

**Editorial**

## Everybody Knows By Now - But Us

We cannot publish the results of the May Queen election in this issue of the JAMBAR. We cannot do it because our printing schedule always stays the same but the election dates did not.

Student Council member Frank Foster announced the results of the May Queen election last Friday at the regular Council meeting. The result - as everybody knows by now - two more ballots were counted over the total number of ballots cast by voters whose names were checked off on the roster of eligible voters.

Council Vice-President Jack Chugden, acting in the absence of President Noreen Bennett, immediately decreed that new elections would have to be held. The date set for such elections was this past Tuesday and Wednesday.

The persons hardest hit by this turn of events were the four girls who were candidates for May Queen, Arlene Barnes, Catherine Nosich, Louise Sarville and Aurora Vona.

No one can honestly state that these two extra ballots were cast with dishonest motives. It could have been an accident. But the point is that two extra votes were cast. If there had been a tie between two candidates (and such an occurrence is not impossible) those two ballots would have swayed the election.

Student Council, as well as the student body in general, should be deeply concerned by what happened. Once again we faced with the old question, "Is it all necessary?" or "Are Queen elections a waste of time?" We believe they are worth the effort.

Student Council members should see that future elections are carefully scrutinized to assure that only one vote is cast by each eligible voter. Campaigning methods in this election were, on the whole, conducted on a high level. But there were some cases, small in number but big in terms of significance, of flagrant violation of the rules of fair campaigning.

These elections can be conducted on a clean sportsmanlike basis. In such cases as this it is an extremely dangerous action to name names or to point an accusing finger at any one particular person or sorority or fraternity.

We want our college to stay the great college it already is. The student body must be united if we are to advance forward in fellowship. Vigilance is ever needed to protect this unity.

G.N.M.

## Talent Show Presented For Woodside Patients

A talent show for the recovery patients at Woodside Receiving Hospital previously scheduled from 7 to 9 did not end until almost 10:00 Saturday, March 19. The talent show sponsored by the Social Science Club was the highlight of the present semester's projects.

Together Mary Butch, Bruce Burns and Julie Procopio, Program Chairmen, planned an entire show with Ernest Graves acting as Emcee.

Virginia Shelar sang "I'm Always Changing Rainbows" and later led the group singing accompanied by Julie Procopio at the piano. Bob Butter sang "When or Where" with Janet Knepp as accompanist and Joan Pokabalo did a comic song and dance routine to "Too Fat Polka."

**Show Continued**

But the show did not end there for there were many in the audience who wished to participate. Six prizes were given to the best participants by a vote of applause from the audience. Prizes were awarded to the winners by Bob Mann, Ernest Graves and Mrs. "Chuckie" MacDonald.

After the show refreshments were served by Grace Jones, Barbara Griffiths, Dick West and Phyllis Pianin and Joanne Harrison. Following the refreshments there was an hour of dancing.

The next Social Science Club meeting will be at the home of Barbara Griffiths. There will be a topic of discussion and refreshments will follow. All interested persons are welcomed.

## Library Drive Contributors Are Listed

Student organizations that have donated funds to the campaign of the Friends of the college library are as follows:

- \$2. Alpha Iota
- \$25. Alpha Phi Delta
- \$15. Alpha Tau Gamma
- \$10. Beta Sigma Omicron
- \$2. Dana Music Forum
- \$25. Interfraternity Council
- \$10. Kappa Sigma Kappa
- \$5. Mu Pi Epsilon
- \$10. O.S.P.E.
- \$10. Pan Hellenic Council
- \$26. Phi Lambda Delta
- \$5. Sigma Alpha Iota
- \$15. Sigma Phi Epsilon
- \$10. Varsity Y. Club
- \$170. Total (March 28, 1955)
- 346. Classroom Collections
- \$516. Total student contributions
- \$10,239. has been collected on campaign to date.

## Loretta Carney Is Candidate

Loretta Carney

Loretta Carney, daughter of Mr. and Mrs. T.J. Carney of Youngstown, was elected by Phi Gamma Fraternity to be candidate for queen at the Alpha Iota State Convention in Akron on April 1-3.

She was also chosen as Chaplain and will be installed at the Tea to be held in the Mayflower Hotel on April 3.

Alpha Iota now has two rushees on campus. They are Mary Navinski and Sandra Crause. They will be officially initiated on Tuesday, March 29, at the home of Miss Betty Jane Kolmacic, President of the Sorority.

All girls who will be attending the convention in Akron are anxiously awaiting this annual event. There will be a formal dance to be held in the ballroom of the Mayflower Hotel. At this time the queen will be chosen and crowned.

## Tourney Is Proposed

Former Student Council Treasurer Dean A. Boop suggested to Student Council last Friday that Youngstown College sponsor a Table Tennis Tourney.

He explained that the G.M. McKelvey Company some years ago sponsored a city-wide tournament annually and it received large support.

"It would do a lot for the school," he said. "A lot of other colleges have sponsored such contests. I think the college should sponsor a city wide table tennis tournament and I think it will go over." Boop will prepare plans to be possibly presented at this afternoon's Council session at 3 p.m.

## Military Ball Work Underway

The fifth annual Military Ball will be held April 29 at Stambaugh Auditorium. Ross Halamay and his orchestra will provide music for the formal affair sponsored by the Youngstown College ROTC.

## New Parking Lot On Way

One more parking lot will soon be available to Youngstown College students. A new lot is being formed at the corner of Bryson and Spring Streets, opposite the parking lot east of the college library.

Student Council member Bill Moore stated that the lot should hold more cars than the college library lot. Neil Beard, Council member, also discussed student parking at the Nu-Elms Ballroom lot.

The manager, he reported, has stated that student parking will be permitted in the lot as long as the students co-operate.

## No NEON Until Fee Is Paid

"Any organizations on campus who have not paid the space fee by the first of May will be penalized," states NEON Editor Joe Shagrin. "Their members will not be entitled to receive their NEONS until they pay their space fee."

Shagrin explained that an adequate amount of time has already been made available for students organizations to pay for their space fee and that a deadline must be set, as these bills cannot be allowed to go unpaid past May 1.

## FTA Holds Record Hop

Members of the William Holmes McGuffey Chapter of the Future Teachers of America of Youngstown College held their Second Annual Spring Benefit Dance in the C.J. Strouss Memorial Auditorium, Friday March 25, at 8:00 p.m. The proceeds from the dance were contributed to the Youngstown College Library Book Fund.

## Prepare For LEBC Banquet

Some Youngstown College representatives who attended last night's Lake Erie Basketball Conference Banquet at Case Institute of Technology in Cleveland were (l to r) Lt. Mishia Frederick, Major Leonard B. Main and Frank Foster, Assistant Athletics and Recreations Officer. Lt. Frederick did not attend last night.

Committee heads have been named and are as follows: General Chairman, Cadet Major J.E. De Leo; Dance, C/Col. Thomas Mosure; Publicity, C/Capt. James Lawrence; Finance, C/Major Dean Boop; Decorations, C/2nd Lt. Robert Hixenbaugh; Programs, C/1st Lt. Joe U'nali; Floor, C/2nd Lt. John Werning; Flowers and Refreshment, C/Sgt Jim Mangie and Tickets and Invitation, C/Sgt. Robert Mazur.

