Volume 47—No. 21

1200 More Car Spaces Possibility By Fall

Portable parking decks able to hold 1200 to 1400 cars should be available for student use by fall quarter, 1970, Nick Leonelli, director of University planning, reported yesterday.

Leonelli said the University is investigating decks manufactured by three different companies, all of which can be assembled in short periods of time.

Among the decks available, Mr. Leonelli said one was constructed of steel and structural cement, one of steel alone.

Funds for the construction of the structures would come from University sources. Clearance by the State Board of Regents and the State Architect must be obtained before construction can begin. Clearance is procedural and will not require a great amount of time, Leonelli explained.

Leonelli further explained the decks can be constructed in an "erector set" manner requiring 90 days from start to completion.

The decks are scheduled to be built on University property that is presently used for student parking. The portable structures will replace the slagged parking lot which is bordered by Fifth, Arlington, and Lincoln Avenues, and Elm Street.

Dr. Joseph Swartz

Student Senate Appts. Made Today By Isgro

Student appointments for the newly created seats on the University Senate will be announced today or tomorrow, Greg Bednarcik, Student Council chairman, Student Council chairman, said yesterday.

The non-voting seats were created December 5, when the University Senate approved 54-29, a Constitution and By-laws Committee recommendation calling for stu-

dent membership on the University's senior policy-making body.

Fifteen Applicants

Bednarcik, who acting jointly with Student Government president Pete Isgro makes the appointments, said fifteen students applied for positions.

Bednarcik said they are attempting to appoint students from each of the University's six

schools, but "individual qualifications" would weigh more heavily in their decision. The Senate considered that the new motion was expressed the desire to have representation from each school but did not so require.

Bednarcik said he and Isgro will probably appoint themselves but the remaining four will most likely not hold Student Government offices.

The status of student Senate membership and the possibility of voting status will be considered later this year when the Constitution and By-laws Committee reviews the membership structure of the Senate.

Dr. Swartz Retires As Educ. Dean

Dr. Joseph F. Swartz, dean of the School of Education since 1960, will retire from that position effective July 1, 1970.

Dr. Swartz, 64, will remain on the teaching staff with the rank of professor.

Dr. William Coffield, administrative vice-president, said yesterday a "search committee" has been created to gather and evaluate applications for the post.

According to Dr. Coffield, Dr. Swartz asked to be relieved from the administrative post to return to full-time teaching.

Dr. Coffield said the search committee has contacted 200 educators across the nation solic-

iting names and recommendations for the post and expects the appointment will be made by July 1, 1970.

The committee includes Dr. James Steele, associate professor; Dr. Marilyn Solak, associate professor; and Dr. William Swan, chairman of Educational Foundation development, all of the School of Education; Mr. Joseph Derosa, instructor of mathematics; Dr. Robert Smith, assistant dean of the College of Arts and Sciences; Dr. Earl Edgar, dean of the Graduate School; and Coffield, committee chairman.

According to job specifications released by the committee, prospective candidates should have teaching and

Ad Hoc Library Committee Meets Thursday—

Library Enforcement Sought

A special library committee will attempt to devise an enforcement plan for the faculty "quarter rule" borrowing policy when it meet at 3 p.m. Thursday, in Kilcawley Student Lounge.

Miss Margaret Barsodi, a member of Student Council and the University Library Committee, said yesterday the *ad hoc* committee was formed in early December after faculty negligence in book borrowing was made a public issue.

The three student - three faculty special committee is charged with devising a method to inform faculty of the "quarter rule" and a method of enforcement, Miss Barsodi said.

The "quarter rule" stipulates that faculty may borrow a book from the University Library for a period of one

quarter without renewal. University Librarian Dr. George Jones said December 4, that while the majority of faculty follow the borrowing policy, some "abuse" it.

The Student Council unanimously passed a resolution introduced by Miss Barsodi calling for "immediate enforcement" and the eventual phasing out of the "quarter rule" December 1.

Miss Barsodi said the resolution and a student petition circulated during December were attempts to bring light to faculty misuse of the "quarter rule."

The student petition, presented to the Library Committee December 9, was signed by 130 students, Miss Barsodi said.

NEON SIGN-UP

1969 NEON sign-up begins January 26, John Moritz, editor, announced yesterday. Price is \$1 for full-time students, \$6 for part-time and all faculty.

Moritz said the money should be payed at the Bursar's office in Jones Hall. Receipts should be taken to the NEON office, 3rd floor of East Hall. Mailing address and name should be typed or written on the back of the receipt.

