

Six Vie For Homecoming Crown

Queen and Court Will Be Chosen Oct. 28, 29 In All School Election

With Youngstown University's nineteenth annual homecoming drawing near the candidates for Queen have been announced. The Queen will be chosen by the full-time student body in an election to be held on October 28th and 29th.

The date for the homecoming festivities has been set for November 7th, when the Penguins play New Haven State. Under the co-chairmanship of John Hite and Don Riley the affair has been thoroughly planned and includes a parade through the downtown district, elaborate halftime ceremonies, and the homecoming dance at Idora Park.

After Game Dance To Be Held

Alpha Omicron Pi Sorority and Theta Chi Fraternity are co-sponsors of an after-game dance to be held in Strouss Auditorium tonight following the Ohio University game.

A member of the sophomore class, Betty Fabry, who lives on Cooper Road in Lowellville, has been chosen to represent Beta Sigma Omicron sorority. Betty, who is 18, graduated from North High School in 1958 and is now majoring in education.

A 1957 graduate of Farrell High School has been placed on the ballot by Tau Kappa Nu. Jo Anne Messina, 19, of 1745 Roemer Blvd., Farrell, is their hopeful entry. Jo Anne is enrolled in the secretarial school and is majoring in business education.

An elementary education major, Susanne Morosky, has been selected to represent her sorority, Phi Mu. Sue, whose home is here in town at 3130 Castalia Avenue, is a 1957 graduate of North High School.

Alpha Omicron Pi sorority is backing Bernadette Polisso, one of its' sophomore members. "Bernie" lives at 2268 McGuffey Road, Youngstown and graduated from North High School in 1958. She is now majoring in elementary education.

The Dana School of Music has placed Lois Slicker, one of its' members, in the competition. Lois graduated from Boardman High School in 1955 and lives at 132 Brainerd Drive in Boardman. Lois is majoring in piano.

Davene Ucello, Theta Chi's 1958-59 Dream Girl, has been selected by her sisters in Sigma Sigma Sigma sorority as their candidate. Davene, a 1957 graduate of Ursuline High School, lives at 220 E. Lucius Avenue. She is now a junior majoring in business education.

Cinema 16 Sponsors Films Each Wednesday

Cinema 16 again brings outstanding films to the students and faculty of Youngstown University.

The audio visual room in the library once more is the scene of project Cinema 16. The films will be shown there each Wednesday from 2 to 5. Student and faculty participation is hopefully encouraged.

The first film in the series will be shown before this paper is in print. The next film, "Potemkin", will be shown on October 21. This film has been accorded the high praise of being among the greatest films in fifty years. It was made in Russia in 1925 and directed by Sergi Eisenstein.

"Potemkin" is based on an actual incident which occurred on the ship Prince Potemkin during the 1905 uprising. The sailors themselves and the people of Odessa were used as actors.

BERNIE POLISSO

Y. U. S. A. Sets Migration Day

Youngstown University's Student Association has set Migration Day for the Akron U. game, Sat. Oct. 24th.

Migration Day, the first of its kind ever to appear on Y.U.'s campus, will feature Penguin rooters accompanied by the cheerleaders, migrating to Akron in a caravan of busses.

Holders of Y.U.S.A. cards will be charged a fee of \$2.50, and non-holders \$2.75. The tickets will include round trip bus accommodations plus choice seats at the game. Groups that are interested may reserve an entire bus with the

JO ANNE MESSINA

BETTY FABRY

stipulation that forty-five people will occupy the seats.

Busses will leave from the front of the University Library at 12 noon, and return to Youngstown at 6:45 p.m.

Tickets for the game, which marks Akron's Homecoming, may be purchased from Jerry Harklerode or Pete Shoemaker, Chairman and Co-Chairman of the event. The tickets will be on sale from 12-1 p.m., at the Dean of Women's office. Deadline for the sales of tickets has been set for Wed. Oct. 21st.

Senior Class Elections Will Be Held In Strouss On Oct. 21, 22

Nominations for the officers of the Senior Class for the 1959-60 semesters have been received. Four seniors will be elected by the senior class to the positions of President, Vice-President, Secretary, and Treasurer. The voting will take place on the first floor of the Main Building on the 21st and 22nd of this month.

Vying for the office of President are Jim Douglass, Dan Murphy, Ron Stowe and A.F. Verdream.

Douglass is majoring in electrical engineering. He was the Homecoming Chairman in 1956.

Murphy has served on Student Council for the past two years and is now Vice President. He has maintained a 2.1 point average while majoring in metallurgical engineering. He is a member of the American Society of Metals and has served as Constitution Chairman for Student Council.

Stowe, who is majoring in general business, has a 2.4 point average. He has served on Student Council for the past three years and has held the offices of Vice-President and Discipline Chairman. Ron is also on the Student Faculty Discipline Committee and has held chairmanships for the Snowflake Frolic and the Freshman Orientation Committee.

Verdream has been a member of IFC for the past three years and held the office of Vice-President in

1958. He is majoring in pre-law. He has previously served as chairman for the "Mardi Gras".

Seeking the office of Vice-president of the Senior Class are Martha Clark, Judy Pruce, and Ron Vanatsky.

Miss Clark held the office of Secretary of Student Council. Majoring in Elementary Education she has a point average of 2.3. She has also served as treasurer of the Youngstown University Student Association.

Miss Pruce is majoring in Elementary Education. She has held the offices of Secretary and Social Chairman of Newman Club.

Vanatsky, whose major is Industrial Engineering, is presently serving as Corresponding Secretary of the Dean's Council. He has previously served as Secretary of YUSIE and vice-president of OSPE. Ron has also been very active in the field of journalism, being a columnist and also Sport's Editor for the JAMBAR, Editor of The Newman Club Heart,

Alpha Pi Epsilon Begins Membership Drive Oct. 19

Alpha Pi Epsilon, the women's service sorority on campus, is planning their annual membership drive. All University women who fulfill the requirements for membership are invited to join.

The sorority performs various services throughout the year - both

in the University and in the larger local community. This past year, for instance, various members served as hostesses at different University functions; University Open House and Greek Sing to mention a few. One of the community projects was baking and delivering cookies to the County Old Folks Home. Also, each year at Christmas time, the girls dress dolls to distribute as presents to needy children. These are only a few services that the girls in Alpha Pi

Epsilon perform.

There shall be information sheets available in the Dean of Women's Office in Room 210 of Main, October 19, 20, and 21 on which the requirements for membership shall be listed. During this same time all those wishing to join should sign the appropriate list which shall also be found in the Dean of Women's Office. No girl may sign up any later than 4:00 P.M. October 21, 1959.

Horizon Has Schoolwide Appeal

Youngstown University's HORIZON is entering its fifth year of publication. Since the magazine was first conceived in 1954, it has evolved into a highly respected and integral part of our University.

HORIZON is published once each semester by the students of Youngstown University and the magazine's prime objective is to provide a creative outlet for students who feel the need to express themselves through poetry, prose, artwork, drama or essays.

The art of writing, like all creative flares of human imagination, is not confined to any particular group of students or area of study. HORIZON has published the poetry of Engineers as well as short stories written by Business majors. All the schools of the University have been represented in Horizon many times over. The Winter-59 issue of HORIZON, for example, has the following departmental breakdown:

- Students 7 Language and Literature
- 3 Engineering
- 6 Art
- 5 Education
- 4 Science
- 5 Business Administration

The student who has material accepted by HORIZON is assured of an audience well over the thousand mark, and even this is a highly conservative estimate when one realizes that a single issue may be read by several people. Also, through our exchange program, HORIZON is sent to many colleges and universities throughout the country.

As in the past, all submitted material will receive due consideration from the staff, and this year they will return material that is rejected with a concise and highly objective criticism.

Material may be submitted to any of the Horizon staffers; or dropped in the contribution boxes which are located in the Library and in the Main Building near the entrance to Strouss Auditorium. The deadline has been set for November 15th.

Penguins Deserve Our Backing

This year's edition of Y.U.'s football team has gotten off to a terrific start, compiling a record of four wins and one loss through the first half of the schedule. Each one of these victories has been hard won and the team deserves excellent student backing for the remaining five games. Coach Dike Beede and his players are to be commended for the fine showing they have made this year.

A quick look at the remainder of the schedule reveals that the Penguins will have a rough road to travel for the last five games. The student body will have to get behind the team 100% and really support the fellows by not only attending the games but also giving some vocal support.

A Column for Independents? This Letter to the Editor Says Yes

Dear Editor and Students:

The Jambar has given recognition to the Greeks by such articles as "The Greek Letters," but what about a regular column on the Independents? I didn't state that you have overlooked the Independents because the Jambar has printed many complimentary articles concerning them, but I think a weekly column in their favor would be an attraction to the newspaper.

