Executive director of facilities dies

By JENNIFER T. KOLLAR
News Editor

Edward J. Salata, YSU's executive director of facilities, died Tuesday afternoon after a long illness. He was 67 years old.

Salata, a native of Youngstown, was born May 10, 1934. He graduated from East High School, earned a bachelor's degree in engineering from YSU and a professional engineer's degree from Ohio State University in 1980.

Salata also attended the University of Pittsburgh and was a member of St. Elizabeth Hospital's Executive Committee, Kiwanis Club of Youngstown, Goodwill Ind. and United Way. He recently had an article published in the Council Of Educational Facility Planners International Journal entitled "Urban Design." He was 57 years old.

Speakers wonder if peace is possible

By PAUL CURL
Staff Reporter

The speakers included Mohamed Amr of Egypt, Amr began by discussing Secretary James Baker and his efforts to settle the Middle East peace. Amr said, "We must make an optimistic win to solve our problems.""The world is watching the developments of the Middle East are crucial to the security of the world," Amr said.

As president of the World Peace Foundation, Amr was accompanied by public indifference to Baker's efforts to negotiate a regional peace conference. He said that Baker has not yet made every move to bring peace to the Middle East.

Committee favors semesters

By JENNIFER T. KOLLAR
News Editor

The University's Ad Hoc Committee on the Change from Quarter to Semester System voted 9 to 4 in favor of changing the system. The move was taken after the committee completed a year-long study of the feasibility of a switch to semester.

The switch from the present semester to a semester system could benefit the University and Toledo University, according to the Chairperson of the committee, Dr. Thomas Maraffa. However, Maraffa said that such a move would take at least three years to implement, and that few YSU students seem to care about the prospect of a change.

Maraffa said that YSU was originally on a semester plan until the late 1960s when the college was absorbed by the state. At that time, the state required that all state-funded universities be changed to a quarter system. YSU switched to quarters to comply with the state requirements. Currently, Miami University, Bowling Green State, Kent State and Ohio State are all on a semester schedule.

Stu. Gov. expresses confidence in presidential search

By PAUL CURN Assistant News Editor

in the choice of Lamaliepresidential search.

"I am very confident that President Scott will make the right choice," Smith said. Smith said that he is confident in the choice of Lamalie as the next president of YSU. Smith said that Lamalie is experienced and knowledgeable in the field of higher education.

Activity Area Coordinator and one of the Academic Senate regarding the potential change from quarters to semesters.

Smith also encouraged members of the Academic Senate regarding the potential change from quarters to semesters.

The Student Government of the University and Toledo University are considering the conversion to semester.

At Monday's meeting, President Scott was the chairman of the meeting. The meeting was conducted in the Kilcawley Center. The move was to be made in the Ohio Room of Kilcawley Center. The move will be made in two steps. The first step will be to have the Academic Senate meet at 7 p.m. behind Beeghly Center. The second step will be to have the Academic Senate meet at 7 p.m. behind Beeghly Center.
Professor is troubled by the condition of his homeland

BY JENNIFER DOWNEY
Staff Reporter

According to Dr. Victor Wan-Tatah, philosophy and religious studies, Cameroon, a medium-sized country on the West coast of Africa, is riddled with human rights violations and governmental graft.

Wan-Tatah, who recently visited his family in his homeland of Cameroon, was troubled by its political problems. Although he said that this is not a new problem, the situation has gotten worse.

"It has come to the point where Anglophones are openly discriminated against. In other words, you have taken representatives of people from the west who don't really wield any power," said Wan-Tatah.

"Cameroon is a rich country with plenty of natural resources. At one time it attracted international businesses. We are talking about a country that has been able to feed its own people. In the last war, Cameroon was the only country in Africa that was able to feed its population on its own," Wan-Tatah explained. "I would advocate for unity, for real justice, human fairness and equal representation in government," he said.

Wan-Tatah said he also believes that it would be beneficial for both states to learn from each other. "I believe that it would be beneficial for both states to learn from each other," he said, "but unity that is predicted on foreign soil." He said he was bothered by the fact that economic pressures will bring about change. He said he was bothered by the fact that economic pressures will bring about change. He said he was bothered by the fact that economic pressures will bring about change. He said he was bothered by the fact that economic pressures will bring about change.

