

# Greek houses may be in violation of zoning ordinances

Six fraternity houses and one sorority house may be in possible violation of city zoning ordinances and may conceivably be forced to move, it was learned yesterday by the *Jambar*.

According to Mr. Frank Zarlinga of the City Planning Office, several Greek houses are located in districts zoned only for single-family residences and may have to move. Fraternity and sorority houses are not designated as single family dwellings and therefore could be in violation of specific zoning ordinances. The houses in question

are the Alpha Omicron Pi sorority house which is located in an R-5.5 district which permits only one and two family dwellings; the Delta Chi fraternity house which is located in a R-7.2 district which provides for only single family residences; the Sigma Pi, Tau Kappa Epsilon, and Phi Kappa Tau houses, all located in R-5.5 zones; and the Sigma Tau Gamma and Theta Xi houses both located in R-7.2 zones.

All other fraternity and sorority houses are in properly zoned areas and are not in any zoning violation. No action has been taken against

the organizations as yet, since the matter is still in the investigatory process. Presently, a city zoning inspector is compiling information for the City Planning Office. The matter will be taken before the City Planning Office and possibly City Council when the information becomes clear.

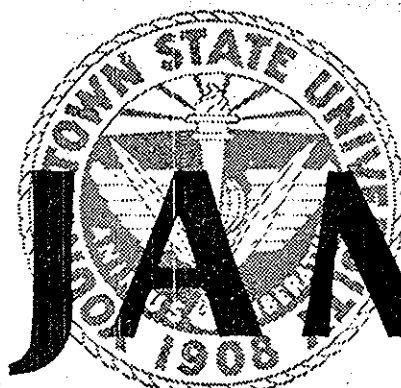

All fraternities have been notified by the zoning inspector of their zoning status.

According to Mr. Zarlinga, the matter was brought to light two weeks ago when an architectural firm inquired about building a

convalescence home on some property on North Heights Avenue. The firm was told by the Planning Office that the property was not zoned for such a structure and it could not be built there. The architecture firm then questioned the presence of Phi Kappa Tau and Sigma Pi fraternities which are both located on North Heights.

The organizations may or may not be subject to the new zoning codes which were passed in February 1969, depending on their past and present zoning (cont. on page 3)

Vol. 48 - No. 13

## Council elections begin Monday

Voting for Student Council representatives begins Monday and will continue through Tuesday at four polling places around campus.

All full-time students can vote for their representative from their respective schools from the hours of 9 a.m. to 4 p.m. and 6 p.m. to 8 p.m. Monday and Tuesday, November 9 and 10, at voting booths in the lobbies of Kilcawley Dormitory, Engineering Science, Elm Street School, and Rayen School.

In all, thirty-four candidates are seeking eleven seats in six schools. Twelve candidates are running for four seats in the College of Arts and Sciences where two incumbents seek re-election. In the School of Business, eight candidates seek two Council seats. In the School of Education, six candidates are campaigning for two seats. The seat is at stake in the school of Engineering where three candidates are running. Two candidates are battling for one seat in the School of Music. Four students are competing for two seats as representatives-at-large.

In addition to the Student Council races, sixteen students are running for four senior class officer positions. The senior class election will be held in conjunction with the council election.

A complete list of the candidates, their biographies, and comments, as well as a sample ballot and *Jambar* endorsements, begins on page 6.

FLYING HIGH - A helicopter lowers air conditioning units on the new Beeghly Physical Education building. Scheduled completion date for the building is fall, 1971.

## Swimming coach says he quits

Ralph L. Johnson, head swimming coach at YSU, has submitted his resignation to Athletic Director Mr. Willard Webster, it was learned yesterday.

Johnson, in his seventh year as head swimming coach, had guided Penguin swimmers to six straight winning seasons.

The resignation has neither been officially accepted or rejected by the University as yet, according to Mr. Webster. He said that a joint statement on Johnson's resignation will be made by both University President, Dr. Albert L. Pugsley, and himself on Monday.

Coach Johnson confirmed that he, in fact, had submitted his resignation, but declined to elaborate on the reasons for his resignation. He stated that he would have more to say on the matter after the University's statement.

## No action taken against Phi Deltas

There will be no action against YSU's Phi Delta Theta Fraternity by the administration for the fraternity's lack of official affiliation with the Phi Delta Theta National, Mr. Joseph Luppert, director of student activities, said yesterday.

"After speaking with the national secretary, I was satisfied that the (cont. on page 7)

## Administration, Students Dispute Cause Of Campus Violence

WASHINGTON (AP) — College administrators and faculty members differ sharply with students over the primary cause of campus violence, but an overwhelming majority believe university confrontations are waning, the President's Commission on Campus Unrest reported Thursday.

The most likely targets for violent disruptions this year are schools enrolling over 10,000 with low admission standards and Reserve Officer Training Corps units on campus, the commission's report added.

The assessments were contained in a poll of college presidents, faculty senate chairmen and student body presidents. The poll was taken by

the commission in July.

Administrators and faculty members cited the Vietnam war as the primary cause of violent and sporadic outbursts. Significantly, students felt that lack of communication was the primary factor.

As for future confrontations, 66 per cent of the students, 70 per cent of the administrators and 76 per cent of the faculty members believed violent confrontations would decrease this year.

Most authorities listed black student demands and student discontent over university regulations as the two major internal issues that could touch off campus disorders. The Indochina war was cited as the overwhelming external issue that could incite violence.

State authorities were asked to refrain from interfering with college affairs and to grant more funds to the universities. Greater communication was stressed for local communities.

On the campus itself, administrators were urged to establish better channels of communication with students. Students were urged to work within the system.

The questionnaire was sent to all of the nation's 2,789 accredited schools, the commission said. Replies were received from 1,890 institutions.

## Varsity Quits; Accuses Coach Of Inhumanity

DETROIT (AP) — The University of Detroit's entire varsity basketball team — three white and 13 black players — have announced that they will no longer play under Coach Jim Harding.

In a letter to Father Malcolm J. Carron, S.J., the university president, the players charged that Harding's "failure to recognize us as human beings with human feelings, wants and desires has driven us to the point of psychological depression."

