that black eye, Bob.

Well, well, well, it seems as if the engineers goofed. During their open house, Vic Rickley and Dick Jones decided to make a "Bomb" in the physics lab to show off their skills. It seems it backfired in none other than Professor Ellis's face. It is your guess whether his face was red or black.

We had better close this here column - column??? - till next time. That is, if some of the people whose names we use in here don't catch up with us in the next couple of weeks.

H. S. Seniors Vie For Scholarships

Four hundred and sixty-five high school seniors from 61 high schools took the scholarship tests at Youngstown University Tuesday, competing for scholarships which will be given for the fall term opening in September.

High schools represented in the tests were: Bazetta, Berlin Center, Bessemer, Pa., Boardman, Braceville, Bradford, Pa., Bristol Twp., Brookfield, Canfield, Champion, Chaney, Clearfield, Pa., Columbiana, Cortland, East/East Palestine, Fairfield, Farrell, Pa., Austintown Fitch, Fowler, Girard, Goshen, Greene Twp., Green-

ford, Hickory Twp., Pa., Howland, Hubbard, Kinsman, Jamestown, Pa., Laurel, Pa., Leetonia, Liberty, Lordstown, Lowellville, McDonald, Niles Mecca, Campbell Memorial, New Castle, Pa., Newton Falls, North, North Beaver Twp., Pa., North Jackson, Orwell (Grand Valley), Poland Seminary, Rayen, Rowe, Sharon, Pa., Sharpville, Pa., South, Springfield Twp., Struthers, Union Twp., Ursuline, Vernon, Vienna, Weathersfield, West Middlesex, Pa., Woodrow Wilson, Austintown and Deming Local.

Fortune teller: "You'll be poor and unhappy until you are forty."

Client (hopefully): "Then what?"

Fortune teller: "You'll get used to it."

Student Council Notes

This article is the first in a series of articles to appear in each issue of the JAMBAR. The purpose of these articles is to inform the students of the activities of Student Council.

You may ask what Student Council has done to benefit the student body. One of our most important tasks this year has been to revise the Constitution and By-laws, which affect every student and student organization on campus. Just recently, because of failure to comply with the Council Constitution, Omicron Lambda, biology fraternity, was declared inactive. This action should not be misinterpreted to mean that we delight in taking disciplinary action, but it was necessary in order to be fair to other organizations.

Some of the new revisions of the Constitution and by-laws include a modification of the method of selecting JAMBAR, Neon, and Literary Magazine editors and staff. The section regulating selection of cheerleaders was also revised, and the

number of Student Council members was limited to 22.

Paul Kennedy and his Constitution Committee have made available at the Registrar's Office copies of the revised Constitution and by-laws. Also included with these forms are copies of the Honor Point System for extracurricular activities, a set of rules governing all social events, and policy forms governing the allocation of activity funds.

The Social Committee, headed by Norman Rubinfeld, submitted a number of bands to play for the Junior Prom, to be held April 13, at either the Nu Elms or Mora Park Ball Room. After careful consideration, Council chose Angelo LaCivita. Applications for chairmanship of the Prom are being accepted by Council, from full-

time students. Final application date has not been determined.

Les Elgart, Sodder-Finnigan, and Woody Herman are being considered for the May Dance. Council will be happy to hear other suggestions from students.

The Activities Committee, Peggy Tiller, Chairman, is making plans for publication of a bigger and better handbook for freshmen. This committee has also purchased a new bulletin board to publicize school events, and a filing cabinet for Student Council correspondence and reports.

Other action taken by Council with the co-operation of the Student-Faculty Relations Committee has been to eliminate the unsightly burning of trash outside the cafeteria. This action took effect March 1.

Student Council meetings are held every Friday at 3:00 P.M. in the Conference Room on the third floor of the Library, and we welcome any student interested in attending. For those who cannot attend but wish to make suggestions, just write them out and leave them in the Registrar's Office addressed to Student Council.