According to Wan-Tatah, there is a growing movement by the Anglo-population to bring about change. He said he was bothered by the fact that economic pressures will bring about change. He said he was bothered by the fact that economic pressures will bring about change. He said he was bothered by the fact that economic pressures will bring about change.

Wan-Tatah also said that the opposition party is now very strong and is in control of 6 of the 10 provinces in Cameroon, and that it is actively engaging in economic boycotts and warfare.

"They have been able to virtually shut down the economy during the work week. No one goes to work," Wan-Tatah explained. "Everything, from a shop to a shop, is really closed for the work week except for weekends. They are very clever in creating the supply lines." According to Wan-Tatah, part of the political problems in Cameroon are centered around the cultural differences between the Francophones and Anglophones. Cameroon was originally two provinces. The western province was under British control and the eastern, larger of the two, was under French influence. Wan-Tatah explained that in 1960 both provinces achieved their individual independence and in 1961, they joined together and became the United Republic of Cameroon. Conflicting English and French cultural values continued to divide the country and the conflict has gotten worse.

YSU HEALTH FAIR

Here's to Health!

Open to all YSU employees and students

10:00 a.m. - 2:00 p.m. (both days)
Kilcawley Center

FREE TESTING:

* Blood Pressure, Typing and Analysis
* Pulmonary Function
* Nutritional Guidance
* Fitness and Wellness Assessment

Appointment not necessary unless you are taking the KDA BLOOD ANALYSIS TEST.

**All other booths accept walk-ins**
Women's rights should not be aborted

It shouldn't seem to be the moral question of the day. It is impossible to be sympathetic in favor of abortion, or to oppose it, when one looks through the issue. But it's even more difficult to be against choice. It's easy to say that people who don't want children, or who shouldn't have them for some reason, should not contracept and that those contraceptives should be ignored. It's also easy to say to people should be mature when making decisions and responsible for their actions, and that their children should be loved, wanted, and well cared for. But in a society that finds it difficult to own even the use of contraceptives — let alone abortion — these statements are easier said than done.

Our society is so misinformed that youths are often unaware of how pregnancy occurs. Although abstinence may not be deemed correct by religious moralists who cannot even allow education in schools, how can someone be against choice? For some reason, should use contraceptives and that those contraceptives should be ignored. It's also easy to say to people should be mature when making decisions and responsible for their actions, and that their children should be loved, wanted, and well cared for. But in a society that finds it difficult to own even the use of contraceptives — let alone abortion — these statements are easier said than done.

Are There Any More Questions?
**Legal abortions should be available when necessary**

Dear Editor,

Another example of an American wasting his opinion is Rush Limbaugh. I am also proud to be a Conservative and I thank Tom C. McCabe for stating one of my opinions in writing.

I am not, however, daunted by his so-called “little lie” of a complaint. As one of his listeners, I assume that he is not calling me an “idiot,” but that the inaccurate reporting of US Foreign Policy is the cause of his anger.

There is a celebrity who caters with talent on loan from God behind his back. His and with half his brain tied behind his ear. His and with half his brain tied behind his ear. His is simply ridiculous. These activists, who like to be called “peace lovers,” have often participated in the most violent protests across the country and in our area as well.

While volunteering for CHOICE YOUNGSTOWN last December in the Mahoning Valley Women’s Center, which offers safe and legal abortions for women, I witnessed the “Operation Rescue” demonstration in which anti-abortionists not only vandalized the center, but physically attacked staff members. The choicemakers who were present. They also brought with them families and concerned citizens designed to create tension, fearful stories to drive workers from the building and prevent scheduled abortions from taking place.

A great many of these anti-abortion protests are anything but peaceful, and the comparison of such demonstrations to Dr. King’s march on Washington is nauseating.

I am very proud to continue to volunteer for CHOICE YOUNGSTOWN and defend my time and money to those who should be allowed to make such decisions.

I feel fortunate to live in a country that allows both legal abortion and the right to choose. I agree with him and who give myивают who are against legal abortion.