As long as Harding is coach, the players said, they will not remain on the team.

Informed of the players' statement, Harding said:

"Then they won't remain on the team long. I am the head basketball coach and will be for the next three years."

Harding has taken a hard line towards his squad's revolt, which began when the 13 black players boycotted practice Monday over the suspension of two fellow-players.

At the time, Harding refused to divulge his reasons for suspending Gerald Smith and Dan Agee.

A delegation of 25 players, including several members of the freshman team, met with Father Carron Wednesday to discuss their grievances with Harding, but the president made no decision except to recommend that the players talk to Harding himself.

## Among Users of Dangerous Drugs-

# Doctors Discover Fatal Disease

LOS ANGELES (AP) - Eight doctors reported yesterday a newly discovered, sometimes fatal disease among users of dangerous drugs-especially Methamphetamine, known to drug users as "speed" or "meth."

By conservative estimate, 10 per cent of "speed" users will get the disease, one of the doctors said.

"Deaths occurring in young people using a large variety of drugs have often remained unexplained," the report said.

The disease destroys arteries leading to major organs-kidneys, stomach, small intestine, liver, pancreas and other organs, the doctors said.

The doctors, who published their report in the *New England Journal of Medicine* said they observed 14 patients with an

average age of 25 who had used drugs for periods of three months to five years.

They said four of them died of the disease, which they call "necrotizing angitis," meaning the death of an organ from inflammation.

Their report said because of so many drugs in use among the patients, including heroin, hashish, LSD and amphetamines, it was not determined which drug specifically caused the disease.

But combination use of LSD and methamphetamine, or her-

oin and methamphetamine, was most common in the group. Doctors said methamphetamine had been used in all but two cases.

But even in those two cases, Dr. B. Philip Citron told a newsman, "neither was sure of the drugs they had taken." He said a total of 50 young drug users have now been studied and added:

"I think we can now be a little stronger than we were in the report and say that methamphetamine probably is the cause of necrotizing angitis. We think it most likely is."

## Change

With the approach of Student Council elections, we're faced with a rather interesting paradox. How can we support election to a body which we proposed to be abolished?

We still strongly feel that Student Council, with its present constitution, is basically a powerless organization. Both President Pugsley and Student Government President Dan Crishon echoed these thoughts late last summer. Up to now, nothing has been done by Council to change this. We also have repeatedly said that Council's membership has not provided any responsible leadership whatsoever to the student body. Now, however, we have a chance to change this membership and its constitution.

For this reason, we have endorsed candidates running for Council. We feel that the students we have endorsed can, to the best of their abilities, provide effective and sensible leadership for all students. Our endorsements include those students who we feel will add a greater sense of involvement to Council. Our choices also include three incumbents who we feel have sparked an otherwise lack-luster Council.

We have also endorsed four candidates for Senior Class officers. Although we believe that such offices are essentially a farce, we have included endorsements to give students some directive in their voting.

We all recognize the fact that change, primarily by and for students, is needed here. We can think of no better way to bring about change than to elect representatives willing to bring about change.

## Letters to the Editor Wants Change In YSU Football

To the editor of the *Jambar*:

When are the Administration of Youngstown State University and the people of Youngstown going to wake up and start functioning?

### THE PROBLEM: YSU FOOTBALL

It's about time something was done to change the entire miserable program. But where do we start? The players, the schedule, or the coach? Obviously we can't get rid of the players. Well what about the schedule? With the talent that these players have we should have a harder schedule. Now what does that leave?

The late Vince Lombardi said, "Winning is a habit." Well unfortunately so is losing. Our current record speaks for itself (0-6-0). Looks like we're addicted.

Where does all this leave us? You know damned well where this leaves us. We need a new coach with a new program that didn't die with Knute Rockney.

The administration seems to feel that Coach Beede is immortal. Well wake up. He's human and his football program is a

failure. It is my belief that if a program fails you remove the cause and correct the situation. Coach Beede's record is a fine one until the mid-fifties. But he had failed to meet change. Let's face it, the one who survives is not necessarily the strongest but the one who best adapts to change.

The population of Youngstown is approximately 166,000 people. The enrollment of YSU is 15,000. What is the seating capacity at Campbell Memorial Stadium? With the new physical education building being built, I hope the athletic budget can find money to meet the demands of all programs, old and new, that have been centered around these facilities.

I am a graduating senior at YSU majoring in Health and Physical Education. Let's look at the problem from this standpoint. Physiologically and anatomically our players are no different than anyone else's. But physical conditioning is another story. Ever wonder why we have so many injuries? One reason—"Poor Conditioning". If this is the age of prevention,

why are we still in the age of cure.

It's coaches like Beede who set the physical education profession back 20 years. Unfortunately there is a large lack of cooperation between the physical education department and the Athletic (Football) Department at YSU.

If you don't feel motivated to speak out now, here's one last point to consider. In order for an institution and its programs to be successful, it must have good relations with the community. Sports is one of the best methods of gaining the support of the people. Football here is a failure—we have no support. Basketball is a success—we have support.

So maybe now you're thinking "I already know this." Well damn it, get busy and let the administration know it. Send your letters care of the President of Youngstown State University. "MAKE WAVES."

Dale D. Welk  
Senior  
Health & Phys. Ed.

## Questions Hettler's Impartiality

To the editor of the *Jambar*:

Look closely at your candidates for RAL. It is my opinion that Mr. Chuck Hettler would not represent the campus as a whole. On three occasions a bill has come up to change a Student Council constitution by-law that a Greek cannot hold an RAL seat. If the bill had been passed Greeks would have held RAL seats. Mr. Hettler voted on all three occasions; on the first vote Mr. Hettler voted against the bill, at the second vote Mr. Hettler voted present (meaning he was not for or against the bill), on the third vote held Nov. 2, 1970, Mr. Hettler voted for the bill. Could Mr. Hettler be

trying to tell us something? Like maybe he is going to serve a special interest group.

The following is taken from the *Jambar* October 30, 1970, vol. 48, no. 9, page 1.