There are five sororities and twelve fraternities, but these are in the minority as compared to the number of Independents on the Y.U. campus. The Independents are doing more in leadership as individuals than any one group on campus. That is, they hold positions which put them top on the list as leaders in scholarship and activities. To name some of them who hold the highest position in governing affairs or activities, Leonard Loepp is one example as Student Council president. The editor of this paper is another example. Tish Davis is acting as

Neon editor this year, and also another editor is Frank Polite of the Horizon. Jim Sekinger, President of the Dramatics Guild and Rita Nolte, President of the English Society, must also be included.

These are a few of the students who prove that the Independents are as important as the Greeks for their contributions to the university.

I think a column on the Independents, since they are a majority, is as necessary as a Greek column.

Independently,
Barb Cronie, Director of the Y.U. Show

Alpha Mu Membership Drive Closes Oct. 22

Alpha Mu, Honorary Advertising, Merchandising and Public Relations Fraternity installed its new officers for the 59-60 season. They are: President, John S. Bernard; Vice-President, Thomas Penman; Secretary James Justice; Treasurer, Robert Clauser.

The fraternity's annual membership drive was opened September 24 and will end October 22. Any male student majoring in the above fields may contact any officer of Alpha Mu or Mr. W. Flad, Mr. K. Browne, Mr. L. Lengyle, advisors of the fraternity. Name, address, and telephone number may be left in the fraternity's mail box, Business Administration Building, Bryson Street.

Buenos Vecinos to Sponsor Book Sale

The meeting of the Spanish Club Sept. 25, commenced the 1959-60 year. Garry Scavnick presented the standing committees and appointed chairmen. Michael Noday was appointed chairman of the Scholarship committee, Rose Marie Scrocco is in charge of the Banquet committee Josephine Hanna chairman of the ways and means committee, with Rita Romeo heading the program committee.

Richard Dubiel, a senior, and winner of the 1959 Spanish club scholarship award, showed slides and reported on his trip to the art center at San Miguel Allende, in San Miguel, Mexico.

Report on Russia

The second meeting of the Los Buenos Vecinos will be held October 9. Miss Henrietta Miller, will be the principle speaker at this meeting. Miss Miller will give an illustrated talk on present day Russia. Miss Miller spent three months in Europe, six weeks of this time was spent in Russia. Any student interested in general cultural subjects is cordially invited. Mrs. Margarita W. Mills professor of Spanish at Youngstown University is club adviser.

Josephine Hanna, chairman of the Ways and Means Committee for Los Buenos Vecinos, announces that there will be a book sale in the lobby of the University Library on October 19 and 20.

Most of the funds raised by the club will go toward their scholarship fund which includes a six week summer study abroad. The scholarship is open to all full-time students registered at Youngstown University during the current academic year. The winner of the \$400 award will go to a Spanish-speaking country.

Newman Will Have Halloween Party

Following the regular business meeting, Sunday evening, October 18, will be the Hobo Halloween party at the Cardinal Mooney cafeteria. Prizes will be awarded for the most original and funniest hobo costumes. There will be games, spooky entertainment and cider and doughnuts for all those in costume.

Co-chairmen for the party are Joe Sujack and Gerry Oberman.

NEWLAND

ON RED CHINA

"We're going to bury him."

Peiping was the meeting place last week for the two men who rule one-third of the world's people: These two men were Red China's Mao Tse-tung and Russian boss Nikita Khrushchev.

Anniversary Parade

The reason for Khrushchev's visit to China was the celebration of Red China's tenth anniversary under a Communist regime. There was little anti-U. S. sentiment shown in this year's parade in comparison with previous years. This fact can be attributed to Khrushchev's recent visit to the U.S. and his constant mention of "peaceful coexistence."

Peaceful Means

While in Peking the Russian Premier advocated "Advancing the cause of communism through a greater productivity and effectiveness of the Communist system in peaceful competition with capitalist nations." This idea was not well received by the Chinese Reds.

Anti-U-S- Feelings

Although few overt actions displaying Anti-U-S- feelings took place during Khrushchev's visit does not necessarily indicate these feelings do not exist. The feeling of hostility toward the United States has been a main part of Red Chinese foreign policy since the Communist regime was established ten years ago. It would be impossible for any one person to wipe away this feeling in a matter of days, even a person such as Nikita Khrushchev.

Indochina and Taiwan

The United States is disliked by the Chinese Reds for several reasons. The U.S. has protected and prevented Chinese forces from occupying Taiwan; halted the Communist conquest of Indochina and has consistently refused to recognize Red China in the United Nations. In other words, the U.S. has opposed every aim of the Peiping government.

Friction in Peiping

Communist China's hostility to the United States has made its relations with Russia, also hostile to the U.S., very easy; but if there is any truth in Khrushchev's "peaceful coexistence" theme the relations between Red China and Russia may become strained. If Communist China does not receive Russian support in opposing the United States its position in Asia would be considerably weakened. It is doubtful if the Peiping government could withstand this weakening.

The Perfect Communist

Many people believe Mao Tse-tung to be the number one Communist leader in China, but he isn't. The most ardent proponent of Communist ideology in Red China is a little known man named Liu Shao-chi. He is the Chairman of the Chinese People's Republic, the second in command in China and the party disciplinarian. It is Liu Shao-chi who is so unbending in his hostility to the United States.

Tensions

Tension has always been apparent between Red China and Russia and the two powers are only held together by a common ideology and Red China's poor industrial progress. Although some Chinese Communists, such as Liu Shao-chi, would probably like to break from the yoke placed on them by Moscow, Peiping depends too much on Russia for military, economic and technical aid; factors that cannot be shunned in developing a world power.

False Solidarity

Despite the smiles of Nikita Khrushchev and Mao Tse-tung at Peiping last week it is doubtful if the tensions between these two powers were lessened. These tensions will remain as long as men like Mao Tse-tung and Liu Shao-chi retain control of Communist China.

Maybe Napoleon was right when he said; "Let China sleep. When she awakens the world will be sorry."

THE GREEK LETTERS

The school's social whirl has started with a bang. We're glad to see that the students are showing interest by their large attendance at various social functions and the football games. Remember that, YU school spirit can become contagious. Can't some of you catch it?

The Greeks are already burning the midnight oil in preparation for the Big Homecoming Weekend. This, plus other happenings are keeping the calendars full. Here's the scoop for this week on what's NU on campus among the Greeks.

Beta Tau

Beta Tau Fraternity had a tea a few weeks ago at Pollock House to announce its affiliation with Zeta Beta Tau, National Fraternity.

Theta Chi Fraternity

Last weekend the Brothers attended a convention in Kent. On the night of October 4th, the brothers of Theta Chi Fraternity enjoyed a hayride and an evening of entertainment. On this gala occasion Brother John Hite and Tish Davis became pinned. The brothers congratulate him on his choice.

Beta Sigma Omicron Sorority

Plans are being made by the Beta Lambda Chapter for a visit to the Chapters at Pitt and Cleveland within the next month, and for the visit of our National President. The sisters are busily working on their new apartment on Bryson Street. We wish to thank everyone who attended the Beta Sigma Omicron - Tau Kappa Epsilon Dance last Thursday after the football game.

Thursday October 14th was the date of the Beta Sigma Omicron - Sigma Tau Gamma Beatnik party. A most enjoyable time was had by everyone.

Alpha Omicron Pi Sorority

AOPi sorority recently elected new officers to the positions of Secretary, Terry Hreno; Assistant Rush Chairman, Kay Hart; Scholarship officer, Eleanor Walsh; Door Keeper, Mary Lou Cifaldi; Vice President, Mary Pellizzeri; Assistant Treasurer, Sandy Smoyer; and Historian, Judy Withers.

The sisters of Alpha Omicron Pi spent the weekend of October 10th with the Toledo chapter. They attended their rush parties and had a truly enjoyable and interesting experience while meeting all their sisters of the Toledo U. Chapter.

Sigma Phi Epsilon Fraternity

Still recovering from the Washington Conclave are 15 Ohio Mu Sig Eps. Our home on Bryson has just been painted giving it a new look on life and giving us a home of which we can be proud.

Some 25 men from our BW chapter were guests Thursday October 8th after the football game.

Congratulations to Bob Amsler on his thesis "What is Religion".

Tau Omega Fraternity

New officers for the year are Blair Kershaw, pres; Gary Kopp, v-pres; Charles Latcheran, Recording Secretary; and Richard Severa, Corr. Secretary. Don Kurcon is pinned to Norma J. Yohman, and Gary Kopp to Carolyn Eckles. Blair Kershaw was married to Loretta Myers on September 12th. Congratulations.

Kappa Alpha Psi Fraternity

The Kappa Alpha Psi Fraternity football team is to be commended for its fine showing to date. The brothers hope that the team spirit and play shown to date will hold up. Congratulations!