For additional information call University ext. 477.

Pace Of Change Speeds Up—

Difficult Decade Ahead

NEW YORK (AP) - If the 1960's left you a bit breathless, don't try to relax yet.

A peek into our crystal ball reveals the 1970's will give you even more of a feeling that you're spending your life riding on a roller coaster. The decade promises to be one that will separate the men from the boys.

The pace of change will speed up so much you may wind up being short changed by change itself. It'll hardly be worthwhile learning many new things be-

Spiro Agnew Welcomed In Nepal

KATMANDU, Nepal (AP) - Vice President Spiro T. Agnew, greeted by cymbal-clanging Tibetan monks and crowds of curious Nepalese waving paper American flags in this remote Himalayan kingdom, praised Nepal Monday for its ability to get along with its two giant neighbors, China and India.

"We are happy at Nepal's continuous ability to exist with its two neighbors, China and India," Agnew told reporters after a 45 minute meeting with Prime Minister Kirtinidhi Bista. He said the United States will help Nepal in "every possible way."

Panther Probe Starts Today

CHICAGO (AP) - The first investigation of the fatal shootings of two Black Panther leaders will begin Tuesday with a specially named deputy coroner presiding.

The shootings have aroused widespread controversy, and Coroner Andrew J. Toman, a physician, named Martin Gerber, 62, to replace him at the inquest.

The Chicago Bar Association, Black Panther party lawyers and others had called on Toman to step aside in favor of some part of the elected county government.

Fred Hampton, 21, chairman of the Illinois Black Panther party, and Mark Clark, 22, a party leader from Peoria, Ill., were killed in a raid on their apartment Dec. 4 by state's attorney's police.

Seven other Black Panthers were arrested and charged with attempted murder and other crimes.

The police said the Panthers

cause by the time you learn them they'll already be superseded by something newer.

Mystery always masks the future, and forecasts must always be a bit buzzy, but we fearlessly predict that:

The highways will become so crowded and dangerous that passengers and drivers will wear crash helmets as well as seat and shoulder belts. For journeys over 1,000 miles, iron and safety suits will be available for rent.

George Jessel will enter an old folk's home and a week later announce his marriage to its glamorous lady supervisor - 58 years young. A month after that she will disclose she is shedding him to wed one of George's visitors at the home, Frank Sinatra.

By the end of the decade, it will require a yearly income of \$25,000 for a family of four to live in minimum comfort. Any family earning under \$15,000 will be eligible for government welfare.

After heated clashes between advocates of a Clean Up America Campaign and protesting lobbyists for pet owners, Congress will pass a national law making it legal to take a dog for a stroll unless it is wearing diapers.

Another major medical advance: a "placidity capsule" that will solve the problem of the

generation gap by reducing tantrums in teenagers and cause them to salute on sight any parents they meet. The pills will be swallowed by children shortly after birth and begin to take effect on their 13th birthday.

Around the middle of the decade, plumbers will announce the national policy of discontinuing further house calls. Homeowners will be urged to

make repairs themselves or take leaky faucets and pipes to a central plumbing hospital where their metal breakdowns can be diagnosed and treated more easily.

Spiro Agnew will receive and seriously consider a \$100,000 offer to become chief inspirational writer for the Chinese fortune cookie industry. He will finally turn it down on the

ground that such a post has never in the past helped a vice president's political fortunes.

All in all, the only guarantee that can be given the average man confronted by the fervid 1970's is that, if he survives them, he'll feel at least 10 years older if not wiser. His best bet might be to hibernate during the decade - and gain strength to face the weighty 1980's.

Judge Relaxes Rules—

Mary Jo Inquest Opens

EDGARTOWN, Mass. (AP) - Judge James Boyle, who is presiding at the newly opened inquest into the death of Mary Jo Kopechne, said today he would allow attorneys for witnesses in the case to present relevant testimony of their own. This was considered an important legal victory for Sen. Edward M. Kennedy, in whose car Miss Kopechne was found

dead. Kennedy, the lead off witness in the inquiry, is said to want more than anything else an opportunity to prove that Miss Kopechne could not have survived in his car, which plunged off a narrow bridge and into a tidal pond last summer on Chappaquiddick Island.