"Chuck Hettler yesterday denied ever being a pledge of Phi Delta Theta or Sigma Beta Phi fraternity. In an interview with the *Jambar* yesterday Hettler said, "I don't want to see anything happen to the Phi Delta on campus. I want to see them become a chapter of the national fraternity since we've worked so hard at it."

The entire article dealt with the Phi Delta Theta fratern-

nity. So even though Mr. Hettler may or may not be a pledge, he must have strong affiliation with the fraternity to use such a term as "we've." The word indicates to me Mr. Hettler thinks himself a Phi Delta Theta, or something very close to a Phi Delta Theta.

For all the above reasons I do not think Chuck Hettler would make a good choice for RAL. An RAL should represent the student body as a whole, not just a special part, as Mr. Hettler looks like he will do. Remember this when you vote.

William L. Entrikin  
Sophomore  
School of Bus. Admin.

## Feels Coach Beede Should Resign

To the editor of the *Jambar*:

This is a reply to comments in the *Jambar* from Coach "Dike" Beede. I am not a student at Y.S.U., but believe I represent a great number of area sport fans. I believe if a poll were taken in Youngstown, the majority would agree it is time for Coach Beede to retire. As far as morale on the team being high, I dis-

agree. No matter what sport you play in, when you keep losing, your morale cannot be too high. There are a lot of good football players in this area, who would attend Y.S.U. if a coaching change were made. It is logical also, when you have good support at the games, which Y.S.U. does not, you will eventually have better teams, and then your morale will be higher.

Just ask Coach Beede why the basketball games are always nearly sold out. Winning is the name of the game. Not to win all of the time, but at least win once in awhile. For the good of Y.S.U. football, Coach Beede should resign after the last game. After being in the game for over 30 years, step down, Dike.

Gene Krystek  
Y.S.U. Sport Fan

## University Forum

*Radical - of or from the root or roots? going to the center, foundation, or source of something; fundamental: basic; as, a RADICAL principle.*

The use of the term radical in this country needs to be defined and clarified.

As is apparent from Webster's definition, the word radical does not, by definition at least, mean violent; it does not mean seeking to overthrow the government; it does not mean destruction for the sake of destruction.

Some people seek to define radical in these terms. I think there are specific reasons why that occurs. There are many people who oppose the Vietnam War, many who oppose racism and oppression of black and third world people, many who oppose destruction of our environment, these are popular causes now. The truth of these positions is more apparent every day. But who are the people who first called attention to the war, racism, pollution? It wasn't the liberal politicians. It wasn't the liberal university instructor. And it wasn't the liberal labor leaders. It WAS the radicals of this country, who first tried to deal with these problems. The proposals to bring our troops home was a radical proposal. The thesis that many of the domestic urban problems are a result of the racism within White America was a radical thesis (until a presidential commission reached the same conclusion.)

When the working people of this country were exploited to the point of starvation it was radicals like Samuel Gompers, Joe Hill, Big Bill Haywood, John L. Lewis, the steelworkers' Organizing Committee, and thousands of others who championed the cause of labor.

And now when radical demands like using the university for the benefit of the community rather than for the Defense Department are made, radicals are simply reminding the people that the priorities of this country must be for life and not for death. (This means we can no longer believe that spending over seventy billion dollars a year through the defense department is in the national interest, but serves the desires of a corporate few. This means we must come to believe that the wealth of this country, the technology of this country, must be used to rescue our dying urban centers, must be used to stop wanton destruction of our productive resources, must be used to create for all of us and for all mankind an environment that will foster the productive and creative capabilities of every individual.)

These radical solutions meet with opposition from the conservatives, from the middle-of-the-roader from the liberals, and from almost everybody who might have to alter his life or risk material possessions for the cause of social justice.

Now we can begin to deal with the question of how "radical" got to be a dirty word.

At any point when demands (and you know "demand" is a dirty word, too!) are made of the people who are in power that will necessitate the relinquishing of some of that power, they will try by any means available to suppress that demand.

Time and time again the facade to tolerating protest and dissent has been ripped away. It happened in labor struggles of the thirties. It happened during the civil rights struggles of the late fifties and early sixties. It has happened repeatedly throughout the last five years: Orangeville, N.C., Newark, Detroit, Watts, Berkeley, Chicago, Kent, the University of New Mexico, where eleven students were bayoneted. This violence, this irresponsible criminality, is condoned and justified by thoughtless, mindless statements like "radicals are always creating violence."

The reality is, as it has always been, that the violence is not a product of the people within the radical movement who might throw rocks or bottles, but of the structure that has systematically suppressed the rights of minorities, that has engaged in illegal, immoral wars, that has fostered a climate in which a Nobel Peace Prize recipient could be assassinated, a climate in which property is worth more than human life, a climate in which the continuity of life on the planet is threatened.

We need change, radical change, now.

Robert Ingani  
A&S Junior

## Letters to the Editor

### Views Fund As Attempted Robbery

To the editor of the *Jambar*:

I will be happy to concede that the trials may seriously jeopardize the political rights of every American, that those indicted deserve a fair trial, and in some cases may not receive one. I merely think that those feeling the pangs of charity should contribute themselves; in fact I'm certain most of these folks already have and are to be applauded in their unselfish altruism. But, those disagreeing should not be asked to help foot the bill.

Query: If the money were raised privately and the issue is

as popular as some would have us believe, wouldn't more be collected anyway? Answer (*and now we get to the gist of this thing*): No, as evidenced by the scanty amount collected from the students in solicitations on campus. As free as the liberal community is with its own money, is it remarkable how much freer they try to be with the money of others? Having exhausted their own resources, that \$1,000 from the Student Council must have looked awfully tempting, and, later, equally frustrating, in having eluded their grasp. Altruism? Or attempted robbery?

I'd like to thank the fourteen Student Council Members who voted against the Kent allocation. I'd like to remind Mr. Michael Miller that six cents per student may not sound like much, but that if every person in the country sent him half a cent he could retire in luxury for the rest of his life (no such luck, though). To Mr. Brad Woodworth of Oberlin my only piece of advice is to peek under his bed before going to sleep tonight; there may be a "Fascist Pig" hiding there, kid!