The annual Alumni-Undergraduate dinner was held and recipient of the Achievement Award was Dr. William Childress of Alliance, Ohio. Each year it is the practise of the Undergraduate chapter here to give this prize to the Alumni member who is felt to have contributed the most to the community and the fraternity. Dr. Childress is a former resident of Youngstown.

Phi Gamma Fraternity

A mile stone in the history of the Phi Gamma Alumni Association will be marked next Tuesday when they begin to actively participate in joint activities with the Youngstown Sigma Alpha Epsilon Alumni Association. This forthcoming meeting initiates plans for the merging of the two Alumni groups when the Phi Gamma Fraternity is officially installed as a chapter of SAE.

Mr. John Baugh, Chapter Supervisor working out of the National Headquarters of Sigma Alpha Epsilon will be the house guest of Phi Gamma Fraternity from October 2, until the 5th.

Kappa Sigma Kappa

The Kappa Sigma Kappa football team, coached by Ray Dolak, initiated their 1959 season with an impressive 32-0 win.

Gene Harvey has been elected new Sergeant at Arms.

Rene McGuire, fiance of brother Bob Cain was elected the International Sweetheart of Kappa Sigma Kappa Fraternity at the recent convention held at the Youngstown Pick Ohio Hotel.

To whom it may concern: B.H. is back from Cleveland.

Sigma Sigma Sigma

Sigma Sigma Sigma sorority will have their annual MUM Sale for the Homecoming Game on October 26th and 27th.

Marilyn Dillon is engaged to Ken Garrodd from Mount Union.

Phi Sigma Kappa

Phi Sigma Kappa Fraternity's new officers for the coming year are John Esposito, president; Pat McCarron, vice-president; Bill Home, Secretary, Noel Soos, treasurer; Frank Guarnieri, sentine; Bob Buzga, inductor.

Sigma Tau Gamma Fraternity

The Brothers wish to thank everyone for their attendance at Pete Penguin Ball. They are still trying to finish painting the frat house.

TAU KAPPA EPSILON

Well here we are in the "Rush" season again and as usual there are rush parties all over town. But for all of you men rushing, remember: We've had two get togethers this month. One being a real terrific hayride and the other a swingin' beatnik party. Everyone appeared with and of course the poetry. You might ask Ron Brothers about his "Tight Rope" act. If you see him on campus.

We have purchased two ping-pong tables and it's a nip and tuck affair to see who is "King of the Tables". You might ask Bob Whittaker about it.

Phi Mu

The Youngstown Alumnae Chapter of Phi Mu sorority has given the collegiate chapter several sets of card tables for their apartment. Suzanne Morosky was the Phi Mu hostess at Pete Penguin Ball.

Stephanie Lucich Becomes First Girl To Win Engineering Scholarship

by Frank Court
(Jambar feature writer)

If intelligence is the category, then the fairest sex is not necessarily the weakest one, at least, not in the case of Miss Stephanie Lucich.

Stephanie, or "Stevie" as she prefers, holds the rare distinction of being the first girl in Y.U.'s history to win an all-expense paid General Motors Scholarship in Engineering.

Ranks High

A charming 5 ft. brunette, "Stevie" hails from Hartford, Ohio, where she was a '59 graduate of Hartford High. Ranking high among her class in scholastic achievement, "Stevie" was elected to the National Honor Society.

Interest in science and math, coupled with an inspiration from a science fiction movie first started "Stevie" to think along the engineering line. The quick talking freshman has picked Chemical Engineering as her major, with hopes of entering the research and development field after graduation.

Hard Worker

Plenty of study is "Stevie's" secret to success. A hard worker, she devotes 5 hours daily to the books and believes study is more rewarding at night than during the sunlight hours.

All work and no play is not "Stevie's" philosophy. When not talking to her roommate, Margie McElroy, she busies herself with pet hobbies of art, classical music and sports.

When asked if she felt strange studying with a majority of male engineers, the petite little miss replied, "I did for awhile, but now I'm here to stay."

Zeta Phi Fraternity

New Officers of Zeta Phi:

President - Bob Spak

Vice-President - John Macanley

Secretary - Larry Markasky

Treasurer - Bob Lidle

Plans are under way for the building of the homecoming float and the annual Zeta Phi Winter Carnival.

Dick Elaine and Dave Pond will be in charge of the new pledges and the pledge program.

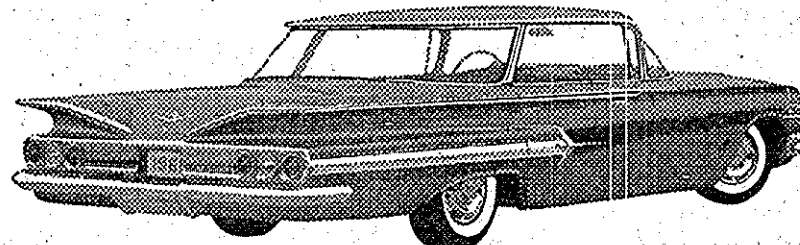

The brothers of Zeta Phi welcomed back "Gordie" Shook who has returned from his tour of duty in the U.S. Air Force.

HERE NOW ARE SIXTY'S SIZZLERS

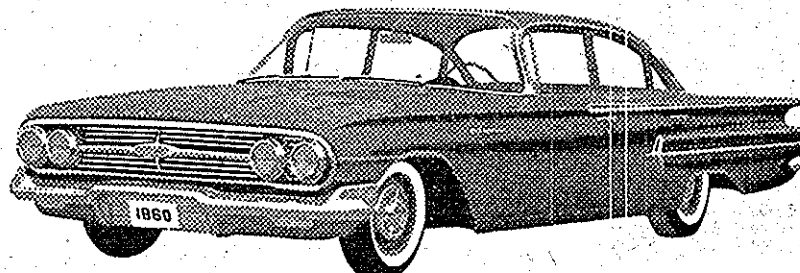

16 SUPERLATIVE NEW CHEVROLETS FOR 1960!

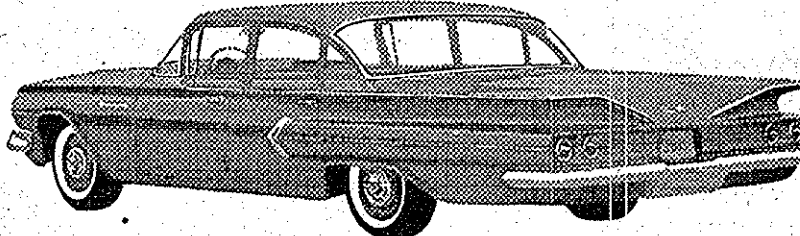

Nearest to perfection a low-priced car ever came!

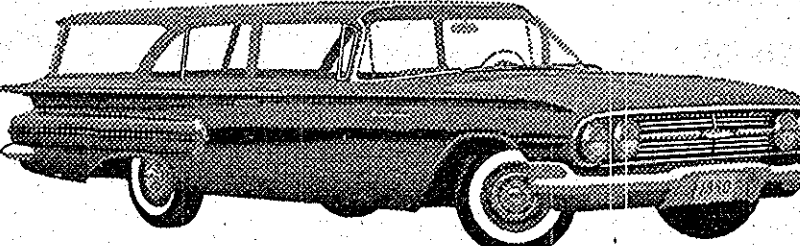

4 IMPALAS—All the car you ever yearned for! Each embodies distinctive treatment inside and out, with triple-unit rear lights, fingertip door releases and safety-reflector armrests. Impala sport sedan above.

4 BEL AIRS—Priced just above Chevy's thriftiest models! Like all Chevies, they give you the famed Hi-Thrift 6 or a new Economy Turbo-Fire V8 as standard equipment. 4-door Bel Air sedan above.

3 BISCAYNES—These (honest to gosh) are the lowest priced of the '60 Chevrolets. They bring you the same basic beauty and relaxing roominess as the other models. 4-door Biscayne sedan above.

5 STATION WAGONS—Styled to carry you away, with the kind of cargo space to carry away most anything you want to take with you! Thrifty 2-door Brookwood above.

Top entertainment—The Dinah Shore Chevy Show—Sundays NBC-TV—Pat Boone Chevy Showroom—Weekly ABC-TV—Red Skelton Chevy Special Friday, October 9, CBS-TV.

NOSMO KING

Emanates

by Frank Court

One of the most powerful forces present in the hands of modern society is the ability to change opinions and influence massive groups of people through a communicative effect known as propaganda.

Propaganda is defined by the dictionary as being, "doctrines or principles propagated by an organization or concerted movements." What is propagated and what type of organization or movement is responsible for the propagation, explains; to an extent, the effect that the principle professed will play on the world as a whole.

For instance, the effects of propaganda in the form of deceptive beverage advertisements have traveled extensively from continent to continent.