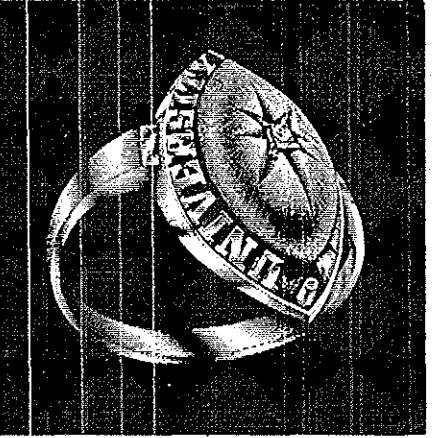

"If counsel have additional testimony which will be helpful

and material, I will receive it," Boyle said in setting forth the ground rules for the inquest.

The text of Boyle's ruling was released by Clerk Thomas A. Teller during the luncheon recess.

It restated that the primary objective of the inquest is to determine whether there is cause for criminal proceeds.

Concert Price Hike Passed By SC.

Recommendations for salaries for top Student Government personnel and giving Major Events Committee the power to charge \$2.50 per person for a special concert were unanimously passed at yesterday's Student Council meeting. The recommendation will be sent to the Student Council Budgeting Committee for final approval.

The recommendation for yearly salaries included a \$600 stipend for the President of Student Government, \$450 for the Vice President of Student Government, \$450 for the Chairman of Student Council, \$200 for the Secretary of Student Council, \$225 for an auditor, and \$300 for a penguin keeper. A recommendation for Student Government salaries had been sent to the Budget Committee twice before.

The Budget Committee requested the number of hours these people worked. Student Government President Pete Isgro said the estimated hours are 325, president; 150, vice-president and chairman of Student Council; 100, secretary; and 225 for the auditor. President Isgro noted that some student body heads got as much as \$1200 plus free room and board for their

services. He said the president at Ohio State University received the lowest, \$300. If finally approved, the measure will affect the present officers.

Student Council also unanimously recommended that Major Events be given authority to charge \$2.50 per person for a special concert. Major Events Committee Chairman Grace Listorti appeared before Council and said that although the committee was not specifically restricted to charging \$1.00 for the concert, it is implied under current procedures.

(Cont. from page 1)

administrative experience in elementary, secondary, and college level education; an earned doctorate with evidence of scholastic leadership and organizational ability; and the capacity to "develop innovative teacher education programs within an urban university."

Dr. Swartz, a native of Denton, Maryland, was appointed to the faculty in 1949. He became chairman of the department of education in 1957 and was appointed dean when the department was elevated to college status in 1960.

Sam Miechur, a freshman from Buffalo, N.Y., and Mike Boyle, a freshman from Cleveland, are attempting to arouse interest for an intramural hockey team. They are shown here practicing on the new Kilcawley skating rink.

New Program Begins Today— Open Rush Starts

The new interfraternity Council "open rush" rush system begins Thursday as a result of legislation passed by IFC last quarter. The legislation called for a total realignment of the then existing "closed" system.

The new system, in essence, means that formal rush parties and open houses will be held intermittently at the discretion of the individual fraternity throughout the quarter.

The procedure of the new "open" rush is as follows: On Thursday, January 8 all male YSU students become eligible for rush; sign-up is not required. The traditional Mandatory Rush Meeting will be substituted by any individual fraternity rush function that receives University approval and is registered prior to the night of the function. Fraternities can then make their choices and offer bids to any rushee who has completed a minimum of 12 hours and has a 2.00 accum.

On any Thursday night when IFC meets, a bid from said fraternity, signed by the rushee and accompanied with a \$3.00 rush fee and official grade transcript, will be collected by the IFC Rush Committee. The Committee will then finalize the bid with a receipt stub and return it to the rushee. Bids will be checked and read every Thursday night at the IFC meeting through June 1, 1970 and continued the following academic year.

One Final Exam Question

Cafeteria conversation following final examinations and receipt of grades often includes analysis of teachers' testing methods. Of particular concern is the multiple choice type of examination which most often requires a selection and not an explanation of the answer.

Dr. Banesh Hoffman, professor of mathematics at Queens College, New York, in his book *The Tyranny of Testing* includes an example of how ridiculous multiple choice testing can become.

We offer the example, one multiple choice question, to *Jambar* readers as the first examination in *Jambar* history. Interested parties should select the correct answer and write a brief explanation of their selection in the space provided. Returned answers will be printed in a future edition.

The Question

Among the four choices listed below, mark the one which does not belong in a group with the other three.