The decorations committee has already begun to work on the Ball. Widely recognized as one of the major dances of the college year and the only formal dance, the Military Ball attracts large attendance each year it is held.

## Rifle Team To Banquet At Akron

The complete Youngstown College Rifle Team will attend the Lake Erie Intercollegiate Rifle Banquet at 12 noon tomorrow at Akron University, Akron, Ohio. Hosts for the event will be the Akron Army ROTC.

Team members attending are Robert Hixenbaugh, Edward Ewaniuk, Arrel Doane, James Monksie, and Willis Wolfe.

Also attending the conference will be Lt. Col. and Mrs. E.L. Lash, Major and Mrs. Leonard B. Main, Lt. and Mrs. Mishia Frederick and M/Sgt and Mrs. John M. Prochak.

At the banquet awards will be presented to the winning team, winner of sportsmanship award and trophy presented to the high scorer.

Following the banquet a swimming party will be held in the university swimming pool for all guests attending.

## Sigma Kappa Phi To Honor First Three Decades

The National Sigma Kappa Phi Fraternity of Youngstown College of Business Administration will hold its 30th anniversary, Founders' Day meeting on Wednesday, April 13, at the Youngstown Club at 6:30 p.m.

Mr. John P. Gillespie, teacher at Youngstown College and a prominent real estate businessman will be the speaker.

Awards of recognition will be given to members who attained their 25th anniversary in the fraternity.

Committee for the dinner meeting is: Jack Ritter, Ralph I. Dillon, James A. Cozza, Tony Amedura, J.H. Herrlich and Danny Mirto.

Sigma Kappa Phi Fraternity, membership in which is based on high scholastic record, is the oldest National Fraternity in Youngstown College. Mr. Fred Schaffer is president of the local chapter, Mr. Louis Toth is vice president, Mr. Walter Fryman is treasurer and Mr. William Baldwin is secretary.

## Photoplutions

Rose Morley

Question: Do you think the students co-operate as fully as they could in the student library drive?

Nancy Hermes - Freshman

Most of us spend a good part of our time in the library building depending on the information which we receive from its sources. I think if there had been some publicity previous to the classroom collections, the drive might have been accepted with better spirits.

Jean Palatas - Junior

In expressing my opinion I agree with Emerson: "There is no limit to the amount of good that can be done." There is no reason why the library "handwagon" should rest in the middle of the hill - let's all get behind it and push it to the top!

Donald Infante - Freshman

No! In my opinion the students at YoCo don't really appreciate the fine library of our college. As a result they take the attitude that it is not their concern whether they give to the drive. The students don't realize their responsibility to the college to make the drive a success and are too dependent on others instead of carrying the responsibility themselves.

Yolie Morano - Senior

It seems to me many of the students forget that it's their library and the more books in it, the more it benefits them. However, the students do fairly well, considering the campaign. There must be a better way to collect money than to do it during class periods. Perhaps the students would cooperate much more in the library drive.

Rose Marie Fintor - Freshman

I think the students' participation in the library drive was very poor. When the envelope was sent around in the various classes for contributions, many students just passed it to the next person without donating any money. The students should awaken to the fact that it is their library, their books, and their responsibility to make the library drive a success.

Bob Crane - Freshman

I think the students cooperated in the drive, such as it is. However, I don't think much of a campaign is put on for such an important project. With more emphasis placed on a library drive, there would be more student participation.

Opportunities for Commission.

FOR GUARDSMEN

## NICK O'KEEFLES .....

"Of course the registrar was glad you graduated thirteenth in your class - but did he know the class only had fourteen in it."

## With the ENGINEERS ...

And here we are! The mechanicals have challenged the electricals to a baseball game, and from all reports, the teams are whipping into fine shape. The mechanicals are a little ahead in their training program. They are averaging two cups of coffee and a half hour more per man at the Wickwood. But don't let that fool you, Louie Iannucci, Nick Nicolau, Dick Kukura, and George Batcha are bringing their gallon thermos jugs every day. By this time they are probably in rare form.

We understand that Mr. Klingshirn will be in there playing for the Electricals. (I'd advise you boys to let him play whatever position he wants to or he just might pick up his grade book and go home!)

The rest of the engineering majors shouldn't feel left out 'cause you'll be well supplied with old pop bottles and medium sized stones to throw at the umpires. (And who knows, we just might be able to get some of the faculty to act as umpires?)

"Informs Me"

Ray McAllise informs me that if some more of you guys don't buy tickets to the O.S.P.E. Dinner Dance, he's going to play ball and spoil the whole thing. As you know, the dance will be held at the El Rio, on April 16. The El Rio is located on Rt. 422 about 4,324,384 cm. west of Girard. (Give or take a few callipers).

There was quite a crowd down at Central Square one Wednesday at noon, but it seems the main attraction Don Morrissey, didn't show up. What happened Don?

The boys in the back room tell me that Mr. D'Isa is going to revise his strength class. It seems a very ambitious group of young Engineers, including Neil Beard, Joe Santangelo, Tom Mosure, and Mike Blasko devised a completely new and astounding method of mixing concrete. The formula called for 52.5 pounds of sand, and they didn't put any in.

Gravel Assumed

When the form was removed, the gravel assumed a prone position, all over the floor. Not too good, for all practical purposes. What will they think of next?

For all you married men who like to dabble in the culinary art, I have devised a recipe which should warm your hearts:

- Measure into mixing bowl:
- 2 cups sifted cake flour
- 2 cups sugar
- 1/2 cup Crisco
- pinch of powdered graphite
- 3 squares melted chocolate
- 1 bar nodular iron.

Mix thoroughly and beat vigorously by hand or mixer (medium speed) for

2 minutes. Then heat treat, or anneal, to convert cementite to nodular graphite for the impartation of ductility.

Restrict carbon to 2.35 per cent and hold silicon at 1.65. When cool, ice between layers and sides with berillium catsup.

WARNING: Watch your temperature. Don't go over 2750 degree F.

Serve in egg shaped tins. The kiddies will love it.

Marching is Constant

Problem of the week:

A column of soldiers marching at a constant speed is 10 miles long. A rider on a horse leaves the end of the column just as the head of the column starts crossing a bridge. He rides, at a constant speed, to the head of the column. He reaches the end just as the last man steps onto the bridge. How far did he ride?

Leave your complete solution a d answer at the JAMBAR Office, and next time I'll let you know the outcome.

Nick Nicolau and Warren Stark have aspirations of working at R.C.A. It seems the 6J5's they've been using in the Electronics Lab haven't been operating linearly and they plan some improvements.

Are Glad to See

We're glad to see a little ray of sunshine injected into this school by the addition of our new secretary, Fran Minghetti. Fran is majoring in Education, she calls struthers her home. (The land of sunshine, opportunity, and long cigarette butts).

Till the next time, this is your ole friend, Doubtful Dick, reminding you to dim your lights on the car when driving at night. If you don't want to do this, then turn up the radio real loud. That way you won't be able to hear the crash which will follow.