Legal abortions should be available when necessary. For example, I would like to save the lives and the little ones who are born with defects or birth defects. How many children will be aborted — possibly to death — because their mothers did not want them, and a legal abortion had not been available? How many children will die from malnutrition — or turn to drugs? How many will die of AIDS and women will die from legal abortion.

I believe that legal abortion is a human right and should be available WHEN THE SITUATION WARRANTS IT. The legal system should not take what it would consider a step backwards.

**Aid to foreign countries must be drastically reduced**

Matthew J. Ditchev
Senior, A&S

For the last 40 years, the US has kept a parameter behind-laden airliner on constant 24-hour-a-day alert. The time is right for a change in our budget outlays, for not all of our foreign bases.

For example, our foreign aid programs have been in place for 50 years. As their economies grew with factories and technology of Japanese and West European origin, our own became out-dated and less competitive. We no longer can afford, or need, to continue this practice.

Other bases, such as those in the Philippines, are no longer wanted by the host nation. We have offered the use of the bases. This price does not even include the cost of maintaining, but it does not provide much to the US.

We must protect this as an alternative to the millions of our own when it come to wasting money. This does not happen if they do succeed in causing economic hardships in the country.

On priority high for CHOICE YOUNGSTOWN is to get a few minutes advantage against a Soviet attack. Fortunately, good has conquered evil and the Cold War has ended with the United States victorious in all its perimeter, and in Japan, and are designed to deter Soviet aggression. Since we are no longer at the brink of war with the USSR, we can afford to continue to encourage nations to become independent and to assist those in need.

Foreign aid must be reduced drastically, if not entirely. It is nice to assist countries less fortunate than ourselves, but it is not prudent. Foreign aid rarely works, especially in countries that are not receptive to help. We must make our own efforts to improve our own economies.

Letters and Opinion Submissions

The Jambor encourages letters. All letters must be typed, double-spaced, signed and include the writer’s telephone number, which is used for confirmation purposes and will not be published.

No unsigned letters will be published. Names of sexual assault victims may be deleted upon request, although they must be signed as clerked científico purposes.

Proper identification is needed when submitting materials.

The Editor reserves the right to reject or edit any/all submissions.

All materials must be delivered to The Jambor by 10 a.m. Thursday for Tuesday’s edition, or 10 a.m. Monday for Friday’s edition.

Racial Awareness Program discusses issue of race

By Marla Kondzia
Copy Editor

According to Dr. John White, an anthropologist, race is both a biological and sociological construct. "Race is a four-letter word," White said. "Many people use the word 'race' without really understanding what it means." White added that the concept of race is complex and that it is important to understand the biological and social implications of race.

White explained that there are many different ways of defining race, and that the term "race" is used in many different contexts. He mentioned that race is often used in the field of biology to describe differences between different species of animals. In this context, race is defined based on physical characteristics such as skin color, hair texture, and eye color. However, White emphasized that race is also used in the social sciences to describe differences between human populations. In this context, race is defined based on cultural, historical, and social factors.

White also noted that the term "race" is often used in a negative way, and that it is important to recognize the ways in which race can be used to perpetuate prejudice and discrimination. He said that it is important to be aware of the ways in which race is used and to critically evaluate the ways in which race is defined and understood.

The next RAP meeting will be held at noon Thursday, Oct. 24, in the Kilcawley Center Buckeye Reception Room. The meeting will consist of a formal presentation followed by a Q&A session. The presentation will be given by Ben-Haim, who will discuss his research on the topic of race.

Ben-Haim said that hebelieves that the concept of race is complex and that it is important to understand the ways in which race is defined and understood. He said that race is used to describe differences between human populations, and that it is important to recognize the ways in which race is used to perpetuate prejudice and discrimination.

Ben-Haim also noted that the concept of race is often used in the field of biology to describe differences between different species of animals. Evening Student Services acquires new responsibilities

By PAUL CURR
Assistant News Editor

Evening Student Services is the new name of what used to be called Non-Traditional Student Services. With the name change some additional responsibilities for administering Campus Area Safety (CAS) and the Evening Shuttle.

CAS was formerly administered by Student Government and the Evening Shuttle was under the control of another student service office.

The services are available between 7 a.m. and 11 p.m. Monday through Friday. Between the hours of 7 a.m. and 5 p.m. these services are retained specifically for the handicapped, special accommodations must be made in advance.