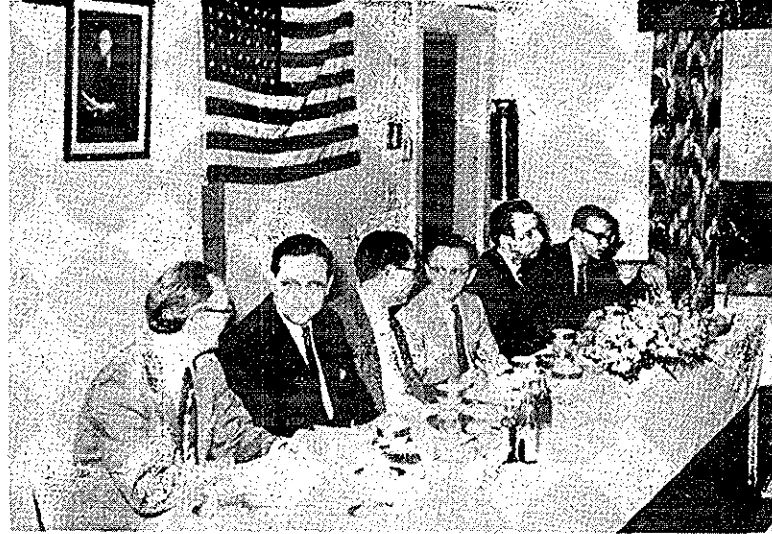

Named Director Of Crusade For Freedom Drive

Dimo Dimov, Mechanical Engineering student, has been named by Student Council to head the Crusade for Freedom Fund Drive to be conducted on the University campus starting March 12.

The Crusade for Freedom is a nationwide movement to enlist the support of the American people in the struggle against Communist tyranny and aggression. It does this through Radio Free Europe and the Free Europe Press.

Booths will be set up at various places in the school where students may make contributions.

Speaker's Table At Banquet

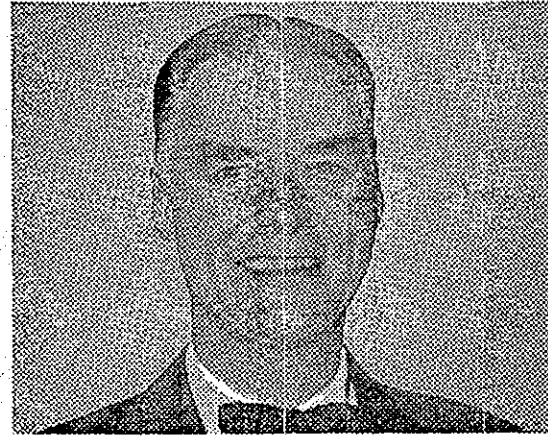

Pictured above at the speaker's table at the Phi Mu Alpha Banquet are (l to r) Mr. Myron J. Wisler, faculty advisor; Rev. Albert Linder, R.I.L. advisor; Professor Karl Dykema; Professor Alvan Myerovich; Dean Kenneth Kitchen; and Ray Melcer, president of the fraternity.

SPRING BUDGET

Allocation to Groups	\$ 300-	May Day	2,000-

1. All students are eligible to take part in all activities to which Student Council has allotted funds.
2. All allocations are given according to the needs of these groups except Band Replacement which is set at \$300, Minor Varsity Sports which receive 10% of the preceding semesters activity fee income, and the Student Union which receives 5% of the total operating budget.
3. Student Council funds are obtained by the charge of \$5 Activity Fee at the start of each semester.

Why the Governor of Massachusetts reads The Reader's Digest

"Throughout the non-Communist world The Reader's Digest speaks eloquently—in 12 languages—for the moral values which nourish our liberties. Freedom rings from its pages. Besides providing rich reading pleasure, the Digest has done more to articulate our beliefs and our way of life than any other organization I know." Christian Herter

In March Reader's Digest don't miss:

HOW TO CONQUER FRUSTRATION. When blocked from what we seek to do, we feel pent-up and thwarted. Result: most of us work off our feelings by lashing out at someone else. Here's how—if you are aware of what frustration is doing to you—you can avoid many a needless clash.

BEST ADVICE I EVER HAD. A street-corner phrenologist "read" the bumps on the boy's head, spoke 6 words. British Labour Party leader Herbert Morrison tells how this advice spurred him on his career.