Nosmo's Encounters

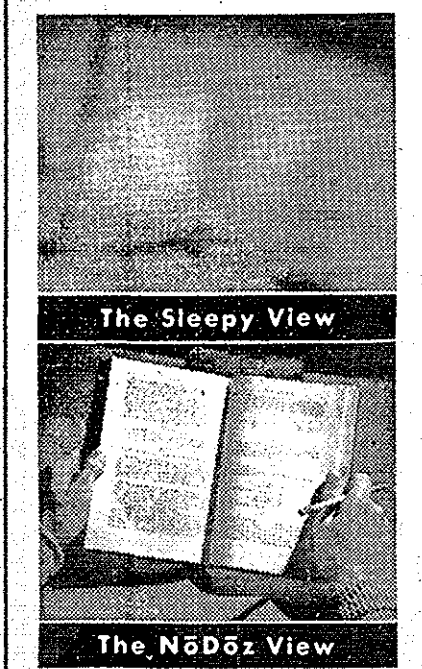

Nosmo King, during one of his African expeditions, wrote: "propaganda in the disguise of beverage advertisements have so influenced the jungle creatures that drunken elephants have reported seeing pink people."

In France, Nosmo encountered an artist who had been so obsessed by these false advertisements that he actually believed himself to be a champagne bottle and blew his cork.

When asked, what should be done if we become the prey and are taken in by these deceiving advertisements? Nosmo replied "go home and sleep it off."

Point to Remember

If your date for the evening suddenly swallows your cigarette lighter, and you are at a loss, not knowing what to do, don't become frustrated and lose your self control—use a match.

Millions of times a year drivers and students keep awake with safe NōDōz

Let NōDōz alert you through college, too

NoDoz keeps you alert with caffeine—the same pleasant stimulant you enjoy in coffee. Faster, handier, more reliable: non-habit-forming NoDoz delivers an accurate amount of dependable stimulation to keep your mind and body alert during study and exams until you can rest or sleep.

P. S.: When you need NoDoz, it'll probably be late. Play safe. Keep a supply handy.

Jazz Concert Rated A Terrific Success

Musical sounds resembling those of Stan Kenton were heard at the recent "Reflections in Jazz" concert sponsored by Phi Mu Alpha Sinfonia fraternity.

The highlight of the evening was John Petrone's rendition of "Like Young."

A 17 piece band, featuring arrangements penned by Chuck Sayre and Chuck Hitmar was evidence of the creative talent to be found in the Dana School of Music. The band's version of "Bess You is My Woman", from the show "Porgy and Bess", was well liked by the audience.

Chairmen for the concert were: Chuck Sayre, George Bannon and Dale Rauschenberg.

Senior Elections

(Continued from Page 1)

Assistant Editor of the Neon, Horizon, Vox Pop, and ROTC Torch Staff.

Competing for office of Secretary are Marcie Potts and Sandy Bailey.

Marcie is majoring in Elementary Education and teaches at Kirkmore School on a part time basis. She is a member of Alpha Pi Epsilon Service Sorority, Youngstown University Student Association, and served as a Junior Women Advisor for two years. She was secretary of Religion in Life last year.

Sandy is majoring in Education and is a member of SEA. She presently holds the office of Treasurer of Panhellenic Council and was a two year member of Student Council holding the office of Activities Chairman. Sandy was the Advertising Manager for the Neon last year and was Youngstown's Delegate to the Regional National Student Association. She was also last year's Junior Prom Queen.

Nominees for the position of Treasurer of the Senior Class are Tish Davis and Edward Stizza.

Miss Davis' major is Sociology. She is this year's Editor of the Neon and at present is serving as Secretary of Student Council. Tish has been on the Homecoming and Freshman Orientation Committees. She has actively participated in the Social Science Club and the Youngstown University Student Association.

Stizza is majoring in Art Education and holds the office of Treasurer in the Art Club. He has previously held the office of Secretary of IFC and Publicity Chairman for the Newman Club.

Korean Professor Sets Forth The Stages of Asian Nationalism

I
Substantially speaking, the Asian nationalism is anti-imperialism. It served as the energy of national liberation movement that released the Asian colonies from the Western powers' colonial rules and political ideologies, and eventually it enabled attaining independence and establishment of new Asian nations. This nationalism, with the emergence of new post-war Asian nations, has characteristically shown a tendency of the neo-nationalism.

II
The concept of the nationalism is a historical concept which reflected upon the process of modern international politics. It has been evolved through the media of the political backbone (though) that a state is an assemblage of the people who have gathered under the pretext of common destiny, kinship, geography, cultural system.

Such a concept of nationalism, as a whole, is the political principle of forming a nation and state. This concept has developed to form the principle of "Peoples' Self-Determination", and it further developed into the principle of national expansion aimed at gaining external expansion and national supremacy.

After the World War II, there have been occurred in Asia abrupt changes -- as Professor W. Macmahon Ball points out -- political, economical and cultural revolutions.

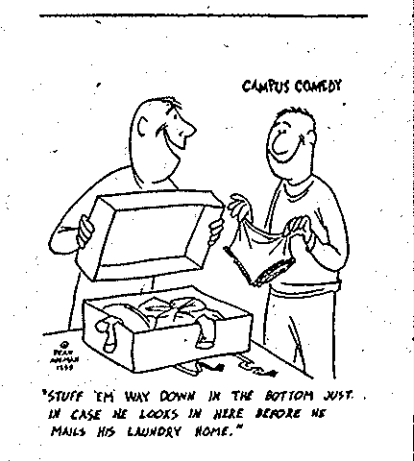

The motor force of this revolution in Asia was attributed to the Asian nationalism.

The characteristics of the Asian Nationalism can be described as: first, anti-colonialism; second, an ideology of the national development; third, peaceful political influences reflected on the current world history.

III
The historical task of the Asian nationalism, lies in the complete striving to detachment from outside control, poverty, and passiveness, and securing independence, prosperity and peace, through the modernization. The modernization of Asia can only be made possible by development of Asian individuality in parallel to westernization process. The first problem to be solved in the modernization of Asia is formation of modern states -- democratic states -- free from religious influence.

However, there exists in Asia various conditions curtailing the solution of this first problem. The second problem is how to secure the prestige of a state. Though external prestige is important, more important than this will be the gain and securing the loyalty of her own people.

How to create and strengthen patriotism among the people is a common question facing the Asian states. The peoples willingness and the administration policies aimed at furthering the real interest of her people would be only solution to this question.

"When a man looks a girl in the eye, she'd better do something about her figure."

Third problem is the possibility of developing modern Democracy. The growth of the western democracy has been comparatively smooth because of the favorable factor that its component societies were substantially identical in their characteristics.

Whereas in Asia the growth of Democracy will not be so easy as that of Europe as there prevail many handicaps -- compound and plural natures of societies. Especially, communitism, provincialism, racialism, linguistic regionalism, and minority are hindering the normal development of Democracy in Asia.

IV

Common objectives of the Asian nations are the modernization of their countries, which are well shown in their government's policies. This common objective is remarkably reflected in the major policies of individual nation which can be categorized into: 1) Socio-economic phase -- For the purpose of stabilizing national economy, Asian countries are enforcing the planned economy and the nationalistic economic policy, such as India's Five Year Plan. For example; the amendment of Bell Trade Act; nationalization of commerce, establishment of national marketing corporation of the Philippines; Act of Nationality, and anti-alien economic legislation passed in August 1956, and Alien Employment Act of Viet-nam; Suppression policy on Chinese residents and Thai Yai movement of recovering lost-land both undertaken by Thailand government are good examples of neo-nationalistic actions.

Sarekat Islam Movement in Indonesia and linguistic provincial movements in India are also typical showings of the neo-Asian nationalism.

2) Political phase, besides the socio-economic neo-nationalism in Asia, there exists clearly the political neo-nationalism which arose from the growing tendency to attain military supremacy as means of solving many regional disputes and struggles, and resultant control of the power by the military. The west Irian Darat problems between the Republic of Indonesia and the Kingdom of Netherland are still to be solved after the elapse of 10 years. Kashmir dispute, still unsolved, can be quoted as a typical struggle between the Hindu nationalism and the Moslem nationalism.

Recent developments in the southeast Asia indicate the growing tendency of the military gaining the control of nations by resorting to arms.

For example, Skarno's guided democracy and reinstatement of constitution of 1945 in July 1959 in Indonesia; the adoption of national charter in Burma in June 1958 and the emergence of the strongman General Ne Win; coup d'etat by field Marshal Sarit Thanarat in Thailand in Sept. 1958; coup d'etat by Iskandar Mirzain in Pakistan in Oct. 1958; and the theory of controlled democracy are good samples of the political neo-nationalism. These phenomenon comprise a new field of study in the Asian politics.

Will the Asian neo-nationalism hinder the growth of Democracy in Asia? Or will it expedite the growth Totalitarianism has helped expedite the national development but it also has inflicted many injuries. Here lies the dilemma of Asian politics

Alpha Mu Represented At Merchandising Convention

Ron Shimko, senior at Youngstown University, and a member of Alpha Mu Honorary Advertising, Merchandising and Public Relations Fraternity, will participate in the Annual Career in Retailing Week sponsored by Gimbel Brothers of Pittsburgh. The convention will begin Oct. 12 and continue thru Oct. 17.