- billiards
- cricket
- hockey
- football

Explain Briefly Your Selection

Letters To The Editor

Student Criticizes System

To the editor of the *Jambar*:

After three years plus at Youngstown State U., there are a few remarks which I'd like to make concerning different elements of the U. First, I would like to criticize the system the University is functioning under. It is apparent that if a poll were taken of students (for, it is for the student that the University is existing - I think) who either favored the quarter system or those who favored the semester system, the semester plan would undoubtedly have the far greater majority. All the student gained by the adoption of the present system was less time to be properly taught. A course which I have just completed was not properly taught because of the time element. The prof made a marvelous effort, but even as he stated, the course was designed for seventeen weeks - a semester. Need I say this for my courses! Granted, we are not expected to become a walking encyclopedia from a single course, but, it would be decent

if we were given a better framework to start from. Furthermore, all the quarter system allows for the student, is a rush course which is designed for cramming. The average student does not automatically and hyrridly assimilate and correlate, let alone learn a particular subject when he is literally bombarded with facts. Other factors are also to be taken into consideration, such as work, family, emotions and recreation. And I bitterly resent those who say there is enough time for this system and these other factors.

The students do not stand alone in this matter. There are profs who agree with this. Some do realize that there is not enough time.

And, who is to believe that under this system more subjects can be taught! A year of social science under the quarter system is still a year under the semester system, the same for history, etc. Courses were broken down which were formerly combined

and some were lost completely from the curriculum only to be reinstated after a year or two absence, which was only detrimental to the student.

At least, the transition could have been smoother!

Of course, what must be, must be, so the state of Ohio dictates. Again, one only look at the benefits, and praise them. It is a shame that the president of the university does not stand behind the student body and officially protest this system or continue to protest if he has and if he has, then this should be made known. Maybe, if there are enough protests by school officials, some enlightened person or persons can make changes and possibly remove some of the dingalings who are responsible for this official Ohio-certified education system.

Tom Block
 Senior, Liberal Arts

Firm Praises Campus Fraternity

To the editor of the *Jambar*:

We would like to take this time to single out the Delta Sigma Phi Fraternity for their thoughtfulness and contribution to our organization.

It is often difficult to dispel a myth that fraternity men are

only interested in those things that make them happy. We should like to add our voice in opposition to that myth.

This fraternity as well as some of the others are making an effort to bring their community together. We assure them that the boys and girls who

were delighted by the Christmas decorations and party at the Center, which was made possible by their contribution, are aware of their concern.

The Staff of Hagstrom House

Jambar Opens Forum

Manuscripts are now being accepted for a new *Jambar* column, "University Forum," John Greenman, editor, announced yesterday.

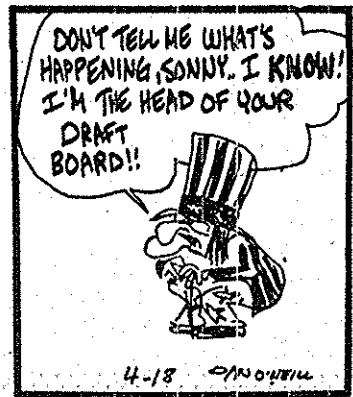

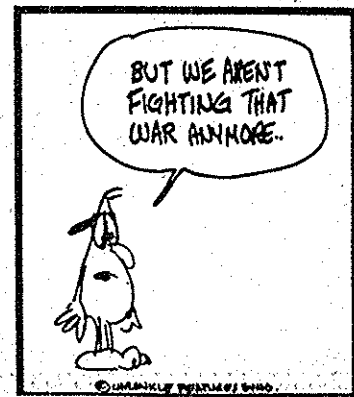

The "University Forums" column is intended to broaden communications in the *Jambar* by providing students, faculty, and administrators space to

analyze, criticize, or applaud conditions within the University. The editors will also accept comment on national issues which significantly affect the University community.

Unlike "Letters to the Editor," the paper will print only those manuscripts which conform to accepted writing

standards and which are written out of intellect rather than emotion. Length may vary but it is expected the essays will be limited to 500 words. Manuscripts should be typed and must include the writer's name, address, school-class, and phone number.

ODD BODKINS

Letters

The *Jambar* welcomes letters and comments from its readers. Letters should be typed, triple spaced, and should include the author's name, class rank, address, and telephone number. Letters should be 250 words or less.