GUIDED MISSILES: KEY TO PEACE? Terrifying weapons we are building in hopes of preventing war.

HOW MUCH DEBT CAN YOU AFFORD? Worried over your installment buying? Feel you owe too much? Here's a simple way to measure how much debt you can afford on your income—and suggestions on how to avoid getting in too deep.

HOW YOUR NOSE KNOWS. Scientific facts about our amazing and mysterious sense of smell.

AMERICAN MEN ARE LOUSY FATHERS. Famed author Philip Wylie tells why a child needs his father's companionship; and why a dad's greatest rewards lie in sharing himself with his kids.

THE MAN WHO SAVED A PRESIDENT. The impeachment of Andrew Johnson depended on the vote of one man: Edmund Ross. Senator John F. Kennedy tells how Ross sacrificed wealth, career to vote as his conscience bade: "Not guilty."

WHY DO DOCTORS SMOKE? A doctor asks, "How can medical men condone the use of tobacco, knowing its harmful effects?"

COLLEGE WITH A BUILT-IN POCKETBOOK. Story of Southern Missionary's work-study plan where students earn their tuition, get practical experience—and make a profit for the college.

DOOMED PRISONERS OF DIFFERDANCE. How a Nazi guard risked his life to save 18 of his captives from death—a drama whose final scene was enacted just last spring.

Get March Reader's Digest at your newsstand today—only 25¢

43 articles of lasting interest, including the best from leading magazines and current books, condensed to save your time.

He rushed up to her. "This is my dance, you know," he said. She gave him a haughty stare. "Oh, really? I thought it was the Junior Prom."

Prof: "If I saw a man beating a donkey and stopped him from doing so, what virtue would I be showing?" Voice in back: "Brotherly love."

Fraternity Holds Talent Show

Zeta Gamma Chapter of Omega Psi Phi Fraternity at Youngstown University will present a Talent Show on March 24, 1956 in the C.J. Strouss Memorial Auditorium at 8:00 p.m. The Talent Show as part of the annual Talent Hunt program of the National Chapter of Omega Psi Phi Fraternity is held by its chapters throughout the United States to search for outstanding talent.

The local show will feature students from high schools and the University in this area. There will be prizes given to the first three winning contestants. Also the winner of the first place will receive an all-expense trip to Columbus, Ohio in May to compete in the District Talent Show.

The winner of the District show will be entered into the National Talent show to be held in Baltimore, Maryland in December.

Will Be Given Scholarship

A final winner will be given a Scholarship by the National Chapter to help the contestant continue his or her education or further development of his or her talent.

Joe Dannery, alumni of Youngstown University and popular Disc Jockey and announcer of Station WPAR in Farrell, Pa. will be master of ceremonies of the show.

Admission to the show is \$3.50 and tickets may be purchased from members of the fraternity on the campus or from Lester Mullins, 336 Edwards Street, Phone Riverside 6-3008. All proceeds from this program will be used for the Scholarship Fund.

The professor of English and the Instructor of Engineering were dining together in the cafeteria. During the course of the meal, the former spoke:

"I had a peculiar answer in class today. I asked who wrote 'The Merchant of Venice,' and a rather young freshman replied, 'Please, sir it wasn't me.'"

"Ha, ha," laughed the Engineering Instructor, "and I suppose the little rascal did it all the time."

Offer Scholarships For Study In Cuba

Competition for the Father Felix Varela Fellowship for study in Cuba is now open to American graduate students.

The fellowship is good for study at the University of Havana during the 1956-57 academic year.

Closing date for the competition is

April 1, 1956. The award covers tuition and most maintenance expenses. The successful applicant must provide his own travel plus funds for incidentals and other expenses.

Certain Fields Preferred

Candidates in the fields of philosophy, Spanish and Spanish-American literature, history, education, social sciences, and law are preferred. Preference will be given to students under 30 years of age not primarily interested in research.

Applicants must be U.S. citizens.

Other eligibility requirements are: a Bachelor's degree from an American college or university of recognized standing by the date of departure; demonstrated academic ability and capacity for independent study; good moral character, personality and adaptability; good knowledge of Spanish; and good health.