Requests for quarterly escorts may be made. A student will be placed on a schedule to be escorted to and from a particular class for the entire quarter.

The job of the escort is to be safely with people on campus at all times. When walking students to their car, they will check out and escort to determine whether it is safe. When escorting students off campus, the escort will give them and have walkie talkies to have direct contact with University police.

If requested, an escort may ride the Evening Shuttle with a student. However, escorts are not permitted to give clients ride in their car or van.

After 5 p.m. the services are on call and can be dispatched to a location within five minutes.

CAS staff members are made up of YSU students who have undergone a training program and is service with the YSU police department.

The Evening Shuttle service is provided by the Western Reserve Transit Authority (WRTA) and YSU.

The shuttle, which in the past only provided one route, will now offer two routes. Route A travels around the main campus area and route B covers the off campus area toward the North Side up to Fairgrove.

The shuttle is free to students and $2.25 to any faculty member presenting a YSU identification card. The bus may be flagged down by students when they see the shuttle, it is not necessary to find a specific stop.

In addition to the two safety programs, Evening Student Services provides help and information for interested evening students. The office acts as a clearinghouse for students who are seeking information after 5 p.m. when the University offices have closed.

The office also provides programs for evening students. A workshop on "Enhancing Self-Resilience" will be presented at 6:30-8:30 p.m. Tuesday, Oct. 22, in the Commons Room of Kilroy Center. A workshop on how to learn more about computing will be held Saturday, Nov. 2, in Room 580 of Cushwa Hall. Students are asked to bring a 5 1/4 floppy disk.

For information on any of the services provided by Evening Student Services, call Gay Breidenbach at 780-1535.

Speaker addresses theme of Afrocentricity

By DELONES M. THOMAS
Staff Reporter

Guest speaker Jalil Ayize addressed the YSU controversy on the theme of Afrocentricity at a workshop presented by the National Pan-Hellenic Council (NPHC).

Ayize, a recent graduate of Bowling Green State University, said that the University of Liberia, King, Jr. and other influential black women and men.

Ayize said that participants with races and showcasing the needs of the community were what prompted him to begin a campaign to speak to African-American college students and provide them with the information, knowledge and motivation to control the destiny of their communities through their field of study.

With the help of Dr. Na'im Akbar, a noted psychologist, Ayize decided to begin his workshop presentations on the theme of Afrocentricity. Ayize believes that when African culture, values and (lunes of retention are placed at the center of an individual's thoughts he is moved to act toward the collective will of the African people.

The workshop, presented by Ayize, consisted of a slide-tape and video presentation. Both were integrated with audience participation. Ayize believes that audience participation is important in presentations because "it generates the change that only can be made in the audience's consciousness." The workshop also addressed the question of how and where college educated African-Americans fit into an Afrocentric society.

Assistant News Editor

Evening Student Services is the new name of what used to be called Non-Traditional Student Services. With the name change some additional responsibilities for administering Campus Area Safety (CAS) and the Evening Shuttle.

CAS was formerly administered by Student Government and the Evening Shuttle was under the control of another student service office.

The services are available between 7 a.m. and 11 p.m. Monday through Friday. Between the hours of 7 a.m. and 5 p.m. these services are retained specifically for the handicapped, special accommodations must be made in advance.

Requests for quarterly escorts may be made. A student will be placed on a schedule to be escorted to and from a particular class for the entire quarter.

The job of the escort is to be safely with people on campus at all times. When walking students to their car, they will check out and escort to determine whether it is safe. When escorting students off campus, the escort will give them and have walkie talkies to have direct contact with University police.

If requested, an escort may ride the Evening Shuttle with a student. However, escorts are not permitted to give clients ride in their car or van.

After 5 p.m. the services are on call and can be dispatched to a location within five minutes.

CAS staff members are made up of YSU students who have undergone a training program and is service with the YSU police department.

The Evening Shuttle service is provided by the Western Reserve Transit Authority (WRTA) and YSU.

The shuttle, which in the past only provided one route, will now offer two routes. Route A travels around the main campus area and route B covers the off campus area toward the North Side up to Fairgrove.