### Deplores YSU Library Facilities

To the editor of the *Jambar*:

The other day I wandered into the YSU library with the hope of acquiring information concerning elementary education. I had no fears since this material is so broad and concerns so many of the students here. My hopes were soon shattered as I stood before rows and rows of books covered with dust and cobwebs. I reluctantly brushed them aside and found the perfect books for my use. Once again I encountered diffi-

culty. These "perfect" specimens were dated anywhere from 1946 to 1959. This made research concerning modern education impossible.

For a "progressive" university, I think we have a very poor excuse for a library. We pay \$15 per quarter for a permit to get our cars stuck in a mudhole, and even more outrageous prices for books, yet, what do we get in return? There is dirt being moved around across from Kilcawley Cafeteria, and don't forget the new plastic coat hangers in the

Administration's offices, but isn't an effective library an important part of the improvement of YSU as well?

Well, in any case, I decided to curb my research for the day. As I was being frisked and advised of my constitutional rights on my way out, I couldn't refrain from saying "Fella, you wouldn't pay me to take anything of out this library."

Karen Johnson  
Freshman  
Psychology

### Justifies KSU Defense Fund

To the editor of the *Jambar*:

I am concerned about the "logic" and reasoning that some of my fellow YSU students have decided to use in relation to judging the KSU defense fund. I am referring to last week's letters to the *Jambar*. I, too, shall now attempt to appeal to your logic and reason in regards to this issue, but I will defend my position with logical FACTS. First, let us look at the major events that have occurred in the past month.

One month ago, YSU sponsored a Homecoming election in which 1060 of our 16,000 students participated. Four hundred students attended a rally the following weekend in support of the Kent 25. Half of these students left the rally when the band discontinued its music, and less than half of the

remaining crowd marched in Columbus, which is approximately 0.34% of our student body. Thus, I may conclude that in the eyes of my fellow, logical YSU students, these events occurred in order of their logical significance.

The Fifth Dimension concert attracted 7000 students, which is almost as many of us who marched for peace in Columbus. At \$2.50 per person I am sure that you will note that it is much more profitable to arrange for a rock concert than a peace rally.

Now we have allowed Student Council to vote down an allocation for a relatively small amount of money that should be donated to innocent prisoners. Yet if WE were the ones behind those bars, I'm sure that our logical reasoning would tell us that we need the bread and

support of our fellow students.

We take time out to vote for our favorite Homecoming queen, but we're too busy to rap about justice and freedom. We say that *Student Government* could spend this \$1000 in a more meaningful way on our own campus, but if you recall, our student handbook tells us that the purpose of *Student Government* "is to plan and carry out *Student Council Social Activities*," such as Homecoming, (Winter) Weekend and Spring Weekend; very significant human events, indeed.

Listen: to what cause do WE stand behind? Would it take a tragedy like Kent to unify us? In all logical reasoning ask yourself this: is this YSU or just YOU?

Angie Falvo  
Sophomore  
Social Sci.

## Vote In Student Council Elections

# Sample Ballot

## COLLEGE OF ARTS & SCIENCES (4 to elect)

Richard Dix (incumbent)  
 Marsha Kovalchik  
 Elaine Prochiro  
 Dave Squicquero  
 Marsha McGary (incumbent)  
 Bill Jones  
 Mark Shabla  
 Ted Brachfeld  
 Len Farbman  
 Andy Bresko  
 Valerie Gall  
 Becky Dixon

## SCHOOL OF BUSINESS ADMINISTRATION (2 to elect)

Deirdre Keyes  
 Ron Baylukoff  
 Ron Kessler  
 Leonard Azzaro  
 Marianne Volosin  
 Gary Salandria  
 Dennis Rowlands  
 James LaRosa (incumbent)

## DANA SCHOOL OF MUSIC (1 to elect)

Barrie Vaughn  
 Tom Hronek (incumbent)

## SCHOOL OF EDUCATION (2 to elect)

Bonnie Bonofsky  
 Suellen Stiffler  
 Karen Weldele  
 Jerome Parm  
 Marilyn Guerra (incumbent)  
 Pat Galterio

## WILLIAM RAYEN SCHOOL OF ENGINEERING (1 to elect)

Ray Petras (incumbent)  
 Frank Verdi  
 Len Farini

## REPRESENTATIVE-AT-LARGE (2 to elect)

Chuck Hettler (incumbent)  
 Deirdre Keyes  
 Elaine Prochiro (incumbent)  
 Mary Ann Doumont

## Biography and Opinion-

# Council Candidates

### Liberal Arts

#### Richard Dix

Marcia Kovalchick  
 Sophomore-Sociology  
 3.46

Treasurer Y-Teens, student secretary, FTA, Rotary's Interact Club, JAA'

She states that she wants to take a more active part in college decisions and policy.

#### Elaine Pochiro

Sophomore-Social Studies  
 2.95

Incumbent Rep-at-large. She would like an opportunity to prove that Student Council can be an effective body on campus.

#### David Squicquero

Junior-Biology  
 3.49

He is sick of apathy and "do-nothing" attitudes on this campus, especially among our Greeks and members of our student government. He'd like to change this apathy into a constructive force.

#### Marsha McGary

Junior-History  
 2.69

Student Council, Assistant Editor of Faculty Evaluation, Junior Women's Advisor, Sigma Sigma Sigma treasurer.

She feels that she has the qualifications that are necessary for the position. She would like to make an attempt to improve relations between Student Council and the student body.

#### Bill Jones

Senior-Psychology  
 2.40

High School Student Council. He feels he can better represent the students of YSU and will attempt to give the students more of a voice on the decisions that most concern them.

#### Mark Shabla

Junior Biology  
 3.7

Biology Student Advisement Committee, Secretary of Alumni Affairs Committee, American Chemical Society, Omicron Lambda, American Institute of Biological Sciences.

He is convinced that student opinion has not been adequately represented on Student Council. He will do the "job that needs to be done-representing the views of the student body, not the opinions of others."

#### Theodore Brachfeld

Junior-Art History & Philosophy  
 2.4

Academic Affairs Committee and University Senate.

He will put forth an effort to reconstruct the University's power structure with more direct responsibility in the hands

of the students, through their Student Government.