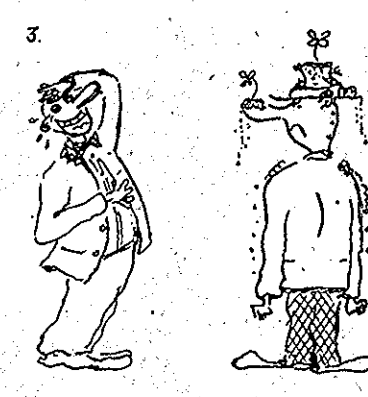

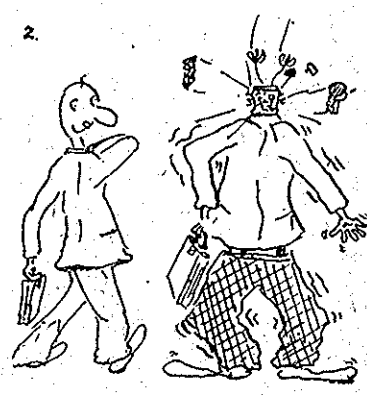

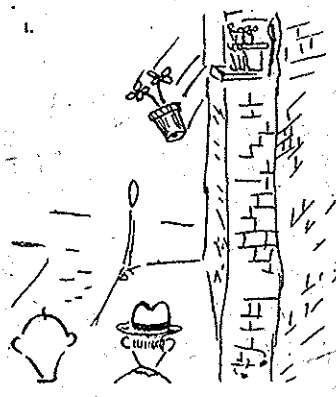

Applications may be secured from the United States Student Department of the Institute of International Education.

Tuesday - March 13	3-5 p.m. 7-9 p.m.	College Library College Library
Wednesday - March 14	9-11 a.m.	College Library

Mother: "You should find a job, daughter. Why, at your age I was working for \$9 a week. Three years later I owned the cafe."

Daughter: "I know, Mother, but now they have cash registers."

Psych. Club Takes Trip To Woodside

Approximately 30 psychology students were welcomed for a tour of the Woodside Receiving Hospital Thursday evening, February 23. Psychology Club members had invited all the psychology classes at the University, to take this educational tour with them.

Don DeMarinis, president of the Club, took charge of all the arrangements.

Miss Virginia Valenak, night supervisor at the Hospital, accommodatingly showed the group the exceptional facilities that are provided there and enumerated the staff, both resident and visiting.

