## Interoffice

MEMORANDUM Dana School of Music, Youngstown State University
to: Dr. Gregory Claypool, Chair, Academic Programs Committee
from: Joseph Edwards, Director, Dana School of Music
subject: Attached academic program revisions
date: January 24, 1996

Thank you again for taking time to meet with me last week and provide some insight into the process of academic program revisions. The attached materials should be of some help in that I have lined up current catalog requirements as they are listed with the proposed design for your reference. My added notes should be of some help in addressing some of the issues, but I would be more than happy to attend your meeting and clarify points of adjustment.

In summary, the curriculum proposals before you have been made possible following a three year review committee which attempted to respond to recommendations of our accrediting agency (NASM) National Association of Schools of Music. The critical aspect of this revision was made possible through a general reduction in applied studio study for most music majors. You will notice that in each area of applied instrument or voice the total number of hours required has been reduced substantially in order to provide some adjustments to the program without sacrificing our obligation to the validity of the current design. None of the adjustments that have been proposed will affect other programs or impact upon other departments.

On the first sheet on your packet, page number one, you will note that under Roman numeral II, proposed design core requirements, a keyboard musicianship class has been added to this program. This basic keyboard class has been a part of all degree programs with the exception of the B.A. for the past 25 years, however, following the recommendation of our accrediting agency the faculty felt supportive that it should be an integral part of the B.A. program as well. The primary adjustments in the B.A. program have been to permit more flexibility in the program in the way of electives and opportunities. The adjustments are addressed in my notes and I shall not elaborate on them further.

On page three, the proposed design for the performance degrees is outlined. The only adjustment in the general university requirements is one which seems to have been an oversight on our part and, therefore, you will see an increase in the humanities hours from 15-19 to conform with the requirements of Youngstown State University. The remaining elements are all designed to provide flexibility and opportunity for our majors. The major instrument or voice in this case has been reduced from 45-42. A minor adjustment, but one that allows courses to reflect proper weight.

The remaining adjustments have been primarily in response to our accrediting agency in order to develop a consistent program from area to area and create flexibility for the students. On page five, you will find the proposed jazz curriculum and aside from a minor adjustment in the applied

## Page 2

January 18, 1996
major area and the addition of one new course Jazz Fundamentals, the degree remains intact.
The curriculum on page six for accompanying has been redesigned to met the needs of the students and provide more flexibility. The essential points of the program have not been disturbed.

On pages seven and eight you will find the music education degree. This has been the degree that our accrediting agency has encouraged us more strongly to address and our faculty has done so appropriately. The main adjustments have been in integrating a computer applications course for music majors, which is now a requirement for certification in Pennsylvania and many other states and our accrediting agency has urged us to make this part of our degree program, however, the computer applications course was not an added course, but a substitute for a former theory elective course. The other courses listed as Marching Band Techniques and Show Choir Techniques are also reactions to our evaluation and have been substituted for previous music education electives. The courses in instrumental literature and choral literature have been inserted as substitutes for a music history elective under the current catalog.

The remainder of the program has had minor adjustments, but remains intact to preserve the integrity of the years of development. What is presented to your committee today is by far more consistent with our sister institutions and provides a forward looking design for our students and faculty.

I look forward to meeting with your committee to respond to any questions and would be glad to clarify any issues which may arise. Thank you for your cooperation and assistance.

JE/rs

Date Rec'd $\qquad$
$\qquad$
Addition of a new program (Complete $B, C$ )
$\ldots$ Deletion of an existing program (Complete A,C)
XX Change in an existing program (Complete A.B,C)
Program title $\qquad$ Department Music
A. Describe the requirements of the program as it currently exists. (Attach additional sheets if necessary.)

SEE ATTACHED
B. Describe the requirements of the proposed program. (Attach additional sheets if necessary.)

SEE ATTACHED
C. Using as many additional sheets as are necessary, provide a rationale and estimate how this additiondelecion/change of program will impact upon the resources of departments other than the one originating the form (e.g. enrollments, frequency of suppor-course offerings, staring, budgets. equipment, duplicate courses. etc. ).

While most of the rationale for each of these programs has been addressed in the cover memo, it is important to emphasize that all adjustments are internal and have no impact upon the resources of other departments other than music. The proposed changes will have a positive impact upon our recruitment in that the new design is closer to that of our sister institutions and provides more reasonable utilization of our faculty resources.