## A Job Well Done

Mr. James L. Wick, Chairman of the Board of Governors of Youngstown College for twenty-four years, has resigned. Mr. Wick was elected to the chairmanship upon the creation of the board, on July 23, 1931, and saw the college through the darkest days of the depression.

Under the guidance of Mr. Wick, Youngstown College has grown to a school of 3600 students which ably serves the educational needs of the large Youngstown metropolitan area. During his tenure of office the College has come to offer highly competent, and adequate liberal education and technical training.

Mr. Wick is a member of a prominent Youngstown family, which has made many tangible contributions to the College.

Each student of Youngstown College past or present, should be grateful to him for his often unpublicized work on our behalf to make our college what it is today.

S.F.

## Service Rendered

The President's Student Committee, formed last spring semester under the direction of President Howard W. Jones, has been carrying out a good bit of constructive work on our campus quite recently.

Members of the Committee aided in the Friends of the College Library Campaign for funds to purchase more books for the general benefit of all members of the student body and faculty.

On March 4, members of the committee aided in being hosts to the Regional Debate Meet of the National Forensic League, of which Youngstown College was host.

On Tuesday, March 15, members of the committee acted as hosts to usher visiting high school students who were participating in the scholarship exams held in the college library.

The committee deserves commendation for this excellent work. Special credit goes to Prof. John P. Gillespie, who has provided his time and high capacity for organizing, and to Miss Ivis Boyer, the President's Secretary, who has kept the pace of committee work moving at high speed.

The President's Student Committee was formed early last spring to enable Youngstown College to receive the advantage of having within it an organization composed of leading students. Such an organization could, and has been, of definite aid in causing good public relations work to be accomplished.

One of the Committee's most outstanding achievements was a reception held last September to welcome first semester freshmen to Youngstown College.

Members on the Committee are urged to keep on the alert for any students who they feel might be good potential members of the committee.

G.N.M.

## How Much Do You Really Know?

What do you really know about your basketball team? Do you know the conditions under which our team practices?

Mr. Rosselli has done a wonderful job with the team. Many coaches would have given up long ago.

In the first place YoCo has no court of their own. Because of this the team had to practice on many different courts. Because of this the team did not become accustomed to one floor.

Many players also live at home and some hold jobs. Some of these players dropped off the squad during the season.

I feel that the sooner we get a Field House our teams will make a better showing. They will at least know where they are going to practice and won't have to hunt for a gym to practice at each day.

J.E.T.

# Vet's Views

Joe Pacella

I guess that by now the whole student body should have a very good dose of spring fever. I doubt very much if anyone is immune to that disease. Yes, Spring is really in the air now and it is quite evident by the number of people missing in my afternoon classes. This semester is really flying by. Just think, a few more short weeks and the finals will be here again. OW!

Warning to the Softball teams around the campus. Word has it that "itarp" Janecone, B. Bleggi, M. Cavelli, L. Altier, A. Tuscano from New Castle really have a team put together. These boys are really supposed to be tough.

As for the Vet's Club. At last, (Long Last) a meeting can finally be announced. April the 1st (Friday) at 3:00 p.m. there will be a meeting of all vets who are interested in organizing a club. This meeting will be held in room 301 on the 3rd floor of the main building. As you all know, a lot depends on the first meeting, so let's all try to be there.

### Overhears Gripes

While sitting in my favorite spot downtown the other day (third stool from the end) I couldn't help overhearing two soldiers home on their first leave. They must just have finished basic training because they were really tearing that dear old Army apart.

It was funny to hear the same gripes repeated that a few years ago we all had. I'm sure that you fellows all remember your biggest gripes. I'm different, I even remember the little ones. Think back a little and envision yourself once again as a recruit.

In the middle of the night, 3:30 a.m. that loud tweet tweet coming from a little whistle that was usually in the mouth of some moth-eaten careerman. "Come on you guys, rise and shine, you should have been up hours ago."

Remember that sorry looking bunch of guys that started to crawl from their sacks muttering. "Oh no, not in the middle of the night again." "I'd like to take that whistle and jam it down his throat." "Oh, what I wouldn't give to meet that guy as a civilian."

### Was Funny

To think about it now it really was funny to see someone still half asleep trying to put a hospital corner on a blanket. Then the fun really began as 60 guys tried to use five wash basins at the same time. Imagine having to stand in a line four and five deep to shave. In cold water no less. I still wonder if the Army will ever find a way to have hot water in the morning.

What about those mornings you entered the mess hall, when it was still dark outside, anticipating a nice hot meal of flaked beef with gravy over toast, remember that famous army dish S.O.S. but instead were handed a small, brown, tin can with a can opener (P.38), a little bag that said coffee, one that said sugar, and a cup of hot water with which to make your coffee.

Oh boy, what a way to start off a day, drinking C-ration coffee and scraping two inches of grease off of a can of sausage patties.

### What Happened?

What used to happen right after chow? Oh yeah, Police call. "All right, men move out and pick up everything that isn't growing. If you don't get it all the first time we'll go over it again".

That character used to kill me. WE'LL go over it again. I waited 16 weeks to see that guy pick up a butt but left without ever seeing him bend his back.

Remember the bright spot of the day however, when the magic words would come ringing through the barracks? "Mail Call, Mail Call".

That was the only time I ever saw anyone actually run. You had to run or else be trampled over. This is

The best however were the bull sessions in the corner where guys would be comparing their lives as civilians. They were bull sessions all right. In my platoon alone I counted at least 40 guys that used to have Cadillacs and 95% of the guys had been making anywhere from \$5,000 to \$10,000 a year as civilians.

### Gripes Start Again

Finally 10 p.m. and lights out. Then the gripes would start again. "Boy, before I came into the Army I would just be getting dressed to go out about this time." Then down at the other end of the barracks would holler out. "Hey fellas, I just figured it out, I only have 692 more days to do and then I'm out."

At long last all was quiet except for that mutton head that slept next to you snoring and that jerk that slept over you continually tossing in his sleep and rocking the whole works.

Slowly you closed your eyes and drifted away into the land of slumber. Soon a dream appeared. A beautiful dream but before it was over. Tweet Tweet! "All right you guys, Rise and shine, you should have been up hours ago."

Sorry fellows, this is where we came in. Let's leave. So Long.

One of the consolations of age is that you can whistle while you brush your teeth.

we guarantee you 90 days wear from every 2 pairs of our

## With the Greeks . . .

by Joan Pavlov

Another election is coming in the near future. This is for the most popular boy and girl of Youngstown College. You should start thinking of who you believe is most deserving of this honor. But, of course, you can always guess who the candidates will be. It is most likely, someone who is very well known around the campus. Here's hoping that they are two who really deserve the honor, as it has been in the past years. Last year, (Joan Pokabla) was chosen most popular girl while (Johnny Masucci) took the honor for the most popular boy. Sponsoring this affair is the Phi Gamma fraternity with Jack Baytos as chairman of the affair. The date is April 27th for the Popularity Dance.

News in the sororities is the Beta Sigs held their last rush party at the home of Susan Ritzie in Warren, Ohio. The type of party was a tea and the theme of the "Pink Lady" was carried throughout the tea. Virginia Shelar, last year's pink lady, conducted the ceremony.