The shuttle is free to students and $2.25 to any faculty member presenting a YSU identification card. The bus may be flagged down by students when they see the shuttle, it is not necessary to find a specific stop.

In addition to the two safety programs, Evening Student Services provides help and information for interested evening students. The office acts as a clearinghouse for students who are seeking information after 5 p.m. when the University offices have closed.

The office also provides programs for evening students. A workshop on "Enhancing Self-Resilience" will be presented at 6:30-8:30 p.m. Tuesday, Oct. 22, in the Commons Room of Kilroy Center. A workshop on how to learn more about computing will be held Saturday, Nov. 2, in Room 580 of Cushwa Hall. Students are asked to bring a 5 1/4 floppy disk.

For information on any of the services provided by Evening Student Services, call Gay Breidenbach at 780-1535.

Speaker addresses theme of Afrocentricity

By DELONES M. THOMAS
Staff Reporter

Guest speaker Jalil Ayize addressed the YSU controversy on the theme of Afrocentricity at a workshop presented by the National Pan-Hellenic Council (NPHC).

Ayize, a recent graduate of Bowling Green State University, said that the University of Liberia, King, Jr. and other influential black women and men.

Ayize said that participants with races and showcasing the needs of the community were what prompted him to begin a campaign to speak to African-American college students and provide them with the information, knowledge and motivation to control the destiny of their communities through their field of study.

With the help of Dr. Na'im Akbar, a noted psychologist, Ayize decided to begin his workshop presentations on the theme of Afrocentricity. Ayize believes that when African culture, values and (lunes of retention are placed at the center of an individual's thoughts he is moved to act toward the collective will of the African people.

The workshop, presented by Ayize, consisted of a slide-tape and video presentation. Both were integrated with audience participation. Ayize believes that audience participation is important in presentations because "it generates the change that only can be made in the audience's consciousness." The workshop also addressed the question of how and where college educated African-Americans fit into an Afrocentric society.

**TV producers scouting for talent**

America's Funniest People is coming to Youngstown looking for a new kind of talent for the hit television series. A television crew from the show will be in the area Oct. 18-20 to search for people who have amusing or unusual talents, ranging from commercial parodies and kids' impressions of your favorite TV personalities to dance, dog and pet acts, and musical instruments.

According to Neil Yutkin, account executive for OBES, the show gives each participant a chance to showcase their talents and possibly win $10,000 in our weekly contest. And, if they're chosen, they'll be seen this coming season on ABC, directly following America's Funniest Home Videos.

In particular, America's Funniest People is scouting for jokes, unique impressions, and sound effects, as well as lip-syncing to favorite records, unusual physical comedy, novel singing and dancing routines, and just about anything else.

Anyone and everyone with that bit of unusual talent is invited to the auditions. If you would like to tell us your wacky ideas, or for more information, call (213) 662-5100 or send a tape to America's Funniest People, PO Box 1881, Hollywood, Calif. 90078. Enclose a $3 U.S. check or money order for handling if cassette is to be returned. NOT RESPONSIBLE FOR MISDIRECTED TAPES.

Employees and family members of Capital Credit/ABC and Viacom Productions are not eligible for this contest. For full contact name write to the above address.

**OBES to recruit seasonal help**

The Ohio Bureau of Employment Services (OBES) will be in Youngstown for the next two weeks looking for seasonal workers to help staff the non-perishable food drives at the two malls; however, not every store in the group of stores in the two malls will be accepting these workers.

The employers run the entire range of pay from $4.25 to $4.75 per hour, and in some stores using OBES are the non-perishable food drives. According to Neil Yutkin, account executive for OBES, the positions are only for the Christmas holiday season; however, usually one or two positions are only for the positions are only for the Christmas holiday season; however, usually one or two people will be retained on a permanent basis based on need and individual performance. The openings exceed 150 between both malls, and orders are still coming in.

Students who fill out a registration card will also be eligible for jobs as they become available on the strip in Niles.

**Food drive set for Homecoming football game**

---

The YSU Student Social Workers' Association is asking that you come to the Penguins' Homecoming game this Saturday, Oct. 19, you also support the area needy by bringing a canned good or other non-perishable item.