Six Youngstown State ROTC cadets received commissions as second lieutenants in the U.S. Army and Army Reserve during ceremonies held recently in Pollock House. Lt. Col Richard J. Connolly, military science professor and ROTC commanding officer, administered the Oath of Office and commissioning address to: Jerome C. Hightower, 1445 Hillcrest Youngstown; Robert G. Lisotto of 177 Woodhall Dr., Pittsburgh, Pa.; Wayne H. Pagani, RD 5, Salem; and Daniel A. Pazzint, RD 1, Wampum, Pa.; William J. Orr, 226 Parish Ave., Hubbard; and Robert L. Steibly of 900 Tenth Ave., Sharon, Pa. Hightower, who resides in Akron, received distinguished military graduate honors.

Adult Ed. Classes Open At YSU Jan.

The Department of Continuing Education of YSU's Technical and Community College offer 23 non-credit adult education courses beginning in January.

With no grades, transcripts, academic credits or examinations, the courses are designed for adults who seek interesting and challenging learning experiences on the university level.

Basic courses will be available in piano, Polish, shorthand, typewriting, guitar, math and investments photography. One non-technical study, "Astronomy for the Space Age" will utilize the YSU planetarium. Another study-discussion program involving key foreign topics, will be presented over WYSU-FM stereo radio station, at 12:30 p.m. Sundays. There are special courses for women and older people.

Registration may be completed through the Department of Continuing Education, Room 226 in the Engineering and Science Building, from 8 a.m. until noon and from 1 p.m. to 5 p.m. Monday through Friday. Fees for the non-credit courses vary with each class.

For more information contact the Department of Continuing Education, 747-1492 Ext. 400.

Deadline For Orgs. Forms Extended

The deadline for Report of Officer and Pin Point forms has been extended to Tuesday, January 13.

Miss Henrietta Caruso, Secretary of Student Organizations, and Miss Florita Stubbs, Constitution Chairman of Student Council, consented to extend the deadline a second time yesterday after organizations complained of not receiving the forms.

Miss Stubbs said, "the Annual Report forms tell no more about the organization than their original charter application. Consequently, they serve no useful purpose. My committee will soon meet to either completely revamp the report or abolish it."

Gerald Burke, President of the NAACP, echoed this complaint in the Student Council office when he described the Annual Report forms as "a waste of time because they don't really give an indication of what an organization is doing."

Miss Caruso, who is in charge of the Report of Officers or pin point forms, felt that "the pin point forms are the only forms which really mean anything because they are important for accumulating honor points for seniors. So, we should get rid of the Annual Reports and just have the one form."

Miss Caruso said the following groups will be suspended if both forms are not in by January 13.

Students Assist AID In Seminar

Two YSU students acted as assistants and "American Friends" during the Leadership Training Seminar held here over the Christmas holidays.

Laura Herbst, a senior German major, and Edward Walter, a sophomore financial management major, were chosen by Mrs. Edna K. McDonald, seminar director and International Student Advisor. The students lived and worked with thirty six foreign students who attended the eight-day seminar.

Sponsored by the Agency for International Development, the seminar was designed for foreign students who wished to gain knowledge and skills necessary to help carry out their countries' programs for economic and social development.

The program consisted of various activities designed to help provide understanding the problems and assets of the changing American cities. Among the activities were lectures, panel discussions, films, and field trips to points of interest to those attending the seminar, such as industries, social agencies and city government offices.

AID, a division of the State

Department, selects seminar participants from international undergraduate and graduate students studying in this country. It was the third year that YSU had hosted the affair.

Besides Mrs. Edna K. McDonald, coordinator of international educational programs in Youngstown, the members of the committee in charge of the programs were Adeline Nordgren, executive director International Institute and Doris Burdman, community representative.

Miss Laura Herbst

Inner-City Project— School Jobs Open

The Cleveland Public School System is looking for you if you will be graduating this June with a major or minor in any area of science and have a desire to teach, yet lack certification. The two-part program involves teaching in Cleveland's inner-city junior high schools and includes tuition free classes at Cleveland State University.

Salary for the first year of teaching is \$7,000 with the agreement to accept a teaching assignment in any of Cleveland's

inner-city junior high schools. Participants must agree to devote full-time effort for three academic years to meet the demands of the teaching assignment. Applicants must have a 2.5 grade average and basic course work in two or more areas of science.

Application materials and assistance in arranging interviews are available by writing to Mrs. Julia Rand, division of Personnel Field Office, 18400 Schenley Ave. Cleveland, Ohio 44119.

YAF To Extend Counter Offense

Young Americans for Freedom has extended its "counter offensive to continued Vietnam Moratoriums" which was previously scheduled only for December 12 and 13.

Tom Anderson, local YAF president, said the holiday season and finals conflicted with the campaign.