#### Leonard Farbman Junior-Political Science 3.35

Sigma Alpha Mu officer, Pre-law Society, YSU Association of Political Scientists.

He feels that he can help to bring active, responsive government to the YSU campus.

#### Andrew Bresko

Junior-Political Science  
 3.09

Executive Committee of Young Democrats, YSU Association of Political Scientists treasurer, Pre-law Society.

He feels that he can be responsive to the demands and needs of the student body and bring about a betterment of the University.

#### Valerie M. Gall

Junior-Psychology-Sociology  
 3.33

President of Red Cross Inter-High School Council (1968), American Romanian Orthodox Youth of Youngstown treasurer (1967, 1968), Scholarship chairman of ZTA.

She feels that YSU needs people who are interested in what happens on campus. She believes that it is a representative's duty to see that Student Council is functional; Student Council in many instances does not serve a function.

#### Becky Dixon

Sophomore-Sociology  
 2.4

High School Student Council, Major Events Committee of ZTA, president of ZTA pledge class, Pan-hel representative and pledge co-ordinator.

She wants this position in order to work for the betterment of the University with the liberal arts student in mind. She would like to end the empty talk and truly represent the liberal arts student by taking action on their ideas.

### Business

#### Deirdre R. Keyes

Freshman-Retail Merchandising  
 2.85

She wishes to activate Student Council and to change the apathetic campus attitude to one of genuine interest.

#### Ronald W. Bayukoff

Sophomore-Adv. & P.R.  
 2.91

Vice President of YSU Young Americans for Freedom.

He states that he wants to help counteract undesirable elements, to represent all university students, regardless of views or positions, and be constantly available to the constituency so as to assess their opinions and properly represent them.

#### Ronald Kessler

Sophomore-Ind. Mngt.  
 2.47

Vice President of Sigma Alpha Mu Fraternity, Representative of the Inter-Fraternity Council, student co-ordinator of Metzbaum for Senate.

He would like to establish a true voice, instead of a token voice, on Student Council.

#### Leonard Azzaro

Junior-Industrial Merchandising  
 2.69

He wants to better the activity of Student Council in relation to all the programs that affect the student body.

#### Marianne Volosin

Sophomore-Retail Merchandising  
 2.29

Sigma Sigma Sigma, Junior Women's Advisor, ADS advertising fraternity.

#### Gary Salandria

Senior-Industrial Merchandising  
 2.29

He would like to take part in the student government because of his concern with the many issues that engulf our campus.

#### Dennis Rowlands

Senior-Industrial Merchandising  
 3.32

IFC representative. He believes that political battles should not be fought in Student Council.

#### James LaRosa

Junior-Industrial Merchandising  
 3.23

Incumbent Student Council appointment. He hopes to represent business students fairly.

### Education

#### Barbara Budinsky

Suellen Stiffler  
 Sophomore-Secondary Ed.  
 3.31

ZTA service chairman, Homecoming Queen, high school student government committee.

She would like to participate actively in order to further represent and involve education students in campus affairs.

#### Karen Weldele

Sophomore-Special Education  
 2.52

Sigma Sigma Sigma, co-chairman of Rush, Robbie Page Memorial Chairman, Pan-hel, Sigma Phi Epsilon Sisters of the Golden Heart.

She would like to improve communications among the student body and student council and believes that Council must assume a more vigorous role on the YSU campus.

(cont. on page 7)

## Council Candidates

**Jerome Parm**  
Sophomore-El. Ed.  
2.45

He is interested in student affairs and activities on this campus and wishes to see more student involvement and cooperation in the coming year.

**Marilynn Guerra**  
Junior-El. Ed.  
3.3

Incumbent on Student Council, Education Committee, high school officer, ZTA, Junior Women's Advisor.

She is willing to listen to any student's opinion.

**Pat Galtiero**  
Sophomore-El. Ed.  
2.7

Incumbent RAL, Finance Chairman of Student Council, Young Democrats VP.

She boasts of both experience and competence in working on Council.

### Engineering

**Raymond J. Petras**  
Junior-Chemical Eng.  
3.26

CYO president, incumbent Student Council member.

He wishes to continue informing engineering students about council proceedings and voting on issues "the way they want me to."

**Frank Verdi**  
Sophomore-Elect. Eng.  
3.6

He lists as his best credentials his "overwhelming desire to make things right."

**Leonard Fumi**  
Junior-Electrical Eng.  
3.07

Sigma Tau, IEEE, OSPE. He wants the engineering students to have a true representative who will voice their opinions. He is always available on campus to listen to any opinions.

### Music

**Barrie P. Vaughn**  
Junior-Music  
2.6

**Tom Hronek**  
Junior-Music  
2.41

Incumbent council rep.

### Representative-At-Large

**Chuck Hettler**  
Junior-Political Science  
3.12

Full year on council, Finance and Elections chairman.

He hopes to continue to serve the student body through experience and hard work.

**Deidre Keyes**  
Freshman-Retail Merchandising  
2.85

She would like to activate our Student Council and change YSU's campus attitude from apathy to genuine interest.

**Elaine Porchiro**  
Sophomore-Social Studies  
2.95

Also running for lib arts representative.

**Mary Ann Doument**  
Junior-Sociology  
2.61

She feels a need to do something for her school and her friends. She wants to be different by not being apathetic.

### Senior Class Officers

#### President

**Joanne Jarocki**  
Math  
3.62

VP Math Club, past president Math Club.

She feels that she can organize and stimulate our senior class, making its final year a memorable one.

**John Scott**  
Mechanical Engineering  
3.4

President Sigma Beta Phi. He is convinced that opportunities should be provided for the senior class in order that it may function as a group.

**Denny Jones**  
Mechanical Engineering

He welcomes the opportunity to serve the senior class.

**David Fleischer**  
General Business  
Student Council, IFC President, past Delta Chi President.

**Charles Holden**  
Education  
3.08

President of Phi Kappa Tau. He hopes to give identity to the senior class and to try and remove the indifference that exists at YSU.

**Glenn Cable**  
French/Psychology

French Club president. He wishes to organize more than just a fractional part of the senior class and let them express themselves.

