

**Date: June 3, 1998.**  
**To: Academic Programs Division Committee Members.**  
**From: Craig S. Campbell, Chair, Academic Programs.**  
**Re: Holding Education & Human Ecology programs.**

The education and human ecology programs passed by us over the last month or so have been objected to by the psychology department which has traditionally provided important service courses. Their objection is a significant one. In addition, there were apparently several math courses included in these programs that were on paper and planned but never submitted to the curriculum committee for approval. This issue will be addressed at the Senate meeting today, so you are probably getting this information a bit late (I only found out about the problem yesterday). It will be announced that the Pre-Kindergarten Associate, Early Childhood, Middle Childhood, and Secondary Education program proposals are **on hold** until these matters are ironed out among the departments and programs involved.

Psychology's objection is enclosed document.

**Call for meeting:** I would like to call a committee meeting for **Tuesday, June 9 @ 3:00** in Geography Conference in 2031 Cushwa. This will be finals week - let me know if you cannot attend.

**Cc:** Louise Pavia, Chair, Human Ecology.  
Jeff Coldren, Psychology.  
Phil Ginnetti, Chair, Teacher Education.  
John Buoni, Chair, Mathematics and Statistics.