He said the organization would distribute "Tell it to Han-

oi" petitions, tabloids, and post-cards addressed to President Nixon expressing support of his Vietnam policy throughout the week.

Twelve chapter members and several high school organizations are participating in the drive, he said.

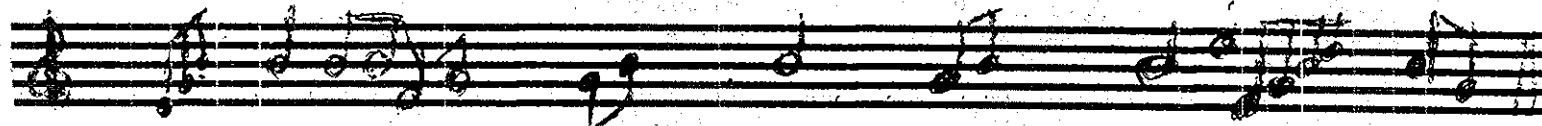

Anderson termed public response "good" but was unable to cite a number of signatures.

Mrs. Wealthie D. Prince, YSU administrative specialist has assumed the duties of assistant to the registrar.

Miss Bernice M. Brownlee, head of the Records office was recently appointed recorder. As recorder, she is responsible for maintenance and custody of all student academic records.

Beeghly Center Begun; Parking Spaces Lost

Over 150 students and faculty returning to school yesterday found parking spaces behind Elm St. School no more because excavation in that area for the Beeghly Physical Education Center during the Christmas break.

Spaces for 50 faculty cars and another hundred quasi-legal spaces on what was city urban Renewal land were eliminated by the start of construction.

Groundbreaking ceremonies for the \$5 million structure were held December 18. Dr. Albert L. Pugsley, University president; Dr. Howard W. Jones, president emeritus and Youngstown Educational Foundation president; Clarence J. Strouss, Jr., chairman of the board of trustees; Charles G. Watson, former YU board chairman; former Youngstown mayor A.B. Flask; and Mayor Jack C. Hunter spoke briefly during the ceremonies.

James L. Beeghly, son of the Youngstown philanthropist L.A. Beeghly for whom the building is named, represented the family. Financed by federal, state and private funds, the building includes a 6,000 seat basketball court and an Olympic-size swimming pool and should be completed by December, 1971.

The Joseph Bucheit and Sons Co. is general contractor.

\$2305 Raised For Poor By Newman Club

A total of \$2305 was collected for underprivileged families in Appalachia as a result of Newman Club's third annual fund raising drive for the Christian Appalachian Project.

The local student organization sold wreaths made by Appalachian families to local businesses and families. \$61 wreaths were sold in the drive which was coordinated by Father R.W. Beiting, Director of the C.A.P. Donation was \$5.00.

Newman students were expected to travel to the Eastern Kentucky counties of Appalachia to present the funds themselves, but were not able to do so because of the time involved.

Father Raymond DiBlasio, Newman Club Chaplain, hailed the success of the project as a united Newman effort.

Five Buildings To Get "Aired-Out"

Five major campus buildings are in the process of being air-conditioned and according to schedule most will be "climate controlled" before summer heat sets in.

Nearly \$1.4-million will be spent on air-conditioning Tod Hall, the University Library, Ward Beecher Science Hall, the School of Education (Elm Street School) and Jones Hall, Nick Leonelli, director of planning, reported yesterday. This will make all the major buildings on the University campus air-conditioned, as the newer structures were so when constructed.

Vacated for installation during the Christmas break,

air-conditioning of the Tod Hall-Library complex should be completed by the end of February.

Work on Elm St. School and Ward Beecher Science Complex should begin shortly, Leonelli said; completion dates are May 1 and June 1, respectively.

Though still in the design stage, Jones Hall is expected to be air-conditioned by late summer.

Air-conditioning of the five buildings was approved by the board of Trustees last year, and the plan for new University buildings provides for climate control systems for winter and summer use.

University Receives Ceramics

Dr. Arthur Friedman (left), a local osteopath, is shown presenting ceramic artifacts collected from his trips abroad to Dr. James Kiriasis, chairman of the sociology department at the University.

U of P Offers Social Work Program

Summer jobs are available for YSU students living in Western Pennsylvania who are interested in social work careers.

These jobs, paying \$75 per week, offer opportunities for experience in a wide variety of social services. The program is sponsored by the Graduate School and Social Work of the University of Pittsburgh. Participants in the program will work under the supervision of trained social workers.