#### Vice-President

**Henrietta Caruso**  
First and Second Pan-hel VP, Phi Sigma Kappa Little Sister, ZTA membership chairman, Constitution Chairman on Student Council, Student Government's Student Organizations' secretary.

She wants to help organize "a better thing for seniors."

**Phillip Dennison**  
Accounting  
3.23

YSU Student Affairs Committee, University Senate, Freshman, Baker Center Program rep-

resentative, Ohio University's Lt. Governor, 21st Division Ohio Division Key Club, Dorm Council at Ohio U.

He wishes to use his experience to benefit the senior class, having both the time and the willingness to serve in this capacity.

**Alida Merlo**  
Sociology & Corrections  
2.91

Sigma Sigma Sigma Rush chairman, Pan-hel secretary, Junior Women's Advisor, Little Sisters of Alpha Phi Omega.

She would like to get senior class members actively involved.

**John Zuppo**  
Electrical Engineering  
2.95

President of Sigma Tau, VP of IEEE, Deans Council, OSPE.

#### Treasurer

**Joseph Petarca**  
Chemical Engineering  
2.85

Dean's Council, YSU Chem Eng. Society, Student Government Finance secretary.

He considers himself the best qualified and therefore able to do the best job.

**Sue Litz**  
Business Education  
3.26

ZTA president, Kappa Delta Phi Education Honorary, SNEA, JWA.

She states, "I care enough to do my very best in serving my senior class of 1971."

**George Finnerty**  
General Administration  
2.83

Publications Board, fraternity VP.

He feels that he has the time to devote. He wishes to continue an involvement in school functions that began in his freshman year.

#### Secretary

**Sharyn Jonesco**  
Business Education  
3.44

Delta Zeta former Secretary, former Sweetheart of Kappa Sigma Fraternity, JWA.

She feels that her college background has best prepared her for this position-besides she can type 95 words a minute and take shorthand at 120 which more than qualifies her for this job.

**Charles Savikas**  
Industrial Engineering  
2.35

Treasurer and assistant secretary of the American Institute of Industrial Engineering.

**Carol Wellendorf**  
Senior-El. Ed.  
2.42

Sigma Sigma Sigma keeper of grades, Robbie Page chairman, JWA.

She is interested in the workings of the senior class.

## Talks Sponsored By Newman Club

A series of talks this quarter concerning vital issues of campus concern has been sponsored by the Newman Student Organization.

*The Report of the President's Commission on Campus Unrest* was the subject of the first talk held on October 25 at Newman.

The report was discussed at length by a panel made up of Dr. Sidney I. Roberts, History, Dr. James Bachowicz, Philosophy, Dan Crishon, Student Government President, Larry Simko, Student Government Vice-President, Mary Franklin, a housewife, and Fr. Raymond DiBlasio, Newman Chaplain and panel moderator.

The panel generally agreed with the commission's report and considered the report to be a very fair document to all parties involved. It was the feeling of the panel that the news reports on the report were very biased, mentioning only that which condemned the President and Vice-President while ignoring the other parties who shared in the condemnation of the report for the most part.

The panel expressed the hope that more people would read the report before it becomes "politically buried."

A talk on drugs was held on October 28. The guest speaker was Dr. Charles Waltner, Superintendent of Woodside Receiving Hospital.

Dr. Waltner emphasized the psychological aspects of the drug

problem. He felt that the main stresses causing the drug problem were the pressures of modern society compounded by de-personalization resulting in a want for an escape.

Dr. Waltner spoke out against legalization of marijuana on the grounds that not enough study has been made as to the effects it has on society. He feels a generation from now we will have the answers.

The heroin problem in Youngstown was brought to light with the revelation of the fact that heroin cases at Woodside have increased from an average of 10 a year five years ago to a present level of 400 a year. All heroin addicts Dr. Waltner has had contact with had their original drug encounter with marijuana.

"Vietnam Report," a talk featuring Tim Butz, a decorated Vietnam veteran and present head of the Committee for Non-Violence at Kent State University, will be held November 11, 1970, at 8 p.m. at the Newman Center.

## Waning Funds Cause End Of Peace Center

The Youngstown Peace Center was disbanded last summer due to lack of "a feeling of urgency" among the students and to a lack of funds, said Dr. Alice Budge, Assistant Professor of English and faculty advisor to the Community of Concern, yesterday.

According to Dr. Budge, the Center, located on Wick Avenue, was started in the Spring of 1970 as a "student-organized offshoot of the Community of Concern." Although short-lived, the organization was very cohesive at the start with various political issues, then present, giving the members this "feeling of urgency."

The funds of the Center came primarily from contributions and from publication of the "free press" newspaper called the *Youngstown Weed* according to Robert Ingani, YSU student and former editor of the publication.

Both Dr. Budge and Mr. Ingani said that the Center was broken into last summer and vandalized and Mr. Ingani adds that the cost of insurance premiums was very high.

Dr. Budge does not predict a reorganization of the Center in the near future.

## Phi Delta Theta

(cont. from page 1)

local chapter intended no fraudulent misrepresentation," Luppert explained. Although the National would not confirm or deny the local group's affiliation, they did say that the group had been approved by two of three investigative committees.

The local chapter incorrectly assumed that they would be approved by the third committee and adopted the fraternity's name last spring. "Phi Delta Theta National was convinced that the incident resulted from a misunderstanding and, since they weren't offended, that's good enough for me," Luppert said.

Luppert stated that the National informed him that they would notify the local group of their affiliation towards the end of this week, but members of the fraternity would not comment on the question yesterday.

## Classifieds Work

POETRY WANTED for possible inclusion in cooperative volume. Enclose return envelope. Palomar Publishing Co., Box 4444, Whittier, California 90607.

Up To Date-

# No Doctor Available On YSU Campus

No doctor is available on the YSU campus although over 550 persons have visited the Health Service this quarter alone, according to a statement made yesterday by Mrs. Laverne D. Reilly, R.N., University Nurse.

Health Service has expressed a need for "a doctor on a consulting or retainer basis" to Darrel F. Rishel, Dean of Student Affairs. However, one is not employed to date.