The members of the SSWA will be stationed at entrances to the Anderson Hall and will direct students to the South Gym, where the drive will begin at 6:00 p.m. and continue through the game. Students who give will receive a Turkey Trot ticket.

Former Surgeon General C. Everett Koop to speak

YSU — Former U.S. Surgeon General C. Everett Koop will be the first guest speaker of the YSU Special Lecture Series for 1991-92.

Dr. Koop will deliver the Skeggs Lecture at 7:30 p.m. Monday, Oct. 21, in the Chestnut Room of Kilcawley Center.

As Surgeon General from Nov. 17, 1981, to Oct. 1, 1989, Koop oversaw the activities of the 6,000-member U.S. Public Health Service Commissioned Corps. He advised the public throughout the 1980s on issues such as smoking and health, diet and nutrition and immunization and disease.

Born in Brooklyn, N.Y., on Oct. 14, 1916, Koop graduated from Dartmouth College in 1937. He received his medical degree from Cornell University's Medical College in 1941 and a Doctor of Science in Medicine in 1947 from the Graduate School of Medicine at the University of Pennsylvania.

A pediatric surgeon with an international reputation, Koop was surgeon-in-chief of Children's Hospital of Philadelphia from 1948 to 1981. During this period, he rose up the academic ladder, becoming a professor of pediatric surgery at the University of Pennsylvania in 1959 and professor of pediatrics in 1971.

The recipient of numerous honors and awards, including 23 honorary doctorates, he received France's Medal of the Legion of Honor in 1980 and was inducted into the Royal College of Surgeons of England in 1982.

In May 1983, Koop was awarded the Public Health Service Distinguished Service Medal in recognition of his extraordinary leadership of the U.S. Public Health Service.

After retirement, he was presented with the Surgeon General's Exemplary Service Medal and the Surgeon General's Medallion. He continues to educate the public about health issues through writings, the electronic media and the C. Everett Koop Institute of Health and Science.

The Skeggs Lecture, part of YSU's Special Lecture Series, was established in 1966 in memory of the late Leonard T. Skeggs Sr. in recognition of the vital role he played in the foundation of YSU.

---

OBES and in the Boardman Plaza.

"It's experimental this year," said Yutkin. "It's the first time we're trying it and if it works out we will make it standard in years to come."

In order to sign up, students will need to bring with them some form of identification with their social security number. A student may register with either the Niles or Youngstown employment office or both, as one representative from each will be present. The student will then be on file for six months at OBES and may update the card for other types of work later on. The updating of a person's card can only be done at one of the branch offices. All of the jobs are on the entry level and most do not need any previous experience; however, certain positions require a minimum of three months experience in retail.

Current exhibit at Butler is definitely 'amazing'

By SHIRLEY GIURA
Staff Reporter

The Butler Institute of American Art has a hock at presenting shows that are one of its current fall-schedule claims to present, “the largest presenting shows that are uni­face. Still, you can actually look into the lens at a view of the 3-D image made by laser lasers were required to create this 3-dimensional image that appears to be solid, yet maintains an ethereal quality. The exhibit at Butler from Oct. 13 - Nov. 10.

Latest film release takes away lonely fall day blues

By MATT DEUTSCH
Staff Reporter

Michelle Pfeiffer and Al Pacino drive the plot of the new film Frankie and Johnny, which is a romantic comedy about an ex-con who falls in love with a waitress after getting a job at a New York restaurant where she works. Unlike Pretty Woman, however, this story has more of a realistic touch while at the same time maintaining its fairy-tale quality. This is due in large part to playwright Terrence McNally, who successfully transformed his own play into a screenplay giving the story a real feel. Pacino plays Johnny with deftness and calculated vigor, once again showing his calculated performance of the film’s heart. As you might have guessed, loneliness and the fear it invokes are central themes. Pacino appears better, they also act as the springboard from which both the Butler and the film soar to new heights. As you might have guessed, loneliness and the fear it invokes are central themes. Pacino appears better, they also act as the springboard from which both the Butler and the film soar to new heights.
Symphony presents music of Jean Sibelius

The music of Jean Sibelius will be performed by the Youngstown Symphony Orchestra Saturday, Oct. 18 at the Edward W. Prescott Auditorium.