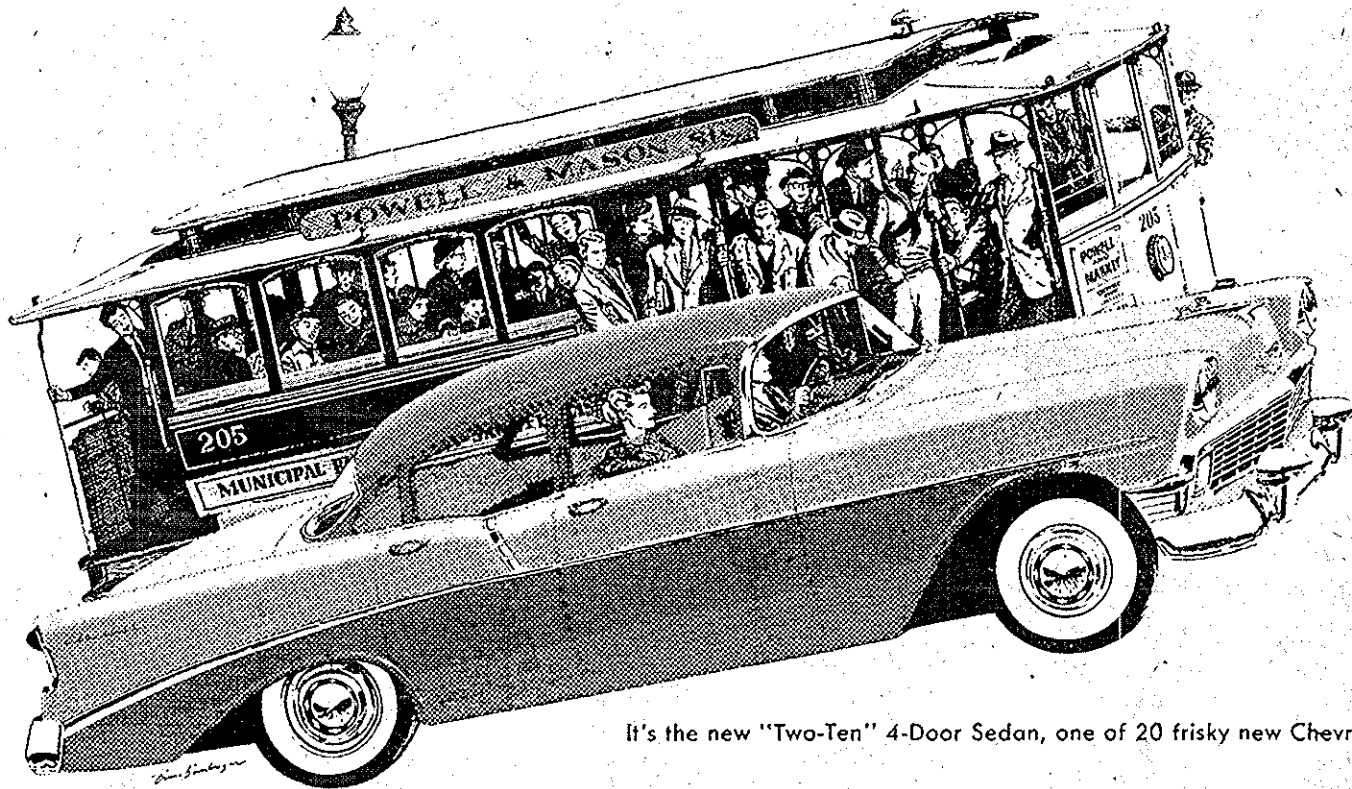

A band was providing dance music for a group of patients that evening, which gave our students the further advantage of dancing and conversing with them. The club is planning more field trips in the near future to other institutions.

BEHIND LOCKER ROOM DOORS

By Don Infante

This week your JAMBAR has left the Youngstown Campus and toured the area colleges and schools. The purpose behind this was to bring to the attention of you, the present day student, the monopoly Youngstown University graduates have on the coaching jobs in the area.

Let us start at Ursuline High where there are five alumni holding down the job: Donald McCloud, Robert Housteau, Edward Kinney, Louis Chiarro, and Michael Yohman. On every side of town we are represented: at Chaney, Louis Angelo; at East, Peter Lanzl; at North, Ray Kroll and Charles Bush. Also at Wilson there are two Penguin grads: Robert Thompson and George Hardie.

Neighboring Districts

Let us take a look at the Steel Valley League which is just as filled with Youngstown Grads. At Niles there is Thomas Andrews; at Austintown Fitch, Cecil Duffett; and at Memorial there are Wally Walip and Carmen Julius. Over at Hubbard there is Gregie Yohn and at Struthers, Gene Jancecko.

In the districts lying outside the Youngstown area Penguin grads are even more numerous and to mention only a few, there are such Penguin athletes of the past as Dave Barrow of Lisbon; Harvey Myers of Springfield; and Eli Danilov, a cousin of the current cage star Paul Danilov, at New Castle. Due to limited space we have to stop here but we could continue almost indefinitely. We have to apologize to those not mentioned, but they are simply too numerous to mention.

Credit Due

The point behind this article is to show how Youngstown grads have and will continue to infiltrate area high schools and also to give credit to our

fine coaching staff and splendid physical education department, both to whom the glory belongs. Also it should bring to light the many job opportunities open to Penguin graduates, not only in the coaching line but in the many other types of jobs in the area. It reflects favorably upon our institution.

It also should bring pride and self confidence to the present day Penguin student to see the success of our graduates, and at the same time act as an inspiration for all of us to achieve even greater heights in the future.

PARKING RESTRICTIONS

Students will please note that on the third Tuesday of every month in the spring semester the parking lot on the south-west corner of Spring and Bryson will be reserved for the Mahoning County Medical Service from 4:00 p.m. to 10 p.m.

Mother: "Be sure you wash your arms before you put on a clean shirt."