Mrs. Reilly stated: "Since this is a commuter school, personally, I don't think the Administration has in the past been convinced of the need for a doctor."

In addition to Mrs. Reilly, the Health Service staff of present consists of Mrs. Mary C. Murphy, R.N., full-time day nurse; Mrs. Stevana Wilson,

R.N., part-time afternoon nurse; and Mrs. Betty H. Yuhasz, R.N., part-time day nurse.

Mrs. Murphy stated that an average of 70-80 persons per week visit the Health Service.

She added that approximately one third are maintenance employees; one-sixth are faculty; and the rest are students.

One-third of these patients are referred to local doctors, dentists, or hospitals. Many who are referred have no family doctors.

Complaints have ranged from mild upper respiratory disorders to severe burns from the chemistry department.

Since the Health Service has no physician on its staff, the use of medicine is limited to only non-prescriptional drugs.

Birth control pills are not available from the Health Service since the Administration has not taken a stand on this matter.

But, if such action were approved, the "pill" still could not be dispensed because of the absence of a physician on the staff to review each case and prescribe the drug according to each individual's need.

If a severe emergency were to arise on campus, there would be no doctor for the staff to call.

In fact, in extreme cases, Mrs. Reilly commented that Mrs. Murphy has been forced to rely upon personal acquaintances and private physicians working for area medical facilities to help these students.

Mrs. Reilly further explained: "Nurses don't treat people without a doctor's orders and this

fact has stopped Health Service from better helping the students."

Mrs. Reilly stated that she did not expect a physician on the staff before this year's spring budget make-up.

However, she said Dean Rishel is working with Health Service and is recommending two physicians to the University to be available for consultation.

In addition to first-aid and emergency care, the clinic can provide additional services to the student body.

The nurses welcome all inquiries and problems concerning venereal disease and can provide information on the Youngstown VD Clinic.

The staff also has literature from Planned Parenthood and information on the abortion

laws, and they are willing to discuss questions with interested students.

Mrs. Stevana Wilson stated: "We do not pass judgement and will not ask names. We just want to help."

Also, if any student has a doctor's order for injections such as allergy shots, arrangements can be made with the Health Service for their staff to give these shots.

Health Service is presently located on the second floor of Central Hall in two small rooms, approximately 9'x12' in size.

## CLASSIFIEDS

THE DEADLINE FOR ALL CLASSIFIEDS IS 11:00 A. M. ON MONDAYS AND THURSDAYS. THE COST IS \$.50 FOR TWENTY WORDS AND \$.10 FOR EACH ADDITIONAL WORD. COMMERCIAL RATES ARE GIVEN ON REQUEST.

ATTENTION — You have tried for the last three years and you still can't do it. 8-6. 1N6C

### Pick The Winner

Will the Penguins beat the Zips? Will Pitt upset Notre Dame? Once again arm-chair experts will have a chance to predict this week's winners in the most interesting college and pro football games.

The rules are simple. Each contestant must submit only one entry. He must designate the winner of the specified game in the box provided. He must pick the point spread of the game designated at the bottom of the form in the order to break ties. All entries must be accompanied by name, telephone number and major for students, or position of faculty and administration. Entries are limited to faculty, administration and student body of Youngstown State University. All entries will be checked. Entry deadline is noon on Friday of that week.

Winners will receive the 1971 Playboy desk calendar.

Games for this week:

	Pick
Akron at Youngstown	
LSU at Alabama	
Houston at Mississippi	
Missouri at Oklahoma	
Air Force at Oregon	
Illinois at Michigan	
Pitt at Notre Dame	
Texas A&M at SMU	
Cleveland at Oakland	
Washington at Minnesota	

TIE BREAKER: The score of the YSU-Akron will be

YSU----- Akron-----

Return all entries to Jambar

### Spells Trouble For Penguins-

## Akron Zips Meet YS U

The powerful Akron Zips, once rated as high as No. 2 in the nation before losing their scoring punch, have apparently regrouped offensively which can only spell trouble for Youngstown State.

The Zips, slated to meet YSU this Saturday at 8 p.m. at Campbell Memorial Stadium, snapped out of a scoring and losing slump last Saturday by blasting Central Michigan, 35-19. Akron had scored only four touchdowns in its three previous games, all losses.

Gordon Larson's club started the season as expected, wiping out everyone in sight. The Zips rolled over Temple (12-0), Butler (34-0), Northern Michigan (19-6) and Ball State (31-0) before the offensive drought set in. Akron lost the ball 16 times in the next three games, bowing to Illinois State (15-14), Indiana State (17-8) and Dayton (14-6). The Zips had three fumbles and three interceptions against Illinois State, six fumbles and two interceptions against Indiana State and two interceptions which set up both Dayton scores.

However, the Zip offense appears back on the beam now and when it's right, it can be one of the most explosive in the country. Especially when Little All-American Jack Beidleman (Bi-DEL-man) and Dan Ruff are in high gear.

Beidleman, a 5-8, 155-pound senior halfback with 9.7 speed, is as fine a collegiate running back as you'll ever want to see. Once he gets daylight, it's all over. He proved that last year against the Penguins, scoring on a 65-yard pass and runs of 25 and 80 yards. He's picked up 600 yards and four TD's in 137 carries this season and has caught 16 passes for 202 yards

and two scores. He has 181 yards on six kickoff returns.

Ruff, another speed merchant who had a field day against YSU last year, is a 5-11, 185-pound senior split end. He caught TD tosses of 38, 22 and 60 yards when AU buried the Penguins 60-27 last season. Ruff has 26 catches for 470 yards and two TD's.

Rounding out Zip backfield are quarterback Mic Hutton, a 6-0, 185-pound sophomore, halfback Wayne Sovlansky, a 5-11, 185-pound sophomore, and fullback Dave Vincent, a 6-1,

195-pound senior. Hutton connected on 45 of 134 passes for 729 yards and four TD's. He's been intercepted seven times. Vincent has 333 yards, 83 carries and Sovlansky 17 yards in 33 tries.

The Akron offensive line includes Ruff and Joe Weishampel (6-2, 190) at ends, Tom DeMarco (6-4, 240) and Bob Shilling (6-3, 235) at tackles, Ed Agostinelli (5-11, 195) and Tom O'Conner (6-2, 210) at guards and John Harrison (6-2, 220) at center.