The school's top retail merchandising senior will attend a week-long series of lectures, tours, conferences, luncheons and dinners designed to give him a comprehensive look into retail merchandising.

After a series of planned tours, a Department Store, Food Chain, and a Retail Chain, a panel discussion will be held at the University of Pittsburgh. The panel will be composed of young executives who have made significant progress in the field of Retailing. They will discuss "Professional Skills That Are Necessary in Specific Areas of Retailing".

Professor Louis Lengyel of the Merchandising Department will accompany Ron Shimko to Pittsburgh. Mr. Lengyel is an advisor to Alpha Mu.

Ron is the son of Mr. and Mrs. George Shimko of 1164 Taylor Ave., Warren, Ohio. Ron is a graduate of Warren G. Harding High School. He is a member of Sigma Phi Epsilon, Social Fraternity, R.I.L., and Dean's List.

Education Association Will Hold Meeting Oct. 22

The second regular meeting of Student Education Association will be held Thursday, October 22, 1959, at 7:30 p.m. at Pollock House.

Speaker for the evening will be Miss Lucille Patterson, who is a school psychologist with the Youngstown Board of Education. She will talk about individual testing. A group discussion will follow her talk.

The refreshment committee, Loetta Haller, Marleta Barnes and Barbara Schneider, will serve refreshments

WILDROOT CREAM-OIL
KEEPS HAIR GROOMED LONGER!
MAKES HAIR FEEL STRONGER!

"Surface" Hair Tonics Penetrating Wildroot Cream-Oil

"Surface" hair tonics merely coat your hair. When they dry off, your hair dries out. But the exclusive Wildroot Cream-Oil formula penetrates your hair. Keeps hair groomed longer... makes hair feel stronger than hair groomed an ordinary way. There's no other hair tonic formula like it.

MAKE HAIR OBEY ALL DAY WITH WILDROOT CREAM-OIL!

Looking **Y** Around...

By Pat McCarren

We have already completed the fifth week of classes, and the Science Building is still standing. This is a tribute to Yankee ingenuity in the vast field of construction, considering that the floors of the freshman labs are constantly being bombarded with various and sundry potent chemical concoctions. But do not be of the opinion that we are condemning these budding chemists. On the contrary, we feel sure that by the end of the semester, they will be capable of formulating compounds equal to those devised by the lab assistants.

Let us have a moment of silence for the late barracks which yielded to the beautiful new Science Building. Many a senior has been seen shedding a tear for the old Annex, which provided a source of adventure for beaucoup semesters. One was never sure when a wind would start the top floor swaying, and if this happened during a rainstorm, the net result was several seasick students.

During the first couple of weeks, some enterprising student could have made a small fortune by selling sandwiches to the line at the bookstore. Several people claimed to have stood in that line for as long as three and one-half hours. Anyone interested in opening another bookstore?

We notice that no students are allowed in the switchboard office. So beware, Little One, anyone coming out of room 109 is a real operator!

Those "Wet Paint" signs scattered around the Engineering Building are for real. We're not sure if the paint they were applying last May is still wet, or if they're putting fresh paint on daily.

Congratulations to the football team who defeated Baldwin-Wallace in a thrilling water polo match last Thursday. Let's hope that tonight's game is a bit drier.

The Library management is still accepting offers to buy the steel mill that was left over from the Golden Anniversary exhibition last year. Anyone interested may see the mill on the second floor of the library.

Speaking of the Library, if you have a foolproof way of keeping the venetian blinds from falling down every time they are adjusted, please contact the proper authorities at once.

What campus giant is using the wires leading to the Snack Bar for a tie rack?

Betty Candec is selling moose heads this semester at Buechner Hall. Anyone planning on pledging this semester will remember this important fact.

Once again this semester this column will cover many facts of vital interest to the YU student. Some of the things we hope to elaborate upon are the fence in back of Butler Art Institute, the dirty floors of the Snack Bar, etc. Stay tuned.

Our thanks to Tex who so graciously allowed us to use the typewriter in the Chaplains' office.

We leave you with this closing thought: That glamorous doll who combs her hair at the table or in class sure loses us as an admirer.

Take care of today, Little One, and enjoy it, because you will never see another October 16, 1959 again.

Amateur Drivers Get More Economy Per Gas Dollar

How good a driver are you? You can learn from the amateur drivers, if you would like to get more miles to the gallon, and cut your repair and tire bills as much as 25%. The secret is just plain, good driving.

J.C. Agajanian, official starter for the Mobilgas Economy Run for nine straight years, says that for everyday driving, the amateurs are the best. Want to test yourself against their knowledge? Try to pick the correct answers to these questions, then score yourself according to the instructions that follow.

1. A fast start can drop your gasoline mileage to: (A) 10 miles per gallon, (B) 8 mpg, (C) 6 mpg. 2. A sudden thrust on the throttle to pass another car while cruising can cut mileage by: (A) 25%, (B) 50%, (C) 75%. 3. An out-of-tune motor can reduce mileage by: (A) 1/4, (B) 1/3, (C) 1/2. 4. Braking your car to a sudden stop: (A) wastes gas, (B) saves gas, (C) does not affect fuel economy. 5. Smooth, steady driving can increase your mileage by: (A) 1 mile per gallon, (B) 3 mpg, (C) 5 mpg. 6. The biggest factor in your car's gasoline mileage is: (A) its horsepower, (B) its weight, (C) the number of starts and stops it must make. 7. Your 1959 model cruises most economically at (A) 35 miles per hour, (B) 45 mph, (C) 55 mph. 8. When coasting downhill in gear, your car gets about: (A) 20 miles per gallon,

(B) 35 mpg, (C) 100 mpg. 9. Of two engines differing only in compression ratio, the higher compression engine will require: (A) more gas, (B) less gas, (C) the same amount of gas. 10. To save gasoline when stopped 3 or 4 minutes for a train at a crossing, you should: (A) turn off your motor, (B) let it idle, (C) occasionally "gun" it to clear the carburetor.

The answers are: 1. (C); 2. (B); 3. (B); 4. (A); 5. (B); 6. (C); 7. (C); 8. (C); 9. (B); 10. (B).

Give yourself 10 points for each correct answer. If your total score is 70 or higher, you rate with the experts. From 40 to 60 is average. But if you scored 30 or less, you are a gas guzzler and could save from \$75 to \$100 a year in gasoline bills alone, if you improve your driving habits.

CAMPUS COMEDY

"GIVE TO BE A FOURTH OF A LITTLE SPONGE ABOVE THE BALL?"

Foreign Service Representative Talks To Students

Karl E. Sommerlatte, representative of Foreign Service spoke to a large group of students in the Audio Visual Room. His purpose was to inform students about careers in the foreign service of our government.

Mr. Sommerlatte is well qualified to speak on this subject having been stationed at diplomatic posts from Singapore to Marseilles in his ten years of service.

He stated that "any person with an inclination toward this type of work would find it very stimulating, satisfying, and rewarding."

When asked about the specific duties of an officer, he replied that they range from issuing passports and checking visas to political reporting. He added that "the primary responsibility for the conduct of our foreign relations lies in the hands of our Foreign Service Officer Corps".

Mr. Sommerlatte discounted the popularity held by many of the political scientists can function in the field of foreign relations. He stated that there are numerous places for people skilled in economics and business administration.

He advised all students interested and between the ages of twenty-one and thirty-two to take the nationwide selection test, which will be given on December 5. Application blanks for this test are available at the University Placement Test.

Student Council Finances Explained

by Doreen McCleery

(Jambar student council reporter)

Money is necessary to run any organization.

Who takes care of the money allotted to Student Council? It is the responsibility of the Student Faculty Relations Committee, composed of three faculty members appointed by President Jones, and the Finance Committee of the Student Council. The Council Finance Committee constructs the budget and the Student Council recommends its adoption by the Student Faculty Relations Committee. Student Council examines all proposed expenditures with the aim of presenting a well rounded program beneficial to all students.

The members of the Student Faculty Relations Committee are: President Jones, Dean Smith, Mr. Pickard, and Mrs. Dykema. The members of the Finance Committee this semester are: Sam Lalama Chairman, with Tom Flynn and Fred Middleton serving as committeemen.

Where does Student Council get its money? This semester Student Council is using the Student Activity Fee Income from the spring of '59. Student Council gets five dollars a semester, the entire activity fee paid by each full time student. With this money Student Council gives four big dances a year, publishes the Jambar and Neon, presents the Saturday Quarter Hour, establishes special projects, replenishes the Student Loan fund, backs intramurals, and sets some aside for the Student Union Building.

Student Council is your representative, using your money. How about some of your suggestions to make your university better?