Violinist Dong-Suk Kang will join the Orchestra for the Violin Concerto in D Minor. Korean born, Kang arrived in New York in 1987 to study at the Juilliard School of Music and later at the Curtis Institute of Music with Ivan Galamian.

Kang first came to the attention of the American public in 1974 when he created a sensation by winning both the San Francisco Symphony Foundation Competition and the Merriweather Post competition in Washington D.C. for a performance of the Beethoven Violin Concerto.

Kang then went on to perform with the Philadelphia, Cleveland, St. Louis, San Francisco, London Philharmonic and BBC Orchestra and Orchestra National de France. Kang is a violinist at Lincoln Center and the innermost core of the music world.

Selections to be performed by the Orchestra, which is under the direction of David Effron, include Finlandia and Symphony No. 5.

Tickets are available by calling the Symphony box office at 744-0264 or 1-800-699-0264.
Penguins look to put out the Liberty Flames

By APRIL BOTT
Co-Sports Editor

The Penguin football team gathers around to inspire each other to victory. They hope to get a view of the scoreboard for the first time in their season opener against the Flames.

Hawkins is flying high as top runner for Penguins

By APRIL BOTT
Co-Sports Editor

Leo Hawkins is a power to be reckoned with every time he comes onto the football field. The senior running back is an integral cog in the workings of the Penguins' offensive machine.

Together now! The Penguin football team gathers around to inspire each other to victory. They hope to get a view of the scoreboard for the first time in their season opener against the Flames.

The Penguins' season opening win over Edinboro was forced to sit out a game, but his numbers are cumulative over five games instead of six. Thus far, Hawkins has rushed for 523 yards with nine touchdowns in only five games, this being his senior season, the silent force of the Penguins.

"People think I'm quiet," said Hawkins. "And, agreed, he is a bit soft-spoken. But, his statistics speak for themselves.

This season, Hawkins has rushed for 523 yards with nine touchdowns in only five games, this being his senior season, the silent force of the Penguins. His thoughts...

"I was always bigger than the other kids," Hawkins said. "But, I asked the coach if I could go to the backfield during a game."

According to Hawkins, when the coach let him run the ball, he really ran to the endzone for a 65-yard score. From that point on, the backfield is where he really runs.

One Hour Photo's Offensive Player of the Week in the Penguins' season opening win against Edinboro.

But, Hawkins wasn't always a workhorse in the backfield. He started his gridiron career as an all-year-old.

Years ago...

The Penguins' season opening win over Edinboro was forced to sit out a game, but his numbers are cumulative over five games instead of six. Thus far, Hawkins has rushed for 523 yards with nine touchdowns in only five games, this being his senior season, the silent force of the Penguins.

According to Hawkins, when the coach let him run the ball, he really ran to the endzone for a 65-yard score. From that point on, the backfield is where he really runs.

One Hour Photo's Offensive Player of the Week in the Penguins' season opening win against Edinboro.

"Coach says that a degree is not so important. But, I'm glad I went to Youngstown State," said Hawkins.

To counter this defense, YSU will have to be sharp on offense. Heading up the backfield will be Hawkins and Leo Hawkins, who have rushed for 523 and 522 yards respectively.

Spearheading the aerial assault will be quarterback Ray Isaac who has completed 50 passes and five touchdowns in six games.

The Penguins will have to put together a stop to the Flames' multiple threat offense that features Junior quarterback fisher. Isaac, who has the ability to spread the ball around all of his players.

Tressel is optimistic about returning home to the "people" of Stambaugh and credits the community for standing behind the program. But he knows the Penguins will have to be sharp Saturday.

"Liberty will be a tough, tough challenge this week," said Tressel. "We'll get our best shot that Liberty has to offer."

The Jambar wishes to extend its deepest condolences to Tamron Smith, whose father passed away last Saturday. Our thoughts and prayers go with the Smith family during this time of grief.
Lady Penguins suffer setback to Edinboro

By MICHAEL TOSHIURA
Sports Editor

The YSU volleyball team has been hot as of late, going 8-3 over the past two weeks. Unfortunately for the Lady Penguins, Edinboro stole some of that thunder away Wednesday as they beat YSU in straight sets, 15-14, 15-11 and 15-7.