Junior: "Shall I wash them for long or short sleeves?"

VARSIITY TENNIS

All members of the student body interested in playing varsity tennis are urged to attend a meeting tomorrow, March 10, to be held at 10:30 at the Athletic Office.

Newman Club Leads League

By Al Mike

Kappa Sigma Kappa and Hernando's split two points apiece in the most interesting match on February 19 as the Intra-Mural Bowling League nears a climax. Kappa Sig's fell three points behind the league leading Newman Club No. 1 team who had to fight hard to defeat ROTC No. 2; 4-0. Ed Wall had 551 while the rest of the team was way off pace.

Alpha Phi Delta won by forfeit over Phi Gam No. 1; 4-0 as Sam Rogers had 519 even though it was not needed. TGIF downed Newman Club No. 2; 4-0 with "Secy" Berringer hitting for 203-543, and last, but not least, ROTC No. 1 defeated Phi Gam No. 2; 3-1. Russ Colton continued his splendid bowling with a 523 total.

Last Sunday Newman Club No. 1 clinched a tie for second half honors by virtue of a 4-0 forfeit win over Phi Gam No. 2. A win for Newman's or a loss by Kappa Sig's will lock up the title for Newman Club. Incidentally Kappa Sigma Kappa downed TGIF 3-1 despite Dick Yankel's hard earned 546 set. Kappa Sig's are still mathematically in the race for second half honors.

Colton Leads ROTC

Russ Colton tossed 212-199-196 for a sizzling 607 total to lead ROTC No. 1 to a 4-0 whitewash over Alpha Phi Delta. It is good to have Colton going to Toledo with us.

Hernando's beat ROTC No. 2; 3-1, and Newman Club No. 2 won by forfeit from Phi Gam No. 1; 4-0.

With one week remaining Newman Club No. 1 leads with 26 points trailed by Kappa Sigma Kappa 22, ROTC No. 1; 21, Alpha Phi Delta 20, TGIF 19, Hernando's 17, ROTC No. 2; 16, Phi Gam No. 2; 7, and Newman Club No. 2 and Phi Gam No. 1; 6 points apiece.

Bowlers Go To Toledo

These following named bowlers will depart for Toledo March 24 to bowl in the Toledo Intercollegiate Bowling Tournament. They are: Al Mike, Captain; Ed Wall of Newman Club No. 1, Sam Rogers, Jim Traveline of Alpha Phi Delta, Joe Schiffer, Kappa Sigma Kappa; and Russ Colton of ROTC No. 1.

Husband: "Dear, I have tickets for the theatre."

Wife: "Splendid! I'll start dressing at once."

Husband: "Yes, do. The tickets are for tomorrow night."

Hernando's Hide-away

By John Hernandez

The curtain has fallen on one of the most colorful years in basketball this University has ever known. In the past three months the Penguins have been providing us with top-notch basketball. We have seen Tony Knott break the 2,000 point mark. We have seen the rise of a future great, Herb Lake who will certainly ease the passing of Tony Knott.

Student Captures Handball Tourney

A student of Youngstown University recently captured first place honors in the YMCA Class "B" handball tournament.

Patsy DeVincent, a freshman student won the tourney by scores of 21-12 and 21-15 to upset his rival Jim Malie.

DeVincent is the former Class "C" champ, and while in the Armed Forces won first place honors for the 8th Army in Korea. He also won first place in the Far East singles and doubles championship in Japan, 1954.

DeVincent is a member of the Newman Club and also a member of the Newman Club No. 1 bowling team.

Once Over Lightly

By Vince Golle

Baldwin Wallace University shattered Youngstown University's bid to break even in a 26 game season by rolling over the Red and White 107-88 with Tony Knott again featuring.

Although the Penguins hit on 50 percent of their shots, they were unable to get within six points of the high flying Yellow Jackets in the final 20 minutes. Former New Waterford sharpshooter, Wynn Hawkins starred for the Bereans with 26 points.

Knott Features

Tony Knott was by far the most accurate man on the floor getting 25 points in the first half and boasting that total to 41 at the end of the game. Atterholt and Lake also aided the Penguins in the losing cause.