Letters Welcome

Members of the editorial staff of The Jambar welcome letters from students and faculty. The editor reserves the right to cut items, however, if they are too lengthy or unnecessary.

Letters must be signed, but upon request, names will be withheld from publication.

On Campus with Max Shulman

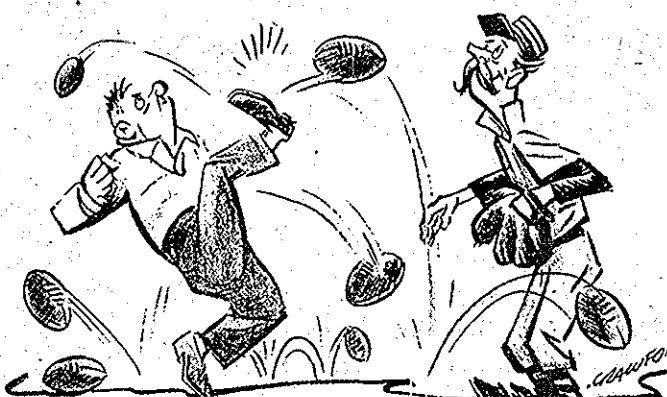

(Author of "I Was a Teen-age Dwarf", "The Many Loves of Dobbie Gillis", etc.)

FOOTBALL: ITS CAUSE AND CURE

Next Saturday at the football game while you are sitting in your choice student's seat behind the end zone, won't you give a thought to Alaric Sigafoos?

Alaric Sigafoos (1868-1934) started life humbly on a farm near Thud, Kansas. His mother and father, both named Ralph, were bean-gleaners, and Alaric became a bean-gleaner too. Later he moved to Oregon and found work with a logging firm as a stump-thumper. Then he went to North Dakota where he tended the furnace in a granary (wheat-leater). Then he drifted to Texas where he tidied up oil fields (pipe-wiper). Then to Arizona where he strung dried fruit (fig-rigger). Then to Kentucky where he fed horses at a breeding farm (out-toter). Then to Long Island where he dressed poultry (duck-plucker). Then to Alaska where he drove a delivery van for a bakery (bread-sledder). Then to Minnesota where he cut up frozen lakes (ice-slicer). Then to Nevada where he computed odds in a gambling house (dice-pricer). Then to Milwaukee where he pasted camera lenses together (Zeiss-splicer).

Finally he went to Omaha where he got a job in a tannery beating pig hides until they were soft and supple (hog-flogger.) Here he found happiness at last.

Mr. Doubleday had invented baseball the day before...

Why, you ask, did he find happiness at last? Light a firm and fragrant Marlboro, taste those better makin's, enjoy that filter that filters like no other filter filters, possess your souls in sweet content, cross your little fat legs, and read on.

Next door to Alaric's hog-floggery was an almond grove owned by a girl named Chimera Emrick. Chimera was pink and white and marvelously hinged, and Alaric was instantly in love. Each day he came to the almond grove to woo Chimera, but she, alas, stayed cool.

Then one day Alaric got a brilliant idea. It was the day before the annual Omaha Almond Festival. On this day, as everyone knows, all the almond growers in Omaha enter floats in the big parade. These floats always consist of large cardboard almonds hanging from large cardboard almond trees.

Alaric's inspiration was to stitch pieces of pigskin together and inflate them until they looked like big, plump almonds. "These sure beat skinny old cardboard almonds," said Alaric to himself. "Tomorrow they will surely take first prize for Chimera and she will be mine!"

Early the next morning Alaric carried his lovely inflated pigskin almonds over to Chimera, but she, alas, had run off during the night with Walter T. Severidge, her broker. Alaric flew into such a rage that he started kicking his pigskin almonds all over the place. And who should be walking by that very instant but Abner Doubleday!

Mr. Doubleday had invented baseball the day before, and he was now trying to invent football, but he was stymied because he couldn't figure out what kind of ball to use. Now, seeing Alaric kick the pigskin spheroids, his problem was suddenly solved. "Eureka!" he cried and ran to his drawing board and invented football, which was such a big success that he was inspired to go on and invent lacrosse, Monopoly, run sheep ruin, and nylon.

When you go to next Saturday's game, take along the perfect football companion—Marlboro Cigarettes or Philip Morris Cigarettes or new Alpine Cigarettes—all a delight—all sponsors of this column.

DRINK A LITTLE BEFORE DRINKING DRINK PLEASE

Penguins Edge Baldwin-Wallace; 6-0 Face Ohio U. Bobcats Tonight

Y.U. Tangles With Unbeaten Ohio University Tonight

By Paul Jagnow
(Jambar sports editor)

Youngstown University's Penguins will match their talents with those of the Ohio University Bobcats, tonight at Raven Stadium to open the second half of the Y.U. grid season.

"Dike" Beede's Penguinmen will be working for their fifth victory, having brought home the bacon in four out of five of their previous outings.

Ohio University will be striving to keep their record perfect, having routed Toledo, Kent State and Xavier thus far this season.

Upon the completion of tonight's game the Penguins will have four left to play, giving them a chance to pull through their first winning season since 1954. The Youngstowners closed the '54 grid year sporting seven games on the credit side and having only two in the debit column.

In Series Since 1940

Youngstown's Penguins have been in an "off again on again" series with Bill Hess' Bobcats since 1940, emerging victors in only one of the four contests. Youngstown dropped the initial game, of the series, 13 to 0. The second game, in 1941, found the Penguins on top, 14 to 0. In 1955 the locals were edged out by the Bobcats, 6 to 0. Ohio U. had a field day last year, storming the "Beedemen", 38 to 0.

Youngstown 24 Point Underdog

Ohio's Bob Brooks, who carried the ball 189 yards against Xavier last week, will be a sure-fire threat against the Penguin defenses tonight. John Balough and Bob Harrison will also show no quarter to the Youngstowners in offensive play.

Youngstown, who is rated a 24 point underdog in the fray, will be depending on the talents of "Butch" Morelli, Dave Johnson, Harold Green and Tom Richards to put them in the winners circle.

Ohio University proved successful in five of nine outings, last year, winning games with Youngstown, Toledo, Dayton, Marshall and Louisville, while giving up games to Kent State, Miami, Western Michigan and Bowling Green.

The Penguins broke even last year in wins and losses, taking four and dropping four. After being drubbed in the opener by Ohio U., the locals bounced back to nip New Haven, 20 to 15, and then were outscored by the Eastern Michigan Hurons, 21 to 12, the following week. The Penguins clipped off Western Kentucky, Eastern Kentucky, and Baldwin Wallace in short order before being checked by Gustavus-Adolphus and Toledo at the end of the season.

Rubber Bowl Next Week

"Dike" Beede's gridders voyage to the Akron Rubber Bowl next Saturday to clash with the Akron University "Zips" in the seventh game of the Penguin football season.

Jambar Salutes Tom Majovsky

by Bill Kish
(Jambar Sports Writer)

Tom "MO" Majovsky in his first year of football at Youngstown University has proven to be a valuable asset to Dike Beede's Penguins.

"MO MO" has been used in the first four Penguin games as an offensive center and defensive line-backer and in all probability will remain there.

Began Career at Holy Name

Starting his football career at Holy Name School, he progressed to a unanimous All-City choice at Ursuline. Tom was also named to the All-Ohio team where he started offensively and defensively.

The University of Iowa was the start of his college career. "Mo-mo" spent one semester there but decided that he would prefer to play for the Penguins although he had to sacrifice two semesters of play.

Education Major

Tom is an education major and would like to become a high school or college coach. "Mo" has strengthened the middle of the line so that the backfield men can now gain considerable yardage.

In asking what made the team better than last years' he said; "I haven't seen a Youngstown team with more spirit and fight; the boys use team work to the highest degree".

Penguins Nipped by N. Michigan 7-0

Northern Michigan's Wildcats tallied on a first period score to sink the Y.U. Penguins, 7-0, Friday, October 2, at Marquette, Michigan.

Northern's single tally came early in the opening period, when the Wildcats forged ahead on a scoring drive that carried them 83 yards to paydirt.

With 4:45 left in the first quarter, Gene Valesano, Northern back, took the pigskin from Frank Novak and swooped around Y.U.'s left end and rolled into the endzone from the Penguin 24.

Penguin bids were foiled throughout the entire game by the Michigan defenses.

Youngstown's first threat against the Northern Wildcats came near the end of the first half, when a pass interference penalty against Michigan gave the Youngstowners a first down with the Northern goal only seven yards away. On the next offensive Penguin halfback, Dave Johnson, drove to the Northern 2 yard marker, but the clock expired before the locals could make a final drive in to the endzone.

Northern began their second offensive when Tom Schwalbach carried the ball 66 yards to the Penguin 24, before being dropped by Morelli.

In the third quarter Youngstown drove to the Wildcat 25, only to have their chances ruined by a pass interception.