Dolls dressed in sorority colors were given to the rushees as favors. The Beta Sigs would like to congratulate their sister Cathy Nosich for being a candidate for May Day Queen.

Election of officers were held recently. Those elected were: president, Elaine Ohl; vice president, Nancy Puskar; Corres. Secy, Dot Kirtos; Treasurer, Joann Powell; Social chairman, Shirley Granny; Nancy Puskar will also act as Pledge trainer.

### Last Party Held

The Gamma Sigs held their last rush party at the 422 restaurant. Guests were Mrs. Smith, sorority advisor, Evie Downie, Junior advisor and alumni members, who included Marguerite Dempsey, with her new engagement ring Clairanne Lyden McCloud, Jeanne Shurtrump and Norma Deramo. Alma Mackin, president of the sorority, spoke of the year's accomplishments. Nancy O'Connor lead the group with an entertainment program and Jody Konesky showed slides of the sorority.

Nancy Johnson was mistress of ceremonies. Nancy is also working on plans for the pledge class as she is pledge mistress. A party was held at Alma Mackin's house, for the new pledges. Congratulations to Louise Sarville, who was chosen by the Sig Deltas, to be candidate for May Day Queen.

### Rushing Over

Rush season ended for the Phi Lambas with their final dinner at the Parkview House in Canfield. Sixteen rushees, twenty five actives and five alumnae attended. Miss Patricia Gilboy gave a short talk on the year's accomplishments of the sorority including a few well chosen incidents from the lake.

Phi Lambas want to give their congratulations to their two sisters, Marcia Geiger, who was elected Junior Prom Queen and Aurora Vona, who is candidate for May Queen.

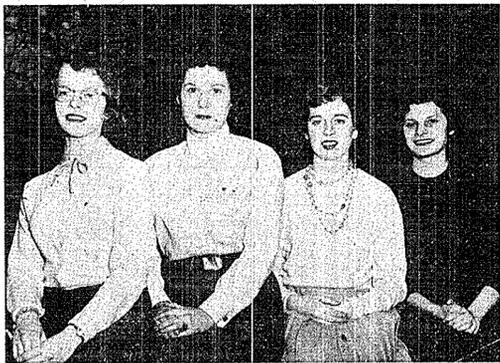

To celebrate "Mike's" election, Hannah Moore had a "pj" party at her little "Scotch" castle. Welcome, from the Phi Lambas, to all new pledges, and congratulations to all rushees who picked the sorority of their choice.

Phi Mu's held a party with their brothers, Sig Ep's, Thursday, March 24th at the Cycle Club. The sorority is making plans to attend the Baldwin Wallace Sing and to visit Delta Iota Chapter of Phi Mu at Baldwin Wallace. The sorority has been so busy with the rush parties that all Gerry Lewis can say is, "Thank heaven, its over." But the sorority did enjoy it all.

The Sig Sig's have appointed Nick Bilet as Sergeant-at-Arms for the fraternity. In this capacity he also becomes chairman of the Discipline Committee. The second rush party was held on March 30. It was held at the Willow Ranch on 422.

The Nu Sigma Rho's have elected a few new officers. They are Ray Melowski recording secretary, who succeeds Jerry Thomas and Gil Prokop, vice president who replaces John Stasko. Tickets for the Jazz Concert, which is to be held Tuesday, April 19 at 8:30 p.m. are now on sale and

## Junior Prom Court Shown

Junior Prom Queen and her court are (l to r) Marcia Geiger, who will reign over the festivities on April 15, Shirley Aey, Elaine Ohl Joan Pavlov.

can be procured from any of the members. The price is 75¢.

On Tuesday, March 22, the fraternity's second rush party was held at the American Legion. The winner of the Easter Suit Raffle was Joe De-Rosa of Hillsville, Penna. Joe is a senior and will be able to make good use of the suit as graduation is nearing.

### Party Held

The Kappa Sig's recently held a date party at the Venetian Gardens on March 19th. A party was also held at the MaFe Club with the Delta Chi night school sorority and one is being planned with the Student nurses. Plans are now being made for a trip to the Chapter at Waynesburg.

For the Outstanding New Active of the month, Paul Malenky was chosen. Harry Joyce was appointed chairman of the Dinner Dance Committee to be held June 4. Dude Lawrence is new chairman of the Ways and Means Committee which Bill DeLeo has finally revoked.

John Lane is going to be married to Janis Abrigg, sister of George Abrigg, on April 9. Brothers will be in the Wedding party. (Oh well, it's something like that.) Ward Morriscoe has decided to get a haircut. It's a crew-cut. The Kappa Sig's are glad to have Sam Pagano back as an active, now.

Sig Eps are holding their second rushing season this semester. They are also planning to install on this weekend their pledges from the first pledge season.

A good note to add is that, during the weekend installation activities, Sig Ep actives and pledges will attend church together on Sunday morning.

Former Sig Ep Vice-President Sam Drake is out making money by selling insurance to get caught up on back dues.

Confucius didn't say: There are always plenty of restaurants where you can eat dirt cheap.

"Why did you leave your girl's house so early last night?" asked one youth of another.

"Well, it was like this: We were sitting on the sofa and after we had talked for some time she turned out the light. Guess I can take a hint."

## Rifle Team Places Third In Matches

The Youngstown College Rifle team placed third in an Invitational Rifle Tournament held at Oberlin, Ohio on March 25 and 26, against teams from Oberlin College, Gannon College, and Case Institute of Technology.

The Penguin Sharpshooters could fare no better than third in this two day contest, despite the fact that they were only twenty-seven points out of first place.

Robert Hixenbaugh, a member of the Youngstown team, fired a score of 748 out of a possible 800, to win a \$10 gift certificate for second place honors in the individual awards.

### FINAL TEAM SCORES

Team	Score
Gannon College	3600
Oberlin College	3586
Youngstown College	3573
Case Institute of Technology	3452

### INDIVIDUAL AWARD WINNERS

Team	Score
Brighton, Gannon College	749
Hixenbaugh, Youngstown College	748

Other members of the YoCo team competing in the event were Arrel Doane, Edward Evaniuk, Willis Wolfe, and James Monkie.

## Dykema, Harders Attend Conference

Prof. Karl W. Dykema, director of the division of languages and literature of Youngstown College, and Dr. and Mrs. Kelsie Harder of the English faculty, attended the conference on college composition and communication held at the Hotel Morrison, Chicago last weekend.

Mrs. Harder was serving as co-chairman of one of the work-shops of the conference and Dykema was acting chairman of the nominating committee.

## Looking Around...

Bob Craine and Jim Crowe

It's just as unbelievable to us as it (no doubt) is to you that George Miller (we call him "softy" now) let us write the column again. Some say he's letting us (by our writings) incite a lynching party with the adorable (we think) necks of yours truly as the main event. We prefer to believe that the numerous fan letters we wrote praising our efforts completely fooled the old boy -- but that is neither here nor there. As the great Bard once said, "We are not here to bury Caesar ----" which has no bearing on the situation whatsoever, but we feel it reflects our intellectual capacities.