In an overtime preliminary the Youngstown Jayvees saw their 14 game winning streak snapped by a determined B.W. five 65-63. Future star Charley Bushman got 14 points for the Red and White, while John Zban and Jim Dellick netted 13.

Not only were there individual performances that stood out, but the team as a whole was tremendous. The Penguins beat such teams as Steubenville, Lawrence Tech, Loyola, and powerful Akron University. They played a total of 26 games, winning 12 while losing 14.

Final statistics reveal that the Penguins played very good, statistically. Out of 2078 field goals attempted, 842 were completed, for a percentage of .405. Out of 692 foul shots attempted, 431 were completed, for a percentage of .622. The big department was the total season's points where the Rosselli-coached quintet racked up 2115, while holding their opposition to 2023. The Penguins had a 81.3 season's average.

Coach Praises Team

Coach Dom Rosselli said as a whole, "The team was definitely an improvement over last year's and considering that freshmen members saw considerable action, the team is definitely to be congratulated on a successful season."

Coach Rosselli also stated that despite the loss of Tony Knott and Bob Cercone through graduation, the outlook for next season is very bright indeed. Next season should see Herb Lake blossom into a real great player with one season of college ball behind him. Freshmen Andy Woodall, Charley Bushman, John Zban, and Jim Lewis will certainly be capable performers, and the entire J.V. squad which went through their season undefeated, will add the right ingredients for a winning season.

Spring Sports Coming

Now that basketball has sung its swan song, the sports spotlight will fall on the spring sports. Youngstown University will have several spring sports on schedule.

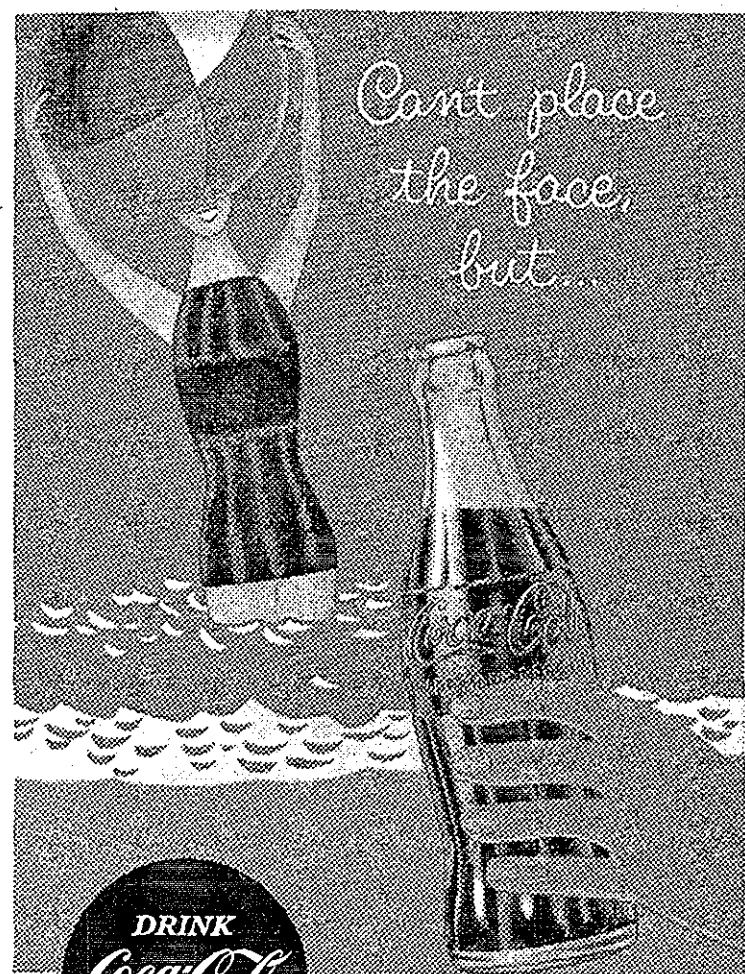

As soon as the weatherman permits, Youngstown University's golf-minded students will be loosening up for the coming campaign. This year's squad will undoubtedly snag the sports headlines.