A bad center on a punt attempt gave the Penguins another chance to even the score near the end of the third period. They drove to the Northern 44, but were stalled when a Ralph Morelli plunge fell short, on the fourth down.

Can't you come?
"OH TO LOVE TO USE A COLE BASE WITH YOU. WE'LL SEE...HOW ABOUT TWO WEEKS FROM FRIDAY AT 3:16 PM?"

First Period TD Topples B-W

By Paul Jagnow
(Jambar sports editor)

Despite torrential rains and a quagmire-like gridiron, the Youngstown University Penguins squeezed out a 6-0 victory over Baldwin Wallace, last Thursday night at Raven Stadium.

Youngstown's lone touchdown came mid-way through the initial period of play, when Penguin end, Tom Smolanovich, pilfered a Chuck Brady aerial on the B.W. 40 yard marker and raced to the 21 before being stopped. On the next play, halfback, Dave Johnson took over and carried the pigskin to the 12. A Penguin pass attempt was foiled, but fullback, Ralph Morelli, found an opening on the following play and tore into the endzone with about six minutes left in the first quarter.

Brady, who is considered to be one of the nation's outstanding passers, was held in check by the Penguin defense throughout the entire contest, connecting on only two of 10 pass attempts.

B.W. Makes Final Bid

Near the end of the final period, the Yellowjackets made a final attempt to even the score, when Bill Ridge took off from his own 31, for a 24 yard gain. Brady then followed suit with a 16 yard sprint to the Youngstown 30. With less than a minute remaining, Harold Green, Penguin quarterback, snatched an attempted B.W. pass and returned the ball to the Penguin 21. Three plays later time expired ending all hope for the Yellowjackets.

The Penguins have now accumulated four wins as to only one loss, that being to Northern Michigan, on October 2nd.

Skin Diving Becoming Popular In U. S. Sporting World

By Dick Crosbie
(Jambar sports writer)

(Ed. Note) This is the first in a series of articles on skin diving.

Skin and S.C.U.B.A. (Self contained underwater breathing apparatus) diving, which is relatively new in the world of sports, is also fast becoming one of the most popular.

Until recent years very little was known about diving by the common person, since diving was confined mostly to the Naval Armed Forces.

Many people think SCUBA and skin diving are the same thing, actually they are not. In skin diving a mask, fins, snorkel and suit are all that are used, whereas in SCUBA, in addition to the above, tanks and a regulator are used. This is where the term SCUBA originates, in that the air supply is carried by the diver.

Another method of diving is called "hard hat". On this type of diving the air supply is furnished to the diver from the boat by means of hoses. The diver wears a heavy and awkward suit and a large heavy helmet, which completely covers the divers head. From this helmet comes the term "hard hat". The whole outfit is very cumbersome and the diver moves very slowly. This was used by the Navy and salvage companies before SCUBA appeared on the scene. Although SCUBA gave the diver more freedom and the ability to move faster, "hard hat" is still used in many instances.

Hayes Denies Hitting Man

Coach Woody Hayes commented Monday on his alleged slugging of a sportswriter's helper after the Ohio State-Southern Cal game.

"I did not hit that man," Hayes asserted. "I pushed him out the door."

THE INCIDENT, which was given national attention by the wire services, was called "that unfortunate thing out there on the coast."

Hayes said two men were stand-

ing by the door of the Bucks' dressing room. When he asked them to leave, Hayes said, one walked out and the other just stood there.

"I walked over to the other one and said, 'Will you please leave?' When he didn't move I shoved him," Hayes said.

"The other man did not see it because he was out the door. He must have assumed I hit the man."

HAYES DEFENDED his action by noting that it was agreed by coaches and national football writ-

ers several years ago that a coach is given 20 minutes alone with his team before he must face reporters.

"I always take this time," Hayes said. "Win or lose out there, there are things I say to my team that are not for publication."

The man who accused Hayes of slugging him reportedly was at the game "to help his brother." Apparently he was ignorant of the agreement between coaches and reporters. And apparently, he hadn't heard Woody Hayes is a forceful man.

Compliments of a Friend

They kept warning me this would happen if I didn't think of some super way to describe that absolutely unique good taste of Coca-Cola. So who's a Shakespeare? So no ad... that's bad! But, there's always Coke... and that's good!

Kappa Sigs Sink Theta Chi, 15-0 Sig Taus Rout Sig Eps 26-0

Kappa Sigs, Sig Taus, Zeta Phi Lead IFC FB

By Bill Kish
(Jambar sports writer)

Sigma Tau Gamma ripped out a 26-0 victory over Sigma Phi Epsilon, last Sunday in its third IFC football game.

Featuring in the Sig Tau offensive were Charles Africa and Delmar Stanley whose pass combination tallied for the first two touchdowns. John Krotky's passes to John Africa and Stanley accounted for the other two Sig Tau T.D.'s.

The S.T. defenses proved too strong for the Sig Ep offenses and prevented them from even getting close to scoring territory.

Zeta Phi proved to be a tidal wave of power as they romped over the Beta Tau six. After tallying for 36 points in the first half the Zeta Phis came back to add 20 more points to the 56-0 drubbing.

Phi Gamma edged Tau Kappa Epsilon in the first tie in league competition. The 7-7 tie was settled by a penetration overtime in which the team that advanced the farthest wins.

Kappa Alpha Psi emerged a 25-0 victor over Tau Omega. Walt Washington ran a pass interception 45 yards for a score and Green went 40 yards on a pass play to aid the victors.

Kappa Sigs Top T.C.

Kappa Sigma Kappa topped Theta Chi 15-0 in a hard fought battle. Kane and Corbet were the offensive standouts for the Kappa Sigs. Theta Chi was pushed back for a safety early in the second half.

Alpha Phi Delta edged out a 12-6 victory over Phi Sigma Kappa in class "B" competition.

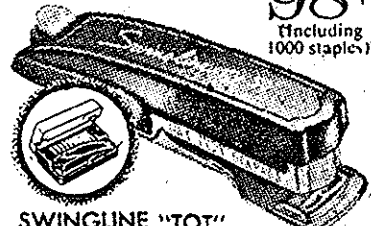

All independents, fraternities or other groups interested in bowling in the Intramural League should be at the Champion Bowling Lanes, Sunday at 4:00 p.m.

Basketball Drills

Basketball drills opened last night at South High Fieldhouse. Coach Rosselli stated that anyone interested should report for tryouts Monday at 6:30 at the fieldhouse.

Inter-mural Bowling Began Last Sunday

Inter-mural bowling began last Sunday with the majority of the Campus' social and professional fraternities participating in league play.

Inter-mural bowling is an Inter-Fraternity Council sanctioned event, governed under the same rules that apply to IFC football, basketball and baseball.

All games are played at the Champion Bowling Lanes.

UPI STANDINGS

- Team
1. Louisiana State (23) (3-0).
 2. Northwestern (6) (2-0).
 3. So. California (4) (3-0).
 4. Texas (2) (3-0).
 5. Georgia Tech (3-0).
 6. Tennessee (2-0).
 7. Mississippi (3-0).
 8. Purdue (1-0-1).
 9. Wisconsin (2-0).
 10. Iowa (1-1).

Injuries Featured As Sig Tau Downed Theta Chi

Sigma Tau Gamma squeaked out a 7 to 6 victory over Theta Chi. Charles Africa's pass to Del Stanley for the Sig Tau's conversion the deciding factor.

Injuries hampered both teams.

Early in the contest Bill Baker of Sigma Tau Gamma was sent to South Side Hospital, his left arm dislocated in two places.

Later in the game Theta Chi's Tom Reed received a cut on his left eye which required eight stitches.

Kappa Sigma Kappa shut out Phi Gamma 34 to 0.

Corbett opened the scoring for the Kappa Sig's early in the game with a 50 yard run.

Joseph, Brahney and Kane teamed up for the remainder of the touchdowns for the winners.

Kappa Alpha Psi topped the Phi Sig's, 26 to 12; behind the passing and running of Green and Raines.

Zeta Phi out classed Tau Omega, 41 to 0. Allegretto, Giambalista, and Klinger featuring in the scoring for the Zeta Phi's.

Steel and Petrasky led the T.K.E.'s to a second half victory over the Sig Eps. Bill Johnjuliano blocked a punt attempt in the end zone and Deloretto pounced on it for the final tally, which raised the final to 20 to 0.

"THE RITE IS A NICE ONE, BUT DON'T LET HIM GET STARTED TALKING ABOUT SPORTS."

Still young and beautiful at age 75! THEY SAID IT COULDN'T BE DONE

But America's most famous lady does it!

No Paris design of '59 is more lovely than this ageless beauty, a gift from France 75 years ago. Miss Liberty has welcomed millions to these shores with the words, "Give me your tired, your poor, your huddled masses yearning to breathe free... I lift my lamp beside the golden door."

A cigarette that's Low in tar with More taste to it! THEY SAID IT COULDN'T BE DONE

But L&M does it!