"We had two chances to put them (Edinboro) away, and we simply didn't do it," said YSU head coach John McKenna.

The first set began for YSU with sophomore Jen Windau serving three straight points to put the Lady Penguins up 3-1. YSU then went up 8-3 before Edinboro scored five straight to go ahead 8-11. YSU fought back with six unanswered points to take a 15-11 lead. But the Lady Scots came storming back to tie the set at 14 each. The Scots then scored the last two points to take the set.

In the second set, Edinboro jumped out to an early lead. Again, YSU came back, thanks in large part to junior Anne Putt and Sandy Stieber with some great serving and killing.

Again, however, Edinboro managed to come back and take the lead at 15-14. YSU led it on a serve by Windau. Edinboro then promptly took the ball back and served the final two points for the victory.

The Lady Pens took a 3-1 lead in the third set, Edinboro began to dominate YSU with its great serving.

"Their blocking was especially good," said McKenna.

Edi won the third set to sweep YSU on to home court. The last set saw YSU win the PGC with a University of Buffalo back in late September. This is the first time YSU has been swept on its home court this year.

"Pennsylvania has always had some great volleyball players, and it showed tonight," said McKenna after the match.

Even though Edinboro is a Division II school, the Lady Penguins need to improve on their consistency. "We just need to refine our fundamentals," said McKenna.

YSU's next home game will be this Saturday when it hosts the Red Flash of St. Francis, Pa. at the Beeghly Center. The Lady Penguins will face defending NCAA tournament qualifier St. Francis, Pa. at the Beeghly Center. The Lady Penguins will take on St. Francis on Saturday at 2:30 p.m. in the Student Tailgate Lot.

In the second set, Edinboro jumped out to an early lead. Again, YSU came back thanks to seniors Cherry Wolfe and Sandy Stieber with some great serving and killing.

Again, however, Edinboro managed to come back and take the lead at 15-14. YSU led it on a serve by Windau. Edinboro then promptly took the ball back and served the final two points for the victory.

The YSU volleyball team has been hot as of late, going 8-3 over the past two weeks. Unfortunately for the Lady Penguins, Edinboro stole some of that thunder away Wednesday as they beat YSU in straight sets, 15-14, 15-11 and 15-7.

"We had two chances to put them (Edinboro) away, and we simply didn't do it," said YSU head coach John McKenna.

The first set began for YSU with sophomore Jen Windau serving three straight points to put the Lady Penguins up 3-1. YSU then went up 8-3 before Edinboro scored five straight to go ahead 8-11. YSU fought back with six unanswered points to take a 15-11 lead. But the Lady Scots came storming back to tie the set at 14 each. The Scots then scored the last two points to take the set.

In the second set, Edinboro jumped out to an early lead. Again, YSU came back, thanks in large part to junior Anne Putt and Sandy Stieber with some great serving and killing.

Again, however, Edinboro managed to come back and take the lead at 15-14. YSU led it on a serve by Windau. Edinboro then promptly took the ball back and served the final two points for the victory.

Noted writer to give reading from his recent memoir

YSU — Noted writer Gary Gildner will read from his recent memoir, "Warsaw Sparks," at 7:30 p.m., Friday, Oct. 18, in the Kilcawley Center. Gildner received a bachelor of arts in 1956 and a master of arts in comparative literature in 1958, both from Michigan State University. He was a Visiting Professor at the University of Warsaw in 1977-78.

"Warsaw Sparks" recalls Gildner's adventures in teaching and then writing a full memoir at 73. His dedication to poetry is evident in his recent volume, "Theodore Bikel Poetry Prize." His beloved book is fresh and fascinating memoir.

Teleconference to feature tax experts

YSU — The S Corporation, made popular through the tax reforms of the 1980s, offers a tax shelter for personal and business income. The teleconference will explain the benefits of the latest corporate form and the advantages of planning and insurance opportunities, and F. Edward Wiest, Alpine/CIU/DMAC, will serve as teleconference moderator. Speakers include split-dollar specialist Clark B. McCall, and tax expert Dennis C. Reardon, a tax attorney and an authority on S Corporations.

The program will examine the three types of corporations: C, S, and the S Corporation elected to be an S.