Also tennis will be in there battling for the spotlight. Unfortunately the University could not find financial resources to sponsor a baseball and track team, which came as a let-down to many students, but with Willard Webster leading the way, I'm sure these two sports will be on the agenda next year.

N.A.I.A. RATES KNOTT NO. 7

Recent N.A.I.A. Official Basket Ball Statistics rate Tony Knott No. 7 in the nation among small college competition. Below are listed the first ten players and their official averages as computed by E.D. Fish of the N.A.I.A.

NAME	G	FG	FT	Pts	Avg.
1. Riegel, Bill; McNeese State	26	299	262	860	33.1
2. Miller, Joe; Alderson Broaddus Col.	24	258	266	782	32.58

Pershing Rifles Hold Regional Drill Meet

Youngstown University's Pershing Rifles are hosts at the Regional Drill Meet to be held at the Organized Army Reserve Center, 399 Miller Street in Youngstown on March 9, 1956.

The different colleges to be represented in the meet are: John Carroll University, Kent State University, Akron University, and Youngstown University.

This is the first time that Youngstown University's Pershing Rifles have been hosts at such a meet.

The meet will be carried on in three phases. The first phase will be by platoon, next by squad, and finally individual competition.

The meet will start at 7:00 p.m. at the armory. The public is invited to attend. Admission is free.

Positions Open To Accountants

An examination of especial interest to students of accounting has been announced by the U.S. Civil Service Commission for filling accountant and auditor positions in Federal agencies in Washington, D.C., and throughout the country. Positions will be filled in the U.S. General Accounting Office, the Internal Revenue Service, the Department of Defense (which includes the Departments of Army, Navy, and Air Force), and various other agencies.

Appointments will be made to positions paying entrance salaries of \$3,670 a year. After completion of special training programs, usually 6 months after entrance on duty, appointees will be promoted to positions paying \$4,525 a year. Opportunities for promotion thereafter are excellent.

Like other organizations, the Government depends heavily upon the help that trained accountants can provide in making its management most effective. An accountant with the Federal Government can choose to specialize in any of several areas of accounting -- general accounting, cost accounting, tax accounting, systems accounting, or auditing.

Applications Accepted

Applications will be accepted from senior college students majoring in accounting who expect to complete the four years of study within 9 months of the date of filing application. Applicants qualifying on the basis of education will not be required to take a written test but will be rated on the information in their application form and information from schools and employers. There is no closing date for receipt of applications.

Further details and instructions on where to send applications are given in the examination announcement, No. 51. Announcements and application forms may be obtained from college Placement Offices or direct from the U.S. Civil Service Commission, Washington 25, D.C.

TO TALK WITH WOMEN

Miss Marthyann Roberts, placement counselor of the Moser Secretarial School in Chicago, will be in Main 210 on March 13. Miss Roberts will talk with interested seniors about doing graduate work in secretarial studies.

The haughty senior girl sniffed as the tiny freshman cut in. "and just why did you have to cut in when I was dancing?" she inquired nastily.

The freshman hung his head with shame. "I'm sorry ma'am" he said, "but I'm working my way through college and your partner was waving a five-dollar bill at me."

RIL To Present Memorial To Dana

Religion-In-Life Fellowship announces a Henry V. Stearns Memorial by starting annual contributions to the music library of Dana School of Music. Contributions will be made each year in honor of the late Dr. Henry V. Stearns who was the first advisor to Religion-In-Life.

What was formerly known as the Religion-In-Life club was organized 15 years ago when Dr. Stearns became advisor. He remained advisor until 8 years ago when Rev. Albert L. Linder, University Protestant Chaplain, became advisor. The name was later changed to the Religion-In-Life Fellowship.

Religion-In-Life will hold a Swim Party at the YWCA on Wednesday March 14, at 9 p.m. The students and their friends will be entertained at the Chaplain's residence, 634 Bryson St. for food and fun after the swim.

All students are invited to join the swimming party and the party later.

Picture Presented By Fraternity

Shown looking at a picture of the late "Doc" Stearns are (l to r), Mr. Myron Wisler, Mrs. Stuart Humes, daughter of Dr. Stearns; Dean Kenneth Kitchen, and Ray Melcer.