Our poor tired old eyes (pushed back in place long enough to write this thing) have never seen the likes of the mass of feminine pulchritude pledging this season. (They tell us they've been here right a long - must be those crazy costumes that make them stand out - baseball caps - yellow socks - sailor hats - shoulder bags - and what have you). The girls wearing this apparel are, we think, some of the prettiest and nicest girls in any college in the world, (Phone RI-69223 - available any night except Good Friday; we've got a date that night) Among those bidding farewell to their sanity are - Joan Verba, Gloria Katula, Laura Dittler, Janet Smeltzer, Peggy ("you all") Tiller and Peggy White. Some say we are prejudiced and never mention boys names. To these, we point with pride to our by-line. (We're boys - ? -) We know which side our butter is breaded on.

Congrats are in order for Tony DeAscentis, Bill McCabe, Frank Beck, Marty Martin, Jim Corbett and the others that sparked the Kappa Sigs to their victory in Inter-Fraternity play.

Aubrey (the Cat) Radcliffe, still as jolly as ever (and him a Senior) and Ernie Graves, were seen standing outside at recitals - what for, Ernie? Lose something? Paul Casswell is smoking a peace pipe in Dr. Riley's Class on Indian Religion. (It won't help the grade, Paul), Jean White and Ronald Hatch were no less than terrific in the Dana School production of the Marriage of Figaro. They were ably assisted by Bernadette Knapic, Eddie Maykowsky, Eugene Crone, and Eleanor La Volger. Thanks, Kids, a performance like that is the best kind of publicity for the College.

We heard George Washington was in town the other day and stopped long enough to chop down the tree in front of Ford Hall. Who's the guy who said "March goes out like a lamb?" A hermit, no doubt! If it isn't a snow storm, it's a tornado. Speaking of hermits, Gomer Lewis has been harassing his pupils at Fitch High (where's that?) with surprise Algebra tests. Gomer walked triumphantly into class last Tuesday and announced - "This test will be given on the honor system, so everybody spread out!" Asking one of his pupils, "Billy, how far are you from the correct answer," he received this reply. "About two seats, sir."

Any pledge seeking advice on how to get along with their actives, please note - private conferences are being given on the second floor phone booth. Knock twice and ask for Bob or Jim.

### WHO'S ENTITLED TO NEONS?

Students who have paid their \$5 Student Activity fee for the last two semesters are entitled to receive NEONS. Any student who has only \$2.50 paid toward a NEON may pay the balance of \$2.50 and also receive a NEON.

Any part time Student who has not paid any money toward the purchase of a NEON may purchase one by paying \$5 to the Cashier's Office in the Main Building. No payments will be accepted until the book comes out, which will be early in May.

### Letter To The Editor Penguin Progress

Have you ever tried to study in the library? If you have tried, you know that it is impossible to accomplish anything worthwhile because of the constant noise and confusion that is always going on. Any transfer student can tell you how amazed he is at this deplorable condition which is never tolerated at other universities, colleges, or even most high schools.

This is something you would expect to find in a junior high school. Hardly any effort is made to stop the loud talking and constant stream of traffic to and from Tod. If those persons in charge cannot run the library as it should be run, then Youngstown College should find someone who can.

Chaos does not confine itself to the library. The cafeteria is the biggest gripe of the students. The atmosphere is depressing; the floors are filthy; the walls are drab; the food is monotonous; the help is not properly dressed; the place is badly overcrowded; the air is hot and sticky.

Everybody knows that the college doesn't have enough money to build a decent student union. But the college does have an obligation to its students which it is not fulfilling - namely providing sanitary, adequate eating facilities where food can be enjoyed.

A little paint on the walls, daily washing of the floors, a rotating menu, and co-operation by the students - these are but a few of the things that could be done to make the cafeteria respectable. Today, it is the shame of the campus!

Youngstown College must provide some kind of recreation facilities for its students. The basement of the library is an ideal spot for a temporary recreation hall. Last semester, a petition was endorsed by many students and sent to the administration, asking if the basement could be fixed up a little and outfitted with some lounge chairs, ping-pong, card, and chess tables.

Many reasons were circulated why Youngstown College could not build the recreation hall as the petition asked. These various reasons are more important than the valid will of the student body.

Youngstown College is trying very hard to become a big-time school through outside publicity and athletics. But it is failing because it doesn't have the respect of the student body. Many students attend Youngstown College because they have no other choice - they would gladly go somewhere where students are offered something besides classrooms. Until the college can win the respect of the students by giving them what they deserve, Youngstown will remain a second-rate institution.

The faculty and instruction of Youngstown College are excellent, this writer wants to know why the rest of the school can't be brought up to this first-rate level. Anybody care to comment?

Signed, Willy - a reform-minded Penguin.

For full information contact your nearest VETERANS ADMINISTRATION office.

### "Jazz In Concert" Coming

Men participating in the "Jazz In Concert" to be presented by Nu Sigma Rho fraternity on April 19 at 8:30 p.m. are (l to r) Joe Parlino, Paul Mesicko, Ted Hydros and (seated) John Petrone.

Nu Sigma Rho fraternity is going to sponsor "JAZZ IN CONCERT". The second annual concert will be on April 16, at Strouss Auditorium at 8:30.

Live jazz as yet hasn't found a large audience in this area because of the lack of establishments in which to play. Musicians are unable to express themselves because of this lack of facilities. This is the principle reason stated by the Nu Sigs for sponsoring this concert.

The musicians to play at this concert are Ted Hydros and his orchestra. The members are: John Petrone, piano; Steve Zordich, bass; Jim Rose, drums; Mike Lupo, trumpet; Kenny Anderson, tenor sax; Frank Ciccarella, tenor sax; Ted Hydros, tenor sax; and Jack Knable, baritone sax.

### Support Asked For Yocohoocy

by Agnes B. Cassidy

"If you can sing, dance, or act, why not sign up for Yocohoocy?" That's the word from the Drama Guild members.

"There are lists in the cafeteria, main building, and back stage. Why not sign your name to one of these lists and participate in Yocohoocy?"

Drama Guild President, Gary Norris, states, "Remember that you can help the student union by participating, since the student union will receive the proceeds from Yocohoocy."

At a recent meeting a committee meeting was held to discuss work plans for apprentices. This committee is composed of Chairman, MarriAnne Bartik, Lee Ledgerwood, Pat Bea-com, Nick Edgar, George Beelen and Agnes Cassidy.

### Seminars Offered Students

Three holiday Seminars for college students in England, France and Switzerland have been linked to make an unusually attractive tour for American students this summer. Sailing from Quebec July 4, students will have some days in London followed by a week end with a number of British young people.

In Iraq, a man never takes a girl out until he marries her. Over here, he never takes her out afterwards.

The local union was picketing the best downtown hotel. It seems that on this very same day several men from the electric company were in a manhole fixing some cable. Unfortunately one of the union men fell in.....Moral to this story: Close cover before striking!

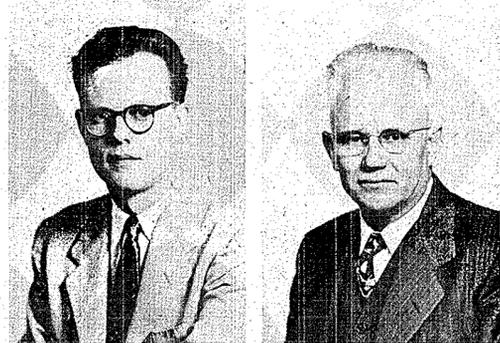

She: "Do you love me?"  
He: "Yes."  
She: "Would you cry if I died?"  
He: "Yes."  
She: "Show me how much you would cry."  
He: "Die first."