### YSU Penguins' Passing Attack Breaks Record

Youngstown State's potent passing attack, ranked 7th in the nation in the latest NCAA College Division statistics, broke one Penguin record and nearly snapped several more in last Saturday night's 50-27 loss at Southeastern Louisiana.

The Penguins, who entered the game averaging 239.6 yards through the air, completed 22 of 52 tosses for 378 yards and three touchdowns. The effort upped YSU's six-game totals to 123 completions in 254 tries for 1,576 yards and 10 touchdowns. The Penguins have completed 48.4 percent of their passes for 262.7 yards per game.

The 123 completions is a new one-season record, bettering the former mark of 121 set in 1968. YSU nearly erased all its one-game passing records of 24 completions in 54 attempts for 391 yards and four TD's.

# MOUNT MUD

by Skip Miller and Carl Basic

Monday morning as we arrived at school we were amazed to find a veritable mountain of earth occupying what on Friday was a parking area across Elm Street from the cafeteria.

Who's buried there?

We were awed by the tremendous power of the Panumbzio Brothers Construction Company who had apparently defied the Law of Conservation and Matter by creating a pile of dirt 50 feet high, 75 feet wide, and 200 feet long without digging a hole anywhere in sight. However the Panumbzio Brothers denied any knowledge of the mountain's origin.

One theory on the origin of this spectacular landmark is that the YSU maintenance department created the mountain on the orders of Dean Dean. It is said that the Dean wanted a high vantage point on which to set up the telescope which he uses to spy on the patrons of the Red Barn and to watch the girls in Lincoln Towers undress.

Another rumor concerning the mountain is that there is a Marine base under construction of Fifth Avenue and that the former parking lot is to be a tank proving grounds for the Marines. (One student reported seeing a group of Marines struggling to raise a flag on the south end of the mountain).

No parking lot, no problem.

Still another suggestion is that the erection of the mountain and the subsequent destruction of the parking area is the Campus Security Police's answer to the security problem in that area. (No parking area—no problems. Right? Right!).

Some say the creation of the giant earth heap can be credited to the Biology Department who wanted to provide a home-like environment for their subjects in a study of the Rocky Mountain Big Horn Sheep.

Others say the mountain, when finished, will stretch around the entire campus as part of the President's Program for Physical Fitness. The dirt will provide a barrier all must scale to reach the campus. (The President is tired of listening to John Wayne mouth off about weak bodies and strong wrists).

Another idea is that the hill was created so that the Administration and the Y.P.D. could play king of the mountain at the annual Bureaucrats Ball to be held next month.

We called the Geology Department and talked to Dr. Art Liberal, who thought the pile was created by a violent upheaval beneath the surface of Elm Street similar to the upheaval that created the Hawaiian Islands. Dr. Liberal also said that the rise could also be attributed to eruptions caused by the explosion of deadly gas created when someone tossed some cafeteria-made spaghetti sauce into a water-filled catch basin at the corner of Elm and Spring.

Still others maintain that the hill was created when a huge pipe line was hooked up connecting the old parking area the Youngstown Sheet and Tube Company and that the hill is nothing more than one weekend's worth of pollutants from the Sheet and Tube.

Finally, Father Mucous of the Philosophy Department was seen running around the mountain on Monday afternoon shouting: "It's a miracle, it's a miracle!"

What shall we call it?

Regardless of how the mountain, which occupies the now defunct parking area, was formed there still remains the problem of naming it. Many names have been forwarded such as: Pork Chop Hill, The Campus Divide, Little Calvary, Mount Rushparty, Batguano Butte, and Pubsley Peak.

By virtue of being the only men on campus with so much time to waste, we have taken it upon ourselves to name the heap. We felt that the hill's name should be flashy, daring, modern, and exciting, in order to fit in with the atmosphere at YSU. Consequently, from this time on, the dirt heap on Elm Street shall be known as Mount Mud!

As Study Areas-

## Survey Lists Vacant Rooms

Vacant classrooms on campus, which were designated by University President Albert L. Pugsley as study areas, are being sparsely but earnestly used, a survey revealed yesterday.

A survey taken between 10 and 4 p.m., including all of the seven main classroom buildings on campus, revealed no crowded conditions. The rooms surveyed are a part of the plan to supply study space for students until new facilities are constructed.

The lack of study space on campus was reported at the beginning of fall quarter because of the overcrowded conditions at the library. At the suggestion of the *Jambar*, President Pugsley supplied a list of the available classrooms for study. The schedule was published in the (cont. from page 8)

Nevertheless, Director Hulsopple has put a highly professional gloss on the entire production—which augurs well for the future of YSU theatre under his guidance.

For the play, however, one must have reservations—in both senses of the word. As psychology, it is clearly of the Pop, instant-analysis school. As philosophy, its putative profundity and insight come perilously close to being sophomoric and simplistic (the old love-conquers-all bit). As a drama, it is gimmicky and heavy-laden with Symbolism—which somehow works. As a production—thanks to the first-rate contributions of Ennis, Banks, Bishop, Reeve, Hulsopple, and especially Fallat—it is well worth seeing.

As "Relevant Theatre"—only your headshrinker knows for sure.

October 9 addition of the *Jambar*. This schedule will be published quarterly for the benefit of the students.

The average occupancy of the 23 rooms surveyed was two or three students. Most appeared to be studying intensely, with a few eating lunch, and a few socializing. Five rooms were found vacant, while two rooms had classes in session.

In the Engineering Science Building, for instance, three men were eating lunch in room 285, while in room 417 five students were studying and two were conversing. Three students were

studying quietly in room 250. At the same time in Ward Beecher room 211, two students were studying while no one occupied room G12.

In Jones at 12:15 room 305 was unoccupied. Room 30 in Tod Hall was occupied by 10 studying students.

In Elm Street School at 1:30 in room 205 a class was in session while no one occupied room 209.

In Rayen room 101 at 3:20 one student was studying.

Students were observed also studying and socializing in the hallways, stairways, lobbies and the amphitheater.