Information and applications may be obtained from the YSU Psychology and Sociology departments and also the placement office; or information may be obtained by writing Katrine Nickel, director, Careers in Social Work, 200 Ross Street, Pittsburgh 15219.

WYSU-FM Begins Full Time Broadcasting

YSU's non-commercial educational radio station WYSU-FM (88.5 megahertz) yesterday began its new fulltime broadcasting schedule. The station had previously been broadcasting from 5 p.m. to 11 p.m. but the new schedule greatly extends its broadcast time. WYSU will now be on the air from noon to midnight seven days a week.

Included in the extended schedule are selections from Broadway shows, drama productions, symphony concerts, operas, panel discussions and lectures. The new programming plans were announced recently by Mr. Stephen Grocevic director of radio broadcasting at YSU.

Offered Monday through Friday at 5:50 p.m., is a humorous commentary on current events, Buchwald On, specially adapted for radio from Buchwald material featuring Art Buchwald and the Buchwald Players.

Tuesdays and Thursdays at 7 p.m. is The Best of Broadway, featuring the original casts of Broadway productions, with host Dr. Donald Vogel of the YSU Dana School of Music. "Oliver" and "Wonderful Town" are set for the first week, followed by "How to Succeed in Business Without Really Trying", "Song of Norway", "Carousel" and "Guys and Dolls."

Offer Six-Week Tour—Depts. Sponsor Trip

A six-week trip to Europe extending from June 21 through August 7 is available for students here under the sponsorship of the departments of history and geography.

Junior and senior status is required for undergraduate and graduate credits.

The participants will visit over 20 cities in England, Germany, Austria, Italy and France. The 1970 tour will, for the first time, provide bus transportation for the entire journey.

The cost, to announced at a later date, will include payment for the round trip jet transportation, full travel in Europe and all meals, hotels and tips.

For information, call Leon Laitman, Geography (ext. 397) or Agnes Smith, History (ext. 436.)

While We Were Out—

YSU Rolls To Nine Straight

After downing Cleveland State and St. Vincent prior to the Christmas vacation, the YSU Penguin cagers extended their unbeaten streak to nine with seven triumphs over the holiday season. In chronological order, Baldwin-Wallace, Westminster, Akron, Hiram, Wisconsin State, Eastern Montana, and Illinois Wesleyan fell victim to the undefeated Red and White.

Youngstown State will put their unblemished 9-0 mark on the line tomorrow night when they entertain the Kenyon Lords at the Fitch Fieldhouse. Kenyon, of course, is led by 5 ft. 9 in. John Rinka, the nation's leading scorer last year and this year with a 42 points plus per game. His season high this season is 69 points.

Here's the way the holiday victories went.

Baldwin-Wallace

On their first road appearance this season, the Penguins emerged an 83-62 victor over the hosting Yellow Jackets from Baldwin-Wallace for their third win. Sophomore Bob Patton poured in 21 points and hauled down nine rebounds to pace the Penguin aggregate. "Billy the Kid" Johnson added 14 markers while pulling superstar tricks from his defensive holster.

Westminster

Returning home to some 2700 fans at Fitch Fieldhouse, the Penguins renewed and old rivalry against the Westminster ball club. The YSU quintet welcomed the renewal winning 106-74.

Freshman Chuck Montgomery enjoyed the best night of any Penguin so far by shooting 58% from the floor, which accounted for 34 points.

Johnson grabbed 22 tallies, while Bob Patton added 11 and Ron Smith, 10.

A rugged Penguin defense, led by Johnson, halted the Westminster first half attack at 19 points, while the Penguin offense fired 42 first half markers to pad their fourth straight win. The taller Penguins out-grabbed the Westminster five 57-18 with Patton, Smith, and Teague grabbing 13, 12, and 10 rebounds respectively.

Akron

The Penguins broke a 15-year old jinx when they tripped the Akron Zips 55-48 for their fifth consecutive victory. Youngstown, before this season was never able to defeat the stubborn Zips at Memorial Auditorium since its opening in 1954.

Johnson, averaging over 21 points per game, tossed in 16; Teague towered his way to 14 markers. Johnson, the former Canton Lincoln standout, is gradually filling the All-American shoes vacated by John McElroy. Bill made ten assists, came up

with a dozen key steals, and was a Zip-menace on Penguin defense. Teague and Bob Patton shared rebounding chores with 12 grabs apiece.

Hiram

In their best outing, the Penguins massacred a visiting Hiram quintet 93-43—a 50 point spread. Teague and Johnson combined for 52 points, while Chuck Montgomery added 13.