### Is Flight Grad

PENSACOLA, Fla. -- Graduated from the U.S. Naval Pre-Flight School here was Naval Aviation Cadet Nicholas Pacalo, son of Mr. and Mrs. John M. Pacalo, Sr., of 607 Davite Ave., Campbell, Ohio.

Cadet Pacalo attended Youngstown College before entering the Naval Aviation Cadet Program through the U.S. Naval Air Station at Akron.

### History, Chemistry Featured

Two future speakers of the Student-Faculty Talks are (l to r) Dr. Verne Bullough, of the history department and Dr. Eugene Scudder, head of the chemistry department. Dr. Bullough will speak on April 19 and Dr. Scudder on May 3. Student Faculty Talks are held on the even Tuesdays of the semester at 11 a.m. in the audio-visual room of the college library.

### Newmanites Sponsor Free Miniature Carnival

There will be a Newman Club meeting, this coming Sunday night, April 3, at the Catholic Action Center on West Rayen Avenue.

With the Rosary, the meeting will start at 7:45 p.m. A short business meeting will be followed by Rev. Paul M. Petric's fourth discussion on marriage problems.

There will be a miniature Carnival set up in the two adjoining rooms. Twelve concession stands will supply the members with fun and prizes. The usual dancing will take place after the meeting. Refreshments will be served.

Applications for the regional convention will be accepted after the meeting. This convention will be held in Kentucky on the 22, 23, 24 of April.

In France, American and French students will gather at Royaumont, about 20 miles from Paris, in a marvelous 13th Century Abbey now converted to non-profit, non-sectarian cultural activities. In Switzerland, the Chalet les Bosquets located in the Les Diablerets Alps near Geneva, has been selected as the center for discussions and recreation.

The travel, social and educational activities are being arranged by World Studytours, a non-profit agency, chartered as is a private college, for educational purposes only.

All expenses, from Quebec, July 4, back to Quebec on August 16, come to \$830. Other Studytours stress politics, music, art or literary landmarks and range from \$595 (economy tour) to \$2725 (for a trip around the world). Information is available from Dr. Goodwin Watson, Box 523, Rye, N.Y.

His Symptoms - Maybelle - "Really, I think I just swept that new man off his feet. He could hardly speak."

Grayce - "Well, go a little slow, dear - I hear he has asthma."

### Fulkerson Announces Prize Exam

Dr. Fulkerson wishes to announce that the social science prize examination this year is scheduled for May 21 at 9 a.m. Students interested in competing should make a point of seeing him as soon as possible - or he may be reached by phone at his home in the evening.

He will explain the requirements and supply information as to the nature of the examination. First prize is \$150 and second prize is \$100.

Competition for this money has not always been vigorous, so students who have completed Social Science 101-102 and 201-202 (U.S. History) with good grades and have not won a prize in the past, and who are now in residence, may find it worth their time to get in the running.

Gardner - "Look here, boy, what are you doing in my melon patch?"

Boy - "I'm so glad you came along, sir - one of your melons broke loose, and I can't seem to find how to fasten it on again."

Wages can't meet high prices if they both are going in the same direction.

### Student Council Digest

Friday, March 11, 1955

Council Treasurer Jerry Missory talked to George Miller, editor of the JAMBAR regarding the expenses of the JAMBAR staff. Most of their expenditures should come from the appropriation given the JAMBAR in the budget. Miller states his only expense was for transportation.

A motion was made and seconded to reimburse at the end of the semester to the Editor of JAMBAR up to \$25 for transportation expenses incurred during the semester. The editor will turn in an itemized monthly report to the Student Council treasurer. These reports will be totaled and refunded. The motion carried unanimously.

Richard Troxil reported that there will be a N.S.A. convention of Ohio and Indiana April 22 to 24 in Cincinnati. He will have more information on this later.

Social committee chairman Joan Pavlov reported that a band for the Junior Prom has not yet been found. Jay Troy reported Marcia Geiger is the Junior Prom Queen. Troy will be replaced on council by Bernard Voitko.

Edward Maykowski is going to have an article put in the Jambar explaining the band situation and their need for replacements.

Neil Beard has talked with the manager of the Elm's ballroom and was told that the students were not allowed to park there. At First Christian Church the students are allowed to the edge of the church but not beyond the rear of the church.

A committee of Beard, Moore, Foster, Bennett, and Missory will look into the parking situation. Fry reported that the Wick Avenue parking lot will be paved in a strip twenty feet from the front to the back of the lot.

Gilbert Marsh is the new chairman of the Discipline Committee.

Friday, March 18, 1955

President Noreen Bennett asked Chugden about the tennis courts. He said that he saw Dr. Webster and that a requisition for a new net was accepted by the business office. It will be a permanent net and Chugden will see it is put up.

The committee reports were then given. Joan Pavlov reported the Junior Prom will be held April 15 at Stambaugh Auditorium.

Moore reported that we could do nothing about the parking situation at First Christian Church as it is not college property. He will see the Elm's Ballroom again to see if certain students could be permitted to park there in the mornings.

Foster moved, seconded by Lavin, that George Miller should be reimbursed \$25 for transportation expenses since the motion passed at the last meeting did not take into consideration his expenses of last semester.

Miss Boyer stated that there are many men in the college who could qualify to join the American Legion. By doing so, they could use the parking lot on Spring Street for \$10 a year and also receive other benefits.

## Gamma Sigs Only Worry About One Man

Shown above (l to r) are "Izzy" Splain, "Butch" and Alma Mackin, President of Gamma Sigma Sorority. The Gamma Sigs have made "Butch" their own special project.

There are three kinds of women: the beautiful, the intellectual, and the majority.

## Opportunities Listed For Foreign Travel

This year will see an all-time record number of students visiting Europe.

Students still interested in joining a chartered College Motor Tour of Europe this summer will find a few spaces still available with the University Travel Club of New York.

When the remaining spaces are booked no more students can be accommodated because of the lack of critical trans-Atlantic transportation and suitable European hotel space.

### Depart in June

Remaining tours depart New York June 29th and June 30th. All-inclusive cost, including trans-Atlantic tourist class steamers, is \$1295. Air optional for additional \$225. Arrive New York from Europe September 3rd and September 7th.

April 10th is deadline for signing up. For brochure and details write University Travel Club, 33 East 48th Street, New York City.

The University Travel Club's popular tours are for bona fide students only. Groups are limited to 30 students only.

### Covering Highlights

Covering the highlights of a student's "dream trip" in Europe, as well as interesting off-beat "finds" that are Europe's charm, each student group enjoys its own private specially chartered modern bus throughout the tour.

Besides an experienced university graduate tour leader escort from New York, each student group enjoys the services of its own multi-lingual tour conductor throughout Europe and a multi-lingual bus driver, as well as local English-speaking sightseeing guides.

Private charter buses have proved the most comfortable and convenient way of doing Europe. They allow a freedom of movement not possible any other way.