When you're in New York, be sure to make the trip over to see Miss Liberty. And wherever you are right now, enjoy the cigarette that's kindest to your taste. That's L&M: Low in tar, with more taste to it. No wonder more Americans switch to L&M every day! Live Modern... switch to L&M!

Live Modern with L&M KINDEST TO YOUR TASTE!

Around Campus

With the first issues of the JAMBAR out and the reaction favorable, I shall present this years editor. Heading this years paper will be our very dear friend Dave Poole. He has served as managing editor for a number of semesters under Mickey Kaiser. I'm sure you have noticed some of the changes made thus far. If Dave sticks to his pre-semester proposals the student body will have the best paper in its history.

MUSIC, MUSIC, MUSIC

The English Society presented its program of modern poetry readings to jazz. Steve Hawthorne and coliors were in charge of the show. The combo consisted of a bass, a pair of trumpets, drums, piano and sax. My thanks to the English Society and particularly Rita Nolte for the invite and the warm reception. I was told that the group that appeared at the meeting are presenting jazz concerts every Sunday afternoon at the Jewish Community Center. If you are a fancier of the better in modern sound make it a point to hear the group.

Phi Mu Alpha Sinfona presented their first annual jazz concert on Wednesday, Oct. 5. The show consisted of only the fraternities members and it was a big and exciting event. The proceeds from the concert went into a scholarship fund that is available to any deserving, male, upperclassman majoring in music.

While on the subject of music I would like to pause a moment to praise this years splendid marching band. Though I am hardly an expert judge, it seemed to sound better at the T.A.&I game than it ever has before. The new band director deserves a much earned vote of thanks.

CHANGES

As in the past, this new school year has brought with it a number of significant changes. One in particular was the razing of the Annexes and the construction of a new faculty parking lot in its place. Another is the moving of the silverware tray from the end of the cafeteria line to the beginning. Also in the cafeteria this year the sandwiches are made behind closed doors to insure a pleasant surprise for the hungry student. This year, unlike those gone by, the struggling engineering students must tote their equipment clear up to the main campus in general and the new science building in particular ... eliminating the sending of CARE packages and stamps to the Rayen School of Engineering. Although this extra trip "up" might seem troublesome at first, upon looking closer there are a few advantages. For instance it's been rumored that one Senior "engineer" actually discovered that there were a few people in existence that did NOT know how to use a slide rule ... amazing, isn't it?

Fashion Magazine Calls Contest Date

Mademoiselle magazine is now accepting applications from undergraduate women for membership in its 1959-60 College Board.

Mademoiselle's College Board Contest offers a chance (for the freshman as well as the senior) at winning one of the 20 Guest Editorships—a month on the staff of Mademoiselle.

A woman who is accepted on the College Board will do one assignment during the college year designed to help her discover her own abilities and job interests, and to develop her critical and creative talents. For her assignment a College Board member may write a feature about life on her campus; or submit art work, fashion, feature, fiction or promotion ideas for possible use in Mademoiselle.

College Board members who come out among the top 20 on the assignment win a Mademoiselle Guest Editorship and will be brought to New York next June to help write, edit and illustrate the August College issue. They will be paid a regular salary for their month's work, plus round-trip transportation to New York City.

While in New York each Guest Editor interviews a celebrity in her chosen field, visits fashion work-rooms, newspaper offices, stores and advertising agencies.

For further information write the College Board Contest, c/o Mademoiselle, 575 Madison Ave., New York 22, NY.

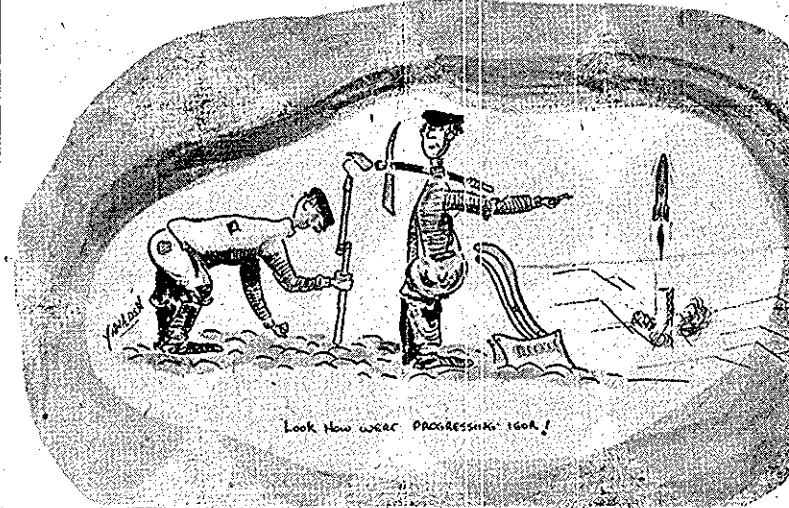

With Dave Manley

THE MILITIA

'Commander in Chief' Cadet Bob Hunter opened his mouth once too often, this time, unfortunately, in a dentist's office. Take heed, Mr. Whittaker. Lieutenant Mellon does not seem to have the same 'pull' with the Colonel as he does with his 'chickens on Tippecanoe Road ... it's always better than being a Sargeant.

One uneventful afternoon was slightly livened up by a bit of animal cruelty to animals. It seems a well meaning mother squirrel was trying to take baby squirrel to the top of one of the trees in the campus green. Unfortunately though she would inevitably, every time, lose her hold and drop poor baby to very hard terra firma. This rapid descent and sudden stop had the expected effect on the helpless being. I believe, however, that after the fifth drop, some humanitarian minded co-eds took the corpse and hid it thus saving it further humiliation.

Jim Quilty formerly with the Niles paper is now with The Warren Tribune. Could it be that another Youngstown University student will hit the big time.

JAMBAR Deadline!

Organizations are reminded that the JAMBAR deadline is every Friday afternoon at 3:45, and that news releases must be in the JAMBAR office on the second floor of Pollock House by that time or risk not being published.

Also, it would be appreciated if news releases are typed and double spaced.

Physician Serves School's Needs

Dr. John Hyland, who is associated with Dr. John McCann as Director of Health, will spend one hour a week on campus. On Wednesdays from 11 till 12 o'clock he will be in the University Health Clinic which is located on the second floor, Central Hall. Any student who wishes to consult Dr. Hyland may do so during this hour. For any further information see one of the nurses in the Clinic at any time.

LUCKY STRIKE presents

Dear Dr. Frood:

Dr. Frood, Ph.D.T.

DR. FROOD'S MORAL OF THE MONTH

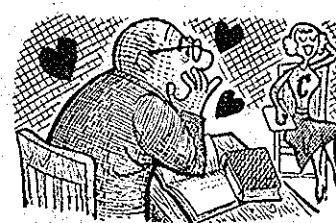

Things worth having are worth working for. For example: If you want a football letter, find a football player and ask him to write you one.

Dear Dr. Frood: I'm flunking everything but math. I get D in that. Help me.
(Name withheld by request)

Dear Withheld: Spend less time on math.

Dear Dr. Frood: I go steady with two girls—one in the dorm, one in the Theta house. Traveling between the two places is making a wreck of me. What to do?
Tired

Dear Tired: Get your girl to get your girl into her sorority.

Dear Dr. Frood: I have a ravishingly beautiful girl in my class. Sadly, she is witless. Should I flunk her?
Bookish

Dear Bookish: Pass her. Other professors are waiting.

DR. FROOD AND THE AMAZING NEW FILTER

I had occasion recently to study the remarkable "no smoke" filter made of solid lead. No matter how hard you puff, you get no smoke. Incidentally, a pack of these cigarettes weighs 2 pounds. Luckies weigh less ... and you get smoke. The best.

Dear Dr. Frood: I'm a 35-year-old freshman. Should I wear a beanie?
Worried

Dear Worried: If I were a 35-year-old freshman, I'd wear a mask.

Dear Dr. Frood: Nobody likes me. Girls despise me. Men can't stand me. Prof's detest me. Dogs snap at my cuffs. What should I do?
Hated

Dear Hated: Don't ask me. I don't like you, either.

Dear Dr. Frood: I'm a non-conformist. But I smoke what everybody else smokes—Lucky Strike. How can I be different and still smoke Luckies?
I. M. Odd

Dear Mr. Odd: Light both ends of the Lucky and insert a straw into the middle. Sip the smoke through the straw and say "wildsville" after each puff.

COLLEGE STUDENTS SMOKE MORE LUCKIES THAN ANY OTHER REGULAR!

When it comes to choosing their regular smoke, college students head right for fine tobacco. Result: Lucky Strike tops every other regular sold. Lucky's taste beats all the rest because L.S./M.F.T.—Lucky Strike means fine tobacco:

TOBACCO AND TASTE TOO FINE TO FILTER!

Product of The American Tobacco Company—Tobacco is our middle name