Teague had his best night with 31 points, 18 rebounds, and a 68% shooting average from the floor. The Penguin defense allowed only 15 first half Hiram points, while intimidating the visiting shooters to a cold 21% shooting average. The Red and White sank 50% from the floor and from the charity stripe.

Wisconsin State

An evenly matched Wisconsin quintet gave the Penguins their stiffest competition of the young campaign, but YSU came out on top 87-81. The Penguins six point edge at the foul line was the difference in the final score.

Johnson flipped in 25 points while Smith added 22 to highlight the Penguin Scoring. Youngstown fired 39% from the floor, while Wisconsin hit on 38% of their shots. Field goals among the two clubs were tied at 33 apiece. But the Penguins seventh victory is hidden in their 21 of 34 charity tosses against 15 of 27 Wisconsin free throws.

Smith, 6 ft. 3 in. sophomore, pulled down 16 rebounds for the Penguins defensively, while Patton, in his fifth straight game, reached double rebound figures with 15.

Eastern Montana

Victory No. 8 came from Eastern Montana in the Penguins last game of 1969, a 90-76 decision. The Red and White, led by Johnson's 29 points, were in command throughout the contest with a solid offensive attack which saw four Penguins in double figures. Freshman Gregg Merrill was right behind Johnson's 29 markers with 17 points, while Teague added 11 and Smith 10.

Patton, was double figured working off the boards pulling down 14. Smith, who hit 22

points and 15 rebounds the game before, added 11 defensive bounds for the Penguin effort.

Illinois Wesleyan

YSU made it nine in a row Saturday night with a 79-64 triumph over visiting Illinois

Wesleyan at the Fitch gym. A first half shooting exhibition, before a standing room crowd of 2800, by Billy Johnson and Ron Smith aided the Penguins to a 13 point cushion at halftime.

Smith's second half performance, which included six straight buckets at one time,

netted him 27 points for the game, while Johnson, who tossed in 17 first half markers, ended with 22. Teague enjoyed his best night under the boards by pulling down one-third of the Penguins total 60 rebounds and added twelve points to the Penguin tally.

Scoring Leader Rinka Threat To Win Streak

Momentum and a well balanced scoring attack have given the Penguins their nine wins in as many starts, but tomorrow night Kenyon, with another outstanding performance from John Rinka, the nation's leading scorer, should snap that string of nine in a row. Hoping the "computer" is wrong, but it says 95-76 Kenyon.

The TL "computer" extended its streak of predictions to

ten straight over the holiday vacation. From a last year issue of the Jambar, the computer predicted all seven wins for the Penguins over the vacation.

Baldwin Wallace was picked an 11 point win—the Penguins added ten more to their 83-62 triumph; Westminster was predicted 100-66, but the Penguins scored 106-74; Akron was rated a 67-56 Penguin win, while the YSU quintet broke the Akron

floor jinx with a 55-48 victory; Hiram was predicted an easy victory for the Penguins, 100-59-YSU did it 93-43; Wisconsin fared better than the computer prediction of 87-66 with an 87-81 loss; Eastern Montana was scheduled to be victim number nine with a predicted 83-75 downfall, and the Penguins erased their upset hopes with a 90-76 win.

Counseling Center Offers Free Services To Students

The YSU Counseling Center offers professional counseling services to university students free of charge. The counseling services encompass adaptation to college life, academic progress, vocational direction, and personal problems.

In a recent interview, Dr. George Letchworth, director, called attention to the frequent misuse of the term "counseling" and specified that the Counseling Center provided not merely guidance but professional help for the individual student. "Confidentiality is most important in our work," he said. Counseling remains confidential and in no circumstances reflects upon the student's record.

Three other members are included on the counseling staff: Mr. Hugh Frost, Dr. William Convery, and Dr. Elizabeth Watkins. All have special training in psychology and counseling. In addition, the center administers

the American College Test (ACT), the Graduate Record Examination, the Miller Analogies Test, the Law School Admission Test, and the Admission Test for Graduate Study in Business and has information about other national examinations. Mrs. Mary Ann Dobrich, director of the Center's testing program, also supervises

the administration of "make-up" examinations and interest tests used for vocational counseling.

The Counseling Center is located in Ford Hall and appointments can be made by phone (Ext. 461) or in person in room 10. The Center is open daily from 9 a.m. to 5 p.m. and Tuesday and Wednesday evenings from 5 to 9 p.m.