Another advantage is enabling students to see the maximum in the limited time available during the brief summer vacation.

Whiskey cures snake-bites.

This blue-eyed baby boy is one of the projects of the Gamma Sigma sorority. Butch, whose real name is Demetri (a Serbian name) was born August 20, 1953 and was obtained by the sorority about a year ago. Information about him came from Marlene Schaufner, president of the sorority last year.

Butch's mother had died at birth and his father, who had just come over to this country needed aid in taking care of the baby. His neighbors, an elderly couple offered to take care of the baby.

However, they are not able to afford the expense. Therefore, when Marlene told the sorority of the problem the Gamma Sigs had a clothing drive for him and decided to adopt him.

At Christmas and on his birthday, the sorority has a party for him and provides him with presents. Izzy Splain is the chairman of the baby. The sorority provides all the clothing for him and visits him often.

Millie -- "I've set my heart on a Rolls-Royce."

Billie -- "Good! and I'll bet that's the only part of your anatomy that will ever set on one."

"I want to do something big-something clean."

"Why don't you wash an elephant?"

 July 21, Saturday, 9-12 noon . . . . . Registration for second summer term  
 July 23, Monday, 8:00 a.m. . . . . Second half of summer session begins  
 August 25, Saturday, 12:00 noon . . . . . Summer session ends

### What young people are doing at General Electric

## Young engineer is responsible for design analysis of \$3,000,000 turbine-generators

The average large steam turbine-generator costs \$3,000,000 and takes two years to build. It is one of the biggest pieces of electrical equipment made. Yet its thousands of parts are put together as carefully as a fine watch. Even a small change in design can affect the stresses and vibration of the turbine, and the way it performs. At General Electric, several men share the responsibility of predicting those effects before the turbine is built. One of them is 29-year-old E. E. Zwicky, Jr.

His job: analytical engineer

Here's what Ted Zwicky does. He takes a proposed mechanical design feature, describes it mathematically, breaks it down into digestible bits, modifies it, and feeds it to electronic computers. (It may take two months to set up a problem; the computers usually solve it in twenty minutes.) Then Zwicky takes the answers from the computers, translates and interprets them so they can be followed by design engineers.

### 23,000 college graduates at General Electric

This is a responsible job. Zwicky was readied for it in a careful program of development. Like Zwicky, each of our 23,000 college-graduate employees is given a chance to find the work he does best and to realize his full potential. For General Electric believes this: When young minds are given freedom to make progress, everybody benefits—the individual, the company, and the country.

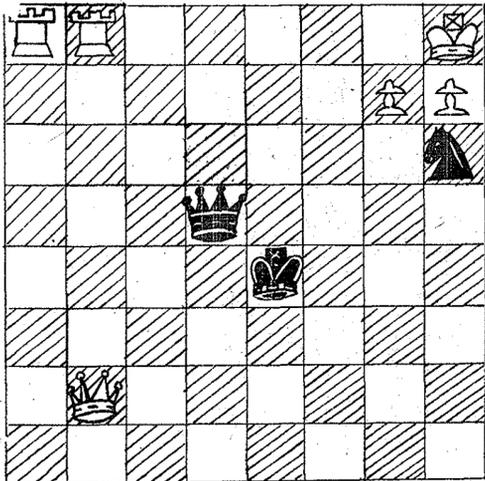

TED ZWICKY, B. S. in EE from the University of New Mexico, Class of 1945, joined General Electric after a year in the Navy, completed our Advanced Engineering Program in 1950.

Progress Is Our Most Important Product

GENERAL  ELECTRIC

## WRA Travels For Playday

During the week end of March 18, fourteen members of the W.R.A. traveled to the University of Cincinnati to attend a Playday. They participated in various activities along with 12 other colleges.

The playday began on Saturday morning with a luncheon at 12:30 and came to an end with a tea at 4:30 p.m.

The group left Youngstown at 1:30 Friday night going to the Fountain Square Hotel. Then after the playday, they traveled to Columbus and stayed at Fort Hayes Hotel until Sunday afternoon when they began to travel back to Youngstown. The trip was made by car with Miss Lowry, Miss Laborde, and Miss Stahman doing the driving.

### Tourney Under Way

A volleyball tournament will get underway this week so any group or persons wishing to participate turn in team line up at the Physical Education Office at your earliest convenience. The games begin promptly at 4 p.m. and the last game ends at 5:30.

### Thanks Extended

The Physical Education Department and W.R.A. wish to extend their thanks to all faculty members and students who helped out on the Modern Dance Concert on the evening of Monday, March 21.

guys. Their reputed salary is 9,655 S&H Green Stamps. Wow!

### Knaughte Runs Wild

Tony Knott scored 9 1/2 points against Eskimo U. to establish a new Penguin record. No other player in history has been able to reach this fabulous figure. Nice going Mayberry.

I just got a call from Dom Rosselli. He tells me that his nine foot son

## Santillo AC Wins Intramural Title

The Santillo A.C. is the winner of the Intramural Championship for 1955. In the playoff's the Santillo A.C. proved too tough for the Newman Club and the Indians.

In the semi-finals Santillo defeated the Newman club 56-48. Then in the finals the Santillo's trounced the Indians 60-48.

The champions proved themselves to be too well balanced and powerful for the other teams all throughout the regular season.

### Members Listed

The members of the team include:

Paul Santillo -----Coach  
 Jim Vecchiarella  
 Dave Kimmel  
 Dick Franko  
 Bob Garcar  
 Dom DelSignore  
 Tony Cougras  
 Henry Pezzuolo  
 Angelo Pezzuolo  
 Mike Smith  
 George Sveda  
 Ronnie Stoops

"Shorty" has enrolled late. "Shorty" had difficulty deciding between Yoco and Kentucky College for unmarried Women. However, Shorty said that the baskets at the field house here are lower. Glad to have you aboard.

That finishes it for the April 1st issue. Maybe now you will understand more about this column. If it still puzzles you, see your psychiatrist.

### APRIL FOOL

"Did anyone in your family ever make a brilliant marriage?"  
 "No one except my wife."

"This liniment makes my arm smart."  
 "Why not rub some on your head."

"Does your wife support you?"  
 "No, but she holds me up every payday."

### SPORTS QUIZ

by Ed Sferra

1. In baseball, what great player was known as the "Flying Dutchman"?
2. Mel Ott holds the all-time National League home-run record. True or false?
3. In football, who originated the "All American Team"?
4. In boxing, a referee uses what three words of command?
5. Bob Mathias is the only man ever to win two olympic decathlon championships! True or false?

1. Honus Wagner.
2. True.
3. Walter Camp.
4. "Box", "When telling fighters to halt the action."
5. True.

## Shag's Sport Scoop

By Joe Shagrin

Things are really poppin around here this week. Truthfully I wouldn't have given two cents that there would be any new sports scoops, but when Editor Miller told me I'd better get on the ball or lose my job, then I desperately clung to the grapevine and this is what I came up with.

Congratulations are in order for Coach Dom "Big Boy" Rosselli on being voted the A.L.A. Coach of the Year Award. This is an annual award presented by the American Liars Association. It was first instituted this year. Congratulations, Dom!

### Scoop of the Year

I have just received a news flash! Robb Freeman, the star of the Ohio State basketball team and an All American in his own right, (Who said he was wrong?) is going to transfer to Youngstown next year. May I quote Robb, "Charberts is too much for me anymore. I've heard so much about Mill Creek Park and YoCo's student union that I no longer could resist it."

We also hear that "Goose" Tatum of Globetrotter fame is also coming to YoCo to attend school. This is the reason he deserted the Trotters. Says Goosey, "It is never too late to get some learning. All the Globetrotters do is play basketball."

On the serious side of the sports however is this interesting tidbit. Big Patsy Pollifrone is going to coach the baseball squad this year. Pat is replacing the high-salaried Joe DiMaggio.

### You're a Leach Webby!

FLASH ... Willard Webster, the effervescent Director of Athletics has just whispered to me that All Ohio Center Rex Leach has only this moment been inked to a 1955 contract. The contract calls for a base pay of two bills a month, with a bonus stipulation. The small print naturally exempts Rex from Orientation.

It was a package deal, reports Dom. Larry Huston, Jim Cramer, Jerry Von Kaenal and Doc McShane were thrown in for good luck. This starting five is expected to be the highest salaried in the Big Ten.

Webster also announced the signing of Homer Floyd of Massillon and Johnny Goodrich of Canton McKinley. The only thing these two asked for was no eight o'clock classes. Nice

## Tennis, Golf Rules Given

The Men's Intramural Golf and Tennis Leagues will start as soon as the weather is suitable. All men interested in participating are requested to sign up at the Athletic Office. Play is expected to start around April 11. Following are the rules of the Leagues.

### GOLF

1. Due to the short period that we have to run off the Tournament, it will be important that you play at least one match off each week; two if possible.
2. Report your results to the Athletic Office or drop a note in Box 92.
3. Match will consist of 9 holes by Match Play System.
4. Winter Rules will govern: The difference between winter rules and summer rules is that in winter rules you are allowed to tee up the ball on the fairways.
5. It will be the responsibility of each player to contact his opponent for that week and make necessary arrangements to play off the match. Don't wait for the other fellow to call.
6. All matches will be played at the Municipal Golf course unless both parties mutually agree to play elsewhere.
7. Get out in twosomes or foursomes and enjoy yourself.
8. Trophy will be awarded to the winner of the league.
9. The league will be divided into two divisions. The winner of each will play off for the Championship.

### TENNIS

1. Arrange time and court to suit yourselves; but be sure and play off at least two matches a week. We may not have the time to replay any matches because of examinations.
2. Balls will be provided by the Athletic Office.
3. Best two out of three sets will be considered a match.
4. The winner should report the results to the Athletic Office.
5. Players matched should contact each other and make arrangements to play.
6. If you can play off any matches scheduled ahead, do so. Get in two matches a week, it doesn't make any difference which ones.
7. Top two in each league will play off for Championship.
8. The winner will receive a trophy.

All Teams wishing to enter the Men's Intramural Softball League are requested to submit their entries to the Athletic Office. A meeting will be held Wednesday, April 6, at 12:00, at the Athletic Office, to make out the schedule and discuss the rules. All teams wishing to enter should have their representatives at the meeting.

We intend to start the league as soon as the weather is suitable.

# Money Galore or Can I Get Some?

by Eddie Simons

It's spring! And you know what that means. The leaves start to come out, the flowers start to bloom, and man starts to get a new flow of adrenalin circulating through his blood stream. This new surge causes a much keener interest in the opposite sex. Such a keener interest was awakened in Miles Farthingame.

Miles was a normal chap, in most respects, but for the fact, he was a bum. His ancestors were of the royal English blood, but Miles at 21 simply couldn't adapt himself to work. Hence he was a bum. But, he was a bum with a lady friend.

Miles, it seemed, was walking through the park looking for peanuts some nearsighted pigeon might have overlooked, when he spied Hortense Schloggenmeyer.

Was a Dream

She was a dream .. in fact, a nightmare. Miles loved those lips, those teeth, those ears. THAT EYE, (conveniently located in the middle). To put it mildly, Miles and Hortense were in love. But the tragedy struck. Miles was drafted.

Miles just took it in his stride and submitted willingly, hoping all the while for the day to come when he and Hortense could be united in marriage. But Miles wasn't just hoping, he was working for that day!

Miles was scrimping and saving his money. Every cent he earned went into his savings account. He would stay in the barracks during his leave time to earn money, shining shoes and pressing shirts. In short, he was miserable, but he was getting closer to the day when he and Hortense would be one.

Hitch Was Over

After two years his army hitch was over. He was a civilian again, with three hundred dollars to spend. His best army buddy, Sam Roberts, gave a farewell party for Miles and didn't see him until three years later.

When Sam next saw Miles, Miles was driving a new Cadillac convertible, wearing the most expensive clothing, and all at the age of 26. He had married Hortense and was very happy.

"Well how did you do all of this in just 3 years," Sam asked?

"Well," Miles said. "When I was discharged, I had three hundred dollars and nothing else. I married Hortense and we both worked day and night. We scraped up every cent we had and put it in a savings account. When we had over \$1000, we bought a small magazine stand.

Stand Did Well

"The stand did well and every cent of profit was ploughed back into the business. Hortense and I lived very simply, all the while. Then after three years of this meager existence, my uncle died and left me a million dollars. Simple, no?"

"Simple, yes!" Sam said, staggering out of the door and waving goodbye, never to see either of them again!

## Dr. Smith Mentioned In 'Times' Article

The following appeared in the Japanese "Nippon Times" of February 6, 1955, under the title "American Scholars to Lecture At Cultural Center in Tokyo."

"The following Thursday, February 17, also at 3 p.m. Dr. Elbert Smith, Professor of History at Youngstown College, Ohio, will give an inside picture of the foreign policy mechanism of the U.S. in a talk entitled "The Making of American Foreign Policy."

## Fellowship For Spain Is Offered

Five fellowships for study in Spain are available to American graduate students for the 1955-56 academic year, it was announced today by Kenneth Holland, President of the Institute of International Education, 1 East 67th Street, New York City.

The awards, given by a private donor, are administered by the Institute. Closing date for application is

May 1, 1955. The fellowships provide tuition, maintenance, travel and incidentals.

- (1) A bachelor's degree by the time of departure;
- (2) Demonstrated academic ability and capacity for independent study or research;
- (3) A plan for advanced study at a Spanish University or for research;
- (4) A good knowledge of Spanish;
- (5) Good moral character, personality and adaptability;

- (6) Good health; and
- (7) Ability to provide for any dependents.

Applications may be obtained from the U.S. Student Department of the Institute of International Education.

A physics professor called on one of his students to list some characteristics of heat and cold.

"Things expand in heat and contract in cold," answered the student. "Give an example."

"In summer," answered the student, "the days are long and in winter the days are short."

### CAMPUS "STAND-OUTS"

Man Most Likely To —

"He's got L&M ... and L&M's got everything!"

**Dig those L&M's!**—America's best filter cigarette. What a filter—that pure white Miracle Tip really filters. And you get all the taste! Campus after campus agrees—"L&M stands out from all the rest!"
